SIGNAL STATION, VICTORIA PEAK, HONG KONG,

1823 Feet above Sea Level.

The Union Jack will be hoisted at the Mast Head when any vessel is being signalled.

The Commercial Code of Signals for all Nations will be used at the Station.

All Signals made by vessels in the Offing will be repeated.

When Signalling to Men-of-War in the Harbour or in the Offing, a White Ensign will be hoisted at the Flagstaff, and at the Mast Head of the Man-of-War.

When a Steamer, or the smoke of a Steamer, is sighted, the *Compass Bearing* at the *Yard Arm*, and *Distance off* at the *Mast Head*, will be hoisted. If, when the vessel is made out, she is *not a Mail Steamer*, the Vessel's Distinguishing Flag will be substituted for the Compass Signal, and it will be kept flying until the Ship anchors. The *Distance Signal* will be kept up fifteen minutes after the Steamer is made out.

If the Steamer is a *regular Mail Steamer* a Gun will be fired, and a *Ball* over the English, French, or American *Ensign*, with the *Distance off* at that time, will be shown at the *Mast Head*. The *Compass Signal* and *Symbol* will be hauled down. The *Ball and Ensign* will be kept up until the vessel anchors. The *Distance Signal* will be kept flying for *half-an-hour*, and changed at each *successive half hour* to show the *Distance off* at those times. When the vessel is between Green Island and the North Point of Hong Kong the *Distance Signal* will be hauled down. If the *Mail Steamer* is *not in the Harbour* when it is too dark to distinguish flags, a *red light* will be exhibited at the *West Yard Arm*, or a *green light* at the *East Yard Arm* until she anchors.

River Steamers will not be signalled. The approach of other Steamers from Macao or Canton will be made known by showing the National or House Flag and Symbol at *Yard Arm*.

If a Flag showing that an Officer of high rank is on board an incoming vessel, a similar Flag will be shown above the Ball, or the Flag alone will be hoisted at the *Mast Head*.

The approach of Men-of-War and Sailing Vessels will be notified by their proper Symbols and National Colours, or House Flags, at the *Quarter of the Yard*, or at the *Yard Arm*.

Note.—The Distances of vessels will be estimated from the Peak, and will be made by means of the Numerals which are attached to the letters in the table of Flags.

HONGKONG.

This, the most eastern of British possessions, is situate off the coast of the Kwangtung province, at the mouth of the Canton river. It is distant about 40 miles from Macao and 90 from Canton, and lies between 22 deg. 9 min. and 22 deg. 1 min. N. lat. and 114 deg. 5 min. and 114 deg. 18 min E. long. The name of the island (Heung Kong) signifies *Good Harbour*. Hongkong is a Crown Colony and was ceded to Great Britain by the Chinese Government in 1841. The Government is administered by a Governor, aided by an Executive Council of five officials. The Legislative Council is presided over by the Governor, and is composed of the Chief Justice, the Colonial Secretary, the Attorney-General, the Treasurer, the Surveyor-General, and one other official, and five unofficial members, one of whom is elected by the Chamber of Commerce and another by the Justices of the Peace. The other three, one of whom must be a Chinaman, are appointed by the Government.

The island is about 11 miles long and from 2 to 5 broad; its circumference is about 27 miles. It consists of a broken ridge of lofty hills, with few valleys of any extent and scarcely any ground available for cultivation. It is well watered by numerous streams, many of which are perennial, and from the waterworks at Tytam and Pokfolum water of excellent quality is supplied to all parts of the city of Victoria. Until November, 1888, the city was solely dependent on the Pokfolum supply, but in that month the Tytam supply was turned on. The Tytam reservoir has an area of about 29 acres and a storage capacity of about four hundred million gallons. From the reservoir the water is conveyed into town by means of a tunnel a mile and one-third in length and a conduit along the hillside some 400 feet above the sea level, on which a fine road—called the Bowen Road—has been formed, which commands the most charming views of the city and the eastern district, and which has become the favourite resort of pedestrians.

The harbour of Hongkong is one of the finest and most beautiful in the world, having an area of ten square miles, and, with its diversified scenery and varied shipping, presenting an animated and imposing spectacle. It consists of the sheet of water between the island and the mainland, and is enclosed on all sides by lofty hills, unfortunately bare of foliage, except where trees have been planted near the city, but pleasingly green during the south-west monsoon. An extensive scheme of afforestation is, however, being carried out. The City of Victoria is magnificently situated, the houses, many of them large and handsome, rising, tier upon tier, from the water's edge to a height of several hundred feet on the face of the Peak, while several bungalows are visible on the very summit of the hills. Seen from the water at night, when lamps twinkle among the trees and houses, the city, spreading along the shore for upwards of four miles, affords a sight not to be forgotten.

Nor on landing are the favourable impressions of the stranger dissipated. The city is well built, the roads and streets are for the most part admirably made and kept, the Public Gardens almost unrivalled for their beauty, and many of the thoroughfares delightfully shaded with well grown trees. A fine bronze statue of Sir Arthur Kennedy, Governor of the Colony 1872-6, erected by public subscription, stands in the Gardens. It was unveiled in November, 1887, by Governor Sir William Des Vœux. The chief public building is the City Hall, erected in 1866-9 by subscription; it contains an elegant theatre, numerous large rooms used for balls and public meetings, an excellent and valuable Library, and a Museum yearly increasing in importance. The Government Offices, Supreme Court House, and Post Office are plain but substantial edifices. Government House occupies a commanding situation, in picturesque grounds pleasingly laid out, in the centre of the city. The Gaol is a large and massive structure, but the accommodation afforded by it is not in excess of the large demands made on it, owing to the inroads of the criminal population of Kwangtung being so constant and persevering. The Civil Hospital is a large but plain building. The Alice Memorial Hospital, situated at the corner of Hollywood Road and Aberdeen Street, is a useful and

philanthropic institution for the benefit of poor Chinese. The Government Central School, a most important institution, having some six hundred pupils, is very badly housed at present, but will soon be removed to a stately and commodious structure, to be called Victoria College, now just completed. The Tung Wa Hospital, a Chinese institution, occupies a large and roomy building. The Barracks for the garrison are large, and constructed with great regard to the health and comfort of the troops, and the buildings belonging to the Naval Establishment are substantial and spacious. A new and spacious Central Market is in course of erection on the site of the old one, and a temporary market has been constructed on the water frontage to supply accommodation in the meantime. The building of the Hongkong and Shanghai Bank is large, handsome, and massive, and would do credit to any city. The Praya wall, which was reconstructed in 1879-80, is a work of much solidity and strength, reflecting the greatest credit on the Survey Department. The Clock Tower, near Pedder's Wharf, was erected by public subscription in 1862, and the illuminated clock was presented to the Colony by the firm of Messrs. Douglas Lapraik & Co.

The chief religious buildings are: S. John's Cathedral (Anglican), which occupies a commanding site above the Parade Ground, and is a Gothic church of considerable size but with few pretensions to architecture. It has a square tower, with pinnacles, over the western porch, and possesses a peal of bells. A handsome stained window in the east end, over the altar, is the chief adornment of the interior. It also possesses a fine three-manual organ containing 47 stops, erected in 1887. S. Peter's (Seamen's) Church, at West Point, close to the Sailors' Home, is a neat Gothic erection with a spire. It also has a stained glass window, presented in 1878. Union Church is a pleasing edifice in the Italian style of architecture, with a spire, and contains accommodation for about 500 persons. The Roman Catholic Cathedral, now nearing completion, is situated in Glenealy ravine, near the Public Gardens, and is a fine structure in the Gothic style. S. Joseph's Church, in Garden Road, is a neat edifice erected in 1876 on the site of one destroyed by the great typhoon of 1874; and there are several smaller Catholic mission churches. There is also a Jewish Synagogue in Staunton Street, and a Mahomedan Mosque in Mosque Street. S. Joseph's College, a school for boys managed by the Christian Brothers, occupies a large and handsome building on a commanding site in the centre of the city. The Roman Catholics possess a Reformatory for Chinese boys and several charitable and educational institutions which are very efficiently managed. Other denominations likewise support establishments of the same character, conspicuous among which are the Diocesan Home and Orphanage, the German Foundling House, Baxter Vernacular School, &c.

The Protestant, Roman Catholic, Parsee, Jewish, and Mahomedan Cemeteries occupy sites in Wong-nai Chung Valley, and are kept in good order. The Protestant Cemetery is almost a rival to the Public Gardens, being admirably laid out and charmingly situated.

There are several Clubs in the Colony. The principal are the Hongkong Club, the Club Germania, in Wyndham Street, the Lusitano Club in Shelley Street, and the Masonic Club in Icehouse Street. There is a Recreation Club, which possesses Bath and Boat houses on the Praya near the Cricket Ground, a Cricket Club, a Rifle Association, and a Yacht Club, all kept up with considerable spirit.

The annual races are held at the latter end of February, under the auspices of the Hongkong Jockey Club, on the Race Course in Wong-nai Chung Valley, at the east end of the town, a beautiful spot enclosed by fir-clad hills. On this occasion the whole colony makes holiday, and the stands and course are crowded with one of the most motley collections of humanity to be seen in any part of the world. Most of the races are run with North China ponies, and there is generally good sport. A regatta is held in December in the harbour, but it does not evoke the same enthusiasm as the races. Athletic Sports are also got up every year by the residents and the garrison, and occasional swimming matches and boat races take place. There is an Amateur Dramatic Club, the members of

which give several performances in the City Hall Theatre during the season; and the Choral Society also provides a series of entertainments.

There is excellent Dock accommodation. The Hongkong and Whampoa Dock Company, Limited, have three extensive establishments, two at Kowloon, the other at Aberdeen. The Docks of this company are fitted with all the best appliances for engineering and carpenter's work, and in the Admiralty Dock the largest ironclad can be received. Their docks are of the following dimensions:—Kowloon:—Admiralty Dock.—500 feet in length, 86 feet in breadth at entrance at top and 70 feet at bottom, and 29 feet deep. No. 1 dock—Length over all, 340 feet; breadth at entrance, 74 feet; depth over sill at ordinary spring tides, 18 feet. No. 2 dock—Length over all, 245 feet; breadth at entrance, 49 feet; depth, 13 feet. Patent Slip—Length over all, 250 feet; breadth, 60 feet; depth, 11 feet. Tai Kok Tsui: Cosmopolitan dock—Length over all, 465 feet; breadth at entrance, 85 feet; depth, 20 feet. Aberdeen: Hope dock—Length over all, 433 feet; breadth at entrance, 84 feet; depth, 24 feet. Lamont dock—Length over all, 340 feet; breadth, 64 feet; depth, 16 feet. There are other establishments at which shipbuilding and foundry work are carried on, and some good sized steamers have been launched in the Colony. Her Majesty's Naval Yard likewise contains machine sheds and fitting shops on a large scale, and repairs can be effected to the machinery of the British men-of-war with great expedition.

There are three good hotels in the Colony. They are, the Hongkong Hotel, close to the Clock Tower, the Victoria Hotel, facing the Queen's Road and the Praya, and the Stag Hotel, in Queen's Road, all of which are centrally situated.

There are three daily papers published in English: the *Hongkong Daily Press*, which appears in the morning, the *China Mail* and the *Hongkong Telegraph*, issued in the evening. There is a weekly paper, the *Overland China Mail*, and one fortnightly paper, which is published on the morning of the departure of the English mail, namely, the *China Overland Trade Report* (the commercial journal of the Far East). A mail issue of the *Daily Press* is also printed weekly. The *Hongkong Catholic Register* is a religious paper published weekly. *O Extremo Oriente*, a Portuguese journal, is issued weekly. The *Chronicle and Directory for China, Japan, &c.*, appears annually, and is printed at the *Daily Press* office. The *China Review*, which is devoted to reviews and papers on Chinese topics, is published once every two months. The native Press is represented by five daily papers—the *Chung Ngai San Po*, which is the oldest and most influential, published at the *Daily Press* Office; the *Wa Tsz Yat Po*, or *Chinese Mail*; the *Tsun Wan Yat Po*, the *Yut Po*, and the *Wai San Yat Po*. The *Government Gazette* is published once a week.

Manufactures are yearly increasing in importance. There are three large sugar refineries: the China Sugar Refining Co.'s establishments at East Point and at Bowrington, and the Taikoo Sugar Refinery at Quarry Bay. In connection with the first-named Company there is also a large Distillery, where a considerable quantity of rum is manufactured. There is an Ice Factory, a large Rope Factory in Belcher's Bay, large Steam Saw Mills at Bowrington, and a Ginger Preparation factory. The works of the Hongkong Brick and Cement Company are situated in Deep Bay, on the south side of the island. Among the industries pursued by the Chinese are glass blowing, opium boiling, vermilion and soy manufacture, tanning, dyeing; beancurd, toothpowder, match, cigar making, &c., &c.

There are several villages on the island, the largest of which is Shau-ki Wan, situate in a bay in the I-ü Mun Pass. Aberdeen, on the south of the island, possesses a well sheltered little harbour, much frequented by fishing craft. Two large docks of the Hongkong and Whampoa Dock Company are situated there, and add to the importance of the place. Pokfolum, on the road to Aberdeen, about four miles from Victoria, is a place of resort for European residents in the hot weather, and some elegant bungalows have been erected in pleasant and picturesque situations, commanding fine sea views and cool breezes. The sanitarium of the French Missions is located at Pokfolum, and is a fine building with an elegant chapel attached. The Dairy Farm is also situated there. Stanley, situated in a

small bay on the south-east of the island, was once the site of a military station, but most of the barrack buildings were pulled down a few years ago, and the village is stagnant. There are good carriage roads from Victoria both to Aberdeen and Shau-ki Wan, and a bridle road to Stanley. A good bridle road leads up to the summit of Victoria Peak, with other paths branching off from it along the adjoining hills. A tramway, worked on the wire rope system, has been laid to the Victoria Gap, the lower terminus being close to St. John's Cathedral, and was opened to traffic on the 30th May, 1888. Within the past few years the number of bungalows on and about the Peak has increased so much that they now form quite an alpine village. The Military erected a sanitarium on the heights in 1883; and in June of the same year the Peak Church was opened for worship there. There is a hotel at Victoria Gap, close to the Tramway terminus.

Across the harbour is the dependency of British Kowloon. This peninsula was ceded to Great Britain in 1861. It has an area of four square miles, and has latterly made considerable progress. Yau-ma Ti, the principal village, has increased in population, and bids fair to some day become an important town. A number of European houses and a club have been erected and numerous gardens laid out at Tsim-tsa Tsui. A fine praya, with a massive granite wall, has been constructed at Tsim-tsa Tsui, and some extensive godowns have been built and fine wharves made, for discharging cargo and coaling. An Observatory is situated on Mount Elgin; and a large and handsome Police Station for the Water Police occupies an eminence just above the new praya. In front of this Station is a Time Ball, which is dropped daily. Steam ferries ply regularly between Kowloon and Victoria.

The total population of the Colony of Hongkong, according to the census of 1881, was 160,402, showing an increase of 21,258 since 1876, when the preceding census was taken. The total population of the city of Victoria was returned at 141,124; that of Kowloon at 9,021; of Shau-ki Wan 3,274; of Aberdeen 1,305; and Stanley 829. The rest of the population is distributed among the smaller villages and the boat population other than in Victoria harbour. The total British and foreign population numbered 7,990; but the residents proper are returned at 3,040, the former figures including the naval and military establishments, police, shipping in harbour, and temporary residents. The Indians and others of mixed blood numbered 1,722. The population is now probably not less than 200,000.

Hongkong formerly enjoyed a most unenviable notoriety for unhealthiness, and in years past the troops garrisoned here undoubtedly suffered severely. A great deal of the sickness in the early days of the Colony was caused by excavating and otherwise disturbing the disintegrated granite of which the soil of the island mainly consists, and which appears to throw off malarious exhalations when upturned. At the present time, however, the Colony is one of the healthiest spots in the world in the same latitude. New sanitary regulations are being inaugurated. The annual death rate per 1,000 for the whole population in 1887 was 28.59, for the British and foreign population 23.31. The annual average rainfall is about 80 inches, while the average annual range of the thermometer is from 43 deg. to 89 deg.

The finances of the Colony have for several years gone on improving, and the estimated revenue for 1889 is \$1,737,718, or including premium on land sales \$1,887,718, and the ordinary expenditure \$1,394,665, to which must be added \$637,626 provided for extraordinary public works.

Hongkong is a free port, and there is no official return of the imports and exports compiled, but the value of its trade is estimated at about £40,000,000 per annum. During the year 1886 the following tonnage entered and cleared with cargo:—

A total of 18,115 vessels, of 5,637,853 tons entered, and 20,870 vessels, of 5,602,531 tons cleared with cargoes. There also entered in ballast 9,484 vessels, of 763,984 tons, and there cleared 6,343 vessels with 725,092 tons. The total arrivals show an increase as compared with the previous year of 77,673 tons.

The trade chiefly consists in opium, cotton, sugar, salt, flour, oil, cotton and woollen goods, metals, earthenware, amber, ivory, sandalwood, betel, vegetables, granite, &c., &c. The bulk of the European trade of China and Japan passes through this port.

Hongkong possesses unrivalled steam communication. The P. & O. S. N. Co. and the M. M. Co. convey the European mail weekly, the Norddeutscher Lloyd Co. maintain a regular monthly mail service between Bremen and Hongkong, the P. M. S. S. Co. and the O. & O. S. S. Co. maintain a mail service with San Francisco, the Canadian Pacific S. S. Co. a regular mail service with Vancouver, B.C., and the E. & A. S. S. Co., the Gibb Line, and the C. N. Co. keep up a frequent but irregular service with the Australian Colonies. In addition to all these, several great lines of merchant steamers run between London, Liverpool, and Hongkong, of which the Ocean S. S. Co. and the Glen and Castle lines are the most conspicuous. The Austro-Hungarian Lloyd's steamers also ply from Trieste to Hongkong, and the Navigazione Generale Italiana Company's steamers run monthly from Genoa. The N. I. S. N. Co. maintain direct monthly communication between Java and Hongkong. Between the ports on the east coast of China and Hongkong the steamers of the Douglas S. S. Co. ply regularly twice a week, and there is constant steam communication with Hoihow, Manila, Saigon, Haiphong, Bangkok, &c. With Shanghai and the ports of Japan there is frequent communication in addition to the English and French mail steamers, which leave weekly. Between Hongkong, Macao, and Canton there is a daily steam service. The telegraphic communication of the Colony extends to nearly every part of the world.

MACAO.

Macao is situated in 22 deg. 11. min. 30 sec. N. latitude, and 113 deg. 32 min. 30 sec. E. longitude, on a rocky peninsula, renowned, long before the Portuguese settled on it, for its safe harbour for junks and small vessels. The Portuguese, who had already settled on the island of Lampacao, and frequented for trading purposes Chin-chew, Lianpo, Tamao, and San-choan (St. John's island, where St. Francis Xavier died) first took up their residence at Macao in 1557. Shortly after their arrival pirates and adventurers from the neighbouring islands commenced to molest them. The Chinese authorities were powerless to cope with these marauders, who went so far as to blockade the port of Canton. The Portuguese manned and armed a few vessels and succeeded in raising the blockade of Canton and clearing the seas. The town of Macao soon afterwards began to rise, and during the eighteenth century trade flourished there, the difficulty of residence at Canton greatly contributing towards it. The East India Co. and the Dutch Co. had establishments in Macao.

Historians are divided in opinion as to whether the possession of Macao by the Portuguese is due to Imperial bounty or to right of conquest. There can be no doubt, however, that it was held at a rental of 500 taels a year until Governor Ferreira do Amaral in 1848 refused to pay it any longer and forcibly drove out the Chinese Custom-house, and with it every vestige of Chinese authority. This bold stroke cost him his life in August, 1849, for he was waylaid and barbarously murdered near the Barrier of Porta Cerceo and his head was taken to Canton. The sovereignty of Portugal over the peninsula was, however, formally recognised by China in the Treaty signed with Portugal in 1887.

The colony is separated from the large island of Heang-shan by a wall built across the narrow connecting sandy isthmus. Two principal ranges of hills, one running from south to north, the other from east to west, may be considered as forming an angle, the base of which leans upon the river or anchoring place. The public and private buildings, a cathedral, and several churches, are raised on the declivities, skirts, and heights of hillocks. On the lofty mount eastward, called Charil, is a fort, enclosing the hermitage of Na. Sra. de Guia, and westward is Nillau, on the top of which stands the hermitage of Na. Sra. da Penha; entering a wide semi-circular bay, which faces the east, on the right hand stands the fort San Francisco; and on the left, that of Na. Sra. de Bom Parto. Seen from the roads or from any of the forts crowning the several low hills, Macao is extremely picturesque. The public and private buildings are gaily painted and the streets kept very clean.

After the cession of Hongkong to the British, the trade of Macao declined rapidly, and the coolie traffic subsequently developed there gave it an unenviable notoriety. This traffic, pregnant with abuses, was happily abolished in 1874. Tea continues to be an article of export, showing the value of from \$700,000 to \$800,000 a year. Essential oils are also exported to some extent. There is likewise some trade in opium. Silk filature, brick and cement works, and other factories have also been established. The commercial activity of the place, however, is a thing of the past. Owing to its pleasant climate and the quietude always prevailing, Macao has become the occasional retreat of invalids and business men from Hongkong and other neighbouring ports.

In the town there are several places of interest, apart from the Fan-tan or gambling saloons. The gardens and Grotto of Camoens, once the resort of the celebrated Portuguese Poet Camoens, are worth seeing, as also the noble facade of the ancient Jesuit church of San Paulo, burnt in 1835. Pleasant excursions can be made to the Hot Springs of Yô-mak, about sixteen miles from Macao, accessible

by steam launch. In winter snipe are plentiful in the neighbourhood and afford good sport.

The Hongkong, Canton, and Macao Steamboat Company runs a daily steamer (Sundays excepted) between Macao and Hongkong, leaving the former port at 8 o'clock a.m. and Hongkong at 2 p.m. To Canton there is a steamer on every alternate day, Sundays excepted. The distance from Macao to Hongkong is 40½ miles, and to Canton 88 miles. Macao is connected with Hongkong by telegraph. The population of Macao, according to returns made in 1879, was—Chinese, 63,532; Portuguese, 4,476; other nationalities, 78; or a total of 68,086.

CHINA.

REIGNING SOVEREIGN AND FAMILY.

Kuang Sü, Emperor of China, is the son of Prince Ch'un, the seventh son of the Emperor Tao Kuang; hence he is cousin to the late Emperor Tung Chi, who died without issue on the 12th January, 1875, from small-pox.

The proclamation announcing the accession of the present sovereign was as follows:—"Whereas His Majesty the Emperor has ascended upon the Dragon to be a guest on high, without offspring born to his inheritance, no course has been open but that of causing Tsai-Tien, son of the Prince of Ch'un, to become adopted as the son of the Emperor Wêng Tsung Hien (Hien Fung) and to enter upon the inheritance of the great dynastic line as Emperor by succession. Therefore, let Tsai Tien, son of Yih Huan, the Prince of Ch'un, become adopted as the son of the Emperor Wên Tsung Hien, and enter upon the inheritance of the great dynastic line as Emperor by succession." The present sovereign is the ninth Emperor of China of the Tartar dynasty of Ta-tsing (Sublime Purity), which succeeded the native dynasty of Ming in the year 1644. There exists no law of hereditary succession to the throne, but it is left to each sovereign to appoint his successor from among the members of his family. The late Emperor, dying suddenly, in the eighteenth year of his age, did not designate a successor, and it was in consequence of a palace intrigue, directed by the late Empress Dowager, widow of the Emperor Hien Fung, predecessor of Tung Chi, in concert with Prince Ch'un, that the infant son of the latter was declared Emperor. The Emperor Kuang Su, now in his eighteenth year, assumed the reins of Government in February, 1887.

GOVERNMENT AND REVENUE.

The fundamental laws of the empire are laid down in the Ta-tsing Huei-tien, or Collected Regulations of the Great Pure Dynasty, which prescribe the government of the State as based upon the government of the family. The Emperor is spiritual as well as temporal sovereign, and, as high priest of the Empire, can alone, with his immediate representatives and ministers, perform the great religious ceremonies. No ecclesiastical hierarchy is maintained at the public expense, nor any priesthood attached to the Confucian or State religion.

The administration of the empire is under the supreme direction of the Interior Council Chamber, comprising four members, two of Manchu and two of Chinese origin, besides two assistants from the Han-lin, or Great College, who have to see that nothing is done contrary to the civil and religious laws of the empire, contained in the Ta-tsing Huei-tien, and in the sacred books of Confucius. These members are denominated Ta Hsio-sz, or Ministers of State. Under their orders are the Li Pu or seven boards of government, each of which is presided over by a Manchu and Chinese. They are:—(1) The board of civil appointment, which takes cognisance of the conduct and administration of all civil officers; (2) The board of revenue, regulating all financial affairs; (3) The board of rites and ceremonies, which enforces the laws and customs to be observed by the people; (4) The military board, superintending the administration of the army; (5) The board of public works; and (6) The high tribunal of criminal jurisdiction; (7) The board of admiralty, newly formed to govern the infant navy of China. To these must be added the Tsung-li Yamên, or board of foreign affairs. Independent of the Government and theoretically above the central administration, is the Tu-cha Yuan, or board of public censors. It consists of from 40 to 50 members, under two presidents, the one of Manchu and the other of Chinese birth. By the ancient custom of the empire, all the members of this board are privileged to present any remonstrance to the sovereign. One censor must be present at the meetings of each of the six government boards.

The estimates of the public revenue of China vary greatly, and, while they are stated by some to exceed 100 millions sterling, are held by others not to come up to half that amount. Official returns of the Chinese Government, published in 1844, stated the annual revenue at that time at Tls. 191,803,139, or £63,934,713. According to the memorials from officials published in the *Peking Gazette*, it would appear

that there are almost constant deficits, which the governors and high officials of provinces must cover by extraordinary taxation. The public revenue is mainly derived from three sources, namely, customs duties, licences, and a tax upon land, but the receipts from the foreign customs are alone made known. According to the returns published by the Government, the total receipts from foreign customs were as follow in each of the sixteen years from 1872 to 1887:—

YEAR.	REVENUE.	YEAR.	REVENUE.
	<i>Haikwan Tls.</i>		<i>Haikwan Tls.</i>

China had no foreign debt till the end of 1874, when a loan of £627,675, bearing 8 per cent. interest, was contracted through the Hongkong and Shanghai Bank, under Imperial authority and secured by the customs' revenue. Since then a number of loans have been raised; most of them through the agency of the Hongkong and Shanghai Bank, several of which have been paid off. The total Foreign debt of China is, however, still inconsiderable.

AREA AND POPULATION.

China proper, extending over 73,093 geographical, or 1,534,953 English square miles, is divided into eighteen provinces, the area and population of which are given as follow in the most recent estimates, partly based on official returns:—

PROVINCE.	PROVINCIAL CAPITAL.	AREA ENGLISH SQUARE MILES.	ESTIMATED POPULATION.
Chihli	Peking	58,949	28,114,023
Shantung	Tsinan	65,104	28,958,764

Kweichau	Kweiyang	64,554	5,288,219
		1,534,953	405,213,152

The above population, giving 263 souls per square mile throughout China proper, appears to be excessive, considering that some of the outlying portions of the immense territory are by no means densely inhabited.

According to a Consular return the total number of foreigners in China was 3,995 at the end of 1884. Among them were 2,070 natives of Great Britain and Ireland, 469 of the United States, 364 of Germany, and 228 of France, all other nationalities being represented by very few members.

In addition to China proper there are its dependencies. The principal of these are Mongolia, with an area of 1,288,035 square miles, and some 2,000,000 people; and Manchuria, with an area of 362,313 square miles, and an estimated population of

15,000,000. The latter is being steadily and rapidly colonised by Chinese, who greatly outnumber the Manchus in their own land. Thibet, which is also practically a dependency of China, has an area of 643,734 square miles and a population of 6,000,000 souls. It is ruled by the Dalai Lama, but subject to the Government of Peking.

ARMY AND NAVY.

The standing military force of China consists of two great divisions, the first formed by the more immediate subjects of the ruling dynasty, the Manchus, and the second by the Chinese and other subject races. The first, the main force upon which the Imperial Government can rely, form the so-called troops of the Eight Banners, and garrison all the great cities, but so as to be separated by walls and forts from the population. According to the latest reports, the Imperial army comprises a total of 850,000 men, including 678 companies of Tartar troops, 211 companies of Mongols, and native Chinese infantry, a kind of militia, numbering 120,000 men. The native soldiers do not as a rule live in barracks, but in their own houses, mostly pursuing some civil occupation.

The Chinese navy is in process of formation. It consisted, prior to the Franco-Chinese war of 1884, mainly of small gunboats built at the Mamoi Arsenal, Foochow, and at Shanghai, on the foreign model, but has since been greatly strengthened. The fleet of China now includes five armoured ships, namely, the *Ting Yuen* and *Chen Yuen*, built at Stettin in 1883, which are of 7,430 tons displacement, have 14 inches armour, and each carry four 30½ c.m. and two 15 c.m. Krupp guns, eight machine guns, two light guns, and two launching carriages for torpedoes; the *King Yuen* and *Lai Yuen*, built at Stettin in 1887, which are of 2,850 tons displacement, have 9½ in. armour, and each carry two 8½ in. 10-ton breech-loaders, two 6 in. breech-loaders, seven machine guns, and one torpedo tube and three launching carriages; and the small armoured gunboat *Tien Sing*, with 1½ inches armour on the belt and 3 in. on the turret, and carrying one 17 c.m. Krupp gun. Amongst the unarmoured vessels are two Armstrong cruisers with protected decks, the *Chih Yuen* and *Ching Yuen*, built in 1887, and carrying three 8-in. 12-ton breech loaders and four torpedo tubes; the cruiser *Tsi Yuen*, built at Stettin in 1883, with protected deck, and carrying two 21 c.m. and one 15 c.m. Krupp guns, four light guns, six machine guns, and four torpedo tubes: two Armstrong cruisers built in 1881, the *Chao Yung* and *Yung Wei*, with partially protected decks, and carrying two 10 in. and eight 4½ in. breech-loaders; the *Hai An*, a frigate built cruiser, carrying two 21 c.m., four 15 c.m., and twenty 12 c.m. Krupp guns; the cruisers *Nan Shuin* and *Nan Thin*, built in Germany in 1884, carrying two 8 in. and eight 4½ in. Armstrong breech-loaders; the cruiser *Yang Pao*, carrying three 8 in. 10-ton and seven 4¾ inch. breech-loaders; the gun-vessels *Mei Yuen* and *Tsing Yuen*; and eleven so-called alphabetical gunboats. Of the latter the first four are 118 feet 6 inches long, with a draught of 7 feet 6 inches, and a displacement of 400 tons. They each carry a 27½-ton gun. The next four, which arrived in China in October, 1879, are built of steel, and are double-ended, the stern lines being exactly after the model of the bow rudders. They measure 127 feet in extreme length and 125 feet at the water line, with 29 feet beam, a depth of 12 feet 3 inches, mean draught of 9 feet 6 inches, and a displacement of 440 tons. The main feature of these boats is the 11-inch 35-ton muzzle-loading gun carried by each. They are further armed with two 12-pounder breech-loading Armstrong guns and four Gatlings. The last three, which arrived in China in July, 1881, are almost identical in style with their immediate predecessors, and each carry one 35-ton gun, but are also provided with two 13-pounders, two Gatling, and four Nordenfeldt guns. They were all built on the Tyne by the Elswick Company. Lu Shun Kou, re-named Port Li, in honour of the Viceroy of Chihli, on the south coast of Shingking, has lately been selected as a naval depôt, and is being strongly fortified.

TRADE AND INDUSTRY.

The ports open to trade are:—Canton, Hoihow (in Hainan), Pakhoi, Swatow, Amoy, Foochow, Takow and Taiwan-fu, Tamsui and Kelung, Wenchow, Ningpo, Shanghai, Chinkiang, Wuhu, Kiukiang, Hankow, Ichang, Chefoo, Tientsin, and Newchwang. Under the provisions of the Chefoo Convention, permission is also

accorded to British merchants to trade at Chung-king and Yunnan-fu, at which places British Consular Agents may reside. The import trade from Great Britain, exclusive of the Colony of Hongkong, centres at Shanghai, Hankow, and Tientsin, while the bulk of the exports to Great Britain pass through the ports of Shanghai, Foochow, Hankow, and Canton. The annual value of the foreign trade of China was as follows in each of the sixteen years from 1872 to 1887—

1887.....	102,263,669	85,880,208	188,123,877

Of the increase in 1887, Tls. 18,642,831 is accounted for by the Native Customs stations outside Hongkong and Macao having passed under the Foreign Customs; the trade passing these stations was not formerly included in the returns. Of the total value of the imports and exports to foreign countries for 1887—Tls. 188,123,877—Tls. 143,147,765 must be credited to Great Britain and her colonies, including India. The remainder is thus divided among other countries:—United States, Tls. 12,314,310; Continent of Europe, Tls. 14,132,954; Russia, *via* Odessa, Tls. 1,313,677; Siberia and Russia, *via* Kiachta, Tls. 5,704,281; Russian Manchuria, Tls. 751,589; Corea, Tls. 200,413; Japan, Tls. 7,678,442; Macao, Tls. 2,902,643; Philippine Islands, Tls. 357,001; Cochin China, Tls. 428,015; Siam, Tls. 553,483; Java, Tls. 505,038; Turkey and Egypt Tls. 386,706. Among the exports, tea and silk take the first places. In 1887 the export of tea amounted to 2,096,097 piculs, and the value of raw silk exported was Tls. 24,607,528. Manufactured Cotton and Woollen Goods and Opium constitute the bulk of the imports of foreign produce into China. The value of Cotton Goods imported in 1887 was Tls. 37,047,931; that of Woollen Goods, Tls. 5,424,561; and of Miscellaneous Piece Goods, Tls. 90,684. Most of these goods came from British India. The value of the Opium imported in 1887 was Tls. 27,926,865.

Although China is traversed in all directions by roads, they are usually mere tracks, or at best footpaths, along which the transport of goods is a tedious and difficult undertaking. It was owing to the imperfect means of communication that such a fearful mortality attended the last famines in Shansi, Honan, and Shantung. A vast internal trade is, however, carried on over the roads, and by means of numerous canals and navigable rivers. The most populous part of China is singularly well adapted for the construction of a network of railways, and a first attempt to introduce them into the country was made in 1876, when a line from Shanghai to Woosung, ten miles in length, was constructed by an English Company. The little railway was subsequently purchased by the Chinese Government and closed by them on the 21st October, 1877. The Kaiping Coal Company's line, at first intended only to carry coal to the Canal bank, has been extended to Tientsin, and in August, 1888, was opened to passenger traffic. A telegraph line between Tientsin and Shanghai was opened in December, 1882, and line now connects all the important cities of the

* Net Imports, i.e., the value of the Foreign Goods imported direct from Foreign Countries, less the value of the Foreign Goods re-exported to Foreign Countries during the year.

PAKHOI.

Pakhoi is one of the ports opened to foreign trade by the Chefoo Convention of 1876. It is situated on the Gulf of Tonquin in long. 190 deg. 13 min. E. and lat. 21 deg. 30 min. N. The British Consul hoisted his flag on the 1st May, 1877, and the foreigners were well received by the natives. Pakhoi is the port for the important city of Lien-chau, from whence considerable quantities of foreign piece goods are distributed over the country lying between the West River and the sea-board. It is believed that it will also become one great outlet for the trade of the province of Kwangsi. The trade was formerly almost exclusively in the hands of Chinese, who transhipped goods from Hongkong and Macao (chiefly the latter) in native bottoms, and in 1877 the value of the trade passing through the Foreign Customs amounted to no more than Tls. 11,714, while in 1878 it was *nil*. Trade afterwards, however, greatly improved. In 1887 the value of the trade was Tls. 4,143,616 as compared with Tls. 2,978,759 in 1886, Tls. 2,584,403 in 1885, and Tls. 1,703,289 in 1884. The exports are sugar, oil, rice, tea, &c. It is anticipated that the trade of Pakhoi will be very considerable when the transit pass system is in full operation.

The town is situated on a small peninsula and faces nearly due North. It stands at the foot of a bluff nearly forty feet high, which deprives it of the South-west breeze in summer, while in winter it is exposed to the full force of the North-east monsoon. From the bluff an extensive uncultivated plain stretches, over which there is good sport, geese, duck, snipe, plover, quail, and pigeons being found in abundance. The climate is considered to be very salubrious. The estimated population of the port is 25,000.

No port in China is more easily approached and entered than that of Pakhoi. The landmarks are conspicuous and unmistakeable. The channel is wide and deep and has no hidden danger to be avoided. The anchorage is a mile and a half from the town. There is good landing at high water, but at ebb tide only for small boats.

HOIHOW (IN HAINAN).

Hoihow is the seaport of the city of Kiung-chow (the seat of the local government, and distant from its port about three and a half miles) which was opened to for ign trade on the 1st April, 1876. The position of the port, though geographically favourable, is topographically unsuitable for the development of any extensive commercial transactions, vessels being compelled to anchor some two miles from the entrance of the creek, or branch of the main river upon which Hoihow is situated. The tides are extremely irregular, and the anchorage is liable to the visitation of very severe typhoons, being moreover entirely unprotected from the north. The width of the Hainan Straits, between Hoihow and the mainland—the Lien-chau peninsula—is about twelve miles. As regards health, Hoihow compares favourably with the other parts of Hainan, though fever and ague are said to prevail to some extent. The port is badly supplied with water.

The approaches to the shore are extremely shallow, so that loading and unloading can only be carried on at certain states of the tide. Despite this disadvantage, however, the advent of foreign steamers has given a considerable impulse to trade, and Hoihow now almost vies with the Formosan ports in importance. The town itself contains about 12,000 souls, and is governed by a Tsan-fu, or Lieutenant-Colonel. The mercantile population, though respectable, is by no means rich. No foreign settlement has as yet been formed, nor does it appear that any steps will be taken to that end for a considerable time. The foreign residents at present number less than a dozen. The value of the whole trade of the port in 1887 was Tls. 2,940,932 as compared with Tls. 3,017,876 in 1886. A large export trade in pigs, eggs, and provisions has grown up with Hongkong.

WHAMPOA.

This village was formerly the seat of a large portion of the foreign trade with Canton, as foreign sailing vessels are not allowed to go farther up the Pearl River. The trade in sailing vessels has, however, fallen off very much, and Whampoa is now almost deserted; but since the placing of barriers in the river at the time of the Franco-Chinese war, steamers have been obliged to anchor here. A British Vice-Consulate is stationed at Whampoa, and a branch of the Maritime Customs. The large docks formerly belonging to the Hongkong and Whampoa Dock Company here have been sold to the Chinese Government. A Government Torpedo School has been established here.

The village, known as Bamboo Town, is a dirty and unattractive place, without any feature of interest, but the scenery round is picturesque and pleasing. Two lofty pagodas on neighbouring eminences are conspicuous objects from the river. The first of these, called the Whampoa Pagoda, is built on an island rising abruptly from the river to the height of 100 feet. It was erected about the year 1598, and is very much out of repair. A good sized tree grows from the brickwork at the summit. The other pagoda, called the First Bar Pagoda, is nearer to Canton, and occupies a hill which is considered the guardian hill of the province. It was built between the years 1621 and 1628 as a palladium to the water way of the provincial capital.

The importance of Whampoa is now a thing of the past. The place will always, however, possess some interest for foreigners, since the earliest recollections of foreign commercial intercourse with China are associated with it, all foreign ships being in old times compelled to anchor at Whampoa.

CANTON.

Canton is situated on the Chu-kiang, or Pearl River, in latitude 23 deg. 7 min. 10 sec. N., and longitude 113 deg. 14 min. 30 sec. E., and is the capital of the province of Kwangtung. It is sometimes called the City of Rams and the City of Genii, both of which names are derived from ancient legends. One of the first cities in the Chinese Empire, it is also the seat of government for the province, and is the residence of the Viceroy of "The Two Kwang" (Kwangtung and Kwangsi). The Governor of Kwangtung and the Tartar General are likewise resident here, besides a number of other government officials of more or less distinction, including the Haikwan, or Superintendent of Customs, a post always held by a Manchu.

Canton, owing to its favoured situation, became at an early date the port to which the traffic of European countries was attracted. The Portuguese found their way thither in 1516, and Arab navigators had been making regular voyages between Canton and the ports of Western Asia as early as the tenth century. The Dutch appeared on the scene about a hundred years later than the Portuguese, and these in their turn were supplanted by the English. The latter, towards the close of the seventeenth century, founded the very profitable trade which was conducted for nearly one hundred and fifty years by the Agents of the East India Company, who established a Factory there in 1684, which was afterwards celebrated throughout the world. From 1684 the export of tea to England increased rapidly. The Company's monopoly terminated in 1834. In 1839, Great Britain was led to a declaration of war with China in consequence of the oppression to which foreigners were subjected by the native authorities, and Canton was menaced with capture in 1841. A pecuniary ransom was, however, received in lieu of the occupation of the city, and hostilities were for the time being suspended. The lesson, unfortunately, was without effect, and the arrogance of the Chinese continued unabated. The British campaign in Central China ensued, and the result was the signature of the Treaty of Nanking (August 29th, 1842), by which what was called the Co-Hong monopoly at Canton was abolished and four additional ports thrown open to foreign trade. Nevertheless, the provisions of the Treaty continued to be ignored in the City of Rams, and foreigners were still denied admittance within its walls. The result of protracted annoyances and insults was that in October, 1856, Sir Michael Seymour, with the fleet, again opened hostilities, and some two months later a mob in retaliation pillaged and burned all the foreign residences. In December, 1857, Sir Charles Straubenzee, in command of an expedition which had been specially despatched from England, attacked the city, and it was taken on the 29th of that month. The French also sent out an expedition, and the city was occupied by the Allied Forces until October, 1861, a period of nearly four years.

Canton proper extends to a breadth of about two miles, is about six miles in circumference, and is enclosed by walls about twenty feet thick and from twenty-five to forty feet high. The suburbs spread along the river for nearly five miles. The entire circuit, including the suburbs, is stated by Williams to be nearly ten miles, the walls enclosing about six miles. What is called the New City now was formerly known as the Southern Suburb. The Western Suburb stretches for miles along the river. The gates by which entrance is gained into the city are sixteen in number, and two water gates. Canton contains great attractions for foreign visitors in its numerous temples, pagodas, &c., and in the many curio shops to be found there. As a specimen of Chinese architecture the Chin Chew Club is well worthy of inspection; and the Examination Hall, the City of the Dead, the Execution Ground, the Gaols, the Arsenal, an ancient Water Clock, and the Mahomedan Mosques are among other show places. The French Mission have erected a large and handsome Gothic cathedral, with two lofty towers surmounted by spires, in the city. The structure is entirely built of dressed granite. On the opposite side of the river the Honam Temple is the principal attraction. The population of Canton is estimated at 1,600,000.

When the foreign merchants went back to Canton to establish trade after the capture of the city by the English at the close of 1857, they found the Factory and

the buildings along the river in ruins. Recourse for accommodation was consequently had to warehouses on the Honam side of the river. Considerable discussion subsequently took place as to the selection of a site for a permanent British settlement, and it was eventually determined that an extensive mudflat known as Shameen should be filled in and appropriated. In 1859 an artificial island was created there, a canal constructed between the northern side of the site and the city, and solid and extensive embankments of masonry built. It took about two years to complete this undertaking, and cost no less than \$325,000. Of this sum four-fifths were defrayed by the British, and one-fifth by the French Government, to whom a portion of the reclaimed land was given, but they have never built on it. The French also received a grant of the old site of the Viceroy's Yamên, on which the new Catholic Cathedral has been erected. Shameen is pleasingly laid out, and the roads are shaded with well grown trees. A neat church, called Christ Church, stands at the western end. During an anti-foreign riot on the 10th September, 1883, sixteen houses and the Concordia Theatre on the Settlement were burned by the mob.

In consequence of the decline in the importance of Canton as a place of trade, caused principally by the opening of some of the northern ports, many of the merchants by whom lots were purchased there in 1861, at enormous prices, have withdrawn from Canton altogether. The trade now transacted there by foreigners is limited. Tea and Silk are the staple exports. The total export of Tea for the year ending 31st December, 1887, was 15,879,535 lbs. compared with 13,686,631 lbs. in 1886, and the quantity of Raw Silk (exclusive of Refuse and Wild Silk) exported in 1887 was 22,950 piculs as compared with 19,406 piculs in 1886. The import of Opium in 1887 was 5,761 piculs as compared with 1,070 piculs in 1886. This large increase is due to the new rules under the Opium Convention having caused an alteration in the course of the trade, rather than to increased consumption; formerly much of the opium was carried in native junks and did not appear in the returns of the Foreign Customs. The total value of the trade of the port for 1887 was Tls. 37,334,157 as compared with Tls. 37,593,405 in 1886. The purely native trade of Canton still enjoys a high degree of prosperity.

Ample means of communication exist between Canton and Hongkong, a distance of about ninety-five miles, by foreign steamers plying daily, and a large number of native craft. There is daily steam communication with Macao. Steamers also run regularly between Shanghai, Hongkong, and Canton. There is a safe and commodious anchorage within 150 yards of the river wall at Shameen. Only steamers go to Canton; sailing vessels never ascend beyond Whampoa, owing to the difficulties of navigating a crowded river. Canton was connected by telegraph (an overland line) with Kowloon in 1883, and another overland line was completed from Canton to Lungchau-fu, on the Kwangsi and Tonquin frontier, in June, 1884.

SWATOW.

Swatow, which was first thrown open to foreigners by Lord Elgin's Treaty, is situated at the mouth of the river Han, near the eastern border of the Kwangtung province, in lat. 23 deg. 20 min. 43 sec. N., and long. 116 deg. 39 min. 3 sec. E. It is the shipping port for the city of Cha'o-chow-fu, the seat of the local government, 35 miles inland, and San-Ho-Pa, forty miles farther up the river.

Swatow is built on the northern bank of the Han, which forms part of an alluvial plain through which the branches of the river flow. The shore on the opposite side is bold and striking, the hills stretching away to the coast and forming what is known to sea-going people as the "Cape of Good Hope;" Pagoda Hill rises at the opposite side; and in a direct line from this lies the large island of Namoa.

The first foreign trading depôt in this locality was inaugurated at Namoa, where the opium vessels used to anchor, but it was subsequently removed to Double Island, which is situated just inside the river and is four miles from Swatow. Foreigners here made themselves notorious in the early years of the settlement by the kidnapping of coolies, and so strong was the feeling shown against them by the natives that no foreigners were safe far from Double Island, while they were strictly forbidden to enter Swatow, and it was not until 1861 that they could do so. In the country round Swatow the antipathy to foreigners was of much longer duration. The British Consul was held technically to reside at Cha'o-chow-fu, and subsequent to 1861 several ineffectual attempts were made to pass through its gates. In 1866 a visit was made under more favourable circumstances, but it is only within the last few years that the population has refrained from annoyance and insult to foreigners within its walls. In 1862 the lease of a piece of land was applied for and granted to the British Government on the north bank of the river about a mile from Swatow, but so strong were the demonstrations of the populace against it that the matter fell through.

Foreign residences, however, commenced to spring up here and there, and many of them are consequently somewhat scattered, though the majority are in or near the town of Swatow. The yearly increasing traffic of the port has led to much overcrowding on the narrow strip of land on which it is built, and since February, 1877, no less than 21½ acres have been reclaimed from the sea, the greater part of which is now covered with shops and houses.

The climate of Swatow is reputed to be very salubrious. The town occupies, however, an unenviable position as regards typhoons, on account of being opposite the lower mouth of the Formosa Channel, and it has on many occasions been subjected to all the violence of these terrible storms, which almost every year sweep across the lower coast of China. The population of Swatow is estimated at 30,000.

The foreign trade of Swatow has never been large, but of late years it has shown a slight increase. The proximity of the port to Hongkong, which can be reached in from 15 to 20 hours, no doubt tells against it, as it enables the Chinese to conduct their own import business. The quantity of Opium imported in 1887 was 6,411 piculs as compared with 6,471 piculs in 1886. The quantity of Tea exported is very small, and reached only 9,800 piculs in 1887. A considerable trade is done in Sugar, there being 787,159 piculs brown and 750,916 piculs white exported in 1887. The China Sugar Refining Co. of Hongkong have a large Sugar Refinery here, but work has for some time been suspended. A large leucocake factory was also started in 1882. The value of the trade of the port for 1887 was Tls. 22,321,913, as compared with Tls. 21,112,425 in 1886.

AMOY.

Amoy was one of the five ports open to foreign trade before the ratification of the Treaty of Tientsin. It is situated upon the island of Haimun, at the mouth of the Dragon River, in lat. 24 deg. 40 min. N. and long. 118 deg. E. It was the scene of trade with Western nations at a very early date. The Portuguese went there in 1544, but in consequence of their cruelty towards the natives, the Chinese authorities forcibly expelled them and burned thirteen of their vessels. The English had commercial dealings there up to 1730, when the Chinese Government issued an edict prohibiting trade with foreigners at all ports except Canton. They made an exception as regards

Spanish ships, which were allowed to trade at Amoy. The vessels of other nationalities, however, continued to visit the place, and did so till the city was captured in 1841. The Treaty of Nanking was signed soon afterwards, and foreigners have since been allowed to live there in peace and security.

In describing Amoy, Dr. Williams says:—"The island (upon which Amoy is built) is about forty miles in circumference, and contains scores of large villages besides the city. The scenery within the bay is picturesque, caused partly by the numerous islands which define it, surmounted by pagodas or temples, and partly by the high barren hills behind the city. There is an outer and an inner city, as one approaches it seaward, divided by a high ridge of rocky hills having a fortified wall running along the top. A paved road connects the two. The entire circuit of the city and suburbs is about eight miles, containing a population of 300,000, while that of the island is estimated at 100,000 more. The harbour is one of the best on the coast; there is good holding ground in the outer harbour, and vessels can anchor in it, within a short distance of the beach, and be perfectly secure; the tide rises and falls from fourteen to sixteen feet. The western side of the harbour, here from six hundred and seventy-five to eight hundred and forty yards wide, is formed by the island of Kulangsu. It is a picturesque little spot and maintains a rural population of 3,500 people. Eastward of Amoy is the island of Quemoy or Kinnun (Golden Harbour), presenting a striking contrast in the low foreground on its south shore to the high land on Amoy." The population of the city is, however, now estimated at 95,600.

There is little to be said about the city. It ranks as a third class city in China, but it bears no comparison to Canton in wealth or general appearance. It is considered, even for China, to be very dirty, and its inhabitants are unusually squalid in their habits. There are several places of interest to foreigners in the vicinity, and excursions can be made to Chang-chow-fu, the chief city of the department of that name, and situated about 35 miles from Amoy. The island of Kulangsu is about a third of a mile from Amoy, and the residences of nearly all the foreigners are to be found there, although most of the foreign business is transacted on the Amoy side. There are three granite docks at Amoy, the largest being 310 feet by 60 feet; they are owned and managed by foreigners. A small shipping sheet called the *Amoy Gazette* is published daily. The foreign residents number about 280.

There has always been a comparatively good trade done at Amoy. There is frequent and pretty regular steamer communication with Hongkong, Swatow, and Foochow. Direct communication with Manila and the Straits Settlements is also maintained. The total export of Tea for 1887 was 162,211 piculs as against 158,284 piculs in 1886. The export of Sugar for 1887 was 245,788 piculs, compared with 226,032 piculs in 1886. The net importation of Opium for 1887 was 6,362 piculs as compared with 7,768 piculs in 1886. The total value of the foreign trade of the port for 1887 was Tls. 12,163,602, against Tls. 11,398,546 in 1886.

FORMOSA.

This island, one of the largest in Asia, is situated between latitude 22 and 26 degrees N., and longitude 120 and 122 degrees E., and is separated from the coast of Fukien, China, by a channel about one hundred miles in width. Its name Formosa, signifying "beautiful island," was conferred by the Portuguese, the first Europeans to visit it, but it is called Taiwan (Great Bay) by the Chinese, to whom it has belonged since 1661. It is said that the Japanese endeavoured to form a colony in the island in 1620, but large numbers of Chinese were settled there prior to that date. The Dutch arrived in 1634 and founded several settlements, and traces of their occupation are still to be found in the island, but they were compelled in 1661 to retire by the Chinese pirate chief Koxinga, who then assumed the sovereignty of western Formosa. His grandson and successor, however, was induced, twenty-two years later, to resign the crown to the Emperor of China. Formosa is about 210 miles in length, and from 60 to 70 miles broad in the widest part, with a circumference of some 450 miles. It is intersected from north to south by a range of mountains, which forms a kind of backbone to the island, the loftiest peak of which, Mount Sylvia, is 11,300 feet high. On the western side of this range the slope is more gradual than on the eastern side, and broken by fertile valleys which lose themselves in the large undulating plain on which the Chinese are settled. The whole of the territory east of the dividing chain is peopled by an aboriginal race who acknowledge no allegiance to the Chinese Government and make frequent raids on the outlying Chinese settlements. They are a savage and warlike people, allied to the Malays and Polynesians, and live principally by the chase. The Chinese hold the aborigines in much dread on account of their ferocity, but of late years they have steadily continued their encroachments on the eastern coast, keeping the natives at bay by the aid of Hakka settlers, a hardy race, who in Formosa go by the name of Hillmen, and who have proved a resolute foe to the aborigines. Until 1874, when the Japanese landed a force in Formosa to punish one of the aboriginal tribes for the murder of some Loochooans shipwrecked on their coast, the Chinese Government had made no serious effort to extend their rule over any part of the eastern half of the island, but that event caused them to push forward their lines. A few of the aborigines nearer the coast have settled down to peaceful avocations, but the mountaineers still regard the Chinese with unappeasable hatred and hostility, though they have shown courtesy and kindness to the few foreigners who have visited their villages. The aborigines are said to be a fine featured, well made race, but sunk in barbarism and ignorance. The Chinese population of Formosa is estimated at about 2,500,000; the number of the aborigines it is, of course, quite impossible to estimate. The productions of Formosa are numerous, the vegetation being everywhere most luxuriant, testifying to the richness of the soil. Rice, sugar, tea, and camphor are largely cultivated and exported. The fauna includes bears, monkeys, deer, wild boar, badgers, martens, the scaly anteater, and other smaller animals. Birds are not very numerous, and snakes are not so common as might be expected where vegetation is so abundant. It is believed that the mineral wealth of the island is very considerable. Gold has been found in the beds of the streams; valuable coal mines are in work near Kelung, and sulphur springs also exist in the north of the island. The interior of the island is, however, still practically unexplored. One great drawback to the island is its want of good harbours, which is more especially felt on account of the strength of the monsoons in the Formosa channel. Those on the eastern side are few and neither commodious nor accessible, while on the west coast most of the harbours are little better than open roadsteads. The Treaty ports are all situate on the western coast, and are four in number—Takao and Taiwan-fu in the south, and Tamsui and Kelung in the north. The latter was held for some months in 1884-5 by the French, under Admiral Courbet, but was evacuated on the 21st June, 1885. The rivers of Formosa are few, shallow, and winding, only navigable to small flat-bottomed boats. The scenery is delightful, and the climate is very pleasant in the winter, but hot and malarious in the wet season. The present Governor, H.E. Liu Ming Chuen, is introducing railways, laying out roads, and taking measures for the development of the island generally.

TAIWAN-FOO AND TAKOW.

The city of Taiwan-foo, situated in lat. 23 deg. 6 min. N. and long. 129 deg. 5 min. E., is the capital of the island of Formosa, and is credited with a population of 235,000 inhabitants. Compared with other Chinese cities it is moderately clean and well paved. The walls are some five miles in circumference. The shipping port of Taiwan-foo is Anping, situated on the coast about three miles to the eastward of the city and connected with the suburbs by a creek. The port is an open roadstead, vessels having to anchor a mile or so from the beach. From the 1st November to the end of May the anchorage is a perfectly safe one, but during the S. W. monsoon a heavy swell sets in, rendering it difficult, and at times impossible, for vessels to load or discharge. Anping has of late risen greatly in importance, the foreign firms making it their headquarters instead of Takow, which port in former years was considered of more significance. Tempered by sea breezes, Anping, during the summer months can boast of a cool and healthy climate. From 1st October to the end of April there is little or no rain, and the temperature leaves nothing to be desired. Sugar is the principal export of South Formosa, shipments in 1880 having reached 997,690 piculs; in 1884 the export amounted to 897,110 piculs. In 1886 the export was only 362,826 piculs, but in 1887 it rose to 522,942 piculs. The import of Opium during 1887 was 2,671 piculs. The value of the whole trade of the port in 1887 was Tls. 2,762,538 as compared with Tls. 2,583,625 in 1886.

Takow is a port twenty-four miles to the southward of Anping. It takes little or no share in the import trade, and is rarely visited by the foreign merchants, excepting for a few months in the winter.

TAMSUI AND KELUNG.

The port of Tamsui lies in lat. 25 deg. 10 min. N. and long. 101 deg. 26 min. E., on the northern side of the fertile island of Formosa. It is an uninteresting place. The harbour, like all others in Formosa, has a troublesome bar, which greatly retards the growth of the port. Dredging would do much to render it more accessible. The town, called Hûbei, is situated on the north side of the river, about two miles from the bar. The trade at Tamsui is not extensive. Tea grows on the hills in the locality, and the production of Formosa Oolongs is annually increasing. In 1872 the export only amounted to 19,513 piculs, while now it exceeds 120,000 piculs. The export of Camphor, on the other hand, shows a steady decline, owing probably to the wholesale destruction of the trees, which were once exceedingly abundant in most parts of the island. In October, 1884, the French ships under Admiral Courbet bombarded Tamsui, but were unable to take the place. The population of Tamsui is estimated at 95,000. The principal exports are Tea, Camphor, and Coal. The value of the trade of the port in 1887 was Tls. 5,604,806, and in 1886, Tls. 5,434,463.

The port of Kelung lies to the north-east of Tamsui, in latitude 25 deg. 9 min. N. and longitude 121 deg. 47 min. E. It is situated on the shores of a bay between the capes of Foki and Peton, some twenty miles apart, amidst bold and striking scenery, backed by a range of mountains. It was once a Spanish Settlement, but was subsequently captured and held by the Dutch until they in turn gave place to the Chinese under Koxinga. Though only a mere village, it has long carried on a considerable native trade with Amoy, Chin-chew, and Foochow. Its staple product is coal, the mines of which are very productive; one colliery at Coal Harbour has been worked by the Government, with modern English machinery, but the output has never been very great. Sulphur also abounds in a valley in the neighbourhood, but the Authorities will not allow it to be worked. Kelung was opened to foreign trade at the same time as the other Formosan ports. The foreign trade at this port is confined to the shipment of coal. Its exports are included in the returns for Tamsui. The limits of the port are defined to be within a straight line drawn from Image Point to Bush Island. On the 5th August, 1884, the port was bombarded by the French under Admiral Lépès, when the forts above the town were reduced to ruins, and the place captured. It was then garrisoned by the French, who held it until after the Treaty of peace had been signed at Tientsin in June, 1885. A railway to connect Kelung with Tamsui is progressing towards completion.

FOOCHOW.

Foochow (or Fuh-chau-fu) is the capital of the Fokien province. It is situated in lat. 26 deg. 02 min. 24 sec. N., and long. 119 deg. 20 min. E. The city is built on a plain on the northern side of the river Min, and is distant about thirty-four miles from the sea, and nine miles from Pagoda Island, where foreign vessels anchor.

The attention of foreigners was early attracted to Foochow as a likely place where commercial intercourse could be profitably carried on in the shipment of Bohea Tea, which is grown largely in the locality. Before the port was opened, this article used to be carried overland to Canton for shipment, a journey which was both long and difficult. The East India Company, as early as 1830, made representations in favour of the opening of the port, but nothing definite was done till the conclusion of the Treaty of Nanking in 1842. The early years of intercourse with the natives were anything but what was anticipated. The navigation of the river was difficult, there was no market for imports, and several attacks by the populace rendered the port an undesirable place of residence for some time. It was not until some ten years after the port had been opened that there was much done in the export of Tea from the interior, but after that the quantity shipped increased largely, and Foochow is now one of the principal tea ports in China.

The city is built around three hills, and the circuit of the walled portion is between six and seven miles in length. The walls are about thirty feet high and twelve feet wide at the top. The streets are narrow and filthy, but the number of trees about the official quarter of the city, and the wooded hills enclosed by the walls, give a picturesque appearance to the general view. Near the east gate of the city are several hot springs, which are used by the natives for the cure of skin diseases and are believed to be every efficacious. The Foochow people excel in the manufacture of miniature monuments, pagodas, dishes, &c., from what is called "soap stone," and in the construction of artificial flowers, curious figures of birds &c. A few miles above the city the river divides into branches, which, after pursuing separate courses for fifteen miles, unite a little above Pagoda Anchorage. The foreign settlement stands on the northern side of the island thus formed and which is called Nantai. A bridge across the river affords access to the city.

The climate of Foochow is moist and enervating; it is rather warmer in summer and cooler in winter than that of Hongkong. Frost and ice are occasionally—but very seldom—met with here.

The scenery surrounding Foochow is very beautiful. In sailing up the river from the sea vessels have to leave the wide stream and enter what is called the Kimpai Pass, which is barely half-a-mile across, and enclosed as it is by bold, rocky walls, it presents a very striking appearance. The Pass of Min-ngan is narrower, and with its towering cliffs, surmounted by fortifications and cultivated terraces, is extremely picturesque, and has been compared to some of the scenes on the Rhine.

Foreign vessels, with the exception of those of very light draught, are compelled to anchor at Pagoda Island, owing to the shallowness of the river, which has been increasing of late years, and the difficulties of navigation. The limits of the port of Foochow extend from the City Bridge to the Kimpai Pass. The Mamoi Arsenal, near Pagoda Anchorage, is an extensive Government establishment, where several good sized gunboats have been built. The Arsenal was bombarded by the French on the 23rd-24th August, 1884, and reduced to partial ruin, but has since been restored. There is a granite-floored dock at the Anchorage owned and managed by foreigners. The population of Foochow is estimated at 630,000.

The trade of Foochow is mainly in Tea, the export of which has been falling off during the last few years, the quantity exported in 1887 amounting to 615,836 piculs against 665,507 piculs in 1886. Of Opium 5,344 piculs were imported in 1887 as against 4,747 piculs in 1886. The value of the trade of the port for 1887 was Tls. 14,486,569; for 1886 it was Tls. 16,219,108.

WENCHOW.

Wên-chow-fu, one of the five ports opened to foreign trade by the Chefoo Convention, is the chief town in the department of the same name occupying the south-east corner of Che-kiang province. The city is situated on the south bank of the river Ou-kiang, about twenty miles from its mouth, in lat. 27 deg. 18 min. 4 sec. N., long. 120 deg. 38 min. 28 sec. E. The site is a well cultivated plain, bounded on all sides, but at a distance of some five miles, by lofty hills. The walls are said to have been first erected during the fourth century, and enlarged and re-built by the Emperor Hung-Wu in 1385. They are formed of stone, diagonally laid at the foundation, and partly also of brick, and measure about four miles in circumference. The streets are wider, straighter, and cleaner than those of most Chinese cities. They are well paved with brick and kept in careful and constant repair by the householders. They slope down on either side to waterways, which in their turn communicate with canals permeating the whole city. There are numerous large nunneries and temples in Wên-chow. The Custom-house, outside the chief gate, known as the *Shwang Mên* or "Double Gate," the Taotai's Yamên, the Prefect's and other public offices in a cluster, and the Founding Hospital, all near the centre, are the other chief buildings. The latter institution, built in 1748, contains one hundred apartments. It is supported by the interest of invested subscriptions and the rental of alluvial lands presented to it by the Government. There is also a Beggar's Asylum outside the south-west gate. It was built during the 14th century, and is supported by the State. The monthly allowance for each recipient is one tael and a half, but it is reported that few avail themselves of the charity. Among the objects of greatest interest and curiosity to the stranger are two pagodas situated on "Conquest" Island abreast of the city. They are both of great antiquity and, with the houses close by, were some time the retreat of Ti Ping, the last Emperor of the Sung dynasty, when seeking to escape from the Mongols under Kublai Khan. The British Consul and the Customs tide-waiters occupy apartments on the island used by His Majesty, who has left behind him autographs preserved to this day in the adjoining temple. The estimated population of the city is from 80,000 to 100,000.

Wênchow was formerly a great seat of the tea trade, and previous to 1861 was, it is said by some, the only port in the department from which tea was allowed to be exported. The city was then in a flourishing condition. But in order to prevent the teas from falling into the hands of the Tai-p'ing rebels, who overran the whole district during that year, this regulation was exchanged for one which authorized the export of tea at any of the Customs stations along the coast; consequently the trade soon gravitated to Foochow in the south and to Ningpo in the north. It was thought that on the conversion of Wênchow into a treaty port it would speedily recover its old position as a tea exporting place, but this has not proved to be the case, although it is estimated that tea could be put on the Wênchow market for \$2 per picul less than at Foochow, owing to the higher cost of transport to the latter port. At present there is no foreign settlement, and the foreign residents are a mere handful, consisting almost entirely of officials and missionaries. A large quantity of native opium is produced in the vicinity of Wênchow. There is a considerable native export trade in wood and bamboos, brought down the river in rafts from Ch'u-chow. The annual value of this trade is estimated to be not less than \$2,000,000. The shops and yards engaged in it are situated in the west suburb, where immense quantities of bamboos and poles are kept on hand. Wênchow is also celebrated for its bitter oranges. The net value of the foreign imports for the year 1887 was Tls. 353,831 as against Tls. 368,238 in 1886. The export of Tea in 1887 was 3,184 piculs, as compared with 2,619 piculs in 1886. The value of the whole trade of the port for 1887 was Tls. 592,931, compared with Tls. 576,932 in 1886.

NINGPO.

Ningpo is situated on the river Yung, in the province of Chekiang, in lat. 29 deg 55 min. 12 sec. N., and long. 121 deg. 22 min. E. It was one of the five ports thrown open to foreigners in 1842. Foreigners had, however, visited Ningpo at an early date. Portuguese traded there in 1522; a number of them settled in the place in that and succeeding years, and there was every prospect of a rising and successful colony soon being established. But the lawless acts of the Portuguese soon attracted the attention of the Government, and in 1542 the Governor of Chekiang ordered the settlement to be destroyed and the population to be exterminated. A large force of Chinese troops soon besieged the place, destroying it entirely, and out of a population of 1,200 Portuguese, 800 were massacred. No further attempt at trade with this port was made till towards the close of the 17th century, when the East India Company established a factory at the island of Chusan, some forty miles from Ningpo. The attempt to found a trade mart there, however, proved unsatisfactory, and the factory was abandoned after a very few years' trial. The port was deserted by foreigners for many years after that. When hostilities broke out between Great Britain and China in 1839, the fleet moved north from Canton, and on the 13th October, 1841, occupied Ningpo, and an English garrison was stationed there for some time. In March, 1842, an attempt was made by the Chinese to retake the city, but the British artillery repulsed them with great slaughter. Ningpo was evacuated on May 7th, and, on the proclamation of peace in the following August, the port was thrown open to foreign trade.

Ningpo is built on a plain, which stretches away to a considerable distance on either side. It is a walled city, the walls enclosing a space of some five miles in circumference. The walls are built of brick, and are about twenty-five feet high. They

are fifteen feet wide at the summit, and twenty-two at the base. Access is obtained to the town by six gates. A large moat commences at the north gate and runs along the foot of the wall for about three miles on the landward side, until it stops at what is called the Bridge Gate. The main street runs from east to west. Several of the streets are spanned by arches erected in memory of distinguished natives. Ningpo has been celebrated as possessing the fourth library of Chinese works, in point of numbers, which existed in the empire. It was owned by a family who resided near the south gate. The site occupied by the foreign residences is on the north bank of the river. The population of Ningpo is estimated at 240,000.

The trade at Ningpo has never been large. This is owing to a considerable extent, doubtless, to the proximity of Shanghai. The net quantity of Opium imported in 1887 was 4,389 piculs, as compared with 8,244 piculs in 1886. Of Tea, there were 135,153 piculs exported in 1887, and 149,125 in 1886; Cotton, 11,626 piculs in 1887, and 5,259 piculs in 1886. The total value of the trade of the port was Tls. 10,965,582 in 1887; and Tls. 13,248,307 in 1886.

SHANGHAI.

The most northerly of the five ports opened to foreign trade by the British Treaty of Nanking, is situate at the extreme south-east corner of the province of Kiang-su, in latitude 31.15 north, and longitude 121.29 east of Greenwich, at the junction of the rivers Hwang-po and Woosung (the latter called by foreigners the Soochow Creek), about twelve miles above the village of Woosung, where their united waters debouch into the estuary of the Yangtze. The soil is alluvial and the country perfectly flat, the nearest eminence that can be called a hill being distant about nineteen miles. The river opposite the city and foreign settlements, once a narrow canal, was, some eighteen years ago, 1,800 feet broad at low water, but has been rapidly narrowing till it is now only 1,200 feet. The Soochow Creek, which was, judging by old records, at one time at least three miles across, has now a breadth of only a hundred yards. The average water on the bar at Woosung at high water springs is nineteen feet, the greatest depth of late years being twenty-three feet. The bar is the cause of heavy loss to shipowners and merchants through the detention of ocean steamers. After repeated efforts to induce the Chinese authorities to deepen it, a dredger was recently built for the purpose, but has not yet been used at Woosung.

Shanghai—the name means “upper sea” or “near the sea”—became a *hsien* or third rate city in the fourteenth century, and the walls, which are three and a half miles in circuit, with seven gates, were erected at the time of the Japanese invasion, in the latter part of the sixteenth century. It had been an important seat of trade for many centuries before the incursion of foreigners. It was captured by the British forces on 19th June, 1842.

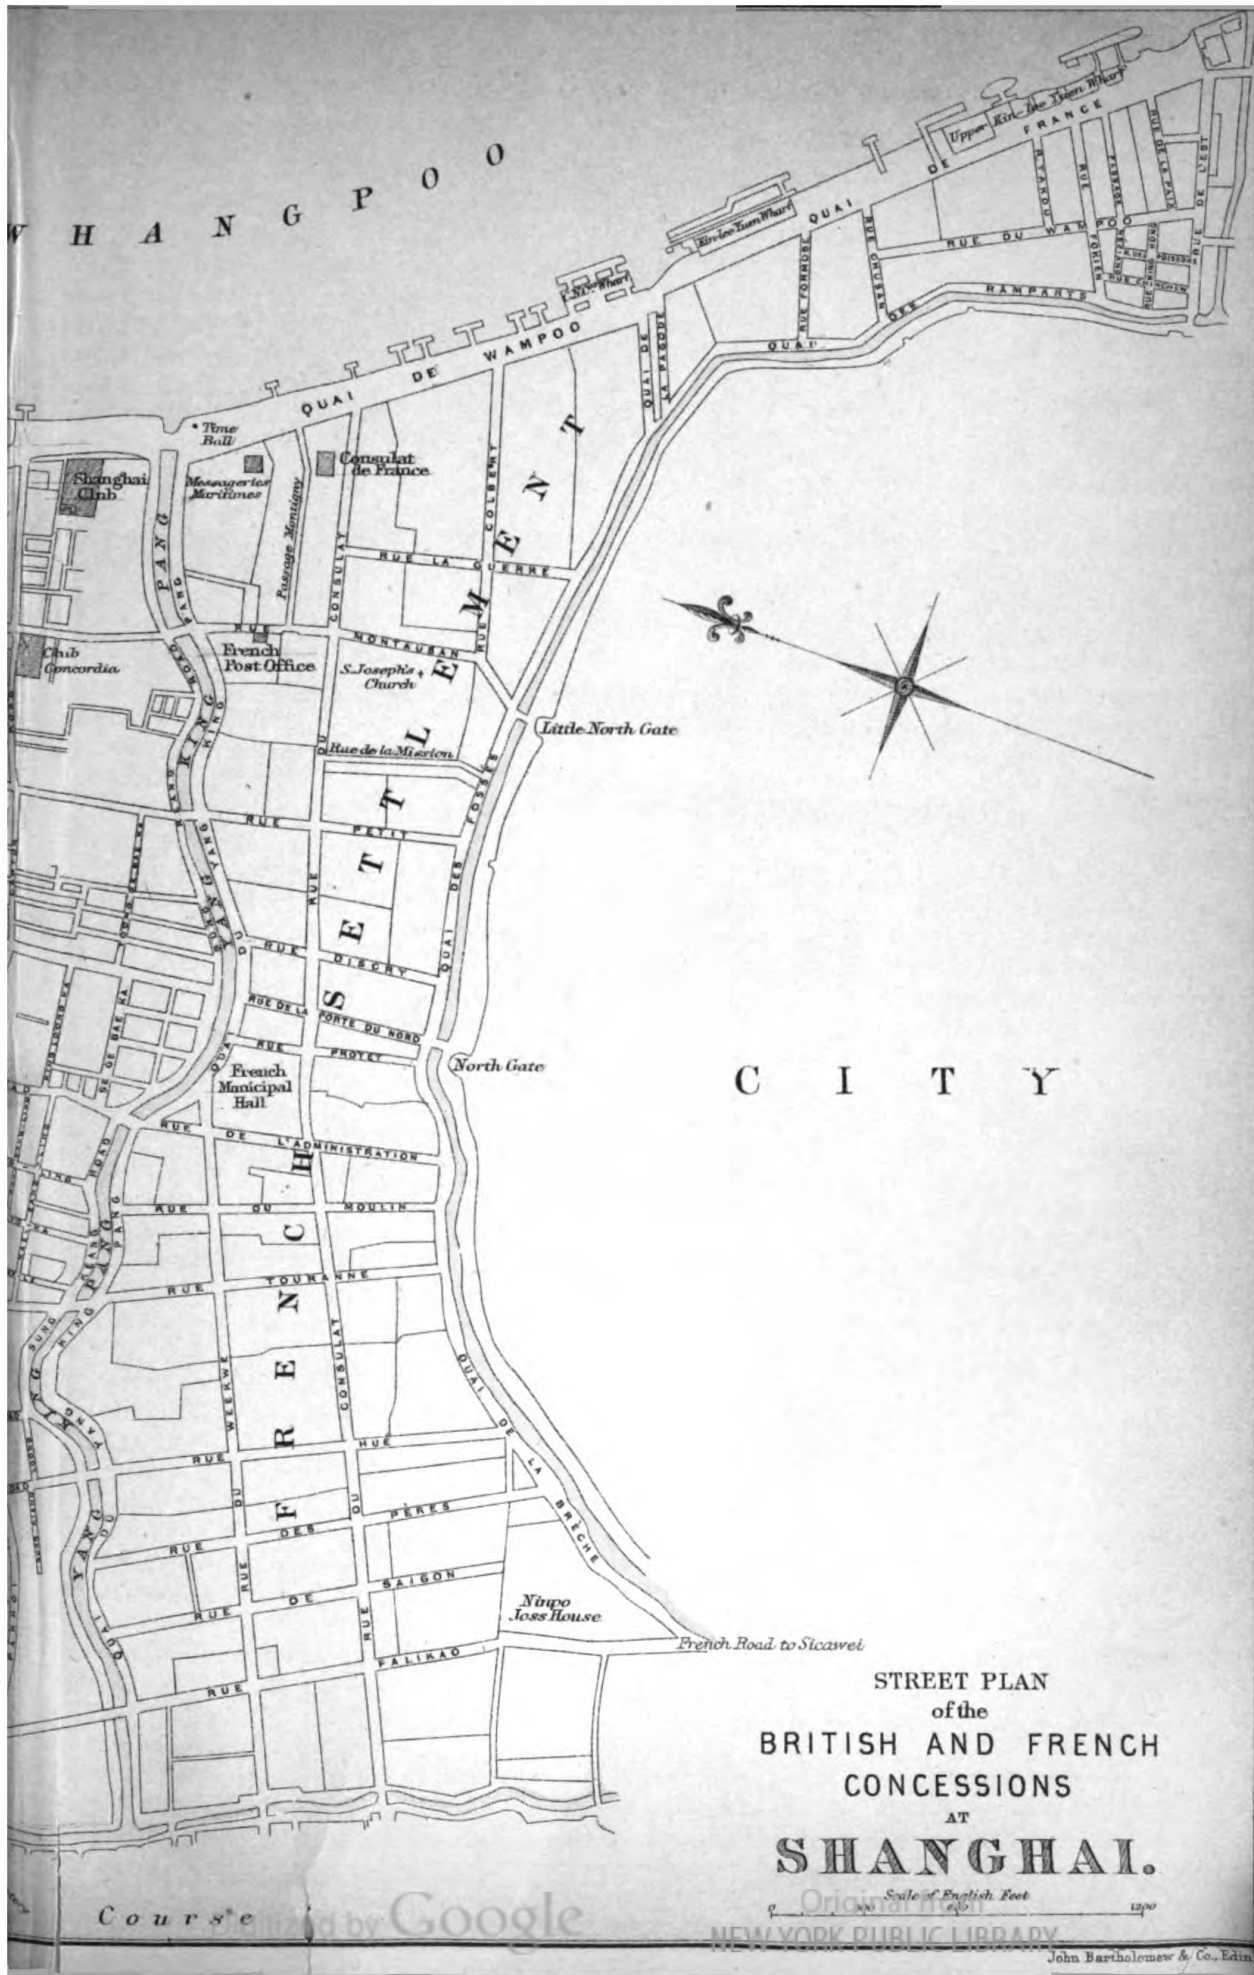

The ground selected by Captain Balfour, the first British Consul, for a Settlement for his nationals, lies about half a mile north of the city walls, between the Yang-king-pang and Soochow Creeks, and extends backward from the river to a ditch connecting the two, called the Defence Creek, thus forming what may be called an island, a mile square. The port was formally declared open to trade on the 17th November, 1843. The French subsequently settled on the ground between the city walls and the British Concession, and in exchange for help rendered in driving out the rebels who had seized the city in 1853, got a grant of the land extending for about a mile to the south between the city walls and the river. They have since by purchase extended the bounds of the Concession westward to the “Ningpo Joss house,” a mile from the river. Later on the Americans rented land immediately north of Soochow Creek, in the district called Hongkew, so that the ground now occupied by foreigners extends for about four miles on the left bank of the river. The land in the British Settlement was assessed in November, 1882 at Tls. 10,340,650, that in Hongkew at Tls. 3,550,660, an advance since 1880 of seventy per cent. The assessed value of the land in the French Concession was Tls. 2,306,677 in 1885. The Chamber of Commerce in 1882 valued the lands in the three Settlements at Tls. 24,355,000 and the merchandise in stock at Tls. 32,645,000, together equal to fourteen and a quarter millions sterling. Most of the land along the outside roads and at Pootung, on the opposite bank of the river, is now also rented by foreigners, but natives have recently been considerable purchasers of landed property within the Settlements. All ground belongs nominally to the Emperor of China, but is rented in perpetuity, a tax of fifteen hundred copper cash, equal to about a dollar and a quarter per mow, being paid to the Government annually. About six mow equal one English acre.

The approach by sea to Shanghai is now well lighted and buoyed, and the dangers of the ever shifting banks and shoals as well guarded as can be expected. Under the superintendence of the Engineering department of the Customs, light-houses have been erected on West Volcano, Showeishan, North Saddle, Gutzlaff, Bonham, and Steep Islands, and Woosung. There are also two lightships in the Yangtze below Woosung.

As a port for foreign trade Shanghai grew but gradually until it gained a great impetus by the opening in 1858 of the Yangtze and Northern ports, secured by the

Treaty of Tientsin, and a further increase by the opening up of Japan. The first event of importance since the advent of foreigners was the taking of the city by a band of rebels in September, 1853, who held it for seventeen months. This caused a large number of refugees to seek shelter within the foreign settlements, and the price of land rose very considerably. At that time a Volunteer force was formed among the foreign residents, under the command of Captain, now Sir Thomas, Wade, which did really good service. The battle of "Muddy Flat," when the Volunteers, in conjunction with the Naval forces, drove the Imperialists from the neighbourhood of the Settlements and burned their camps, was fought on 4th April, 1854. Owing to the occupation of the city the authorities were powerless to collect the duties, and it was in consequence agreed between the Taotai and the three Consuls (British, French, and United States') that they should be collected under foreign control. This was found to work so much to the advantage of the Chinese Government that the system was extended, subsequently to the Treaty of Tientsin, to all the open ports, and thus the Foreign Inspectorate of Customs was established, the headquarters of which were for some years, and according to the original regulations ought still to be, at Shanghai. In 1861 the Taipings approached Shanghai and threatened the city and settlements. The taking of Soochow on 25th May, 1860, had driven a large number of the inhabitants of that city and the surrounding districts to Shanghai for protection, so that the native population increased rapidly. It was variously estimated at from four hundred thousand to a million, but the smaller number is probably nearer the truth. So immensely did the price of land rise that it is stated ground which had originally cost foreigners fifty pounds per acre was sold for ten thousand pounds. At this time the old Race Course and Cricket Ground was sold at such an enormous profit that after the shareholders had been repaid the original cost there was a balance of some forty-five thousand taels, which the owners generously devoted to the foundation of a fund for the use of the public, to be applied to the purposes of recreation only. Unfortunately thirty thousand taels of this amount was lent by the treasurer on his own responsibility to the Club, in which institution he was a shareholder. As the shareholders were never able to repay this loan out of the profits on the Club, the building and furniture were taken over in 1869 by the trustees on behalf of the Recreation Fund, to which the building still belongs. This fund has proved very useful in rendering assistance to some other public institutions, besides having purchased for public recreation all the ground in the interior of the new Race Course. By 1861 provisions had increased in price to four times what they had been some years previously. Efforts were made to keep the rebels at a distance from Shanghai; a detachment of British Royal Marines and an Indian Regiment garrisoned the walls, while the gates on the side towards the French Settlement were guarded by French Marines. In August, 1861, the city was attacked, and the suburbs between the city walls and river were in consequence destroyed by the French, the rebels being ultimately driven back. In December, the rebels to the number of one hundred thousand again threatened the Settlements. The approaches were barricaded and the Defence Creek constructed and fortified at an expense of forty-five thousand taels. Before the close of 1862 the rebels had been driven by the British Forces beyond a radius of thirty miles around Shanghai.

At the time the local native Authorities were severely pressed they availed themselves of the services of an American adventurer named Ward, who raised a band of deserters from foreign ships and rowdies of all nations who had congregated at Shanghai, with whose help he drilled a regiment of natives. After passing under the command of another low caste American of the name of Burgevine, who subsequently deserted to the rebels, the Imperial Authorities found it impossible to control these raw and undisciplined levies, and at their earnest request Admiral Sir James Hope consented to the appointment of Major, afterwards General, Gordon, R.E., to the command. Having by him been made amenable to discipline, they now rendered the greatest service in the suppression of the rebellion; indeed it is generally believed that the Taipings would never have been overcome but for the assistance of "The Ever Victorious Army," as this hastily raised band was named. Amongst other

services they regained possession of the important city of Soochow on 27th November, 1863, which virtually ended the rebellion. A monument in memory of the officers who fell stands at the north end of the Bund. From 1860 to 1865 one British and two Indian Regiments and a battery of Artillery were stationed at Shanghai.

Since that time there have been few historical events worthy of record in a brief summary. On Christmas eve, 1870, the British Consulate was burned down and most of the records completely lost. In May, 1874, a riot occurred in the French Settlement, owing to the intention of the Municipal Council to make a road through an old graveyard belonging to the Ningpo Guild. One or two Europeans were severely injured, and three natives lost their lives. A considerable amount of foreign owned property was destroyed. An extensive fire in the French Concession in August, 1879, destroyed 221 houses; the loss was estimated at Tls. 1,500,000.

As at all the open ports, foreigners are in judicial matters subject to the immediate control of their Consuls, British subjects coming under the jurisdiction of the Supreme Court which was opened in September, 1865. Subjects of Her Britannic Majesty have to pay a poll tax of five dollars for "gentlemen" and one dollar for "artisans and labourers," for which they have the privilege of being registered at the Consulate, and of being heard as plaintiffs before the Court. There is enforced registration at several of the other Consulates, but it is free of charge. Chinese resident in the Foreign Settlements are amenable to their own laws, administered by a so-called Mixed Court, which was established at the instigation of Sir Harry Parkes in 1864, and is presided over by an official of the rank of *Tung-chi*. The cases are watched by foreign assessors from the different Consulates. The working of the Court, especially in regard to civil suits, is far from satisfactory, as the judge has not sufficient power to enforce his decisions. The matter has for some years been supposed to be engaging the attention of the authorities at Peking. For the French Concession there is a separate Mixed Court, which sits at the French Consulate.

In local affairs the residents govern themselves by means of Municipal Councils, under the authority of the "Land Regulations." These were originally drawn up by H.B.M. Consul in 1845, but have since undergone various amendments. In 1854 the first general Land Regulations—the city charter, as they may be called—were arranged between the British Consul, Captain Balfour, and the local authorities, by which persons of all nationalities were allowed to rent land within the defined limits, and in 1863 the so-called "American Settlement" was amalgamated with the British into one Municipality. The "Committee of Roads and Jetties," originally consisting of "three upright British Merchants," appointed by the British Consul, afterwards became the "Municipal Council," elected by the renters of land, and when the revised Land Regulations came into force in 1870, the "Council for the Foreign Community of Shanghai North of the Yang-king-pang," elected in January of each year by all householders who pay rates on an assessed rental of five hundred taels and owners of land valued at five hundred taels and over. The Council now consists of nine members of various nationalities, who elect their own chairman and vice-chairman, and who give their services free. A committee of residents was appointed in November, 1879, to revise the present regulations, and their work was considered and passed by the ratepayers in May, 1881. Many important improvements have been proposed, but they have yet to receive the sanction of the various governments. The "co-operative policy," under which an equal voice is given to small powers having practically no interests in China as to Great Britain, has caused a delay of nearly eight years. The Ministers at Peking have suggested some radical alterations, but these are so opposed to the necessities of the city that the residents, for their own preservation, are bound to offer a strenuous resistance, and from that cause and owing to the changes which have taken place since 1881 it is probable that the Regulations will have to be again revised and will not come into force for some time. A separate Council for the French Concession was appointed in 1862, and now works under the "Règlement d'Organisation Municipale de la Concession Française," passed in 1868, and consists of four French and four foreign members, elected for two years, half of whom retire annually. They are elected by all owners of land on the Concession,

or occupants paying a rental of a thousand francs per annum, or residents with an annual income of four thousand francs. This, it will be noticed, approaches much more nearly to "universal suffrage" than the franchise of the other Settlements, which, however, will be considerably reduced should the new Regulations ever become law. The qualification for councillors North of the Yang-king-pang is the payment of rates to the amount of fifty taels annually, or being a householder paying rates on an assessed rental of twelve hundred taels. For the French Concession the requirement is a monetary one of about the same amount. Several efforts have been made to amalgamate the French with the other Settlements, but hitherto without success. A revision of the Règlements for the French Concession has for some time been under consideration. Meetings of ratepayers are held in February of each year, at which the budgets are voted and the new Councils instructed as to the policy they are to pursue. No important measure is undertaken without being referred to a special meeting of ratepayers. The Council divides itself into Defence, Finance, Watch, and Works Committee. This cosmopolitan system of government has for many years worked so well and so cheaply, that Shanghai has fairly earned for itself the name of "The Model Settlement."

The Foreign population has considerably increased during late years. The census of 1865 gave the number of foreign residents in the three Settlements as 2,757, army and navy (British) 1,851, shipping 981, a total of 5,589. By the census of June, 1885, there were in the Settlements north of the Yang-king-pang a total of 3,673 foreigners, 1,381 in the English division, 1,934 in Hongkew, and 358 in outside roads and Pootung; of these 1,775 were males, 1,011 females, and 887 children, against 1,281 males, 218 females, and 167 children, a total of 1,666 in 1870, and 1,171 males, 502 females, and 524 children, a total of 2,197 in 1880. The increase has been greatest in Hongkew, where the population is three and a-half times what it was only ten years ago. The proportion of different nationalities was 1,453 British, 457 Portuguese, 274 American, 232 Spanish, 216 German, 66 French, 51 Danish, 178 of various other European nationalities, 595 Japanese, 58 Indians, and 95 Manilaman and other Asiatics. While the adult Foreign male population had increased only 38 per cent. since the census of 1870, the number of women and children had been multiplied five times, and nearly doubled during the five years previous to the last census. The French Concession contains about 400 foreigners, the greater proportion being French and the remainder mostly from other European Continental countries. These figures do not include the population afloat, which may be estimated at from 800 to 1,100. Although the Chinese have no right of residence within the Foreign Settlement, and indeed were expressly prohibited by the original Land Regulations, some twenty thousand sought refuge within the boundaries from the rebels in 1854, and when the city was besieged by the Taipings in 1860 there were, it is said, at least four hundred thousand natives within the Settlements. As they found some amenities from "squeezing" when under the protection of foreigners, and foreigners themselves being able to obtain a much higher rental for their land, and finding native house property a very profitable investment, no opposition was made to their residence. In 1870 there were in the three Settlements 75,047. The numbers by the last census (June, 1885) were:—In the British Settlement 78,735, in Hongkew 30,571, in Foreign Hong in both Settlements 5,864, in villages and huts 4,308, in shipping and boats 6,187, total 125,665. Only 39,604 are natives of Kiangsu, the province in which Shanghai is situated, 41,304 being from Chekiang and 21,013 Cantonese; those in the direct employ of foreigners being almost exclusively from these provinces. The native population of the French Concession in 1885 was estimated at 40,000, and the boat population about 5,000, say a total for the three Settlements and afloat of 170,500. Nearly two-thirds are adult males. The population of the native city is supposed to be about 125,000. The large congregation of natives in the Settlements is kept in admirable order by a Police force of 55 Europeans, 56 Indians, and 203 natives for the north of the Yang-king-pang, and 40 foreigners and 30 natives for the French Concession. As the natives have to be tried by their own authorities, and bribery doubtless works its effects in Shanghai as elsewhere in China, the difficulties of organizing and efficiently working such a small force are considerable. In few places is life and property more secure.

The climate of Shanghai is generally allowed to be fairly healthy. The death rate amongst foreigners ashore and afloat during the past seventeen years has ranged from 16.9 per thousand (in 1884) to 30.8 per thousand (in 1881). The rate in 1887 was 25.9 per thousand. Partial outbreaks of cholera have occurred at intervals in recent years, but the great majority of the cases were among the ships in harbour. The number, 25, in 1885 was the highest recorded. Of these 8 were amongst residents. If we exclude non-residents the death rate was 16 per thousand in 1887 and has

varied, so far as can be estimated in the absence of an annual census, from 14.2 per 1,000 in 1884, to 20 per 1,000 in 1883, a rate which compares favourably with that of large towns in Europe. The Health Officer in a late report says, "out of the seventy-five deaths registered, there were but nine which can in any sense be termed climatic." The Chinese authorities reported 2,380 deaths amongst the natives in the "Anglo-American Settlement" in 1887, which would make the rate 19 per thousand, but that is probably under the real number: 375 of these deaths were registered as from Cholera and 76 from small-pox. The thermometer ranges from 25 deg. to 100 deg. Fahrenheit, the mean of eight years having been 59.2 deg.; winter being 39.1 spring 50.9, summer 78.2, and autumn 62.6. Shanghai approaches nearest to Rome in mean temperature, while the winter temperature of London and Shanghai are almost identical. In the months of October and November there is generally dry, clear, and delightful weather, equal to what can be found in any other part of the world; but when the winter has fairly set in the north-east winds are extremely cold and biting. On January 17th, 1878 the river was frozen over at Woosung. The heat in the summer is sometimes excessive, but generally lasts only a few days at a time. In late years very severe gales have become more frequent. The annual average of rainy days in Shanghai during eight years was 124, the annual rainfall 32.464 inches; 55 wet days occurred in winter, and 69 in summer; the heaviest shower was on the 24th October, 1875, when 7 inches fell in $3\frac{1}{2}$ hours. Earthquakes occasionally occur, but have not been known to inflict any serious injury.

The streets of the English and French Settlements all run north and south and east and west, mostly for the whole length of both settlements, crossing each other at right angles. Notwithstanding the soft nature of the soil they are now kept in remarkably good order, at least those near the river, the district chiefly occupied by Europeans. Owing to the nature of the ground, expensive piling or concrete foundations are necessary before any foreign buildings can be erected, and all stone has to be brought from a long distance. The Soochow Creek, between the English Settlement and Hongkew, is now crossed by six bridges, three of which are adapted for carriage traffic, and the French is connected with the other Settlement by eight bridges. There are several good driving roads extending into the country, two leading to Sicawei, a distance of about six miles, and one to Jessfield by the banks of the Soochow Creek, for about seven miles. Another broad road, more recently constructed, runs by the side of the river for six miles. It is intended ultimately to extend it to Woosung. Several other roads have been proposed, but although foreigners are prepared to pay high prices for the land the opposition of the officials has hitherto prevented their construction. At the time the Taipings approached Shanghai some roads for the passage of artillery were made by the British military authorities at the expense of the Chinese Government, one of them extending for seventeen miles into the country; but excepting those close to the settlement they have now been turned into ploughed fields. An inland carriage road to Woosung, made at the expense of Messrs. Jardine, Matheson & Co. and others, has now also been reduced to a narrow footpath. The foreshore in front of the settlement has been raised, turfed, and planted with shrubs. The trees planted some years ago having now attained a good height, and several more imposing buildings having been completed, the English and French Bunds form as magnificent a boulevard as any in the East.

Many foreign houses, nearly all of them with several mow of garden ground, have been erected near the outside roads, especially on that leading to the Bubbling Well, which is the main outlet from the settlement, and from which most of the other roads branch off. This road and its extension to Sicawei is planted with trees on both sides, forming a fine avenue of over five miles in length. A small but well laid out and admirably kept Public Garden was formed about 1868 on land recovered from the river in front of the British Consulate. It is now proposed to considerably extend its area by reclaiming the foreshore.

Immense sums have been wasted in various attempts to drain the settlements, principally from the want of skilled direction; but the great difficulties in this matter, arising from the low lying and level nature of the ground, have now been

fairly overcome. The settlements are well provided with telegraphic fire alarms. The desire of the Municipal Councils to keep the monopoly in their own hands retarded for many years the inauguration of water works, but a public company has now been established, which furnishes a continuous supply of filtered water at moderate rates. The Electric light was introduced in 1882; lamps have been erected at the wharves and on the principal thoroughfares, but it has not yet proved quite satisfactory.

Shanghai can boast of several fine buildings of various and varied styles of architecture. Trinity Cathedral, erected from a design by Sir Gilbert Scott, is one of the finest specimens of modern ecclesiastical architecture to be found out of Europe, but, from want of funds, the tower and spire, which is an essential part of the design, has not yet been built. There is a Roman Catholic Church in the French Concession and another in Hongkew, the Union Church on the Soochow Creek, also a Chapel belonging to the London Mission and one to the American Episcopalians, and a very pretty and prettily situated Seamen's Church at Pootung, besides several Mission Chapels for natives. The Jesuit Fathers have an extensive Mission establishment and orphanages at Sicawei, to which is attached a museum of natural history, etc., and a valuable scientific observatory, in connection with which there is a time-ball on the French Bund. Under the direction of this institution, a complete system of meteorological observations, embracing the whole of the China Seas, has been inaugurated. The Shanghai Club occupies a large and elaborate building at one end of the English Bund. It cost Tls. 120,000, and at that is said to have ruined three contractors. It has passed through a varied and peculiar history. There is a really fine Masonic Hall at the other end of the Bund. Amongst the other conspicuous buildings may be mentioned those occupied by the Oriental and Hongkong and Shanghai Banking Corporations. There is a very fair Theatre, seating 600 persons. The members of the German (Concordia) Club have also a handsome little Theatre attached to their premises in the Canton Road. A monument to the memory of Mr. A. R. Margary, of the British Consular service, who was murdered by Chinese in Yunnan, was unveiled in June, 1880. The principal buildings on the French Concession are the Municipal Hall and the Consulate.

Among the institutions of the place may be mentioned the Volunteer Defence Force, consisting of Field Artillery, Light Horse, and Rifle Brigade, the latter comprising a battalion of three companies. Originally formed in 1861 it gradually went to decay, until the fear of attack after the Massacre at Tientsin in 1870 caused its revival with considerable vigour. It again dwindled in numbers, but the last re-organisation under Major Holliday proved successful, there being now three hundred members, almost all of whom are effective. The Fire Brigade, which is entirely volunteer, consists of seven Engine and two Hook and Ladder Companies. It is pronounced to be the most efficient Brigade out of the United States. There is a Hospital for foreigners, the building for which, although only completed in 1877, is already found inadequate and so badly situated that a new one is proposed. There are also several Hospitals for natives. The Temperance Society has a good hall and well furnished library. The other public institutions may be enumerated as, a Subscription Library containing about 12,000 volumes, a branch of the Royal Asiatic Society, with the nucleus of a Museum, a Masonic Club, a Sailors' Home, a Polytechnic Institution for Chinese, a Seamen's Library and Museum, a well supplied Gymnasium, a Wind Instrument Band, which gives concerts in the Public Gardens three times a week during the summer months, a Race Club, possessing a course of a mile and a quarter, a Country Club on the Bubbling Well Road, Parsee, Portuguese and Customs Clubs, also Pony Paper Hunt, Cricket, Rifle, Yacht, Racquet, and various other Clubs for recreation. The last named owns a building containing two splendid Courts, Bowling Green, Tennis Lawns, etc. There are ten or eleven Masonic bodies, with over 500 members. In 1876 a District Grand Lodge for North China was constituted, with Shanghai as its head-quarters.

There are four Docks at Shanghai, the one at Tunkadoo, opposite the city, having a length of 380 feet over all with a depth at spring tides of 21 feet; the Old Dock at

Hongkew is 400 feet long and 18 feet deep at springs, and the New Dock at Pootung, at the lower end of the harbour, measures 450 feet on the blocks, with a depth at high water springs of about 21 feet. All steamers and most sailing vessels now discharge and load at the various public and private wharves. The premises of the Associated Wharf Company have a frontage of about three-quarters of a mile. The Chinese Government has an Arsenal, Dock, and shipbuilding establishment at Kaou Chung-mow, a short distance above the city. The Great Northern Telegraph Company's cable was laid to Shanghai in 1871, and that of the Eastern Extension Company in 1884, there being now two distinct lines of communication with Europe. An overland line to Tientsin was opened in December, 1881, which has recently been extended to Peking. There is also a line west to Hankow and south as far as Lungchow, on the Kwangsi border. A railway constructed by a foreign company was opened to Woosung in June, 1876, but after running for sixteen months it was purchased and taken up by the Chinese Authorities. During the short time it was running the passenger traffic alone covered the working expenses, leaving sufficient profit to pay a small dividend. A scheme for Tramways in the settlements was sanctioned some years ago, but has not yet been commenced. There are four locally owned lines of steamers running on the coast and the river Yangtsze. Several manufactories under both native and foreign auspices have sprung up of late years, and would considerably increase were it not that the native authorities are offering the most determined opposition to any manufactures under the control of foreigners.

The "Astor House" in Hongkew, the "Central" in the British, and the "Hotel des Colonies" in the French Concession, besides many second class, give hotel accommodation unexcelled by any port in the East. There are three daily newspapers, the *North China Daily News*, morning, and the *Shanghai Courier*, and *Shanghai Mercury*, evening, also three weeklies, the *North China Herald*, *Celestial Empire*, and *Temperance Union*. There are two native daily papers, the *Shun-pao* and the *Hu-pao*. These are sold at the prices of ten and eight cash, equal to a farthing and a half, and have a very large circulation. In one matter, that of Postal accommodation, Shanghai is perhaps over-supplied, there being British, French, American, Japanese, German, Local, and Customs Post-offices. A proposition was recently made by the Chinese Government through the Foreign Customs to take over the Foreign Agencies and Local Post Office, as a preliminary to the establishment of a National Postal Department, but the community are almost unanimously opposed to giving up the present facilities until they have experience of the working of a Chinese office, and can feel more confidence in the good faith of the Chinese Government. Shanghai was made a port of Registry for British ships in 1874. All foreign hongts and even private houses have to give themselves fancy Chinese names, by which only they are known to the natives. The system is, however, found to have its conveniences. Jinrickshas to the number of 2,200, 1,900 passenger wheelbarrows, and 220 horse vehicles ply for hire in the Settlements.

The currency of Shanghai is the tael weight of silver, cast into "shoes" of fifty taels, more or less. The foreign banks issue notes of the value of one dollar and upwards for both taels and dollars. Smaller transactions are conducted in clean Mexican dollars and copper cash. There are seven foreign and numerous native banks in the Settlement.

Shanghai is the great emporium for the trade of the Yangtsze and Northern ports, and to a considerable extent for Japan and Corea. The export of Tea from 1846 to 1850 averaged sixteen million pounds, and Silk during the same period seventeen thousand bales. The total import and export trade of 1868 was sixty five million taels. It steadily increased each year until 1881, when it reached Hk. Tls. 141,921,357 but afterwards shewed a great decline, the total for 1884 having been twenty per cent. less than that of 1881. It has since, however, shewn a rapid recovery, the total trade in foreign bottoms, import and export, for the year 1887, as given by the Customs Statistical Department, being Haikwan Tls. 138,234,600, equal to, at Ex. 1.54, Mex. \$212,881,284, or at Ex. 4s. 10½d., slightly over thirty-three and a half millions.

sterling, an increase of four and a fifth per cent. on the previous year, which was Hk. Tls. 132,671,700, equal to, at Ex. 1.45, Mex. \$192,374,108, or or at Ex. 5s. 0½d., over thirty-three millions sterling. This was in spite of the rapid and heavy fall in silver, which necessarily restricted business. The value of foreign Opium imported continued to shew a falling off, owing to increased production of and demand for native opium, the quality of which is now much superior to what it formerly was. CHINKIANG.

The port of Chinkiang (or Chên-kiang-fu), which was declared open to foreign trade by the Treaty of Tientsin, is situated on the Yangtze, about 150 miles from its mouth, and at the point where the Grand Canal enters the river.

The history of Chinkiang possesses but few features of interest. The town, as a translation of its name implies ("River Guard"), was at one time a post of considerable importance from a military point of view, when all the rice-tribute from the south of China was transported to Peking by the interior route. The British forces captured the place in July, 1842, and as the cutting off of supplies always operates with great effect, the commanding situation thus secured was not long in producing the desired result upon the Central Government, for the Treaty of Nanking was signed a month afterwards. The Taiping rebels entered the town in April, 1853, and continued to occupy it till 1857, when they had to evacuate it from the same cause which had made the Government yield fifteen years before.

The city lies between one of the mouths of the Grand Canal and the right bank of the Yangtze. Most of the houses are built on level ground, but the surrounding hills lend a pleasant appearance to the locality, which is considerably enhanced by the bluff scenery of the island of Ts'io-shan. When the city was abandoned by the rebel forces, its destruction was very nearly complete, and it has now hardly recovered its former prosperous aspect. The city is enclosed by walls and defended by rather formidable looking batteries commanding the river approaches. The foreign settlement occupies a tract of land extending from the mouth of the Canal along the bank of the river. The little settlement has a neat bund, is provided with a club, and has small Protestant and Catholic churches. The population of Chinkiang is estimated at 135,000.

Considerable commercial importance was attached to the port when it was first opened. The largest vessels can approach it, and hopes were high as to the position it would occupy in the development of inland trade with China; but the trade on the Yangtze seems to have centred at Hankow, farther up the river. The import of Opium into Chinkiang in 1887 was 6,609 piculs, against 6,763 piculs in 1886, and has been steadily declining for some years owing to the competition of the lighter taxed native drug. The net value of the foreign imports for 1887 was Tls. 9,084,409. The total value of the trade of the port for 1887 amounted to Tls. 14,386,586, and in 1886 it was Tls. 12,815,581.

WUHU.

This port was opened to foreign trade, by the Chefoo Convention, on the 1st April, 1877. It is situated on the river Yangtze, in the province of An-hwei, and is a half-way port between Chinkiang and Kiukiang, though nearer to the former. It has the appearance of a thriving and busy town, and is admirably located for trade. This is mainly owing to the excellence of its water communication with the interior. A large canal, with a depth of five to six feet of water in the winter and ten to twelve feet in the summer, connects the port with the important city of Ning-kuoh-fu, in southern An-hwei, fifty miles distant. Another canal runs inland for over eight miles in a south-westerly direction to Taiping-hsien, an extensive tea district. This canal, which is only navigable in the summer, passes through Nan-ling and King-hsien, where the cultivation of silk is carried on, and may some day be of importance. The silk districts of Nan-ling and King-hsien are situated within fifty miles of Wuhu. Besides the canals leading to Ning-kuoh-fu and Tai-ping-hsien, there are two others communicating with Su-an and Tung-pó.

It will be seen, from the above enumeration of the facilities for water carriage from Wuhu, that it is calculated to prove an emporium for commerce. The net value of the foreign imports for the year 1887 was Tls. 2,994,036, compared with Tls. 3,764,837 in 1886. 4,449 piculs of Opium were imported in 1887, as compared with 5,751 piculs in 1886. Coal is likely, at no distant date, to become a considerable article of export from Wuhu, the mines at Chihchou, near Ta-tung, turning out some 20 tons a day. The Chih-chou mines are worked with Western appliances and machinery. The export in 1887 was 8,349 tons as against 4,079 tons in 1886. There is a large trade in Timber in Wuhu, but that like all other trade, is in the hands of the Chinese. The total value of the trade of the port for 1887 was Tls. 5,831,240 as against Tls. 7,989,833 in 1886, and Tls. 5,255,360 in 1885.

The town is fairly well built, with rather broader streets than most Chinese cities possess, and is tolerably paved. The tract of land selected for the British Settlement, though admirably suited for the purpose, with good deep water frontage, has not yet been availed of, and there are few foreign houses in the place. The population of Wuhu is estimated at 60,000 inhabitants.

KIUKIANG.

Kiukiang is situated on the river Yangtze, near the outlet of the Poyang Lake, and is a prefectural city of the province of Kiang-si. It is distant about 137 geographical miles from Hankow and 445 miles from Shanghai. Kiukiang was before the Rebellion a busy and populous city; but it was occupied by the Taiping rebels in 1853, and before it was given up to the Imperial troops it was almost entirely destroyed. When the foreign settlement was established there, however, the population soon returned, and it has continued to increase rapidly: it is now estimated at 53,000.

The city is built close to the river, the walls running along the banks of it for some 500 yards. Their circumference is about five miles, but a portion of the space enclosed is still not occupied. The city contains no feature of interest. There are several large lakes to the north and west of it, and it is backed by a noble range of hills a few miles distant. The foreign settlement lies to the west of the city and is neatly laid out. It possesses a small bund lined with trees, a tiny club, and small Protestant and Roman Catholic churches.

The idea which led to the opening of Kiukiang was, no doubt, its situation as regards communication by water with the districts where the Green Tea is produced. But the hopes entertained respecting Kiukiang have never been wholly realised. The total quantity of Tea exported in 1887 was 276,614 piculs, of which 41,500 piculs were Green, the export for 1886 being 307,095 piculs. Opium was imported to the extent of 3,056 piculs in 1887, and 2,493 piculs in 1886. Kiukiang is the port from whence the ware made at the far-famed porcelain factories at Kin-tê-chên is shipped. In 1887, 21,133 piculs of this ware was exported. The total value of the trade of the port for 1887 was Tls. 10,368,885, and for 1886, Tls. 11,460,880.

HANKOW.

Hankow is situated on the river Han at the point where it enters the Yangtsze, and is in lat. 30 deg. 32 min. 51 sec. N., and long. 114 deg. 19 min. 55 sec. E. It was formerly regarded as only a suburb of Hanyang, which it immediately adjoins, and which is a district city of the province of Hupeh, but has outstripped the older city in wealth and importance. These two towns lie immediately facing the city of Wuchang-fu, the capital of the province, which is built upon the south bank of the Yangtsze. Hankow is distant from Shanghai about 600 miles.

Attention was first drawn to Hankow as a place of trade by Huc, a French missionary. Captain Blakiston, in his work "The Yangtsze," gives the following correct description of the place and its surrounding:—"Hankow is situated just where an irregular range of semi-detached low hills crosses a particularly level country on both sides of the main river in an east and west direction. Stationed on Pagoda Hill, Hanyang, a spectator looks down on almost as much water as land even when the rivers are low. At his feet sweeps the magnificent Yangtsze, nearly a mile in width; from the west and skirting the northern edge of the range of hills already mentioned, comes the river Han, narrow and canal like, to add its quota, and serving as one of the highways of the country; and to the north-west and north is an extensive treeless flat, so little elevated above the river that the scattered hamlets which dot its surface are without exception raised on mounds, probably artificial works of a now distant age. A stream or two traverse its farther part and flow into the main river. Carrying his eye to the right bank of the Yangtsze one sees enormous lakes and lagoons both to the north-west and south-east sides of the hills beyond the provincial city."

The port was opened to foreign trade in 1861. The British Settlement is located at the east end of the city, which it joins, and is, together with the Race Course, included within the city walls, which are quite modern, having been built at the time of the Taiping Rebellion. It is well laid out, the roads being broad and all lined with well grown trees. The Bund, which is exactly half a mile in length, affords a very fine and pleasant promenade, and has an imposing appearance from the river. There are a large Roman Catholic and small Protestant and Greek churches, the latter a rather handsome structure built by the Russian residents. Several Brick Tea factories owned by Russians are located in the Settlement. A capital club, with tennis and racquet courts, bowling alley, billiard and reading rooms, library, &c. is kept up. A French Settlement was also fixed upon, but it has never been occupied. The river steamers go alongside hulks moored close to shore; ocean steamers anchor in mid stream. The current is very strong in the river. The population of Hankow is estimated at 700,000.

Great expectations as regards trade were entertained respecting the opening of Hankow. Foreign commerce would, it was thought, be brought into immediate contact with the large internal population of China, and a port be established in the locality of the great tea producing districts. These expectations, however, have been but partially realised. Tea is, of course, the staple export, and it is at Hankow that the first steamers for home take in their cargoes. The total export of Tea from Hankow (including re-exports of Kiukiang tea) amounted in 1887 to 634,245 piculs, as compared with 895,031 piculs shipped in 1886. In 1887 Opium was imported to the extent of 1,387 piculs as against 1,342 piculs in 1886. The trade under the transit pass system is larger at Hankow than at any other port; its value in 1887 was Tls. 4,343,469 as compared with Tls. 4,931,557 in 1886. The total value of the trade of the port in 1887 amounted to Tls. 33,888,944, and in 1886 to Tls. 34,191,477.

ICHANG.

This is one of the four ports opened to foreign trade on the 1st April, 1877, according to the provisions of Clause I. of Section III. of the Chefoo Convention. Ichang is a prefectural city, of considerable official importance, in the province of Hupeh. It is situated on the river Yangtze, about 363 miles above Hankow. The navigation of the river up to this port is easy for vessels of light draught, and there is good anchorage at and near the city. The port is the centre of a fairly rich country. Besides the common productions of the great plain of Hupeh, the cultivation of the tungtze tree, from which the tung oil is expressed, begins on the hills near Ichang and extends westward into Szechuen. Opium is grown in considerable quantities in the district. Ichang is conveniently situated as a mart for the tea districts of Hoh-fung-chow, the produce of which might, it is thought, be made suitable for foreign use. It was generally supposed that, as Ichang is situated at the head of steamer navigation on the Yangtze and occupies a good position for trade, the port would speedily become an important commercial centre. For the first three years these anticipations appeared little likely to be realised: the port cut a miserable figure the first year of its existence as a treaty port. Later returns show, however, that Ichang is becoming a considerable distributing centre, and its inward transit trade is now only second to that of Hankow. The total value of the trade for 1887 amounted to Tls. 4,588,252 as compared with Tls. 3,421,665 in 1886, Tls. 3,077,166 in 1885, Tls. 2,079,732 in 1884, and Tls. 2,550,648 in 1883. No foreign Opium has been imported at this port for the last two or three years, the native drug being generally used. The estimated population of the port is 34,000.

CHUNGKING.

Chungking, one of the most important places in the large inland province of Szechuen, is situated in lat. 29 deg. 33 min. 50 sec. N., and long. 107 deg. 2 min. E., and occupies a rocky peninsula at the junction of the river Kia-ling-kiang with the Upper Yangtze, some 1,250 miles from the mouth of that great river. It is surrounded by somewhat low but strong walls, about five miles in circumference, which include the entire peninsula, and have seventeen gates, only nine of which open. The walls were rebuilt in 1761 by the then Viceroy. The city is closely built, every available bit of ground being covered with buildings. The population is estimated at 250,000, which includes that of Kiang-peh Ting, a suburb on the opposite side of the Kia-ling, wrongly described by Blakiston as Li-min.

The city is the headquarters of a large and thriving trade, and from its situation must naturally be a very important mart, but its capabilities and trade have been over-estimated, as also have the resources of the province of Szechuen, of which it is the commercial capital. Under the provisions of the Chefoo Convention, a British Consular Agent is allowed to reside in Chungking to watch the conditions of British trade in Szechuen, but foreign merchants will not be allowed to reside there until steamers reach the port. A steamer named the *Kuling* has been specially built for the trade, but difficulties have been thrown in the way of her obtaining the necessary permit. A considerable quantity of British and foreign manufactured goods, however, find their way to Chungking in native craft suited for the navigation of the rapids. The Yangtze is about 800 yards wide at Chungking, and it is navigable for boats of light draught as far as Cheng-tu. From Chungking to this city the Yangtze is properly called the Min-kiang. The Kia-ling is a river of some importance, and a considerable traffic is done on it. Chungking, like most Chinese cities, though pleasingly and picturesquely situated, is dirty and repulsive upon close inspection. Thick fogs prevail there throughout the winter.

CHEFOO.

Chefoo is situated on the northern side of the Shantung Promontory, in lat. 37 deg. 35 min. 56 sec. N., and long. 124 deg. 22 min. 33 sec. E. The designation by which it is generally known among foreigners is a misnomer, as the town of Yentai is really the port to which the name has come to be applied. Chefoo is a harbour in the locality of Yentai, but has no connection with it.

When the town was first occupied by the merchants of other nations, it was in the possession of a number of French troops, and no definite foreign settlement was then marked out. The consequence is that no plan has ever been adopted in the arrangement of the houses, and many of them have been in time surrounded by native buildings. The Chinese town is squalid and uninteresting. It is built on the shore, and possesses a fine sandy beach. The surrounding country is gently undulated for some little distance from the town, and beyond that the hills rise to a considerable height and lend to the landscape an interesting and varied aspect.

Chefoo of late years has become the resort of many foreign residents in China in consequence of its very salubrious climate. It is said to be the healthiest port in China. In winter, when the Pei-ho is frozen, merchandise and mails for Tientsin and some of the more northern cities are landed at this port and conveyed to their destinations overland. The harbour is commodious and possesses sufficient depth of water for vessels of considerable draught, but it is exposed to strong gales which prevail at certain seasons of the year. Chefoo is celebrated as the place where Sir Thomas Wade and the Grand Secretary Li Hung-chang concluded the "Chefoo Convention" in September, 1876. The population of Chefoo is estimated at 32,000.

The trade of Chefoo, like that of Newchwang, is principally in Beancake and Beans, of which large quantities are annually exported to the southern ports of China. In 1887, the net export of Beancake amounted to 1,229,720 piculs and of Beans to 80,146 piculs, as against 1,142,140 piculs of the former and 105,498 piculs of the latter in 1886. The total value of the trade of the port for 1887 was Tls. 12,579,788, and for 1886 Tls. 11,698,857.

TAKU.

This village is situated at the mouth of the Pei-ho, on the southern side of the river, about sixty-seven miles from Tientsin. The land is so flat at Taku that it is difficult for a stranger to detect the entrance to the river. There are two anchorages, an outer and inner. The former extends from the Customs Junks to three miles outside the Bar, seaward; the latter from Liang-kia-yuan on the south to the Customs Jetty, Tz'chu-lin, on the north. The village is a poor one, possessing few shops, no buildings of interest except the forts, and the only foreign residents are the Customs employes, some pilots, and the members of the Vice-Consular establishment. A line of telegraph was constructed in the early part of 1879 from Taku to Tientsin by the Provincial Authorities, and a railway to Tientsin is now projected.

Taku is memorable on account of the engagements that have taken place between its forts and the British and French naval forces. The first attack was made on the 20th May, 1858, by the British squadron under Sir Michael Seymour, when the forts were passed and Lord Elgin proceeded to Tientsin, where on the 26th June he signed the famous Treaty of Tientsin. The second attack, which was fatally unsuccessful, was made by the British forces in June, 1859. The third took place on the 21st August, 1860, when the forts were captured, the booms placed across the river destroyed, and the British ships sailed triumphantly up to Tientsin. The water on the bar ranges from about two to fourteen feet at the Spring tides. At certain states of the tide, steamers are obliged to anchor outside until there is sufficient water to cross.

TIENTSIN.

Tientsin is situated at the junction of the Grand Canal with the Peiho river in lat. 39 deg. 3 min. 55 sec. N. and long. 117 deg. 3 min. 55 sec. E. It is distant from Peking by river about 80 miles. It was formerly only a military station, but towards the close of the 17th century it became a place of some importance. The walled portion is small compared with the suburbs, the circumference of the walls being only a little over three miles. The principal trade is carried on in the suburbs. The purely native city has the reputation of being exceptionally dirty. There are a number of soap-boiling works in the neighbourhood, and the smell that arises from them is most disagreeable.

A number of foreigners live in the suburbs of the native city, but the concession, which is situated about a mile and a half farther down on the south bank of the river, has been largely taken up during the last few years, and is now pretty well covered with buildings.

Tientsin will always be famous for the Treaty signed by Lord Elgin in a temple since called the Treaty Temple, or Elgin's Joss-house, on the 26th June, 1858, and known as the Treaty of Tientsin. The port is also infamously notorious for the massacre of the French Sisters of Charity and other foreigners on the 21st June, 1870, by a Chinese mob, under circumstances of shocking brutality. The China Railway Company, which took over the Kaiping Coal Mining Company's line, has now extended railway communication to Tientsin by a line from Taku. The official inspection of the line by H.E. Li Hung-chang took place on the 9th October, 1888. Tientsin is also connected with Shanghai by telegraph, and in 1884 a line to Peking was opened. A Chinese daily paper, called the *Shih-pao*, and an English weekly, entitled the *Chinese Times*, are published. The population of Tientsin is estimated at 950,000.

There is a fair foreign trade done at Tientsin compared with the other open ports; but the exports are very small compared with the imports. The Tea exported goes principally to Russia and Siberia, *via* Kiachta. In 1887, 444,634 piculs were exported by this route, compared with 445,158 piculs in 1886. A trade in Coal from the Kaiping mines has sprung up, the export for 1887 being 46,492 tons against 34,100 tons in 1886. Opium to the extent of 2,109 piculs was imported in 1887, as compared with 2,106 piculs in 1886. The total value of the trade of the port in 1887 was Tls. 28,582,606, as compared with Tls. 27,382,445 in 1886.

GENERAL HOSPITAL FOR EUROPEANS.

PEKING.

The present capital of China was formerly the Northern capital only, as its name denotes, but it has long been really *the* metropolis of the Central Kingdom. Peking is situated on a sandy plain 13 miles S.W. of the Pei-ho river, and about 110 miles from its mouth, in latitude 39 deg. 54 min. N. and longitude 116 deg. 27 min. E. or nearly on the parallel of Naples. A canal connects the city with the Pei-ho. Peking is ill adapted by situation to be the capital of a vast Empire, nor is it in a position to become a great manufacturing or industrial centre. The products of all parts of

China naturally find their way to the seat of Government, but it gives little save bullion in return.

From Dr. Dennys's description of Peking we quote the following brief historical sketch:—"The city formerly existing on the site of the southern portion of Peking was the capital of the Kingdom of *Yan*. About 222 B.C., this kingdom was overthrown by the *Chin* dynasty and the seat of Government was removed elsewhere. Taken from the *Chins* by the *Khaitans* about 936 A.D., it was some two years afterwards made the southern capital of that people. The *Kin* dynasty subduing the *Khaitans*, in their turn took possession of the capital, calling it the 'Western Residence.' About A.D. 1151, the fourth sovereign of the *Kins* transferred the court thither, and named it the Central Residence. In 1215, it was captured by Genghis Khan. In 1264, Kublai Khan fixed his residence there, giving it the title of *Chung-tu*, or Central Residence, the people at large generally calling it *Shun-t'ien-fu*. In 1267 A.D., the city was transferred 3 *li* (one mile) to the North of its then site, and it was then called *Ta-tu*—"the Great Residence." The old portion became what is now known as the 'Chinese city' and the terms 'Northern' and 'Southern' city, or more commonly *nei-cheng* (within the wall) and *wai-cheng* (without the wall) came into use. The native Emperors who succeeded the Mongol dynasty did not, however, continue to make Peking the seat of Government. The court was shortly afterwards removed to Nanking, which was considered the chief city of the Empire until, in 1421, Yung Lo, the third Emperor of the Ming dynasty, again held his court at Peking, since which date it has remained the capital of China."

The present city of Peking is divided into two portions, the Northern or Tartar city and the Southern or Chinese. The former is being gradually encroached upon by the Chinese, and the purely Manchu section of the capital will soon be very limited. The southern city is almost exclusively occupied by Chinese. The general shape of Peking may be roughly represented by a square placed upon an oblong, the former standing for the Tartar and the latter for the Chinese city. The whole of the capital is, of course, walled. The walls of the Tartar city are the strongest. They average 50 feet in height and 40 feet in width, and are buttressed at intervals of about sixty yards. The parapets are loop-holed and crenelated. They are faced on both sides with brick, the space between being filled with earth and concrete. Each of the gateways is surmounted by a three-storied pagoda. The walls of the Chinese city are about 30 feet in height, 25 feet thick at the base, and 15 feet wide on the terre plein. The total circumference of the walls round the two cities slightly exceeds twenty miles.

The Tartar city consists (Dr. Williams tells us) of three enclosures, one within the other, each surrounded by its own wall. The innermost, called *Kin-ching* or Prohibited City, contains the Imperial Palace and its surrounding buildings; the second is occupied by the several offices appertaining to the Government and by private residences of officials; while the outer consists of dwelling-houses, with shops in the chief avenues. The Chinese city is the business portion of Peking, but it presents few features of interest to the sight-seer, while the enclosure known as the Prohibited City is, as its title denotes, forbidden to all foreign visitors. The numerous temples, the walls, the Imperial Observatory, the Foreign Legations, and the curio shops are the chief attractions to the tourist. The streets of the Chinese metropolis are kept in a most disgraceful condition. In the dry season the pedestrian sinks deep in noxious dust, and in wet weather he is liable to be drowned in the torrents that rush along the thoroughfares, where the constant traffic has worn away the soil. There is an air of decay about Peking, which extends even to the finest of the temples. The population of Peking is not accurately known, but according to a Chinese estimate, which is probably slightly in excess, it is 1,300,000, of whom 900,000 reside in the Tartar and 400,000 in the Chinese city. There is no direct foreign trade with Peking, and the small foreign population is made up of the members of the various Legations, the Maritime Customs establishment, the professors of the College of Peking, and the missionary body. In August, 1884, the city was brought into direct telegraphic communication with the rest of the world, by an overland line to Tientsin *via* Tungechow.

NEWCHWANG.

Newchwang is the most northerly port in China open to foreign trade. It is situated in the province of Shing-king, in Manchuria. It is called by the natives Ying-tz, and lies about thirteen miles from the mouth of the river Liao, which falls into the Gulf of Liao-tung, a continuation of the Gulf of Pechili.

Before the port was opened, comparatively little was known of this part of the Central Kingdom. Manchuria has since, however, been largely colonised by the Chinese, who now outnumber the natives. The word Ying-tz means military station, and that was the only use formerly made of the place. Between the years 1858 and 1860, the British fleet assembled in Ta-lien-wan Bay, and early in 1861 the foreign settlement was established. The town of Newchwang itself is distant from Ying-tz about thirty miles, and is a sparsely populated, uninteresting, and unimportant place.

The country about the port of Newchwang is bare and desolate, and in sailing up the river the voyager encounters a cheerless prospect. Ying-tz is surrounded by dreary marshes, and the land under cultivation produces principally Beans. The river is closed by ice for more than three months every year, during which period the residents are entirely cut off from the outer world. The climate, however, is healthy and bracing. The population of the place is estimated at 60,000.

The chief articles of trade at the port are Beans and Bean-cake, 2,595,963 piculs of the former and 3,031,348 piculs of the latter being exported in 1887, as against 1,898,873 piculs and 1,480,048 piculs respectively in 1886. The net quantity of Opium imported in 1887 was 216 piculs, compared with 2,453 piculs in 1879. The import of Opium has of late years shown a continuous decline, the poppy being largely and successfully cultivated in Manchuria. The value of the total trade of the port for 1887 amounted to Tls. 10,356,673 as against Tls. 8,601,216 in 1886.

COREA.

Corea, or Chosen (the native name), is a peninsula situated to the north of China which hangs down between that Empire and Japan, separating the Sea of Japan and the Yellow Sea, between the 34th and 43rd parallels north. It is bounded on the north by Manchuria, on the north-east by Siberia, on the east by the Sea of Japan, on the west by the Yellow Sea, and on the south by the Channel of Corea. It has a coast line measuring 1,740 miles, and with its outlying islands is nearly as large as Great Britain. The name Corea is derived from the Japanese Korai (Chinese Kaoli); and the Portuguese, who were the first navigators in the Yellow Sea, called it Koria. Chosen is translated into "Morning Calm." The eastern half of the peninsula is a sinuous range of mountains of which western Corea is the slope. The chief rivers of importance are naturally to be found on the western side, and most of the harbours are situate on that coast. Corea is divided into eight *do* or provinces, named Ping-an, Whang-hai Kiung-kei (which contains the capital), Chung-chong, Chulla, Kiung-sang, Kang-wen, and Ham-kiung. The climate is considered healthy and temperate, bracing in the north and milder in the south, where it is more exposed to summer breezes. The Han river at Seoul is often frozen for two months in the year. The fauna includes tigers, leopards, wild deer, wild hogs, and in the south monkeys are to be found. A stunted breed of horses exists, and immense numbers of oxen are raised as food; goats are rare, and sheep are only imported from China for sacrificial purposes. The pheasant, eagle, falcon, crane, and stork are common. A great portion of the soil is fertile, and the mineral wealth of the kingdom is believed to be considerable. The history of Corea, like that of its neighbours, is lost in the mists of obscurity, but according to native and Chinese tradition a Chinese noble named Kishi or Ki-tsze, who migrated with his followers to Corea in 1122 B.C., was the founder of the Korean social order and the first monarch. His descendants are said to have ruled until the fourth century before the Christian era. The present dynasty is descended from Ni Taijo, a young soldier who was the architect of his own fortunes, and who succeeded in deposing the Wang dynasty. It was at this time, in the 14th century, that Han-yang, known as Seoul, was selected as the national capital. His Majesty King Li Fin is the twenty-eighth sovereign of the present line. The kingdom is governed, under the King and three Prime Ministers, by six boards or departments—namely, Office and Public Employ, Finance, Ceremonies, War, Justice, and Public Works. The general method of procedure is modelled on that of Peking. The State revenue is derived from the land tax, and it is estimated to amount to about £200,000.

For many centuries the Koreans successfully resisted all efforts to induce them to hold intercourse with foreigners. The King of Corea is a vassal of the Emperor of China. In former times Corea was invaded by both Chinese and Japanese, but for some centuries she enjoyed rest and seclusion, and not until 1876, when she signed the Treaty of Kokwa with Japan, were any foreigners admitted to the kingdom. Upon the establishment of Japanese in the ports of Fusan and Yuensan, the prejudice against foreign intercourse gradually abated, and on the 22nd May, 1882, a treaty of friendship and commerce was signed by the Korean Government at Jenchuan with Commodore Shufeldt on behalf of the United States. A Treaty with England was signed by Sir Harry Parkes on the 26th November, 1883; in 1884 Treaties were also concluded with Germany and Russia, and later with France, Italy, and Austria. The population of Corea, according to the last Government census, was 10,518,937. The value of the foreign trade of Corea is between three and four million dollars per annum. The principal articles of import are cotton manufactures, and of export, rice, hides and bones, beans, and gold. A Foreign Customs service on the model of that of China, and subordinated to it, has been established.

SEOUL.

The capital city of Han-yang, better known to foreigners as Seoul (which is merely the native term for capital), is situated almost in the centre of the province of Kiung-kei, on the north side of and about three miles from the river Han, about thirty five miles from its mouth. It lies in 37 deg. 30 min. N. lat. and 127 deg. 4 min. E. long. Han-yang means "the fortress on the Han." The city is enclosed by crenellated walls of varying height, averaging about twenty feet, with arched stone bridges spanning the water-courses. It is in the form of an irregular oblong, and stretches lengthwise in a valley that runs from north-east to south-west. The houses are about eight or nine feet high, built of stone or mud, and mostly roofed with tiles. Internally they are clean, for the Coreans, like the Japanese, take off their shoes before entering their houses. A long main street, about 100 feet wide, running east and west, divides the city into two nearly equal portions. In the northern half are the walled inclosures containing the king's palace and the more important public buildings. A street about 50 feet wide intersects the main street at right angles, dividing the northern half of the city into eastern and western quarters. At the point of intersection stands a pavilion called Chong-kak (the "Bell Kiosk"), from a large bell about seven feet high which is placed there. This spot is regarded as the centre of the city; and from it another street, as wide as the main street, branches off to the south west. The four wide streets which thus radiate from the "Bell Kiosk" are known as the four Chong-ro or "Bell roads." Another conspicuous feature of this central part of the city is the row of large warehouses two storeys high, the lower portions of which are divided off into little shops, opening into a small court-yard instead of facing the street. The width of the main streets is much reduced by the construction in front of nearly every house of a rude wooden shanty used for a workshop or for business purposes, which gives the streets a poor and squalid appearance. The city, like most eastern towns, is very dirty, heaps of filth being allowed to accumulate, and the open drains on each side of the streets are the receptacles for all sorts of abominations. The shops are small and unattractive, and contain no *articles de luxe* or curios. The population of the city is variously estimated at from 150,000 to 240,000 persons; official returns give the number of houses as 30,000.

CHEMULPO.

Province of JENCHUAN, called also JINSEN and INCHIUN.

This port, known to the Japanese as Jinsen, is situated in lat. 37 deg. 28 min. 30 sec. N. and long. 126 deg. 37 min. E., at the entrance to the Saleé river, an *embouchure* of the Han-kang close to and immediately east of Roze island, on the west coast of Corea, in the metropolitan province of Kiung-kei. Though only five years ago a mere fishing village, and now still in its infancy, many buildings of a substantial character have been erected and the port is rapidly rising into importance as a commercial centre.

The sub-prefectural town of Jenchuan is situated 10 *li* distant from the port, which latter is locally known as Chemulpo. Fut-hing on the Han-kang is the nearest prefectural city, and is distant some 35 *li*, near which place is situated, also on the Han-kang, the rising town of Mapu, which lies on the main road to Hanyang (Söul) some 75 *li* distant from the port (Chemulpo), or 30 *li* from Söul. The whole of the land forming the Japanese Settlement at Chemulpo was sold publicly early in 1884; and the first land sales in the general Foreign Settlement took place on the 7th November of the same year. There is a Municipal Council at Chemulpo composed of the Foreign Consuls, one Korean official, and three representatives of the landholders. The Council employs two foreign and four Chinese police constables. The approaches to the river (Saleé) are now well surveyed, and the latest British Admiralty charts are quite reliable. The outer anchorage is accessible to ships of all sizes, and the inner one to coasting vessels and steamers ordinarily employed in the local trade. The river is navigable for vessels not drawing over 10 feet up to Mapu; but seeing that at certain seasons there are a few places where the fall in the river is very considerable, owing to the existence of sand banks, it is desirable that river steamers, intended to run regularly, should not draw over six feet. An overland telegraph line from China to this port and the city of Seoul was opened to traffic in November, 1885. The climate is healthy and may be compared to that of Chefoo. The foreign population was 976 (including Japanese) in 1886, and the natives were estimated at 2,000.

The port was opened to Japanese trade on the 1st January, 1883, and to foreign trade on the 16th June of the same year. The value of the imports from foreign countries in 1887 was \$1,466,550, and that of the exports \$313,673. The total value of the trade of the port in 1887 was \$1,965,895 compared with \$1,760,832 in 1886.

FUSAN.

Fusan, or Pusan as it is also called, is the chief port of Kiung-sang-do, the south-eastern province of Corea, and lies in lat. 35 deg. 6 min. 6 sec. N. and long. 129 deg. 3 min. 2 sec. E. It was opened to Japanese trade in 1876 and to Western nations in 1883. The native town is a collection of thatched cabins with a population of about 2,000 inhabitants. The Japanese settlement is situated a little distance from the native town, opposite the island of Cholyongdo, and is regularly laid out, clean, and well kept. It is under the control of the Consul, who is, however, assisted by an elective Municipal Council. Order is maintained by a Police Force in uniforms of European pattern. The Japanese residents number over 2,000. The Corean town of Fusan is a walled city, situated at the head of the harbour; it contains the Royal granaries for storing rice, a few wretched houses, and the residence of the small military official in charge. The harbour is good and capacious, with a sufficient depth of water to accommodate the largest vessels. The climate is very salubrious and the place is considered extremely healthy. Sea bathing may be had in perfection. The district city Toong Li Fu, which is distant about eight miles, is the local centre of trade. A branch of the Foreign Customs Service was established in July, 1883. The Nippon Yusen Kaisha run a regular line of steamers between Nagasaki and Wladivostock, calling at Fusan and Yuensan; and also a line from Kobe to Jenchuan, calling at Nagasaki and Fusan. Fusan was connected with Japan by a submarine telegraph cable in November, 1883.

The trade of the port fell off considerably after the opening of Chemulpo, that port being nearer the capital, but it is now reviving. The value of the trade for 1887 was \$1,300,909, as compared with \$699,777 in 1886, and \$593,119 in 1885.

YUENSAN (GENSAN).

This port, situated in Broughton Bay, on the north-eastern coast of Corea, is in the southern corner of the province of Ham-kiung, about half way between Fusan and Vladivostock. It was opened to Japanese trade on the 1st May, 1880, and to other nations in January, 1883, but with the exception of Japan and China no other countries are commercially represented at present. It is called Gensan by the Japanese and Wonsan by the Coreans, and under that name is thus described by Mr. Aston :—
 "The town extends for a mile along the southern shore of the bay, and consists of about two thousand houses with a population of perhaps 10,000 inhabitants. On

main street of some ten to twelve feet in width winds through from end to end and into this open numerous narrow and crooked alleys." Near each end of the town is an open space where a market, chiefly for agricultural produce, is held about six times a month. The houses are mean and dirty, and the town presents a poverty-stricken appearance. The harbour is a good one, being spacious, easy of access, well sheltered, with excellent holding ground, and convenient depth of water. January is the coldest month, and one corner of the harbour—that before the native town—is sometimes frozen over, but the part used by shipping is never covered with ice of such a thickness as to interfere with navigation. The Japanese have a nice clean looking Settlement, consisting of about a hundred houses built in semi-European style and a really fine Consulate, of foreign design, containing at least forty rooms and offices. The Chinese Settlement is a healthy tract of land, situated northwest of the Custom House. A noble building for the Imperial Consulate stands in the middle of the Settlement, and commands a view of the whole harbour. The country around Yuensan is under cultivation, and the soil is very rich. Within a short distance of the port are mines producing copper and other minerals, and gold is found amongst the neighbouring mountains. The cattle at this port, as nearly all over the country, are very fine and plentiful, and can be bought at very low rates; they are used as beasts of burden and for agricultural purposes.

The trade is carried on by a tri-weekly Nippon Yusen steamer from Nagasaki and Vladivostock, occasional steamers from Shanghai, and schooners and junks from Japan. The net value of the trade in 1887 was \$1,109,900 as compared with \$965,406 in 1886. The exports consist chiefly of hides, beans, gold-dust, dried fish, and skins. The imports consist chiefly of cotton and woollen manufactured goods and dyes.

WLADIWOSTOCK.

This port, on some charts still called *Port May*, lies in latitude 43 deg. 7 min. N. and longitude 131 deg. 54 min. E., at the southern end of a long peninsula reaching into Peter the Great Bay. Of all the ports in East Siberia, it is by far the most important, both as a military and commercial centre. It is a free port except that duties have to be paid on the following articles:—Alcoholic liquors, tobacco, matches, kerosine oil, vegetables, sugar, sweatmeats, and canned fruits. Wladiwostock is one of the most magnificent harbours in the East. From its peculiar long and narrow shape and the once supposed hidden treasures in the slightly auriferous soil of its surrounding hills, it has not inappropriately been called the *Golden Horn*. The entrances to the harbour are hidden by Dundas Island, which divides the fairway into two narrow passages. This fine sheet of water first runs for about half a mile in a northern direction and then suddenly bends to the east for a distance of about one mile. On all sides it is surrounded by hills, low on the southern and higher on the northern shore, and which slope sharply down to the water's edge. These hills, once verdant with foliage, have been completely denuded of trees by reckless felling. The harbour, capable of accommodating an almost unlimited number of vessels of deep draught and large capacity, affords a safe anchorage. It is usually closed by ice from about Christmas till the beginning of April, but even then ships may safely approach the entrance by making either for Diomed Bay or some of the numerous sheltered

anchorages along the eastern shore of Dundas Island. The transit of cargo is then effected to Wladiwostock over the ice.

The port, the chief naval station of Russia on the Pacific, is commanded by an Admiral appointed from home, and there is also a military Governor, who resides at Haharoffka. The municipal affairs of the town are managed by a Mayor and Town Council elected by and from among the Russian civil community. The town is built on the southern slope of the hills running along the northern shore of the harbour. The entire area, with the exception of many unoccupied lots intervening here and there, is covered by buildings; and the town is well laid out with good roads. Most conspicuous among the buildings are the Government Offices, the Barracks, and the Governor's residence, which is surrounded by a Public Garden, while the houses of the more affluent merchants are well and substantially built. In the Public Garden the town band plays twice a week during the summer. There is a Naval Club, to which civilians are admitted as non-voting members; two or three hotels; a Gymnasium, or School for boys; an Institute for girls; and military and naval hospitals. The town contains upwards of 12,000 souls, most of whom are of European extraction. The Garrison numbers in all about 5,000 men, and is partly accommodated on Dundas Island. The value of the import trade of Wladiwostock in 1887 was 5,736,467 roubles; the exports have been very trifling hitherto, but the prohibition of the export of timber having been removed, they are now likely to show an increased value.

CONSTITUTION AND GOVERNMENT.

The system of government of the Japanese Empire is at present that of an absolute monarchy. It was adopted in the year 1868, when the now ruling sovereign overthrew, after a short war, the power of the Shogun, together with that of the Daimios, or feudal nobles, who on the 25th June, 1869, resigned their lands, revenues, and retainers, to the Mikado, by whom they were permitted to retain one-tenth of their original incomes, but ordered to reside in the capital in future. The sovereign bears the name of Supreme Lord, or Emperor; but the appellation by which he is generally known in foreign countries is the ancient title of Mikado.

Mut-su-hito, the reigning monarch, was born at Kyoto, on September 22nd, 1852; succeeded his father, Komei Tenno, 1867; married December 28th, 1868, to Princess Haro-ko, born April 17th, 1850, daughter of Prince Itchijo. The reigning Emperor is the 123rd of an unbroken dynasty, which was founded 666 B.C. By the ancient and regular law of succession the crown devolves upon the eldest son, and, failing male issue, upon the eldest daughter of the sovereign. This law has often been disregarded in consequence of the partiality of the monarch or the ambition of powerful ministers, which was one of the principal causes that culminated in the dual system of Government in Japan. The old law of succession has, however, been restored during the present reign. The Throne has frequently been occupied by a female.

The power of the Mikado is really absolute, but its exercise is controlled to some extent by custom and public opinion. The Emperor himself, in 1875, when the Senate and Supreme Judicial Tribunal were founded, solemnly declared his earnest desire to have a constitutional system of government. Since that time any legislative measure, before becoming law, must go before the Senate for discussion and pass that assembly by a majority of votes. The Mikado has long been regarded as the spiritual as well as the temporal head of the Empire, but although the present sovereign is favourable to the Shinto faith, he does not actively interfere in religious matters, and all religions are tolerated in Japan. The Ecclesiastical Department was in 1877 reduced to a simple bureau under the control of the Minister of the Interior. The Mikado acts through an Executive Ministry divided into ten departments, namely:—The Kunai Sho (Imperial Household), Gaimu Sho (Foreign Affairs), Naimu Sho (Interior), Okura Sho (Finance), Kobu Sho (Public Works), Kaigun Sho (Navy), Rikugun Sho (Army), Shiho Sho (Justice), Mombu Sho (Education), and Nomu Sho (Agriculture and Commerce). The Government has been re-organized during the last few years. The Sain, or Left, was abolished in 1875, and the Sho In, or Centre, in 1877. In place of these the Genro In (the Senate), and the Daishin In (the Supreme Judicial Tribunal) have been established, and, united with the Daijo Kwan (Imperial Council of Senate), form the Administrative Authority. The Daijo Kwan, the centre of the Executive power, consists of the Prime Minister, Vice-Minister, and the Sangi or Councillors. The Council is presided over by the Mikado. The ministers decide ordinary questions, only measures of Imperial importance being submitted for the decision of the Mikado. The Genro In discusses and elaborates or modifies all laws prepared by the Daijo Kwan for enactment. The Daishin In has the power of reviewing and annulling the decrees of inferior courts. In September, 1881, in a proclamation the Mikado announced his intention of granting a constitution and representative Government to Japan in the year 1890. In 1888 a Privy Council, modelled on that of Great Britain, was constituted.

The Empire is divided for administrative purposes into three *Fu*, or cities (Tokyo, Kyoto, and Osaka), and forty *Ken*, or districts, including the Loochoo Islands, which

have been converted into a ken and named Okinawa, and Yesso, which has lately been divided into three ken. These fu and ken are governed by prefects. The prefects of the three cities are of higher rank and have more extensive powers than those of the ken. The latter are all on an equal footing, are under control of the Naimu Sho, and have limited powers, being required to submit every matter, unless there is a precedent for it, to the Minister of the Interior. Nor have they any concern in judicial proceedings since the establishment of the twenty-three local Courts and the four Supreme Courts at Tokyo, Sendai, Nagasaki, and Osaka, over which the Daishin In presides at Tokyo.

Previous to the last change of Government, which restored the ancient Imperial régime, the administrative authority rested with the Shogun (Military Commander) whom foreigners were at first led to recognise as the temporal sovereign, and with whom they negotiated treaties of peace and commerce. The Shogunate was founded in 1184 by Yoritomo, a general of great valour and ability, and was continued through several dynasties until 1869, when the Tokugawa family were dispossessed of the usurped authority. Under the Shogun two hundred and fifty Daimios (feudal princes) shared the administrative power, being practically supreme in their respective domains, conditionally upon their loyalty to the Shogun; but their rank and power disappeared with the Shogunate. On the 7th July, 1884, however, His Majesty issued an Imperial Notification and Rescript rehabilitating the nobility, and admitting to its ranks the most distinguished civil and military officials who took part in the work of the Restoration. The old titles were abolished, and have been replaced by those of Prince (*Ko*), Marquis (*Kō*), Count (*Haku*), Viscount (*Shi*), and Baron (*Dan*). The nobles now number 500, and the future House of Peers will thus be easily constituted.

REVENUE AND EXPENDITURE.

The total revenue of Japan for the year 1887-88 was given in official returns at \$79,936,870, and the total expenditure at \$79,935,552. The increase in revenue is due to the sale of Navy Loan Bonds; in the regular sources of supply there is a decrease.

The domestic debt of Japan in 1887 was \$239,837,890. The Foreign debt amounted to \$7,522,032.

ARMY AND NAVY.

The armed force of Japan is divided into the Standing Army, the Reserve, and the Militia, and the troops into five classes. The Standing Army comprises 42 battalions of Infantry, and one of Cavalry. 30 batteries Artillery, 14 companies Engineers, 6 companies of Transport Corps, and 9 companies Marine Artillery. When on a peace footing the Army numbers about 32,300 men, and on a war footing 85,000 men. They are stationed in various parts of the Empire, which is divided into six military districts, having headquarters at Tokyo, Nagoya, Sendai, Osaka, Hiroshima, and Kumamoto. Camps are established in 37 places. Not included in the above are the Imperial Guard, composed of about 3,700 picked troops, which bring up the strength of the regular army, in time of peace, to some 44,426. The army has been organised on the French system by officers specially selected by the French Government.

The navy of Japan consists of one ironclad frigate, four composite corvettes, three steel cruisers, one ironclad turret ship, four wooden corvettes, three sloops, eight gunboats, one despatch vessel, and three training ships, all steamers, besides three torpedo boats. The largest of these ships, the ironclad frigate *Fu-so*, has a displacement of 3,700 tons with engines of 3,500 horse-power. The armour is from 7 inches to 9 inches in thickness, while the armament consists of four 15½-ton and two 5½-ton steel breechloaders by Krupp, so arranged as to command every point of the horizon. The second largest ship of the navy is an ironclad corvette, called the *Kon-go*, which has a displacement, of 2,800 tons, with engines of 2,500 horse-power, and has a belt of armour 4½ inches thick. The armament consists of 12 Krupp guns, capable of throwing steel shells of 142 pounds. The *Hi-yei* is a sister ship to the *Kon-go*. The steel cruiser *Tsukushi-kan* steams 16 knots an hour, and carries two 25-ton breechloading guns, one in the bow and stern respectively.

Two more fast and powerful armed cruisers, the *Naniwa Kan* and *Takachiho Kan*, built by Messrs. Armstrong & Co. in England, arrived in Japan in 1886. They steam 18 knots an hour and carry two 25-ton breechloading guns besides machine guns.

POPULATION, TRADE, AND INDUSTRY.

The total area of Japan is estimated at 156,604 square miles, and the population according to census returns for 1883, prepared on the 1st January, 1884, was 37,451,764, namely, 18,954,770 males and 18,496,994 females. The empire is geographically divided into the four islands: Hondo, the central and most important territory; Kiushiu, "the nine provinces," the south-western island; Sikoku, "the four states," the southern island; and Yesso, the most northerly and least developed. The former three islands are sub-divided into eight large roads, containing sixty-six provinces, and the latter (Yesso) is divided into eleven provinces. Administratively, as before mentioned, the Empire is divided into fu and ken, each ken containing more than one province.

Education is very general in Japan, and is making great progress. In 1871, the Mikado appointed a Board of Public Instruction. There are numerous Middle Schools, Normal Schools, and Colleges for special studies, such as Law, Medicine, Mining, Agriculture, and Foreign Languages, and several High Female Schools have been established, and are carefully fostered by the Government. In order to facilitate the acquirement of foreign languages, the Government of the Mikado has engaged many European professors, and also sent, at the public expense, a large number of students to America and Europe. An association called the Romaji Kai, for promoting the adoption of the Roman alphabet in Japan, was formed in 1885, but is not making much progress.

The trade of 1887 was divided between the ports in the following proportions:—

PORTS.	IMPORTS.	EXPORTS.	TOTAL.
Yokohama	£5,568,633	£5,347,743	£10,916,376
Kobe and Osaka... ..	3,095,408	2,070,225	5,165,633
Nagasaki... ..	238,939	645,904	884,843
Hakodate	2,340	116,450	118,790
	£8,905,320	£8,180,322	£17,085,642

The two staple articles of import into Japan in the year 1887 were cotton yarn and cotton piece goods and woollen and mixed cotton and woollen fabrics, the former of the value of £1,687,250, and the latter of the value of £1,812,666. The two staple articles of export in the year 1886 were raw silk, of the value of £3,426,558, and tea, of the value of £1,203,843. The commercial intercourse of Japan is carried on mainly with two countries, namely, Great Britain and the United States of America, the former absorbing more than two-thirds of the whole.

By treaties made with a number of foreign Governments the Japanese ports of Kanagawa (Yokohama), Nagasaki, Kobe, Hakodate, Niigata, and the cities of Tokyo (formerly called Yedo) and Osaka were thrown open to foreign commerce.

Railways in Japan are now being rapidly pushed forward. The first railway constructed was the one connecting Yokohama with Tokyo; it is 18 miles long and was opened for the traffic as a single road on the 12th June, 1872, and was completed as a double line throughout on the 8th May, 1880. The gauge, like that of all other railways in Japan, is 3 ft. 6 in. The Kobe and Osaka section, 22 miles long, was completed and opened to passenger traffic on the 11th May, 1874; the extension of the same from Osaka to Kyoto, 27 miles in length, was opened to traffic on the 5th Sept., 1876; and the extension from Kyoto to Otsu, 11½ miles in length, was formally opened by the Mikado on the 14th July, 1880. A number of other lines have since been opened, and more are in progress. The most important line in course of construction is the Government grand trunk line from Yokohama to Ofu, via the Tokaido route, which connects with Nagoya-Taketoyo road. The length of this line is 205½ miles.

The Navetsu line will establish communication between the West coast and the trunk line from Tokyo. Besides these and other lines under construction by the Government, private enterprise is at present engaged in the construction of 1,574 miles of railway with a capital aggregating \$48,000,000.

The ports of Yokohama, Kobe, Osaka, Nagasaki, and Hakodate are connected with each other, and with Europe, by lines of telegraph, and the telegraph system extends to all the important towns of the Empire. Japan has joined the Universal Postal Union, and for the past seven years has conducted the international as well as domestic postal service.

NAGASAKI.

Nagasaki is a city of great antiquity, and in the early days of European intercourse with the Far East was the most important seat of the foreign trade with Japan. It is admirably situated on the south-western coast of the island of Kiushiu. A melancholy interest attaches to the neighbourhood as the scene of the extinction of Christianity in the empire and the extermination of the professors of that religion in 1637. At the entrance to the harbour lies the celebrated island of Pappenberg, where thousands of Christian martyrs were thrown over the high cliff rather than go through the form of trampling on the cross. Not far from Nagasaki is also the village of Mogibay, where 37,000 Christians suffered death in defending themselves against the forces sent to subdue them. When the Christian religion was crushed and the foreigners expelled, to the Dutch alone was extended the privilege of trading with Japan, and they were confined to a small plot of ground at Nagasaki called Desima. By the treaty of 1858, Nagasaki was one of the ports opened to British trade on the 1st July in the following year. On entering the harbour of Nagasaki no stranger can fail to be struck with the admirable situation of the town and the beautiful panorama of hilly scenery opened to his view. The harbour is a landlocked inlet deeply indented with small bays, about three miles long with a width varying from half a-mile to a mile. The native town is on the eastern side of the harbour, and is about two miles long by about three-quarters of a mile in extreme width. The foreign settlement adjoins the native town on the south side. The chief mercantile houses are situated on the bund facing the harbour, behind which are a few streets running parallel with it, and there are a number of private residences on the hill side. There are English Protestant and Roman Catholic churches and a commodious club. The Nagasaki dock is capable of docking the largest steamers. Its dimensions are:—Length (inside caisson at top), 438 feet; length on blocks, 375 feet; breadth of entrance at top 89, and at bottom, 77 feet; depth of water on blocks at spring tides, 27 feet 6 inches, and at neap tides 22 feet. The climate of Nagasaki is mild and salubrious, but in summer it is hot during the day by reason of the position of the town, being in a hollow surrounded by hills.

After the opening of the port the trade for several years steadily developed, but it subsequently declined, owing to various causes, but chiefly perhaps on account of its gradual attraction to Yokohama. Latterly there has been a slight improvement in the export trade. The chief articles of import are cotton and woollen manufactures. The principal exports are coal, tea, camphor, rice, vegetable wax, tobacco, and dried fish. There are several very productive coal mines on the islands near Nagasaki, of which the Takashima mine is the most important. The net output of the Takashima mines in 1887 was 334,187 tons.

The value of the foreign import trade of Nagasaki during the year 1887 was £238,939 as compared with £196,914 in 1886, and that of the foreign export trade, £645,904 as against £798,241 in 1886. Coal is the staple article of export, accounting for nearly half of the total export trade.

The population of Nagasaki in 1887 was 38,229. The number of foreign residents, as given in the Consular report for 1887, was 1,031 (including 215 children), of whom 741 were Chinese, 93 British, 68 American, 13 German, and the rest of various nationalities. A small foreign weekly paper entitled the *Rising Sun* is published in the port.

KOBE-HYOGO.

Kobe is the foreign port of the adjoining town of Hyogo and was opened to foreign trade in 1868. It is finely situated on the Idzumi-nada, at the gate of the far-famed Inland Sea. The harbour is good and affords safe anchorage for vessels of almost any size. The two towns face the landlocked water covered with white sails, while behind, at a distance of about a mile, rises a range of picturesque and lofty hills, some of which attain an altitude of about 2,500 feet, and the steep sides of which are partly covered with pines. Kobe and Hyogo stretch for some three miles along this strip of land between the hills and the water. The Foreign Concession at Kobe is well laid out, the streets are broad and clean, and lighted with gas. There is a Municipal Council consisting of the Prefect, the Foreign Consuls, and three elected members of the community. The Bund has a fine stone embankment and extends the whole length of Kobe. The foreign houses are neatly built, and the San-nomiya railway station, within three minutes' walk of the Concession, has a very English look. The railway terminus is at the other end of Kobe, where it meets Hyogo, and there are extensive carriage works adjoining the station. A rice-cleaning mill was started here in 1885. The foreign concession at Kobe is the "model settlement" of Japan. There is a good Club and a spacious recreation ground at the East end of the settlement. The Union Protestant Church and a French Roman Catholic Church are in the Concession, and there is also a native Protestant Church in Kobe town. The Hyogo Hotel is situated on the Bund, at the west end of the settlement. A well conducted foreign daily paper, entitled the *Hyogo News*, is published in Kobe, and there are one or two native papers. The population of Kobe-Hyogo in January, 1887, was 101,231. The foreign residents in Kobe in 1887 numbered 1,139, of whom 724 were Chinese, 232 British, 69 German, and 44 American.

The old town of Hyogo is only divided from Kobe by the river Minato-gawa, which is spanned by a substantial stone bridge. Hyogo contains few features of interest, and the streets and shops are inferior to those of Kobe. The Temple of Shin-ko-ji,

which possesses a large bronze Buddha, is worth a visit; and there is a monument to the Japanese hero Kiyomori, erected in 1286, in a grove of trees in the vicinity of the temple, which claims some attention from its historic associations. In connection with the Imperial Shipbuilding Yard at Hyogo is a Patent Slip, which will accommodate vessels up to 2,000 tons. Its total length is 900 feet; length above water, 300 feet; breadth, 38 feet; declivity, 1 in 20. The slip is worked by hydraulic power. The population of Hyogo in January, 1886, was 27,720.

Kobe is connected with Osaka by rail, the distance between being twenty miles. This line, which has been extended to Kyoto (the ancient capital of Japan), a distance of 27 miles from Osaka, was formally opened to traffic along its whole length by the Mikado on the 5th February, 1877, and has since been successfully worked. The connection of Osaka with Kobe by rail has naturally tended to centralise trade at the port of shipment. Among the exports, tea, rice, camphor, copper, and vegetable wax, take the lead. The value of the foreign import trade for 1887 was £3,095,408; that of the exports £2,070,225. In 1886, the value of the imports was £2,151,376, and that of the exports £1,827,086. The quantity of tea shipped from Kobe-Hyogo in 1887 was 18,669,782lbs., compared with 18,020,060lbs. in 1886. The whole of this went to the United States of America and Canada. Shipbuilding is an important industry of the port, and a goodly number of iron and wooden screw steamers are annually laid down here.

OSAKA.

Osaka is the second city in Japan in point of size and commercial importance, and has not inaptly been termed the Venice of the Far East, owing to the manner in which it is intersected by canals. The city is compact and well laid out, the streets being regular, clean, and animated. Osaka is essentially Japanese, though a go-ahead and progressive city, and possesses much of interest to the foreign visitor. It is situated in the province of Settsu, and is built on the banks of the river Ajikawa, about five miles from the sea. The river is only navigable for small vessels, and on the opening of the railway to Kobe the foreign trade of Osaka commenced to decline. Almost all the foreign firms in the latter city have removed to Kobe. The most imposing and at the same time the most interesting

object to be seen in Osaka is the Castle, erected in 1583 by one of the Shoguns, the famous Tai-ko-Sama. Though less extensive than that of Tokyo, it is a much grander and more striking edifice, and is indeed, on the whole, the finest example of the ancient feudal castles of Japan. It is now occupied by the Osaka garrison, and forms the headquarters of one of the six great military districts. The city is the seat of the provincial government, which is called Fuchu, in contradistinction to the other provincial governments, which are termed Kencho. Osaka is the seat of numerous industries, including a cotton spinning mill, shipbuilding yards, and iron works, and the Imperial Mint is located there. This establishment is in active operation and turns out a coinage not surpassed by any in the world. The population of the city in 1887 was 361,694; the number of foreign residents in 1887 was 284, of whom 185 were Chinese, 31 American, and 44 British, nearly all of the two latter nationalities being missionaries. The imports and exports are included with those of Kobe-Hyogo.

TOKYO.

The capital of Japan [until the Restoration called Yedo] is situated at the north of the Bay of Yedo, has a circumference of 24 miles, and covers a surface of nearly 36 square miles. The Sumida, or Great River, runs through the city, dividing Tokyo proper from the districts on the east side called Honjo and Fukagawa.

Tokyo as viewed from the bay is a pleasant-looking city, being well situated on undulating ground, and possessing abundant foliage. The city is divided into fifteen grand divisions, each of which is again subdivided into smaller sections. It is in fact more like an aggregation of towns than one great city. The Castle of Tokyo occupies a commanding position on a hill a little to the westward of the centre of the city. It is enclosed in double walls, and surrounded by a fine broad moat. Within the Castle formerly stood the Imperial Palace and several public offices, but the destructive fire of the 3rd of April, 1872, levelled these ancient and massive buildings, leaving only the surrounding lofty turrets and walls. Since this great disaster, by which more than 5,000 houses were destroyed, the Mikado has taken up his residence temporarily in one of the Daimios' palaces at Akasaka, while the public offices are now located in new brick or stone buildings in various places near the Castle. A new Imperial Palace on the old site is in course of construction. The Imperial Garden called Fukiage is situated within the enclosure of the Castle. It is tastefully laid out in the pure native style, and contains fine forest trees, rare and beautiful plants of all kinds, a large pond, cascades, &c., and is most carefully kept. This fine garden well repays inspection, and admission can readily be obtained twice a week by visitors with orders granted by the different Legations.

Between the Castle and the outer walls, a large area was until recently occupied by the numerous palaces of the Daimios, but nearly all these feudal erections have now given place to smart brick or stone buildings, used as Public Offices, Barracks, Government Schools, &c., so that at the present time very few of the Daimios' palaces remain to illustrate what old Yedo was like in the time of the Shogunate. Some of those that remain, near the Castle, have been converted into Government Offices. They are large long buildings of a single high storey, plain but substantial, with no pretensions to architecture, but interesting as reminiscences of feudal Japan.

The remaining portion of the city outside the walls is very densely inhabited and may be called the commercial district of Tokyo. It has a circumference of 24 miles and covers an area of about 29 square miles. The most important part of the business quarter is on the east of the Castle, and is traversed by a main street running from the north to the south-west under different names. A considerable length of this thoroughfare, which is called Guinza, is lined with newly built brick buildings in the European style; the road is wide and well kept, the pavement broad and planted with trees on either side. As it is in close contiguity to the railway station, it is always very animated and thronged with vehicles and foot passengers.

The north end of the main street leads to the new public park or garden named Uyeno, which was formerly occupied by the magnificent Temple founded and maintained by the Shoguns, and which was destroyed by fire during the revolution in July, 1868. In these grounds the Industrial Exhibition of 1877 was erected, when the gardens were converted into a public pleasure resort by the Government. Several exhibitions have since been held here and have proved very successful. In Uyeno is also situated the fine Imperial Museum (Haku-butsu-kwan).

Among the places much resorted to by visitors is the ancient temple of Quannon, at Asakusa, not far from Uyeno, one of the most popular and most frequented temples in Japan. The temple is elevated about 20 feet from the ground. A flight of steps gives access to the interior. There is a chief altar at the extreme end of the temple, with side chapels at its right and left, containing a great number of wooden images and *ex votos*. The interior is not very large, and is not so conspicuous for cleanliness as most of the public buildings in Japan. At the right of the temple there is a fine old Pagoda, and near it two colossal stone statues. A new park was also opened close to the temple, about the same time as that of Uyeno. Thus, with Shiba in the South West, where are to be seen some of the splendid shrines of the Shoguns, among the chief glories of Tokyo, there are three large public gardens within the city. The buildings which are called the Temple of Confucius were formerly the University of Tokyo, but this has been superseded since the Restoration by the Tokyo Dai-gaku-kō (Tokyo University), and other schools in which Foreign instructors are employed. There are altogether 1,275 temples in Tokyo, some of which are fine edifices.

The districts of Honjo and Fukagawa form the quiet portion of the capital. This quarter is connected with Tokyo proper by five great bridges, some of which are constructed of stone and some of wood. They are called, commencing on the north, Adsuma Bashi, Umayu Bashi, Riogoku Bashi, Ohashi, and Yeitai Bashi respectively. The quay on the banks of the Sumida forms a spacious and handsome street, and may be especially recommended to a traveller who has only a few days to spend in Tokyo. In passing along the quay, he will see across the stream several fine temples and great buildings which stand on the western bank of the Great River, and he may get at the same time a very good idea of the animated river-life of the Sumida, whose waters are always covered with junks and boats of all descriptions.

A great part of the remaining area forming the district North of the Castle is covered by paddy fields, in the midst of which rise picturesquely situated houses. There are also extensive pleasure gardens, such as Aska-yama, and neat little villages. The surface covered by paddy fields and pleasure gardens may be estimated at $4\frac{1}{4}$ square miles. The part West of the Castle contains fifty temples, and a number of nobles' palaces. The district on the South of the Castle, with an area of about $17\frac{1}{2}$ square miles, contains about sixty temples. The most remarkable among them is the Tera of Meguro.

Several great fires have during the last few years swept Tokyo, and these have led to great improvements and the widening of the streets. Rows of good houses in brick and stone, and new bridges, in many cases of iron or stone, have been built, and the city has in many portions been thoroughly modernised. Tramways have been laid and the cars are usually crowded with passengers. The main streets and those adjacent to them are lighted by gas, and the remainder by oil lamps. A race course has been formed close to Uyeno. Lines

of telegraph, amounting in all to 200 miles, connect the various parts of the city with one another, and with the country lines. The main streets are broad and well kept, and improvements attend the work of reconstruction after each conflagration. But as the city is in a transition state, it necessarily presents many strange anomalies. Side by side with lofty stone buildings stand rows of rude wooden houses. As with the buildings so with the people; while the mass still wear the native dress, numbers appear in European costume. The soldiers and police are dressed in uniform on the Western model.

The environs of Tokyo are very picturesque and offer a great variety of pleasant walks or rides. Foreigners will find much to interest them in the country round. The finest scenery is at the northern and western sides of the city, where the country is surrounded by beautiful hills, from which there is a distant view of the noble mountains of Hakone, while beyond rises in solitary grandeur the towering peak of Fusi-yama, covered with snow the greater part of the year. The population of Tokyo and its suburbs was, according to the official census of 1885, 1,207,847, of whom 631,005, were males and 576,842 females. The foreign residents number about 300, many of whom are in Government or Japanese employ. The number of houses in 1885 was 361,479.

The native Press is represented by more than a hundred newspapers, several of which are dailies. Among them the *Nichi Nichi Shimbun*, the *Hoch Shimbun*, the *Choya Shimbun*, the *Jiji Shimpō*, and the *Mainichi Shimbun*, take the lead. There are 1,225 schools of different classes, including one university.

YOKOHAMA.

Yokohama is the principal Treaty port of Japan, and was opened to foreign trade in July, 1859. It is situated on the Bay of Yokohama, a small bay on the Western side of the Gulf of Yedo, in lat. 35 deg. 26 min. 11 sec. N., and long. 139 deg. 39 min. 20 sec., in the island of Hondo, and is distant about eighteen miles from the capital, with which it is connected by a line of railway. The settlement stands on what was originally a swamp, and—the town having sprung up only since the site was selected for a treaty port instead of the little town of Kanagawa—possesses few attractions for the visitor. The scenery around, however, is hilly and pleasing, and on clear days the snow-crowned summit and graceful outlines of Fusi-yama, a volcanic mountain 13,540 feet high—celebrated in Japanese literature and depicted on so many native works of art—is most distinctly visible through some seventy-five miles distant. Yokohama is compactly built of low houses with tiled roofs. The town is divided into two nearly equal parts, the western half being occupied by the foreign settlement. Beyond the plain on which the town is built rises a sort of semicircle of low hills called “The Bluff,” which is thickly dotted with handsome foreign villas and dwelling-houses in various styles of architecture, all standing in pretty gardens. From these dwellings charming prospects are obtainable. Along the water-front of the foreign settlement runs a good road called the Bund, on which, facing the water, stand many of the principal houses and hotels and the United Club. The streets in the foreign settlement are fairly paved, kerbed, and drained. There are Anglican, French Catholic, Union Protestant, and native Mission Churches in the settlement. A fine Cricket and Recreation Ground exists in the Settlement, and there are some well laid out Public Gardens on the Bluff. A new Theatre and Assembly Rooms, neatly built of brick, was opened on the Bluff in 1885. The chief public buildings in the native town are the Kencho, opposite the British Consulate, the Town Hall, which has a clock tower, and the Custom House, a fine building erected in 1885. The Railway Station is also a creditable structure, being a well designed and commodious terminus. The town is now in the enjoyment of an excellent water supply, large new Waterworks having been completed in 1887. There is a fairly good Race Course situated about two miles from the Settlement. Yokohama is well supplied with hotels, some of which afford good accommodation. There are three English daily papers published in the port, namely, the *Japan Gazette*, the *Japan Herald*, and the *Japan Daily Mail*; the latter has also a weekly edition.

The native population of Yokohama is 89,545. The number of foreign residents in 1887 was 3,821, of whom 2,359 were Chinese, 694 British, 259 American, 170 German, 110 French, 33 Swiss, 41 Dutch, 57 Portuguese, and the remainder of various nationalities.

The imports into Yokohama consist chiefly of cotton and woollen goods. In 1887, according to the British Consul's report, the value of the different classes of imports was as follows:—Cotton manufactures, £1,254,902; woollen and mixed cotton and woollen manufactures, £826,542; metals, £576,081; kerosine, £189,928; sugar, £753,281; miscellaneous foreign, £1,617,937; miscellaneous eastern, £283,505; total, £5,568,633, as against £4,131,993 in 1886. The total value of the exports was £5,347,743 against £5,308,136 in 1886. Silk is the most valuable of the exports, being set down at £3,416,885. The value of the tea exported was £732,348. The total export of raw silk during the season from 1st July, 1887, to same date 1888, only half of which period is covered by the Consular returns, was 38,958 bales. The total export for the previous year was 26,371 bales. The export of tea during the season 1st May, 1887, to same date 1888, was 25,920,382 lbs., nearly all for America. The export during the previous season was 27,723,344 lbs.

NIIGATA.

Niigata is situated on the west coast of Japan, and in the southern part of the province of Echigo, at the mouth of the river Shinano-gawa. Though well located for trade it has yielded the most disappointing results of all the Treaty ports of Japan. Foreign goods find their way to Niigata in considerable quantities, but since the opening of the port no direct foreign trade has been developed there.

The town, which is perhaps the cleanest and one of the best laid-out in Japan, covers an area of rather more one square mile and consists of five parallel streets intersected by cross streets watered by canals which communicate with the river. It has been materially improved within the last few years by the widening of the canals and streets, the latter of which are now lighted with petroleum obtained in the district. New Law Courts, Post-office, and Schools have been built, and the town is connected by telegraph with Tokyo and other cities of the Empire. A Government Hospital and a Medical School, as well as a large English school under English and American masters, have been established here. A handsome building for the local assembly was completed in 1884. A steam rice mill has been started and some fresh industries have been commenced. Niigata is still famed for the beauty of its women. The population of the town in 1885 was 40,185.

HAKODATE.

This, the most northerly of the treaty ports of Japan, is situated in the south of Yesso on the Straits of Tsugar, which divide that island from Hondo. The port lies in latitude 41 deg. 47 min. 8 sec. N., and longitude 140 deg. 45 min. 34 sec. E., and the harbour is nearly land-locked. The town clusters at the foot and on the slope of a bold rock known to foreigners as Hakodate Head, 1,106 feet in height. The surrounding country is hilly, volcanic, and striking, but the town itself possesses few attractions. A destructive fire in December, 1879, led to great improvements and the widening of the streets. The foreign concession has never been built upon, the few foreign residents in the port having taken up their quarters in Japanese buildings. A row of fine temples, with lofty picturesque roofs, occupying higher ground than the rest of the town, are the most conspicuous buildings. There are some Public Gardens at the eastern end of the town, which contain a small but interesting Museum. The climate of Hakodate is healthy and bracing. The hottest month is August, but the thermometer then rarely rises above 90 degrees Fahr.; in the winter it sometimes sinks to 18 degrees. The mean temperature throughout the year is about 48 degrees. The population of Hakodate is 50,725. The number of foreign residents in 1887 was 88, of whom 39 were Europeans and Americans, and 49 Chinese; there are 16 more Europeans in other parts of Yesso.

The foreign trade of the port is small and has never been important. The imports in 1887 amounted to £2,340 as compared with £3,316 in 1886. The exports for 1887 amounted to £116,450, compared with £112,959 in 1886. The agricultural resources of Yesso have been to some extent developed under the auspices of the Kaitakushi or Colonization Department. The rich pasture lands are well adapted for breeding cattle. In the valuable and extensive fisheries on the coast, however, the chief exports of the future from Hakodate are to be looked for. Increasing quantities of dried fish and seaweed are exported annually, mostly to China. The mineral resources of Yesso, said to be large, may also some day yield a valuable addition to the exports of this port. Hakodate is connected with the capital by telegraph. A railway from Otarunai to Sapporo, 22 miles long, was opened to public traffic on the 28th November, 1880, and has since been carried on to Poronai, where are some coal mines, the total length of the line being 56½ miles.

THE PHILIPPINES.

The Philippines are a rich group of islands, situate between lat. 5 and 22 N., and long. 123 and 133 E., and form a Spanish colony. The islands are over five hundred in number and contain an area of 52,647 English square miles, with a population, in 1876, of 6,173,632 souls. At the end of 1883 the population, including the army and navy, was estimated at 7,636,632. The principal islands are divided into twenty-seven provinces, thirteen of which are on the Isle of Luzon, four on the Isle of Negros, three on Panay, and three on the Isle of Mindanao. The islands were formally annexed to the Crown of Spain in 1565.

The early history of the Philippines is a record of continual trouble. Conflicts between the civil and ecclesiastical authorities led to internal contentions, while both Portugal and the Netherlands coveted these rich possessions and harassed the Spaniards. Attacks were also made at different points by powerful Chinese piratical fleets. In 1762 the capital was taken by the English, but was restored to Spain two years afterwards for a ransom of £1,000,000. The ransom, however, has never been exacted.

After the discovery of the islands ecclesiastics flocked to them in large numbers, and, undisturbed by the attacks on Spanish authority, the work of converting the natives was carried on with great vigour. The clergy at the present time number 1,962, and most of the natives brought under subjection profess the Roman Catholic religion. In the Philippines there has been little of that cruelty to the aboriginal population which so often characterises the process of colonization, and the natives are in general contented and well conducted, the priests exercising the almost unbounded influence they possess with great effect in the preservation of order. In the inaccessible mountainous parts of the islands there are still tribes of unsubdued savages, but their number is comparatively small and the authority of the Government is being rapidly extended over them. In the last census returns the number of natives not subject to the civil government and paying no tribute is given as 602,853, while the number of natives paying tribute is returned as 5,501,356. There is a considerable number of *mestizos* or half-castes, some of whom are the children of Spanish fathers by native mothers and some the children of Chinese fathers.

The public revenue is about \$12,000,000, of which the larger part is raised from direct taxes, Customs, monopolies, and lotteries. In addition to the ordinary Customs dues special dues are imposed at Manila for the new harbour works, the figures of which are not included in the above.

The chief articles of produce are sugar, hemp, and tobacco. The total export of sugar in 1887 was about 180,000 tons, of hemp 514,973 bales, of cigars 100,000 milles, and of tobacco 96,828 quintals. The foreign trade is confined to the ports of Manila, Iloilo, Cebu, and Zamboanga.

The climate of the Philippines varies little from that of other places in the same latitude. The range of the thermometer during the year is from a little over sixty degrees to about ninety. The rainy season usually lasts six months, and during this time inundations of rivers are frequent and travelling in the interior almost impossible. Long continued droughts, however, sometimes occur, when the ground becomes parched and the crops are utterly destroyed. Husbandry also suffers from the ravages of locusts, which will sometimes almost entirely denude a whole province of herbage. The principal part of the group comes within the range of the typhoons

and terrific storms are of frequent occurrence. The islands are also the centre of great volcanic action. "The destructive ravages and changes produced by earthquakes," says Sir John Bowring, writing in 1859, "are nowhere more remarkable than in the Philippines. They have overturned mountains, they have filled up valleys, they have desolated extensive plains; they have opened passages from the sea into the interior, and from the lake into the sea. There are many traditional stories of these territorial revolutions, but of late disasters the records are trustworthy. That of 1796 was sadly calamitous. In 1824 many churches in Manila were destroyed, together with the principal bridge, the barracks, great numbers of private houses; and a chasm opened of nearly four miles in length. The inhabitants all fled into the fields, and six vessels in the port were wrecked. The number of victims was never ascertained. In 1828, during another earthquake, the vibration of the lamps was found to describe an arc of four and a half feet; the huge corner stones of the principal gate of the city were displaced; the great bells were set ringing. It lasted between two and three minutes, rent the walls of several churches and other buildings, but was not accompanied by subterranean noises, as is usually the case." In 1863 also a very disastrous earthquake occurred, and another fraught with disaster made 1880 memorable in the annals of Manila.

Persons visiting the Philippines are required to obtain a passport from their own Government, and have it viséd at the Spanish Consulate at the port of embarkation.

MANILA.

Manila, the capital of the Philippines, is situated in the island of Luzon, at the mouth of the river Pasig, which empties itself into the Bay of Manila. The city was founded in 1571. In 1645 it was almost entirely destroyed by an earthquake, in which upwards of three hundred lives were lost. In 1863 a great part of the city was again destroyed from the same cause, and in July, 1880, another terrible upheaval again made wreck of a great portion of it. The inhabitants are naturally in constant fear of these visitations. The dwelling-houses, are built with especial reference to safety under such circumstances, and, although large, possess few pretensions to architectural beauty. The streets, also, are narrow and but small attention has been devoted to securing shade by the growth of trees. There are several ancient churches which are worthy of notice. The cathedral, founded originally in 1578, has been several times destroyed by earthquake and did not escape in 1863. It has been since rebuilt, but again sustained considerable damage in 1880, when the tower was so much shattered that it had to be pulled down. The city and its suburbs contain a population of over 200,000 and are the seat of a considerable and yearly increasing commerce. The principal articles of export are hemp, sugar, tobacco, cigars, coffee, and indigo, while of the imports cotton goods form the chief item. Only a small portion of the present city is enclosed within the walls. The anchorage is distant some three miles from the shore. The river presents a scene of great animation being crowded with native craft interspersed with vessels of foreign build. The passport system is in force and no one can enter or leave without previously obtaining a pass. Before landing passengers are obliged to pull alongside a Custom-house guard boat stationed near the landing place to prevent smuggling. The garrison of Manila consists of one European and several native regiments. The police of the city is also under military discipline and is composed of natives. A very low average of crime is said to exist, but the native classes are much addicted to gambling, an offence punishable by law, although the Government reaps a large portion of its re-

venue from the sale of lottery tickets. A race meeting is held in the spring. There are three daily papers, *El Diario de Manila* and *La Oceania Española*, published in the morning, and *El Comercio*, which appears in the evening. The hot season commences in March and continues until July, when the rains commence and continue to December, during which time the roads and streets get into a very bad condition. The maximum annual rainfall recorded is 114 inches and the minimum 84 inches. The maximum of the thermometer is about 92; a cool sea breeze sets in at night, reducing the heat to an endurable temperature for sleeping. According to the census of 1883 there were residing in Manila 250 foreigners of European origin, 4,189 European Spaniards, 15,157 Chinese, 46,066 Chinese mestizos (or half-breeds), 3,849 Spanish mestizos, and 160,896 pure natives.

In 1880 special dues were imposed on the trade of the port for the construction of a new harbour, namely, 2 per cent. on imports, 1 per cent. on exports, tonnage dues, and a tax on fishing boats. The total sum collected now amounts to over \$4,000,000, of which only a very small amount has as yet been spent.

ILOILO.

This port, which is the chief town of the populous province of the same name in the island of Panay, is situated in lat. 10 deg. 48 min. W., near the south-eastern extremity of the island, close to the sea, on the border of the narrow channel formed by the opposite island of Guimaras. The town is built principally on low marshy ground, partly fronting the sea, and partly along the left bank of a creek, or inlet, which runs towards Jaro, and after describing a semicircle again meets the sea near Iloilo. Although the principal seaport and seat of the government of the province, Iloilo is much smaller than many towns in its vicinity. The harbour is well protected and the anchorage good, the island of Guimaras forming a sheltered passage. The depth of water on the bar at the entrance to the creek or river Iloilo is about five fathoms at low water, but at a short distance within it decreases to fifteen feet and then deepens again. At spring tides the whole town is covered with water, but notwithstanding this it is a very healthy place. The high ground of Guimaras forms a kind of funnel with the Panay shore, and the result is that a calm is of rare occurrence, there being almost always a breeze of some kind. The N. E. breeze blows very strongly. It is much cooler in Iloilo than in Manila. The port is as yet neither properly buoyed nor lighted, but measures are being taken to this end. The better class of houses in Iloilo are built on strong wooden posts, two or three feet in diameter, that reach to the roof, stone walls to the first floor, with wooden windows above and an iron roof. The poorer class of dwellings are flimsy structures of nipa, built on four stout posts. The roads and bridges are in a deplorable condition, and quite impassable in the rainy season.

The principal manufacture in Iloilo for local consumption and export to Manila is that of piña, a cloth very finely made from the fibre of the pineapple leaf. Another cloth called jusi is woven from silk, and is made in white and colours.

The country round Iloilo is very fertile and is extensively cultivated. The annual crop of sugar is estimated at about a million piculs. Tobacco is also largely cultivated. Rice is grown on a considerable scale, but locusts are very plentiful in the island and often do great damage to the cane and paddy.

Typhoons frequently work great havoc. Earthquakes, however, seldom occur. Iloilo is about 250 miles distant from Manila.

Iloilo has greatly increased in importance of late years. The chief article of export is sugar, of which about 80,000 tons were shipped in 1887. The principal traders are Chinese mestizos, who are very numerous in the port.

The island of Negros is extremely fertile and contributes three-fourths of the sugar shipped from Iloilo, the quality of which is improving very much every year.

CEBU.

This is an important port and city of the Philippines. It is the capital of the island of Cebu, and ranks next to Iloilo among the ports of the Philippines. It was at one time the seat of the administration of revenue for the whole of the Bisayas, but this was removed to Manila in 1849. Cebu is a well built town and possesses fine roads, but the people are devoid of commercial enterprise. The trade of Cebu consists principally of hemp and sugar. The neighbouring islands of Leyte, Mindanao, and Camiguin possess extensive hemp plantations, a large proportion of the produce of which finds its way to Cebu for shipment. There are some very valuable and extensive coal deposits in the island of Cebu, but the mines have not as yet been worked with any enterprise.

COCHIN-CHINA.

SAIGON.

Saigon, the capital of French Cochin-China, is situated on the Saigon river, a branch of the Donnai, in latitude 10 deg. 50 min. N., and longitude 104 deg. 22 min. E. Saigon was conquered by the Franco-Spanish fleet on the 17th February, 1859, but Lower Cochin-China, (comprising the provinces of Giadinh, Bienhoa, and Mytho, and the Islands of Pulo Condor), was not definitely occupied until 1862, when it was formally surrendered by treaty; in 1867, three more provinces were conquered by the French and added to their possessions, viz., Chaudoc, Hatien, and Vinhlong. The actual boundaries of French Cochin-China now are: on the North the kingdoms of Annam and Cambodia, on the East and South, the China Sea, on the West the Gulf of Siam and the kingdom of Cambodia.

French Cochin-China is divided into seven large provinces, comprising in all twenty-one Inspections. Besides Saigon, which is the capital of Cochin-China and at the same time of the province of Giadinh, the other chief towns bear the names of their respective provinces, Bienhoa, Mytho, Chaudoc, and Hatien. The population amounts to 1,765,135 inhabitants. The European population, exclusive of the official element, is very small. The country resembles a vast plain with small hills on the West and some mountains on the East and North; the three highest are Batlen 884 metres, Baria 493 metres, and the Moi mountains 550 and 600 metres in height. The principal rivers are the two Vaico, the Saigon River, and the Donnai river. The lower parts of French Cochin-China are wrinkled with small creeks or *arroyos*, giving easy and rapid communication to all parts of the country. Of late several canals have been opened. The magnificent river Meikong, which descends from the Thibetan mountains, after running through different territories, crosses Cambodia, enters the lower provinces of French Cochin-China by two branches, and empties itself into the China Sea by five large outlets called respectively Cua Tieu, Cua Balai, Cua Cochien, Cua Dinh-an, Cua Batac.

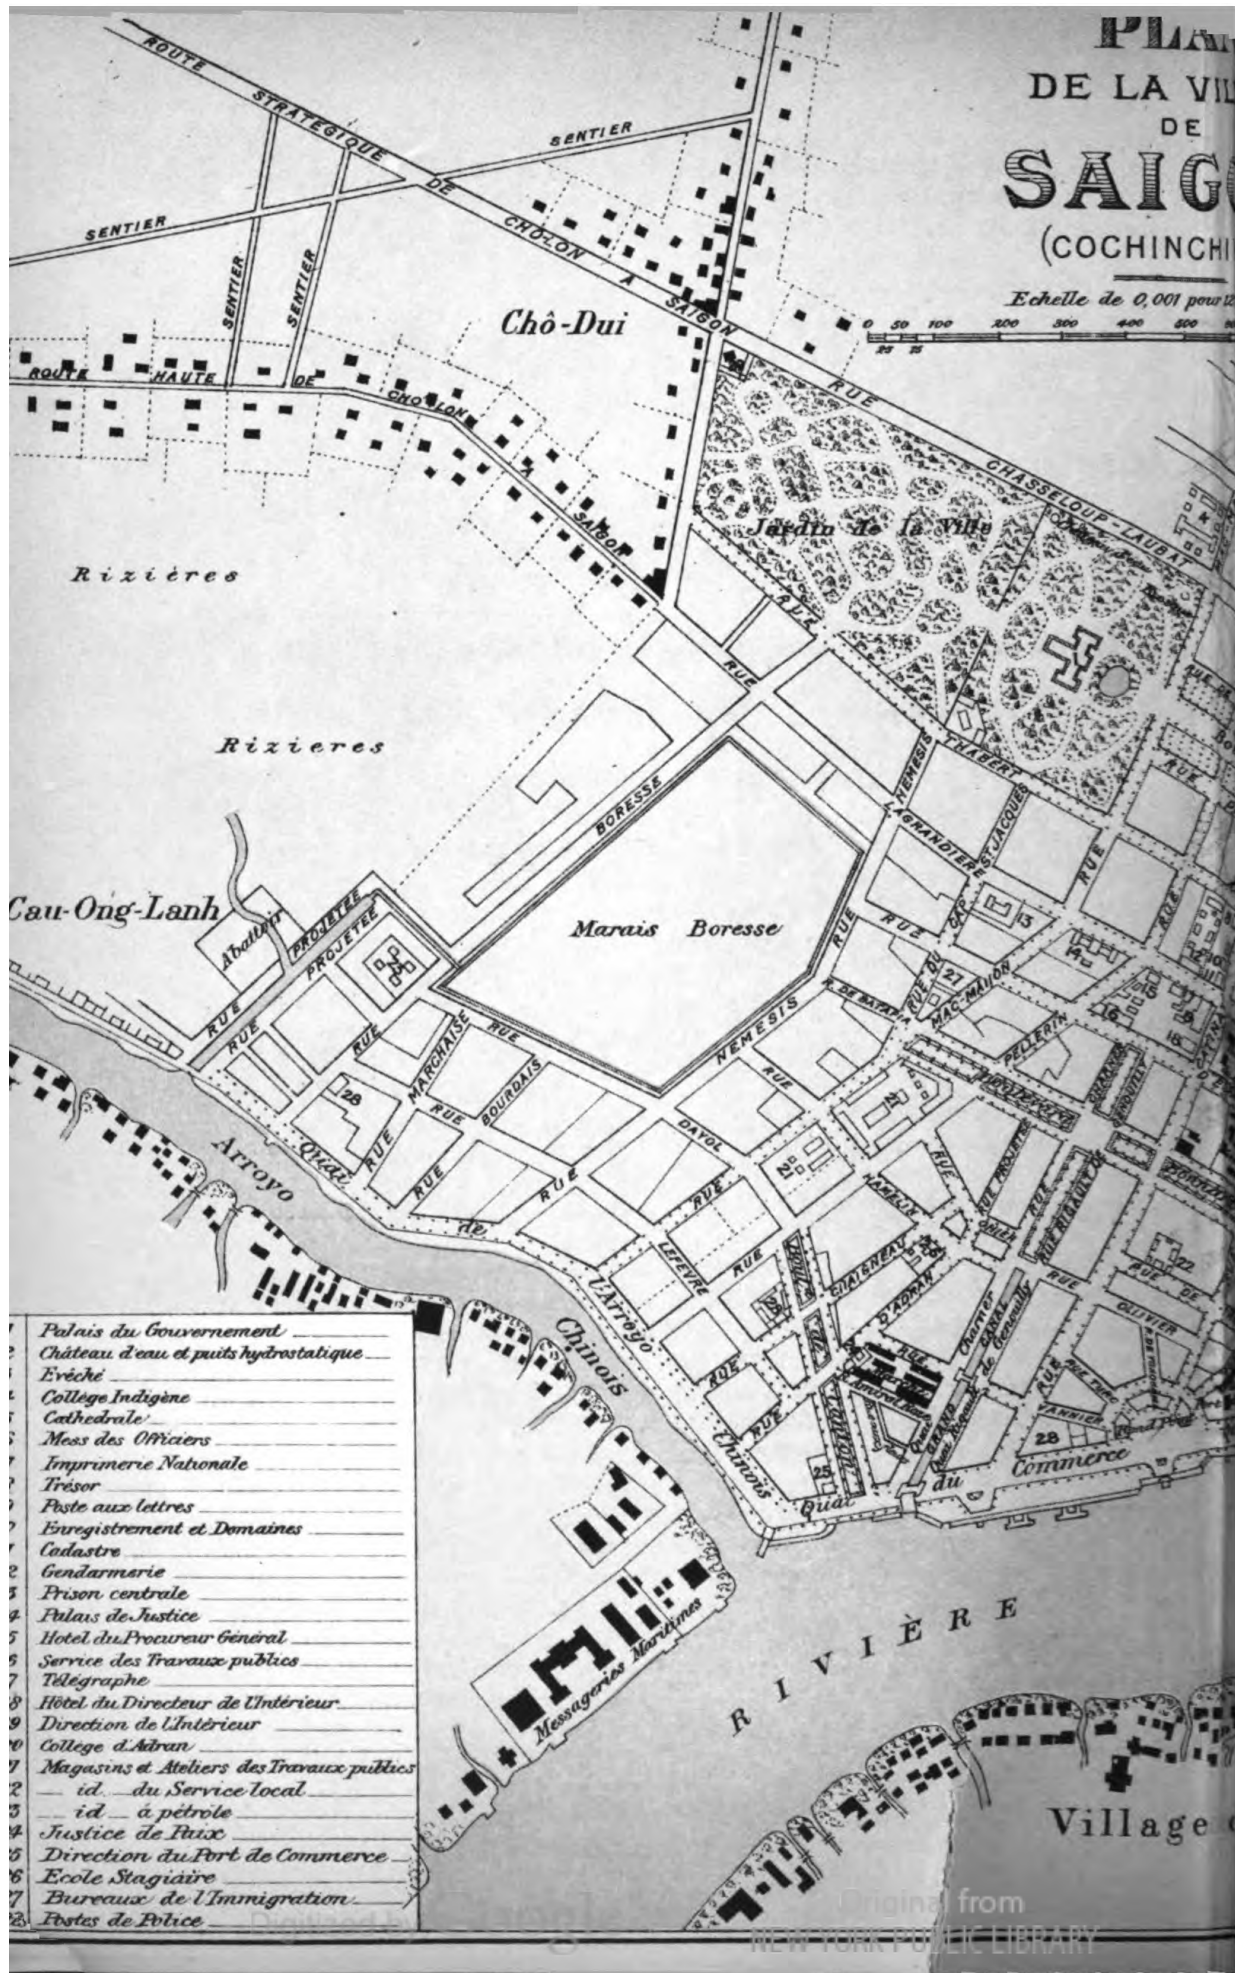

The principal product of French Cochin-China is rice. It is planted in almost every province except some of the northern districts. After this important grain the principal products are:—sugar cane, mulberry tree, pepper, betel-nut, cotton, tobacco, and maize; china grass, sesamun, palma-christi, indigo, saffron, gum-lac, sapan (dye-wood), and cinchona also exist in pretty large quantities, with several other minor productions. The principal salt pits are in the province of Baria. The forests contain large quantities of fine timber and abound with game of nearly every description, amongst which may be named elephants, rhinoceros, tigers, deer, wild boars, and elands, while amongst the feathered game the peacock, partridge, snipe, woodcock,

jungle fowl or wildcock, pheasant, &c., may be mentioned. The rivers and creeks swarm with fish of every description, and alligators abound in some.

In the chief towns of each province there is a citadel sufficiently garrisoned, and numerous military posts in the interior maintain and watch over the security of the inhabitants. The Annamites are a race devoted principally to agriculture; they are not so industrious as the Chinese and are indifferent traders. The Chinese have the largest proportion of the trade in their hands.

The Government of French Cochin-China is administered by a civil Governor appointed from Paris, who is assisted by a Privy Council composed of all the Heads of Departments as official members and two unofficial members. The Colonial Council, some of the members of which are elected by the residents, consists of sixteen members, four of whom are natives. In the various arrondissements, moreover, councils have been introduced composed entirely of natives. The towns of Saigon and Cholon are ruled by Municipal Councils, the members of which bodies are partly French and partly native. The Chamber of Commerce at Saigon is also an official body elected by the merchants and traders, and is composed of French, foreigners, and Chinese.

Saigon is situated about 40 miles from Cape St. James and is accessible to the largest vessels. Since its occupation by the French the climate has undergone a very favourable change, owing to different sanitary works in the town, such as drains, the filling up of pools, marshes, &c. The town presents a fine appearance, the roads and thoroughfares being broad and regular. Amongst the public buildings Government House is the most remarkable; several millions of francs have been spent upon its construction and decoration. The other prominent public buildings are the "Direction de l'Interieur," the Treasury, the Post Office, the Land Office, Public Works Department, the Schools, and the Supreme Court. The Military Hospital is a fine and handsome building, as are also the Arsenal, Barracks, and Artillery parc. There is also a stately gothic Cathedral of large proportions. Saigon has two public gardens, the "Jardin de la Ville," which is maintained at the expense of the municipality, and the Botanical Garden. There are several rice-mills in Saigon and Cholon. There are also steam brick-yards in each town. Cholon is the granary of the colony, and its commercial activity is great. There is good docking accommodation. The population of Saigon on the 31st December, 1886, was 18,009 (exclusive of the Naval and Military Forces), of which number 8,986 were Annamites and 6,649 Chinese. The French population numbers 1,257, and other Europeans 97. The town of Cholon is four miles distant from Saigon, and its population may be set down at 70,000. It is connected with Saigon by a steam tramway.

The M. M. steamers call twice a month at Saigon on their homeward and outward trips. Easy communication is afforded with the principal towns of the interior by subsidized mail steamers, and there is a railway to Mytho. All the principal towns of French Cochin-China possess telegraphic communication, and a sub-marine cable unites the colony with Singapore, Hongkong, Haiphong, &c. The postal organization of the colony is very complete and efficient. Correspondence can be sent daily to almost all parts of the country. The *Journal Officiel*, which is also the Government Gazette, is published twice a week, and there are usually one or two other journals published, but they frequently change their titles, and lead a spasmodic existence.

The import trade of Saigon, which is practically that of the whole colony, amounted for the first half of 1888 to a value of \$5,645,340. The quantity of rice exported in 1887 was 7,936,000 piculs. In 1887, 496 vessels, aggregating 619,211 tons, cleared from the port, of which 190 vessels of 229,321 tons were British, a proportion, excluding the French mail boats, of more than one-half.

Saigon is no longer a free port, heavy Customs dues having been imposed since July, 1887, with exemptions in favour of French goods and shipping. The tariff is based on the General Tariff of France.

CAMBODIA.

Cambodia, or the Kingdom of the Khmer, as it is called by the natives, extends from 101 deg. 30 min. to 104 deg. 30 min. longitude, and from 10 deg. 30 min. to 14 deg. latitude. It was reduced to its present proportions in 1860 by the annexation of its two richest provinces, Angkor and Battambang, to Siam. Its area is about 62,000 square miles. It is bounded on the south-west by the Gulf of Siam, on the south-east by French Cochinchina, on the north by the Laos, and on the north-west and west by Battambang and Angkor. The noble river Meikong flows through the kingdom, and after passing through French Cochinchina, empties itself, by a number of mouths, into the sea. The Meikong is the grand waterway of Cambodia, and, like the Nile in Egypt, lays the greater part of the country under water annually, greatly increasing its fertility. The soil of Cambodia is rich and productive, and rice, pepper, indigo, cotton, tobacco, sugar, maize, and cardamoms are cultivated. Coffee and spices of all sorts could be grown. Among woods, ebony, rose, sapan, pine, iron, and other valuable sorts exist, no less than eighty different kinds of timber being found in the forests. Iron of good quality has been discovered, and it is affirmed that there are gold, silver, and lead mines in the mountains. The fisheries of Cambodia are very productive, and salt fish forms one of the chief articles of export.

Cambodia was once an extensive and powerful state, and proofs that it possessed a much higher civilisation than now prevails are to be found in the architectural remnants of former grandeur. The noble ruins of the ancient city of Angkor are monuments of a people much superior to the feeble race which now inhabits Cambodia. The Cambodians differ entirely from their neighbours the Annamites, both in features and customs. Polygamy is practised among them. The prevailing religion is Buddhism. The people are apathetic and indolent, and have allowed the trade to fall into

the hands of Chinese, of whom there are about 100,000 in the country. The entire population of the kingdom in 1882 was 950,000, of which number 130,000 were slaves. Slavery, however, was abolished by the Treaty of 1884.

The Government of Cambodia is a monarchy, under French protection. The present King, Soudach Pra Maha Norodom, succeeded his father King Ang Duong in 1860. As in Siam, there is a Second King, Maha Oberak, brother to the King, but his title is purely nominal. In June, 1884, King Norodom signed a new treaty with France by which the administration of the country is handed over to French Residents.

Phnom-penh, the present capital of Cambodia and seat of the Government, is situated on the river Meikong, nearly in the heart of the kingdom. The King's palace is a large building, and the portion devoted to his use is built and furnished in European style. Attached to the Palace, and inside the Palace walls, are the Hall of Justice, Audience Rooms, Treasury, Armoury, and some steam workshops and magazines. The workshops are superintended by European engineers, and a European has charge of the public works. Phnom-penh is improving under the present rule. Some good roads have been made, and brick houses are gradually superseding less durable structures. The French Resident-General has a handsome residence in the city. The population of Phnom-penh is estimated at 60,000.

Trade at present is limited, and the country generally is entirely undeveloped. It is practically shut out from foreign commerce, and has no seaports of any importance. The port of Kamput can only be frequented by small coasting native vessels from Siam and by Chinese junks. A railway from Saigon to Phnom-penh has been projected, but is at present in abeyance.

ANNAM.

The kingdom of Annam, which also includes the ancient kingdom of Tonquin, conquered and annexed by King Gialong of Annam in 1802, is bounded on the east by the Gulf of Tonquin and the China Sea, on the west by Siam, Cambodia, and the Shan States, on the north by the Chinese provinces of Yunnan and Kwangsi, and on the south by French Cochinchina. Annam proper is a narrow strip of country between the sea and the mountains, the territory beyond which is occupied by aboriginal tribes who are practically independent. Annam is to Tonquin in native parlance as the girdle to the tunic, the latter being a broad and rich territory. Annam proper is a poor country, and is dependent for part of its rice supply upon Tonquin. The population of Annam is uncertain, but, including that of Tonquin, it may be roughly estimated at 20,000,000.

HUE.

Huê, the capital of the kingdom of Annam, is situated on a small scarcely navigable river named Truong Tien and called by the French the Huê river, which debouches on the coast in about lat. 16 deg. 29 min N., and long. 107 deg. 38 min E. Huê is a walled city and has been built on lines similar to those of a fortified European town of the seventeenth century. It consists of two distinct parts—the city proper and the suburbs. The former stands in the middle of a square island, separated from the latter on three sides by a river and on the fourth by a canal. It is defended by a fortified *enceinte*, six kilometres in circumference, constructed by French engineers after the system of Vauban, and having six large gates. Within this *enceinte* reside all the Government officials. The walls are built of brick and are very lofty. Inside the outer *enceinte* is the citadel, similarly but less solidly fortified, and having eight, instead of six, gates. The six offices of the Ministry are in this quarter, as well as the Library, the Mandarins' College, the Courts of Justice, the Observatory, and numerous arsenals and barracks. The palace of the Council of State, and a host of other edifices, all of an official character, stand within the second *enceinte*. Behind these buildings is a wall of brick, which traverses the citadel throughout, separating it completely into two parts. This wall, which encloses the royal palaces and harem, has three gates; that in the centre being in the form of a pagoda, gilt and adorned with elaborate carvings. The mass of the houses and even the public buildings in Huê are, however, very mean and in a bad state of repair. The Royal palace, like that of Peking, has yellow tiles; those of the nobles are red. The population of the city and suburbs is estimated at 90,000. The mouth of the Huê river is defended by forts, which were bombarded and taken by the French in August, 1883, when the Huê Government at once capitulated.

TONQUIN.

Anciently an independent kingdom, but since 1802 a province of Annam, is situated between lat. 19 deg. and 23 deg. N. and long. 102 deg. and 108 deg. 30 min. E., bounded on the north by China, on the west by the Laos country, on the south by Annam, and on the east by the Gulf of Tonquin. The country near the sea is a rich alluvial plain, well watered by numerous rivers, and produces large crops of rice, while sugar, cotton, spices, indigo, silk, and various other articles are also raised. It is believed to possess valuable mines of silver, and gold is also known to exist. A concession was granted in 1887 for the working of the coal mines at Hongai. By the Treaty of Hué, dated the 6th June, 1884, the Annamite Government placed Tonquin under a French Protectorate, and its affairs are now administered under the supervision of French Residents. The country is, however, still in a somewhat disturbed state. Tonquin is divided into seventeen provinces, namely, Quang-yen, Hai-duong, Bac-ninh, Thai-nguyen, Lang-son, Cao-bang, Tuyen-quang, Hong-hoa, Son-tay, Ha-noi, Ninh-binh, Hung-yen, Nam-dinh, Thanh-hoa, Nghé-an, Ha-tinh, and Bo-chinh. Hanoi, the capital, is the chief town of the province of the same name, and appears on old maps as Ke-sho. The population is estimated at from 10,000,000 to 12,000,000. The imports of Annam and Tonquin in 1887 amounted to 38,368,724 francs, as compared with 28,808,505 francs in 1886, and the exports to 10,051,801 francs, as against 9,112,433 francs in 1886. A grant-in-aid is required from France to meet the cost of administration.

HANOI.

Hanoi, the capital of Tonquin, and the head-quarters of the French Protectorate, is situated on the Song-koi, or Red River, 110 miles from its mouth. The city is built close on the river, here about a mile in width, and, being embowered in trees, presents a pleasing appearance on being approached by water. The citadel occupies the highest site, and is surrounded by a brick wall twelve feet high and a moat. The city is situated between the citadel and the river. The principal streets occupied by Chinese are wide and the houses well built of brick; in the other quarters of the city the shops and houses are mat erections. The French Settlement is separate from the city proper, and stands on the river bank to the south of the native town. Since the occupation by the French in 1882 great improvements have been effected in the laying out of the town and the formation of roads and streets.

When the French established themselves in Tonquin it was believed that the Song-koi was navigable into Yunnan and that a considerable trade could be conducted by this route, but subsequent experience has proved it to be of little value as a commercial waterway, as the upper reaches are navigable only by boats of extremely light draught.

HAIPHONG.

This is the shipping port for Hanoi, Hai-Dzuong, and Namdinh, the commercial centres of Tonquin. It is situated in lat. 20 deg. 51 min. N., and long. 106 deg. 42 min. E., on the river Cua Cam, which is connected by two or more channels or creeks with that great river connecting Yunnan with the Tonquin Gulf, called the Song-koi. The town of Haiphong is about sixteen and a half miles from the lighthouse. The lighthouse at the entrance of the river, on the island of Hon-Dau, is visible at a distance of about six miles. The entrance to the port is obstructed by two bars; the outer one sand, the inner one mud. Haiphong is accessible, however, by vessels drawing from 19 to 20 feet. There is plenty of water in the river. Vessels anchor about a quarter of a mile from the shore in from 40 to 60 feet of water abreast of a creek communicating with the Song-koi. The banks of the river are low and consist of alluvial mud, from which the French Settlement and the town have with great labour and expense been reclaimed.

Haiphong proper is situated on both sides of the creek above referred to, and is in the midst of an extensive rice swamp with low lying, swampy land all around it for miles, having in the distance the monotony relieved by rugged ranges of low hills and beyond these to the northward, at a distance of some twenty miles, is a range of mountains. The native buildings are wretchedly constructed of mud, bamboo, and matting, but a well built European town with broad streets is rapidly springing up. The European population of Haiphong on 1st January, 1887, was 323 exclusive of officials. The Chinese population is about 4,700, and the Annamite population 3,806. A number of small steamers ply regularly between Hanoi and Haiphong. Haiphong is connected by submarine cable with Saigon and Hongkong.

BORNEO.

After Australia this island is the largest in the world. It extends from about 7 deg. N. to 4 deg. S. latitude, and from 109 deg. to 118 E. longitude. Its length is about 750 miles, its greatest breadth 600 miles, and its average breadth is estimated at 350 miles. Its vast interior consists of almost impenetrable forests, which teem with animal life, but are sparsely populated by man. The soil is fertile, and in some parts near the coast the land is marshy and well adapted for the cultivation of sago. It was discovered by the Portuguese in 1526, and they as well as the Spaniards, Dutch, and English formed settlements on different parts of the coast, but none of these were long maintained. The Dutch claim sovereignty over the greater part of the south and west of the island, along the coast of which they maintain establishments; the territories of the British North Borneo Company, the Sultan of Brunei, and the Rajah of Sarawak extend over and along the north and north-eastern coast. The native states are insignificant and in a backward condition. The total population of Borneo is roughly estimated at 3,000,000. The productions are many and varied, and its mineral resources believed to be great. The Chinese, who have been settled in most Bornean towns for generations, conduct all the trading operations. The country generally is in an undeveloped condition. The natives are of the Malay type, and are, as a rule, indolent and wanting in enterprise. A British Protectorate has been established over Brunei and Sarawak, and it is understood that a similar arrangement has been come to with reference to the territory of the British North Borneo Company.

SARAWAK.

The territory of Sarawak comprises an area of about 40,000 square miles, with a population of about 300,000, composed of various races. It is situated on the north-west coast of the island of Borneo, is intersected by many rivers navigable for a considerable distance inland, and commands about 400 miles of coast line. The sovereignty of the district from Tanjong Datu to the entrance of the Samarahan river was obtained from the Sultan of Brunei in the year 1842 by Sir James Brooke, who became well known as Rajah Brooke of Sarawak. In 1861, a second cession was obtained, from the Sultan of Brunei, of all the rivers and land from the Samarahan river to Kadurong Point; in 1882 a third cession was obtained of one hundred miles of coast line and all the country and rivers that lie between Kadurong Point and the Baram river, including about three miles of coast on the north-east side of the latter; and in 1885 another cession was obtained of the Trusan river, situated on the north of the mouth of the Brunei river. In 1888 a British Protectorate was established. The present Rajah, H.H. Charles Johnson Brooke, is a nephew of Sir James Brooke, and was born 3rd June, 1829, succeeded

1868, married 1869 to Margaret de Windt. His heir—the Rajah Mudah—Charles Vyner Brooke, was born 26th September, 1874.

The country produces diamonds, gold, silver, antimony, quicksilver, coal, gutta-percha, india-rubber, canes, rattans, camphor, beeswax, birdsnests, sago, pepper and gambier. The principal towns, are:—Kuching, the capital of Sarawak, situated on the Sarawak river, about 23 miles from its mouth, in latitude 1 deg. 32 min. N., longitude 110 deg. 28 min. E. (approximate). Claude Town, the principal town and fort in the Baram river, is about 60 miles inland. Bintulu, situate at the mouth of the Bintulu river, is famous for its sago. Oya, which lies about $1\frac{1}{2}$ miles up the Oya river; and Matu, about 5 miles up the Matu river, are both noted for their sago. Sibu is situated about 60 miles, Kanowit about 100 miles, and Kapit about 160 miles up the Rejang river. Rejang village, at the mouth of Rejang river, is noted for its Bilian (iron wood) works. Kabong is situated at the mouth of the Kalaka river. Saribas lies about 80 miles up the river of the same name, and has a tidal wave or bore. Simanggang is about 60 miles up the Batang Ligar river, and also has a bore. Simunjan is situated about 18 miles up the Sadong river, where the Government work a coal mine.

The revenue amounts to between three and four hundred thousand dollars, and the trade to about \$3,500,000, nearly equally divided between imports and exports.

Harbour, buoy, and light dues:—Three cents per ton, payable on arrival, and chargeable to all vessels of 5 tons and upwards.

BRITISH NORTH BORNEO.

The territory of Sabah, situated at the northern end of the island of Borneo, contains an area of some 20,000 square miles and has a coast line of about 500 miles. The indigenous population is estimated to number about 150,000, located chiefly on the West coast. It is composed principally of an inoffensive race known as Dusuns, who live a quiet lazy life, subsisting on rice, tapioca, bananas, Indian corn, sweet potatoes, and the like, cultivation of which makes the smallest call on their energies. The chief geographical feature in the territory is the mountain of Kina Balu, about 8,000 feet high. A large lake until lately shown on all maps of Borneo has been proved to have no existence. The principal rivers on the West coast are those of Limanis, Papar, and Pandassan; on the East there are the Kina-Batangan, Labuk, Sibuku, Paitan, Sugut, Sigalind, Sigama and many others. The best harbours are those of Gaya on the West coast, Kudat on the North, and Sandakan and Timbun Mata on the East.

The climate is particularly pleasant for the tropics; the days are rarely very hot, while a blanket is often required at night; and in many places, particularly on the East coast, very little inconvenience is experienced from insect pests, such as mosquitoes and the like. Hurricanes, earthquakes, and other natural disturbances are unknown. The seas are teeming with fish, and the prospects of an export trade

in dried and salted fish are encouraging. A trade with Australia has already commenced. Amongst the zoological productions of North Borneo are to be noted elephants, rhinoceros, deer of three kinds, buffalo (*Bos Gaurus* as well as *Bos Banlang* probably), pigs, bears, &c. There are pythons of 20 feet and upwards in length, but other snakes, particularly poisonous varieties, are very rare. Of game birds there are a few, Argus, Fire back, and Bulwer pheasants, three sorts of partridges, many pigeons and doves, snipe and quail.

Sandakan has a magnificent harbour and is the chief place of trade. The imports include cloth, rice, hardware, manufactured goods of all kinds, opium, Chinese tobacco, Chinese coarse crockery, matches, biscuits (a great many biscuits are consumed by the numerous produce collecting parties up country), oil, sugar, &c. The chief exports from Sabah are rattans, gutta-percha, india-rubber, birdsnests, seed pearls, trepang, sharksfins, camphor, tortoiseshell, dried cuttle fish, beeswax, and other natural products. These are brought in from the numerous rivers, the neighbouring Sulu Archipelago, &c. The imports and exports for 1887 represented a trade of \$1,494,897 as compared with \$1,373,839 in 1886. The revenue in 1887 was \$142,687 as compared with \$127,731 in 1886, these figures being exclusive of the sums realised by land sales.

The territory of British North Borneo was acquired from the Sultans of Brunei and Sulu by cession for a small annual payment in 1879-80, and the British North Borneo Company was incorporated by Royal Charter on the 1st November, 1881. In November, 1888, a British Protectorate was established.

LABUAN.

This, the smallest British Colony in Asia, was ceded to Great Britain by the Sultan of Brunei in 1846, and taken possession of in 1848. It is situated on the north-west coast of Borneo in latitude 5 deg. 16 min. N., and longitude 115 deg. 15 min. E. It has an area of $30\frac{1}{4}$ square miles, and is about six miles from the Borneo coast. Although Labuan possesses a fine port, has extensive coal deposits, and by situation seemed likely to become a depôt for the trade of the north coast of Borneo, it has only partially fulfilled the expectations formed of it. The produce of Brunei finds a market in Labuan, but the volume of the trade is small. The value of the imports and exports during the last three years was as follows:— 1885, imports, £85,332; exports, £80,435; 1886, imports, £79,781; exports £84,022; 1887, imports, \$370,751; exports, \$417,551. There are three sago manufactories on the island, where the raw material is converted into flour, for export chiefly to Singapore. The Government is administered by a Governor appointed by the Crown, and a nominated Legislative Council. Since 1871 there has been no military garrison, but an armed police force is maintained instead. The population is slightly under 6,000, of whom the bulk are Malays. The Chinese, who number over a thousand, are the chief traders, and most of the industries of the island are in their hands. The European population, under twenty in number, consist mainly of Government officials. The revenue is chiefly derived from the farming out of licenses to sell tobacco, spirits, opium, and fish.

SIAM.

The kingdom of Siam, of which Bangkok is the capital, extends from the latitude of about 23 deg. north to the Gulf called after itself. It is bounded on the west by Burmah and the Bay of Bengal, and on the east by the Lai Mountains. The kingdom proper lies in the valley of the Menam, the country of the true Siamese. The boundaries of Siam on the Bay of Bengal reach from Burmah in a southerly line to the boundary between Perak and Quedah in the Malayan Peninsula in the latitude of 5 deg. south. The island of Junck Salong, containing enormous deposits of tin ore, is included in the territories of Siam. The boundary line runs nearly east from Perak across the peninsula in about the same latitude between the provinces of Tringanu and Pahang to the China Sea, thence north to the head of the Gulf of Siam. The kingdom also comprises the greater part of the ancient domain of Lao and the rich and valuable possession of Battambang, once a part of the kingdom of Cambodia. The various dependencies and outskirts are peopled by a variety of races, some *sui generis*, others illustrating every form and shade of the transition between the original race and the Annamites on the east, and the Malays and Burmese on the south and west. The former capital of Siam was Ayuthia, situated on the Menam river (literally the "Mother of Waters"), about 90 miles from its mouth. In 1767 a series of bloody and desperate combats between the Siamese and the Burmese culminated in the capture and destruction of that city by the victorious Burmese general and the consequent exodus of the conquered. They moved down the river about 60 miles and there founded the present populous and flourishing city of Bangkok. The chief of the Siamese Army rallied the scattered troops, and, building a walled city at Toutaboree, declared himself King under the title P'ya Tak. In 1782 the reins of empire were seized by one of his most distinguished generals named Yaut Fa, who founded the present dynasty, of which His Majesty the present King [the 40th reigning monarch in Siam of whom we have any record] is the fifth in regular descent. The revenue of Siam is very large, and if properly collected would be enormous, but the inertness of the nobility and the frauds practised with the utmost boldness and impunity, have very seriously impaired it. The general revenue is farmed out to Chinese, and a triennial tax is also imposed upon all foreigners unrepresented by a Consul, such as Chinese, Annamites, &c. Siam entered the Universal Postal Union on the 1st July, 1885, having for some time previously efficiently conducted an internal Service.

The army in time of peace, is small, and is made up of the following. 1st.—The Royal Body Guard, which consists of one squadron of cavalry, two battalions of infantry, and one company of artificers and sappers. This body of troops is recruited from the sons of noblemen descended from the blood royal. 2nd.—The Palace Guard, which is composed of two battalions of infantry. 3rd.—The Royal Elephant Troops. 4th.—The Royal Infantry, consisting of three battalions of four companies each. To this corps is attached a squadron of cavalry and a brigade of artillery. This branch is open to the sons of slaves, who gain their freedom after their term of five years' active service. 5th.—The Royal Marines, numbering about 400, who serve on board the Royal yachts and gunboats.

The native population of Siam, with Laos, Tavoyans, Peguans, and Burmese, excluding those under Consular protection, is variously estimated at from six to ten millions. The number of Chinese in the kingdom is estimated at about 1,300,000.

BANGKOK.

The town of Bangkok is situated on both sides of the Menam, about thirty miles from where this magnificent stream empties itself into the Gulf. On the east bank of the river is the city proper enclosed by a wall, the Royal palaces, the foreign hong, the Consulates, the principal rice mills, and most of the Public Offices. The left is principally occupied by the Siamese, Chinese, and Mahomedan residents. The bulk of the business is transacted on the east. Here a road, not in all places passable for wheeled vehicles in the wet season, the Charun Krung, extends from the Palace walls to Bangkok, and a telegraph line connects the Light-house at the Bar beyond the mouth of the river with the business portion of the city. Bangkok is now connected, through Saigon, with the rest of the world by wire, and a line to Lower Burmah has since been completed. The principal trade of Bangkok, and the foundation on which not only its prosperity but its actual existence mainly rests, is rice. This article is drawn in immense quantities, not only from the innumerable fields which line the fertile valley of the Menam, but from the adjacent rivers which flow into the Gulf from the enormous watershed of the mountain crescent which fringes the northern extremity of the kingdom. The output of this grain in favourable years is scarcely to be calculated. It not only furnishes support to the native population of Siam and the Peninsula, but supplies China, Manila, the Straits, and even Java and Sumatra. There is also a large and flourishing trade in teak wood and ivory, with very many other minor articles of native produce which are exported to China and the Straits. The steamers of the Scottish Oriental Steamship Co. keep up regular communication with Hongkong, (occasionally leaving and returning *via* Swatow and the Straits Settlements), besides special boats only running during the rice season; while another line of steamers connects the kingdom with the Straits Settlements.

The public buildings and institutions include the British Consular Church, a Roman Catholic Cathedral, several Missionary Chapels both Protestant and Catholic, one Hospital extant and another projected, a Ladies' Library, several Schools under Government, Assumption College, managed by the French Roman Catholic Mission, liberally patronised by the King, and assisted by the community generally. There are two Hotels, one a new one on a handsome scale; also a club called the Bangkok United Club. The King's palace, temples, and public buildings are magnificent and on a large scale. The architecture is of a kind peculiar to the country, and there is more of novelty and interest to be witnessed by passing travellers in Bangkok than can be found in Chinese cities. The population of Bangkok is estimated at 350,000.

The imports during the year 1887, as reported by the Custom House, amounted to \$9,946,249 as compared with \$7,384,718 in 1886, and \$6,830,018 in 1885; the exports to \$15,593,410 as compared with \$10,372,818 in 1886, and \$9,436,730 in 1885; but the actual amount of both was probably in excess of this value. The principal imports were piece goods and opium, the principal export rice.

STRAITS SETTLEMENTS.

This Colony—now consisting of the island of Singapore, the province of Malacca, the island of Penang, the Dindings further south, Province Wellesley on the mainland, and the Cocos Islands, recently placed under the same Government—was transferred from the control of the Indian Government to that of the Secretary of State for the Colonies by an Order in Council dated the 1st April, 1867. The estimated revenue of the colony for 1889 is \$4,389,339, and the expenditure \$3,977,825. The accumulated surpluses amount to \$1,773,415. The total value of the imports in 1887 was \$142,322,920 as compared with \$121,544,218 in the previous year, and of the exports \$121,341,211 as compared with \$104,122,274 in 1886. About two-thirds of the trade belongs to Singapore. The population according to the census of 1881 was 423,384, and is now estimated at over 500,000.

SINGAPORE.

The town of Singapore, situated on the southern shore of an island of the same name in lat. 1 deg. 16 min. N. and long. 103 deg. 35 min. E., is the seat of government of the Straits Settlements.

The Island of Singapore is about 27 miles long by 14 wide, and is separated by a narrow strait about one or two miles wide from the territory of Johore, which occupies the southern extremity of the Malay Peninsula. Originally taken possession of in 1819 by Sir Stamford Raffles, it was, until 1823, subordinate to our then settlement in Sumatra. In that year it became an appanage of the Indian Government in which condition it remained until 1867, when it was placed under the Colonial Office in conjunction with the other Settlements above mentioned.

The town proper extends for about four miles along the south-eastern shore of the island, spreading inland for a distance varying from half to three-quarters of a mile, though the majority of the residences of the upper class Europeans lie, as a rule, much further back, within a circle with a radius of three and a half miles from the Cathedral. This portion of the Settlement is almost entirely level, the highest hill in the island, indeed, about seven miles from the town, only rising to a height of 500 feet. The country roads are well kept, and, thanks to the luxuriance of tropical vegetation, abound in shade. The town streets, on the other hand, though wide and well metalled, are, as regards architectural matters, drains, and gutters, no great credit to the Municipality which has them in charge. Filth and obstructions of all sorts distinguish the native portion of the town, while as compared with nearly every other Eastern city in European hands, the buildings of the business quarters are somewhat shabby and mediocre. The Government Offices, Police Quarters, Magistrates' Courts.

Post Office, and Town Hall, however, are fine buildings, while the settlement possesses a handsome Club which compares favourably with any in the East.

The population of Singapore Island according to the census taken in April, 1881, was 139,208, of whom 86,766 were Chinese and 22,114 Malays, and has since been steadily increasing. The Klings, with a very few Parsees, Arabs, &c.—forming perhaps a sixtieth part of the whole population—are as a rule peaceful and unambitious, and give but little trouble. The European community consists in the main of English and Germans, and numbers, with 783 military, a total of 2,769. A large half-caste or Eurasian population, numbering 3,094, occupies the place elsewhere taken by the Asio-Portuguese. The population of the Town of Singapore is about 97,000.

Singapore possesses a handsome though small Protestant Cathedral with a tower and spire 204 feet high, a neat Presbyterian Chapel, and several Catholic churches of roomy proportions. The principal schools are those of the Raffles Institute and the Christian Brothers, the Raffles Girls' School and the Convent also providing for the education of girls of the Protestant and Roman Catholic persuasions. There is a country Club with a well built bungalow situated some three miles out of town, at which dances and amateur theatricals are frequently given. The German community have a similar institution. The Raffles Library and Museum, moved in October, 1887, into the new building erected for them, are creditable and well kept institutions, the Museum having made very fair progress since its inception. The Library contains over 14,000 volumes, chiefly of standard modern literature, and includes the valuable philological collection of the late Mr. Logan.

Singapore boasts several hotels, but none of them at all equal to those of Hong-kong or Penang. A public company is now being formed to establish a new one on a large scale. The Press is represented by the *Straits Times* and *Singapore Free Press* (daily), weekly issues of both, and the *Government Gazette*, published weekly.

Singapore is well off for Docks. The Tanjong Pagar Company's premises lie about a mile to the westward of the town, a fine wharf affording berthage for twenty vessels at one time with sufficient water alongside for vessels of the heaviest draught, and protected by a breakwater from the swell from the roads and from the strength of the tides. There are commodious godowns erected on the wharf for the storage of goods. Coal sheds capable of storing 50,000 tons of the mineral adjoin the godowns, while a small steam railway essentially aids the labour of unloading vessels. The usual accompaniments are also to be found—two docks, one a graving dock 450 feet in length, a machine shop, boiler and masting shear, &c. The New Harbour Dock Company's premises, situated about three miles further West, include two docks of 415 and 450 feet in length respectively, with sheds, workshops, &c., as at Tanjong Pagar.

The climate of Singapore is remarkable for its salubrity, and the island has been described by medical writers as the "paradise of children," infantile diseases seldom being at all malignant. Despite its proximity to the Equator, under normal circumstances a daily rainfall tempers the heat so thoroughly that many sleep beneath blankets. Droughts, however, have been experienced of from one to five months. The island is not exempt from the animal pests which usually infest intra-tropical locations. Tigers are occasionally seen; wild pigs and monkeys inhabit much of the jungle surrounding the country residences; while the much dreaded cobra has been killed in most of the compounds. The existence of the hamadryad has also been demonstrated, though this fierce reptile is fortunately but very seldom met with. It should be added that specimens of the formidable python, up to 24 feet in length, are found in the jungle, and that alligators and sharks inhabit the still waters of the coast.

Singapore offers but few points of salient interest to visitors, the Botanical Gardens at Tanglin and the Raffles Library and Museum being its only show places. Tramways, which were opened in the middle of 1886, now run along the main thoroughfares, and gharries and jinrickshas also furnish means of conveyance.

JOHORE.

This state occupies the southern portion of the Malayan Peninsula, and its capital, called Bharu (New Johore) is situated on the Old Strait, or Silat Tambran, which divides the island of Singapore from Johore territory. Johore is an independent state, ruled by a Sultan, who is on the best of terms with the British Authorities, and has enlarged his ideas by travel and intercourse with Europeans. The territory is steadily improving under the present liberal rule, and a good deal of European capital has been introduced into the state.

MALACCA.

The settlement of Malacca excites more interest from a historical point of view than either of its sister towns, but has so completely fallen to the rear since the establishment of Penang and Singapore as to merit but brief notice in this compilation. Seldom visited by foreigners except for relaxation, its white population, including the troops stationed there, scarcely reaches fifty individuals, the permanent residents numbering only six or seven. Originally settled by the Portuguese in 1511, it retained its importance as the one foreign *entrepôt* in the East until the founding of Penang, when its fortunes rapidly declined. At the present moment it is the least European of all British Settlements in the East, though the facts that it has given its name to the Peninsula and that it was the cradle of Anglo-Chinese study attest its former importance. Its area is embraced by boundaries some 42 miles in length, with a breadth of from 8 to 25 miles. It is governed by a Resident Councillor in subordination to Singapore.

Its one point of interest is its location as a natural history centre, the majority of its casual visitors being attracted thither for sport or science. Beyond this it possesses no attractions except to those who like to visit scenes famous in the annals of discovery for the bloody fights they have witnessed between the natives and the European nations who contended for their possession. Its population in 1881 amounted to 93,579 individuals, of whom 52,059 were males and 41,250 females, an increase since 1871 of 15,823. Of these 40 were Europeans, 2,218 Eurasians, 19,741 Chinese, 67,488 Malays, and the remainder various Eastern races.

SUNGEI UJONG.

This state, which is under British protection, is situated to the north-west to Malacca. Its area is roughly estimated at 500 square miles, and a range of hills in the north attain a height of about 3,800 feet, the slopes of which have been pronounced by Ceylon planters as most suitable for the cultivation of coffee, cocoa, &c. On the lower ground, nearer the coast, tapioca is successfully cultivated. Tin mining is carried on to a considerable extent. The population is estimated at about 30,000, of which Chinese form a large proportion. The British Resident is the virtual ruler of the state. The revenue for 1887 was \$141,502, as against \$120,740 in 1886. Trade is steadily progressing; its value in 1887 was—imports \$899,414, and exports \$1,056,760.

SELANGOR.

The protected native state of Selangor, containing a total area of about 3,000 square miles, lies on the western coast of the Malay Peninsula, and is bounded by the protected native states of Perak on the north, and Sungie Ujong on the south, extending inland to the mountains in the centre of the peninsula, which divide it from Pahang and Jelebu.

The Government consists of the Sultan, advised by the British Resident, who is directly responsible to the Governor of the Straits Settlements, and assisted by the State Council. The State is divided into the following six Collectorates:—1. *Kuala Lumpur*, the central district where the Residency and principal Government Offices are situated, and which also contains the richest tin mines that have yet been developed. 2.—*Klang*, the principal port, situated about 14 miles from the mouth of the Klang River. 3.—*Kuala Langat*, an agricultural district, in which the Sultan resides. 4.—*Kuala Selangor*, containing the most important fisheries in the State. 5.—*Ulu Langat*, an inland mining district on the borders of Sungie Ujong. 6.—*Ulu Selangor*, a district adjoining Perak, containing much valuable mining land, as yet comparatively undeveloped.

Each Collectorate is under the charge of an European Collector and Magistrate, from whom the Native Penghulus (in charge of the districts into which each Collectorate is subdivided) receive their instructions. The law and procedure administered in the Courts are practically the same as those in the Colony of the Straits Settlements, and the powers of a Collector and Magistrate are almost identical with those of a Magistrate and Commissioner of the Court of Requests in the Colony. The decisions of the Magistrates are subject to revision by the Resident, and again by the

Sultan in Council. The Police Force consists of a superintendent, two European inspectors, and 305 native non-commissioned officers and men, chiefly Malay.

According to a census taken during the year 1884 the total population of the State amounted to 46,568 persons, and in 1887 was estimated at 97,106, of whom 73,155 are Chinese, 21,584 Malays, 1,261 Indians, 950 Sarkeis (aboriginal tribes), and 156 Europeans.

The principal industry of the State, and from which it derives the largest portion of its revenue, is alluvial tin mining, on which a duty is charged of \$12 per bhara (three piculs). The export in 1887 amounted to 131,392 piculs.

In addition to its mineral resources, the State, however, possesses large tracts of land well adapted for agricultural purposes, and the recent removal of restrictions on the free importation of Indian coolies into the Protected Native States renders it possible for European planters to obtain cheap labour and to open estates on a large scale. Small plantations of Coffee, Cocoa, and Pepper have already been successfully commenced, and Rice, Sugar, and other products of the Peninsula under native cultivation, are doing well in various parts of the State, and to encourage pioneer planters, large grants of land have recently been made, on special terms, for the planting of Sago, Pepper, and Gambier.

The following table shows the total annual revenue and expenditure of the State since the year 1880:—

	1880.	1881.	1882.	1883.	1884.	1885.	1886.	1887.	1888.	1889. Estimated.
	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$
Revenue	215,614	235,227	300,423	450,664	494,483	566,411	689,401	1,153,896	1,072,890	1,505,652
Expenditure	202,806	234,383	259,081	448,703	514,948	826,526	683,876	885,931	1,053,000	1,481,961

The principal exports are Tin, Hides, Garmwood, Tapioca, Canes, Rattans, and Gutta Percha. The principal imports are Opium, Salt, Salt-fish, Rice, Oil, Tobacco, and Tea. At the commencement of the year 1885, all duties were abolished, with the exception of those on Tin and Opium.

There is frequent and regular communication, by means of coasting steamers, between the Straits Settlements and Selangor, and from Kwala Lumpor a system of cart and bridle roads extends to the boundaries of Perak, Sungie Ujong, and Pahang.

A line of metre gauge railway, to connect Kwala Lumpor and Klang (a distance of 22 miles), has been constructed, and was formally opened by Sir F. Weld on the 15th Sept., 1886. In connection with the Railway a line of Telegraph has been erected between the same terminal stations and extended to Malacca *via* Sungie Ujong, where it is connected with the cables of the E. E., A. & C. Telegraph Co.

PERAK.

Perak is on the west coast of the Malayan peninsula, and lies between Kedah or Queda, on the north and Selangor on the south. It extends along the coast for about 90 miles, and includes, inland, the greater part of the watershed of the Perak river and its tributaries, and of the Krian and Bernam rivers. The seat of government, and the residence of H.M.'s Resident, is Kwala Kangsar, on the Perak river. The chief town and centre of the mining industry is Thaipeng, in the province of Larut.

The state is under British protection and the government is carried on under the Sultan, aided and advised by the Resident, and a Council consisting of the Resident and Assistant Resident, and several native chiefs. A Military Police Force of 700 men, mainly Sikhs and Pathans, is maintained. The most important province of Perak is Larut, which has tin deposits of great richness within a few miles of the sea-coast. It is thus most advantageously situated in respect of commercial intercourse with the British port of Penang, which is about 50 miles off. Larut is under the charge of the Assistant Resident, and its chief town, Thaipeng, is the head-quarters of the Military Police, and of the chief departments of the State. British Officers (Magistrates and Collectors) and detachments of Police are also stationed in other important districts. The Dindings, including the island of Pangkor and the district of Dinding on the mainland, which is British territory, come under the administration of the Straits Government. In the interior of Perak, except in mining districts, the population is almost entirely Malay, the exceptions being a few Chinese shopkeepers, and the Government establishments, police, &c. At Larut, and at the chief mining settlements in the interior, Kinta, Batang, Padang, &c., the Chinese form a large part of the population, and may be roughly estimated at 47,000, while the Malays number about 53,000. The country is rapidly increasing in importance, and on the 1st June, 1885, a railway, $8\frac{1}{4}$ miles in length, connecting Thaipeng with Port Weld, was formally opened to traffic. There are about 250 miles of telegraph and telephone wires in use.

The only duties levied on exports are a royalty of \$10 per bhara (400 lbs.) on tin, and a royalty of one-tenth on timber, ataps, and other jungle produce:—The value of the trade in 1887 was \$19,201,296 against \$14,260,595 in 1886. Tin is the principal export. The revenue in 1887 was \$1,827,476.80, and the expenditure \$1,550,489.29. There is daily communication by trading steamers between Penang and Larut.

PENANG.

Penang, or Prince of Wales' Island (the latter name having only been officially abandoned within the last few years) is an island situated on the west coast of the Malay Peninsula in 5 deg. North latitude and with a strip of land on the opposite coast known as Province Wellesley, from which it is separated by a strait varying from 2 to 10 miles in width, constitutes the second in importance of the three governments known as the "Straits Settlements." The island contains an area of about 107 square miles, being 15 miles long and 9 broad at its widest portions, while Province Wellesley extends for a distance of 45 miles along the coast, and has an average width of 8 miles. The chief town of Penang is George Town, but the name of the island (which signifies "Betel nut island") has become so identified with the town that the specific designation has almost dropped out of use.

Penang was ceded to the famous Captain Light for the East India Company in the year 1785 for an annual payment of \$10,000 to the Rajah of Quada, a step which was followed 13 years later by the cession of Province Wellesley. In the year 1806, Penang was elevated to the rank of a presidency, its rising fortunes even then bidding fair to eclipse those of Malacca, while Singapore was as yet unknown as a settlement. In 1825 Singapore and Malacca were incorporated with Penang, and the three were designated by the title they still retain. But as the fortunes of Singapore brightened, those of Penang declined, until the former quite overshadowed her older sister, and in 1832 the principal seat of government was transferred to Singapore.

The settlement of Penang is governed by a Resident Councillor, but is in effect an appanage of Singapore, a resident merchant and a leading Province Wellesley planter representing it in the Singapore Council. An important department of its trade lies in the business transacted with the Dutch settlements in Sumatra, and much excitement was caused during the Acheen war, by what its merchants deemed the undue restrictions placed on their trade by the Dutch authorities. Penang will always remain of certain importance, although it is not likely to again assume the position in the commercial world it formerly held. It is much looked to as an emigration centre for the labour required by the Dutch planters at Acheen and elsewhere. It is a convenient coaling and man-of-war station, and is of yet greater necessity as the virtual seat of government as regards Province Wellesley, which when the Peninsula is placed under British protection as it must, sooner or later, be, will be an important centre of British influence. George Town is built on a plain, at the back of which rises the hill which, as Penangites declare, renders life on the island endurable. The census of 1881 gave 190,597 as the population, in which return, however, were included the population of Province Wellesley and the Dindings. The population is thus divided:—Europeans, 674; Armenians, 32; Jews, 32; Eurasians, 1,597; Chinese, 67,502; Arabs, 574; Tamils, 25,094; Malays, 84,724; and the rest of various races. The estimated population in 1885 was 244,000.

HONGKONG POSTAL GUIDE.

 This reprint supersedes all previous issues of the Postal Guide, and is the only authorised complete summary of Postal regulations. Whilst always willing to supply information in other ways, the Department declines responsibility for errors in replies to *verbal* applications (especially if addressed to Chinese) or notes to subordinate officers. The Chinese Shroffs at the windows are placed there *to sell stamps*, not to decide what is correct postage, nor to answer enquiries, for which they are not competent.

1.—The Head Office for British Postal business in China is at Hongkong; there is a Post Office also at Shanghai, and Agencies at the following places:—

Canton, Hoihow (honorary), Swatow, Amoy, Foochow, Ningpo, and Hankow.

2.—All complaints, or representations of matters which cannot be adjusted locally, should be addressed to the Postmaster General, Hongkong, and, if marked *On Postal Business*, will be forwarded free by any Postmaster or Agent.

3.—The cover of any correspondence about which complaint is made should if possible be forwarded with such complaint. Neglect of this generally renders enquiry impossible.

4.—When correspondence has been misent or delayed (both of which are liable to happen occasionally) all that the complainant need do is to write on the cover, *Sent to.....or Delivered at.....*, or *Not received till the ...th instant*, or as the case may be, and forward it, without any note or letter whatever, to the Postmaster General. Attention to this would save much writing and needless trouble.

Dimensions, Weights, and Contents of Correspondence.

5.—No articles of correspondence (except Maps, &c. as explained below), unless to or from a Government Office, must exceed the following measurement:—2 feet long, 1 foot wide, 1 foot deep. There is no limit to the weight of letters, but the weights of other articles (except official correspondence) are limited as follows:—

	<i>To British Offices.</i>	<i>To other Offices.</i>
Books or Papers.....	5lb.....	4lb.
Patterns	5lb.....	8oz.

6.—Book Packets for non-British offices must not exceed 18 inches measurement in any one direction, but such objects as Maps, Pictures, Plans, Photographs, &c., if made up into rolls of no great thickness and not exceeding 31 inches in length may be so forwarded to any country. Pattern Packets for non-British offices must not exceed these dimensions, 8 inches by 4 inches by 2 inches.

7.—Articles which are dangerous to the mails, or offensive or injurious to persons dealing with them, cannot be sent by Post.

Routes and Opportunities.

8.—All ordinary correspondence is sent on by the best opportunity of which the prepayment admits, unless especially directed, or apparently prepaid for some other route.

9.—Correspondence specially directed for any particular steamer is sent by her (failing any request to the contrary) however many times her departure may be postponed. If it is postponed *sine die*, the correspondence is sent on by the next opportunity.

10.—Correspondence from the Coast marked *via Brindisi* or *via Marseilles* is KEPT FOR THE ROUTE INDICATED even though that may involve a fortnight's detention. Unless this is intended, therefore, the safest direction is *By first mail*.

11.—Letters from the Coast forwarded *without prepayment* are not delivered until the Hongkong Office has time to deal with them; paid covers are delivered at once. Unpaid papers are returned to the senders.

12.—It is not necessary to pay postage on covers from the Coast containing stamped correspondence for the homeward mails or local delivery.

13.—It is sometimes possible to overtake the French packet at Singapore by means of a direct private steamer. When this can be done Coast correspondence which arrived too late is so sent on.

14.—Mails may also be forwarded to London and Ports of call by the Tea steamers leaving China, either direct, or to catch the next contract mail at Singapore or Suez. Except by special request, only *letters* are sent in these mails.

15.—Newspapers for China posted in the United Kingdom and paid only 1d. each instead of 1½d., which is the proper postage, or over 4 ounces in weight and paid one rate only, are sent out by private steamers instead of by the contract mails.

Australia.

16.—There are two routes to Australia, viz., via Torres Straits, and via Colombo. The Torres Straits route is the best for Eastern Australia as far as Sydney, for New Zealand, Tasmania, and Fiji. All correspondence for these places is thus sent unless otherwise directed. Correspondence for Adelaide and Perth may be sent by this route.

17.—The route via Colombo is best for Western and Southern Australia. Each homeward French Packet connects at Colombo with the P. & O. steamer which leaves that port for King George's Sound, Adelaide, Melbourne, and Sydney.

The San Francisco Route, Canada, &c.

18.—The route by San Francisco can be freely used for ordinary or registered correspondence for Union or Non-union countries. The making up of mails via San Francisco at Shanghai is left to the United States and Japanese Post Offices.

19.—When it is desired to forward letters to the United States by a sailing ship not notified as carrying a mail, all that is necessary is to post the letters in the ordinary way, marked with the name of the ship, and prepaid 10 cents per half ounce as usual. The Post Office then undertakes the duty of obtaining notice of departure and despatching the correspondence.

Posting.

20.—Boxholders are allowed to post their correspondence in sealed boxes, which should be closed with some recognisable seal. Locked boxes cannot be allowed.

21.—A receipt book should be sent with each box, but as the receiving officer cannot undertake to count the correspondence sent, he only gives a receipt for *One Box*.

22.—No attention is promised to anything written in the book, *To be Registered*, for instance.

23.—Contrary to general usage the Hongkong Post Office will give a receipt of this kind for an ordinary letter, to assure the sender his correspondence has not been stolen on the way to the Post. But this receipt is not intended to be used against the Post Office in case the correspondence goes astray. Some few Offices grant acknowledgments of posting on payment of a halfpenny or so for each letter acknowledged, and even then they decline to admit that any such acknowledgment refers to any particular letter. Others have abandoned the practice of giving receipts even on payment. It is obvious therefore that this Office cannot allow its free receipts to be used to found complaints on. If that is intended the correspondence should be Registered.

24.—It is no part of the duties of the Post Office to affix stamps to correspondence, or to see that servants purchase or affix the proper amounts, nor can the officers of the Department, under any circumstances, undertake to do this.

25.—Any article of correspondence duly prepaid and posted becomes the property of the addressee, and cannot be returned to the sender, nor can it be detained, without the written authority of the Governor of Hongkong or of Her Majesty's Consul at the Port, on an application stating fully the reasons for the request.

Registration.

26.—Every description of paid correspondence may be registered, except such as is addressed in pencil, or is addressed to initials or fictitious names, or is not properly fastened and secured. The fee is 10 cents, Local 5 cents. The sender of any Registered article may have a receipt sent with it for signature by the addressee and return, on paying an extra fee of 5 cents.

27.—Letters to be registered should be handed to the receiving officer at the proper window, and a receipt obtained. The hour of registry will be marked on the receipt if specially requested. Whoever presents an article for Registry MUST ASK (verbally) FOR A RECEIPT. Nothing written on the letter or elsewhere can replace this indispensable precaution.

28.—The Post Office is not legally responsible for the safe delivery of Registered Correspondence, but will be prepared to make good the value of such correspondence if lost while passing through the Post, to the extent of \$10, in certain cases, provided:—

- (a) That the sender duly observed all the conditions of Registration.
- (b) That the correspondence was securely enclosed in a reasonably strong envelope.
- (c) That application was made to the Postmaster General of Hongkong immediately the loss was discovered, and within a year at the most from the date of posting such correspondence.
- (d) That the Postmaster General is satisfied the loss occurred whilst the correspondence was in the custody of the British Postal administration in China; that it was not caused by any fault on the part of the sender; by destruction by fire, or shipwreck; nor by the dishonesty or negligence of any person not in the employment of the Hongkong Post Office.

29.—No compensation can be paid for mere damage to fragile articles such as portraits, watches, handsomely bound books, &c., which reach their destination, although in a broken or deteriorated condition, nor on account of alleged losses of the contents of Registered covers which safely reached their destinations, nor on account of any article for which the addressee has signed a receipt.

30.—The Post Office declines all responsibility for unregistered Letters containing bank notes, coin, or jewellery, and, where Registration has been neglected, will make no enquiries into alleged losses of such letters.

31.—A postcard enclosed in a packet of correspondence, for return to the sender by way of receipt, will not under any circumstances be admitted as evidence that any particular article reached the Post Office.

Unpaid Letters.

32.—The general rule as to insufficiently paid letters is to double the deficient postage. If the despatching office has not indicated how much the deficiency is, it is taken to be 10 cents per half ounce, and the letter is consequently charged 20 cents per half ounce. Any foreign postage stamps affixed are neglected in making this charge. Hence letters sent loose on board ship are treated as wholly unpaid, however many stamps of other countries they may bear. This practice is based on international rules, and is required by Treaty. Nothing can be sent wholly unpaid except letters. The prepayment of postage on local letters is compulsory.

33.—Consignees' letters, being privileged by law, need not be sent to the Post Office at all, but if they are sent they are liable to ordinary rates of postage.

Soldiers' and Sailors' Letters.

34.—Privates in H.M. Army or Navy, Non-commissioned Officers, * Bandmasters, Schoolmasters (not Superintending or First Class), Writers, or School-mistresses may send HALF-OUNCE letters to the United Kingdom by the English Mail at the rate of two cents each, or by the French Mail at the rate of four cents each. The postage must be prepaid in Hongkong Stamps.

35.—To other places not beyond Great Britain, such as India, Malta, &c., the postage is 2 cents.

36.—The same privileges apply to letters addressed to the Privates and Non-commissioned Officers named above.

37.—The letters must not exceed half an ounce. No handkerchiefs, jewellery, &c., can be sent, even with the ends open.

38.—If from a Soldier or Sailor his class and description must be stated in full on the letter, the cover of which must be signed by the Commanding Officer, with name of regiment, ship, &c., in full. If to a Soldier or Sailor, his class and description, with name of regiment, ship, &c., must be stated in full.

39.—Soldiers and Sailors have no privileges with regard to books, papers, or parcels.

Post Cards.

40.—Two values of Post Cards are issued, as follows :—

For local circulation, i.e., anywhere within the limits of China, Japan, Korea, }	1 cent.
Siam direct, Cochin-China, Tonquin, or the Philippines	3 cents.
To Union Countries generally.....	

41.—Nothing must be written or printed on the stamped side of the card but the address, and, if desired, the sender's address. Any communication whatever, whether of the nature of a letter or not, may be written or printed, or partly written and partly printed on the other side. But no card will be forwarded on which anything libellous, insulting, or indecent has been written, printed, or drawn.

42.—Nothing must be attached to a Post Card, nor may it be folded, cut, or otherwise altered. If so, it will be charged as a letter. Thin paper, smaller than the card, may, however, be pasted smoothly on it.

43.—In regard to hours for posting, late fees, &c., Post Cards are submitted to the same rules as letters.

44.—A card of insufficient value may be fully prepaid by the addition of an adhesive stamp of proper amount.

Books and Patterns.

45.—Books and patterns are charged at so much per two ounces. The Union rate is 2 cents.

46.—The term books includes all kinds of printed† literary matter, with whatever is necessary for its illustration or safe transmission, as maps, rollers, binding, &c., but a book must contain no communication whatever of the nature of a letter. Stamps of any kind, whether obliterated or not, or any papers representing monetary value, such as coupons, drafts, lottery tickets, &c., must be sent at letter rates.

47.—A book may contain an inscription presenting it, notes or marks referring to the text, or such writing as *With the author's compliments*, &c.

48.—Proofs, or corrected proofs, with or without manuscript attached, may also be forwarded at Book rates, but press copies come under the heading of Letters or Commercial Papers according to the nature of the subject-matter.

* But not Warrant Officers, Assistant Engineers, Gunners, Boatswains, or Carpenters.

† Copying from a gelatine pad is taken to be *printing*, but press copying is *writing*.

49.—The packet must be open at the ends, and the contents visible, or easily to be rendered visible. Packets which are *sealed* are treated as letters even though the ends may be open. Books to the value of \$1 and upwards, when addressed to the United States, are generally liable to Customs duties.

50.—Pattern packets must be open at the ends. Tea, seeds, drugs, &c., may be sent in boxes, or in transparent bags. There must be no writing or printing on or in the packet except addresses, trade marks, numbers, quantities, and prices. For weight, dimensions, &c., see paragraph 5.

Commercial Papers.

51.—The distinction between Books and Commercial Papers (*papiers d'affaires*) is, that whilst Book Packets are to consist of printed matter, Commercial Papers are wholly or partly written *by hand*. They must not be of the nature of an actual or personal correspondence.

52.—Commercial Papers are such papers as the following:—printers' copy, authors' manuscript; press copies of any documents not letters; law papers; deeds; bills of lading; invoices; insurance papers; copied music; &c. The rate is the same as for Books, but no packet of commercial papers, whatever its weight, is charged less than five cents. Stamps of any kind, whether obliterated or not, or any papers representing monetary value, such as coupons, drafts, lottery tickets, &c., must be sent at letter rates.

53.—Any one Commercial Paper in a Book Packet exposes the whole packet to the above rule as to minimum charge. With this exception all kinds of Printed matter and Patterns may be enclosed in one packet and forwarded at Book rates.

54.—Commercial Papers are subjected to all the conditions of Book Post as to the ends of the Packet being open, liability to examination, hours of closing, late fees, &c.

Newspapers.

55.—A newspaper is a printed paper containing *news*. It must not exceed four ounces in weight, or it is liable to an additional rate of postage. It may be prepaid as a book at the option of the sender. The union rate of postage is 2 cents each.

56.—A bundle of newspapers may be prepaid at so much each (and each one must count, however small) or the whole may be paid at book rate.

57.—Two newspapers must not be folded together as one, nor must *anything whatever* be inserted except *bonâ fide* supplements of the *same paper*, and *same date*. Printed matter may, however, be enclosed if the whole be paid at book rate.

58.—A newspaper must be open at the ends. If it contain any written communication whatever it will be charged as a letter. It should be folded with the title outwards.

Prices Current and Circulars.

59.—A circular is a communication of which copies are addressed, in identical terms or nearly so, to a number of persons. It may be either written or printed, or partly written and partly printed. A price current or circular may be paid as a newspaper or as a book.

60.—A bundle of prices current or circulars may be paid as so many newspapers (each one counting) or the whole may be paid at book rate. The Union rate of postage is 2 cents each. For Natal and the Cape, 5 cents.

61.—Prices Current or Circulars forwarded in closed envelopes with the corners cut off, or with notched ends, are charged *letter rates*, as they are not really open to inspection.

62.—Prices Current and Circulars arriving in such large quantities as to retard the delivery of the mails are allowed to stand over till there is time to deal with them.

Requests for Redirection.

63.—Requests for the redirection of correspondence, or to have it stopped in Hongkong, must be in writing. The precise address of the correspondence must be given.

64.—Requests should also state whether private letters or those for the writer's firm are required, and to how many mails the request applies.

65.—When the correspondence is required in Hongkong an address must be given to which it may be sent. *Under no circumstances will it be delivered at the Post Office windows.* If the applicant persists in applying for it instead of waiting till it is sent to him, his request will be cancelled.

66.—No notice can be taken of requests sent in after any Mail is signalled with reference to that particular Mail.

67.—Requests of a complicated nature cannot be entertained.

68.—Correspondence directed to care of boxholders in Hongkong must, without exception, be delivered as addressed.

69.—Every request is understood to refer to letters only; papers will not be intercepted unless special reasons be shewn to the satisfaction of the Postmaster General.

70.—There is no charge for re-direction of sufficiently prepaid correspondence.

71.—The marine officers are not allowed to deliver correspondence at Singapore.

72.—Letters for a firm will not be intercepted without the written authority of that firm.

73.—Correspondence from the Continent for Northern Ports by French packet cannot be intercepted, nor can that for Yokohama by any Mail.

74.—No request is acted on for more than three months, at the end of which time the correspondence resumes its usual course.

Postage Stamps.

75.—Hongkong Postage Stamps of the following values can be purchased and are available at any British Post Office or Agency in Hongkong or China:—

2 cents.	50 cents.	Post Cards—
5 "	1 Dollar.	1 cent.
10 "	2 Dollars.	3 cents.
20 "	3 "	
30 "		

76.—Postmasters and Agents are allowed (but not required) to purchase Hongkong Postage Stamps from foreign residents.

77.—The Stamps tendered for sale must not exceed \$50 in value, must be perfectly clean, and in good condition. They must be presented personally or accompanied by a note.

78.—The Postmaster or Agent is allowed to charge a commission of one per cent. on all stamps purchased.

79.—Boxholders are at liberty to mark their Postage Stamps on the back or face, or by perforation so as to prevent their being stolen. If the mark be on the face, it must be such as not to interfere with the clean appearance of the stamp.

80.—Correspondence will not be stamped at the Post Office and charged to a boxholder's account, except as provided by the Local Postage regulations (see paragraph 99).

Money Orders.

81.—Money Orders are issued at Hongkong and Shanghai at current rates of exchange on the following countries and places:—

82.—Orders on the Countries marked * are forwarded *through the London Post Office*, and are paid less a small discount of about 2d. in the £1, for which the remitter should allow. All such orders must be expressed in British currency, and cannot be drawn for any smaller sum than 6d.

83.—The commission charged is as follows (according to the currency the Order is drawn in):—

Up to £ 2, or \$10, or 20 Rupees.....	0.20 cents.
Up to £ 5, or \$25, or 50 Rupees.....	0.40 cents.
Up to £ 7, or \$35, or 70 Rupees.....	0.60 cents.
Up to £10, or \$50, or 100 Rupees.....	0.80 cents.
Up to — — 150 Rupees.....	\$1.00.

84.—No Order must exceed £10 or \$50 (unless drawn on India, when 150 Rupees is the limit), nor will more than two such Orders be issued to the same person, in favour of the same payee, by the same mail.

85.—Money Orders on the United Kingdom for even sums not exceeding £5 are granted by means of Postal Notes, as to which see below.

86.—Sums not exceeding \$50 may be remitted between the Ports of China by means of Postage stamps, subject to a charge of one per cent. for cashing them, or Money Orders can be granted at Hongkong or Shanghai on Ports where there are Agencies of the Hongkong Post Office.

Postal Notes.

87.—POSTAL NOTES of the values named below, payable within three months at any Post Office in the United Kingdom, or at Constantinople, can be obtained at Hongkong or at any British Post Office in China (except Hoihow) at the following prices, which include commission:—

1/—	33 cents.
1/6	50 "
5/—	\$1.65.
10/—	\$3.30.
20/—	\$6.60.

† By means of Postal Notes only.

All money orders on the United Kingdom for even sums not exceeding £5 applied for at Hongkong or Shanghai will be issued by means of these Notes.

88.—The purchaser of any Postal Note must fill in the Payee's name before parting with it. He may also fill in the name of the Office where payment is to be made. If this is not done the note is payable (within three months) anywhere in the United Kingdom, or at Constantinople. Any Postal Note may be crossed to a Bank.

89.—Postal Notes should always be forwarded in Registered Covers. If this precaution is not taken NO ENQUIRIES WHATEVER will be made as to the loss or alleged loss of any Note.

90.—Postal Notes issued in the United Kingdom are not payable in Hongkong or China.

Private Boxes.

91.—Private Boxes may be rented in the offices at Hongkong and Shanghai. The fee is \$10 a year payable in advance.

92.—Each boxholder is supplied with an account book free, but must himself provide at least two stout bags (Shanghai firms require four) marked with his name in English and Chinese on both sides. Chinese Nankin makes the best bags for this purpose. They should be without strings, but have a couple of iron rings at the mouth for suspending. Boxholders should insist on their coolies returning these bags to the Post Office *as soon as emptied*, or at any rate not later than next morning. The only safe way to empty a bag is to *turn it inside out*.

93.—Each boxholder's coolie must be provided with a stout ticket or badge of wood, metal or pasteboard, bearing his employer's name in English and Chinese. This will enable him to obtain letters whenever a mail arrives.

94.—The advantages of renting a box are many. It secures a quicker and more accurate delivery of correspondence. Unpaid letters are delivered to boxholders without the delay of demanding payment, change, &c., as they are charged to his account. The boxholders of Hongkong and Shanghai send bags down in the mail steamer to be filled by the marine officer. Boxholders are allowed to post their letters in sealed boxes, and to mark their Postage Stamps. They receive free copies of all notices issued by the Post Office, Tables of Rates, &c. Many inconveniences are saved to them by the facility for charging their accounts with small deficiencies of postage, when there is no time to return a short-paid letter. This, however, is only done as an exception, when the letter cannot go on unpaid, no boxholder being allowed to make a practice of sending short-paid correspondence, or letters to be stamped. Boxholders are also allowed certain privileges as to posting local correspondence unstamped (see paragraph 99).

95.—Boxholders' books are sent out for settlement on the first day of each month, and should be returned promptly. As a general rule no information can be given as to the correspondence charged in these accounts, where it came from, &c. There is only one way to obtain such information, and that is to file the covers of all unpaid correspondence received. Entries *On Board* are for unpaid correspondence dealt with by the Marine Officer on his way up from Singapore.

Local Delivery (Hongkong.)

96.—All correspondence posted before 5 p.m. on any week day for addresses in Victoria will be delivered the same day, and generally within two hours, unless the delivery should be retarded by the contract mails. All correspondence *for* the Peak may be posted in the General Post Office up to 11.30 a.m. or 3.30 p.m. or in the Letter Boxes in the Tram Cars till 12 and 4 o'clock. Parcels *for* the Peak may be posted in the General Post Office only up to 11.30 a.m. and 3.30 p.m. Correspondence *from* the Peak may be posted in the Letter Boxes up to 12 and 4 o'clock.

97.—No delivery is attempted at any private house (even though named in the address) when there is a place of business nearer at which delivery can be effected, nor at Kowloon, Aberdeen, &c., nor on board ship.

98.—Circulars, Dividend Warrants, Invitations, Cards, Patterns, Bills, Almanacs, &c., for addressees in Hongkong, or the Ports of China, in batches of not less than ten of uniform size and weight, may be sent to the Post Office unstamped, the postage, at the rate of one cent each, being paid in cash or charged to the sender's account. Special accounts may be opened with non-boxholders for the delivery of considerable numbers of such articles.

99.—Such covers, when addressed to places other than Hongkong or China, must be prepaid two cents each in stamps.

100.—Circulars, &c., must not exceed 2 ounces each in weight. Patterns, Almanacs, &c., must be under 4 ounces each in weight. Heavier articles are charged ordinary rates.

101.—Envelopes containing patterns, &c., may be wholly closed if the nature of the contents be first exhibited or stated to the Postmaster General, as he may consider necessary, and approved by him. Printed Circulars may be inserted in such Pattern Packets.

102.—Addresses must be complete. That is to say, on such covers as are not addressed to heads of houses, the addressee's residence or place of business must be added. Incompletely addressed covers are returned to the sender for address.

103.—The above mentioned classes of correspondence are invariably delivered at places of business unless special arrangement is made for delivery at private houses. Such arrangements can only be made subject to the general work of the Post Office.

A red ball indicates the existence of a typhoon somewhere to the West of the Colony.

LOCAL STORM-WARNINGS are given by firing the gun placed at the foot of the mast. It will be fired one round whenever a strong gale of wind is expected. It will be fired two rounds whenever the wind is expected to blow with storm or typhoon force, and it will be fired again, if possible, when the wind is likely to shift round suddenly.

WEIGHTS AND MEASURES, MONEY.

CHINESE.

WEIGHTS.

Chinese weights are mostly decimal. Although English weights and measures are used to a considerable extent in trade with foreigners, being legalised in Hongkong for that purpose, the following are also recognised by Ordinance 22 of 1844:—

	1 li	or cash	=	·0013 oz. avoird.
10 li	= 1 fan,	or candareen	=	·0133 oz. avoird.
10 fan	= 1 tain,	or mace	=	·1333 oz. avoird.
10 tain	= 1 leung, or tael		=	1½ oz. avoird.*
16 leung	= 1 kan,	or catty	=	1½ lb. avoird.
100 kan	= 1 tàm,	or picul	=	133½ lb. avoird.
120 kan	= 1 shek, or stone		=	160 lb. avoird.

The words *candareen*, *mace*, *tael*, *catty*, *picul*, are not Chinese.

Almost all commodities, even liquids, are sold by the above weights amongst Chinese.

MEASURES.

English measures are legal, but so are also the following Chinese:—

10 fan	= 1 tsün,	or inch	=	about 1.41 English inch.
10 tsün	= 1 chek,	or foot	=	about 14.1 English inch.
10 chek	= 1 ch'eung	or fathom	=	4 yards (nearly).

The Treaty of Tientsin fixes the ch'eung at 141 English inches.

1 li,	or mile	=	½ mile English.
10 li	= 1 pò, or league	=	3 miles English (about).

Land is measured by the *mau* or acre, equal to about $\frac{1}{16}$ of an English acre.

MONEY.

This is almost entirely represented by *weights* of silver, accounts being kept in *leung*, *tsin*, *fan*, and *li* (taels, mace, and candareens) as given above. Their values may be taken to be the following:—

1 li	or cash†	= .06d. or $\frac{1}{16}$ d.	1 tsin	or mace	= 6d.
1 fan	or candareen	= .6d. or $\frac{1}{16}$ d.	1 leung	or tael	= 5s.

Not one of these weights is represented by any coin, unless we may take the cash to represent the value of a *li* of silver.

Silver is used uncoined, in ingots or shoes, sometimes called *sycee*; small sums are paid in what is called broken silver. At the Treaty Ports this generally consists of the fragments of Mexican or Spanish dollars, hammered to pieces by the Shroffs in their process of *chopping*. This broken silver is weighed by means of small steel-yards called *li-tang*.

Cash may be said to be the only coin of China. The Chinese call them *tsin*. They are bronze coins, not unlike thin farthings with a square hole in the centre for stringing together. The Hongkong Government cash or mils are smaller, and the hole is round. The value of cash fluctuates greatly, and is very much a matter of bargain. About 1,200 to a Mexican dollar is an average quotation.

HONGKONG MONEY.

A legal tender in Hongkong consists of Hongkong or Mexican dollars; 20, 10, or 5 cent silver pieces to an amount not exceeding two dollars; or bronze cents or mils to an amount not exceeding one dollar. Japanese yen, American, Spanish, and South American dollars are also in circulation, and the 10 and 20 cent pieces of the Straits Settlements, which are accepted indifferently with those of Hongkong. Japanese small coin is also accepted at a small discount.

* The Tael actually in use is 1.351 oz.

† The *li* when representing *weight* is never spoken of as a cash, but probably the original value of a cash was 1 *li* of pure silver.

The value of the dollar during 1888 ranged from 2s. 11½d. to 3s. 1½d. sterling.
 Mexican dollars *weighed at 7.1.7.* mean coins which contain 7 mace, 1 candareen, and 7 li of silver (see weights given above). Clean coins of this weight command a premium, lighter ones are taken at a discount.

APPENDIX.

ORDER OF HER MAJESTY THE QUEEN IN COUNCIL,
FOR THE GOVERNMENT OF HER MAJESTY'S
SUBJECTS IN CHINA AND JAPAN.

AT THE COURT AT WINDSOR, THE 9TH DAY OF MARCH, 1865.

PRESENT :—

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS an Act of Parliament was passed in the Session of the sixth ^{Preamble.} and seventh years of Her Majesty's reign (chapter eighty) "for the better ^{6 and 7 Vict.} government of Her Majesty's subjects resorting to China": ^{c. 80.}

And whereas, by that Act it was enacted (among other things) that it should be lawful for Her Majesty, by any Order or Orders made with the advice of Her Privy Council, to ordain for the government of Her Majesty's subjects being within the dominions of the Emperor of China, or being within any ship or vessel at a distance of not more than one hundred miles from the coast of China, any law or ordinance which to Her Majesty in Council might seem meet, as fully and effectually as any such law or ordinance could be made by Her Majesty in Council for the government of Her Majesty's subjects being within Her Majesty's Island of Hongkong:

And whereas, another Act of Parliament was passed in the same ^{6 and 7 Vict.} Session (chapter ninety-four) "to remove doubts as to the exercise of ^{c. 94.} power and jurisdiction by Her Majesty within divers countries and places out of Her Majesty's dominions, and to render the same more effectual" (to which Act the expression The Foreign Jurisdiction Act when hereafter used in this Order refers):

And whereas, by The Foreign Jurisdiction Act it was enacted (among other things) that it was and should be lawful for Her Majesty to hold, exercise, and enjoy any power or jurisdiction which Her Majesty then had, or might at any time thereafter have, within any country or place out of Her Majesty's dominions, in the same and as ample a manner as if Her Majesty had acquired such power or jurisdiction by the cession or conquest of territory:

And whereas, Her Majesty has had and now has power and jurisdiction in the dominions of the Emperor of China, and in the dominions of the Tycoon of Japan:

And whereas, Her Majesty was pleased from time to time, by and with the advice of Her Privy Council, by Orders in Council of the several dates in the Schedule to this Order specified, to ordain laws and ordinances for the better government of Her Majesty's subjects being within the dominions of the Emperor of China, or being within certain ships or vessels at a distance of not more than one hundred miles from the coast of China and to make provision for the exercise of Her Majesty's power and jurisdiction aforesaid in the dominions of the Emperor of China and of the Tycoon of Japan respectively:

And whereas, it has seemed to Her Majesty, by and with the advice of Her Privy Council, to be expedient at the present time to revise the provisions of the said Orders, and to ordain further and other laws and ordinances for the better government of Her Majesty's subjects being

within the dominions of the Emperor of China, or being within such ships or vessels as aforesaid, and to make further and other provision for the due exercise of Her Majesty's power and jurisdiction aforesaid and particularly for the more regular and efficient administration of justice among Her Majesty's subjects resident in or resorting to the dominions of the Emperor of China or of the Tycoon of Japan :

And whereas, under the authority of provisions in this behalf in the first-recited Act contained, ordinances for the peace, order, and good government of Her Majesty's subjects within the dominions of the Emperor of China, or being within certain ships or vessels at a distance of not more than one hundred miles from the coast of China, have been from time to time made by the Superintendent of the Trade of Her Majesty's subjects in China (such Superintendent being also the Governor of Hongkong), with the advice of the Legislative Council of Hongkong, which ordinances are known as Consular Ordinances :

And whereas such of those Consular Ordinances as are described in the Schedule to this Order are now in force, wholly or in part, but they are liable to repeal by order of Her Majesty in Council, and it is expedient that they be repealed, such of their provisions as are not intended to be abrogated being consolidated with this Order :

Now, therefore, Her Majesty, by virtue of the powers in this behalf by the first recited Act and The Foreign Jurisdiction Act, or either of them, or otherwise in Her vested, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered, as follows :

1.—The provisions of Article 25 of the China and Japan Order in Council, 1865, and all provisions of that Order consequent thereon or relative thereto, shall extend and apply to every person (not holding a Consular Commission from Her Majesty) from time to time appointed by Her Majesty's Minister in China or Japan to be Acting Consul, and to be resident at a port in China or Japan, which is for the time being open to foreign trade, and at which no Commissioned Consular Officer of Her Majesty is resident.

2.—For the purposes and within the meaning of the said Order, every person so appointed as an Acting Consul shall be deemed a Consular Officer, and the district for which he is appointed to act shall be deemed a Consular District, and the Court held by him shall be deemed a Provincial Court.

3.—Words in this Order have the same meaning as in the said Order.

THE CHINA AND JAPAN ORDER IN COUNCIL, 1878.

AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT, THE 14TH DAY
OF AUGUST, 1878.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas Her Majesty the Queen has power and jurisdiction over Her Majesty's subjects resident in or resorting to China and Japan:

Now, therefore, Her Majesty, by virtue of the powers in this behalf by the Foreign Jurisdiction Acts, 1843 to 1875, and by the Act of Parliament of the session of the sixth and seventh years of Her Majesty's reign (chapter 80), "for the better government of Majesty's subjects resorting to China," or otherwise, in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows:—

Preliminary.

1.—This Order may be cited as "The China and Japan Order in Council, 1878."

2.—This Order shall commence and have effect as follows:—

(a.) As to the making of any warrant or appointment under this Order, immediately from and after the making of this Order.

(b.) As to all other matters and provisions comprised and contained in this Order, immediately from and after the expiration of one month after this Order is first exhibited in the public office of Her Majesty's Consul-General for the district of the Consulate of Shanghai; for which purpose Her Majesty's Consul-General or other principal Consular Officer for the time being for that district is hereby required forthwith, on receipt by him from Her Majesty's Minister in China of a copy of this Order with instructions in this behalf, to affix and exhibit this Order conspicuously in that public office, and to keep the same affixed and exhibited during one month thereafter; of the time of which first exhibition notice shall be published as soon thereafter as practicable in each Consular district in China and in Japan, in such manner as Her Majesty's Ministers there respectively direct; and the time of the expiration of that month shall be deemed the time of the commencement of this Order.

(3.) Articles 9 to 22, both inclusive, of the China and Japan Order in Council, 1865, are hereby revoked.

(2.) Articles 36 and 37 of that Order are hereby revoked as regards Japan only.

(5.) A copy of this Order shall be kept exhibited conspicuously in each Court and Consulate in China and in Japan.

(6.) Printed copies thereof shall be provided, and shall be sold at such reasonable price as Her Majesty's Ministers there respectively direct.

Supreme Court for China and Japan.

4.—(1.) There shall be a Chief Justice and an Assistant-Judge of the Supreme Court for China and Japan.

(2.) The Assistant-Judge shall be the Registrar of the Supreme Court; and the office of Law Secretary of the Supreme Court is hereby abolished.

(3.) The Assistant-Judge shall hear and determine such causes and matters, civil and criminal, and transact such other part of the business of the Supreme Court, as the Chief Justice from time to time by general order, or otherwise, directs; and for that purpose the Assistant-Judge shall have all the like jurisdiction, power, and authority as the Chief Justice.

(4.) Any party to a suit or proceeding wherein any matter or question is heard and determined by the Assistant-Judge shall be entitled, as of course, to a rehearing before the Chief Justice, sitting with the Assistant-Judge, or, in the unavoidable absence of the Assistant-Judge, alone.

(5.) If, on any such rehearing, there is a difference of opinion between the Chief Justice and the Assistant-Judge, the opinion of the Chief Justice shall prevail.

(6.) Throughout the China and Japan Order in Council, 1865, and the Rules made thereunder, the Chief Justice of the Supreme Court shall, as regards China, be deemed to be therein substituted for the Judge of the Supreme Court.

Court for Japan.

5.—(1.) There shall be in and for Japan a Court styled Her Britannic Majesty's Court for Japan.

(2.) The Court for Japan shall have a seal, bearing its style and such device as the Secretary of State from time to time directs.

(3.) The Court for Japan shall hold its ordinary sittings at Kanagawa, or, on emergency, at any other place within the district of the Consulate of Kanagawa, but may at any time transfer its ordinary sittings to any place in Japan approved by the Secretary of State or by Her Majesty's Minister in Japan.

(4.) There shall be a Judge and an Assistant-Judge of the Court for Japan.

(5.) The Assistant-Judge shall hear and determine such causes and matters, civil and criminal, and transact such other part of the business of the Court, as the Judge from time to time by general order, or otherwise, directs; and for that purpose the Assistant-Judge shall have all the like jurisdiction, power, and authority as the Judge.

(6.) Any party to a suit or proceeding wherein any matter or question is heard and determined by the Assistant-Judge shall be entitled, as of course, to a rehearing before the Judge, sitting with the Assistant-Judge, or, in the unavoidable absence of the Assistant-Judge, alone.

(7.) If, on any such rehearing, there is a difference of opinion between the Judge and the Assistant-Judge, the opinion of the Judge shall prevail.

(8.) In Japan, persons accused of crimes which in England are capital shall be tried by the Judge of the Court for Japan, with a jury, and not otherwise.

(9.) There shall be attached to the Court for Japan a Chief Clerk, and so many officers and clerks as the Secretary of State from time to time thinks fit.

Jurisdiction in Japan.

6.—(1.) Her Majesty's Consul for the district of the Consulate of Kanagawa shall cease to hold and form a Provincial Court.

(2.) Unless and until the Secretary of State otherwise directs, Her Majesty's Consul for the time being for the district of the Consulate of Kanagawa shall be the Assistant-Judge of the Court for Japan.

(3.) All Her Majesty's jurisdiction, civil and criminal, exercisable in Japan shall, and within the district of the Consulate of Kanagawa, be vested in the Court for Japan as its ordinary original jurisdiction.

(4.) All Her Majesty's jurisdiction, civil and criminal, exercisable in Japan beyond the district of the Consulate of Kanagawa, and not under this Order vested

in the Court for Japan, shall, to the extent and in the manner provided by the China and Japan Order in Council, 1865, as modified by this Order, be vested in the Provincial Courts in Japan, each for and within its own district.

(5.) The Court for Japan shall have, in all matters, civil and criminal, an extraordinary original jurisdiction throughout Japan, concurrent with the jurisdiction of the several Provincial Courts in Japan, the same to be exercised subject and according to the provisions of the China and Japan Order in Council, 1865, as modified by this Order.

7.—(1) Subject to the provisions of this Order, the provisions of the China and Japan Order in Council, 1865, and the Rules in force in the Supreme Court and other Courts in China and Japan made under that Order, shall extend and apply to the Court for Japan, as if the same were a Court (not a Provincial Court) established under that Order.

(2.) For the purpose of the application thereof to the Court for Japan, in Articles 23, 24, 38, 39, 41, 42, 43, 47, 54 to 57, 59, 61, 62, 67, 68, 69, 72, 74, 77 to 80, 83, 93, 99, 102, 105, 108 to 111, 117, 119, 120 to 126, 144, 153, 155, all inclusive, of that Order, and throughout those Rules, there shall, as regards Japan, be deemed to be substituted Japan for China or for China and Japan, Kanagawa for Shanghai, the Court for Japan for the Supreme Court for China and Japan, and the Judge and Assistant-Judge of the Court for Japan for the Judge and Assistant-Judge of the Supreme Court; but not so as to affect those Articles and Rules as regards operation thereof in and for China.

8.—(1.) Article 119 of the China and Japan Order in Council, 1865, relative to appeals in civil cases to the Supreme Court for China and Japan, shall extend and apply to appeals from decisions of the Court for Japan, as if the same were a Provincial Court within that Article; and that Article, and the Rules therein referred to shall accordingly, notwithstanding anything in this Order, apply to appeals from the Court for Japan to the Supreme Court for China and Japan; but the last mentioned appeals shall not be heard except by the Chief Justice of the Supreme Court, sitting with the Assistant-Judge of that Court, or, in the unavoidable absence of the Assistant-Judge, alone.

(2.) If, on any such appeal, there is a difference of opinion between the Chief Justice and the Assistant-Judge, the opinion of the Chief Justice shall prevail.

(3.) Articles 120 to 126, both inclusive, of the China and Japan Order in Council, 1865, relative to appeals to the Supreme Court for China and Japan in criminal cases, shall extend and apply to appeals to that Court in criminal cases from decisions of the Court for Japan, both in cases originally tried in the Court for Japan and in cases brought by virtue of this Order before that Court, under those Articles, by way of appeal from any Court or Officer in Japan; and, for the purposes of this Article, the Court for Japan shall, in cases so brought before it by way of appeal, be deemed to be the Court trying the case.

Judges in China and Japan.

9.—(1.) The Chief Justice and Assistant-Judge of the Supreme Court and the Judge and Assistant-Judge of the Court for Japan shall each be appointed by Her Majesty by warrant under Her Royal Sign Manual, subject and according to Article 23 of the China and Japan Order in Council, 1865.

(2.) The Chief Justice and the Judge shall each be a subject of Her Majesty by birth or naturalization, who, at the time of his appointment, is a member of the Bar of England, Scotland, or Ireland, of not less than seven years' standing.

10.—(1.) In the case of the death or illness, or the absence or intended absence from the district of the Consulate of Shanghai, of the Chief Justice or of the Assistant-Judge of the Supreme Court, Her Majesty's Minister in China may appoint a fit person to be the Acting Chief Justice or to be the Acting Assistant-Judge (as the case may require) but, unless in any case the Secretary of State otherwise directs, the Assistant-Judge, if present and able to act, shall always be appointed to be Acting Chief Justice.

(2.) In case of the death or illness, or the absence or intended absence from the district of the Consulate of Kanagawa, of the Judge or of the Assistant-Judge of the

Court for Japan, Her Majesty's Minister in Japan may appoint a fit person to be the Acting Judge or to be the Acting Assistant-Judge (as the case may require).

Vice-Admiralty Jurisdiction.

11.—Any proceeding taken in China or Japan against one of Her Majesty's vessels, or the officer commanding the same, as such, in respect of any claim cognisable in a Court of Vice-Admiralty, shall be taken only in the Supreme Court or in the Court for Japan, under the Vice-Admiralty jurisdiction thereof, respectively.

Pending Proceedings.

12.—Nothing in this Order shall affect any suit or proceedings, civil or criminal, pending at the commencement of this Order, with reference either to the original proceedings therein, or to any appeal therein, or otherwise; save that all suits and proceedings, civil or criminal, instituted or taken in the district of the Consulate of Kanagawa before and pending at the commencement of this Order are hereby transferred to the jurisdiction of the Court for Japan; and the same may be carried on and shall be tried, heard, and determined, in and by the Court for Japan, as nearly as may be, as if the same had been instituted or taken in the district of the Consulate of Kanagawa after the commencement of this Order.

And the Most Honourable the Marquis of Salisbury, and the Right Honourable Sir Michael Edward Hicks-Beach, Baronet, two of Her Majesty's Principal Secretaries of State, and the Lords Commissioners of the Treasury, and the Lords Commissioners of the Admiralty, are to give the necessary directions herein as to them may respectively appertain.

Confirmation of Regulations not Repealed.

5.—Such Regulations as are described in the Schedule to this Order, being Regulations made or expressed or intended to be made under or in execution of the powers conferred by Articles Eighty-five to Ninety-one of the China and Japan Order in Council, 1865, and all other Regulations made or expressed or intended to be so made and having been approved, or, in case of urgency, not disapproved, under that Order, before the commencement of this Order, except the Regulations expressed to be repealed by this Order, are hereby confirmed, as from the passing of this Order, and the same, as far as they are now in force, shall be in force, and shall be deemed to have always been of the like validity and effect as if they had been originally made by Order in Council.

Authority for further Regulations.

6.—Her Majesty's Minister in China may from time to time, subject and according to the provisions of this Order, make such Regulations as to him seem fit for the peace, order, and good government of British subjects, resident in or resorting to China.

7.—The power aforesaid extends to the making of Regulations for securing observance of the stipulations of Treaties between Her Majesty, Her Heirs and Successors, and the Emperor of China, and for maintaining friendly relations between British subjects and Chinese subjects and authorities.

8.—Her Majesty's Minister in China may, as he thinks fit, make any Regulation under this Order extend either throughout China, or to some one or more only of the Consular districts in China.

9.—Her Majesty's Minister in China, in the exercise of the powers aforesaid, may, if he thinks fit, join with the Ministers of any foreign Powers in amity with Her Majesty in making or adopting Regulations with like objects as the Regulations described in the Schedule to this Order, commonly called the Shanghai Land Regulations, or any other Regulations for the municipal government of any foreign concession or settlement in China; and, as regards British subjects, joint Regulations so made shall be as valid and binding as if they related to British subjects only.

11.—(a) Regulations made under this Order shall not have effect unless and until they are approved by Her Majesty the Queen, that approval being signified through one of Her Majesty's Principal Secretaries of State,—save that, in case of

urgency declared in any such Regulations, the same shall take effect before that approval, and shall continue to have effect unless and until they are disapproved by Her Majesty the Queen, that disapproval being signified through one of Her Majesty's Principal Secretaries of State, and until notification of that disapproval has been received and published by Her Majesty's Minister in China.

(b.) That approval, where given, shall be conclusive, and the validity and regularity of any Regulations so approved shall not be called in question in any legal proceeding whatever.

12.—Any Regulations made under this Order may, if Her Majesty's Minister in China thinks fit, impose penalties for offences against the same.

13.—Penalties so imposed shall not exceed the following, namely:—For any offence imprisonment for three months, with or without hard labour, and with or without a fine of \$500, or a fine of \$500 without imprisonment,—with or without a further fine for a continuing offence of \$25 for each day during which the offence continues after the original fine is incurred.

14.—Regulations imposing penalties shall be so framed as to allow in every case of part only of the highest penalty being inflicted.

15.—All Regulations made under this Order, whether imposing penalties or not, shall be printed, and a printed copy thereof shall be affixed, and be at all times kept exhibited conspicuously in the public office of each Consulate in China.

16.—Printed copies of the Regulations shall be kept on sale at such reasonable price as Her Majesty's Minister in China from time to time directs.

17.—Where a Regulation imposes a penalty, the same shall not be enforceable in any Consular district until a printed copy of the Regulation has been affixed in the public office of the Consulate for that district, and has been kept exhibited conspicuously there during one month.

18.—A charge of an offence against a Regulation made under this Order, imposing a penalty, shall be inquired of, heard and determined, as an ordinary criminal charge under the China and Japan Order in Council, 1865, except that (notwithstanding anything in that Order) where the Regulation is one for securing observance of the stipulations of a Treaty, the charge shall be heard and determined in a summary way, and (where the proceeding is before a Provincial Court) without Assessors.

19.—A printed copy of a Regulation, purporting to be made under this Order, and to be certified under the hand of Her Majesty's Minister in China, or under the hand and Consular seal of one of Her Majesty's Consular Officers in China, shall be conclusive evidence of the due making of the Regulation, and of its contents.

Prison Regulations.

21.—The respective powers aforesaid extend to the making of Regulations for the government, visitation, care, and superintendence of prisons in China or in Japan, and for the infliction of corporal or other punishment on prisoners committing offences against the rules or discipline of a prison; but the provisions of this Order respecting penalties, and respecting the printing, affixing, exhibiting, and sale of Regulations, and the mode of trial of charges or offences against Regulations do not apply to Regulations respecting prisons and offences of prisoners.

Mortgages.

22.—A deed or other instrument of mortgage, legal or equitable, of lands or houses in China or in Japan, executed by a British subject, may be registered at any time after its execution at the Consulate of the Consular district wherein the property mortgaged is situate.

23.—Registration is made as follows:—The original and a copy of the deed or other instrument of mortgage, and an affidavit verifying the execution and place of

execution thereof, and verifying the copy, are brought into the Consulate; and the copy and affidavit are left there.

24.—If a deed or other instrument of mortgage is not registered at the Consulate aforesaid within the respective times following (namely):

(i) Within fourteen days after its execution, where it is executed in the Consular district wherein the property mortgaged is situate:

(ii.) Whithin two months after its execution, where it is executed in China or Japan, elsewhere than in that Consular district, or in Hongkong:

(iii.) Within six months after its execution, where it is executed elsewhere than in China, Japan or Hongkong:

then, and in every such case, the mortgage debt secured by the deed or other instrument, and the interest thereon, shall not have priority over judgment, or simple contract debts contracted before the registration of that deed or other instrument.

25.—Registered deeds or other instruments of mortgage legal or equitable, of the same lands or houses have as among themselves, priority in order of registration.

26.—(a.) The provisions of this Order do not apply to a deed or other instrument of mortgage executed before the commencement of this Order.

(b.) As regards a deed or other instrument of mortgage executed before the commencement of this Order, the Regulations repealed by this Order shall, notwithstanding that repeal, be in force, and shall be deemed to have always been of the like validity and effect as if they had originally been made by Order in Council.

27.—The power conferred on the Chief Justice of the Supreme Court for China and Japan by Article 127 of the China and Japan Order in Council, 1865, of framing Rules from time to time, is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index to the register of mortgages, and searches in those indexes, and other particulars connected with the making, keeping, and using of those registers and indexes, and for authorising and regulating the unregistering of any deed or other instrument of mortgage, or the registering of any release or satisfaction in respect thereof.

Bills of Sale

28.—The provisions of this Order relating to bills of sale—

(i.) Apply only to such bills of sale executed by British subjects as are intended to affect chattels in China or in Japan:

(ii.) Do not apply to bills of sale given by sheriffs or others under or in execution of process authorising seizure of chattels.

29.—(a.) Every bill of sale must conform with the following rules (namely):

(1.) It must state truly the name, description, and address of the grantor.

(2.) It must state truly the consideration for which it is granted.

(3.) It must have annexed thereto or written thereunder an inventory of the chattels intended to be comprised therein.

(4.) Any defeasance, condition, or declaration of trust affecting the bill not contained in the body of the bill must be written on the same paper as the bill.

(5.) The execution of the bill must be attested by a credible witness, with his address and description.

(b.) Otherwise, the bill is void in China and in Japan to the extent following, but not further (that is to say):

(i.) In the case of failure to conform with the rule respecting an inventory, as far as regards chattels omitted from the inventory; and

(ii.) In any other case, wholly.

(c.) The inventory, and any defeasance, condition, or declaration as aforesaid, respectively, is for all purposes deemed part of the bill.

30.—A bill of sale conforming, or appearing to conform, with the foregoing rules, may be registered, if it is intended to affect chattels in China, at the Supreme Court; and if it is intended to affect chattels in Japan, at the Court for Japan; or in either case at the Consulate of the Consular district wherein the chattels are, within the respective times following and not afterwards (namely):

(i.) Within fourteen days after its execution, where it is executed in the Consular district wherein the chattels are :

(ii.) Within two months after its execution, where it is executed in China or in Japan, elsewhere than in that Consular district, or in Hongkong :

(iii.) Within six months after its execution, where it is executed elsewhere than in China, Japan, or Hongkong.

31.—Registration is made as follows : The original and a copy of the bill of sale, and an affidavit verifying the execution, and the time and place of execution, and the attestation thereof, and verifying the copy, are brought into the proper office of the Court or Consulate ; and the copy and affidavit are left there.

32.—If a bill of sale is not registered at a place and within the time by this Order appointed and allowed for registration thereof, it is, from and after the expiration of the time, void in China or in Japan, according as that place is in China or in Japan to the extent following, but not further (that is to say) :

(i.) As against trustees or assignees of the estate of the grantor, in or under bankruptcy, liquidation, or assignment for benefit of creditors ; and

(ii.) As against all sheriffs and others seizing chattels under process of any Court, and any person on whose behalf the seizure is made ; but only

(iii.) As regards the property in, or right to, the possession of such chattels comprised in this bill as, at or after the filing of the petition for bankruptcy or liquidation, or the execution of the assignment, or the seizure, are in the grantor's possession, or apparent possession.

33.—Registered bills of sale affecting the same chattels have as among themselves priority in order of registration.

34.—Chattels comprised in a registered bill of sale are not in the possession, order, or disposition of the grantor within the law of bankruptcy.

35.—If in any case there is an unregistered bill of sale, and within or on the expiration of the time by this Order allowed for registration thereof, a subsequent bill of sale is granted affecting the same or some of the same chattels, for the same or part of the same debt, then the subsequent bill is, to the extent to which it comprises the same chattels and is for the same debt, absolutely void, unless the Supreme Court for China and Japan, or the Court for Japan, as the case may require, is satisfied that the subsequent bill is granted in good faith for the purpose of correcting some material error in the prior bill, and not for the purpose of unlawfully evading the operation of this Order.

36.—The registration of a bill of sale must be renewed once at least every five years.

37.—Renewal of registration is made as follows :—An affidavit stating the date of and parties to the bill of sale, and the date of the original registration, and of the last renewal, and that the bill is still a subsisting security, is brought in to the proper office of the Court or the Consulate of original registration, and is left there.

38.—If the registration of a bill of sale is not so renewed in any period of five years, then on and from the expiration of that period the bill is deemed to be unregistered.

39.—The provisions of this Order relating to renewal apply to bills of sale registered under the Regulations repealed by this Order.

40.—A transfer or assignment of a registered bill of sale need not be registered ; and renewal of registration is not necessary by reason only of such a transfer or assignment.

41.—Where the time for registration or renewal of registration of a bill of sale expires on a Sunday, or other day on which the office for registration is closed, the registration or renewal is valid if made on the first subsequent day on which the office is open.

42.—If in any case the Supreme Court for China and Japan, or the Court for Japan, as the case may require, is satisfied that failure to register or to renew the registration of a bill of sale in due time, or any omission or misstatement connected with registration or renewal, was accidental or inadvertent, the Court may, if it thinks

fit, order the failure of omission, or misstatement to be rectified in such manner, and on such terms, if any, respecting security, notice by advertisement or otherwise, or any other matter, as the Court thinks fit.

43.—(a.) The provisions of this Order, except as regards renewal of registrations, do not apply to a bill of sale executed before the commencement of this Order.

(b.) As regards a bill of sale executed before the commencement of this Order, the Regulations repealed by this Order shall, notwithstanding that repeal, be in force, and shall be deemed to have always been of the like validity and effect as if they had originally been made by Order in Council.

44.—The power conferred on the Chief Justice of the Supreme Court for China and Japan by Article 127 of the China and Japan Order in Council, 1865, of framing Rules from time to time, is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index, to the registers of bills of sale, and searches in those indexes, and other particulars connected with the making, keeping, and using of those registers and indexes, and for authorising and regulating the unregistering of any bill of sale, or the registering of any release or satisfaction in respect thereof.

Suits by or against Partners.

45.—(a.) The following are Rules of Procedure of Her Majesty's Courts in China and Japan, under the China and Japan Order in Council, 1865 :

(1.) Persons claiming or being liable as partners may sue or be sued in the firm name, if any.

(2.) Where partners sue in the firm name, they must, on demand in writing on behalf of any defendant, forthwith declare the names and addresses of the partners.

(3.) Otherwise, all proceedings in the suit may, on application, be stayed on such terms as the Court thinks fit.

(4.) When the names of the partners are so declared, the suit proceeds in the same manner, and the same consequences in all respects follow, as if they had been named as the plaintiffs in the petition.

(5.) All subsequent proceedings, nevertheless, continue in the firm name.

(6.) Where partners are sued in the firm name, the petition must be served either on one or more of the partners within the jurisdiction, or at the principal place of the partnership business within the jurisdiction on some person having the care and control or management of the partnership business.

(7.) Where one person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name, the petition may be served at the principal place of the business within the jurisdiction on some person having then and there control or management of the business.

(8.) Where partners are sued in the firm name, they must appear individually in their own names.

(9.) All subsequent proceedings, nevertheless, continue in the firm name.

(10.) Where a person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name he must appear in his own name.

(11.) All subsequent proceedings nevertheless continue in the firm name.

(12.) In any case not heretofore provided for, where persons claiming or being liable as partners sue or are sued in the firm name, any party to the suit may, on application to the Court, obtain a statement of the names of the persons who are partners in the firm, to be furnished and verified on oath or otherwise, as the Court thinks fit.

(13.) Where a judgment is against partners in the firm name, execution may issue—

(i.) Against any property of the partners as such ; and

(ii.) Against any person who has admitted in the suit that he is a partner, or who has been adjudged to be a partner ; and

(iii.) Against any person who has been served in the suit as a partner, and has failed to appear.

(14.) If the party who has obtained judgment claims to be entitled to issue execution against any other person, as being a partner, he may apply to the Court for leave so to do; and the Court, if the liability is not disputed, may give such leave, or if it is disputed may order that the question of the liability be tried and determined as a question in the suit, in such manner as the Court thinks fit.

(b.) The foregoing Rules may be from time to time varied by Rules of Procedure made under the China and Japan Order in Council, 1865.

(c.) Printed copies of the foregoing Rules must be exhibited conspicuously in each Court and Consulate in China and Japan, with the other Rules of Procedure for the time being in force under the China and Japan Order in Council, 1865, and be sold at such reasonable price as the Chief Justice of the Supreme Court from time to time directs.

(d.) A printed copy of the foregoing Rules purporting to be certified under the hand of the Chief Justice of the Supreme Court and the seal of that Court is for all purposes conclusive evidence thereof.

46.—(a.) The provisions of this Order do not apply to proceedings instituted by or against partnerships or partners or agents thereof, before the commencement of this Order.

(b.) As regards proceedings instituted by or against partnerships or partners or agents thereof before the commencement of this Order, the Regulations repealed by this Order shall, notwithstanding that repeal, be in force, and shall be deemed to have always been of the like validity and effect as if they had been Rules of Procedure made under the China and Japan Order in Council, 1865; and, as regards the same proceedings, the Rule of Procedure (252) repealed by this Order shall continue to have effect, notwithstanding that repeal, subject always to the operation of the Regulations repealed by this Order.

Suits by or against Foreigners.

47.—(a.) Where a foreigner desires to institute or take a suit or proceeding of a civil nature against a British subject, or a British subject desires to institute or take a suit or proceeding of a civil nature against a foreigner, the Supreme Court for China and Japan, and the Court for Japan, and a Provincial Court, according to the respective jurisdiction of the Court, may entertain the suit or proceeding and hear and determine it; and, if all parties desire, or the Court directs, a trial with a jury or assessors, then, with a jury or assessors, at a place where such a trial might be had if all parties were British subjects, but in all other respects according to the ordinary course of the Court.

(b.) Provided, that the foreigner first obtains and files in the Court the consent in writing of the competent authority of his own nation to his submitting, and that he does submit, to the Jurisdiction of the Court, and, if required by the Court, gives security to the satisfaction of the Court, and to such reasonable amount as the Court directs, by deposit or otherwise, to pay fees, damages, costs and expenses, and abide by and perform the decision to be given either by the Court or on appeal.

(c.) A counter-claim or cross-suit cannot be brought or instituted in the Court against a plaintiff, being a foreigner, who has submitted to the jurisdiction, by a defendant, except by leave of the Court first obtained.

(d.) The Court, before giving leave, requires proof from the defendant that his claim arises out of the matter in dispute, and that there is reasonable ground for it, and that it is not made for vexation or delay.

(e.) Nothing in this provision prevents the defendant from instituting or taking in the Court against the foreigner, after the termination of the suit or proceeding in which the foreigner is plaintiff, any suit or proceeding that the defendant might have instituted or taken in the Court against the foreigner if no provision restraining counter-claims or cross-suits had been inserted in this Order.

(f.) Where a foreigner obtains in the Court an order against a defendant, being a British subject, and in another suit that defendant is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any

amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit.

(g.) Where a plaintiff, being a foreigner, obtains in the Court an order against two or more defendants, being British subjects, jointly, and in another suit one of them is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit, without prejudice to the right of the British subject to require contribution from his co-defendants under the joint liability.

(h.) Where a foreigner is co-plaintiff in a suit with a British subject who is within the particular jurisdiction, it is not necessary for the foreigner to make deposit or give security for costs, unless the Court so direct; but the co-plaintiff British subject is responsible for all fees and costs.

Chinese, Japanese, and Foreign Tribunals.

48.—(a.) Where it is shown to the Supreme or other Court that the attendance of a British subject to give evidence, or for any other purpose connected with the administration of justice, is required in a Chinese or Japanese Court, or before a Chinese or Japanese judicial officer, or in a Court or before a judicial officer of any State in amity with Her Majesty, the Supreme or other Court may, if it thinks fit in a case and in circumstances in which it would require his attendance before its order that he do attend as so required.

(b.) A Provincial Court, however, cannot so order attendance at any place beyond its particular jurisdiction.

(c.) If the person ordered to attend, having reasonable notice of the time and place at which he is required to attend, fails to attend accordingly, and does not excuse his failure to the satisfaction of the Supreme or other Court, he is, independently of any other liability, guilty of an offence against this Order, and for every such offence, on conviction thereof, by summary trial, is liable to a fine not exceeding \$500, or to imprisonment for not exceeding one month, in the discretion of the Court.

On the finding of the Court in any such issue, a decree may be entered for the sum so agreed or ascertained, with or without costs, as the case may be.

Costs.

4. Where no agreement is entered into as to costs, the costs of the whole proceedings shall be in the discretion of the Court.

Effect of decree.

5. The issue and proceedings and decree shall be recorded, and the decree shall have the same effect as a decree in a contested suit.

Questions of Law.

In what cases.

6. Where the parties between whom a suit might be instituted are agreed as to any question of law to be determined between them, they may by consent and by order of the Supreme or other Court on summons,—which order the Court may make on being satisfied that the parties have a real interest in the determination of such question, and that the same is fit to be determined,—state any question of law in a special case for the opinion of the Supreme Court, without any petition presented or other pleading.

Special case for
Supreme Court.

Where the case is stated under order of a Provincial Court, the Court shall send the case to the Supreme Court, and the Supreme Court may direct the case to be re-stated or to be amended, or may refuse to deter-

mine the same if the facts are not sufficiently stated, or if the question thereon is not properly raised, or if the parties cannot agree on an amended case; and may draw inferences of fact from the facts stated in the case.

7. The parties may, if they think fit, enter into an agreement in writing (which shall be embodied in the order for stating the special case or in some subsequent order), that upon the judgment of the Supreme Court being given in the affirmative or negative of the question of law raised by the special case, a sum of money fixed in the agreement, or to be ascertained by the Supreme Court, or in such manner as it may direct, shall be paid by one of the parties to the other, with or without any costs. Money payment.

On the judgment of the Supreme Court, a decree of the Supreme Court or of the Provincial Court under whose order the case was stated (as the case may be), may be entered for the sum to be agreed or ascertained, with or without costs, as the case may be.

8. Where no agreement is entered into as to costs, the costs of the whole proceedings shall be in the discretion of the Supreme Court. Costs.

9. The special case and proceedings and decree shall be recorded, and the decree shall have the same effect as a decree in a contested suit. Decree.

II.—SUMMARY PROCEDURE FOR CLAIMS UNDER 100 DOLLARS.

10. Where the claim which any person desires to enforce by proceedings in the Court relates to money, goods, or other property, or any matter at issue of a less amount of value than 100 dollars,—or is for the recovery of damages of a less amount than 100 dollars,—proceedings shall be commenced by summons, and the suit shall be heard and determined in a summary way. In what cases.

11. The summons shall issue without application in writing.

It shall be addressed to the defendant or defendants against whom the claim is made. Course of procedure.

It shall state briefly and clearly the nature and particulars of the claim, and the amount sought to be recovered.

It shall be served on the defendant or defendants within the time and in the manner directed by the Court.

A defendant shall not be bound to attend personally to answer the summons, unless required expressly by the summons so to do, but he must attend personally if summoned as a witness.

The provisions of these Rules, relative to suits for sums of 100 dollars and upwards, shall be applicable *mutatis mutandis* to suits for sums of less than 100 dollars, and shall be so applied accordingly (except as far as the Court may in any case for the avoiding of delay and furtherance of substantial justice think fit otherwise to direct), particularly as to the matters following:—

The service of summons, notices, and orders.

The summoning of witnesses.

The taking of evidence.

The postponement or adjournment of the hearing.

The allowance of costs.

The contents and effect of orders, and the enforcement thereof.

The recording of the proceedings.

The mode of appeal.

12. Where, either on the application for a summons or before, or at the hearing thereof, it appears to the Court (for reasons to be recorded in the minutes of proceedings) that the nature and circumstances of the case render it unjust or inexpedient to hear and determine the claim in a summary way, the Court may direct proceedings to be taken and carried on by petition, as in suits for sums of 100 dollars and upwards. Power of Court to direct a petition.

III.—SUMMARY PROCEDURE FOR ADMINISTRATION OF PROPERTY OF DECEASED PERSONS.

- In what cases.** 13. Any person claiming to be a creditor or a legatee, or the next of kin, or one of the next of kin, of a deceased person, may apply for and obtain, as of course, without petition filed or other preliminary proceeding, a summons from the Court, requiring the executor or administrator (as the case may be) of the deceased to attend before the Court, and show cause why an order for the administration of the property of the deceased should not be made.
- Order.** 14. On proof of due service of the summons, or on the appearance of the executor or administrator in person, or by counsel or attorney, and on proof of such other things (if any) as the Court requires, the Court may, if in its discretion it thinks fit so to do, make an immediate order for the administration of the property of the deceased; and the order so made shall have the force of a decree to the like effect made on the hearing of a cause between the same parties.
- The Court shall have full discretionary power to make or refuse such order, or to give any special directions respecting the carriage or execution of it, and in the case of applications for such an order by two or more different persons or classes of persons, to grant the same to such one or more of the claimants or classes of claimants as the Court thinks fit.
- If the Court thinks fit the carriage of the order may subsequently be given to such person and on such terms as the Court directs.
- Custody of property.** 15. On making such an order, or at any time afterwards, the Court may, if it thinks fit, make any such further or other order as seems expedient for compelling the executor or administrator to bring into Court for safe custody, all or any part of the money, or securities, or other property of the deceased, from time to time coming to the hands of the executor or administrator, or such other order as seems expedient for the safe keeping of the property of the deceased, or any part thereof, until it can be duly administered under the direction of the Court for the benefit of all persons interested.
- Proceedings *ex officio*.** 16. If the extreme urgency or other peculiar circumstances of any case appear to the Court so to require, the Court may issue such a summons and make such an order or such orders as aforesaid, and may cause proper proceedings to be taken thereon, of its own motion *ex officio*, or on the information of any officer of the Court, and without any such application by a creditor or legatee, the next of kin, or one of the next of kin, as is before mentioned.
- Minute of reasons.** 17. The reasons of the Court for making any order under the present provisions shall be recorded in the minutes of proceedings.

IV.—SUMMARY PROCEDURE ON BILLS OF EXCHANGE AND PROMISSORY NOTES.

- In what cases.** 18. Suits on bills of exchange or promissory notes, instituted within six months after the same become due and payable, may be commenced by summons, and may be heard and determined in a summary way as hereinafter is provided.
- Leave to defend, when.** 19. The Court shall, on application within seven days from the service of the summons, give the defendant leave to defend the suit on his paying into Court the sum indorsed, or on evidence on oath showing to the satisfaction of the Court a good legal or equitable defence, or such facts as would make it incumbent on the holder to prove consideration, or such other facts as the Court deems sufficient to support the application, and on such terms as to security and other things as to the Court seems fit; and in that case the Court may direct proceedings to be taken and carried on by petition in the ordinary way.

20. If the defendant does not so obtain leave to defend, the plaintiff, Decree. on proof of due service of the summons, shall be entitled as of course at any time after the expiration of such seven days, to an immediate absolute decree for any sum not exceeding the sum indorsed on the summons, together with interest at the rate specified (if any) to the date of the decree, and a sum for costs to be fixed by the Court in the decree.

21. After decree the Court may, under special circumstances, set Proceedings after decree. aside the decree, and may, if necessary, set aside execution, and may give leave to defend the suit, if it appears to the Court reasonable so to do, and on such terms as to the Court may seem just, the reasons for any such order being recorded in the minutes of proceedings.

22. In any proceedings under the present provisions, it shall be Deposit of bill. competent to the Court to order the bill or note sought to be proceeded on to be forthwith deposited in the Court, and further to order that all Security for costs. proceedings be stayed until the plaintiff gives security for costs.

23. The holder of a dishonoured bill or note shall have the same Holder's expenses. remedies for recovery of the expenses incurred in the noting of the same for non-acceptance or non-payment, or incurred otherwise by reason of the dishonour, as he has under the present provisions for recovery of the amount of the bill or note.

The holder of a bill or note may, if he thinks fit, obtain one One summons against all or any of the parties. summons under the present provisions against all or any of the parties to the bill or note; and such summons shall be the commencement of a suit or suits against the parties therein named respectively; and all the subsequent proceedings against such respective parties shall be carried on, as far as may be, as if separate summonses had issued.

But the summons or its indorsement must set forth the claims against the parties respectively, according to their respective alleged liabilities, with sufficient precision and certainty to enable each defendant to set up any defence on which he individually may desire to rely.

25. Any appeal from a Provincial Court to the Supreme Court in Appeal. respect of any decision, decree, or order given or made in any such suit does not lie, except by special leave.

V.—SUITS FOR SUMS OF 100 DOLLARS AND UPWARDS.

Petition.

26. Subject to the foregoing provisions, where the claim which any In what cases, person desires to enforce by proceedings in the Court relates to money, goods, or other property of the amount or value of 100 dollars or upwards, —or relates to or involves directly or indirectly a question respecting any matter at issue of the amount or value of 100 dollars or upwards—or is for the recovery of damages of the amount of 100 dollars or upwards—proceedings shall be commenced by the filing of a petition.

27. The petition shall contain a narrative of the material facts, Contents of petition. matters, and circumstances on which the plaintiff relies, such narrative being divided into paragraphs numbered consecutively, each paragraph containing, as nearly as may be, a separate and distinct statement or allegation, and shall pray specifically for the relief to which the plaintiff may conceive himself entitled, and also for general relief.

The petition must be as brief as may be consistent with a clear statement of the facts on which the prayer is sought to be supported and with information to the defendant of the nature of the claim set up.

Documents must not be unnecessarily set out in the petition in *hæc verba*, but so much only of them as is pertinent and material may be set out or the effect and substance of so much only of them as is pertinent and material may be given, without needless prolixity.

Dates and sums shall be expressed in figures and not in words.

The petition may not contain any statement of the mere evidence by which the facts alleged are intended to be proved, and may not contain any argument of law.

The facts material to the establishment of the plaintiff's right to recover shall be alleged positively, briefly, and as clearly as may be, so as to enable the defendant by his answer either to admit or deny any one or more of the material allegations, or else to admit the truth of any or all of the allegations, but to set forth some other substantive matter in his answer, by reason of which he intends to contend that the right of the plaintiff to recover or to any relief capable of being granted on the petition has not yet accrued, or is released or barred or otherwise gone.

Particulars of Demand.

In what cases.

28. Where the plaintiff's claim is for money payable in respect of any contract, express or implied, or to recover the possession or the value of any goods wrongfully taken and detained or wrongfully detained by the defendant from the plaintiff, it shall be sufficient for the plaintiff to state his claim in the petition in a general form, and to annex to the petition a Schedule stating the particulars of his demand, in any form which shall give the defendant reasonably sufficient information as to the details of the claim.

An application for further or better particulars may be made by the defendant before answer on summons.

Effect of particulars.

The plaintiff shall not at the hearing obtain a decree for any sum exceeding that stated in the particulars, except for subsequent interest and the costs of suit, notwithstanding that the sum claimed in the petition for debt or damages exceeds the sum stated in the particulars.

Amendment.

Particulars of demand shall not be amended except by leave of the Court; and the Court may on any application for leave to amend, grant the same, on its appearing that the defendant will not be prejudiced by amendment. Otherwise the Court may refuse leave or grant the same on such terms as to notice, postponement of trial, or costs, as justice requires.

Variance.

Any variance between the items contained in the particulars and the items proved at the hearing may be amended at the hearing, either at once or on such terms as to notice, adjournment, or costs, as justice requires.

Time.

Where particulars are amended by leave of the Court, or where further or better particulars are ordered to be given, the order shall state the time within which the amendment is to be made or the further or better particulars are to be given; and the order for service of the amended or further or better particulars shall state the time which the defendant is to have to put in his answer.

Papers Annexed.

In what cases.

29. Where the plaintiff seeks (in addition to or without any order for the payment of money by the defendant) to obtain, as against any person, any general or special declaration by the Court of his rights under any contract or instrument,—or to set aside any contract,—or to have any bond, bill, note, or instrument in writing delivered up to be cancelled,—or to restrain any defendant by injunction,—or to have any account taken between himself and any other or others,—and in such other cases as the nature of the circumstances makes it necessary or expedient,—the plaintiff in his petition may refer to and briefly describe any papers or documents on the contents of which he intends to rely, and may annex copies of such papers or documents to the petition, where such papers or documents are brief, or may state any reason for not annexing copies of such papers or documents, or any of them respectively (as, their length, possession of copies by the defendant, loss, inability to procure copies), that he may have to allege. The plaintiff shall, in his petition, offer to allow the defendant to inspect such papers and documents as aforesaid, or such of them as are in his possession or power.

Inspection.

Amendment.

30. Any plaintiff not giving sufficient information to enable the defendant reasonably to understand the nature and particulars of the claim set up against him, may be ordered, on the application of the defendant before answer, to amend his petition. On application of Defendant.

The plaintiff may be ordered to annex copies of, or produce for inspection, such papers or documents in his possession or power as he has referred to in the petition, and as the defendant is entitled to inspect for the purposes of the suit.

The Court may in such cases make such order as to costs as justice requires, and stay proceedings until the order is complied with. Costs.

31. If any petition contains libellous or needlessly offensive expressions, the Court may, either of its own motion before service thereof or on the application of the defendant order the petition to be amended, and make such order as to costs as justice requires. Libellous or offensive expressions.

32. A petition may be amended at any time before answer by leave of the Court, obtained *ex parte*. Amendment on application of Plaintiff.

Notice of the amendment shall be given to the defendant within such time and in such manner as the Court directs.

Equity.

33. Every petition is to be taken to imply an offer to do equity in the matter of the suit commenced by it, and to admit of any equitable defence, and, on the other hand, to enable the plaintiff to obtain at the hearing any such equitable relief as he may appear entitled to from the facts stated and proved, though not specifically asked, if it may be granted without hardship to the defendant. Effect of petition.

Parties.

34. Persons entitled to sue and suing on behalf of others, as guardians, executors, or administrators,—or on behalf of themselves and others, as creditors in a suit for administration,—must state the character in which they sue. Suit on behalf of others.

35. All persons having a joint cause of suit against any defendant ought ordinarily to be parties to the suit. Joint cause of suit.

36. Where the plaintiff has a joint and several demand against several persons, either as principals or as sureties, it is not necessary for him to bring before the Court as parties to a suit concerning such demand all the persons liable thereto, but he may proceed against one or more of the persons severally liable. Joint and several demand.

37. If it appears before or at the hearing that any person not joined as plaintiff or as defendant ought to be so joined,—or that any person joined as plaintiff or as defendant ought not to be so joined,—the Court may order the petition to be amended, with liberty to amend the other pleadings (if any), and on such terms as to time for answering, postponement or adjournment of hearing, and costs, as justice requires. Non-joinder or mis-joinder.

But no person shall be so joined as plaintiff without satisfactory evidence to the Court of his consent thereto.

Nor shall the name of any plaintiff be struck out unless it appears to the satisfaction of the Court either that he was originally joined as plaintiff without his consent, or that he consents to his name being struck out.

38. Where a plaintiff sues any person as agent for some other person, not seeking to fix such agent with any personal liability, the Court, on the fact coming to its knowledge, shall, if the person really sought to be fixed with liability is within the particular jurisdiction, forthwith order his name to be substituted, and stay proceedings until the order is complied with. But if he is not within the particular jurisdiction, shall refuse to proceed further in the matter, unless and until the person sued as agent undertakes, Defendant sued as agent.

by writing under his hand, to defend the suit, and personally to satisfy any decree or order for debt or damages and costs therein.

In the latter case the person sued as agent shall further, within such time as the Court orders and before the hearing of the suit, procure and file with the proceedings a sufficient authority in writing from the party on whose behalf such agent is affecting to act to substitute the name of the principal as defendant for his own, and to defend the suit, or otherwise act in it on behalf of such principal.

Such agent shall not, however, be deemed discharged by such authority and substitution from his personal undertaking and liability to satisfy any decree or order in the suit, such authority and substitution being in all cases strictly required as a protection against collusive decrees which might affect absent persons.

Distinct causes
of suit in one
petition.

39. In case a petition states two or more distinct causes of suit, by and against the same parties, and in the same rights, the Court may either before or at the hearing, if it appears inexpedient to try the different causes of suit together, order that different records be made up, and make such order as to adjournment and costs as justice requires.

In case a petition states two or more distinct causes of suit but not by and against the same parties, or by and against the same parties but not in the same rights, the petition may, on the application of any defendant, be dismissed.

In case such application is made within the time for answer, the petition may be dismissed, with substantial costs to be paid by the plaintiff to the defendant making the application; but in case the application is not made within the time for answer, the petition, when the defect is brought to the notice of the Court, may be dismissed without costs, or on payment of Court fees only, as to the Court seems just.

Defective Petition.

Staying
proceedings.

40. Where a petition is defective on the face of it by reason of non-compliance with any provision of these Rules, the Court may either on application by a defendant, or of its own motion, make an order to stay proceedings until the defect is remedied.

The Court shall, of its own motion, make an order to stay proceedings on a defective petition, where the defect is patent and serious, and comes to the knowledge of the Court before service of the petition on the defendant.

Copies for Service.

Number of
copies.

41. Where there is only one defendant, one copy of the petition, and of any schedule thereto, for service, is to be left with the Court, together with the original; where there are two or more defendants, as many copies as there are parties to be served are to be left, together with the original.

Service of Petition.

Order for
service.

42. The plaintiff on filing his petition must obtain an order for service of it on the defendant.

Every order for service shall specify a reasonable time after service, ordinarily not more than eight days, within which the defendant must put in his answer.

Defence on Ground of Law.

Motion that
petition be
dismissed
without any
answer being
required.

43. Where a defendant conceives that he has a good legal or equitable defence to the petition, so that even if the allegations of fact in the petition were admitted or clearly established, yet the plaintiff would not be entitled to any decree against him (the defendant), he may raise this defence by a motion that the petition be dismissed without any answer being required from him.

The motion paper shall be filed within the time allowed for putting in an answer.

It must state briefly the grounds of law on which the defendant intends to rely at the hearing of the motion.

The motion shall be heard and disposed of at as early a time as may be.

For the purposes of the motion the defendant shall be taken to admit the truth of the allegations of fact in the petition, and no evidence as to matters of fact or discussion of questions of fact shall be admitted at the hearing of the motion.

On hearing the motion the Court shall either dismiss the petition or Order. order the defendant to put in an answer within a short time, to be named in the order, and may give leave to the plaintiff to amend his petition if it appears requisite, and may impose such terms as justice requires.

Where, on the hearing of the motion, any grounds of law are urged Costs. in support of the motion beyond those stated in the motion paper, and the grounds stated therein are disallowed, the defendant shall be liable to pay the same costs as if the motion were wholly refused, although the grounds of law newly urged are allowed, unless the Court thinks fit in any case to order otherwise.

Answer.

44. The defendant may obtain further time for putting in his answer, Further time on summons stating the further time required, and the reasons why it is to answer. required.

The application when made, unless consented to, must be supported by affidavit or by oral evidence on oath, showing that there is reasonable ground for the application, and that it is not made for the purpose of delay.

45. Where a defendant does not put in any answer he shall not be taken as admitting the allegations of the petition, or the plaintiff's right to the relief sought; and at the hearing (even though such defendant does not appear) the plaintiff must open his case, and adduce evidence in support of it, and take such judgment as to the Court appears just. Effect of defendant not answering.

46. A defendant neglecting to put in an answer within the time or further time allowed, shall not be at liberty to put in any answer without leave of the Court. Leave to answer after time allowed.

The Court may grant such leave by order on the *ex parte* application of the defendant at any time before the plaintiff has set down the cause, or applied to have it set down for hearing.

Where the cause has been set down or the plaintiff has applied to have it set down for hearing, the Court shall not grant such leave except on return of a summons to the plaintiff, giving notice of the defendant's application, and on such terms as to costs and other matters as seem just.

47. The answer shall show the nature of the defendant's defence to the claim set up by the petition, but may not set forth the evidence by which such defence is intended to be supported. Form and contents of answer.

It should be clear and precise, and not introduce matter irrelevant to the suit, and the rules before laid down respecting the setting out of documents and the contents of a petition generally shall be observed in answer, *mutatis mutandis*.

It must deny all such material allegations in the petition as the defendant intends to deny at the hearing.

Where the answer denies an allegation of fact, it must deny it directly, and not by way of negative pregnant: (for example) where it is alleged that the defendant has received a sum of money, the answer must deny that he has received that sum or any part thereof, or else set forth what part he has received. And so, where a matter of fact is alleged in the petition with certain circumstances, the answer must not deny it literally as it is alleged, but must answer the point of substance positively and certainly.

The answer must specifically admit such material allegations in the petition as the defendant knows to be true, or desires to be taken as admitted. Such admission, if plain and specific, will prevent the plaintiff from obtaining the cost of proving at the hearing any matters of fact so admitted.

All material allegations of fact admitted by a defendant shall be taken as established against him, without proof thereof by the plaintiff at the hearing. But the plaintiff shall be bound to prove as against each defendant all allegations of fact not admitted by him, or not stated by him to be true to his belief.

The answer must allege any matter of fact not stated in the petition on which the defendant relies in defence,—as establishing, for instance, fraud on the part of the plaintiff, or showing that the plaintiff's right to recover, or to any relief capable of being granted on the petition, has not yet accrued, or is released or barred or otherwise gone.

Effect of answer
at hearing.

48. The answer of a defendant shall not debar him at the hearing from disproving any allegation of the petition not admitted by his answer, or from giving evidence in support of a defence not expressly set up by the answer,—except where the defence is such as, in the opinion of the Court, ought to have been expressly set up by the answer—or is inconsistent with the statements of the answer—or is, in the opinion of the Court, likely to take the plaintiff by surprise, and to raise a fresh issue or fresh issues of fact or law not fairly arising out of the pleadings as they stand, and such as the plaintiff ought not to be then called upon to try.

Specific Answer.

Summons to
compel.

49. Where the defendant does not answer, or puts in an answer amounting only to a general denial of the plaintiff's claim, the plaintiff may apply by summons for an order to compel him to answer specifically to the several material allegations in the petition; and the Court, if such allegations are briefly, positively, separately, and distinctly made, and it thinks that justice so requires, may grant such an order.

Nature of
answer.

The defendant shall, within the time limited by such order, put in his answer accordingly, and shall therein answer the several material allegations in the petition, either admitting or denying the truth of such allegations *seriatim*, as the truth or falsehood of each is within his knowledge, or (as the case may be) stating as to any one or more of the allegations that he does not know whether such allegation or allegations is or are true or otherwise.

The defendant so answering may also set up by such answer any defence to the suit, and may explain away the effect of any admission therein made by any other allegation of facts.

Interrogatories.

In what cases.

50. Where an answer so put in fails substantially to comply with the terms of the order, by reason of any one or more of the material allegations not being either denied or admitted thereby, or not being met by a statement in the answer that the defendant does not know whether such allegation or allegations is or are true or otherwise, the plaintiff may apply to the Court to examine the defendant on written interrogatories; and the Court may, if it sees fit, examine the defendant accordingly on written interrogatories allowed by the Court, and embodying material allegations of the petition in an interrogative form, and may reduce the answers of the defendant to writing.

Such answers shall be taken for the purposes of the suit to be a part of the defendant's answer to the petition.

Oath.

Power of
Court to
require.

51. The Court may, where the circumstances of the case appear to require it, order the defendant to put in an answer on oath.

Tender.

52. A defence alleging tender by the defendant must be accompanied by payment into Court of the amount alleged to have been tendered. Payment into Court.

Set-off.

53. A defence of set-off to a claim for money, whether in debt or in damages, must be accompanied by a statement of particulars of set-off; and if pleaded as a sole defence, unless extending to the whole amount of the plaintiff's claim, must also be accompanied by payment into Court of the amount to which, on defendant's showing, the plaintiff is entitled; and in default of such payment the defendant shall be liable to bear the costs of the suit, even if he succeeds in his defence to the extent of the set-off pleaded. Particulars, Payment into Court, Costs.

Where a defendant in his answer raises a defence by way of set-off, which, in the opinion of the Court, is not admissible as set-off, the Court may either before or at the hearing, on his application, give him liberty to withdraw such defence, and to file a cross petition and may make such order for the hearing of the suit and cross suit together or otherwise, on such terms as to costs and other matters as seem just. Cross suit.

Payment into Court.

54. Payment into Court by the defendant must be accompanied by an answer. The answer must state distinctly that the money paid in is paid in satisfaction of the plaintiff's claim generally, or (as the case may be) in satisfaction of some specific part of the plaintiff's claim, where the claim is stated in the petition for distinct sums or in respect of distinct matters. Answer.

Payment into Court, whether made in satisfaction of the plaintiff's claim generally or in satisfaction of some specific part thereof, operates as an admission of liability to the extent of the amount paid in, and no more, and for no other purpose. Effect.

Where the defendant pays money into Court, the plaintiff shall be at liberty to accept the same in full satisfaction and discharge of the cause of suit in respect of which it is paid in; and in that case the plaintiff may forthwith apply by motion for payment of the money out of Court to him; and on the hearing of the motion the Court shall make such order as to stay of further proceedings in the suit, in whole or in part, and as to costs and other matters, as seems just. Acceptance by plaintiff.

If the plaintiff does not so apply, he shall be considered as insisting that he has sustained damage to a greater amount, or (as the case may be) that the defendant was and is indebted to him in a greater amount than the sum paid in; and in that case the Court, in determining the suit and disposing of costs at the hearing, shall have regard to the fact of the payment into Court having been made and not accepted. Non-acceptance, Costs.

Counter-claim.

55. Where a defendant in his answer raises any specific defence, and it appears to the Court that on such defence being established he may be entitled to relief against the plaintiff in respect of the subject-matter of the suit the Court may, on the application of the defendant, either before or at the hearing, if under the circumstances of any case it thinks fit, give liberty to him to file a counter-claim by a cross-petition in the same suit, asking for relief against the plaintiff, and may make such order for the hearing of the suit and counter-claim together or otherwise, and in such manner and on such terms as to costs and other matters as seem just, and may if in any case it seems fit, require the plaintiff to give security to the satisfaction of the Court (by deposit or otherwise) to abide by and perform the decision of the Court on the counter-claim. Cross petition in same suit.

Proceedings after Answer.

56. No replication or other pleading after answer is allowed except by special leave of the Court. No pleading after answer.

Amendment of
petition after
answer.

57. Where the plaintiff considers the contents of the answer to be such as to render an amendment of the petition necessary or desirable, he may obtain *ex parte* an order to amend the petition on satisfying the Court that the amendment is not intended for the purpose of delay or vexation, but because it is considered to be material for the plaintiff's case.

Notice of the amendment shall be given to the defendant within such time and in such manner as the Court in each case directs.

Settlements of Issue.

Before or at
hearing.

58. At any time before or at the hearing the Court may, if it thinks fit, on the application of any party or of its own motion, proceed to ascertain and determine what are the material questions in controversy between the parties, although the same are not distinctly or properly raised by the pleadings, and may reduce such questions in writing and settle them in the form of issues; which issues when settled may state questions of law on admitted facts, or questions of disputed fact, or questions partly of the one kind and partly of the other.

Amendment of
pleadings.

In settling issues the Court may order or allow the striking out or amendment of any pleading or part of a pleading so that the pleadings may finally correspond with the issues settled, and may order or allow the striking out or amendment of any pleading or part of a pleading that appears to be so framed as to prejudice, embarrass, or delay the trial of the cause.

Application *viva*
voce.

Where the application to the Court to settle issues is made at any stage of the proceedings at which all parties are actually present before the Court, either in person or by counsel or attorney, or at the hearing, the application may be made *viva voce*, and may be disposed of at once, otherwise the application must be made and disposed of on summons.

On summons.

Reference of Account.

In what cases.

59. Where it appears to the Court at any time after suit instituted that the question in dispute relates either wholly or in part to matters of mere account, the Court may, according to the amount of public business pending, either decide such question in a summary way, or order that it be referred either wholly or in part to some person agreed on by the parties, or in case of their non-agreement, appointed by the Court.

Commitment for Disobedience.

what cases.

141. Where any person over whom the Court has jurisdiction is guilty of wilful disobedience to a decree or order, the person prosecuting the decree or order shall be entitled to apply to the Court for an order on the disobedient person to show cause why he should not be punished for the disobedience. The Court, unless it sees good reason to the contrary, shall on such application make an order accordingly.

The Court shall not grant the order except on evidence on oath establishing such a case as, if uncontradicted and unexplained, would justify the immediate commitment of the disobedient person.

A certified copy of the affidavit or deposition on which the order is granted shall be served on the party to whom the order is directed, together with the order, and he may file counter affidavits.

Warrant

142. On the return day of the order, if the person to whom it is directed does not attend, and does not establish a sufficient excuse for not attending, and if the Court is satisfied that the order has been duly served,—or if he attends and does not show cause to the satisfaction of the Court why he should not be punished for the disobedience,—the Court may issue a warrant for his commitment to prison.

The Court may enlarge the time for the return to the order, or may, on the return of it, and under circumstances which would strictly justify the immediate commitment of the person guilty of the disobedience, direct that the warrant for his commitment shall issue only after a certain time and in the event of his continued disobedience at that time to the decree or order in respect of which he has been guilty of disobedience.

Duration of detention.

143. A person committed for disobedience to a decree or order is liable to be detained in custody until he has obeyed the decree or order in all things that are to be immediately performed, and given such security as the Court thinks fit to obey the other parts of the decree or order (if any) at the future times thereby appointed,—or in case of his no longer having the power to obey the decree or order, then until he has been imprisoned for such time or until he has paid such fine as the Court directs.

VI.—INTERLOCUTORY PROCEEDINGS.

Form of interlocutory application.

144. Interlocutory applications may be made at any stage of a suit or proceeding.

They shall be made either by motion or on application for a summons.

Motions.

Motion-paper.

145. Motions must be reduced to writing in the terms of the order sought from the Court; and a motion shall not be entertained until the party moving has filed in the Court a written motion paper distinctly stating the terms of the order sought.

The motion may in its terms ask for an order directing more than one thing to be done, and may also be in an alternative form, asking that one or another order be made, so only that the whole order sought be therein substantially expressed.

If the motion-paper contains any matter by way of argument or other matter except the proper particulars of the motion itself, the Court shall direct the motion-paper to be amended, and shall make no other order

thereon, until it is amended accordingly by the striking out of such argument or other matter.

There shall be filed with the motion-paper all affidavits on which the person moving intends to rely. Evidence.

No other evidence can be used in support of the motion except by leave of the Court.

No paper accompanying the motion-paper other than an affidavit shall be received.

146. The person filing the motion-paper may then either move the Court while sitting, and on such days and at such times, if any, as are by the regulations of the Court appointed for hearing motions,—or in cases of urgency at any time while the Court is sitting, and not engaged in hearing any other matter,—or send a written request to the Court for an order according to the motion-paper, with such argument stated in writing in support of his motion as he thinks fit. 148. On a motion *ex parte* the party moving shall apply for either an immediate absolute order of the Court in the terms of the motion-paper on his own shewing and evidence, or an order to the other party to appear on a certain day and show cause why an order should not be made in the terms of the motion-paper. Application
ex parte.

Any party moving in Court *ex parte* may support his motion by argument addressed to the Court on the facts put in evidence by the affidavits filed in support of the motion; and no party to the suit or proceeding, although present, other than the party moving, shall be entitled to be then heard.

149. On a motion coming on, the Court may allow the motion-paper to be amended. Order on motion.

It may allow additional evidence to be produced by affidavit or deposition.

It may direct the motion to stand over.

It may refuse the motion.

It may make an order in terms of the motion.

Where an immediate order absolute is asked, and the right thereto clearly appears, it may grant such order.

It may grant an order to show cause why the order sought should not be made.

It may allow a motion on notice to be made.

If the motion as originally framed, or as amended, is substantially divisible into two or more parts, it may divide the same, and deal in different ways with the separate parts thereof, as the case may require.

If it appears to the Court on the evidence adduced in support of the motion, or on any additional evidence which the Court permits to be adduced in support thereof, that the party moving is entitled to an order absolute, or to show cause different from the order asked, and the party moving is willing to take such different order, the Court may so order accordingly.

If he is not willing to take such different order, the Court shall refuse the motion.

150. Where an order is made on a motion *ex parte* any party affected by it may, within seven days after service of it, apply to the Court by motion to vary or discharge it, and the Court, on notice to the party obtaining the order, either may refuse to vary or discharge it, or may vary or discharge it with or without imposing terms as to costs or security, or other things, at seems just. Counter affidavit.

A person served with an order to show cause may, before the return day, file affidavits in order to contradict the evidence used in obtaining the order, or setting forth other facts on which he relies, to induce the Court to discharge such order.

Proceedings on return-day.

On the return-day, if the persons served do not appear, in person or by counsel or attorney, and it appears to the Court that the service on all proper parties has not been duly effected, the Court may enlarge the time and direct further service, or make such other order as seems just.

If the persons served appear, or the Court is satisfied that service on all proper parties has been duly effected, the Court may proceed with the matter.

The Court may either discharge the order, or make the same absolute,—or adjourn the consideration thereof—or permit further affidavits to be filed in support of or against the order,—and may modify the terms of the order so as to meet the merits of the case,—and may make the order so modified absolute,—and may, if the order against which cause is shown is substantially divisible into two or more parts, divide the same, and deal in different ways with the separate parts as seems fit; and the Court, as part of its order, may impose terms as to costs or other things on the parties, or any of them, as seems just.

*Summons.***Application for.**

152. An interlocutory application for summons need not be made in writing, but may be made in person either by the applicant himself, or by his counsel or attorney.

The summons shall be headed in the suit or other proceeding.

On the return-day of the summons, if the person to whom the summons is directed attends, or in his absence on proof of service, the Court may, on the application of the person obtaining the summons, consider and deal with the application in a summary way.

The Court shall take a note of the material evidence if taken *viva voce*.

The Court may adjourn the hearing of any summons when necessary.

161. The foregoing Rules apply to suits for 250 dollars or upwards, with respect to which a right of appeal is given by the Order in Council under which these Rules are framed, and shall also be applied, as far as may be, *mutatis mutandis*, in cases where special leave to appeal is applied for to a Provincial or to the Supreme Court. The person filing such a notice shall be warned by a warning in writing under the seal of the Court being delivered at the place mentioned in the notice as the address of the person filing the notice.

After such a notice has been filed in a Provincial Court, or after a copy of such a notice has been received by a Provincial Court (as the case may be), the Provincial Court shall not make a grant of probate or administration, but any grant shall be made only by the Supreme Court, under the immediate direction of the Judge.

Interpretation of "the proper Officer."

203. On receiving an application for probate or for administration with will annexed, the proper officer must inspect the will, and see whether it appears to be signed by the testator, or by some other person in his presence and by his direction, and subscribed by two witnesses, according to the provisions of the Acts of Parliament, 7 Will. 4, & 1 Vict. c. 26 sec. 9, * and 15 & 16 Vict. c. 24 sect. 1,† and in no case may he proceed further if the will does not appear to be so signed and subscribed.

The affidavit must be engrossed and form part of the probate, so that the probate may be a complete document on the face of it.

If on perusal of the affidavit it appears that the will was not in fact executed in accordance with the provisions of the said Acts, the officer must refuse probate.

If on perusal of the affidavit it appears doubtful whether or not the will was in fact executed in accordance with the provisions of the said Acts, the officer must lay a statement of the matter before the Judge of the Supreme Court for his directions.

* "And be it further enacted, that no will shall be valid unless it shall be in writing and executed in manner hereinafter mentioned; (that is to say). It shall be signed at the foot or end thereof by the testator, or by some other person in his presence and by his direction; and such signature shall be made or acknowledged by the testator in the presence of two or more witnesses present at the same time, and such witnesses shall attest and shall subscribe the will in the presence of the testator, but no form of attestation shall be necessary."

† "Whereas by an Act passed in the first year of the reign of Her Majesty Queen Victoria, intituled, 'An Act for the Amendment of the Laws with respect to Wills,' it is enacted, that no will shall be valid unless it shall be signed at the foot or end thereof by the testator, or by some other person in his presence, and by his direction. Every will shall, so far only as regards the position of the signature of the testator, or of the person signing for him as aforesaid, be deemed to be valid within the said enactment, as explained by this Act, if the signature shall be so placed at or after, or following, or under, or besides, or opposite to the end of the will, that it shall be apparent on the face of the will that the testator intended to give effect by such his signature to the writing signed as his will, and that no such will shall be affected by the circumstance that the signature shall not follow or be immediately after the foot or end of the will, or by the circumstance that a blank space shall intervene between the concluding word of the will and the signature, or by the circumstance that the signature shall be placed among the words of the testimonium clause or of the clause of attestation, or shall follow or be after or under the clause of attestation, either with or without a blank space intervening, or shall follow or be after or under or beside the names or one of the names of the subscribing witnesses, or by the circumstance that the signature shall be on a side or page or other portion of the paper or papers containing the will whereon no clause or paragraph or disposing part of the will shall be written above the signature, or by the circumstance that there shall appear to be sufficient space on or at the bottom of the preceding side or page or other portion of the same paper on which the will is written to contain the signature; and the enumeration of the above circumstances shall not restrict the generality of the above enactment; but no signature under the said Act or this Act shall be operative to give effect to any disposition or direction which is underneath or which follows it, nor shall it give effect to any disposition or direction inserted after the signature shall be made."

If both the subscribing witnesses are dead,—or if from other circumstances no affidavit can be obtained from either of them,—resort must be had to other persons (if any) who were present at the execution of the will; but if no affidavit of any such other person can be obtained, evidence on oath must be procured of that fact, and of the handwriting of the deceased and of the subscribing witnesses, and also of any circumstances that may raise a presumption in favour of the due execution of the will.

Will of testator
blind, obviously
illiterate, or
ignorant.

206. The officer shall not allow probate of the will, or administration with the will annexed, of any blind person, or of any obviously illiterate or ignorant person, to issue, unless he has previously satisfied himself, by what appears on the face of the will or by evidence on oath, that the will was read over to the deceased before its execution, or that the deceased had at the time knowledge of its contents.

Where this information is not forthcoming, the officer must communicate with the Judge of the Supreme Court.

Interlineations,
alterations,
erasures, or
obliterations.

207. Having satisfied himself that the will was duly executed, the officer must carefully inspect the same to see whether there are any interlineations or alterations or erasures or obliterations appearing in it, and requiring to be accounted for.

Interlineations and alterations are invalid unless they existed in the will at the time of its execution, or,—if made afterwards, unless they have been executed and attested in the mode required by the said Acts of Parliament,—or unless they have been made valid by the re-execution of the will—or by the subsequent execution of some codicil thereto.

Where interlineations or alterations appear in the will (unless duly executed or recited in or otherwise identified by the attestation clause, an affidavit or affidavits in proof of their having existed in the will before its execution must be filed.

In like manner, erasures and obliterations are not to prevail unless proved to have existed in the will at the time of its execution—or unless the alterations thereby effected in the will are duly executed and attested—or unless they have been made valid by the re-execution of the will, or by the subsequent execution of some codicil thereto.

If no satisfactory evidence is adduced as to the time when the erasures or obliterations were made, and the words erased or obliterated are not entirely effaced, and can, on inspection of the paper, be ascertained, they must form part of the probate.

In every case of words having been erased which might have been of importance an affidavit must be required.

If reasonable doubt exists in regard to any interlineation, alteration, erasure, or obliteration, the officer shall, before proceeding further in the matter, communicate with the Judge of the Supreme Court for his directions.

Deed, paper,
or document
referred to in
a will,

208. Where a will contains a reference to any deed, paper, memorandum, or other document, of such a nature as to raise a question whether it ought or ought not to form a constituent part of the will, the production of the deed, paper, memorandum, or other document must be required, with a view to ascertain whether or not it is entitled to probate; and if not produced the non-production of it must be accounted for by evidence on oath.

Any deed, paper, memorandum, or other document cannot form part of a will or codicil, unless it was in existence at the time when the will or codicil was executed.

or annexed or
attached.

If there are any vestiges of sealing wax or wafers or other marks on the testamentary paper, leading to the inference that some paper, memorandum, or other document has been annexed or attached thereto, they must be satisfactorily accounted for by evidence on oath, or the produc-

tion of such paper, memorandum, or other document must be required; and if not produced, the non-production of it must be accounted for by evidence on oath.

If doubt exists as to whether or not any such deed, paper, memorandum, or other document is entitled to probate as a constituent part of the will, the officer shall, before proceeding further in the matter, communicate with the Judge of the Supreme Court for his directions.

209. The foregoing rules respecting wills apply equally to codicils. Codicils.

210. Every will or copy of a will, or other testamentary paper to which an executor or an administrator with will annexed is sworn, shall be marked by such executor or administrator and by the person before whom he is sworn. Marking of will or copy sworn to.

211. The officer shall take care that the copies of wills to be annexed to probates or letters of administration are fairly and properly written, and to reject those which are not so. Writing of copies.

III.—Administration.

212. The duties of the proper officer in granting administration (not with will annexed) are in many respects the same as in cases of probate. Administration not with will annexed.

He shall ascertain the time and place of the deceased's death, and the value of the property to be covered by the administration.

213. Where an executor appointed in a will survives the testator, but either dies without having taken probate, or being summoned or called on by the Court to take probate does not appear, his right in respect of the executorship wholly ceases, and the representation to the testator and the administration of his effects without further renunciation go, devolve, and may be committed in like manner as if he had not been appointed executor. Executor dying without proving, or not appearing

214. Where administration is applied for by one or some of the next of kin only, there being another or other next of kin equally entitled thereto, the proper officer shall require proof by affidavit that notice of the application has been given to the other next of kin. Notice to next of kin.

215. Every person to whom administration is granted shall give bond with two or more responsible British subjects as sureties, to the Judge of the Supreme Court, to enure in favour of the Judge for the time being, conditioned for duly collecting, getting in, and administering the personal estate of the deceased. Administration bond.

Where, however, the property is under the value of 250 dollars one such surety only need be taken.

The bond shall be in a penalty of double the amount under which the personal estate of the deceased is sworn, unless the proper officer in any case thinks it expedient to reduce the amount, for reasons to be forthwith certified by him to the Judge of the Supreme Court.

The proper officer may also in any case direct that more bonds than one shall be given, so as to limit the liability of any surety to such amount as the officer thinks reasonable.

216. The Judge of the Supreme Court may, on application, in a summary way, and on being satisfied that the condition of any administration bond has been broken, assign the same to some person, who shall thereupon be entitled to sue on the bond in his own name, as if the same had been originally given to him instead of to the Judge of the Supreme Court, and shall be entitled to recover thereon, as trustee for all persons interested, the full amount recoverable in respect of any breach of the condition of the bond. Assignment of an l suit on bond.

X.—ARBITRATION.

217. The following rules respecting arbitration apply exclusively to cases where the agreement for reference to arbitration or submission to arbitration by consent is made a rule of Court. In what cases these rules apply.

- Time of award.** 218. Arbitrators shall make either award within one calendar month after they have entered on the reference, or been called on to act by a notice in writing from any party, unless the document authorizing or making the reference contains a different limit of time.
- Enlargement of time.** 219. The Court may, if it thinks fit, on reasonable notice to all parties, from time to time enlarge the time for making the award for such time as it thinks fit, the reasons for such enlargement being recorded in the minutes of proceedings.
- When umpire may enter on reference.** 220. An umpire may enter on the reference in lieu of the arbitrators, if the latter have allowed their time or their extended time to expire without making an award, or have filed, in the Court, a notice in writing that they cannot agree.
- Revocation of authority.** 221. The authority of an arbitrator or umpire is not revocable except by the Court.
- Special case.** 222. Where it appears to the arbitrators or umpire that any difficult question of law is involved in, or raised by, the facts as finally ascertained by them or him, they or he, may, if it seems fit, state the award (as to the whole or any part thereof) in the form of a special case for the opinion of the Court having jurisdiction in the matter, or of the Supreme Court.
The Court shall consider and deliver judgment on such case, and shall be at liberty to draw inferences of fact from the facts stated, and to amend the case or remit it for amendment by reason of any irregularity, mistake, or imperfection.
- Costs.** 223. The arbitrators or umpire shall have power to award how the costs of the reference shall be borne, in the whole or in part; but any award as to costs shall not preclude the party or parties against whom costs are awarded from applying to the Court to tax the costs; and on such application the costs, including the remuneration (if any) of the arbitrators and umpire, or any of them, shall be taxed at a reasonable rate by the Court, and the Court shall make such order regarding the costs of taxation as justice requires.
- Form and contents of award.** 224. Every award must be in writing, signed by the arbitrators or umpire making the same.
It must contain a conclusive finding, and may not find on the contingency of any matter of fact being afterwards substantiated or disposed to.
It must comprehend a finding on each of the several matters referred.
Arbitrators or an umpire may, however, from time to time make several awards on several parts of a matter or on several matters referred, so as the latest of the awards is made within the time limited.
- Deposit of award.** 225. The arbitrators or umpire making an award shall within the time limited deposit the award in the Court, enclosed in a sealed envelope, and indorsed with the names of the parties to the reference, and the amount claimed by the arbitrator and umpire for remuneration.
- Notice thereof.** Notice of the award having been deposited shall be given by the Court to the parties, who shall be at liberty to read the award, and to have copies of it on payment of the proper fees.
- Application against award.** 226. Any person interested may within seven days after notice of the award apply to the Court by motion to prevent the award, or any specified part of it, being carried into effect.
- Order of Court.** 227. If no such motion is made the Court shall proceed, on reasonable notice to all parties, to make such order for carrying into effect the award or any part thereof, and as to costs and other things as seems just.
- Remitting of matters referred.** 228. The Court shall have power at any time, and from time to time, to remit the matters referred, or any of them, to the reconsideration and redetermination of the arbitrators or umpire, on such terms as to costs and other things as seem just.

229. The Court shall not refrain from carrying an award into effect ^{Irregularity.} merely on the ground of irregularity in the submission, or during the reference, where such irregularity has not been substantially prejudicial to the party applying against the award.

XI.—AFFIDAVITS AND OTHER EVIDENCE.

Affidavits.

230. Every affidavit used in the Court must be either in English or ^{Language.} in the usual and familiar language of the witness swearing it.

An affidavit in any language other than English must be accompanied by a sworn translation into English, procured by and at the expense of the person using the affidavit.

231. Every affidavit, sworn before any British judicial or Consular ^{Form.} officer in China or Japan, in the matter of any suit or other proceeding in Her Majesty's Courts in China and Japan, must be headed in the Court, and in the suit or proceeding in which the affidavit is to be used.

It must state the full name, trade or profession, address and nationality, of the witness.

It may be in the first or in the third person, and may be divided into convenient paragraphs, numbered consecutively.

232. Every affidavit used in the Court must contain only a statement ^{Contents.} of facts and circumstances, to which the witness swears, either on his own personal knowledge, or from information which he believes to be true.

It must not contain any extraneous matter, by way of objection, prayer, or legal argument or conclusion; and every statement must be as brief and positive as may be consistent with proper fulness and with truth.

The matter of fact sworn to, whether in affirmation or denial, if within the knowledge of the witness, must be sworn to positively and certainly.

Where a witness swears to his belief in any matter of fact, such belief arising from any source other than his own personal knowledge, he must set forth explicitly the facts and circumstances forming the ground of his belief.

Where the belief in the truth of the matter of fact sworn to arises from information received from another person, the name of such person must be stated, and such particulars must be given as to the informant, and as to the time, place, and circumstances of the information, as may afford means to other parties to verify or contradict the same.

233. Where an affidavit is to be sworn before a British judicial or Consular officer in China or Japan, any erasure, interlineation, or alteration made before the affidavit is sworn, shall be attested by the officer, who shall affix his signature or initials in the margin immediately opposite to the erasure, interlineation, or alteration. ^{Erasures, interlineations, alterations, bad writing.}

Where there are many erasures, interlineations, or alterations, so that the affidavit proposed to be sworn is illegible, or difficult to read, or is in the judgment of the officer before whom it is proposed to be sworn so written as to give any facility for being added to or in any way fraudulently altered, he may refuse to take the affidavit in its existing form and may require it to be re-written in a clear and legible and unobjectionable manner.

234. An affidavit sworn before any British judicial or Consular officer, ^{Before whom affidavits may be sworn.} authorized to take affidavits,—before any Judge, Officer, or other person in the United Kingdom, or in any British colony or possession, authorized to take affidavits,—before any Mayor or other Magistrate in any foreign country authorized to administer an oath,—or in the case of a foreigner in China or Japan before his own proper Consular or other authority,—may be used in the Court.

235. An affidavit may be used, notwithstanding it is defective in form ^{Affidavit defective in form.} according to these Rules, if the Court is satisfied that it has been sworn

before a person duly authorized, and that its form is in accordance with the law and custom of the place where it is sworn.

**Affidavit sworn
before attorney
in suit.**

236. Any affidavit shall not be admitted which is proved to have been sworn before a person on whose behalf the same is offered, or before his attorney, or before a partner or clerk of his attorney.

**Signature of
witness.**

237. Every affidavit sworn before a British judicial or Consular officer in China or Japan must be signed by the witness; or in case the witness cannot write his name, his mark must be subscribed, such signature or mark to be made in the presence of the officer.

Jurat.

238. The jurat should be written without interlineation or erasure, immediately at the foot of the affidavit, and towards the left side of the paper, and must be signed by the judicial or Consular officer before whom the affidavit is sworn, and be sealed with the seal of the Court of which he is an officer, or with his Consular or other official seal (as the case may be).

It must state the date of the swearing of the affidavit, and the place where it was sworn.

It must state that the affidavit was sworn before the judicial or Consular officer.

Where the witness is blind or illiterate it must state that fact, and that the affidavit was read over to him in the presence of the officer, and that the witness appeared perfectly to understand it.

Where the witness cannot write his name, and therefore subscribes his mark, the jurat must state those facts, and that the mark was made in the presence of the officer.

Where two or more persons join in making an affidavit, their several names must be written in the jurat, and it must appear by the jurat that each of them has been sworn to the truth of the several matters stated by him in the affidavit.

**Alteration and
re-swearing.**

239. The judicial or Consular officer must not allow an affidavit, when once sworn, to be altered in any manner whatever without being re-sworn.

If the jurat has been added and signed, a new jurat must be added if the affidavit is re-sworn; and in the jurat mention must be made of the alteration.

Any officer before whom an affidavit is proposed to be re-sworn after alteration, may refuse to allow the same to be re-sworn and may, in lieu thereof, require the witness to make a fresh affidavit.

Amendment.

240. A defective or erroneous affidavit may be amended and re-sworn, by special leave of the Court in which it is to be used, on such terms as to time, costs, and other things, as seem just.

Costs.

241. Where an affidavit used in the Court is not in accordance with these rules, the Court may make such order respecting the costs of, or connected with, the affidavit as seems just.

**Filing of
original Office
copy.**

242. Before an affidavit is used in the Court, the original affidavit must be filed in the Court; and the original, or an office copy thereof (that is, a copy sealed with the seal of the Court as evidence of its being a correct copy, and either made under the direction of the Court or produced to the Court for examination and sealing), shall alone be recognized for any purpose in the Court.

Other Evidence.

**Vivá voce
evidence on
interlocutory
or other
application.**

243. On the hearing of any interlocutory or other application in a suit or matter, the Court may, if it thinks it just and expedient, for reasons to be recorded in the minutes of proceedings, summon a British subject to attend to produce documents before it, or to be examined, or to be cross-examined, and re-examined, *vivá voce*, by or before it in like manner as at the hearing of a suit.

Such notice as the Court in each case, according to the circumstances, considers reasonable, shall be given to the person summoned, and to such

persons (parties to the suit or proceeding or otherwise interested) as the Court considers entitled to inspect the documents to be produced, or to examine, cross-examine, or re-examine the person summoned or to be present at his examination, cross-examination, or re-examination, as the case may be.

The evidence of a witness on any such examination, cross-examination, or re-examination shall be taken in like manner, as nearly as may be, as evidence at the hearing of a suit.

244. Where the circumstances of the case appear to the Court so to require, for reasons to be recorded in the minutes of proceedings, the Court may, in like manner, take the evidence of any witness at any time in the course of the proceedings, in any suit or application as preparatory to the hearing of the suit or application, and the evidence so taken may be used at the hearing of the suit or application, saving just exceptions.

Vind voce
evidence taken
as preparatory
to hearing.

The evidence shall be taken in like manner, as nearly as may be, as evidence at the hearing of a suit, and then the note of the evidence shall be read over to the witness and tendered to him for signature; and if he refuses to sign it the Court shall add a note of his refusal, and the evidence may be used as if he had signed it.

245. Evidence may be taken in like manner on the application of any person, before suit instituted, where it is shown to the satisfaction of the Court on oath that the person applying has good reason to apprehend that a suit will be instituted against him in the Court, and that some person, within the particular jurisdiction at the time of application, can give material evidence respecting the subject of the apprehended suit, but that he is about to leave the particular jurisdiction, or that from some other cause the person applying will lose the benefit of his evidence if it be not at once taken.

Evidence before
suit instituted.

Witness dead, insane, or not appearing.

246. Where any person who might give evidence in any suit or matter is dead, or insane, or unavoidably absent at the time his evidence might be taken, or for any reason considered sufficient by the Court cannot appear to give evidence in the suit or matter, the Court may, if it thinks fit, receive proof of any evidence given by him in any former judicial proceeding; provided that the subject matter of such former judicial proceeding was substantially the same as that of the existing suit, and that the parties to the existing suit were parties to it or bound by it, and in it had cross-examined or had an opportunity of cross-examining the witness of whose evidence proof is so to be given.

Proof of former
evidence.

Oath.

247. On any occasion the Court may, if it thinks it just and expedient, for reasons to be recorded in the minutes of proceedings, take without oath the evidence of any person objecting on grounds of conscience to take an oath,—the fact of the evidence having been so taken without oath being also recorded in the minutes of proceedings.

Admission of Documents.

248. Where all parties to a suit are competent to make admissions, any party may call on any other party, by notice filed in the Court, and served under order of the Court, to admit any document, saving just exceptions.

Notice to admit.

In case of refusal or neglect to admit, the costs of proof of the document shall be paid by the party refusing or neglecting, whatever be the result of the cause, unless the Court is of opinion that the refusal or neglect to admit was reasonable.

Costs.

No costs of proof of any documents shall be allowed unless such notice has been given, except in cases where the omission to give the notice has in the opinion of the Court produced a saving of expense.

XII.—MISCELLANEOUS PROVISIONS.

Attorneys and Agents.

In whose name,
and how
proceedings to
be taken.

249. Every person doing any act or taking any proceeding in the Court as plaintiff, or otherwise, must do so in his own name and not otherwise, and either by himself, or by his attorney, procurator, or agent thereunto lawfully authorised in writing.

Where the authority is general, or has reference to other matters in which the attorney, procurator, or agent is empowered to act, an authenticated copy of such document may be filed.

How to be
made.

Service of a petition, notice, summons, decree, order, or other document of which service is required by these Rules, or according to the course of the Court, shall be made by an officer of the Court, unless in any case the Court thinks fit otherwise to direct; and service shall not be valid unless it is made under an order of the Court (in writing under the seal of the Court,) which may be either indorsed on or subscribed or annexed to the document to be served.

Personal service.

255. Unless in any case the Court thinks it just and expedient otherwise to direct, service shall be personal,—that is, the document to be served shall, together with the order for service (indorsed, subscribed, or annexed), be delivered into the hands of the person to be served.

Other service.

256. Where it appears to the Court (either with or without any attempt at personal service) that for any reason personal service cannot be conveniently effected, the Court may order that service be effected either—

(i.) by delivery of the document to be served, together with the order for service, to some adult inmate at the usual or last known place of abode or business within the particular jurisdiction of the person to be served; or

- (iv.) by notice put up at the Court, or at some other place of public resort within the particular jurisdiction.

258. Any order for service may be varied from time to time with respect to the mode of service directed by the order, as occasion requires. Variation of order.

261. Where the Court is satisfied by evidence on oath that there is good reason to believe that a defendant means to abscond in order to avoid the process of the Court, after suit or other proceeding instituted, the Court may make an order to hold him to bail, and may require of him such security as seems fit for his remaining within the particular jurisdiction, and abiding by and performing any decree or order to be made in the suit or proceeding, and for costs and fees. Bail.

Costs.

262. The costs of the whole suit and of each particular proceeding therein are in the discretion of the Court; but the Court shall not order the successful party in a suit to pay to the unsuccessful party the costs of the suit generally, although the Court may order him, notwithstanding his success in the whole suit, to pay the costs occasioned by any particular proceeding therein. If a pauper gives or agrees to give any fee, profit, recompense, or reward for the despatch of his business in Court, he shall be deemed guilty of a contempt of Court, and he shall also be forthwith dispaupered, and shall not be afterwards admitted again in that suit to sue or defend *in formâ pauperis*.

or for insufficient

Days.

268. Where by these Rules, or any special order or the course of the Court, any limited time from or after any date or event is appointed or allowed for the doing of any act or the taking of any proceeding, and such time is not limited by hours, the computation of such limited time does not include the day of such date or of the happening of such event but commences at the beginning of the next following day, and the act or proceeding must be done or taken at the latest on the last day of such limited time according to such computation.

Sundays and
holydays, when
not reckoned.

269. Where the limited time so appointed or allowed is less than six days, the following days shall not be reckoned in the computation of such time: namely, Sundays, Good Friday, Monday and Tuesday in Easter week, Christmas Day, and the day before and the day next after Christmas Day.

transmission
of interest or

Adjournment.

Power of Court.

274. Nothing in these Rules shall affect the power of the Court (for reasons to be recorded in the minutes of proceedings) to defer or adjourn the hearing or determination of any suit, matter, proceeding, or application, for such time and on such terms (if any) as justice requires.

Amendment.

Power of Court.

275. Nothing in these Rules shall affect the power of the Court (for reasons to be recorded in the minutes of proceedings) to order or allow any

amendment of any petition, answer, notice, or other document whatever, at any time, on such terms (if any) as justice requires.

Power of Court as to Time.

276. Nothing in these Rules shall affect the power of the Court (for reasons to be recorded in the minutes of proceedings) to enlarge or abridge the time appointed or allowed for the doing of any act or the taking of any proceeding on such terms (if any) as justice requires. Enlargement or abridgement.

277. Where the Court is by these Rules or otherwise authorized to appoint the time for the doing of any act or the taking of any proceeding, or to enlarge the time appointed or allowed for that purpose by these Rules or otherwise—the Court may further enlarge any time so appointed or enlarged by it on such terms (if any) as seem just, provided that the application for further enlargement is made before the expiration of the time already allowed, and that such further enlargement appears to the Court (for reasons to be recorded in the minutes of proceedings) to be required for the purposes of justice, and not to be sought merely for delay. Further enlargement.

Guardian for Purposes of Suit.

278. Where on default made by a defendant in answering or otherwise defending the suit after due service of the petition, it appears to the Court that he is an infant or person of weak or unsound mind (not so found by inquisition), so that he is unable of himself to defend the suit, the Court may, on the application of the plaintiff or of its own motion, appoint some fit person to be guardian of the defendant for the purpose of the suit, by whom he may defend the same. In what cases.

But no such order shall be made except on notice, after expiration of the time for answering, and four days at least before the day named in the notice for the hearing of the application, or for the Court proceeding as the case may be), served on or left at the dwelling-house of the person with whom or under whose care the defendant was at the time of service of the petition, and also, in the case of an infant not residing with or under the care of his father or guardian, served on or left at the dwelling-house of such father or guardian, unless the Court thinks fit in any case to dispense with such last-mentioned service. Notice.

XIII.—CRIMINAL MATTERS.

I.—In General.

279. In the following Rules (under the heading "Criminal Matters") as far as they relate to the Supreme Court, the expression "the Court" means or includes (as the case may require) any officer of, or person attached to, the Supreme Court from time to time authorized to exercise or assist in the exercise of any part of the criminal jurisdiction of that court. In interpretation of "the Court."

280. A person making a criminal charge against another before the Supreme or other Court, must do so in person, or by attorney or counsel, or an agent lawfully thereunto authorised. How charge to be made.

281. In every case, whether the charge is or is not such as must or may be heard and determined in a summary way, the Court shall proceed, if the accused is not already in custody, either by way of summons to him or by way of warrant for his apprehension in the first instance, according to the nature and circumstances of the case require. Summons or warrant.

Summons.

282. For the issuing of a summons the charge need not be put in writing or be sworn to, unless the Court so directs. Form of charge.

A summons shall be served by the delivery of it to the person summoned personally, or if he cannot be conveniently met with, then by its being left at his usual or last known place of abode or business within the particular jurisdiction. Service.

Proof of service. The person effecting service must attend at the time and place mentioned in the summons, to prove service if necessary.

Warrant.

In what cases. 283. If the person summoned does not obey the summons, the Court may (after proof on oath of due service of the summons) issue a warrant for his apprehension.

Notwithstanding the issuing of a summons, a warrant may be issued at any time before or after the time appointed in the summons for the appearance of the accused.

A warrant shall not be issued in the first instance unless the charge is in writing on the oath of the person laying the charge, or of some witness.

A warrant need not be made returnable at any particular time, but may remain in force until executed.

Execution; — It may be executed by the apprehension of the accused at any place within the particular jurisdiction, and in case of fresh pursuit it may be executed at any place in another Consular district, without any application to the Court of that district.

**In another
Consular
district, when.**

Search Warrant.

In what cases. 284. Where positive proof or probable suspicion is shown to the Court by evidence on oath that anything on, by, or in respect of which a crime or offence cognizable by the Court has been committed, is in any house or place over which, by reason of the nationality of the occupier thereof, the Court has jurisdiction, the Court may issue a warrant to search the house or place, and if anything searched for is found, to seize it, and apprehend the occupier of the house or place.

Contents. The warrant shall be directed to some officer by name, who alone shall be entrusted with its execution, but he may be accompanied by any person or persons necessary to assist him in his search.

A general warrant to search shall not be granted, but the particular house or place must be indicated in it.

Force. If the house or place is closed, and the officer is denied admission after demanding admission and disclosing his authority and the object of his visit, it may be forced open.

Day: night. Where there is probable suspicion only, the warrant must be executed in the day time; where there is positive proof, it may be executed in the night time.

Witnesses.

Summons. 285. Where it is shown to the Court, on oath, that any British subject within the particular jurisdiction is likely to give material evidence, either for the prosecution or for the defence, and will not voluntarily attend to give evidence at the preliminary examination, or in summary cases at the hearing of the charge, the Court shall issue a summons for his attendance.

Warrant after summons. 286. If any person summoned does not obey the summons, and does not excuse his failure to the satisfaction of the Court, then (after proof on oath of the service of the summons) the Court may issue its warrant to compel his attendance.

Warrant in first instance. 287. Where it is shown to the Court, on oath, that any British subject within the particular jurisdiction is likely to give material evidence, either for the prosecution or for the defence, and that it is probable he will not attend to give evidence at the preliminary examination or in summary cases at the hearing of the charge, unless compelled to do so, then instead of issuing a summons the Court may issue a warrant in the first instance.

Refusal to take oath or to answer. 288. If on the appearance of the person summoned, either in obedience to a summons, or on being brought up by virtue of a warrant, he refuses to take an oath,—or, having taken an oath, to answer any question put

to him,—and does not excuse his refusal to the satisfaction of the Court, then the Court may, by warrant, commit him to prison, there to remain for not more than seven days, unless he in the meantime consents to answer duly on oath.

Issuing, &c., of Warrant on Sunday or Holiday.

289. A warrant for apprehension or commitment or other purpose^{In what cases,} or a search warrant, may be issued and may be executed on a Sunday, Good Friday, or Christmas Day, as well as on any other day, where the urgency of the case so requires.

II.—PROCEEDINGS BY PRELIMINARY EXAMINATION AND INDICTMENT.

290. The following Rules (under the sub-heading “Proceedings by Preliminary Examination and Indictment”) apply exclusively to cases^{Extent of following Rules.} where the charge is to be heard and determined not in a summary way, but on indictment.

Preliminary Examination.

291. Where the accused comes before the Court on summons or warrant, or otherwise, the Court before committing him to prison for trial, or admitting him to bail, shall, in his presence, take the depositions on oath^{Depositions.} of those who know the facts and circumstances of the case, and shall put the same in writing.

292. The accused shall be at liberty to put questions to any witness produced against him, and the statements of any witness in answer thereto shall form part of that witness’s deposition.^{Questions by accused.}

293. The deposition of each witness shall be read over to the witness, and shall be signed by him.^{Signature of deposition.}

294. If on the trial of the accused it is proved on oath that any person whose deposition has been taken is dead, or is so ill as not to be able to travel, and that his deposition was taken in presence of the accused, and that he or his counsel or attorney cross-examined, or had full opportunity of cross-examining the witness, the deposition may be read as evidence in the prosecution without further proof thereof.^{Witness dead or ill.}

295. No objection at the preliminary examination to any charge, summons, or warrant for any defect in substance or form, or for any variance between it and the evidence adduced on the part of the prosecution, shall be allowed: but if any variance appears to the Court to be such that the accused has been thereby deceived or misled, the Court may, on the request of the accused, adjourn the examination, and in the meantime remand the accused or admit him to bail.^{Variance of evidence.}

Statement of Accused.

296. After the examination of all the witnesses on the part of the prosecution is completed, the Court shall, without requiring the attendance of the witnesses, read over to the accused the depositions taken against him, and shall then say to him these words:^{How to be taken.}

“Having heard the evidence, do you wish to say anything in answer to the charge? You are not obliged to say anything unless you desire so to do so, but whatever you say will be taken down in writing, and may be given in evidence against you on your trial. And I give you clearly to understand that you have nothing to hope from any promise of favour, and nothing to fear from any threat that may have been held out to you to induce you to make any admission or confession of your guilt; but whatever you now say may be given in evidence against you upon your trial, notwithstanding such promise or threat.”

Whatever the accused then says in answer thereto shall be taken down in writing, and shall be read over to him, and shall be kept with the

depositions of the witnesses, and afterwards, on the trial of the accused, the same may be given in evidence against him without further proof thereof.

Confession.

297. Nothing in the foregoing Rules, however, is to prevent the prosecutor from giving in evidence any admission or confession or other statement of the accused made at any time, which would, by law, be admissible as evidence against him.

Publicity.

Examination of this kind not public.

298. The room or place in which the preliminary examination is held is not an open or public Court for that purpose; and the Court may, in its discretion, in case it appears to it that the ends of justice will be best answered by so doing, order that no person have access to, or remain in, the room or place without the special permission of the Court.

Recognizance to Prosecute or give Evidence.

Prosecutor or witnesses to enter into recognizance.

299. The Court may, at the preliminary examination, bind by recognizance the prosecutor and every witness to appear at the Court at which the accused is to be tried, to prosecute, or to prosecute and give evidence, or to give evidence (as the case may be).

A notice of each recognizance shall at the same time be given to the person bound thereby.

If a witness refuses to enter into a recognizance, the Court may, by warrant, commit him to prison, there to remain until after the trial of the accused, unless in the meantime he duly enters into a recognizance.

But if afterwards, from want of sufficient evidence or other cause the accused is not either committed for trial or held to bail, the witness shall be discharged from custody by direction of the Court.

Remand.

In what cases.

300. If from the absence of witnesses or any other reasonable cause the Court considers it necessary or advisable to defer or adjourn the preliminary examination, the Court may, by warrant, from time to time remand the accused for such time as seems reasonable, not exceeding fourteen days, to some prison or other place of security;

Custody during remand.

Or, if the remand is for not more than eight days, the Court may, by word of mouth, order the officer or person in whose custody the accused is, or any other fit officer or person, to continue or keep the accused in his custody, and to bring him up at the time appointed for commencement or continuance of the examination.

During the period of remand the Court may, nevertheless, order the accused to be brought before it.

Instead of detaining the accused in custody during the period of remand the Court may discharge him, on his entering into a recognizance with or without a surety or sureties, as the Court may think fit, for his appearance.

A notice of each recognizance shall at the same time be given to each person bound thereby.

Commitment.

In what cases.

301. When all the evidence adduced at the preliminary examination on the part of the prosecution has been heard, if the Court is of opinion that it is not sufficient to put the accused on his trial, the Court shall forthwith order him, if in custody, to be discharged as to the particular charge in question.

If, on the contrary, the Court is of opinion that the evidence is sufficient to put the accused on his trial, the Court shall either by warrant commit him to prison, there to remain till delivered by due course of law, or admit him to bail.

Bail.

Where discretionary.

302. Where the accused is charged with—
Felony;
Assault with intent to commit felony;

Attempt to commit felony ;
 Obtaining or attempting to obtain property by false pretences ;
 Receiving stolen property, or property obtained by false pretences ;
 Perjury, or subornation of perjury ;
 Concealing the birth of a child by secret burying or otherwise ;
 Wilful or indecent exposure of the person ;
 Riot ;

Assault on a constable or officer of the Court in the execution of his duty, or any person acting in his aid ;

Neglect or breach of duty as a constable or officer of the Court ;
 it shall be in the discretion of the Court to admit him to bail, either in the first instance, instead of committing him to prison for trial, or at any time after his commitment and before trial.

Where the accused is charged with any indictable misdemeanor other than those hereinbefore described, the Court shall ordinarily admit him to bail. Where ordinarily to be taken.

303. A person charged with murder or treason can be admitted to bail by the Judge of the Supreme Court only. In murder or treason.

304. The Judge of the Supreme Court may, on good grounds, admit any person to bail, although the Provincial Court before which the charge is made does not think fit to do so. Power of Judge of Supreme Court.

305. The accused who is to be admitted to bail is to produce such surety or sureties as, in the opinion of the Court, will be sufficient to ensure his appearance at the time and place when and where he is to be tried, and with such surety or sureties to enter into a recognizance accordingly. Form of bail.

A notice of each recognizance is at the same time to be given to each person bound thereby.

Privileges of Accused.

306. At any time after the preliminary examination has been completed, the accused is entitled to have copies of the depositions on which he has been committed for trial, or held to bail, on payment of a reasonable sum, not exceeding sixpence for every one hundred words, or gratis, if the Court so directs. Copies of depositions to accused.

The Court shall, at the time of commitment or of holding to bail, inform the accused of his rights in this respect.

Preparations for Trial.

307. The written charge (if any), the depositions, the statement of the accused, the recognizance of prosecutor and witnesses, and the recognizance of bail (if any) shall be carefully transmitted in proper time to the Court at which the trial is to be held. Transmission of depositions and other documents to Court.

Indictment.

308. A trial before the Judge or an officer of the Supreme Court, with a jury, and the proceedings before and after trial relative thereto, shall be conducted as nearly as may be as a criminal trial before a Judge with a jury and the corresponding proceedings is and are conducted in England. Course of proceedings in trials on indictments.

Other criminal trials, with or without a jury, or with Assessors, and the proceedings before and after trial relative thereto, shall be conducted in like manner, *mutatis mutandis*.

309. In criminal cases to be tried on indictment before the Judge or Assistant Judge of the Supreme Court, whether with or without a jury, the depositions when completed shall forthwith be delivered to the Law Secretary, as prosecutor on behalf of the Crown, who shall thereupon, in person or by some proper representative appointed by him, in any case by writing under his hand, take all proper steps for indicting and bringing to trial the accused, and conduct the prosecution in Court at that trial ; and no such prosecution shall be under the direction or conduct of any private prosecutor. Conduct of prosecution before Supreme Court.

Any private prosecutor may, however, retain any member of the English, Irish, or Scottish Bar, or any regular and duly qualified advocate of foreign nationality, to assist in the prosecution; and such barrister or advocate may, with the assent of the prosecution for the Crown, appear in Court at the trial and take part in the prosecution; but no such prosecution shall be withdrawn or abandoned without the express consent of the Law Secretary, as prosecutor for the Crown, or of his representative, given in open Court.

III.—SUMMARY PROCEEDINGS.

Extent of following Rules. 310. The following Rules (under the sub-heading "Summary Proceedings") apply exclusively to cases where the charge is to be heard and determined not on indictment, but in a summary way.

Hearing.

Non-appearance of prosecutor. 311. Where the accused comes before the Court on summons, or warrant, or otherwise, either originally or on adjournment, then if the prosecutor, having had due notice of the time and place appointed for the hearing or adjourned hearing of the charge, does not appear in person, or by counsel or attorney, the Court shall dismiss the charge, unless for some reason it thinks proper to adjourn or further adjourn the hearing, with or without imposing any terms.

Custody in case of adjournment. 312. In case of adjournment the Court may commit the accused in the meantime to prison, or to such other custody as it thinks fit, or may discharge him on his entering into a recognizance with or without a surety or sureties, at the discretion of the Court, for his appearance at the time and place of adjournment.

A notice of each recognizance is at the same time to be given to each person bound thereby.

Both parties appearing. 313. If both parties appear in person, or by counsel or attorney, the Court shall proceed to hear and finally determine the charge.

Conduct of charge. 314. The prosecutor shall be at liberty to conduct the charge, and to have the witnesses examined and cross-examined by counsel or attorney on his behalf.

Of defence. 315. The accused shall be admitted to make his full answer and defence to the charge, and to have the witnesses examined and cross-examined by counsel or attorney on his behalf; and if he does not employ counsel or attorney, he shall, at the close of the examination of each witness for the prosecution, be asked by the Court whether he wishes to put any questions to the witness.

If he puts any question to a witness, the witness may be re-examined for the prosecution.

Publicity. 316. The room or place in which the Court sits to hear and determine the charge is an open and public Court, to which the public generally may have access as far as the room or place can conveniently contain them.

Admission of charge by accused. 317. The substance of the charge shall be stated to the accused, and he shall be asked if he has any cause to show why he should not to be convicted.

Evidence for prosecution. If he thereupon admits the truth of the charge, and does not show sufficient cause why he should not be convicted, the Court may convict him accordingly.

If he does not admit the truth of the charge, the Court shall proceed to hear the prosecutor and such witnesses as he examines, and such other evidence as he adduces in support of his charge.

Defence. On the termination of the whole evidence in support of the charge, if it appears to the Court that a *prima facie* case is made out against the accused, he shall be asked by the Court if he wishes to say anything, in answer, or has any witnesses to examine or other evidence to adduce in his

defence; and the Court shall then hear the accused and his witnesses and other evidence, if any.

318. If the accused adduces any evidence in his defence, the prosecutor may adduce evidence in reply thereto; but the prosecutor shall not in any case be allowed to make any observations by way of reply to the evidence adduced by the accused, nor shall the accused in any case be allowed to make any observations on evidence by the prosecutor in reply. Evidence in reply.

319. A variance between the charge and the evidence adduced in support of it as to the time at which the alleged crime or offence was committed is not material if it is proved that the charge was in fact made within the time (if any) limited by law for the making thereof. Variance between charge and evidence.

But if any variance between the charge and the evidence appears to the Court to be such that the accused has been thereby deceived or misled, the Court may adjourn the hearing.

Adjournment.

320. At any time before or during the hearing of the charge the Court may, in its discretion, for any good cause recorded in the minutes of proceedings, adjourn the hearing. Hearing may be adjourned in discretion of Court.

An adjournment ordered for any cause shall be made to a certain time and place, to be at the time of the adjournment appointed and stated in the presence and hearing of the parties, or their respective counsel or attorneys.

During the period of adjournment the Court may in its discretion, according to the nature and circumstances of each case, either suffer the accused to go at large or commit him by warrant to such prison or other place of security, or to such other safe custody as the Court thinks fit, or may discharge him on his entering into a recognizance, with or without a surety or sureties, at the discretion of the Court, for his appearance at the time and place of adjournment. Custody during adjournment.

A notice of each recognizance is at the same time to be given to each person bound thereby.

If at any time and place of adjournment of a hearing, which has once begun, the accused does not appear in person or by counsel or attorney, the Court may in its discretion proceed with the further hearing as if the accused were present.

Decision.

321. The Court having heard what each party has to say as aforesaid, and the witnesses, and the evidence adduced, shall consider the whole matter and finally determine the same, and shall either convict the accused or dismiss the charge. Conviction or dismissal.

Conviction.

322. In case of conviction a minute thereof shall be made, and the conviction shall afterwards be drawn up in form, to be preserved among the records of the Court. Minute.

Dismissal.

323. In case of dismissal of the charge the Court may, if it thinks fit, on being requested so to do, make an order of dismissal and give the accused a certificate thereof, which certificate shall on being produced, without further proof, be a bar to any subsequent charge for the same matter against the same person. Certificate.

324. In case of conviction the Court may, in and by the conviction, award and order that the person convicted do pay to the prosecutor such costs as seem just and reasonable, to be specified in the conviction. Costs.

325. In case of dismissal the Court may, in and by the order of dismissal, award and order that the prosecutor do pay to the accused such costs as seem just and reasonable, to be specified in the order of dismissal. On conviction. On dismissal.

Execution of Conviction or Order of Dismissal.

- Imprisonment.** 326. Where a conviction does not adjudge the payment of money, but adjudges that the offender be imprisoned, the Court shall issue a warrant of commitment accordingly.
- Levying of penalty or other moneys.** 327. Where a conviction or order of dismissal adjudges any money to be paid by any person convicted or any prosecutor for penalty, compensation, costs, charges or otherwise, the money to be paid may be levied on the goods of the person adjudged to pay the same by distress and sale under warrant.
- Commitment for want of distress.** 328. If the officer having the execution of the warrant returns that he could find no goods or no sufficient goods whereon to levy the money mentioned in the warrant, together with costs, the Court may by warrant commit the person adjudged to make the payment to prison for not more than two months, unless the money adjudged to be paid, and all costs and charges of the distress, commitment, and conveyance to prison, to be specified in the warrant of commitment, are sooner paid.
- Commitment in lieu of distress** 329. Where it appears to the Court that such distress and sale of goods as aforesaid would be ruinous to the person ordered to pay the money and his family, or (by confession of that person or otherwise) that he has no goods whereon a distress may be levied, then the Court, if it thinks fit, may, instead of issuing a warrant of distress, commit him to prison with or without hard labour, for not more than two months, unless the money adjudged to be paid, and all costs and charges of the commitment and conveyance to prison, to be specified in the warrant of commitment, are sooner paid.
- Payment or tender before distress.** 330. Any person against whom a warrant of distress issues may pay or tender to the officer having the execution of the warrant the sum therein mentioned, together with the amount of the expense of the distress up to the time of such payment or tender, and thereupon the officer shall cease to execute the same.
- Payment after commitment.** 331. Any person committed for non-payment may pay the sum mentioned in the warrant of commitment, together with the amount of costs and charges therein mentioned (if any), to the person in whose custody he is, who shall thereupon discharge him, if he is in custody for no other matter.
- XIV.—APPEAL TO SUPREME COURT IN CRIMINAL CASES.**
- Time in summary cases.** 332. The application for a special case, on summary conviction, shall be made within 48 hours after the sentence.
- Form of application.** 333. The application for a special case shall state shortly the grounds on which the appellant considers the conviction erroneous in point of law, and may contain any argument in support of the appeal, or may include an application that time be allowed for the filing of such an argument, which may be allowed accordingly.
- Time for statement.** 334. The special case, when granted, shall be stated within ten days after application for the same, or after expiration of the time allowed for filing such argument.
- Copy of application.** 335. A copy of the appellant's application for a special case, and of any argument filed by him in support thereof, shall be annexed to the special case.
- Security.** 336. The appellant shall give security to the satisfaction of the Court, by recognizance, deposit, or otherwise, to prosecute the appeal without delay, and to submit to the judgment of the Supreme Court, and to pay any costs awarded against him.
- Discharge from custody.** 337. The appellant, if in custody, shall be liberated on his giving further security to the satisfaction of the Court, by recognizance, deposit, or otherwise, to appear and receive judgment at any appointed time and place, unless the conviction is set aside by the Supreme Court.

338. The prosecutor shall be entitled, on payment of the proper fees, to have a copy of any special case or other documents sent to the Supreme Court on any appeal in a criminal case. Copy of case to prosecutor.

339. In all matters not in these Rules expressly provided for, the procedure of the Supreme Courts and of Justices of the Peace in England in like cases shall, as far as possible, be followed, save that with respect to matters arising under the Admiralty or other special jurisdiction, the procedure of the Court having such jurisdiction in England, shall, as far as possible, be followed. RULES OF PROCEDURE TO BE OBSERVED IN HER MAJESTY'S
SUPREME COURT FOR CHINA AND JAPAN
IN ADMIRALTY.

Whereas it is of urgent necessity that Rules of Procedure in Admiralty causes should be framed for the guidance of suitors, and whereas, by virtue of provisions contained in 26 and 27 Vict., c. 24 ("An Act to facilitate the appointment of Vice-Admiral and officers in Vice-Admiralty Courts in Her Majesty's possessions abroad." &c., &c.), which provisions are, by the 54th section of the China and Japan Order in Council, 1865, extended to the Supreme Court in China and Japan, the said Supreme Court, as a Vice-Admiralty Court, has jurisdiction in (amongst other things) the matters following:—

- (1) Claims for Seamen's wages ;
- (2) Claims for Master's wages, and for his disbursements on account of the ship ;
- (3) Claims in respect of pilotage ;
- (4) Claims in respect of salvage of any ship, or of life or goods therefrom ;
- (5) Claims in respect of towage ;
- (6) Claims for damage done by any ship ;
- (7) Claims in respect of bottomry or respondentia bonds ;
- (8) Claims in respect of any mortgage where the ship has been sold by decree of the Vice-Admiralty Court, and the proceeds are under its control ;
- (9) Claims between the owners of any ship registered in the possession in which the Court is established, touching the ownership, possession, employment, or earnings of such ship ;
- (10) Claims for necessaries supplied, in the possession in which the Court is established, to any ship of which no owners or part owner is domiciled within the possession at the time of the necessaries being supplied ; and
- (11) Claims in respect of the building, equipping, or repairing within any *British* possession of any ship of which no owner or part owner is domiciled within the possession at the time of the work being done ;

It is ordered that, for the regulation of the practice and procedure to be observed in the Supreme Court as a Vice-Admiralty Court, the following Rules shall be established :

1.—All proceedings in Admiralty must be so headed.

NOTE.—Proceedings "in Admiralty" are either *in rem* or *in personam*. Actions *in personam* shall be conducted in the same way as all other actions of a similar nature, according to the Rules of Procedure prevailing in the Supreme Court in matters of Law and Equity. The following outline of procedure will, therefore, be understood to refer only to actions *in rem*, that is against the *Res*, in other words, the subject-matter of the action.

2.—The name and nationality of the ship against which the proceedings are taken must appear, as also that of the master ; and when the owners are known, their names and residences should likewise be given.

NOTE.—To give the Court jurisdiction in claims Nos. 10 and 11 (see above) the fact of the owners not being domiciled within the jurisdiction of the Court should be stated.

3.—Any number of persons having *common interest* may join in one action according to the practice of Admiralty Courts in England ; and there may, in accordance with the same practice, be one action against several *Res*.

NOTE.—Such consolidation of separate claims may likewise be ordered on the application of the defendant, or by the Court of its own motion.

4.—Proceedings *in rem* must be commenced by an application for the arrest of the *Res*. This application must state the nature of the debt or claim and the amount

sought to be recovered (which should include the estimated costs of the suit). It must be supported by an affidavit of all the circumstances which justify its being made, and a fee is to be paid on its being granted.

NOTE.—The application must be filed in triplicate,—one copy for service on the vessel, another for the Court, and the third for service on any party who may appear to the action.

(2) It shall be in the discretion of the Court to require and take security from the applicant for the prosecution of the suit as well as to cover any damages which may be awarded against him, in consequence of the impropriety, frivolity, or maliciousness of the application.

(2) All payments into Court shall be made in such currency and at such exchange as the Court shall direct.

5.—On the application being made in due form, a warrant will issue to the officer of the Court, to arrest the *Res* and cite all persons, having an interest in the subject-matter of the arrest, to appear within a time mentioned in the warrant and answer to the plaintiff in his cause.

6.—The arrest shall be executed by the arresting officer affixing a certified copy of the warrant to the principal mast or to some other conspicuous part of the ship, after having previously read the original warrant to the officer or other person in charge of the vessel.

NOTE.—The warrant extends to the *apparel, appurtenances, &c.*, of the ship, although all or part may have been detached from her and sent on shore. If the entire cargo be still on board the vessel the service on the mast arrests the former as well as the latter, and should the action be against the freight, this latter is considered to be arrested simultaneously with the cargo. But should the cargo have been landed, and deposited in a public or private warehouse, a separate and distinct arrest of it must be made—provided the warehouse be within the jurisdiction of a British Court. In this case, the officer of the Court will affix certified copy of the warrant on such separate cargo, and the like if the cargo has been transhipped to a British ship. But if the warehouseman, or person in charge of the cargo, will not permit access to it, the officer will serve him instead of the *Res* with the warrant, by showing to him the original and leaving with him a copy of it.

(2) The fact of arrest is to be certified by endorsement under the hand of the officer making it.

7.—A person nominated by the Court shall be left in charge of the *Res*.

NOTE.—A fee will be charged on each of the three last named steps (5-7), that is to say, for the warrant, the service and arrest, and expenses connected with and arising out of the custody of ship, &c.

8.—The fact of the arrest and the citation to appear shall be advertised in the usual way.

9.—At any time before the trial of the case, the owner or captain or any one interested in the vessel or in the cargo or freight attached, may come in and give an undertaking to appear or to appear and give bail to the action. Such an undertaking shall operate as a stay of all proceedings for twenty-four hours, after which time, or such extended time as the Court may see fit to grant, if no appearance is entered or no bail given, the proceedings shall continue as if no such undertaking had been given.

NOTE.—If bail—which also implies appearance—be given, the *Res* arrested shall be released, and the action proceed.

(2) If only an appearance is entered, the *Res* shall be detained under arrest.

(3) On bail being tendered and an appearance entered, it shall be competent for the Court to require security for costs.

(4) On tender of bail, it shall be competent for the Court to accept the same, or to call on the petitioner to accept the same, or to make an order for justification of the bail.

10.—A petition shall be filed within three days after the arrest is completed unless a longer time shall on application be allowed by the Court: and such petition shall be served in the same way as the order of arrest, as well as upon any parties who may have appeared in answer to the citation.

11.—The Rules prevailing in the Supreme Court with reference to answers, setting down the cases for hearing, and hearing shall be applicable to causes in the Admiralty.

12.—At any stage of a cause, either party may pray for an appraisalment of the *Res*, and it shall be competent for the Court to order such appraisalment on such terms as to costs and expenses as it sees fit to impose.

13.—All Interlocutory Proceedings and all proceedings before and on the trial of the case, shall, as far as circumstances admit, be conducted in conformity with the General Rules of Procedure in the Supreme Court.

14.—On the cause being heard, the Court shall give judgment and decree the release of the *Res* or—in the event of a decision adverse to the ship, and should no bail have been given in the suit, or no satisfaction of the judgment of the Court be offered by the party (if any) who appeared to defend the suit—the sale thereof. The date at which such sale shall take place, and the manner—whether by public auction or otherwise, as shall seem to the Court most advantageous—shall be specified in the decree of the Court and notified by advertisement.

15.—The proceeds of the sale shall be paid into Court, and therefrom shall the decree or decrees, on a day fixed for the appearance before the Court of the parties interested for the marshalling of their claims, be satisfied; and the surplus shall remain in Court until the person or persons claiming to be entitled thereto shall establish their claim or claims.

NOTE.—It shall be competent for any person, at any period in a suit, to file in Court a petition that he be decreed to share in the proceeds or in the balance thereof; and any proceedings of this description shall be conducted in the same way as such a claim would have been conducted against the Res itself.

16.—It shall be competent for the Court to refer any matter requiring investigation, or having reference to accounts, rate of interest, repairs done to any ship, &c., to the Registrar alone, or to the Registrar assisted by one or two merchants or shipmasters to be appointed by it; and such reference shall take place within ten days from the date of the order therefor. Leave shall, when prayed for by either party, be given to file affidavits and counter-affidavits, provided always that the Judge shall have power to extend the time within which the reference is to take place whenever the filing of affidavits and counter-affidavits necessitates such extension.

Witnesses may be produced before the Registrar, provided four days' notice of an intention to examine them be given; and it shall be optional with the Registrar to permit or refuse to allow the attendance of Counsel or Solicitors at the hearing before him, and no costs shall be allowed for such attendance if the Registrar shall be of opinion that it was unnecessary.

The Report of the Registrar shall be filed within ten days of the hearing before him, and notice of any objection to be made thereto shall be filed by the party making it, within five days of the filing of the Report.

All questions of cost of the reference shall be in the discretion of the Registrar, subject to the decision thereon of the Chief Justice.

17.—In all cases the Court shall apply the English Law as administered in Admiralty Courts in England; and all matters of procedure, not otherwise provided for in these Rules or in the General Rules of Procedure for this Court, shall be governed, as far as may be, by the Rules in force in Her Majesty's High Court of Admiralty.

I.—This Ordinance may be cited for all purposes as “The Hongkong Code of Civil Procedure.”

II.—The following terms and expressions shall be understood as hereinafter defined or explained, unless there be something in the subject or context repugnant to such definition or explanation; that is to say:—

in which the attorney, procurator, or agent is empowered to act, an authenticated copy of such document may be filed.

- (c.) By advertisement in some newspaper circulating within the Colony; or, Advertisement.
- (d.) By notice put up at the Court-house, or at some other place of public resort, or at the usual or last known place of abode or business of the person to be served, within the Colony. Notice affixed.

4.—When the defendant is in the service of the Government the Court may transmit a copy of the document to be served to the head officer of the department in which the defendant is employed, for the purpose of being served on him, if it shall appear to the Court that the document may be most conveniently so served. Service on Government Servants.

Service out of
the Jurisdiction.

8.—The Court may direct service to be made out of the jurisdiction in all cases in which the Court is satisfied by affidavit or otherwise that the suit is limited to a cause of action which arose within the jurisdiction.

Court may
make special
Orders in
respect thereof
[See s.s. 11 &
20.]

9.—In every case in which the Court shall direct service to be made out of the jurisdiction, it shall be lawful for the Court, in its discretion, to fix the time within which an appearance shall be entered by the defendant, and to give any other directions with reference to such service which it may think fit, and to receive any affidavit or statutory declaration of such service having been effected as *prima facie* evidence thereof.

Orders may
be varied.

10.—Any order for service may be varied from time to time with respect to the mode of service directed by the order, as occasion requires.

Expenses of
Service.

11.—Whenever the service of Process by the Sheriff shall be attended with expense, he shall not (except by order of the Court) be bound to effect the same, unless the reasonable expenses thereof shall have been previously tendered to him by the party requiring such service; and such expenses shall be costs in the cause.

Suits to be commenced by Writ of Summons.

Writ of

IX.—Subject to the provisions hereinafter contained as to the institution of special suits and proceedings in certain cases, all suits in the Supreme Court shall be commenced by a general writ of summons to be issued by the Registrar on the filing of *præcipe* for the same.

Its Contents
and by whom

2.—The writ shall be prepared by the plaintiff, or his attorney, and shall specify the name, description, and place of abode of the plaintiff and of the defendant so far as they can be ascertained, the subject matter of the claim, and the relief sought for, and such writ shall be attested in the name of the Chief Justice, and bear date the day whereon the same shall be sued out.

Not to be altered
without Leave.

3.—Any alteration in the writ, without leave of the Court, and without being re-sealed before service, shall render the writ void.

Writ.

4.—In case service of the writ shall not have been effected within six months from the date thereof, the same shall become void: Provided always that the Court may, before the expiration of the then current period, in its discretion, from time to time renew the operation of the writ for a further period not exceeding six months at one time.

Proceedings
by Petition
without Answer.

Appearance.

XI.—The defendant shall within eight days from the day of service upon him of the writ of summons, or in cases of service out of the jurisdiction, within such time as the Court shall have ordered, cause an appearance to the suit to be entered for him in the Supreme Court.

Time for
Appearance.

2.—In all cases of service of a writ of summons out of the jurisdiction, the entry of appearance thereto shall specify the name and address of some attorney, agent, or other person within the jurisdiction on whom substituted service of all further process against the defendant in the suit may be effected while the defendant remains out of the jurisdiction, and in default thereof, the Court may proceed with the suit as if no appearance had been entered.

Further Service
of Proceedings
on absent
Defendant.

Consequences of Non-Appearance

XII.—If the defendant shall fail to enter an appearance within the time hereinbefore limited in that behalf, and it shall be proved to the satisfaction of the Court that the writ was duly served, the Court may give leave to the plaintiff to proceed with the suit *ex parte*. The plaintiff may thereupon file his petition and apply forthwith to have the cause set down for hearing.

Proceedings *ex
parte* on Non-
appearance.

2.—If the defendant enter an appearance at any time before the hearing of the suit, he may, upon such terms as the Court may direct as to the payment of costs or otherwise, be heard in answer to the suit, in like manner as if he had duly entered an appearance within the time limited as aforesaid.

Subsequent
Appearance.

3.—When the cause has been called on, the Court may proceed to hear the same *ex parte*, and may, on the evidence adduced by the plaintiff, give such judgment as appears just; but it shall not be obligatory on the Court to decide *ex parte* in the absence of the defendant and it shall be at the discretion of the Court to issue a warrant to arrest him and detain him till another day appointed for the hearing of the cause, and, in the meanwhile, to attach his property.

Discretion of
the Court as
to proceeding
ex parte.

Writ specially Indorsed.

XIII.—In all cases in which the defendant is within the jurisdiction of the Court, and the claim is for a debt or liquidated demand in money, whether founded on a legal or equitable right, the plaintiff shall be at liberty to make upon the writ of summons and copy thereof a special endorsement of the particulars and amount of his claim and of any interest payable thereon by law or under any contract expressed or implied, and in default of appearance he shall be entitled to judgment for any sum not exceeding the sum indorsed on the writ together with interest, if any, payable thereon as aforesaid, to the date of the judgment, and the amount of the taxed costs: Provided always that the Court may, nevertheless, let in the defendant to defend upon an application, supported by satisfactory affidavits accounting for his non-appearance and disclosing a defence upon the merits.

In what Cases.

Judgment in
Default of
Appearance.

Leave to defend
notwithstanding.

2.—If the defendant has appeared, the plaintiff shall be entitled, upon filing an affidavit verifying the cause of action, and swearing that in his belief there is no defence, to take out a summons to show cause why he should not proceed to judgment and execution, and upon such summons, such order may be made as the justice of the case may require.

Proceedings
in Case of
Appearance.

3.—In like manner, in cases of ordinary account, as in the case of a partnership, or executorship or ordinary trust account, where nothing more is required in the first instance than an account, the writ may be specially indorsed, and in default of appearance, or after appearance, unless the defendant shall satisfy the Court that there is really some preliminary question to be tried, an order for the account, with all usual directions, may be forthwith made.

Cases of
ordinary
Account.

Summary
Order for
Accounts, &c.

4.—It shall also be lawful for the Court, in such cases, on summary application in Chambers or elsewhere, to direct, if it thinks fit, any necessary inquiries or accounts, notwithstanding it may appear that there is some special or further relief sought, or some special matter to be tried, as to which it may be proper that the suit should proceed in the usual manner.

How Firms to
be sued.

Proceedings by or against Partnership Firms.

XIV.—Proceedings by or on behalf of or against a partnership, solely or jointly, must be taken in the several names of the partners as individuals, and not in the name of the firm or otherwise: Provided always that where some of the members of a partnership carrying on business within the Colony are unknown, or are absent from the Colony, every such partnership may be sued in the name of any one or more members thereof within the jurisdiction, and every judgment obtained or order made in any such suit shall have the same effect and operation upon the person and property, both moveable and immoveable, of such partnership and of the several members thereof, whether such property be joint or separate, as if every member of such co-partnership had been actually, and in fact, a defendant in the action, and had been duly served with process, and every such judgment or order may be enforced as in ordinary cases of the like nature.

Guardian for Purpose of Suit.

Powers of Court
as to Infant
Defendants
and Persons of
unsound Mind.

XV.—Where on default made by a defendant in entering an appearance to the suit after due service of the writ of summons, it appears to the Court that he is an infant, or a person of weak or unsound mind (not so found by inquisition), so that he is unable of himself to defend the suit, the Court may, on the application of the plaintiff, or of its own motion, appoint some fit person to be guardian of the defendant for the purpose of the suit, by whom he may defend the same.

Notice and
Mode of Service
thereof.

2.—No such order shall be made except on notice, after expiration of the time for appearance, and four days at least before the day named in the notice for the hearing of the application; such notice shall be left at the dwelling-house of the person with whom or under whose care the defendant was at the time of service of the writ of summons, and also, in the case of an infant not residing with or under the care of his father or guardian, served on or left at the dwelling-house of such father or guardian, unless the Court thinks fit in any case to dispense with such last-mentioned service.

CHAPTER II.—ARREST OF ABSCONDING DEFENDANT—INTERIM
ATTACHMENT—INJUNCTIONS—DETENTION OF SHIPS.

Arrest of Absconding Defendant.

In Suit for
moveable
Property.
[See s. 94.]

XVI.—If in any suit, not being a suit for land or other immoveable property, the defendant is about to leave the jurisdiction of the Court, or has disposed of or removed from the jurisdiction of the Court his property, or any part thereof, the plaintiff may, either at the institution of the suit, or at any time thereafter until final judgment, make an application to the Court that security be taken for the appearance of the defendant to answer any judgment that may be passed against him in the suit.

Application
for Security.

2.—If the Court, after making such investigation as it may consider necessary, shall be of opinion that there is probable cause for believing that the defendant is about to leave its jurisdiction, or that he has disposed of or removed from the jurisdiction of the Court his property, or any part thereof, and that in either case, by reason thereof, the execution of any decree which may be made against him is likely to be obstructed or delayed, it shall be lawful for the Court to issue a warrant to the sheriff enjoining him to bring the defendant before the Court that he may

Defendant.

show cause why he should not give good and sufficient bail for his appearance.

3.—If the defendant fail to show such cause, the Court shall order him to give bail for his appearance at any time when called upon while the suit is pending, and until execution or satisfaction of any decree that may be passed against him in the suit; and the surety or sureties shall undertake, in default of such appearance, to pay any sum of money that may be adjudged against the defendant in the suit, with costs. Bail for Appearance.

4.—Should a defendant offer, in lieu of bail for his appearance, to deposit a sum of money, or other valuable property, sufficient to answer the claim against him, with the costs of the suit, the Court may accept such deposit. Deposit in lieu of Bail.

5.—In the event of the defendant neither furnishing security nor offering a sufficient deposit, he may be committed to custody until the decision of the suit, or if judgment be given against the defendant, until the execution of the decree, if the Court shall so order. Committal in Default.

6.—If it shall appear to the Court that the arrest of the defendant was applied for on insufficient grounds, or if the suit of the plaintiff is dismissed, or judgment is given against him by default or otherwise, and it shall appear to the Court that there was no probable ground for instituting the suit, the Court may (on the application of the defendant) award against the plaintiff such amount, not exceeding the sum of one thousand dollars, as it may deem a reasonable compensation to the defendant for any injury or loss which he may have sustained by reason of such arrest: Provided that the Court shall not award a larger amount of compensation under this Section than it is competent to such Court to decree in an action for damages. An award of compensation under this section shall bar any suit for damages in respect of such arrest. Compensation for needless Arrest.

Interim Attachment of his Property.

XVII.—If the defendant, with the intent to obstruct or delay the execution of any decree that may be passed against him, is about to dispose of his property, or any part thereof, or to remove any such property from the jurisdiction of the Court, the plaintiff may apply to the Court, either at the time of the institution of the suit or any time thereafter until final judgment, to call upon the defendant to furnish sufficient security to fulfil any decree that may be made against him in the suit, and on his failing to give such security, to direct that any property, moveable or immoveable, belonging to the defendant, shall be attached until the further order of the Court. In what Cases

2.—The application shall contain a specification of the property required to be attached, and the estimated value thereof, so far as the plaintiff can reasonably ascertain the same; and the plaintiff shall, at the time of making the application, declare that to the best of his information and belief, the defendant is about to dispose of or remove his property with such intent as aforesaid. Application thereof.

3.—If the Court, after making such investigation as it may consider necessary, shall be satisfied that the defendant is about to dispose of or remove his property, with intent to obstruct or delay the execution of the decree, it shall be lawful for the Court to issue a warrant to the sheriff, commanding him to call upon the defendant, within a time to be fixed by the Court, either to furnish security in such sum as may be specified in the order, to produce and place at the disposal of the Court when required the said property, or the value of the same, or such portion thereof as may be sufficient to fulfil the decree, or to appear and show cause why he should not furnish security. The Court may also in the warrant direct the attachment until further order of the whole or any portion of the property specified in the application. Form of Warrant.

Where Defendant fails to show Cause

4.—If the defendant fail to show such cause or to furnish the required security within the time fixed by the Court, the Court may direct that the property specified in the application, if not already attached, or such portion thereof as shall be sufficient to fulfil the decree, shall be attached until further order. If the defendant show such cause or furnish the required security, and the property specified in the application, or any portion of it shall have been attached, the Court shall order the attachment to be withdrawn.

How made.

5.—The attachment shall be made according to the nature of the property to be attached, in the manner hereinafter prescribed for the attachment of property in execution of a decree for money.

Rights of third Parties and Claims to Property attached.

6.—The attachment shall not affect the rights of persons not parties to the suit, and in the event of any claim being preferred to the property attached before judgment, such claim shall be investigated in the manner hereinafter prescribed for the investigation of claims to property attached in execution of a decree for money.

Removal of attachment.

7.—In all cases of attachment before judgment, the Court shall at any time remove the same, on the defendant furnishing security as above required, together with security for the costs of the attachment.

Compensation for needless Attachment

8.—If it shall appear to the Court that the attachment was applied for on insufficient grounds, or if the suit of the plaintiff is dismissed, or judgment is given against him by default or otherwise, and it shall appear to the Court that there was no probable ground for instituting the suit, the Court may (on the application of the defendant) award against the plaintiff such amount, not exceeding the sum of one thousand dollars, as it may deem a reasonable compensation to the defendant for the expense or injury occasioned to him by the attachment of his property: Provided that the Court shall not award a larger amount of compensation under this section than it is competent to such Court to decree in an action for damages. An award of compensation under this section shall bar any suit for damages in respect of such attachment.

Limit thereof.

Injunctions

To stay Waste, Damage, or Alienation.

XVIII.—In any suit in which it shall be shown to the satisfaction of the Court that any property which is in dispute in the suit is in danger of being wasted, damaged, or alienated by any party to the suit, it shall be lawful for the Court to issue an injunction to such party, commanding him to refrain from doing the particular act complained of, or to give such other order for the purpose of staying and preventing him from wasting, damaging, or alienating the property, as to the Court may seem meet, and in all cases in which it may appear to the Court to be necessary for the preservation or the better management or custody of any property which is in dispute in a suit, it shall be lawful for the Court to appoint a receiver or manager of such property, and, if need be, to remove the person in whose possession or custody the property may be from the possession or custody thereof, and to commit the same to the custody of such receiver or manager, and to grant to such receiver or manager all such powers for the management or the preservation and improvement of the property and the collection of the rents and profits thereof, and the application and disposal of such rents and profits, as to the Court may seem proper.

Appointment of Receiver or Manager.

To restrain Breach of Contract or Repetition or Continuance of Breach.

2.—In any suit for restraining the defendant from the committal of any breach of contract or other injury, and whether the same be accompanied by any claim for damages or not, it shall be lawful for the plaintiff, at any time after the commencement of the suit, and whether before or after judgment, to apply to the Court for an injunction to restrain the defendant from the repetition or the continuance of the breach of contract or wrongful act complained of, or the committal of any breach of contract or injury of a like kind arising out of the same contract or relating to the

same property or right: and such injunction may be granted by the Court on such terms as to the duration of the injunction, keeping an account, giving security, or otherwise, as to the Court shall seem reasonable and just, and in case of disobedience, such injunction may be enforced by imprisonment in the same manner as a decree for specific performance: Provided always that any order for an injunction may be discharged or varied, or set aside by the Court, on application made thereto by any party dissatisfied with such order.

3.—The Court may in every case before granting an injunction direct such reasonable notice of the application for the same to be given to the opposite party as it shall see fit. Notice of Application.

4.—If it shall appear to the Court that the injunction was applied for on insufficient grounds, or if the claim of the plaintiff is dismissed, or judgment is given against him by default or otherwise, and it shall appear to the Court that there was no probable ground for instituting the suit, the Court may (on the application of the defendant) award against the plaintiff such sum, not exceeding one thousand dollars, as it may deem a reasonable compensation to the defendant for the expense or injury occasioned to him by the issue of the injunction: Provided that the Court shall not award a larger amount of compensation under this section than it is competent to such Court to decree in an action for damages. An award of compensation under this section shall bar any suit for damages in respect of the issue of the injunction. Compensation for needless Issue of Injunction.
Limit thereof

Detention of Ships.

XIX.—Where the extreme urgency or other peculiar circumstances of the case appear to the Court so to require, it shall be lawful for the Court on the application of any plaintiff or of its own motion, by warrant under the seal of the Court, to stop the clearance or to order the arrest and detention by the sheriff of any ship about to leave the colony (other than a ship enjoying immunity from civil process) and such clearance shall be stopped or the ship arrested and detained accordingly: Provided always that no such warrant shall be issued at the instance of any plaintiff unless the application for the issue thereof shall be supported by an affidavit of the facts. In what Cases.
Application for Warrant.

2.—If it shall appear to the Court that the warrant was applied for on insufficient grounds, or if the suit of the plaintiff is dismissed, or judgment is given against him by default or otherwise, and it shall appear to the Court that there was no probable ground for instituting the suit, the Court may award against the plaintiff such amount, not exceeding the sum of one hundred dollars, as it may deem a reasonable compensation for the expense or injury occasioned by the issue of the warrant, and such compensation shall be paid to such parties as the Court shall direct: Provided that the Court shall not award a larger amount of compensation under this section than it is competent to such Court to decree in an action for damages. An award of compensation under this section shall bar any suit for damages in respect of such detention of a ship. Compensation for needless Issue thereof.
Limit thereof.

3.—The Court may at any time release a ship detained under this section upon such terms as it shall deem reasonable. Release of Ship.

CHAPTER III.—RELIEF FROM ADVERSE CLAIMS—DEATH, MARRIAGE, OR BANKRUPTCY OF PARTIES. Interpleader.

Relief from Adverse Claims.

XX.—Upon application made on behalf of any defendant, and supported by affidavit showing that such defendant does not claim any interest in the subject matter of the suit, but that the right thereto is claimed, or

supposed to belong to some other party who has sued or is expected to sue for the same, and that such defendant does not in any manner collude with such other party, but is ready to bring into Court, or to pay or dispose of the subject matter of the suit in such manner as the Court or any judge thereof may direct, it shall be lawful for the Court in all suits or proceedings whatsoever, and although the titles of the claimants have not a common origin, but are adverse to and independent of one another, to make rules and orders calling upon such other party to appear and to state the nature and particulars of his claim, and maintain or relinquish the same, and if he maintains it, to make himself defendant in the same suit; or with the consent of the plaintiff and such other party, may dispose of the question between them in a summary manner. The sheriff may obtain relief under this section if the adverse claimants have given him notice of their claims, though none of them may have commenced proceedings.

Death of Parties.

When Suit not abated.

XXI.—The death of a plaintiff or defendant shall not cause the suit to abate if the cause of action survive.

When Cause of Action survives.

2.—If there be two or more plaintiffs or defendants, and one of them die, and if the cause of action survive to the surviving plaintiff or plaintiffs alone, or against the surviving defendant or defendants alone, the suit shall proceed at the instance of the surviving plaintiff or plaintiffs, and against the surviving defendant or defendants.

When Cause of Action accrues to Survivors, &c.

3.—If there be two or more plaintiffs, and one of them die, and if the cause of action shall not survive to the surviving plaintiff or plaintiffs alone, but shall survive to them and the legal representative of the deceased plaintiff jointly, the Court may, on the application of the legal representative of the deceased plaintiff, enter the name of such representative in the register of the suit in the place of such deceased plaintiff and the suit shall proceed at the instance of the surviving plaintiff or plaintiffs, and such legal representative of the deceased plaintiff. If no application shall be made to the Court by any person claiming to be the legal representative of the deceased plaintiff, the suit shall proceed at the instance of the surviving plaintiff or plaintiffs; and the legal representative of the deceased plaintiff shall be interested in and shall be bound by the judgment given in the suit, in the same manner as if the suit had proceeded at his instance conjointly with the surviving plaintiff or plaintiffs.

Death of sole or surviving Plaintiff.

4.—In case of the death of a sole plaintiff, or sole surviving plaintiff, the Court may, on the application of the legal representative of such plaintiff, enter the name of such representative in the place of such plaintiff in the register of the suit, and the suit shall thereupon proceed; if no such application shall be made to the Court within what it may consider a reasonable time by any person claiming to be the legal representative of the deceased sole plaintiff or sole surviving plaintiff, it shall be competent to the Court to make an order that the suit shall abate, and to award to the defendant the reasonable costs which he may have incurred in defending the suit, to be recovered from the estate of the deceased sole plaintiff or surviving plaintiff; or the Court may, if it think proper, on the application of the defendant, and upon such terms as to costs as may seem fit, make such other order for bringing in the legal representative of the deceased sole plaintiff or surviving plaintiff, and for proceeding with the suit in order to a final determination of the matters in dispute, as may appear just and proper in the circumstances of the case.

Dispute as to legal Representative.

5.—If any dispute arise as to who is the legal representative of a deceased plaintiff, it shall be competent to the Court either to stay the suit until the fact has been duly determined in another suit, or to decide at or before the hearing of the suit who shall be admitted to be such legal representative for the purpose of prosecuting the suit.

6.—If there be two or more defendants, and one of them die, and the cause of action shall not survive against the surviving defendant or defendants alone, and also in case of the death of a sole defendant, or sole surviving defendant, where the action survives, the plaintiff may make an application to the Court, specifying the name, description, and place of abode of any person whom the plaintiff alleges to be the legal representative of such defendant, and whom he desires to be made the defendant in his stead; and the Court shall thereupon enter the name of such representative in the register of the suit in the place of such defendant, and shall issue an order to him to appear on a day to be therein mentioned to defend the suit; and the case shall thereupon proceed in the same manner as if such representative had originally been made a defendant, and had been a party to the former proceedings in the suit.

Death of one
of several
Defendants or
of a sole or
surviving
Defendant.

Marriage of Parties.

XXII.—The marriage of a female plaintiff, or defendant, shall not cause the suit to abate, but the suit may notwithstanding be proceeded with to judgment, and the decree thereupon may be executed upon the wife alone; and if the case is one in which the husband is by law liable for the debts of his wife, the decree may, by leave of the Court, be executed against the husband also; and in case of judgment for the wife, execution of the decree may, by leave of the Court, be issued upon the application of the husband, where the husband is by law entitled to the money or thing which may be the subject of the decree.

When not to
abate the Suit.

Bankruptcy of Parties.

XXIII.—The bankruptcy of the plaintiff in any suit which the assignee might maintain for the benefit of the creditors, shall not be a valid objection to the continuance of such suit, unless the assignee shall decline to continue the suit and to give security for the costs thereof within such reasonable time as the Court may order; if the assignee neglect or refuse to continue the suit, and to give such security within the time limited by the order, the defendant may, within eight days after such neglect or refusal, plead the bankruptcy of the plaintiff as a reason for abating the suit.

When not to
abate the Suit.

CHAPTER IV.—THE PETITION.

Form and Contents.

XXIV.—After the appearance of the defendant to the suit, or in case of non-appearance, then, by leave of the Court, the plaintiff may file in the Supreme Court a petition which shall contain the names, description, and place of abode of the plaintiff and of the defendant, so far as they can be ascertained, and shall correspond in those particulars with the writ of summons.

To correspond
with Writ of
Summons.

2.—The petition shall then set out by way of narrative the material facts, matters, and circumstances on which the plaintiff relies, such narrative being divided into paragraphs numbered consecutively, and each paragraph containing, as nearly as may be, a separate and distinct statement or allegation. The petition shall pray specially for the relief to which the plaintiff may conceive himself entitled, and also for general relief.

To be in nar-
rative Form
and divided into
Paragraphs.

3.—The petition must be as brief as may be consistent with a clear statement of the facts on which the prayer is sought to be supported, and with information to the defendant of the nature of the claim set up.

Nature of
Claim set up.

4.—Documents must not be unnecessarily set out in the petition *in hæc verba*, but so much only of them as is pertinent and material may be set out, or the effect and substance of so much only of them as is pertinent and material may be given, without needless prolixity.

Documents
how to be set
out.

5.—Dates and sums shall be expressed in figures and not in words.

Dates and
Sums.

Not to contain
Evidence or
Argument.

6.—The petition may not contain any statement of the mere evidence by which the facts alleged are intended to be proved, and may not contain any argument of law.

Material Facts
to be briefly
and clearly
set out.

7.—The facts material to the establishment of the plaintiff's right to recover shall be alleged positively, briefly, and as clearly as may be, so as to enable the defendant by his answer either to admit or deny any one or more of the material allegations, or else to admit the truth of any or all of the allegations, but to set forth some other substantive matter in his answer, by reason of which he intends to contend that the right of the plaintiff to recover, or to any relief capable of being granted on the petition, has not yet accrued, or is released or barred or otherwise gone.

Counsel's
Signature.

8.—Subject to any general rule or order relating thereto, the petition must be signed by the plaintiff or his counsel in all cases unless the plaintiff obtain the leave of the Court to dispense with such signature.

Verification of
Petition.

9.—The Court may, where the circumstances of the case appear to require it, order the plaintiff to verify his petition, or any part thereof, on oath or by affidavit.

Schedule of

Particulars of Demand.

XXV.—Where the plaintiff's claim is for money payable in respect of any contract, express or implied, or to recover the possession or the value of any goods wrongfully taken and detained, or wrongfully detained by the defendant from the plaintiff, it shall be sufficient for the plaintiff to state his claim in the petition in a general form, and to annex to the petition a schedule stating the particulars of his demand in any form which shall give the defendant reasonably sufficient information as to the details of the claim.

Application
for further
Particulars.
Effect thereof.

2.—An application for further or better particulars may be made by the defendant before answer, on summons.

3.—The plaintiff shall not at any hearing obtain a judgment for any sum exceeding that stated in the particulars, except for consequent interest and the costs of suit, notwithstanding that the sum claimed in the petition for debt or damages exceeds the sum stated in the particulars.

Amendment
thereof before
Trial.

4.—Particulars of demand shall not be amended except by leave of the Court; and the Court may, on any application for leave to amend, grant the same on its appearing that the defendant will not be prejudiced by the amendment. Otherwise the Court may refuse leave, or grant the same on such terms as to notice, postponement of trial, or costs, as justice requires.

Amendment
thereof at
Trial.

5.—Any variance between the items contained in the particulars and the items proved at the hearing may be amended at the hearing either at once or on such terms as to notice, adjournment, or costs as justice requires.

Limit of Time
for amending.

6.—Where particulars are amended by leave of the Court, or where further or better particulars are ordered to be given, the order shall state the time within which the amendment is to be made, or the further or better particulars are to be given; and the order for the amendment or further or better particulars shall state the time which the defendant is to have to put in his answer.

Papers Annexed.

In what Cases.

XXVI.—Where the plaintiff seeks (in addition to or without any order for the payment of money by the defendant) to obtain, as against any person, any general or special declaration by the Court of his rights under any contract or instrument, or to set aside any contract, or to have any bond, bill, note or instrument in writing delivered up to be cancelled, or to restrain any defendant by injunction, or to have any account taken between himself and any other or others, and in such other cases as the nature of the circumstances makes it necessary or expedient, the plaintiff in his petition may refer to and briefly describe any papers or documents

on the contents of which he intends to rely, and may annex copies of such papers or documents to the petition, where such papers or documents are brief, or may state any reason for not annexing copies of such papers or documents, or any of them respectively (as, their length, possession of copies by the defendant, loss, inability to procure copies), that he may have to allege. The plaintiff shall, in his petition, offer to allow the defendant to inspect such papers and documents as aforesaid, or such of them as are in his possession or power.

Copies.

Offer to allow inspection.

Equitable Relief and Defence.

XXVII.—Every petition is to be taken to imply an offer to do equity in the matter of the suit and to a limit of any equitable defence, and, on the other hand, to enable the plaintiff to obtain at the hearing any such equitable relief as he may appear entitled to from the facts stated and proved, though not specifically asked, if it may be granted without hardship to the defendant.

May be granted though not specifically asked.

Parties.

XXVIII.—Persons entitled to sue and suing on behalf of others, as guardians, executors, or administrators, or on behalf of themselves and others as creditors in a suit for administration, must state the characters in which they sue.

Must state character in which they sue.

2.—All persons having a joint cause of suit against any defendant ought ordinarily to be parties to the suit.

Joint cause of suit.

3.—Where the plaintiff has a joint and several demand against several persons, either as principals or as securities, it shall not be necessary for him to bring before the Court as parties to a suit concerning such demand all the persons liable thereto, but he may proceed against one or more of the persons severally liable.

Joint and several demand.

4.—If it appear to the Court, at or before the hearing of a suit, that all the persons who may be entitled to, or who claim some share or interest in the subject matter of the suit, and who may be likely to be affected by the result, have not been made parties to the suit, the Court may adjourn the hearing of the suit to a future day to be fixed by the Court, and direct that such persons shall be made either plaintiffs or defendants in the suit, as the case may be. In such case, the Court shall issue a notice to such persons in the manner provided in the code for the service of a writ of summons on a defendant, and on proof of due service of such notice, the person so served, whether he shall have appeared or not, shall be bound by all proceedings in the cause.

Persons not before the Court may be made Parties.

Notice to such Persons.

5.—In case a petition states two or more distinct causes of suit, by and against the same parties, and in the same rights, the Court may, either before or at the hearing, if it appears inexpedient to try the different causes of suit together, order that different records be made up, and make such order as to adjournment and costs as justice requires.

Distinct Causes of suit in one Petition.

6.—In case a petition states two or more distinct causes of suit, but not by and against the same parties, or by and against the same parties but not in the same rights, the petition may, on the application of any defendant, be amended or dismissed.

Misjoinder of Suits.

XXIX.—As soon as practicable after the filing of the petition, the plaintiff shall cause a copy thereof under the seal of the Court to be served upon every defendant to the suit, and such copy shall contain a memorandum endorsed thereon requiring the defendant to file an answer to the petition within ten days from the day of such service, or in cases of service out of the jurisdiction, within such time as the Court shall have ordered: Provided always that no such service of the petition shall be required to be made upon any defendant who has failed to enter an appearance and as against whom the plaintiff has obtained the leave of the Court to proceed with his suit *ex parte*.

Where Defendant has appeared.

Where Defendant has not appeared.

Where Service
made out of
Jurisdiction.

2.—Where service of the writ of summons is directed to be made out of the jurisdiction, the Court may order that the petition be filed forthwith, and that a copy thereof under the seal of the Court be served upon the defendant concurrently with the writ.

Staying Proceedings for Defect in Petition.

On Application
of Defendant.

XXX.—Where a petition is defective on the face of it by reason of non-compliance with any provision of the code, the Court may, either on application by a defendant or of its own motion, make an order to stay proceedings until the defect is remedied.

Where Defect
is patent.

2.—The Court may, of its own motion, make an order to stay proceedings on a defective petition, where the defect is patent and comes to the knowledge of the Court before service of the petition on the defendant.

Dismissal of Petition on Ground of Law.

Demurrer.

XXXI.—Where a defendant conceives that he has a good legal or equitable defence to the petition, so that even if the allegations of fact in the petition were admitted or clearly established, yet the plaintiff would not be entitled to any decree against him (the defendant), he may raise this defence by a motion that the petition be dismissed without any answer being required from him.

Amendment of Petition.

For insufficient
Particulars.

XXXII.—Any plaintiff not giving sufficient information to enable the defendant reasonably to understand the nature and particulars of the claim set up against him, may be ordered, on the application of the defendant before answer, to amend his petition.

Documents
referred to.

2.—The plaintiff may be ordered to annex copies of, or produce for inspection, such papers or documents in his possession or power as he has referred to in the petition, and as the defendant is entitled to inspect for the purposes of the suit.

Costs.

3.—The Court may, in such cases, make such order as to costs as justice requires, and stay proceedings until the order is complied with.

Libellous or
offensive
Expressions.

4.—If any petition contains libellous or needlessly offensive expressions, the Court may, either of its own motion before service thereof or on the application of the defendant, order the petition to be amended, and make such order as to costs as justice requires.

Amendment
before Answer.

5.—A petition may be amended at any time before answer by leave of the Court obtained *ex parte*.

Notice thereof.

6.—Notice of the amendment shall be given to the defendant within such time and in such manner as the Court directs.

CHAPTER V.—THE ANSWER—REPLICATION—INTERROGATORIES—
SETTLEMENT OF ISSUES.

Form and Contents.

Time within
which to be
filed.

XXXIII.—Unless an answer shall be dispensed with by leave of the Court, or by consent of parties, or in certain cases by any general rule or order of Court, the defendant must file in the Court an answer to the petition within ten days from the date of the service thereof, or in cases of service out of the jurisdiction within such time as the Court shall have ordered: Provided always that he may obtain further time to answer, on summons, stating the further time required and the reason why it is required.

Application for
further Time.

2.—The application when made, unless consented to, must be supported by affidavit, or, if the Court in its discretion shall permit, by oral evidence on oath, showing that there is reasonable ground for the application and that it is not made for the purpose of delay.

Effect of
Defendant not
answering.

3.—Where a defendant does not put in any answer (or such answer is dispensed with in manner aforesaid), he shall not be taken as admitting the allegations of the petition, or the plaintiff's right to the relief sought;

and at the hearing (even though such defendant does not appear) the plaintiff must open his case, and adduce evidence in support of it, and take such judgment as to the Court appears just.

4.—A defendant neglecting to put in an answer within the time or further time allowed, shall not be at liberty to put in an answer without leave of the Court, or consent of parties. Leave to answer after Time allowed.

5.—The Court may grant such leave by order on the *ex parte* application of the defendant at any time before the plaintiff has set down the cause, or applied to have it set down, for hearing. When granted *ex parte*.

6.—Where the cause has been set down, or the plaintiff has applied to have it set down for hearing, the Court shall not grant such leave except on return of a summons to the plaintiff giving notice of defendant's application, and on such terms as to costs and other matters as seem just. When Summons required.

7.—The answer shall show the nature of the defendant's defence to the claim set up by the petition, but may not set forth the evidence by which such defence is intended to be supported. What the Answer should set forth.

8.—It shall be clear and precise, and not introduce matters irrelevant to the suit, and the rules before laid down respecting the setting out of the documents and the contents of the petition generally shall be observed in the answer *mutatis mutandis*. Should be precise and relevant.

9.—It must deny all such material allegations in the petition as the defendant intends to deny at the hearing. Denial of Allegations.

10.—When the answer denies an allegation of fact, it must deny directly as (for example) where it is alleged that the defendant has received a sum of money, the answer must deny that he has received that sum, or any part thereof, or else set forth what part he has received. And so, where a matter of fact is alleged in the petition, with certain circumstances, the answer must not deny it literally as it is alleged, but must answer the point of substance positively and certainly. Denial of Fact must answer point of Substance.

11.—The answer must specifically admit such material allegations in the petition as the defendant knows to be true, or desires to be taken as admitted. Such admission, if plain and specific, will prevent the plaintiff from obtaining the costs of proving at the hearing any matters of fact so admitted. Admissions—Effects thereof as to Costs.

12.—All material allegations of fact admitted by a defendant shall be taken as established against him without proof thereof by the plaintiff at the hearing. But the plaintiff shall be bound to prove as against each defendant all allegations of fact not admitted by him, or not stated by him to be true to his belief. Proof of Facts not admitted.

13.—The answer must allege any matter of fact not stated in the petition on which the defendant relies in defence, as establishing, for instance, fraud on the part of the plaintiff, or showing that the plaintiff's right to recover, or to any relief capable of being granted on the petition, has not yet accrued, or is released, or barred, or otherwise gone. Allegation of new Facts in Defence.

14.—The answer of a defendant shall not debar him at the hearing from disproving any allegation of the petition admitted by his answer or from giving evidence in support of a defence not expressly set up by the answer except where the defence is such as, in the opinion of the Court, ought to have been expressly set up by the answer, or is inconsistent with the statements of the answer, or is, in the opinion of the Court, likely to take the plaintiff by surprise, and to raise a fresh issue or fresh issues of fact or law not fairly arising out of the pleadings as they stand, and such as the plaintiff ought not to be then called upon to try. Evidence in denial of Allegation, or in support of Defence not set up in Pleadings.

15.—Subject to any general rule or order relating thereto, the answer must be signed by the defendant or his counsel, unless the defendant obtain the leave of the Court to dispense with such signature. Signature of Counsel.

Verification of
Answer.

16.—The Court may, where the circumstances of the case appear to require it, order the defendant to verify his answer, or any part thereof, on oath or by affidavit.

Tender.

Payment into
Court.

XXXIV.—A defence alleging tender by the defendant must be accompanied by payment into Court of the amount alleged to have been tendered.

Payment into Court

Answer must
be filed with

XXXV.—Payment into Court by the defendant must be accompanied by an answer. The answer must state distinctly that the money paid in is paid in satisfaction of the plaintiff's claim generally, or (as the case may be), in satisfaction of some specific part of the plaintiff's claim, where the claim is stated in the petition for distinct sums or in respect of distinct matters.

How far
Admission of
Claim.

2.—Payment into Court, whether made in satisfaction of the plaintiff's claim generally or in satisfaction of some specific part thereof, operates as an admission of liability to the extent of the amount paid in and no more, and for no other purpose.

Acceptance
thereof by
Plaintiff.

3.—Where the defendant pays money into Court, the plaintiff shall be at liberty to accept the same in full satisfaction and discharge of the cause of suit in respect of which it is paid in; and in that case, the plaintiff may forthwith apply by summons for payment of the money out of the Court to him; and on the hearing of the summons, the Court shall make such order as to stay of further proceedings in the suit, in whole or in part, as to costs and other matters, as seems just.

Non-acceptance
thereof.

4.—If the plaintiff does not so apply, he shall be considered as insisting that he has sustained damages to a greater amount, or (as the case may be), that the defendant was and is indebted to him in a greater amount than the sum paid in; and in that case the Court, in determining the suit and disposing of costs at the hearing, shall have regard to the fact of the payment into Court having been made and not accepted.

Set-off.

Particulars.
[See post s. 67.
par. 8.]

XXXVI.—A defence of set-off to a claim for money, whether in debt or in damages, must be accompanied by a statement of the particulars of the set-off; and if pleaded as a sole defence, unless extending to the whole amount of the plaintiff's claim, must also be accompanied by payment into Court of the amount to which, on the defendant's showing, the plaintiff is entitled; and in default of such payment, the defendant shall be liable to bear the costs of the suit, even if he succeeds in his defence to the extent of the set-off pleaded.

Payment into
Court.

Costs.

Cross-action.

2.—Where a defendant in his answer raises a defence by way of set-off which, in the opinion of the Court, is not admissible as set-off, the Court may either before or at the hearing, on his application, give him liberty to withdraw such defence, and to file a cross-petition, and may make such order for the hearing of the suit and cross-suit, together or otherwise, on such terms as to costs and other matters as seem just.

Counter-Claim.

Leave to file
Cross-petition
in same suit.

XXXVII.—Where a defendant in his answer raises any specific defence, and it appears to the Court that on such defence being established he may be entitled to relief against the plaintiff in respect of the subject matter of the suit, the Court may, on the application of the defendant, either before or at the hearing, if under the circumstances of any case it thinks fit, give liberty to him to file a counter-claim by a cross-petition in the same suit, asking for relief against the plaintiff, and may make such order for the hearing of the suit and counter-claim, together or otherwise, and in such manner and on such terms as to costs and other matters as seem just, and may, if in any case it seems fit, require the plaintiff to give

security to the satisfaction of the Court (by deposit or otherwise) to abide by and perform the decision of the Court on the counter-claim. Security.

Specific Answer.

XXXVIII.—Where the defendant does not answer (an answer not being dispensed with in manner aforesaid), or puts in an answer amounting only to a general denial of the plaintiff's claim, the plaintiff may apply by summons for an order to compel him to answer specifically to the several material allegations, in the petition, and the Court, if such allegations are briefly, positively, separately, and distinctly made, and it thinks that justice so requires, may grant such an order. Summons to compel.

2.—The defendant shall, within the time limited by such order, put in his answer accordingly, and shall therein answer the several material allegations in the petition, either admitting or denying the truth of such allegations *seriatim*, as the truth or falsehood of each is within his knowledge, or (as the case may be), stating as to any one or more of the allegations that he does not know whether such allegation or allegations is or are true or otherwise. Nature of such Answer.

3.—The defendant so answering may also set up by such answer any defence to the suit, and may explain away the effect of any admission therein made by any other allegation of facts. Further Defence.

Replication.

XXXIX.—No replication or other pleading after answer shall be allowed, except by special leave of the Court. By leave of the Court.

2.—Where the plaintiff considers the contents of the answer to be such as to render an amendment of the petition necessary or desirable, he may obtain *ex parte* an order to amend the petition, on satisfying the Court that the amendment is not intended for the purpose of delay or vexation, but because it is considered to be material for the plaintiff's case. Amendment of Petition after Answer.

3.—Notice of the amendment shall be given to the defendant within such time and in such manner as the Court in each case directs. Notice thereof

Settlement of Issues.

XL.—At any time before or at the hearing, the Court may, if it thinks fit, on the application of any party, or of its own motion, proceed to ascertain and determine what are the material questions in controversy between the parties, although the same are not distinctly or properly raised by the pleadings, and may reduce such questions into writing and settle them in the form of issues; which issues, when settled, may state questions of law on admitted facts, or questions of disputed fact, or questions partly of the one kind and partly of the other. At, or before Hearing.

2.—In settling issues, the Court may order or allow the striking out or amendment of any pleading, or part of the pleading, so that the pleadings may finally correspond with the issues settled, and may order or allow the striking out or amendment of any pleading, or part of a pleading, that appears to be so framed as to prejudice, embarrass, or delay the trial of the cause. Amendment of Pleadings in framing Issues.

3.—Where the application to the Court to settle issues is made at any stage of the proceedings at which all parties are actually present before the Court, either in person or by counsel or attorney, or at the hearing, the application may be made *vivâ voce*, and may be disposed of at once, otherwise the application must be made and disposed of on summons. It shall be in the discretion of the Court to direct which issues shall be first disposed of. How Application to be made.

4.—At any time before the decision of the case, the Court may amend the issues or frame additional issues on such terms as to it shall seem fit, and all such amendments as may be necessary for the purpose of determining the real question or controversy between the parties shall be so made. Amended or additional Issues.

Interrogatories—Discovery—Unwilling Witness.

Power to deliver written Interrogatories to opposite Party.

XLI.—In all suits, the plaintiff and the defendant, or either of them, may, by order of the Court, deliver to the opposite party or his attorney (provided such party, if not a body corporate, would be liable to be called and examined as a witness upon such matter), interrogatories in writing upon any matter as to which discovery may be sought, and require such party, or in the case of a body corporate, any of the officers of such body corporate, within ten days to answer the questions in writing by affidavit, to be sworn and filed in the ordinary way; and any party or officer omitting, without just cause, sufficiently to answer all questions as to which a discovery may be sought within the above time, or such extended time as the Court shall allow, shall be deemed to have committed a contempt of the Court, and shall be liable to be proceeded against accordingly.

Affidavit by Party proposing to interrogate and his Attorney.

2.—The application for such order shall be made upon an affidavit of the party proposing to interrogate, and his attorney or agent, or in the case of a body corporate, of their attorney or agent, stating that the deponent believes that the party proposing to interrogate, whether plaintiff or defendant, will derive material benefit in the cause from the discovery which he seeks, that there is a good cause of action or defence upon the merits, and if the application be made on the part of the defendant, that the discovery is not sought for the purpose of delay: Provided that where it shall happen, from unavoidable circumstances, that the plaintiff or defendant cannot join in such affidavit, the Court may, if it think fit upon affidavit of such circumstances by which the party is prevented from so joining therein, allow and order that the interrogatories may be delivered without such affidavit.

Oral Examination of Parties when to be allowed.

3.—In case of omission, without just cause, to answer sufficiently such written interrogatories it shall be lawful for the Court, at its discretion, to direct an oral examination of the interrogated party, as to such point as they or he may direct, before the Court or Registrar; and the Court may, by such order, or any subsequent order, command the attendance of such party before the person appointed to take such examination, for the purpose of being orally examined as aforesaid, or the production of any writings or other documents to be mentioned in such order, and may impose therein such terms as to such examination, and the cost of the application and of the proceedings thereon, and otherwise, as to such Court shall seem just.

Exceptions to Interrogatories.

4.—The Court may, on the application of the party interrogated, strike out or permit to be amended any interrogatory which, in the opinion of the Court, may be exceptionable.

Examination of Person who refuses to make an Affidavit.

5.—Any party to a suit, or other civil proceedings, requiring the affidavit of a person who refuses to make an affidavit, may apply by summons for an order to such person to appear and be examined upon oath before the Court or Registrar, to whom it may be most convenient to refer such examination, as to the matters concerning which he has refused to make an affidavit: and the Court may, if it think fit, make such order for the attendance of such person before the person therein appointed to take such examination, for the purpose of being examined as aforesaid, and for the production of any writings or documents to be mentioned in such order, and may thereupon impose such terms as to such examination, and the costs of the application and proceedings therein, as it shall think just.

Discovery of Documents.

6.—Upon the application of either party to any suit or other civil proceeding upon an affidavit of such party of his belief that any document, to the production of which he is entitled for the purpose of discovery or otherwise, is in the possession or power of the opposite party, it shall be lawful for the Court to order that the party against whom such application is made, or if such party is a body corporate that some officer to be named

of such body corporate, shall answer on affidavit, stating what documents he or they has or have in his or their possession or power relating to the matters in dispute, or what he knows as to the custody they or any of them are in, and whether he or they objects or object (and if so on what grounds), to the production of such as are in his or their possession or power; and upon such affidavit being made, the Court may make such further order thereon as shall be just.

7.—All such interrogatories, answers, depositions, and affidavits as aforesaid, shall be filed in Court in the suit or other civil proceeding, and the evidence so taken may be used at the hearing thereof, saving just exceptions. Evidence at the Hearing.

2.—They shall be made either by motion in Court or by summons in Chambers, and shall be headed in the suit or other proceeding. How to be made.

3.—Subject to any general orders, the Court shall, in each case, decide whether the application is a proper one to be made by motion in Court, or by summons in Chambers, and may, at or before the hearing, if it shall think fit, remove the same into Court or into Chambers, as the case may be. Whether in Court or Chambers.

Motion.

XLIII.—No motion shall be entertained until the party moving has filed in the Court a written motion-paper, distinctly stating the terms of the order sought. Motion-paper.

2.—The motion may in its terms ask for an order directing more than one thing to be done, and may also be in an alternative form asking that one or another order be made, so only that the whole order sought be therein substantially expressed. Form of.

3.—If the motion-paper contains any matter by way of argument, or other matter except the proper particulars of the motion itself, the Court may direct the motion-paper to be amended, and make no order thereon, until it is amended accordingly by the striking out of such argument or other matter. Amendment of by Court.

4.—There shall be filed with the motion-paper all affidavits on which the person moving intends to rely. Affidavits.

5.—No other evidence can be used in support of the motion, except by leave of the Court. Other Evidence.

6.—The person filing the motion-paper may move the Court, in cases of urgency, at any time while the Court is sitting, and not engaged in hearing any other matter. Case of Urgency.

7.—All motions shall be made *ex parte* in the first instance, unless the Court gives leave to give a notice of motion for a certain day. When to be *ex parte*.

8.—On a motion *ex parte*, the party moving shall apply for either an immediate absolute order of the Court in the terms of the motion-paper on his own showing and evidence, or an order to the other party to appear, on a certain day, and show cause why an order should not be made in the terms of the motion-paper. Order thereon.

9.—Any party moving in Court *ex parte* may support his motion by argument addressed to the Court on the facts put in evidence by the affidavits filed in support of the motion; and no party to the suit or proceeding, although present, other than the party moving, shall, unless by leave of the Court, be entitled to be then heard. Argument in support.

10.—On a motion coming on, the Court may allow the motion-paper to be amended, and additional evidence to be produced by affidavit or declaration, or may direct the motion to stand over. Argument and additional Evidence.

Court may
make Order
other than
asked for.

11.—If it appears to the Court on the evidence adduced in support of the motion, or on any additional evidence which the Court permits to be adduced in support thereof, that the party moving is entitled to an order absolute, or to show cause different from the order asked, and the party moving is willing to take such different order, the Court may so order accordingly.

May vary or
discharge
Order.

12.—Where an order is made on a motion *ex parte*, any party affected by it may, within seven days after service of it, or within such further time as the Court shall allow, apply to the Court by motion to vary or discharge it; and the Court on notice to the party obtaining the order, either may refuse to vary or discharge it, or may vary or discharge it with or without imposing terms as to costs or security, or other things, as seems just.

2.—Such notice as the Court in each case, according to the circumstances, considers reasonable, shall be given to the person summoned, and to such persons (parties to the suit or proceeding otherwise interested) as the Court considers entitled to inspect the documents to be produced, or to examine the person summoned, or to be present at his examination, as the case may be. 3.—An order to set down the cause may be made on the application of the defendant by summons, if it appears to the Court, having regard to the state of the pleadings, that the cause is ready to be heard, and that there has been delay on the part of the plaintiff in obtaining an order for setting down the cause, for which the plaintiff has no reasonable excuse (as the absence or illness of a material witness), and that the defendant is prejudiced, or may reasonably be expected to be prejudiced by such delay. When Defendant may apply.

2.—On such application, the Court may, if it thinks fit, make an order dismissing the petition, or make such other order, or impose such terms as the Court thinks reasonable. Power of Court thereon.

Postponement of Hearing.

L.—The Court may, at any time, on a summons taken out by any party, postpone the hearing of a cause set down, on being satisfied by evidence on oath that the postponement will have the effect of better ensuring the hearing and determination of the questions between the parties on the merits. In what Cases.

2.—Where such an application is made on the ground of the absence of a witness, the Court shall require to be satisfied that his evidence is material, and that he is likely to return and give evidence within a reasonable time. Absence of Witness.

3.—The Court on the hearing of the summons shall make such order as to the mode of trial as it shall think fit: Provided always that if either party shall desire a trial by jury before one of the two judges he shall be entitled thereto as of right.

4.—If it shall appear expedient at the hearing of any cause before the Court without a jury that the cause should be tried with a jury, the Court may make such order for the trial of the cause with a jury, and for the adjournment thereof in the meanwhile, on such terms as to costs and otherwise as it shall deem reasonable. Power of Court to order Jury at any Time.

5.—Either party shall be at liberty to apply to the Court for an order for the inspection by the jury, or by himself, or by his witnesses, of any moveable or immoveable property, the inspection of which may be material to the proper determination of the question in dispute, and the Court may make such order upon such terms as it may deem just. Inspection by Jury, by Parties, or by Witnesses.

6.—It shall be lawful for the Court to make such rules or orders upon the Sheriff or other person as may be necessary to procure the attendance of a special or common jury for the trial of any cause or matter depending in the Court, at such time and place and in such manner as the Court may think fit. Power to admit Affidavits. Cross-examinations thereon.

3.—The Court may, in its discretion, if the interests of justice appear absolutely so to require, admit an affidavit in evidence, although it is shown that the party against whom the affidavit is offered in evidence has had or will have no opportunity of cross-examining the person making the affidavit. Where Cross-examination not practicable.

4.—No affidavit of any witness shall be read at the trial under the provisions hereinbefore contained, except in pursuance of an order of Court obtained on summons before trial, unless the Court shall think fit under the circumstances otherwise to direct, upon such terms as seem just. Order of Court to admit.

5.—If the Court at any time think it necessary for the ends of justice to examine any person other than a party to the suit, and not named as a witness by a party to the suit, the Court may, of its own accord, cause such person to be summoned as a witness to give evidence, or to produce any document in his possession on a day to be appointed, and may examine such person as a witness. Any Person may be summoned by the Court as a Witness.

In all such cases, the Court shall furnish the commissioner with such part of the proceedings and such detailed instructions as may appear necessary for his information and guidance; and the instructions shall distinctly specify whether the commissioner is merely to transmit the proceedings which he may hold on the inquiry, or also to report his own opinion on the point referred for his investigation. The proceedings of the commissioner shall be received in evidence in the case, unless the Court may have reason to be dissatisfied with them, in which case the Court shall make such further inquiry as may be requisite, and shall pass such ultimate judgment or order as may appear to it to be right and proper in the circumstances of the case. Appointment of Commissioner to investigate.

Discovery of new Evidence.

8.—When an application for a review of judgment, re-hearing, or new trial is granted, a note thereof shall be made in the register of suits, and the Court shall give such order in regard thereto as it may deem proper in the circumstances of the case. Proceedings where Application is granted.

**Interim Order
for Protection
of Property.**

6.—The Court may, upon such investigation as aforesaid, make any interim order for the protection of any property applicable or available in discharge of the decree, as it shall think expedient.

Contract or
alternative.**

2.—If the decree be for any specific moveable, or for the specific performance of any contract or other particular act, it shall be enforced by the seizure, if practicable, of the specific moveable and the delivery thereof to the party to whom it shall have been adjudged, or by imprisonment of the party against whom the decree is made, or by attaching his property and keeping the same under attachment until further order of the Court, or by both imprisonment and attachment if necessary: or if alternative damages be awarded, by levying such damages in the mode provided for the execution of a decree for money.

**Decree for
Money.**

3.—If the decree be for money, it shall be enforced by the imprisonment of the party against whom the decree is made, or by the attachment and sale of his property, or by both, if necessary; and if such party be other than a defendant, the decree may be enforced against him in the same manner as a decree may be enforced against a defendant.

**For Execution

or Indorsement
of negotiable
Instruments.**

4.—If the decree be for the execution of a deed, or for the indorsement of a negotiable instrument, and the party ordered to execute or indorse such deed or negotiable instrument shall neglect or refuse so to do, any party interested in having the same executed or indorsed may prepare a deed or indorsement of the instrument in accordance with the terms of the decree, and tender the same to the Court for execution upon the proper stamp (if any is required by law), and the signature thereof by the Registrar shall have the same effect as the execution or indorsement thereof by the party ordered to execute.

**Against Repre-
sentatives of
deceased
Persons.**

5.—If the decree be against a party as the representative of a deceased person, and such decree be for money to be paid out of the property of the deceased person, it may be executed by the attachment and sale of any such property, or, if no such property can be found and the defendant fail to satisfy the Court that he has duly applied such property of the deceased as shall be proved to have come into his possession, the decree may be executed against the defendant to the extent of the property not duly applied by him in the same manner as if the decree had been against the defendant personally.

Against Sureties.

6.—Whenever a person has become liable as security for the performance of a decree, or of any part thereof, the decree may be executed against such person to the extent to which he has rendered himself liable in the same manner as a decree may be enforced against a defendant.

Penalty for.

3.—If the Court shall be satisfied, after such investigation of the facts of the case as it may deem proper, that the resistance or obstruction complained of was without any just cause, and that the complainant is still resisted or obstructed in obtaining effectual possession of the property adjudged to him by the decree, by the defendant or some person at his instigation, the Court may, at the instance of the plaintiff, and without prejudice to any proceedings to which such defendant or other person may be liable for such resistance or obstruction, commit the defendant or such other person to prison for such period not exceeding thirty days as may be necessary to prevent the continuance of such obstruction or resistance.

By any Person
other than the
Defendant

Claim to

4.—If it shall appear to the satisfaction of the Court that the resistance or obstruction to the execution of the decree has been occasioned by any person, other than the defendant, claiming *bonâ fide* to be in possession of the property on his own account or on account of some other person than the defendant, the claim shall be numbered and registered as a suit between the decree-holder as plaintiff and the claimant as defendant, and the Court shall, without prejudice to any proceedings to which the claimant

may be liable for such resistance or obstruction, proceed to investigate the claim in the same manner and with the like power as if a suit for the property had been instituted by the decree-holder against the claimant under the provisions of this Code, and shall make such order for staying execution of the decree, or executing the same as it may deem proper in the circumstances of the case.

5.—If any person other than the defendant shall be dispossessed of any land or other immoveable property in execution of a decree, and such person shall dispute the right of the decree-holder to dispossess him of such property under the decree, on the ground that the property was *bona fide* in his possession on his own account, or on account of some other person than the defendant, and that it was not included in the decree, or if included in the decree, that he was not a party to the suit in which the decree was made, he may apply to the Court within one month from the date of such dispossession: and if, after examining the applicant, it shall appear to the Court that there is probable cause for making the application, the application shall be numbered and registered as a suit between the applicant as plaintiff and the decree-holder as defendant, and the Court shall proceed to investigate the matter in dispute in the same manner and with the like powers as if a suit for the property had been instituted by the applicant against the decree-holder.

LXXVI.—If the decree be for money, and the amount thereof is to be levied from the property of the person against whom the same may have been pronounced, the Court shall cause the property to be attached in the manner following:

Mode of
Attachment.

2.—Where the property shall consist of goods, chattels, or other moveable property in the possession of the defendant, the attachment shall be made by actual seizure, and the Sheriff or other officer shall keep the same in his custody, and shall be responsible for the due custody thereof.

Possession of
Defendant.

3.—Where the property shall consist of goods, chattels, or other moveable property to which the defendant is entitled subject to a lien or right of some other person to the immediate possession thereof, the attachment shall be made by a written order prohibiting the person in possession from giving over the property to the defendant.

Where subject
to Lien or
Rights of third
Parties.

4.—Where the property shall consist of lands, houses, or other immoveable property, or any interest therein either at law or in equity, the attachment shall be made by a written order prohibiting the defendant from alienating the property by sale, gift, or in any other way, and all persons from receiving the same by purchase, gift, or otherwise.

Immoveable
Property.

5.—Where the property shall consist of debts not being negotiable instruments, or of shares in any public company or corporation, and attachment shall be made by a written order prohibiting the creditor from receiving the debts, and the debtor from making payment thereof to any person whomsoever, until the further order of the Court, or prohibiting the person in whose name the shares may be standing from making any transfer of the shares or receiving payment of any dividends thereof, and the manager, secretary, or other proper officer of the company or corporation from permitting any such transfer or making any such payment, until such further order.

Debts and
Shares in Public
Companies.

Property in the
Custody of a
Public Officer
or in *custodia
legis*.

6.—Property in the custody or under the control of any public officer in his official capacity shall be liable to attachment in execution of a decree with the consent of the Attorney-General, and property *in custodia legis* shall be liable also to attachment by leave of the Court. In such cases, the order of attachment must be served on such public officer, or on the Registrar, as the case may be.

Negotiable
Instruments.

7.—Where the property shall consist of a negotiable instrument, the attachment shall be made by actual seizure, and the Sheriff or other officer shall bring the same into Court, and such instrument shall be held subject to the further orders of the Court.

Service of
prohibitory
Orders.

8.—In the case of goods, chattels, or other moveable property not in the possession of the defendant, an office copy of the order shall be delivered to the person in possession of the property. In the case of lands, houses, or other immoveable property, or any interest therein, an office copy of the order shall be registered in the Land Office under Ordinance No. 3 of 1844. In the case of debts, office copies of the order shall be delivered to or served upon each individual debtor. And in case of shares in the capital or joint-stock of any public company or corporation, an office copy of the order shall be delivered to or served upon the manager, secretary, or other proper officer of the company or corporation.

Payment into
Court by
Debtor.

10.—In every case in which a debtor shall be prohibited from making payment of his debt to the creditor, he may pay the amount into Court, and such payment shall have the same effect as payment to the party entitled to receive the debt.

Court may
order Money,
or Proceeds
of Property
attached, or any
Part thereof to
be paid to the
Decree-holder.

11.—In all cases of attachment under this chapter, it shall be competent to the Court, at any time during the attachment, to direct that any part of the property so attached as shall consist of money or bank-notes, or a sufficient part thereof, shall be paid over to the party applying for execution of the decree, or that any part of the property so attached as may not consist of money or bank-notes, so far as may be necessary for the satisfaction of the decree, shall be sold, and that the money which may be realized by such sale, or a sufficient part thereof, shall be paid to such party.

Appointment of
Manager.

12.—When the property attached shall consist of debts due to the party who may be answerable for the amount of the decree, or of any lands, houses, or other immoveable property, it shall be competent to the Court to appoint a manager of the said property with power to sue for the debts, and to collect the rents or other receipts and profits of the land or other immoveable property, and to execute such deeds or instruments in writing as may be necessary for the purpose, and to pay and apply such rents, profits, or receipts toward the payment of the amount of the decree and costs: or when the property attached shall consist of land, if the judgment debtor can satisfy the Court that there is reasonable ground to believe that the amount of the judgment may be raised by the mortgage of the land, or by letting it on lease, or by disposing by private sale of a portion of the land, or of any other property belonging to the judgment debtor, it shall be competent to the Court, on the application of the judgment debtor, to postpone the sale for such period as it may think proper, to enable the judgment debtor to raise the amount. In any case in which a manager shall be appointed under this section, such manager shall be bound to

render due and proper accounts of his receipts and disbursements, from time to time, as the Court may direct.

13.—If the judgment debtor shall be absent from the Colony, and it shall appear to the satisfaction of the Court that the public sale of any of his property which has been attached, consisting of lands, houses, or any interest therein, is objectionable, and that satisfaction of the decree may be made within a reasonable period by a temporary alienation of such property, the Court may, of its own motion, instead of proceeding to a public sale of such property, order that provision be made for the satisfaction of the decree by mortgage thereof and may authorize the Registrar, if necessary, to execute the mortgage deed in lieu of the judgment debtor, or any other necessary parties, and may make such orders in relation to such mortgage as may be requisite to carry out this provision; and the execution of such mortgage deed by the Registrar shall have the same effect as the execution thereof by the judgment debtor, or other necessary parties.

In absence of Judgment Debtor, Court may order Mortgage in lieu of Sale.

14.—If the amount decreed with costs and all charges and expenses which may be incurred by the attachment be paid into Court, or if satisfaction of the decree be otherwise made, an order shall be issued for the withdrawal of the attachment; and if the defendant shall desire it, and shall deposit in Court a sum sufficient to cover the expense, the order shall be notified in the same manner as hereinbefore prescribed for the notification of the attachment; and such steps shall be taken as may be necessary for staying further proceedings in execution of the decree.

Order for Withdrawal of Attachment on Satisfaction of Decree.

Of Claims to Attached Property.

LXXVII.—In the event of any claim being preferred to, or objection offered against, the sale of lands or any other immoveable or moveable property which may have been attached in execution of a decree or under any order for attachment made before judgment, as not liable to be sold in execution of a decree against the defendant, the Court shall, subject to the proviso contained in the next succeeding section, proceed to investigate the same with the like powers as if the claimant had been originally made a defendant to the suit, and if it shall appear to the satisfaction of the Court that the land or other immoveable property was not in the possession of the party against whom execution is sought, or of some person in trust for him, or in the occupancy of persons paying rent to him at the time when the property was attached, or that being in the possession of the party himself at such time, it was so in his possession not on his own account, or as his own property, but on account of, or in trust for, some other person, the Court shall make an order for releasing the said property from attachment. But if it shall appear to the satisfaction of the Court that the land or other immoveable or moveable property was in possession of the party against whom execution is sought, as his own property, and not on account of any other person, or was in the possession of some person in trust for him, or in the occupancy of persons paying rent to him at the time when the property was attached, the Court shall disallow the claim. The party against whom the order may be given shall be at liberty to bring a suit to establish his right at any time within one year from the date of the order.

Investigation thereof by the Court.

2.—The claim or objection shall be made at the earliest opportunity to the Court; and if the property to which the claim or objection applies shall have been advertised for sale, the sale may (if it appears necessary) be postponed for the purpose of making the investigation mentioned in the last preceding paragraph: Provided that no such investigation shall be made if it appear that the making of the claim or objection was designedly and unnecessarily delayed, with a view to obstruct the ends of justice, and in such case, the claimant shall be left to prosecute his claim by a regular suit.

Claim or Objection to be preferred at the earliest Opportunity.

Of Sales in Execution of Decrees.

Registrar to
have Conduct
of Sale.

LXXVIII.—Sales in execution of decree shall be made under the direction of the Registrar, and shall be conducted according to such orders, if any, as the Court may make on the application of any parties concerned, and all such sales shall be made by public auction: Provided that it shall be competent to the Court to authorize the sale to be made in such other manner as it may deem advisable.

Setting aside
Sale for Irre-
gularity.

2.—At any time within ten days from the date of the sale of any immoveable property, application may be made to the Court to set aside the sale on the ground of any material irregularity in the conduct of the sale, but no sale shall be set aside on the ground of such irregularity unless the applicant shall prove to the satisfaction of the Court that he has sustained substantial injury by reason of such irregularity.

When Sale be-
comes absolute.

3.—If no such application as is mentioned in the last preceding paragraph be made, the sale shall be deemed absolute. If such application be made and the objection be disallowed, the Court shall make an order confirming the sale; and in like manner if the objection be allowed, the Court shall make an order setting aside the sale for irregularity.

Return of
Deposit or
Purchase
Money.

4.—Whenever a sale of immoveable property is set aside, the purchaser shall be entitled to receive back any money deposited or paid by him on account of such sale with or without interest, to be paid by such parties and in such manner as it may appear proper to the Court to direct in each instance.

Transfer to
Purchaser by
Certificate—
Stamp Duty
Registration.

5.—After a sale of immoveable property shall have become absolute in manner aforesaid, the Court shall grant a certificate to the person who may have been declared the purchaser at such sale, to the effect that he has purchased the right, title, and interest of the defendant in the property sold, and such certificate shall be liable to the same stamp duty as an assignment of the same property, and when duly stamped as aforesaid, shall be taken and deemed to be a valid transfer of such right, title, and interest, and may be registered in the Land Office under Ordinance No. 3 of 1844.

Delivery of
moveable

Property in the
Occupancy of a
Defendant.

8.—If the property sold shall consist of a house, land, or other immoveable property, in the occupancy of a defendant or some person on his behalf, or of some person claiming under a title created by the defendant subsequently to the attachment of such property, the Court shall, on the application of the purchaser, order delivery thereof to be made by putting the party to whom the house, land, or other immoveable property may have been sold, or any person whom he may appoint to receive delivery on his behalf, in possession thereof, and, if need be, by removing any person who may refuse to vacate the same.

In lawful
Occupancy of
other Persons.

9.—If the property sold shall consist of a house, land, or other immoveable property in the occupancy of other persons entitled to occupy the same, the Court shall, on the application of the purchaser, order delivery thereof to be made by affixing a copy of the certificate of sale in some conspicuous place on the house, land, or other immoveable property, or in the Supreme Court building.

10.—Where the property sold shall consist of debts not being negotiable instruments, or of shares in any public company or corporation, the Court shall, on the application of the purchaser, make an order prohibiting the creditor from receiving the debts and the debtor from making payment thereof to any person or persons except the purchaser, or prohibiting the person in whose name the shares may be standing, from making any transfer of the shares to any person except the purchaser, or receiving payment of any dividends thereon, and the manager, secretary, or other proper officer to the company or corporation from permitting any such transfer or making any such payment to any person except the purchaser.

The indorsement or execution shall be in the following form, or to the like effect:—
“A. B. by C. D., Registrar of the Supreme Court of Hongkong; in a suit by E. F. *versus* A. B.” Until the transfer of such security or share, the Court may, by order, appoint some person to receive any interest or dividend due thereon, and to sign receipts for the same; and any indorsement made or document executed, or receipts signed as aforesaid, shall be as valid and effectual for all purposes, as if the same had been made or executed or signed by the party himself.

Transfer of Securities and Shares.

13.—If the purchaser of any immoveable property sold in execution of a decree shall, notwithstanding the order of the Court, be resisted or obstructed in obtaining possession of the property, the provisions contained in Section LXXV., relating to resistance or obstruction to a party in whose favour a suit has been decreed in obtaining possession of the property adjudged to him shall be applicable in the case of such resistance or obstruction.

Obstructing Purchaser in obtaining Possession.

14.—If it shall appear that the resistance or obstruction to the delivery or possession was occasioned by any person other than the defendant claiming a right to the possession of the property sold as proprietor, mortgagee, lessee, or under any other title, or if in the delivery of possession to the purchaser any such person claiming as aforesaid shall be dispossessed, the Court, on the complaint of the purchaser, or of such person claiming as aforesaid, if made within one month from the date of such resistance or obstruction, or of such dispossession, as the case may be, shall enquire into the matter of the complaint, and make such order as may be proper in the circumstances of the case. The party against whom it is given shall be at liberty to bring a suit to establish his right at any time within one year from the date thereof.

Prisoner for
Debt in Case
of Illness.

Unjustifiable
Extravagance.

6.—On such application being made, the Court shall cause the execution creditor to be furnished with a copy of the account of the defendant's property and shall fix a reasonable period within which the execution creditor may cause the whole or any part of such property to be attached and sold, or may make proof that the defendant's inability to satisfy the decree is attributable to unjustifiable extravagance in living, or that the defendant, for the purpose of procuring his discharge without satisfying the decree, has wilfully concealed property, or his right or interest therein, or fraudulently transferred or removed property, or committed any other act of bad faith. If the execution creditor shall fail to make such proof, the Court shall cause the defendant to be set at liberty. If the execution creditor shall within the time specified, or at any subsequent period, make such proof to the satisfaction of the Court, the Court shall retain the defendant in confinement unless he shall have already been in confinement on account of the decree for the full term of his imprisonment.

Enlargement of Time and Conditional Order.

6.—A person committed for disobedience to a decree or order is liable to be detained in custody until he has obeyed the decree or order in all things that are to be immediately performed, and given such security as the Court thinks fit to obey the other parts of the decree or order (if any) at the future times thereby appointed,—or in case of his no longer having the power to obey the decree or order, then until he has been imprisoned for such time or until he has paid such fine as the Court directs. 29TH AUGUST, 1842.

Ratifications Exchanged at Hongkong, 26th June, 1843.

Her Majesty, the Queen of the United Kingdom of Great Britain and Ireland, and his Majesty the Emperor of China, being desirous of putting an end to the misunderstandings and consequent hostilities which have arisen between the two countries, have resolved to conclude a treaty for that purpose, and have therefore named as their Plenipotentiaries, that is to say; Her Majesty the Queen of Great Britain and Ireland, Sir Henry Pottinger, Bart., a Major-General in the service of the East India Company, &c.; and His Imperial Majesty the Emperor of China, the High Commissioners Ke-ying, a Member of the Imperial House, a Guardian of the Crown Prince, and General of the Garrison of Canton: and Ilipoo, of the Imperial Kindred, graciously permitted to wear the insignia of the first rank, and the distinction of a peacock's feather, lately Minister and Governor-General, &c., and now Lieut.-General commanding at Chápoo—Who, after having communicated to each other their respective full powers, and found them to be in good and due form, have agreed upon and concluded the following Articles:—

Art. I.—There shall henceforward be peace and friendship between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland and His Majesty the Emperor of China, and between their respective subjects, who shall enjoy full security and protection for their persons and property within the dominions of the other.

Art. II.—His Majesty the Emperor of China agrees that British subjects, with their families and establishments, shall be allowed to reside, for the purpose of carrying on their mercantile pursuits, without molestation or restraint, at the cities and towns of Canton, Amoy, Foochow-foo, Ningpo, and Shanghai; and Her Majesty the Queen of Great Britain, &c., will appoint superintendents, or consular officers, to reside at each of the above-named cities or towns, to be the medium of communication between the Chinese authorities and the said merchants, and to see that the just duties and other dues of the Chinese Government, as hereafter provided for, are duly discharged by Her Britannic Majesty's subjects.

Art. III.—It being obviously necessary and desirable that British subjects should have some port whereat they may careen and refit their ships when required, and keep stores for that purpose, His Majesty the Emperor of China cedes to Her Majesty the Queen of Great Britain, &c., the Island of Hongkong to be possessed in perpetuity by Her Britannic Majesty, her heirs and successors, and to be governed by such laws and regulations as Her Majesty the Queen of Great Britain, &c., shall see fit to direct.

Art. IV.—The Emperor of China agrees to pay the sum of six millions of dollars, as the value of the opium which was delivered up at Canton in the month of March, 1839, as a ransom for the lives of Her Britannic Majesty's Superintendent and subjects who had been imprisoned and threatened with death by the Chinese high officers.

Art. V.—The Government of China having compelled the British merchants trading at Canton to deal exclusively with certain Chinese merchants, called Hong merchants (or Co-Hong), who had been licensed by the Chinese Government for that purpose, the Emperor of China agrees to abolish that practice in future at all ports where British merchants may reside, and to permit them to carry on their mercantile transactions with whatever persons they please; and His Imperial Majesty further agrees to pay to the British Government the sum of three millions of dollars, on account of debts due

to British subjects by some of the said Hong merchants, or Co-Hong, who have become insolvent, and who owe very large sums of money to subjects of Her Britannic Majesty.

Art. VI.—The Government of Her Britannic Majesty having been obliged to send out an expedition to demand and obtain redress for the violent and unjust proceedings of the Chinese high authorities towards Her Britannic Majesty's officers and subjects, the Emperor of China agrees to pay the sum of twelve millions of dollars, on account of expenses incurred; and Her Britannic Majesty's plenipotentiary voluntarily agrees, on behalf of Her Majesty, to deduct from the said amount of twelve millions of dollars, any sums which may have been received by Her Majesty's combined forces, as ransom for cities and towns in China, subsequent to the 1st day of August, 1841.

Art. VII.—It is agreed that the total amount of twenty-one millions of dollars, described in the three preceding articles, shall be paid as follows:—

Six millions immediately.

Six millions in 1843; that is, three millions on or before the 30th June, and three millions on or before the 31st of December.

Five millions in 1844; that is, two millions and a half on or before the 30th of June, and two millions and a half on or before the 31st December.

Four millions in 1845; that is, two millions on or before the 30th of June, and two millions on or before the 31st of December.

And it is further stipulated, that interest, at the rate of 5 per cent. per annum, shall be paid by the Government of China on any portion of the above sums that are not punctually discharged at the periods fixed.

Art. VIII.—The Emperor of China agrees to release, unconditionally, all subjects of Her Britannic Majesty (whether natives of Europe or India), who may be in confinement at this moment in any part of the Chinese Empire.

Art. IX.—The Emperor of China agrees to publish and promulgate, under His imperial sign manual and seal, a full and entire amnesty and act of indemnity to all subjects of China, on account of their having resided under, or having had dealings and intercourse with, or having entered the service of Her Britannic Majesty, or of Her Majesty's officers; and His Imperial Majesty further engages to release all Chinese subjects who may be at this moment in confinement for similar reasons.

Art. X.—His Majesty the Emperor of China agrees to establish at all the ports which are, by Article II. of this treaty, to be thrown open for the resort of British merchants, a fair and regular tariff of export and import customs and other dues, which tariff shall be publicly notified and promulgated for general information; and the Emperor further engages that, when British merchandise shall have once paid at any of the said ports the regulated customs and dues, agreeable to the tariff to be hereafter fixed, such merchandise may be conveyed by Chinese merchants to any province or city in the interior of the empire of China, on paying a further amount as transit duties, which shall not exceed—per cent. on the tariff value of such goods.

Art. XI.—It is agreed that Her Britannic Majesty's chief high officer in China shall correspond with the Chinese high officers, both at the capital and in the provinces, under the term "communication;" the subordinate British officers and Chinese high officers in the provinces under the term "statement," on the part of the former, and on the part of the latter, "declaration," and the subordinates of both countries on a footing of perfect equality; merchants and others not holding official situations, and therefore not included in the above, on both sides to use the term "representation" in all papers addressed to, or intended for, the notice of the respective governments.

Art. XII.—On the assent of the Emperor of China to this treaty being received, and the discharge of the first instalment of money, Her Britannic Majesty's forces will retire from Nanking and the Grand Canal, and will no longer molest or stop the trade of China. The military post at Chinhae will also be withdrawn; but the island of Koolangsoo, and that of Chusan, will continue to be held by Her Majesty's forces until the money payments, and the arrangements for opening the ports to British merchants, be completed.

Art. XIII.—The ratifications of this treaty by Her Majesty the Queen of Great Britain, &c., and His Majesty the Emperor of China, shall be exchanged as soon as the great distance which separates England from China will admit; but, in the meantime, counterpart copies of it, signed and sealed by the plenipotentiaries on behalf of their respective sovereigns, shall be mutually delivered and all its provisions and arrangements shall take effect.

Done at Nanking, and signed and sealed by the plenipotentiaries on board Her Britannic Majesty's ship *Cornwallis*, this 29th day of August, 1842; corresponding with the Chinese date, twenty-fourth day of the seventh month, in the twenty-second year of Taou Kwang.

HENRY POTTINGER,
Her Majesty's Plenipotentiary.

And signed by the seals of four Chinese Commissioners.

The Upper and Lower Valley of the river being, however, disturbed by outlaws, no port shall be for the present opened to trade, with the exception of Chinkiang, which shall be opened in a year from the date of the signing of this Treaty.

So soon as peace shall have been restored, British vessels shall also be admitted to trade at such ports as far as Hankow, not exceeding three in number, as the British Minister, after consultation with the Chinese Secretary of State, may determine shall be ports of entry and discharge.

Art. XI.—In addition to the cities and towns of Canton, Amoy, Foochow, Ningpo, and Shanghai, opened by the Treaty of Nanking, it is agreed that British subjects may frequent the cities and ports of Newchwang, Tangchow (Chefoo), Taiwan (Formosa), Chao-chow (Swatow), and Kiung-chow (Hainan).

They are permitted to carry on trade with whomsoever they please, and to proceed to and fro at pleasure with their vessels and merchandise.

They shall enjoy the same privileges, advantages, and immunities at the said towns and ports as they enjoy at the ports already opened to trade, including the right of residence, buying or renting houses, of leasing land therein, and of building churches, hospitals, and cemeteries.

Art. XII.—British subjects, whether at the ports or at other places, desiring to build or open houses, warehouses, churches, hospitals, or burial grounds shall make their agreement for the land or buildings they require, at the rates prevailing among the people equitably, and without exaction on either side.

Art. XIII.—The Chinese Government will place no restrictions whatever upon the employment, by British subjects, of Chinese subjects, in any lawful capacity.

Art. XIV.—British subjects may hire whatever boats they please for the transport of goods or passengers, and the sum to be paid for such boats shall be settled between the parties themselves, without the interference of the Chinese Government. The number of these boats shall not be limited, nor shall a monopoly in respect either of the boats or of the porters or coolies engaged in carrying the goods be granted to any parties. If any smuggling takes place in them, the offenders will, of course, be punished according to law.

Art. XV.—All questions in regard to rights whether of property or person, arising between British subjects, shall be subject to the jurisdiction of the British authorities.

Art. XVI.—Chinese subjects who may be guilty of any criminal act towards British subjects shall be arrested and punished by the Chinese authorities according to the laws of China.

British subjects who may commit any crime in China, shall be tried and punished by the Consul, or other public functionary authorised thereto, according to the law of Great Britain.

Justice shall be equitably and impartially administered on both sides.

Art. XVII.—A British subject, having reason to complain of Chinese, may proceed to the Consulate, and state his grievance. The Consul will inquire into the merits of the case, and do his utmost to arrange it amicably. In like manner, if Chinese have reason to complain of a British subject, the Consul shall no less listen to his complaint, and endeavour to settle it in a friendly manner. If disputes take place of such a nature that the Consul cannot arrange them amicably, then he shall request the assistance of the Chinese authorities, that they may together examine into the merits of the case, and decide it equitably.

Art. XVIII.—The Chinese authorities shall at all times afford the fullest protection to the persons and property of British subjects, whenever these shall have been subjected to insult or violence. In all cases of incendiarism or robbery, the local authorities shall at once take the necessary steps for the recovery of the stolen property, the suppression of disorder, and the arrest of the guilty parties, whom they will punish according to law.

Art. XIX.—If any British merchant-vessel, while within Chinese waters, be plundered by robbers or pirates, it shall be the duty of the Chinese authorities to use every endeavour to capture and punish the said robbers or pirates and to recover the stolen property, that it may be handed over to the Consul for restoration to the owner.

Art. XX.—If any British vessel be at any time wrecked or stranded on the coast of China, or be compelled to take refuge in any port within the dominions of the Emperor of China, the Chinese authorities, on being apprised of the fact, shall immediately adopt measures for its relief and security; the persons on board shall receive friendly treatment and shall be furnished, if necessary, with the means of conveyance to the nearest Consular station.

Art. XXI.—If criminals, subjects of China, shall take refuge in Hongkong or on board the British ships there, they shall, upon due requisition by the Chinese authorities, be searched for, and, on proof their guilt, be delivered up.

In like manner, if Chinese offenders take refuge in the houses or on board the vessels of British subjects at the open ports, they shall not be harboured or concealed, but shall be delivered up, on due requisition by the Chinese authorities, addressed to the British Consul.

Art. XXII.—Should any Chinese subject fail to discharge debts incurred to a British subject, or should he fraudulently abscond, the Chinese authorities will do their utmost to effect his arrest, and enforce recovery of the debts. The British authorities will likewise do their utmost to bring to justice any British subject fraudulently absconding or failing to discharge debts incurred by him to a Chinese subject.

Art. XXIII.—Should natives of China who may repair to Hongkong to trade, incur debts there, the recovery of such debts must be arranged for by the English Court of Justice on the spot: but should the Chinese debtor abscond, and be known to have property real or personal, within the Chinese territory, it shall be the duty of the Chinese authorities, on application by, and in concert with, the British Consul, to do their utmost to see justice done between the parties.

Art. XXIV.—It is agreed that British subjects shall pay, on all merchandise imported or exported by them, the duties prescribed by the tariff; but in no case shall they be called upon to pay other or higher duties than are required of the subjects of any other foreign nation.

Art. XXV.—Import duties shall be considered payable on the landing of the goods, and duties of export on the shipment of the same.

Art. XXVI.—Whereas the tariff fixed by Article X. of the Treaty of Nanking and which was estimated so as to impose on imports and exports a duty of about the rate of five per cent. *ad valorem*, has been found, by reason of the fall in value of various articles of merchandise, therein enumerated, to impose a duty upon these considerably in excess of the rate originally assumed, as above, to be a fair rate, it is agreed that the said tariff shall be revised, and that as soon as the Treaty shall have been signed, application shall be made to the Emperor of China to depute a high officer of the Board of Revenue to meet, at Shanghai, officers to be deputed on behalf of the British Government, to consider its revision together, so that the tariff, as revised, may come into operation immediately after the ratification of this Treaty.

Art. XXVII.—It is agreed that either of the high contracting parties to this Treaty may demand a further revision of the tariff, and of the Commercial Articles of this Treaty, at the end of ten years; but if no demand be made on either side within six months after the end of the first ten years, then the tariff shall remain in force for ten years more, reckoned from the end of the preceding ten years, and so it shall be at the end of each successive ten years.

Art. XXVIII.—Whereas it was agreed in Article X. of the Treaty of Nanking that British imports, having paid the tariff duties, should be conveyed into the interior, free of all further charges, except a transit duty, the amount whereof was not to exceed a certain percentage on tariff value; and whereas no accurate information having been furnished of the amount of such duty, British merchants have constantly complained that charges are suddenly and arbitrarily imposed by the provincial authorities as transit duties upon produce on its way to the foreign market, and on imports on their way into the interior, to the detriment of trade; it is agreed that within four months from the signing of this Treaty, at all ports now open to British trade, and within a similar period at all ports that may hereafter be opened, the authority appointed to superintend the collection of duties shall be obliged, upon application of the Consul, to declare the amount of duties leviable on produce between the place of production and the port of shipment, and upon imports between the Consular port in question and the inland markets named by the Consul; and that a notification thereof shall be published in English and Chinese for general information.

But it shall be at the option of any British subject desiring to convey produce purchased inland to a port, or to convey imports from a port to an inland market, to clear his goods of all transit duties, by payment of a single charge. The amount of this charge shall be leviable on exports at the first barrier they may have to pass, or, on imports, at the port at which they are landed; and on payment thereof a certificate shall be issued, which shall exempt the goods from all further inland charges whatsoever.

It is further agreed that the amount of this charge shall be calculated, as nearly as possible, at the rate of two and a half per cent. *ad valorem*, and that it shall be fixed for each article at the conference to be held at Shanghai for the revision of the tariff.

It is distinctly understood that the payment of transit dues, by commutation or otherwise, shall in no way affect the tariff duties on imports or exports, which will continue to be levied separately and in full.

Art. XXIX.—British merchant vessels, of more than one hundred and fifty tons burden, shall be charged tonnage-dues at the rate of four mace per ton; if of one hundred and fifty tons and under, they shall be charged at the rate of one mace per ton.

Any vessel clearing from any of the open ports of China for any other of the open ports, or for Hongkong, shall be entitled, on application of the master, to a special certificate from the Customs, on exhibition of which she shall be exempted from all further payment of tonnage-dues in any open ports of China, for a period of four months, to be reckoned from the date of her port-clearance.

Art. XXX.—The master of any British merchant-vessel may within forty-eight hours after the arrival of his vessel, but not later, decide to depart without breaking bulk, in which case he will not be subject to pay tonnage-dues. But tonnage-dues shall be held due after the expiration of the said forty-eight hours. No other fees or charges upon entry or departure shall be levied.

Art. XXXI.—No tonnage-dues shall be payable on boats employed by British subjects in the conveyance of passengers, baggage, letters, articles of provision, or other articles not subject to duty, between any of the open ports. All cargo-boats, however, conveying merchandise subject to duty shall pay tonnage-dues once in six months, at the rate of four mace per register ton.

Art. XXXII.—The Consuls and Superintendents of Customs shall consult together regarding the erection of beacons or lighthouses, and the distribution of buoys and lightships, as occasion may demand.

Art. XXXIII.—Duties shall be paid to the bankers authorized by the Chinese Government to receive the same in its behalf, either in sycee or in foreign money according to the assay made at Canton on the thirteenth of July, one thousand eight hundred and forty-three.

Art. XXXIV.—Sets of standard weights and measures, prepared according to the standard issued to the Canton Custom-house by the Board of Revenue, shall be delivered by the Superintendent of Customs to the Consul at each port, to secure uniformity and prevent confusion.

Art. XXXV.—Any British merchant vessel arriving at one of the open ports shall be at liberty to engage the services of a pilot to take her into port. In like manner, after she has discharged all legal dues and duties and is ready to take her departure, she shall be allowed to select a pilot to conduct her out of port.

Art. XXXVI.—Whenever a British merchant vessel shall arrive off one of the open ports the Superintendent of Customs shall depute one or more Customs' officers to guard the ship. They shall either live in a boat of their own, or stay on board the ship, as may best suit their convenience. Their food and expenses shall be supplied them from the Custom-house, and they shall not be entitled to any fees whatever from the master or consignee. Should they violate this regulation, they shall be punished proportionately to the amount exacted.

Art. XXXVII.—Within twenty-four hours after arrival, the ship's papers, bills of lading, &c., shall be lodged in the hands of the Consul, who will within a further period of twenty-four hours report to the Superintendent of Customs the name of the ship, her register tonnage, and the nature of her cargo. If, owing to neglect on the part of the master, the above rule is not complied with within forty-eight hours after the ship's arrival, he shall be liable to a fine of fifty taels for every day's delay; the total amount of penalty, however, shall not exceed two hundred taels.

The master will be responsible for the correctness of the manifest, which shall contain a full and true account of the particulars of the cargo on board. For presenting a false manifest, he will subject himself to a fine of five hundred taels; but he will be allowed to correct, within twenty-four hours after delivery of it to the Customs' officers, any mistake he may discover in his manifest, without incurring this penalty.

Art. XXXVIII.—After receiving from the Consul the report in due form, the Superintendent of Customs shall grant the vessel a permit to open hatches. If the master shall open hatches, and begin to discharge any goods without such permission, he shall be fined five hundred taels, and the goods discharged shall be confiscated wholly.

Art. XXXIX.—Any British merchant who has cargo to land or ship, must apply to the Superintendent of Customs for a special permit. Cargo landed or shipped without such permit, will be liable to confiscation.

Art. XL.—No transshipment from one vessel to another can be made without special permission, under pain of confiscation of the goods so transhipped.

Art. XLI.—When all dues and duties shall have been paid, the Superintendent of Customs shall give a port-clearance, and the Consul shall then return the ship's papers, so that she may depart on her voyage.

Art. XLII.—With respect to articles subject, according to the tariff, to an *ad valorem* duty, if the British merchant cannot agree with the Chinese officer in affixing a value, then each party shall call two or three merchants to look at the goods, and the highest price at which any of these merchants would be willing to purchase them shall be assumed as the value of the goods.

Art. XLIII.—Duties shall be charged upon the net weight of each article, making a deduction for the tare, weight of congee, &c. To fix the tare of any articles, such as tea, if the British merchant cannot agree with the Custom-house officer, then each party shall choose so many chests out of every hundred, which being first weighed in gross, shall afterwards be tared, and the average tare upon these chests shall be assumed as the tare upon the whole; and upon this principle shall the tare be fixed upon all other goods and packages. If there should be any other points in dispute which cannot be settled, the British merchant may appeal to his Consul, who will communicate the particulars of the case to the Superintendent of Customs, that it may be equitably arranged. But the appeal must be made within twenty-four hours or it will not be attended to. While such points are still unsettled, the Superintendent of Customs shall postpone the insertion of the same in his books.

Art. XLIV.—Upon all damaged goods a fair reduction of duty shall be allowed, proportionate to their deterioration. If any disputes arise, they shall be settled in the manner pointed out in the clause of this Treaty having reference to articles which pay duty *ad valorem*.

Art. XLV.—British merchants who may have imported merchandise into any of the open ports, and paid the duty thereon, if they desire to re-export the same, shall be entitled to make application to the Superintendent of Customs, who, in order to prevent fraud on the revenue, shall cause examination to be made by suitable officers, to see that the duties paid on such goods, as entered in the Custom-house books, correspond with the representation made, and that the goods remain with their original marks unchanged. He shall then make a memorandum of the port-clearance of the goods, and of the amount of duties paid, and deliver the same to the merchant, and shall also certify the facts to the officers of Customs of the other ports. All which being done, on the arrival in port of the vessel in which the goods are laden, everything being found on examination there to correspond, she shall be permitted to break bulk, and land the said goods, without being subject to the payment of any additional duty thereon. But if, on such examination, the Superintendent of Customs shall detect any fraud on the revenue in the case, then the goods shall be subject to confiscation by the Chinese Government.

British merchants desiring to re-export duty-paid imports to a foreign country shall be entitled, on complying with the same conditions as in the case of re-exportation to another port in China, to a drawback certificate, which shall be a valid tender to the Customs in payment of import or export duties.

Foreign grain brought into any port of China in a British ship, if no part thereof has been landed, may be re-exported without hindrance.

Art. XLVI.—The Chinese authorities at each port shall adopt the means they may judge most proper to prevent the revenue suffering from fraud or smuggling.

Art. XLVII.—British merchant-vessels are not entitled to resort to other than the ports of trade declared open by this Treaty, they are not unlawfully to enter other ports in China, or to carry on clandestine trade along the coast thereof. Any vessel violating this provision, shall, with her cargo, be subject to confiscation by the Chinese Government.

Art. XLVIII.—If any British merchant-vessel be concerned in smuggling, the goods, whatever their value or nature, shall be subject to confiscation by the Chinese authorities, and the ship may be prohibited from trading further, and sent away as soon as her account shall have been adjusted and paid.

Art. XLIX.—All penalties enforced, or confiscations made, under this Treaty, shall belong and be appropriated to the public service of the Government of China.

Art. L.—All official communications, addressed by the Diplomatic and Consular Agents of Her Majesty the Queen to the Chinese Authorities, shall, henceforth, be written in English. They will for the present be accompanied by a Chinese version, but it is understood that, in the event of there being any difference of meaning between the English and Chinese text, the English Government will hold the sense as expressed in the English text to be the correct sense. This provision is to apply to the Treaty now negotiated, the Chinese text of which has been carefully corrected by the English original.

Art. LI.—It is agreed that henceforward the character 夷 "I" (barbarian) shall not be applied to the Government or subjects of Her Britannic Majesty, in any Chinese official document issued by the Chinese authorities, either in the capital or in the provinces.

Art. LII.—British ships of war coming for no hostile purpose, or being engaged in the pursuit of pirates, shall be at liberty to visit all ports within the dominions of the Emperor of China, and shall receive every facility for the purchase of provisions, procuring water, and, if occasion require, for the making of repairs. The commanders of such ships shall hold intercourse with the Chinese authorities on terms of equality and courtesy.

Art. LIII.—In consideration of the injury sustained by native and foreign commerce from the prevalence of piracy in the seas of China, the high contracting parties agree to concert measures for its suppression.

Art. LIV.—The British Government and its subjects are hereby confirmed in all privileges, immunities, and advantages conferred on them by previous Treaties: and it is hereby expressly stipulated that the British Government and its subjects will be allowed free and equal participation in all privileges, immunities, and advantages that

may have been, or may be hereafter, granted by His Majesty the Emperor of China to the Government or subjects of any other nation.

Art. LV.—In evidence of her desire for the continuance of a friendly understanding, Her Majesty the Queen of Great Britain consents to include in a Separate Article, which shall be in every respect of equal validity with the Articles of this Treaty, the conditions affecting indemnity for expenses incurred and losses sustained, in the matter of the Canton question.

Art. LVI.—The ratifications of this Treaty, under the hand of Her Majesty the Queen of Great Britain and Ireland, and His Majesty the Emperor of China, respectively, shall be exchanged at Peking, within a year from this day of signature.

In token whereof, the respective Plenipotentiaries have signed and sealed this Treaty. Done at Tientsin, this twenty-sixth day of June in the year of our Lord one thousand eight hundred and fifty-eight; corresponding with the Chinese date, the sixteenth day, fifth moon, of the eighth year of Hien Fung.

It is hereby agreed that a sum of two millions of taels, on account of the losses sustained by British subjects through the misconduct of the Chinese authorities at Canton, and a further sum of two millions of taels on account of the Military expenses of the expedition which Her Majesty the Queen has been compelled to send out for the purpose of obtaining redress, and of enforcing the due observance of Treaty provisions, shall be paid to Her Majesty's Representatives in China by the authorities of the Kwang-tung province.

The necessary arrangements with respect to the time and mode of effecting these payments shall be determined by Her Majesty's Representative, in concert with the Chinese authorities of Kwang-tung.

CONVENTION OF PEACE BETWEEN HER MAJESTY AND THE EMPEROR OF CHINA.

SIGNED AT PEKING 24TH OCTOBER, 1860.

Her Majesty the Queen of Great Britain and Ireland, and His Imperial Majesty the Emperor of China, being alike desirous to bring to an end the misunderstanding at present existing between their respective Governments, and to secure their relations against further interruption, have for this purpose appointed Plenipotentiaries, that is to say:—

Her Majesty the Queen of Great Britain and Ireland, the Earl of Elgin and Kincardine; and His Imperial Majesty the Emperor of China, His Imperial Highness the Prince of Kung; who having met and communicated to each other their full powers, and finding these to be in proper form, have agreed upon the following Convention, in Nine Articles:—

Art. I.—A breach of friendly relations having been occasioned by the act of the Garrison of Taku, which obstructed Her Britannic Majesty's Representative when on his way to Peking, for the purpose of exchanging the ratifications of the Treaty of Peace concluded at Tientsin in the month of June, one thousand eight hundred and fifty-eight, His Imperial Majesty the Emperor of China expresses his deep regret at the misunderstanding so occasioned.

Art. II.—It is further expressly declared, that the arrangement entered into at Shanghai, in the month of October, one thousand eight hundred and fifty-eight, between Her Britannic Majesty's Ambassador, the Earl of Elgin and Kincardine, and His Imperial Majesty's Commissioners Kweiliang and Hwashana, regarding the residence of Her Britannic Majesty's Representative in China, is hereby cancelled, and that, in accordance with Article III. of the Treaty of one thousand eight hundred and fifty-eight, Her Britannic Majesty's Representative will henceforward reside, permanently or occasionally, at Peking, as Her Britannic Majesty shall be pleased to decide.

Art. III.—It is agreed that the separate Article of the Treaty of one thousand eight hundred and fifty-eight is hereby annulled, and that in lieu of the amount of indemnity therein specified, His Imperial Majesty the Emperor of China shall pay the sum of eight millions of taels, in the following proportions or instalments, namely, —at Tientsin on or before the 30th day of November, the sum of five hundred thousand taels; at Canton, on or before the first day of December, one thousand eight hundred and sixty, three hundred and thirty-three thousand and thirty-three taels, less the sum which shall have been advanced by the Canton authorities toward the completion of the British Factory site of Shameen; and the remainder at the ports open to foreign trade, in quarterly payments, which shall consist of one-fifth of the gross revenue from Customs there collected; the first of the said payments being due on the thirty-first day of December, one thousand eight hundred and sixty, for the quarter terminating on that day.

It is further agreed that these moneys shall be paid into the hands of an officer whom Her Britannic Majesty's Representative shall specially appoint to receive them, and that the accuracy of the amount shall, before payment, be duly ascertained by British and Chinese officers appointed to discharge this duty.

In order to prevent future discussion it is moreover declared that of the eight millions of taels herein guaranteed, two millions will be appropriated to the indemnification of the British Mercantile Community at Canton, for losses sustained by them; and the remaining six millions to the liquidation of war expenses.

Art. IV.—It is agreed that on the day on which this Convention is signed, His Imperial Majesty the Emperor of China shall open the port of Tientsin to trade and that it shall be thereafter competent to British subjects to reside and trade there, under the same conditions as at any other port of China by treaty open to trade.

Art. V.—As soon as the ratifications of the Treaty of one thousand eight hundred and fifty-eight shall have been exchanged, His Imperial Majesty the Emperor of China will, by decree, command the high authorities of every province to proclaim throughout their jurisdictions that Chinese, in choosing to take service in British Colonies or other parts beyond sea, are at perfect liberty to enter into engagements with British subjects for that purpose, and to ship themselves and their families on board any British vessels at the open ports of China; also, that the high authorities aforesaid shall, in concert with Her Britannic Majesty's Representative in China, frame such regulations for the protection of Chinese emigrating as above as the circumstances of the different open ports may demand.

Art. VI.—With a view to the maintenance of law and order in and about the harbour of Hongkong, His Imperial Majesty the Emperor of China agrees to cede to Her Majesty the Queen of Great Britain and Ireland, Her heirs and successors, to have and to hold as a dependency of Her Britannic Majesty's Colony of Hongkong, that portion of the township of Kowloon, in the province of Kwang-tung, of which a lease was granted in perpetuity to Harry Smith Parkes, Esquire, Companion of the Bath, a Member of the Allied Commission at Canton, on behalf of Her Britannic Majesty's Government, by Lau Tsung-kwang, Governor-General of the Two Kwang.

It is further declared that the lease in question is hereby cancelled, that the claims of any Chinese to property on the said portion of Kowloon shall be duly investigated by a mixed Commission of British and Chinese officers, and that compensation shall be awarded by the British Government to any Chinese whose

claim shall be by that said Commission established, should his removal be deemed necessary by the British Government.

Art. VII.—It is agreed that the provisions of the Treaty of one thousand eight hundred and fifty-eight, except in so far as these are modified by the present Convention, shall without delay come into operation as soon as the ratifications of the Treaty aforesaid shall have been exchanged. It is further agreed, that no separate ratification of the present Convention shall be necessary, but that it shall take effect from the date of its signature, and be equally binding with the Treaty above mentioned on the high contracting parties.

Art. VIII.—It is agreed that as soon as the ratifications of the Treaty of the year one thousand eight hundred and fifty-eight shall have been exchanged, His Imperial Majesty the Emperor of China shall, by decree, command the high authorities in the capital, and in the provinces, to print and publish the aforesaid Treaty and the present Convention for general information.

Art. IX.—It is agreed that, as soon as the Convention shall have been signed, the ratifications of the Treaty of the year one thousand eight hundred and fifty-eight shall have been exchanged, and an Imperial Decree respecting the publication of the said Convention and Treaty shall have been promulgated, as provided for by Article VIII. of this Convention, Chusan shall be evacuated by Her Britannic Majesty's troops there stationed, and Her Britannic Majesty's force now before Peking shall commence its march towards the city of Tientsin, the forts of Taku, the north coast of Shan-tung, and the city of Canton, at each or all of which places, it shall be at the option of Her Majesty the Queen of Great Britain and Ireland to retain a force, until the indemnity of eight millions of taels, guaranteed in Article III., shall have been paid.

Done at Peking, in the Court of the Board of Ceremonies, on the twenty-fourth day of October, in the year our Lord one thousand eight hundred and sixty

* PROPORTIONATE DUTY IS TO BE CHARGED ON EXTRA WIDTH IN WOOLLENS.

R U L E S .

RULE I.—*Unenumerated Goods*.—Articles not enumerated in the list of exports, but enumerated in the list of imports, when exported, will pay the amount of duty set against them in the list of imports: and, similarly, articles not enumerated in the list of imports, but enumerated in the list of exports, when imported, will pay the amount of duty set against them in the list of exports.

Articles not enumerated in either list, nor in the list of duty-free goods, will pay an *ad valorem* duty of 5 per cent., calculated on their market value.

RULE II.—*Duty free Goods*.—Gold and silver bullion, foreign coins, flour, Indian meal, sago, biscuits, preserved meats and vegetables, cheese, butter, confectionery, foreign clothing, jewellery, plated-ware, perfumery, soap of all kinds, charcoal, firewood, candles (foreign), tobacco (foreign), cigars (foreign), wine, beer, spirits, household stores, ship's stores, personal baggage, stationery, carpeting, druggeting, cutlery, foreign medicines, glass, and crystal ware.

The above pay no import or export duty, but, if transported into the interior will, with the exception of personal baggage, gold and silver bullion, and foreign coins, pay a transit duty at the rate of $2\frac{1}{2}$ per cent. *ad valorem*.

A freight, or part freight of duty-free commodities (personal baggage, gold and silver bullion, and foreign coins, excepted) will render the vessel carrying them, though no other cargo be on board, liable to tonnage dues.

RULE III.—*Contraband Goods*.—Import and export trade is alike prohibited in the following articles: Gunpowder, shot, cannon, fowling-pieces, rifles, muskets, pistols, and all other munitions and implements of war; and salt.

RULE IV.—*Weights and Measures*.—In the calculation of the Tariff, the weight of a picul of one hundred catties is held to be equal to one hundred and thirty-three and one-third pounds avoirdupois; and the length of a chang of ten Chinese feet to be equal to one hundred and forty-one English inches.

One Chinese chih is held to be equal to fourteen and one-tenth inches English; and four yards English, less three inches, to equal one chang.

RULE V.—*Regarding certain Commodities heretofore Contraband*.—The restrictions affecting trade in opium, cash, grain, pulse, sulphur, brimstone, saltpetre, and spelter are relaxed, under the following conditions:—

1.—*Opium will henceforth pay thirty taels per picul import duty. The importer will sell it only at the port. It will be carried into the interior by Chinese only, and only as Chinese property; the foreign trader will not be allowed to accompany it. The provisions of Article IX. of the Treaty of Tientsin, by which British subjects are authorized to proceed into the interior with passports to trade, will not extend to it, nor will those of Article XXVIII. of the same treaty, by which the transit-dues are regulated. The transit dues on it will be arranged as the Chinese Government see fit: nor in future revisions of the Tariff is the same rule of revision to be applied to opium as to other goods.

2.—*Copper Cash*.—The export of cash to any foreign port is prohibited; but it shall be lawful for British subjects to ship it at one of the open ports of China to another, on compliance with the following Regulation:—The shipper shall give notice of the amount of cash he desires to ship, and the port of its destination, and shall bind himself, either by a bond, with two sufficient sureties, or by depositing such other

* For duty on Opium see Convention signed in 1885.

security as may be deemed by the Customs satisfactory, to return, within six months from the date of clearance, to the collector at the port of shipment, the certificate issued by him, with an acknowledgment thereon of the receipt of the cash at the port of destination by the collector at that port, who shall thereto affix his seal; or failing the production of the certificate, to forfeit a sum equal in value to the cash shipped. Cash will pay no duty inwards or outwards; but a freight or part freight of cash, though no other cargo be on board, will render the vessel carrying it liable to pay tonnage dues.

3.—The export of rice and all other grain whatsoever, native or foreign, no matter where grown or whence imported, to any foreign port, is prohibited; but these commodities may be carried by British merchants from one of the open ports of China to another, under the same conditions in respect of security as cash, on payment at the port of shipment of the duty specified in the Tariff.

No import duty will be leviable on rice or grain; but a freight or part freight of rice or grain, though no other cargo be on board, will render the vessel importing it liable to tonnage dues.

4.—*The export of pulse and beancake from Tung-chau and Newchwang, under the British flag, is prohibited. From any other of the ports they may be shipped, on payment of the tariff duty, either to other ports of China, or to foreign countries.

5.—Saltpetre, sulphur, brimstone, and spelter, being munitions of war, shall not be imported by British subjects, save at the requisition of the Chinese Government, or for sale to Chinese duly authorized to purchase them. No permit to land them will be issued until the Customs have proof that the necessary authority has been given to the purchaser. It shall not be lawful for British subjects to carry these commodities up the Yang-tsze-kiang, or into any port other than those open on the seaboard, nor to accompany them into the interior on behalf of Chinese. They must be sold at the ports only, and, except at the ports, they will be regarded as Chinese property.

Infractions of the conditions, as above set forth, under which trade in opium, cash, grain, pulse, saltpetre, brimstone, sulphur, and spelter may be henceforward carried on, will be punishable by confiscation of all the goods concerned.

RULE VI.—*Liability of Vessels entering Port.*—To the prevention of misunderstanding, it is agreed that the term of twenty-four hours, within which British vessels must be reported to the Consul under Article XXXVII. of the Treaty of Tientsin, shall be understood to commence from the time a British vessel comes within the limits of the port; as also the term of forty-eight hours allowed her by Article XXX. of the same Treaty to remain in port without payment of tonnage dues.

The limits of the ports shall be defined by the Customs, with all consideration for the convenience of trade compatible with due protection of the revenue; also the limits of the anchorages within which lading and discharging is permitted by the Customs; and the same shall be notified to the Consul for public information.

RULE VII.—*Transit Dues.*—It is agreed that Article XXXVIII. of the Treaty of Tientsin shall be interpreted to declare the amounts of transit dues legally leviable upon merchandise imported or exported by British subjects, to be one-half of the tariff duties, except in the case of the duty-free goods liable to a transit duty of $2\frac{1}{2}$ per cent *ad valorem*, as provided in Article II. of these Rules. Merchandise shall be cleared of its transit dues under the following conditions:—

In the case of Imports.—Notice being given at the port of entry, from which the Imports are to be forwarded inland, of the nature and quantity of the goods, the ship from which they have been landed, and the place inland to which they are bound.

• NOTIFICATION.

BRITISH CONSULATE, SHANGHAI, 24th March, 1863.

Article IV. of Rule No. 5 appended to the Tariff of 1858 is rescinded.

Pulse and bean-cake may be henceforth exported from Tungchow and Newchwang, and from all other ports in China open by Treaty, on the same terms and conditions as are applied to other Native produce by the Regulation bearing date the 5th December last; that is to say, they may be shipped on payment of Tariff duty at the port of shipment, and discharged at any Chinese port on payment of half-duty, with power to claim drawback of the half-duty if re-exported.

By order, WALTER H. MEDHURST, Consul.

with all other necessary particulars, the Collector of Customs will, on due inspection made, and on receipt of the transit-duty due, issue a transit-duty certificate. This must be produced at every barrier station, and *viséd*. No further duty will be leviable upon imports so certificated, no matter how distant the place of their destination.

In the case of Exports.—Produce purchased by a British subject in the interior will be inspected, and taken account of, at the first barrier it passes on its way to the port of shipment. A memorandum showing the amount of the produce and the port at which it is to be shipped, will be deposited there by the person in charge of the produce; he will then receive a certificate, which must be exhibited and *viséd* at every barrier, on his way to the port of shipment. On the arrival of the produce at the barrier nearest the port notice must be given at the Customs at the port, and the transit-dues due thereon being paid, it will be passed. On exportation the produce will pay the tariff-duty*.

Any attempt to pass goods inwards or outwards otherwise than in compliance with the rule here laid down, will render them liable to confiscation.

Unauthorized sale, *in transitu*, of goods that have been entered as above for a port, will render them liable to confiscation. Any attempt to pass goods in excess of the quantity specified in the certificate will render all the goods of the same denomination, named in the certificate, liable to confiscation. Permission to export produce, which cannot be proved to have paid its transit-dues, will be refused by the Customs until the transit-dues shall have been paid. The above being the arrangement agreed to regarding the transit-dues, which will thus be levied once and for all, the notification required under Article XXVIII. of the Treaty of Tientsin, for the information of British and Chinese subjects, is hereby dispensed with.

RULE VIII.—*Peking not open to Trade.*—It is agreed that Article IX. of the Treaty of Tientsin shall not be interpreted as authorising British subjects to enter the capital city of Peking for purposes of trade.

RULE IX.—*Abolition of the Melting Fee.*—It is agreed that the percentage of one tael two mace, hitherto charged in excess of duty payments to defray the expenses of melting by the Chinese Government, shall be no longer levied on British subjects.

RULE X.—*Collection of Duties under one System at all Ports.*—It being by Treaty at the option of the Chinese Government to adopt what means appear to it best suited to protect its revenue accruing on British trade, it is agreed that one uniform system shall be enforced at every port.

The high officer appointed by the Chinese Government to superintend foreign trade will, accordingly, from time to time, either himself visit, or will send a deputy to visit the different ports. The said high officer will be at liberty, of his own choice, and independently of the suggestion or nomination of any British authority, to select any British subject he may see fit to aid him in the administration of the Customs' revenue, in the prevention of smuggling, in the definition of port boundaries, or in discharging the duties of harbour master; also in the distribution of lights, buoys, beacons, and the like, the maintenance of which shall be provided for out of the tonnage-dues.

The Chinese Government will adopt what measures it shall find requisite to prevent smuggling upon the Yang-tsze-kiang, when that river shall be opened to trade.

**RULES FOR JOINT INVESTIGATION IN CASES OF CONFISCATION
AND FINE BY THE CUSTOM HOUSE AUTHORITIES.***

Agreed to and Promulgated by the British Minister at Peking, 31st May, 1868.

RULE I.—It shall be the Rule for all business connected with the Custom House Department to be in the first instance transacted between the Commissioner of Customs and the Consul, personally or by letter; and procedure in deciding cases shall be taken in accordance with the following Regulations.

RULE II.—Whenever a ship or goods belonging to a foreign merchant is seized in a port in China by the Custom House officers, the seizure shall be reported without delay to the Kien-tuh, or Chinese Superintendent of Customs. If he considers the seizure justifiable, he will depute the Shwui-wu-sze, or foreign Commissioner of Customs, to give notice to the party to whom the ship or goods are declared to belong that they have been seized because such or such an irregularity has been committed, and that they will be confiscated, unless, before noon on a certain day being the sixth day from the delivery of the notice, the Custom House authorities receive from the Consul an official application to have the case fully investigated.

The merchant to whom the ship or goods belong, if prepared to maintain that the alleged irregularity has not been committed, is free to appeal, within the limited time, directly to the Commissioner, who is to inform the Superintendent. If satisfied with his explanations, the Superintendent will direct the release of the ship or goods; otherwise, if the merchant elect not to appeal to the Customs, or if, after receiving his explanations, the Superintendent still declines to release the ship or goods, he may appeal to his Consul, who will inform the Superintendent of the particulars of this appeal, and request him to name a day for them both to investigate and try the case publicly.

RULE III.—The Superintendent, on receipt of the Consul's communication, will name a day for meeting at the Custom House; and the Consul will direct the merchant to appear with his witnesses there on the day named, and will himself on that day proceed to the Custom House. The Superintendent will invite the Consul to take his seat with him on the bench; the Commissioner of Customs will also be seated to assist the Superintendent.

Proceedings will be opened by the Superintendent, who will call on the Customs' employes who seized the ship or goods to state the circumstances which occasioned the seizure, and will question them as to their evidence. Whatever the merchant may have to advance in contradiction of their evidence he will state to the Consul, who will cross-examine them for him. Such will be the proceedings in the interest of truth and equity. The Consul and Superintendent may, if they see fit, appoint deputies to meet at the Custom House in their stead, in which case the order of proceeding will be the same as if they were present in person.

RULE IV.—Notes will be taken of the statements of all parties examined, a copy of which will be signed and sealed by the Consul and Superintendent. The room will then be cleared, and the Superintendent will inform the Consul of the course he proposes to pursue. If he proposes to confiscate the vessel or goods, and the Consul dissents, the merchant may appeal and the Consul, having given notice of the appeal to the Superintendent, they will forward certified copies of the above notes to Peking—the former to his Minister, and the latter to the Foreign Office, for their decision.

If the Consul agrees with the Superintendent that the ship or goods ought to be confiscated, the merchant will not have the right of appeal; and in no case will the release of ship or goods entitle him to claim indemnity for their seizure, whether they be released after the investigation at the Custom House, or after the appeal to the high authorities of both nations at Peking.

RULE V.—The case having been referred to superior authority, the merchant interested shall be at liberty to give a bond, binding himself to pay the full value of

* Substituted for the Rules agreed upon in 1865 between the Chinese Government and Her Britannic Majesty's Plenipotentiary.

the ship or goods attached should the ultimate decision be against him; which bond being sealed with the Consular seal, and deposited at the Custom House, the Superintendent will restore to the merchant the ship or goods attached; and when the superior authorities shall have decided whether so much money is to be paid, or the whole of the property seized be confiscated, the merchant will be called on to pay accordingly. If he decline to give the necessary security, the ship or merchandise attached will be detained. But whether the decision of the superior authorities be favourable or not, the appellant will not be allowed to claim indemnity.

RULE VI.—When the act of which a merchant at any port is accused is not one involving the confiscation of ship or cargo, but is one which, by Treaty or Regulation, is punishable by fine, the Commissioner will report the case to the Superintendent, and at the same time cause a plaint to be entered in the Consular Court. The Consul will fix the day of the trial, and inform the Commissioner that he may then appear with the evidence and the witnesses in the case. And the Commissioner, either personally or by deputy, shall take his seat on the bench, and conduct the case on behalf of the prosecution.

When the Treaty or Regulations affix a specific fine for the offence, the Consul shall on conviction give judgment for that amount, the power of mitigating the sentence resting with the Superintendent and Commissioner. If the defendant is acquitted, and the Commissioner does not demur to the decision, the ship or goods, if any be under seizure, shall at once be released, and the circumstances of the case be communicated to the Superintendent. The merchant shall not be put to any expense by delay, but he shall have no claim for compensation on account of hindrance in his business, for loss of interest, or for demurrage. If a difference of opinion exist between the Commissioner and Consul, notice to that effect shall be given to the Superintendent, and copies of the whole proceedings forwarded to Peking for the consideration of their respective high authorities. Pending their decision, the owner of the property must file a bond in the Consular Court to the full value of the proposed fine, which will be sent to the Custom House authorities by the Consul, and the goods or ship will be released.

RULE VII.—If the Custom House authorities and Consul cannot agree as to whether certain duties are leviable or not, action must be taken as Rule V. directs, and the merchant must sign a bond for the value of the duties in question. The Consul will affix his seal to this document, and send it to the Custom House authorities, when the Superintendent will release the goods without receiving the duty; and these two functionaries will respectively send statements of the case to Peking,—one to his Minister, the other to the Foreign Office.

If it shall be decided there that no duty shall be levied, the Custom House authorities will return the merchant's bond to the Consul to be cancelled; but if it be decided that a certain amount of duty is leviable, the Consul shall require the merchant to pay it in at the Custom House.

RULE VIII.—If the Consul and the Custom House authorities cannot agree as to whether confiscation of a ship, or a cargo, or both of them together, being the property of a foreign merchant, shall take place, the case must be referred to Peking for the decision of the Foreign Office, and the Minister of his nation. Pending their decision, the merchant must, in accordance with Rule V., sign a bond for the amount, to which the Consul will affix his seal, and send it for deposit at the Custom House.

As difference of opinion as to the value [of ship or goods] may arise, the valuation of the merchant will be decisive; and the Custom House authorities may, if they see fit, take over either at the price aforesaid.

If after such purchase it be decided that the property seized ought to be confiscated, the merchant must redeem his bond by paying in at the Custom House the original amount of the purchase-money. If the decision be against confiscation, the bond will be returned to the Consul for transmission to the merchant, and the case then be closed. The sum paid by the Custom House authorities for ship or goods being regarded as their proper price, it will not be in the merchant's power, by a tender of the purchase-money, to recover them.

THE CHEFOO CONVENTION;
WITH ADDITIONAL ARTICLE THERETO FOR REGULATING THE
TRAFFIC IN OPIUM.;

SIGNED, IN THE ENGLISH AND CHINESE LANGUAGES, AT CHEFOO,
13TH SEPTEMBER, 1876.

Ratifications exchanged at London, 6th May, 1886.

Agreement negotiated between Sir Thomas Wade, K.C.B., Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary at the Court of China, and Li, Minister Plenipotentiary of His Majesty the Emperor of China, Senior Grand Secretary, Governor-General of the Province of Chih-li, of the First Class of the Third Order of Nobility.

The negotiation between the Ministers above named has its origin in a despatch received by Sir Thomas Wade, in the Spring of the present year, from the Earl of Derby, Principal Secretary of State for Foreign Affairs, dated 1st January, 1876. This contained instructions regarding the disposal of three questions, first, a satisfactory settlement of the Yünnan affair; secondly, a faithful fulfilment of engagements of last year respecting intercourse between the high officers of the two Governments; thirdly, the adoption of a uniform system in satisfaction of the understanding arrived at in the month of September, 1875 (8th moon of the 1st year of the reign Kwang Su), on the subject of rectification of conditions of trade. It is to this despatch that Sir Thomas Wade has referred himself in discussions on these questions with the Tsung-li Yamên, farther reference to which is here omitted as superfluous. The conditions now agreed to between Sir Thomas Wade and the Grand Secretary are as follow :—

SECTION I.—*Settlement of the Yünnan Case.*

1.—A Memorial is to be presented to the Throne, whether by the Tsung-li Yamên or by the Grand Secretary Li is immaterial, in the sense of the memorandum prepared by Sir Thomas Wade. Before presentation the Chinese text of the Memorial is to be shown to Sir Thomas Wade.

2.—The Memorial having been presented to the Throne, and the Imperial Decree in reply received, the Tsung-li Yamên will communicate copies of the Memorial and Imperial decree to Sir Thomas Wade, together with copy of a letter from the Tsung-li Yamên to the Provincial Governments, instructing them to issue a proclamation that shall embody at length the above Memorial and Decree. Sir Thomas Wade will thereon reply to the effect that for two years to come officers will be sent by the British Minister to different places in the provinces to see that the proclamation is posted. On application from the British Minister or the Consul of any port instructed by him to make application, the high officers of the provinces will depute competent officers to accompany those so sent to the places which they go to observe.

3.—In order to the framing of such regulations as will be needed for the conduct of the frontier trade between Burmah and Yünnan, the Memorial submitting the proposed settlement of the Yünnan affair will contain a request that an Imperial Decree be issued directing the Governor-General and Governor, whenever the British Government shall send officers to Yünnan, to select a competent officer of rank to confer with them and to conclude a satisfactory arrangement.

4.—The British Government will be free for five years, from the 1st January next, being the 17th day of the 11th moon of the 2nd year of the reign Kwang Su, to station officers at Ta-li Fu, or at some other suitable place in Yünnan, to observe the conditions of trade; to the end that they may have information upon which to base the regulations of trade when these have to be discussed. For the consideration and adjustment of any matter affecting British officers or subjects, these officers will be free to address themselves to the authorities of the province. The opening of the trade may be proposed by the British Government as it may find best at any time within the term of five years, or upon expiry of the term of five years.

Passports having been obtained last year for a Mission from India into Yünnan, it is open to the Viceroy of India to send such Mission at any time he may see fit.

3.—The amount of indemnity to be paid on account of the families of the officers and others killed in Yünnan, on account of the expenses which the Yünnan case has occasioned, and on account of claims of British merchants arising out of the action of officers of the Chinese Government up to the commencement of the present year, Sir Thomas Wade takes upon himself to fix at two hundred thousand taels, payable on demand.

6.—When the case is closed an Imperial letter will be written expressing regret for what has occurred in Yünnan. The Mission bearing the Imperial Letter will proceed to England immediately. Sir Thomas Wade is to be informed of the constitution of this Mission for the information of his Government. The text of the Imperial Letter is also to be communicated to Sir Thomas Wade by the Tsung-li Yamên.

SECTION II.—*Official Intercourse.*

Under this heading are included the conditions of intercourse between high officers in the capital and the provinces, and between Consular officers and Chinese officials at the ports; also the conduct of judicial proceedings in mixed cases.

1.—In the Tsung-li Yamên's Memorial of the 28th September, 1875, the Prince of Kung and the Ministers stated that their object in presenting it had not been simply the transaction of business in which Chinese and Foreigners might be concerned; missions abroad and the question of diplomatic intercourse lay equally within their prayer.

To the prevention of farther misunderstanding upon the subject of intercourse and correspondence, the present conditions of both having caused complaint in the capital and in the provinces, it is agreed that the Tsung-li Yamên shall address a circular to the Legations, inviting Foreign Representatives to consider with them a code of etiquette, to the end that foreign officials in China, whether at the ports or elsewhere, may be treated with the same regard as is shown them when serving abroad in other countries and as would be shown to Chinese agents so serving abroad.

The fact that China is about to establish Missions and Consulates abroad renders an understanding on these points essential.

2.—The British Treaty of 1858, Article XVI., lays down that "Chinese subjects who may be guilty of any criminal act towards British subjects shall be arrested and punished by Chinese authorities according to the laws of China."

"British subjects who may commit any crime in China shall be tried and punished by the Consul, or any other public functionary authorised thereto, according to the laws of Great Britain."

"Justice shall be equitably and impartially administered on both sides."

The words "functionary authorised thereto" are translated in the Chinese text "British Government."

In order to the fulfilment of its Treaty obligations, the British Government has established a Supreme Court at Shanghai, with a special code of rules, which it is now about to revise. The Chinese Government has established at Shanghai a Mixed Court; but the officer presiding over it, either from lack of power or dread of unpopularity, constantly fails to enforce his judgments.

It is now understood that the Tsung-li Yamên will write a circular to the Legations, inviting Foreign Representatives at once to consider with the Tsung-li Yamên

the measures needed for the more effective administration of justice at the Ports open to Trade.

3.—It is agreed that, whenever a crime is committed affecting the person or property of a British subject, whether in the interior or at the open ports, the British Minister shall be free to send officers to the spot to be present at the investigation.

To the prevention of misunderstanding on this point, Sir Thomas Wade will write a Note to the above effect, to which the Tsung-li Yamèn will reply, affirming that this is the course of proceeding to be adhered to for the time to come.

It is further understood that so long as the laws of the two countries differ from each other, there can be but one principle to guide judicial proceedings in mixed cases in China, namely, that the case is tried by the official of the defendant's nationality; the official of the plaintiff's nationality merely attending to watch the proceedings in the interests of justice. If the officer so attending be dissatisfied with the proceedings, it will be in his power to protest against them in detail. The law administered will be the law of the nationality of the officer trying the case. This is the meaning of the words *hui t'ung*, indicating combined action in judicial proceedings, in Article XVI. of the Treaty of Tientsin; and this is the course to be respectively followed by the officers of either nationality.

SECTION III.—Trade.

1.—With reference to the area within which, according to the treaties in force, *lekin* ought not to be collected on foreign goods at the open ports, Sir Thomas Wade agrees to move his Government to allow the ground rented by foreigners (the so-called Concessions) at the different ports, to be regarded as the area of exemption from *lekin*; and the Government of China will thereupon allow I-ch'ang, in the province of Hu-pei; Wu-hu, in An-hui; Wen-chôw, in Che-kiang; and Pei-hai (Pak-hoi), in Kwang-tung to be added to the number of ports open to trade and to become Consular stations. The British Government will, farther, be free to send officers to reside at Ch'ung-k'ing, to watch the conditions of British trade in Ssu-ch'uen. British merchants will not be allowed to reside at Ch'ung-k'ing, or to open establishments or warehouses there so long as no steamers have access to the port. When steamers have succeeded in ascending the river so far, further arrangements can be taken into consideration.

It is farther proposed as a measure of compromise that at certain points on the shore of the Great River, namely, Ta-t'ung and Ngan-Ching, in the province of An-hui; Ho-Kou, in Kiang-si; Wu-suëh, Lu-chi kou, and Sha-shih in Hu-Kwang; these being all places of trade in the interior, at which, as they are not open ports, foreign merchants are not legally authorised to land or ship goods, steamers shall be allowed to touch for the purpose of landing or shipping passengers or goods; but in all instances by means of native boats only, and subject to the regulations in force affecting native trade.

Produce accompanied by a half-duty certificate may be shipped at such points by the steamers, but may not be landed by them for sale. And at all such points, except in the case of imports accompanied by a transit duty certificate or exports similarly certificated, which will be severally passed free of *lekin* on exhibition of such certificates, *lekin* will be duly collected on all goods whatever by the native authorities. Foreign merchants will not be authorised to reside or open houses of business or warehouses at the places enumerated as ports of call.

2.—At all ports open to trade, whether by earlier or later agreement, at which no Settlement area has been previously defined, it will be the duty of the British Consul, acting in concert with his colleagues, the Consuls of other Powers, to come to an understanding with the local authorities regarding the definition of the foreign settlement area.

3.—On Opium, Sir Thomas Wade will move his Government to sanction an arrangement different from that affecting other imports. British merchants, when opium is brought into port, will be obliged to have it taken cognisance of by the Customs, and deposited in bond, either in a warehouse or a receiving hulk, until such time as there is a sale for it. The importer will then pay the tariff duty upon it.

and the purchasers the *lekin*; in order to the prevention of evasion of the treaty. The amount of *lekin* to be collected will be decided by the different Provincial Governments according to the circumstances of each.

4.—The Chinese Government agrees that Transit Duty Certificates shall be framed under one rule at all ports, no difference being made in the conditions set forth therein; and that, so far as imports are concerned, the nationality of the person possessing and carrying these is immaterial. Native produce carried from an inland centre to a port of shipment, if *bonâ fide* intended for shipment to a foreign port, may be, by treaty, certified by the British subject interested, and exempted by payment of the half duty from all charges demanded upon it *en route*. If produce be not the property of a British subject, or is being carried to a port not for exportation, it is not entitled to the exemption that would be secured it by the exhibition of a transit duty certificate. The British Minister is prepared to agree with the Tsung-li Yamên upon rules that will secure the Chinese Government against abuse of the privilege as affecting produce.

The words *nei-ti*, inland, in the clause of Article VII. of the Rules appended to the Tariff, regarding carriage of imports inland, and of native produce purchased inland, apply as much to places on the sea coasts and river shores, as to places in the interior not open to foreign trade; the Chinese Government having the right to make arrangements for the prevention of abuses thereat.

5.—Article XLV. of the Treaty of 1858 prescribed no limit to the term within which a drawback may be claimed upon duty paid imports. The British Minister agrees to a term of three years, after expiry of which no drawback shall be claimed.

6.—The foregoing stipulation, that certain ports are to be opened to foreign trade, and that landing and shipping of goods at six places on the Great River is to be sanctioned, shall be given effect to within six months after receipt of the Imperial Decree approving the memorial of the Grand Secretary Li. The date for giving effect to the stipulations affecting exemption of imports from *lekin* taxation within the foreign settlements and the collection of *lekin* upon opium by the Customs Inspectorate at the same time as the Tariff Duty upon it, will be fixed as soon as the British Government has arrived at an understanding on the subject with other foreign Governments.

7.—The Governor of Hongkong having long complained of the interference of the Canton Customs Revenue Cruisers with the junk trade of that Colony, the Chinese Government agrees to the appointment of a Commission, to consist of a British Consul, an officer of the Hongkong Government, and a Chinese official of equal rank, in order to the establishment of some system that shall enable the Chinese Government to protect its revenue without prejudice to the interests of the Colony.

Separate Article.

Her Majesty's Government having it in contemplation to send a Mission of Exploration next year by way of Peking through Kan-su and Koko-Nor, or by way of Ssu-chuen, to Thibet, and thence to India, the Tsung-li Yamên, having due regard to the circumstances, will, when the time arrives, issue the necessary passports, and will address letters to the high provincial authorities and to the Resident in Thibet. If the Mission should not be sent by these routes, but should be proceeding across the Indian frontier to Thibet, the Tsung-li Yamên, on receipt of a communication to the above effect from the British Minister, will write to the Chinese Resident in Thibet, and the Resident, with due regard to the circumstances, will send officers to take due care of the Mission; and passports for the Mission will be issued by the Tsung-li Yamên, that its passage be not obstructed.

*Additional Article to the Agreement between Great Britain and China
signed at Chefoo on the 13th September, 1876.*

SIGNED AT LONDON, 18TH JULY, 1885.

The Governments of Great Britain and of China, considering that the arrangements proposed in clauses 1 and 2 of Section III. of the Agreement between Great Britain and China, signed at Chefoo on the 13th September, 1876 (hereinafter referred to as the "Chefoo Agreement"), in relation to the area within which *li-kin* ought not to be collected on foreign goods at the open ports, and to the definition of the foreign Settlement area, require further consideration; also that the terms of clause 3 of the same section are not sufficiently explicit to serve as an efficient regulation for the traffic in opium, and recognizing the desirability of placing restrictions on the consumption of opium, have agreed to the present Additional Article.

1.—As regards the arrangements above referred to and proposed in clauses 1 and 2 of Section III. of the Chefoo Agreement, it is agreed that they shall be reserved for further consideration between the two Governments.

2.—In lieu of the arrangement respecting opium proposed in clause 3 of Section III. of the Chefoo Agreement, it is agreed that foreign opium, when imported into China, shall be taken cognizance of by the Imperial Maritime Customs, and shall be deposited in bond, either in warehouse or receiving-hulks which have been approved of by the Customs, and that it shall not be removed thence until there shall have been paid to the Customs the Tariff duty of 30 taels per chest of 100 catties, and also a sum not exceeding 80 taels per like chest as *li-kin*.

3.—It is agreed that the aforesaid import and *li-kin* duties having been paid, the owner shall be allowed to have the opium repacked in bond under the supervision of the Customs, and put into packages of such assorted sizes as he may select from such sizes as shall have been agreed upon by the Customs authorities and British Consul at the port of entry.

The Customs shall then, if required, issue gratuitously to the owner a transit certificate for each such package, or one for any number of packages, at the option of the owner.

Such certificate shall free the opium to which it applies from the imposition of any further tax or duty whilst in transport in the interior, provided that the package has not been opened, and that the Customs seals, marks, and numbers on the packages have not been effaced or tampered with.

Such certificates shall have validity only in the hands of Chinese subjects, and shall not entitle foreigners to convey or accompany any opium in which they may be interested into the interior.

4.—It is agreed that the Regulations under which the said certificates are to be issued shall be the same for all the ports, and that the form shall be as follows:—

"Opium Transit Certificate."

"This is to certify that Tariff and *li-kin* duties at the rate of taels per chest of 100 catties have been paid on the opium marked and numbered as under; and that, in conformity with the Additional Article signed at London the 18th July, 1885, and appended to the Agreement between Great Britain and China signed at Chefoo the 13th September, 1876, and approved by the Imperial Decree printed on the back hereof, the production of this certificate will exempt the opium to which it refers, wherever it may be found, from the imposition of any further tax or duty whatever, provided that the packages are unbroken, and the Customs seals, marks, and numbers have not been effaced or tampered with.

5.—The Chinese Government undertakes that when the packages shall have been opened at the place of consumption, the opium shall not be subjected to any tax or contribution, direct or indirect, other than or in excess of such tax or contribution as is or may hereafter be levied on native opium.

In the event of such tax or contribution being calculated *ad valorem*, the same rate, value for value, shall be assessed on foreign and native opium, and in ascertaining for this purpose the value of foreign opium the amount paid on it for *li-kin* at the port of entry shall be deducted from its market value.

6.—It is agreed that the present Additional Article shall be considered as forming part of the Chefoo Agreement, and that it shall have the same force and validity as if it were inserted therein word for word.

It shall come into operation six months after its signature, provided the ratifications have then been exchanged, or if they have not, then on the date at which such exchange takes place.

7.—The arrangement respecting opium contained in the present Additional Article shall remain binding for four years, after the expiration of which period either Government may at any time give twelve months' notice of its desire to terminate it, and such notice being given, it shall terminate accordingly.

It is, however, agreed that the Government of Great Britain shall have the right to terminate the same at any time, should the transit certificate be found not to confer on the opium complete exemption from all taxation whatsoever whilst being carried from the port of entry to the place of consumption in the interior.

In the event of the termination of the present Additional Article the arrangement with regard to opium now in force under the regulations attached to the Treaty of Tientsin shall revive.

8.—The High Contracting Parties may, by common consent, adopt any modifications of the provisions of the present Additional Article which experience may show to be desirable.

9.—It is understood that the Commission provided for in clause 7 of Section III, of the Chefoo Agreement to inquire into the question of the prevention of smuggling into China from Hongkong shall be appointed as soon as possible.

10.—The Chefoo Agreement, together with, and as modified by, the present Additional Article, shall be ratified, and the ratifications shall be exchanged at London as soon as possible.

In witness whereof the Undersigned, duly authorized thereto by their respective Governments, have signed the present Additional Article, and have affixed thereto their seals.

Done at London, in quadruplicate (two in English and two in Chinese), this 18th day of July, 1885, being the seventh day of the sixth moon in the eleventh year of the reign of Kwang Su.

FRANCE.

TREATY OF PEACE, FRIENDSHIP, COMMERCE, AND NAVIGATION BETWEEN FRANCE AND CHINA.

SIGNED, IN THE FRENCH AND CHINESE LANGUAGES, AT TIENTSIN, 27TH JUNE, 1858

Ratifications Exchanged at Peking, 25th October, 1860.

His Majesty the Emperor of the French and His Majesty the Emperor of China, being desirous to put an end to the existing misunderstanding between the two Empires, and wishing to re-establish and improve the relations of friendship, commerce, and navigation between the two powers, have resolved to conclude a new treaty based on the common interest of the two countries, and for that purpose have named as their plenipotentiaries, that is to say:—

His Majesty the Emperor of the French, Baron Gros, Grand Officer of the Legion of Honour, Grand Cross of the Order of the Saviour of Greece, Commander of the Order of the Conception of Portugal, &c., &c., &c.

And His Majesty the Emperor of China, Kweiliang, Imperial High Commissioner of the Ta-Tsing Dynasty, Grand Minister of the East Palace, Director-General of the Council of Justice, &c., &c., &c.; and Hwashana, Imperial High Commissioner of the Ta-Tsing Dynasty, President of the Board of Finance, General of the Bordered Blue Banner of the Chinese Banner Force, &c., &c., &c.;

Who, having exchanged their full powers, which they have found in good and due form, have agreed upon the following Articles:—

Art. I.—There shall be perpetual peace and friendship between His Majesty the Emperor of the French and His Majesty the Emperor of China, and between the subjects of the two Empires, who shall enjoy equally in the respective states of the high contracting parties full and entire protection for their persons and property.

Art. II.—In order to maintain the peace so happily re-established between the two empires it has been agreed between the high contracting parties that, following in this respect the practice amongst Western nations, the duly accredited diplomatic agents of His Majesty the Emperor of the French to His Majesty the Emperor of China shall have the right of resorting to the capital of the empire when important affairs call them there. It is agreed between the high contracting parties that if any one of the powers having a treaty with China obtains for its diplomatic agents the right of permanently residing at Peking, France shall immediately enjoy the same right.

The diplomatic agents shall reciprocally enjoy, in the place of their residence, the privileges and immunities accorded to them by international law, that is to say, that their persons, their families, their houses, and their correspondence, shall be inviolable, that they may take into their service such employés, couriers, interpreters, servants, &c., &c., as shall be necessary to them.

The expense of every kind occasioned by the diplomatic missions of France in China shall be defrayed by the French Government. The diplomatic agents whom

it shall please the Emperor of China to accredit to His Majesty the Emperor of the French, shall be received in France with all the honours and prerogatives which the diplomatic agents of other nations accredited to the court of His Majesty the Emperor of the French enjoy.

Art.—III.—The official communications of the French diplomatic and consular agents with the Chinese authorities shall be written in French, but shall be accompanied, to facilitate the service, by a Chinese translation, as exact as possible, until such time as the Imperial Government of Peking, having interpreters speaking and writing French correctly, diplomatic correspondence shall be conducted in this language by the French agents and in Chinese by the officers of the empire. It is agreed that until then, and in case of difference in the interpretation, in reference to the French text and Chinese text of the clauses heretofore agreed upon in the conventions made by common accord, it shall always be the original text and not the translation which shall be held correct. This provision applies to the present treaty, and in the communications between the authorities of the two countries it shall always be the original text and not the translation which shall be held correct.

Art. IV.—Henceforth the official correspondence between the authorities and the officers of the two countries shall be regulated according to their respective ranks and conditions and upon the basis of the most absolute reciprocity. This correspondence shall take place between the high French officers and the high Chinese officers, in the capital or elsewhere, by dispatch or communication; between the French subordinate officers and the high authorities in the provinces, on the part of the former by statement, and on the part of the latter by declaration.

Between the officers of lower rank of the two nations, as above provided, on the footing of a perfect equality.

Merchants and generally all persons not having an official character shall on both sides use the form of representation in all documents addressed to or intended for the notice of the respective authorities.

Whenever a French subject shall have recourse to the Chinese authority, his representation shall first be submitted to the Consul, who, if it appears to him reasonable and properly addressed, shall forward it; if it be otherwise, the Consul shall cause the tenour to be modified or refuse to transmit it. The Chinese, on their part, when they have to address a consulate, shall follow a similar course towards the Chinese authority, who shall act in the same manner.

Art. V.—His Majesty the Emperor of the French may appoint Consuls or Consular Agents in the coast and river ports of the Chinese empire named in Article VI. of the present treaty to conduct the business between the Chinese authorities and French merchants and subjects and to see to the strict observance of the stipulated rules. These officers shall be treated with the consideration and regard which are due to them. Their relations with the authorities of the place of their residence shall be established on the footing of the most perfect equality. If they shall have to complain of the proceedings of the said authorities, they may address the superior authority of the province direct, and shall immediately advise the Minister Plenipotentiary of the Emperor thereof.

In case of the absence of the French Consul, captains and merchants shall be at liberty to have recourse to the intervention of the Consul of a friendly power, or, if this be impossible, they shall have recourse to the chief of the Customs, who shall advise as to the means of assuring to the said captains and merchants the benefits of the present treaty.

Art. VI.—Experience having demonstrated that the opening of new ports to foreign commerce is one of the necessities of the age, it has been agreed that the ports of Kiung-chow and Chao-chow in the province of Kwangtung, Taiwan and Tamsui in the island of Formosa (province of Fohkien), Tang-chow in the province of Shantung, and Nanking in the province of Kiangsu, shall enjoy the same privileges as Canton, Shanghai, Ningpo, Amoy, and Foochow. With regard to

Nanking, the French agents in China shall not deliver passports to their nationals for this city until the rebels have been expelled by the Imperial troops.

Art. VII.—French subjects and their families may establish themselves and trade or pursue their avocations in all security, and without hindrance of any kind, in the ports and cities enumerated in the preceding article.

They may travel freely between them if they are provided with passports, but it is expressly forbidden to them to trade elsewhere on the coast in search of clandestine markets, under pain of confiscation of both the ships and goods used in such operations, and this confiscation shall be for the benefit of the Chinese Government, who, however, before the seizure and confiscation can be legally pronounced, must advise the French Consul at the nearest port.

Art. VIII.—French subjects who wish to go to interior towns, or ports not open to foreign vessels, may do so in all security, on the express condition that they are provided with passports written in French and Chinese, legally delivered by the diplomatic agents or consuls of France in China and *viséd* by the Chinese authorities.

In case of the loss of his passport, the French subject who cannot present it when it is legally required of him, shall, if the Chinese authorities of the place refuse him permission to remain a sufficient time to obtain another passport from the consul, be conducted to the nearest consulate and shall not be maltreated or insulted in any way.

As is stipulated in the former treaties, French subjects resident or sojourning in the ports open to foreign trade may travel without passports in their immediate neighbourhood and there pursue their occupations as freely as the natives, but they must not pass certain limits which shall be agreed upon between the consul and the local authority. The French agents in China shall deliver passports to their nationals only for the places where the rebels are not established at the time the passport shall be demanded.

These passports shall be delivered by the French authorities only to persons who offer every desirable guarantee.

Art. IX.—All changes made by common consent with one of the signatory powers of the treaties with China on the subject of amelioration of the tariff now in force, or which may hereafter be in force, as also all rights of customs, tonnage, importation, transit, and exportation, shall be immediately applicable to French trade and merchants by the mere fact of their being placed in execution.

Art. X.—Any French subject who, conformably to the stipulations of Article VI. of the present treaty, shall arrive at one of the ports open to foreign trade, may, whatever may be the length of his sojourn, rent houses and warehouses for the disposal of his merchandise, or lease land and himself build houses and warehouses. French subjects may, in the same manner, establish churches, hospitals, religious houses, schools, and cemeteries. To this end the local authority, after having agreed with the Consul, shall designate the quarters most suitable for the residence of the French and the sites on which the above-mentioned structures may have place.

The terms of rents and leases shall be freely discussed between the interested parties and regulated, as far as possible, according to the average local rates.

The Chinese authorities shall prevent their nationals from exacting or requiring exorbitant prices, and the Consul on his side shall see that French subjects use no violence or constraint to force the consent of the proprietors. It is further understood that the number of houses and the extent of the ground to be assigned to French subjects in the ports open to foreign trade shall not be limited, and that they shall be determined according to the needs and convenience of the parties. If Chinese subjects injure or destroy French churches or cemeteries, the guilty parties shall be punished with all the rigour of the laws of the country.

Art. XI.—French subjects in the ports open to foreign trade may freely engage, on the terms agreed upon between the parties, or by the sole intervention of the Consul, compradores, interpreters, clerks, workmen, watermen, and servants. They shall also have the right of engaging teachers in order to learn to speak and write

the Chinese language and any other language or dialect used in the empire, as also to secure their aid in scientific or literary works. Equally they may teach to Chinese subjects their own or foreign languages and sell without obstacle French books or themselves purchase Chinese books of all descriptions.

Art. XII.—Property of any kind appertaining to French subjects in the Chinese empire shall be considered by the Chinese inviolable and shall always be respected by them. The Chinese authorities shall not, under any circumstances whatever, place French vessels under embargo nor put them under requisition for any service, be it public or private.

Art. XIII.—The Christian religion having for its essential object the leading of men to virtue, the members of all Christian communities shall enjoy entire security for their persons and property and the free exercise of their religion, and efficient protection shall be given the missionaries who travel peaceably in the interior furnished with passports as provided for in Article VIII.

No hindrance shall be offered by the authorities of the Chinese Empire to the recognised right of every individual in China to embrace, if he so pleases, Christianity and to follow its practices without being liable to any punishment therefor.

All that has previously been written, proclaimed, or published in China by order of the Government against the Christian religion is completely abrogated and remains null and void in all provinces of the empire.

Art. XIV.—No privileged commercial society shall henceforward be established in China, and the same shall apply to any organised coalition having for its end the exercise of a monopoly of trade. In case of the contravention of the present article the Chinese Authorities, on the representation of the Consul or Consular Agents, shall advise as to the means of dissolving such associations, of which they are also bound to prevent the existence by the preceding prohibitions, so as to remove all that may stand in the way of free competition.

Art. XV.—When a French vessel arrives in the waters of one of the ports open to foreign trade she shall be at liberty to engage any pilot to take her immediately into the port, and, in the same manner, when, having discharged all legal charges, she shall be ready to put to sea, she shall not be refused pilots to enable her to leave the port without hindrance or delay.

Any individual who wishes to exercise the profession of pilot for French vessels may, on the presentation of three certificates from captains of ships, be commissioned by the French Consul in the same manner as shall be in use with other nations.

The remuneration payable to pilots shall be equitably regulated for each particular port by the Consul or Consular Agent, who shall fix it having regard to the distance and circumstances of the navigation.

Art. XVI.—After the pilot has brought a French trading ship into the port, the Superintendent of Customs shall depute one or two officers to guard the ship and prevent fraud. These officers may, according to their convenience, remain in their own boat or stay on board the ship.

Their pay, food, and expenses shall be a charge on the Chinese Customs, and they shall not demand any fee or remuneration whatever from the captain or consignee. Every contravention of this provision shall entail a punishment proportionate to the amount exacted, which also shall be returned in full.

Art. XVII.—Within the twenty-four hours following the arrival of a French merchant vessel in one of the ports open to foreign trade, the captain, if he be unavoidably prevented, and in his default the supercargo or consignee, shall report at the French Consulate and place in the hands of the Consul the ship's papers, the bills of lading, and the manifest. Within the twenty-four hours next following the Consul shall send to the Superintendent of Customs a detailed note indicating the name of the vessel, the articles, the tonnage, and the nature of the cargo; if, in consequence of the negligence of the captain this cannot be accomplished within the forty-eight hours following the arrival of the vessel, the captain shall be liable to a penalty of 50 dollars for each day's delay, to the profit of the Chinese Government; but the said penalty shall in no case exceed the sum of 200 dollars.

Immediately after the reception of the consular note the Superintendent of Customs shall give a permit to open hatches. If the captain, before having received the said permit, shall have opened hatches and commenced to discharge, he may be fined 500 dollars, and the goods discharged may be seized, the whole to the profit of the Chinese Government.

Art. XVIII.—French captains and merchants may hire whatever boats and lighters they please for the transport of goods and passengers, and the sum to be paid for such boats shall be settled between the parties themselves, without the intervention of the Chinese authority and, consequently, without its guarantee in case of accident, fraud, or disappearance of the said boats. The number of these boats shall not be limited, nor shall a monopoly in respect either of the boats or of the carriage of merchandise by porters be granted to any one.

Art. XIX.—Whenever a French merchant shall have merchandise to load or discharge he shall first remit a detailed note of it to the Consul or Consular Agent, who will immediately charge a recognised interpreter of the Consulate to communicate it to the Superintendent of Customs. The latter shall at once deliver a permit for shipping or landing the goods. He will then proceed to the verification of the goods in such manner that there shall be no chance of loss to any party.

The French merchant must cause himself to be represented (if he does not prefer to attend himself) at the place of the verification by a person possessing the requisite knowledge to protect his interests at the time when the verification for the liquidation of the dues is made; otherwise any after claim will be null and of no effect.

With respect to goods subject to an *ad valorem* duty, if the merchant cannot agree with the Chinese officers as to their value, then each party shall call in two or three merchants to examine the goods, and the highest price which shall be offered by any of them shall be assumed as the value of the said goods.

Duties shall be charged on the net weight; the tare will therefore be deducted.

If the French merchant cannot agree with the Chinese officer on the amount of tare, each party shall choose a certain number of chests and bales from among the goods respecting which there is a dispute; these shall be first weighed gross, then tared, and the average tare of this shall be taken as the tare for all the others.

If during the course of verification any difficulty arises which cannot be settled, the French merchant may claim the intervention of the Consul, who will immediately bring the subject of dispute to the notice of the Superintendent of Customs, and both will endeavour to arrive at an amicable arrangement, but the claim must be made within twenty-four hours; otherwise it will not receive attention. So long as the result of the dispute remains pending, the Superintendent of Customs shall not enter the matter in his books, thus leaving every latitude for the examination and solution of the difficulty.

On goods imported which have sustained damage a reduction of duties proportionate to their depreciation shall be made. This shall be equitably determined, and, if necessary, in the manner above stipulated for the fixing of *ad valorem* duties.

Art. XX.—Any vessel having entered one of the ports of China and which has not yet used the permit to open hatches mentioned in Article XIX., may within two days of arrival, quit that port and proceed to another without having to pay either tonnage dues or customs duties, but will discharge them ultimately in the port where sale of the goods is effected.

Art. XXI.—It is established by common consent, that import duties shall be discharged by the captains or French merchants after the landing and verification of the goods. Export duties shall in the same manner be paid on the shipment of the goods. When all tonnage dues and Customs duties shall have been paid in full by a French vessel the Superintendent of Customs shall give a general quittance, on the exhibition of which the Consul shall return the ship's papers to the captain and permit him to depart on his voyage. The Superintendent of Customs shall name one or several banks, which shall be authorised to receive the sum due by French merchants on account of the Government, and the receipts of these banks for all payments which have been made to them shall be considered as receipts of the

Chinese Government. These payments may be made in ingots or in foreign money, the relative value of which to sycee shall be determined by agreement between the Consul or Consular Agent and the Superintendent of Customs in the different ports, according to time, place, and circumstances.

Art. XXII.—*After the expiration of the two days named in Art. XX., and before proceeding to discharge her cargo, every vessel shall pay tonnage-dues according to the following scale:—Vessels of one hundred and fifty tons and upwards at the rate of four mace per ton; vessels of less than one hundred and fifty tons measurement at the rate of one mace per ton.

Any vessel clearing from any of the open ports of China for any other of the open ports, or trading between China and such ports in Cochin-China as belong to France, or any port in Japan, shall be entitled, on application of the master, to a special certificate from the Superintendent of Customs, on exhibition of which the said vessel shall be exempted from all further payment of tonnage-dues in any open port of China for a period of four months, to be reckoned from the date of her port-clearance; but after the expiration of four months she shall be required to pay tonnage-dues again.

Small French vessels and boats of every class, whether with or without sails, shall be reckoned as coming within the category of vessels of one hundred and fifty tons and under, and shall pay tonnage-dues at the rate of one mace per ton once in every four months.

Native craft chartered by French merchants shall in like manner pay tonnage-dues once in every four months.

Art. XXIII.—All French goods, after having discharged the Customs duties according to the tariff in one of the ports of China, may be transported into the interior without being subjected to any further charge except the transit dues according to the amended scale now in force, which dues shall not be augmented in the future.

If the Chinese Customs Agents, contrary to the tenour of the present Treaty, make illegal exactions or levy higher dues, they shall be punished according to the laws of the empire.

Art. XXIV.—Any French vessel entered at one of the ports open to foreign trade and wishing to discharge only a part of its goods there, shall pay Customs dues only for the part discharged; it may transport the remainder of its cargo to another port and sell it there. The duty shall then be paid.

French subjects, having paid in one port the duties on their goods, wishing to re-export them and send them for sale to another port, shall notify the Consul or Consular Agent. The latter shall inform the Superintendent of Customs, who, after having verified the identity of the goods and the perfect integrity of the packages, shall send to the claimants a declaration attesting that the duties on the said goods have been paid. Provided with this declaration, the French merchants on their arrival at the other port shall only have to present it through the medium of the Consul or Superintendent of Customs, who will deliver for this part of the cargo, without deduction or charge, a permit for discharge free of duty; but if the authorities discover fraud or anything contraband amongst the goods so re-exported, these shall be, after verification, confiscated to the profit of the Chinese Government.

Art. XXV.—Transshipment of goods shall take place only by special permission and in case of urgency; if it be indispensable to effect this operation, the Consul shall be referred to, who will deliver a certificate, on view of which the transshipment shall be authorised by the Superintendent of Customs. The latter may always delegate an employé of his administration to be present.

Every unauthorised transshipment, except in case of peril by delay, will entail the confiscation, to the profit of the Chinese Government, of the whole of the goods illicitly transhipped.

Art. XXVI.—In each of the ports open to foreign trade the Superintendent of Customs shall receive for himself, and shall deposit at the French Consulate, legal

scales for goods and silver, the weights and measures agreeing exactly with the weights and measures in use at the Canton Custom-house, and bearing a stamp and seal certifying this authority. These scales shall be the base of all liquidations of duties and of all payments to be made to the Chinese Government. They shall be referred to in case of dispute as to the weights and measures of goods, and the decree shall be according to the results they show.

Art. XXVII.—Import and export duties levied in China on French commerce shall be regulated according to the tariff annexed to the present treaty under the seal and signature of the respective plenipotentiaries. This tariff may be revised every seven years in order to be in harmony with the changes brought about by time in the value of the products of the soil or industry of the two empires.

By the payment of these duties, the amount of which it is expressly provided shall not be increased nor augmented by any kind of charge or surtax whatever, French subjects shall be free to import into China, from French or foreign ports, and equally to export from China to any destination, all goods which shall not be, at the date of the signing of the present treaty and according to the classification of the annexed tariff, the object of a special prohibition or of a special monopoly. The Chinese Government renouncing therefore the right of augmenting the number of articles reputed contraband or subjects of a monopoly, any modification of the tariff shall be made only after an understanding has been come to with the French Government and with its full and entire consent.

With regard to the tariff, as well as every stipulation introduced or to be introduced in the existing treaties, or those which may hereafter be concluded, it remains well and duly established that merchants and in general all French subjects in China shall always have the same rights and be treated in the same way as the most favoured nation.

Art. XXVIII.—The publication of the regular tariff doing away henceforth with all pretext for smuggling, it is not to be presumed that any act of this nature may be committed by French vessels in the ports of China. If it should be otherwise, all contraband goods introduced into these ports by French vessels or merchants, whatever their value or nature, as also all prohibited goods fraudulently discharged shall be seized by the local authority and confiscated to the profit of the Chinese Government. Further, the latter may, if it see fit, interdict the re-entry to China of the vessel taken in contravention and compel it to leave immediately after the settlement of its accounts.

If any foreign vessel fraudulently make use of the French flag the French Government shall take the necessary measures for the repression of this abuse.

Art. XXIX.—His Majesty the Emperor of the French may station a vessel of war in any principal port of the empire where its presence may be considered necessary to maintain good order and discipline amongst the crews of merchant vessels and to facilitate the exercise of the Consular authority; all necessary measures shall be taken to provide that the presence of these vessels of war shall entail no inconvenience, and their commander shall receive orders to cause to be executed the provisions of Article XXXIII. in respect of the communications with the land and the policing of the crews. Vessels of war shall be subject to no duty.

Art. XXX.—Every French vessel of war cruising for the protection of commerce shall be received as a friend and treated as such in all the ports of China which it shall enter. These vessels may there procure the divers articles of refitting and victualling of which they shall have need, and, if they have suffered damage, may repair there and purchase the materials necessary for such repair, the whole without the least opposition.

The same shall apply to French trading ships which in consequence of great damage or any other reason may be compelled to seek refuge in any port whatsoever of China.

If a vessel be wrecked on the coast of China, the nearest Chinese authority, on being informed of the occurrence, shall immediately send assistance to the crew, provide for their present necessities, and take the measures immediately necessary

for the salvage of the ship and the preservation of the cargo. The whole shall then be brought to the knowledge of the nearest Consul or Consular Agent, in order that the latter, in concert with the competent authority, may provide means for the relief of the crew and the salvage of the *débris* of the ship and cargo.

Art. XXXI.—Should China be at war with another power, this circumstance shall not in any way interfere with the free trade of France with China or with the opposing nation. French vessels may always, except in the case of effective blockade, sail without obstacle from the ports of the one to the ports of the other, trade in the ordinary manner, and import and export very kind of merchandise not prohibited.

Art. XXXII.—Should sailors or other persons desert from French ships-of-war, or leave French trading vessels, the Chinese authority, on the requisition of the Consul, or failing the Consul that of the captain, shall at once use every means to discover and restore the aforesaid fugitives into the hands of one or the other of them.

In the same manner, if Chinese deserters or persons accused of any crime take refuge in French houses or on board of French vessels, the local authority shall address the Consul, who, on proof of the guilt of the accused, shall immediately take the measures necessary for their extradition. Each party shall carefully avoid concealment and connivance.

Art. XXXIII.—When sailors come on shore they shall be under special disciplinary regulations framed by the Consul and communicated to the local authority, in order to prevent as far as possible all occasion of quarrel between French sailors and the people of the country.

Art. XXXIV.—In case of French trading vessels being attacked or pillaged by pirates within Chinese waters, the civil and military authorities of the nearest place, upon learning of the occurrence, shall actively pursue the authors of the crime and shall neglect nothing to secure their arrest and punishment, according to law. The pirated goods, in whatever place or state they may be found, shall be placed in the hands of the Consul, who shall restore them to the owners. If the criminals cannot be seized, or the whole of the stolen property cannot be recovered, the Chinese officials shall suffer the penalty inflicted by the law in such circumstances, but they shall not be held pecuniarily responsible.

Art. XXXV.—When a French subject shall have a complaint to make or claim to bring against a Chinese, he shall first state his case to the Consul, who, after having examined the affair, will endeavour to arrange it amicably. In the same manner, when a Chinese has to complain of a French subject, the Consul shall attentively hear his claim and endeavour to bring about an amicable arrangement. But if in either case this be impossible, the Consul shall require the assistance of a competent Chinese official, and these two, after having conjointly examined the affair, shall decide it equitably.

Art. XXXVI.—If hereafter French subjects suffer damage, or are subjected to any insult or vexation by Chinese subjects, the latter shall be pursued by the local authority, who shall take the necessary measures for the defence and protection of French subjects; if ill-doers or any vagrant part of the population commence to pillage, destroy, or burn the houses or warehouses of French subjects or any other of their establishments, the same authority, either on the requisition of the Consul, or of its own motion, shall send as speedily as possible an armed force to disperse the riot and to arrest the criminals, and shall deliver the latter up to the severity of the law; the whole without prejudice to the claims of the French subjects to be indemnified for proved losses.

Art. XXXVII.—If Chinese become, in future, indebted to French captains or merchants and involve them in loss by fraud or in any other manner, the latter shall no longer avail themselves of the combination which existed under the former state of things; they may address themselves only through the medium of their Consul to the local authority, who shall neglect nothing after having examined the affair to compel the defaulters to satisfy their engagements according to the laws of the country. But, if the debtor cannot be found, if he be dead, or bankrupt, and is not able to pay, the French merchants cannot claim as against the Chinese authority.

In case of fraud or non-payment on the part of French merchants, the Consul shall, in the same manner, afford every assistance to the claimants, but neither he nor his Government shall in any manner be held responsible.

Art. XXXVIII.—If unfortunately any fight or quarrel occurs between French and Chinese subjects, as also if during the course of such quarrel one or more persons be killed or wounded, by firearms or otherwise, the Chinese shall be arrested by the Chinese authority, who will be responsible, if the charge be proved, for their punishment according to the laws of the country. With regard to the French, they shall be arrested at the instance of the Consul, who shall take the necessary measures that they may be dealt with in the ordinary course of French law in accordance with the forms and practice which shall be afterwards decided by the French Government.

The same course shall be observed in all similar circumstances not enumerated in the present convention, the principle being that for the repression of crimes and offences committed by them in China French subjects shall be dealt with according to the laws of France.

Art. XXXIX.—Disputes or differences arising between French subjects in China shall, equally, be settled by the French authorities. It is also stipulated that the Chinese authorities shall not in any manner interfere in any dispute between French subjects and other foreigners. In the same way they shall not exercise any authority over French vessels; these are responsible only to the French authorities and the captain.

Art. XL.—If the Government of His Majesty the Emperor of the French shall consider it desirable to modify any of the clauses of the present treaty it shall be at liberty to open negotiations to this effect with the Chinese Government after an interval of ten years from the date of the exchange of the ratifications. It is also understood that no obligation not expressed in the present convention shall be imposed on the Consuls or Consular Agents, nor on their nationals, but, as is stipulated, French subjects shall enjoy all the rights, privileges, immunities, and guarantees whatsoever which have been or shall be accorded by the Chinese Government to other powers.

Art. XLI.—His Majesty the Emperor of the French, wishing to give to His Majesty the Emperor of China a proof of his friendly sentiments, agrees to stipulate in separate articles, having the same force and effect as if they were inserted in the present treaty, the arrangements come to between the two governments on the matters antecedent to the events at Canton and the expenses caused by them to the Government of His Majesty the Emperor of the French.

Art. XLII.—The ratifications of the present treaty of friendship, commerce, and navigation, shall be exchanged at Peking within one year after the date of signature, or sooner if possible.

After the exchange of ratifications, the treaty shall be brought to the knowledge of all the superior authorities of the Empire in the provinces and in the capital, in order that its publication may be well established.

Art. I.—The magistrate of Si-lin Hien, guilty of the murder of the French missionary Auguste Chappedelaine, shall be degraded and declared incapable henceforth of holding any office.

Art. II.—His Excellency the Minister of France in China shall be notified by official communication of the execution of this measure, which shall also be duly published in explanatory terms in the *Peking Gazette*.

Art. III.—An indemnity shall be paid to the French subjects and others under the protection of France whose property was pillaged or burnt by the populace of Canton before the taking of that town by the allied troops of France and England. This indemnity shall be divided amongst them *pro rata* to their losses.

These indemnities and military expenses amount to a sum of about two million taels (Tls. 2,000,000); this amount shall be paid into the hands of the Minister of France in China, who shall give a discharge for it. This sum of two million taels shall be paid in yearly instalments of one-sixth for six years to His Excellency the Minister of France in China by the Canton Customs; payment may be made in money, or in Customs bonds, which shall be received by that administration in payment of export and import duties, and for a tenth only of the sum which may have to be paid that is to say, a merchant owes, for example, to the Canton Customs a sum of ten thousand taels, for import or export duties, he may pay nine thousand in money and one thousand in the bonds.

Art. V.—The French troops shall evacuate Canton as soon as possible after the integral payment of the sum of two million taels stipulated above; but in order to hasten the departure of these troops, Customs bonds may be issued in advance for a series of six years and lodged with the Legation of France in China.

Art. VI.—The above Articles shall have the same force and value as if they were embodied word for word in the treaty, of which they form a part, and the respective plenipotentiaries have signed them, &c.

CONVENTION OF PEACE BETWEEN FRANCE AND CHINA.

SIGNED AT PEKING, 25TH OCTOBER, 1860.

Translated from the Chinese Text.

Their Imperial Majesties, the Emperor of China and the Emperor of the French, being desirous to resume the amicable relations that of yore existed, and to effect a peaceable settlement of the points in which their Governments disagree, have for this purpose appointed Plenipotentiaries, that is to say:—His Imperial Majesty the Emperor of China, His Imperial Highness the Prince of Kung, and His Imperial Majesty the Emperor of the French, Baron Gros, who, having communicated to each other their full powers, and finding the same to be in proper order, now append the Articles of the Convention, as by them determined.

Art. I.—His Imperial Majesty the Emperor of China deeply regrets that the Representative of His Imperial Majesty the Emperor of the French, when on his way, in 1859, to Peking, for the purpose of exchanging Treaty Ratifications, should have been obstructed on his arrival at Taku by the soldiers that were there.

Art. II.—The Representative of His Imperial Majesty the Emperor of the French when visiting Peking to exchange Treaty Ratifications, shall, whether on the way or at the capital, be treated by all Chinese officials with the highest consideration.

[Literally, “shall receive from all Chinese officials the most polite and most considerate treatment due to an Ambassador, so that he may without prejudice assert his position, authority, or rights.”]

Art. III.—The provisions of the Tientsin Treaty of 1858, and of the Supplementary Articles, except in so far as modified by the present Convention, shall without delay come into operation, as soon as the Ratifications of the Treaty aforesaid shall have been exchanged.

Art. IV.—The fourth Article of the Treaty concluded at Tientsin in the year 1858, by which it was provided that an Indemnity of Two Millions of Taels should be paid by the Chinese Government, is hereby annulled; and it is agreed, in the stead thereof, that the amount of the Indemnity shall be Eight Millions of Taels. [Of that sum] the Canton Customs last year paid Three hundred and thirty-three thousand three hundred and thirty-three Taels; the remainder (Tls. 7,666,666) shall be collected from the various Custom Houses, which shall pay quarterly one-fifth of the duties received by them, and the first quarterly payment shall be due on the 31st December, 1860. The payments may be in either Hai-kwan Sycee or foreign coin, and shall be made to either the Representative of France resident in China, or the officer by him deputed, But on or before the 30th November, there shall be paid at Tientsin a sum of five hundred thousand Taels. The French Representative and the Chinese high officers shall hereafter respectively appoint deputies to consult together and arrange the manner in which the instalments are to be paid and receipts granted.

Art. V.—The money to be paid by China is on account of French military expenditure and losses sustained by French merchants and others under French protection, whose hongts and chattels at Canton were burnt and plundered by the populace. The French Government will at a future period divide the money in fair proportion among such sufferers,—the amount to be appropriated for the losses and injuries incurred by such French subjects and others protected to be one million of Taels. The remainder will be retained for military expenses.

Art. VI.—It shall be promulgated throughout the length and breadth of the land, in the terms of the Imperial Edict of the 20th February, 1846, that it is permitted to all people in all parts of China to propagate and practice the “teachings of the Lord of Heaven,” to meet together for the preaching of the doctrine, to build churches and to worship; further, all such as indiscriminately arrest [Christians] shall be duly punished; and such churches, schools, cemeteries, lands, and buildings, as were owned on former occasions by persecuted Christians shall be paid for, and the money handed to the French Representative at Peking, for transmission to the Christians in the localities concerned. It is, in addition, permitted to French Missionaries to rent and purchase land in all the provinces, and to erect buildings thereon at pleasure.

Art. VII.—On the day on which the Ministers of the two countries affix their seals and signatures, the port of Tientsin, in the province of Chih-li, shall be opened to trade on the same conditions as the other ports. The provisions of the present Convention shall take effect from the day on which it is signed, no separate ratification of the same being necessary; they shall be observed and enforced just as if forming part of the text of the Treaty of Tientsin. And on the receipt of Five hundred thousand Taels as provided by Article IV., the French forces, Naval and Military, shall retire from Tientsin and occupy the two ports of Taku and Yen-tai (Chefoo), where they are to remain until the payment in full of the Indemnity,—upon which the French forces, at whatever places stationed, shall one and all be withdrawn from Chinese territory; but the Naval and Military Commanders-in-Chief may, if they think necessary, winter their forces in Tientsin until the indemnity shall have been paid in full.

Art. VIII.—On the exchange of the Ratifications of the Treaty of 1858, Chusan shall at once be evacuated by the French forces now stationed there; and on the payment in full of the sum of five hundred thousand Taels, for which this Convention provides—with the exception of [that portion of] the force which being about to winter at Tientsin, will remain there for a time, and which it is considered inconvenient to at once withdraw, as is stated in the seventh Article—the various forces occupying Tientsin shall be withdrawn from that city, and shall retire to the Taku forts, the North Coast of Tang-chow, and the city of Canton, where they will be stationed until the Indemnity of Eight Millions of Taels, guaranteed by this Convention, shall have been paid in full, when the occupant forces, as above referred to, shall be entirely withdrawn.

Art. IX.—On the exchange of the Ratifications of the Treaty of 1858, His Imperial Majesty the Emperor of China will, by Decree, notify to the High Authorities of every Province, that Chinese choosing to take service in the French Colonies, or other ports beyond the sea, are at perfect liberty to enter into engagements with French subjects for that purpose, and to ship themselves and their families on board any vessel at any of the open ports of China; also that the High Authorities aforesaid shall, in concert with the Representative in China of His Imperial Majesty the Emperor of the French, frame such regulations for the protection of Chinese emigrating as above, as the circumstances of the different ports may demand.

Art. X.—A mistake having crept into the text of the 22nd Article of the Treaty concluded at Tientsin in the year 1858, to the effect that Tonnage Dues would be charged on French ships over one hundred and fifty tons burthen at the rate of Five Mace per ton, it is now agreed that on vessels of more than one hundred and fifty tons Tonnage Dues shall be levied at the rate of Four Mace per ton: on vessels of less than one hundred and fifty tons, One mace per ton shall be collected. From henceforth, French vessels entering port shall each and all pay Tonnage Dues in accordance with the rates hereby fixed.

Signed and Sealed at Peking, by the Plenipotentiaries of China and France, on the 26th day of October, in the year 1860, being the 12th day of the 2nd month of the 10th year of the reign of Hien Fung.

TREATY OF PEACE, FRIENDSHIP, AND COMMERCE BETWEEN FRANCE AND CHINA.

SIGNED AT TIENTSIN, 9TH JUNE, 1885.

The President of the French Republic and His Majesty the Emperor of China, each animated by an equal desire to bring to an end the difficulties which have given rise to their simultaneous intervention in the affairs of Annam, and wishing to re-establish and improve the relations of friendship and commerce which previously existed between France and China, have resolved to conclude a new treaty to further the common interests of both nations on the basis of the preliminary Convention signed at Tientsin on the 11th May, 1884, and ratified by an Imperial decree of the 13th April, 1885.

For that purpose the two high contracting parties have appointed as their plenipotentiaries the following, that is to say:—

The President of the French Republic, M. Jules Patenôtre, Envoy Extraordinary and Minister Plenipotentiary for France in China, Officer of the Legion of Honour, Grand Cross of the Swedish Order of the Polar Star, &c., &c.

And His Majesty the Emperor of China, Li Hung-chang, Imperial Commissioner, Senior Grand Secretary of State, Grand Honorary Preceptor of the Heir Presumptive; Superintendent of Trade for the Northern Ports, Governor-General of the Province of Chihli, of the First degree of the Third Order of Nobility, with the title of Sou-yi;

Assisted by Hsi Chen, Imperial Commissioner, Member of the Tsung-li Yamên, President of the Board of Punishments, Administrator of the Treasury at the Ministry of Finance, Director of Schools for the Education of the Hereditary Officers of the Left Wing of the Tartar Army at Peking, Commander-in-chief of the Chinese contingent of the Yellow Bordered Banner;

And Teng Chang-su, Imperial Commissioner, Member of the Tsung-li Yamên, Director of the Board of Ceremonies;

Who, having communicated their full powers, which have been found in good and due form, have agreed upon the following Articles:—

Art. I.—France engages to re-establish and maintain order in those provinces of Annam which border upon the Chinese empire. For this purpose she will take the necessary measures to disperse or expel the bands of pirates and vagabonds who endanger the public safety, and to prevent their collecting together again. Nevertheless the French troops shall not, under any circumstances, cross the frontier which separates Tonquin from China, which frontier France promises both to respect herself and to guarantee against any aggression whatsoever.

On her part China undertakes to disperse or expel such bands as may take refuge in her provinces bordering on Tonquin and to disperse those which it may be attempted to form there for the purpose of causing disturbances amongst the populations placed under the protection of France; and in consideration of the guarantees which have been given as to the security of the frontier she likewise engages not to send troops into Tonquin.

The High Contracting parties will fix, by a special convention, the conditions under which the extradition of malefactors between China and Annam shall be carried out.

The Chinese, whether colonists or disbanded soldiers, who reside peaceably in Annam, supporting themselves by agriculture, industry, or trade, and whose conduct shall give no cause of complaint, shall enjoy the same security for their persons and property as French protégés.

Art. II.—China, being resolved to do nothing which may imperil the work of pacification undertaken by France, engages to respect, both in the present and in the future, the treaties, conventions, and arrangements concluded directly between France and Annam, or which may hereafter be concluded.

As regards the relations between China and Annam, it is understood they shall be of such a nature as shall in no way injure the dignity of the Chinese empire or give rise to any violation of the present treaty.

Art. III.—Within a period of six months from the signature of the present treaty commissioners appointed by the high contracting parties shall proceed to the spot in order to define the frontier between China and Tonquin. They shall place landmarks wherever necessary to render the line of demarcation clear. In those cases where they may not be able to agree as to the location of these landmarks or on such rectifications of detail as it may be desirable to make, in the interest of the two nations, in the existing frontier of Tonquin, they shall refer the difficulty to their respective Governments.

Art. IV.—When the frontier shall have been agreed upon, French or French protégés and foreign residents of Tonquin who may wish to cross it in order to enter China shall not be allowed to do so unless they shall have previously provided themselves with passports issued by the Chinese frontier authorities on the requisition of the French authorities. For Chinese subjects an authorisation given by the Imperial frontier authorities shall be sufficient.

Chinese subjects wishing to proceed from China to Tonquin by the land route shall be obliged to provide themselves with regular passports, issued by the French authorities on the requisition of the Imperial authorities.

Art. V.—Import and export trade shall be permitted to French or French-protected traders and to Chinese traders across the land frontier between China and Tonquin. It shall, however, be carried on through certain spots which shall be settled later, and both the selection and number of which shall correspond with the direction and importance of the traffic between the two countries. In this respect the Regulations in force in the interior of the Chinese Empire shall be taken into account.

In any case, two of the said spots shall be marked out on the Chinese frontier, the one above Lao-kai, the other beyond Lang-son. French traders shall be at liberty to settle there under the same conditions, and with the same advantages, as in the ports open to foreign trade. The Government of His Majesty the Emperor of China shall establish custom-houses there, and the Government of the French Republic shall be at liberty to maintain Consuls there, whose powers and privileges shall be identical with those of Agents of the same rank in the open ports.

On his part, His Majesty the Emperor of China shall be at liberty, with the concurrence of the French Government, to appoint Consuls in the principal towns of Tonquin.

Art. VI.—A special code of Regulations, annexed to the present Treaty, shall define the conditions under which trade shall be carried on by land between Tonquin and the Chinese provinces of Yünnan, of Kwang-si, and of Kwang-tung. Such Regulations shall be drawn up by Commissioners, who shall be appointed by the High Contracting Parties, within three months from the signature of the present Treaty.

All goods dealt with by such trade shall be subject, on import and export between Tonquin and the provinces of Yünnan and Kwang-si, to duties lower than those laid down by the present Tariff for foreign trade. The reduced Tariff shall not, however, be applied to goods transported by way of the land frontier between Tonquin and Kwang-tung, and shall not be enforced within the ports already open by Treaty.

Trade in arms, engines, supplies, and munitions of war of any kind whatsoever shall be subject to the Laws and Regulations issued by each of the Contracting States within its own territory.

The export and import of opium shall be governed by special arrangements to be inserted in the above-mentioned code of Regulations.

Trade by sea between China and Annam shall likewise be dealt with by a separate code of Regulations. In the meanwhile, the present practice shall remain unaltered.

Art. VII.—With a view to develop under the most advantageous conditions the relations of commerce and of good neighbourship, which it is the object of the present Treaty to re-establish between France and China, the Government of the Republic shall construct roads in Tonquin, and shall encourage the construction of railways there.

When China, on her part, shall have decided to construct railways, it is agreed that she shall have recourse to French industry, and the Government of the Republic shall afford every facility for procuring in France the staff that may be required. It is, moreover, understood that this clause shall not be looked upon as constituting an exclusive privilege in favour of France.

Art. VIII.—The commercial stipulations of the present Treaty and the Regulations to be agreed upon shall be liable to revision after an interval of ten complete years from the date of the exchange of the ratifications of the present Treaty. But in case six months before it expires, neither one nor other of the High Contracting Parties shall have expressed a wish to proceed to a revision, the commercial stipulations shall remain in force for a fresh period of ten years, and so further in like manner.

Art. IX.—As soon as the present Treaty shall have been signed, the French forces shall receive orders to retire from Kelung and to cease search, &c., on the high seas. Within one month from the signature of the present Treaty the Island of Formosa and the Pescadores shall be entirely evacuated by the French troops.

Art. X.—All stipulations of former Treaties, Agreements, and Conventions between France and China, which are not modified by the present Treaty, remain in full force.

The present Treaty shall be ratified at once by His Majesty the Emperor of China, and after it shall have been ratified by the President of the French Republic, the exchange of ratifications shall take place at Peking with the least possible delay.

Done in quadruplicate at Tien-tsin, this 9th June, 1885, corresponding to the 27th day of the 4th moon of the 11th year of Kwang-Su.

TRADE REGULATIONS FOR THE ANNAM FRONTIER JOINTLY
DETERMINED ON BY FRANCE AND CHINA.

SIGNED AT PEKING 25TH APRIL, 1886.

[TRANSLATED FROM THE FRENCH TEXT.]

Whereas in Article VI. of the Treaty between the President of the French Republic and His Majesty the Emperor of China, signed the 9th day of June, 1885, it is stated that "Regulations for the conduct of overland trade between Tonquin and the Chinese provinces of Yunnan, Kwangsi, and Kwangtung shall be jointly discussed and concluded by Commissioners appointed by the two Powers, and will form a supplement to the present Treaty;" and whereas in the tenth article of that agreement it is set forth that "the provisions of former Treaties and Regulations agreed to by France and China, except in so far as they are modified by the present agreement, will continue to retain their original validity," the two High Contracting Parties have for this purpose named as their plenipotentiaries, that is to say :—

The President of the French Republic, G. Cogordan, Minister Plenipotentiary of France to China, officer of the Legion of Honour, Knight of the Order of the Crown of Italy, &c., &c., together with E. Bruwaert, Consul of the first class, Assistant Commissioner for Treaty negotiations, Knight of the Order of Gustav of Sweden, and of the Order of Leopold of Belgium ;

And His Majesty the Emperor of China, Li, Grand Preceptor of the Heir Apparent, Grand Secretary of State, Superintendent of Trade for the Northern Sea-board, Joint Commissioner of Admiralty, Governor of Chihli, and a member of the first degree of the third order of the hereditary nobility, with the title of Sou-yi ;

Who after having communicated to each other their respective full powers, and found them to be in due form, have concluded the following Articles :—

Art. I.—In accordance with the terms of Article V. of the Treaty of the 9th June, 1885, the high contracting parties agree that for the present two places shall be opened to trade, one to the north of Langson and the other above Lao-kai. China will establish Custom Houses there, and France shall have the right to appoint Consuls, who shall enjoy all the rights and privileges conceded in China to the Consuls of the most favoured nation.

The work of the Commission charged with the delimitation of the two countries not being completed at the time of the signature of the present Convention, the place to be opened to trade to the north of Langson shall be selected and determined in the course of the present year by arrangement between the Imperial Government and the representative of France at Peking. As to the place to be opened to trade above Lao-kai, this will also be determined by common accord when the frontier between the two countries shall have been defined.

Art. II.—The Imperial Government may appoint Consuls at Hanoi and at Haiphong. Chinese Consuls may also be sent later on to other large towns in Tonquin by arrangement with the French Government.

These agents shall be treated in the same manner and have the same rights and privileges as the Consuls of the most favoured nation in France. They shall maintain official relations with the French authorities charged with the Protectorate.

Art. III.—It is agreed, on the one side and the other, that in the places where Consuls are appointed the respective authorities will facilitate the installation of these agents in suitable residences.

Frenchmen may establish themselves in the places opened to trade on the frontier of China under the conditions set forth in Article VII., X., XI., XII., and others of the treaty of the 17th June, 1848.

Annamities shall enjoy in these places the same privileged treatment.

Art. IV.—Chinese shall have the right of possessing land, erecting buildings, opening commercial houses, and having warehouses throughout Annam.

They shall receive for their persons, their families, and their goods the same protection as the most favoured European nation, and, like the latter, may not be made the object of any ill-treatment. The official and private correspondence and telegrams of Chinese officials and merchants shall be freely transmitted through the French postal and telegraphic administrations.

Frenchmen will receive from China the same privileged treatment.

Art. V.—Frenchmen, French protégés, and foreigners residing in Tonquin may cross the frontier and enter China on condition of being furnished with passports. These passports will be given by the Chinese authorities at the frontier, on the requisition of the French authorities, who will ask for them only for respectable persons; they will be surrendered to be cancelled on the holder's return. In the case of those who have to pass any place occupied by aborigines or savages, it will be mentioned in the passport that there are no Chinese officials there who can protect them.

Chinese who wish to come from China to Tonquin by land must in the same way be furnished with passports granted by the French authorities on the requisition of the Chinese authorities, who will ask for them only on behalf of respectable persons.

The passports so granted on the one side or the other shall serve only as titles to travel and shall not be considered as certificates of exemption from taxes for the transport of merchandise.

Chinese authorities on Chinese soil and French Authorities in Tonquin shall have the right to arrest persons who have crossed the frontier without passports and send them back to their respective authorities to be tried and punished if necessary.

Chinese residing in Annam may return from Tonquin to China on simply obtaining from the Imperial authorities a pass permitting them to cross the frontier.

Frenchmen and other persons established in the open places on the frontier may travel without passports to a distance of 50 *li* (578 metres to the *li*) around such places.

Art. VI.—Merchandise imported into the places opened to trade on the frontier of China by French merchants and French protégés may, after payment of the import duties, be conveyed to the interior markets of China under the conditions fixed by Rule VII. annexed to the Treaty of the 27th June, 1858, and by the general rules of the Chinese Imperial Maritime Customs with regard to import transit passes.

When foreign merchandise is imported into these places a declaration shall be made at the Custom House of the nature and quantity of the merchandise, as well as of the name of the person by whom it is accompanied. The Customs authorities will proceed to verification, and will collect the duty according to the general tariff of the Imperial Maritime Customs, diminished by one-fifth. Articles not mentioned in the tariff will remain subject to the duty of 5 per cent. *ad valorem*. Until this duty has been paid the goods may not be taken out of the warehouses to be sent away and sold.

A merchant wishing to send foreign merchandise into the interior shall make a fresh declaration at the Custom House, and pay, without reduction, the transit dues fixed by the general rules of the Chinese Maritime Customs.

After this payment the Customs will deliver a transit pass which will enable the carriers to go to the localities mentioned in the pass for the purpose of disposing of the said merchandise.

Under these conditions, no new duties will be levied at the interior barriers or lekin stations.

Merchandise for which transit passes have not been obtained will be liable to all the barrier and lekin duties imposed upon indigenous products in the interior of the country.

Art. VII.—Merchandise bought by Frenchmen and persons under French protection in the interior markets of China may be brought into the open places on the frontier, for the purpose of being from thence exported to Tonquin, under the conditions fixed by Rule VII. annexed to the Treaty of the 27th June, 1858, with regard to the transit of merchandise for export.

When Chinese merchandise for export arrives at these places, a declaration shall be made at the Custom House as to the nature and quantity of the merchandise, as well as the name of the person accompanying it.

The Customs authorities will proceed to verification.

Such of this merchandise as shall have been bought in the interior by a merchant furnished with a transit pass, and which consequently shall not have paid any lekin or barrier duty, shall in the first place pay the transit duty fixed by the general tariff of the Chinese Maritime Customs.

It shall then pay the export duty diminished by one-third. Articles not named in the tariff will remain subject to the duty of 5 per cent *ad valorem*.

After payment of these duties the merchandise will be allowed to pass free, and to be sent beyond the frontier.

The merchant who, not being furnished with a transit pass, has bought goods in the interior, shall pay the duties levied at the barriers and lekin stations; receipts shall be delivered to him, and on arriving at the Custom House he shall be exempted from payment of the transit dues on presentation of these receipts.

French merchants and persons under French protection importing or exporting merchandise through the Customs offices on the frontier of Yunnan and Kwangsi, and Chinese merchants importing or exporting merchandise to or from Tonquin, will not have to pay any toll on their carriages or beasts of burden. On the navigable water-courses on the frontier, vessels may, on the one side and the other, be subjected to the payment of tonnage-dues, conformably to the rules of the Maritime Customs of the two countries.

As regards the provisions of the present article and the preceding one, it is agreed by the high contracting parties that if a new customs tariff should be established by common accord between China and a third Power, for trade by land on the south-western frontiers of the Chinese Empire, France shall obtain the application of it.

Art. VIII.—Foreign merchandise which, not having been sold within a period of thirty-six months after having paid the import duty at one of the Chinese frontier Customs stations, is forwarded to the other frontier Customs station, shall be examined at the first of these stations, and if the wrappings are found intact, and if nothing has been disturbed or changed, a certificate of exemption for the amount of the first duty collected will be given. The bearer of this certificate will deliver it to the other frontier station, in payment of the new duty which he will have to pay. The Customs may in like manner give bonds which will be available for payment of duties at the Custom House by which they are issued any time within three years. Money will never be returned.

If the same merchandise is re-despatched to one of the open ports of China, it will there, conformably to the general rules of the Chinese Maritime Customs, be subjected to payment of the import duties, and these certificates or bonds given at the frontier Customs shall not there be made use of. Neither will it be allowed to present there, in payment of duties, the quittances delivered by the frontier Customs on the first payment. As to transit dues, conformably to the rules in force at the open ports, when once they have been paid, bonds or exemption certificates will never be given in respect of these.

Art. IX.—Chinese merchandise which, after having paid transit and export dues at one of the frontier Customs stations, may be sent to the other frontier Customs stations to be sold, shall be subjected on its arrival at the second station only to a payment—called a re-importation duty—of one-half the export duty already collected. The merchandise conformably to the rules established in the open ports may not be transported into the interior by foreign merchants.

If this Chinese merchandise be transported to one of the open ports of China, it will be assimilated to foreign merchandise, and shall pay a new import duty in full, conformably to the general tariff of the Imperial Maritime Customs.

This merchandise will be allowed to pay transit duty on being sent into the interior. Chinese merchandise imported from a Chinese seaport into an Annamite port in order to be transported to the land frontier and then to re-enter Chinese territory, will be treated as foreign merchandise and will pay the local import dues. This merchandise will be allowed to pay the transit duty on being sent into the interior.

Art. X.—Declarations to the Chinese Customs must be made within thirty-six hours of the arrival of the goods under a penalty of Tls. 50 for each day's delay; but the fine shall not exceed Tls. 200. An inexact declaration of the quantity of the goods, if it is proved that it has been made with the intention of evading payment of the duties, will entail upon the merchant confiscation of his goods. Goods not provided with a permit from the chief of the Customs, which are clandestinely introduced by by-ways, and unpacked or sold, or which are intentionally smuggled, shall be entirely confiscated. In every case of false declaration or attempt to deceive the Customs as regards the quality or the real origin or real destination of goods for which transit passes have been applied the goods shall be liable to confiscation. The penalties shall be adjudged according to the conditions and procedure fixed by the Rules of the 31st May, 1868. In all cases where confiscation shall have been declared, the merchant shall be at liberty to recover his goods on payment of a sum equivalent to their value, to be duly settled by arrangement with the Chinese authorities. The Chinese authorities shall have every liberty to devise measures to be taken in China, along the frontier, to prevent smuggling.

Merchandise descending or ascending navigable rivers in French, Annamite, or Chinese vessels will not necessarily have to be landed at the frontier, unless there is an appearance of fraud, or a divergence between the nature of the cargo and the declaration of the manifest. The Customs will only send on board the said vessels agents to visit them.

Art. XI.—Products of Chinese origin imported into Tonquin by the land frontier shall pay the import duty of the Franco-Annamite tariff. They will pay no export duty on leaving Tonquin. The Imperial Government will be notified of the new tariff which France will establish in Tonquin. If taxes of excise, of consumption, or of guarantee be established in Tonquin on any articles of indigenous production, similar Chinese productions will be subjected, on importation, to equivalent taxes.

Art. XII.—Chinese merchandise transported across Tonquin from one of the two frontier Customs stations to the other, or to an Annamite port to be from thence exported to China, shall be subjected to a specific transit duty, which shall not exceed two per cent. of the value. At the point where it leaves Chinese territory this merchandise will be examined by the French Customs authorities on the frontier, who will specify its nature, quantity, and destination in a certificate which shall be produced whenever required by the French authorities during its transport across Tonquin, as well as at the port of shipment.

In order to guarantee the Franco-Annamite Customs against any possible fraud, such Chinese products, on entering Tonquin, shall pay the import duty.

A transit permit will accompany the goods to the place of leaving the country, whether this be the port of transshipment or the land frontier, and the sum paid by the proprietor of the merchandise will, after deducting the transit dues, be then restored to him in exchange for the receipt delivered to him by the Tonquin Customs.

Every false declaration or act evidently intended to deceive the French administration as to the quality, quantity, real origin, or real destination of merchandise

for which the special treatment applicable to Chinese products traversing Tonquin in transit is asked, will entail the confiscation of such merchandise. In every case where confiscation has been declared, the merchant shall be free to recover his goods on payment of a sum equivalent to their value, which shall be duly determined by an arrangement with the French authorities.

The same rules and the same transit duty will be applicable in Annam to Chinese merchandise despatched from a Chinese port to an Annamite port in order to get to the Chinese frontier Customs by crossing Tonquin.

XIII.—The following articles, that is to say, gold and silver ingots, foreign money, flour, Indian meal, sago, biscuits, preserved meats and vegetables, cheese, butter, confectionary, foreign clothing, jewellery, plated ware, perfumery, soaps of all kinds, charcoal, firewood, candles (foreign), tobacco, wine, beer, spirits, household stores, ship's stores, personal baggage, stationery, carpeting, cutlery, drugs, foreign medicines, and glass ware, shall be verified by the Chinese Customs on their entry and clearance; if they are really of foreign origin and intended for the personal use of foreigners, and if they arrive in moderate quantity, a duty exemption certificate will be given which will pass them free at the frontier. If these articles are withheld from declaration or the formality of an exemption certificate, their clandestine introduction will render them subject to the same penalty as smuggled goods.

With the exception of gold, silver, money, and luggage, which will remain exempt from duty, the above mentioned articles destined for the personal use of foreigners and imported in moderate quantity, will pay, when they are transported into the interior of China, a duty of $2\frac{1}{2}$ per cent. on their value.

The Franco-Annamite frontier Customs shall collect no duty on the following articles of personal use which Chinese carry with them, either on entering or leaving Tonquin, that is to say, money, luggage, clothes, women's head ornaments, papers, hair pencils, Chinese ink, furniture, or food; or on articles ordered by the Chinese Consuls in Tonquin for their personal consumption.

Art. XIV.—The high contracting parties agree to prohibit trade in and transport of opium of whatsoever origin by the land frontier between Tonquin on the one side and Yunnan, Kwang-si, and Kwangtung on the other side.

Art. XV.—The export of rice and of cereals from China is forbidden. The import of these articles shall be free of duty.

The import of the following articles into China is forbidden:—Gunpowder, projectiles, rifles and guns, saltpetre, sulphur, lead, spelter, arms, salt, and immoral publications.

In case of contravention these articles shall be entirely confiscated.

If the Chinese authorities have arms or munitions bought, or if merchants receive express authority to buy them, the importation will be permitted under the special surveillance of the Chinese Customs. The Chinese authorities may, furthermore, by arrangement with the French Consuls, obtain for the arms and munitions which they wish to have conveyed to China through Tonquin exemption from all the Franco-Annamite duties.

The introduction into Tonquin of arms, munitions of war, and immoral publications is also prohibited.

Art. XVI.—Chinese residing in Annam shall be placed under the same conditions, with regard to criminal, fiscal, or other jurisdiction, as the subjects of the most favoured nation. Law-suits which may arise in China, in the open markets on the frontier, between Chinese subjects and Frenchmen or Annamites shall be decided by a Mixed Court by Chinese and French officers.

With reference to crimes or offences committed by Frenchmen or persons under French protection in China, in the places opened to trade, the procedure shall be in conformity with the stipulations of Articles XXXIII. and XXXIX. of the treaty of the 27th June, 1858.

Art. XVII.—If in the places opened to trade on the frontier of China Chinese deserters or persons accused of crimes against the Chinese law shall take refuge in the houses or on board the vessels of Frenchmen or persons under French protection.

the local authority shall apply to the Consul, who, on proof of the guilt of the accused, shall immediately take the necessary measures in order that they may be given up and delivered to the regular course of the law.

Chinese guilty or accused of crimes or offences who seek refuge in Annam, shall, on the request of the Chinese authorities and on proof of their guilt, be sought for, arrested, and extradited in all cases where the subjects of the countries enjoying the most liberal treatment in the matter of extradition might be extradited from France.

Frenchmen guilty or accused of crimes or offences, who seek refuge in China, shall, at the request of the French authorities and on proof of their guilt, be arrested and delivered up to the said authorities to be tried according to the regular process of law.

On both sides all concealment and connivance shall be avoided.

Art. XVIII.—In any difficulty not provided for in the preceding provisions recourse shall be had to the rules of the Maritime Customs, which, in conformity with existing treaties, are now applied in the open towns or ports.

In case these rules are insufficient the representatives of the two countries shall refer the matter to their respective Governments.

In accordance with the terms of Article VIII. of the treaty of the 9th June, 1885, the present stipulations may be revised ten years after the exchange of the ratifications.

Art. XIX.—The present Convention of Trade, after having been ratified by the Governments, shall be promulgated in France, in China, and in Annam.

The exchange of the ratifications shall take place at Peking within one year from the date of the signature of the Convention, or earlier if possible.

Done at Tientsin, in four copies, the 25th April, 1886, corresponding to the 22nd day of the third moon of the twelfth year of Kwang-Su.

His Majesty the King of Prussia, Frederick Albrecht Count of Eulenburg Chamberlain, His Majesty's Envoy Extraordinary and Minister Plenipotentiary Knight of the Red Eagle, Knight of St. John, &c., &c., &c.; and His Majesty the Emperor of China, Cheong-meen, a member of the Imperial Ministry of Foreign Affairs at Peking, Director-General of Public Supplies, and Imperial Commissioner and Chong-hee, Honorary under-Secretary of State, Superintendent of the three Northern Ports, and Deputy Imperial Commissioner, who after having communicated to each other their respective full powers, and found the same in good and due form have agreed upon the following articles:—

Art. I.—There shall be perpetual peace and unchanging friendship between the contracting States. The subjects of both States shall enjoy full protection of person and property.

Art. II.—His Majesty the King of Prussia may, if he see fit, accredit a diplomatic agent to the Court of Peking, and His Majesty the Emperor of China may, in like manner, if he see fit, nominate a diplomatic agent to the Court of Berlin.

The diplomatic agent nominated by His Majesty the King of Prussia shall also represent the other contracting German States, who shall not be permitted to be represented at the Court of Peking by diplomatic agents of their own. His Majesty the Emperor of China hereby agrees that the diplomatic agent, so appointed by His Majesty the King of Prussia, may, with his family and establishment, permanently reside at the capital, or may visit it occasionally, at the option of the Prussian Government.

Art. III.—The diplomatic agents of Prussia and China shall, at their respective residences, enjoy the privileges and immunities accorded to them by international law.

Their persons, their families, their residence, and their correspondence shall be held inviolable. They shall be at liberty to select and appoint their own officers, couriers, interpreters, servants, and attendants without any kind of molestation.

All expenses occasioned by the diplomatic missions shall be borne by the respective governments.

The Chinese Government agrees to assist His Prussian Majesty's diplomatic agent, upon his arrival at the capital, in selecting and renting a suitable house and other buildings.

Art. IV.—The contracting German States may appoint a Consul-General, and for each port or city opened to foreign commerce, a Consul, Vice-Consul, or Consular Agent, as their interests may require.

These officers shall be treated with due respect by the Chinese authorities, and enjoy the same privileges and immunities as the Consular officers of the most favoured nations.

In the event of the absence of a German Consular Officer, the subjects of the contracting German States shall be at liberty to apply to the Consul of a friendly Power, or in case of need, to the Superintendent of Customs, who shall use all efforts to secure to them the privileges of this treaty.

Art. V.—All official communications addressed by the diplomatic agents of His Majesty the King of Prussia, or by the Consular officers of the contracting German States, to the Chinese authorities, shall be written in German. At present and until otherwise agreed, they shall be accompanied by a Chinese translation; but it is hereby mutually agreed, that, in the event of a difference of meaning appearing between the German and Chinese texts, the German Government shall be guided by the sense expressed in the German text.

In like manner shall all official communications addressed by the Chinese authorities to the Ambassadors of Prussia, or to the Consuls of the contracting German States, be written in Chinese, and the Chinese authorities shall be guided by this text. It is further agreed that the translations may not be adduced as a proof in deciding differences.

In order to avoid future differences, and in consideration that all diplomatists of Europe are acquainted with the French language, the present treaty has been executed in the German, the Chinese, and the French languages. All these versions have the same sense and signification; but the French text shall be considered the original text of the treaty, and shall decide wherever the German and Chinese versions differ.

Art. VI.—The subjects of the contracting German States may, with their families, reside, frequent, and carry on trade or industry, in the ports, cities, and towns of Canton, Swatow or Chao-chow, Amoy, Foochow, Ningpo, Shanghai, Tangchow or Chefoo, Tientsin, Newchwang, Chinkiang, Kiukiang, Hankow, Kiungchow (Hainan), and at Taiwan and Tamsui in the Island of Formosa. They are permitted to proceed to and from these places with their vessels and merchandise, and within these localities to purchase, rent, or let houses or land, build, or open churches, church-yards, and hospitals.

Art. VII.—Merchant vessels belonging to any of the contracting German States may not enter other ports than those declared open in this treaty. They must not, contrary to law, enter other ports, or carry on illicit trade along the coast. All vessels detected in violating this stipulation, shall, together with their cargo, be subject to confiscation by the Chinese Government.

Art. VIII.—Subjects of the contracting German States may make excursions in the neighbourhood of the open ports to a distance of one hundred li, and for a time not exceeding five days.

Those desirous of proceeding into the interior of the country must be provided with a passport, issued by their respective Diplomatic or Consular authorities, and countersigned by the local Chinese authorities. These passports must upon demand be exhibited.

The Chinese authorities shall be at liberty to detain merchants or travellers, subjects of any of the contracting German States, who may have lost their passport.

until they have procured new ones, or to convey them to the next Consulate; but they shall not be permitted to subject them to ill-usage or allow them to be ill-used.

It is, however, distinctly understood that no passports may be given to places at present occupied by the rebels until peace has been restored.

Art. IX.—The subjects of the contracting German States shall be permitted to engage compradores, interpreters, writers, workmen, sailors, and servants from any part of China, upon a remuneration agreed to by both parties, as also to hire boats for the transport of persons and merchandise. They shall also be permitted to engage Chinese for acquiring the Chinese language or dialects, or to instruct them in foreign languages. There shall be no restriction in the purchasing of German or Chinese books.

Art. X.—Persons professing or teaching the Christian religion shall enjoy full protection of their persons and property, and be allowed free exercise of their religion.

Art. XI.—Any merchant-vessel of any of the contracting German States arriving at any of the open ports shall be at liberty to engage the services of a pilot to take her to port. In like manner, after she has discharged all legal dues and duties, and is ready to take her departure, she shall be permitted to select a pilot to conduct her out of port.

Art. XII.—Whenever a vessel belonging to any of the contracting German States has entered a harbour, the Superintendent of Customs may, if he see fit, depute one or more Customs' officers to guard the ship, and to see that no merchandise is smuggled. These officers shall live in a boat of their own, or stay on board the ship, as may best suit their convenience. Their salaries, food, and expenses shall be defrayed by the Chinese Customs' authorities, and they shall not be entitled to any fees whatever from the master or consignee. Every violation of this regulation shall be punished proportionately to the amount exacted, which shall be returned in full.

Art. XIII.—Within twenty-four (24) hours after the arrival of the ship, the master, unless he be prevented by lawful causes, or in his stead the supercargo or the consignee, shall lodge in the hands of the Consul the ship's papers and copy of the manifest.

Within a further period of twenty-four (24) hours the Consul will report to the Superintendent of Customs the name of the ship, the number of the crew, her registered tonnage, and the nature of the cargo.

If owing to neglect on the part of the master the above rule be not complied with within forty-eight hours after the ship's arrival he shall be liable to a fine of fifty (50) dollars for every day's delay; the total amount of penalty, however, shall not exceed two hundred (200) dollars.

Immediately after the receipt of the report, the Superintendent of Customs shall issue a permit to open hatches.

If the master shall open hatches and begin to discharge the cargo without said permit, he shall be liable to a fine not exceeding five hundred dollars, and the goods so discharged without permit shall be liable to confiscation.

Art. XIV.—Whenever a merchant, a subject of any of the contracting German States, has cargo to land or ship, he must apply to the Superintendent of Customs for a special permit. Merchandise landed or shipped without such permit shall be subject to forfeiture.

Art. XV.—The subjects of the contracting German States shall pay duties on all goods imported or exported by them at the ports open to foreign trade according to the tariff appended to this treaty; but in no case shall they be taxed with higher duties than, at present or in future, subjects of the most favoured nations are liable to.

The commercial stipulations appended to this treaty shall constitute an integral part of the same, and shall therefore be considered binding upon both the high contracting parties.

Art. XVI.—With respect to articles subject to an *ad valorem* duty, if the German merchant cannot agree with the Chinese officers as to their value, then each party shall call in two or three merchants to examine and appraise the goods, and the highest price at which any of these merchants may declare himself willing to purchase them shall be assumed as the value of the goods.

Art. XVII.—Duties shall be charged upon the net weight of each article; tare therefore to be deducted. If the German merchant cannot agree with the Chinese officers on the exact amount of tare, then each party shall choose from among the goods respecting which there is a difference a certain number of chests or bales, which being first weighed gross, shall afterwards be tared and the tare fixed accordingly. The average tare upon these chests or bales shall constitute the tare upon the whole lot of packages.

Art. XVIII.—If in the course of verification there arise other points of dispute, which cannot be settled, the German merchant may appeal to his Consul, who will communicate the particulars of the differences of the case to the Superintendent of Customs, and both will endeavour to bring about an amicable arrangement. But the appeal to the Consul must be made within twenty-four hours, or it will not be attended to.

As long as no settlement be come to, the Superintendent of Customs shall not enter the matter at issue in his books, in order that by such entry a thorough investigation and the final settlement of the difference be not prejudiced.

Art. XIX.—Should imported goods prove to be damaged, a fair reduction of duty shall be allowed, in proportion to their deterioration. If any disputes arise, they shall be settled in the same manner as agreed upon in Art. XVI. of this treaty having reference to articles which pay duty *ad valorem*.

Art. XX.—Any merchant vessel belonging to one of the contracting German States having entered any of the open ports, and not yet opened hatches, may quit the same within forty-eight hours after her arrival, and proceed to another port, without being subject to the payment of tonnage-dues, duties, or any other fees or charges; but tonnage-dues must be paid after the expiration of the said forty-eight hours.

Art. XXI.—Import duties shall be considered payable on the landing of the goods, and duties of export on the shipping of the same. When all tonnage-dues and duties shall have been paid, the Superintendent of Customs shall give a receipt in full (port-clearance), which being produced at the Consulate, the Consular officer shall then return to the captain the ship's papers and permit him to depart on the voyage.

Art. XXII.—The Superintendent of Customs will point out one or more bankers, authorized by the Chinese Government to receive the duties on its behalf. The receipts of these bankers shall be looked upon as given by the Chinese Government itself. Payment may be made in bars or in foreign coin, whose relative value to the Chinese Sycee silver shall be fixed by special agreement, according to circumstances, between the Consular Officers and the Superintendent of Customs.

Art. XXIII.—Merchant-vessels belonging to the contracting German States of more than one hundred and fifty tons burden shall be charged four mace per ton; merchant-vessels of one hundred and fifty tons and under shall be charged at the rate of one mace per ton.

The captain or consignee having paid the tonnage-dues the Superintendent of Customs shall give them a special certificate, on exhibition of which the ship shall be exempted from all further payment of tonnage-dues in any open port of China which the captain may visit for a period of four months, to be reckoned from the date of the port clearance mentioned in Art. XXI.

Boats employed by subjects of the contracting German States in the conveyance of passengers, baggage, letters, articles of provisions, or articles not subject to duties, shall not be liable to tonnage-dues. Any boat of this kind, however, conveying merchandize subject to duty, shall come under the category of vessels under one hundred and fifty tons, and pay tonnage-dues at the rate of one mace per register ton.

Art. XXIV.—Goods on which duties have been paid in any of the ports open to foreign trade, upon being sent into the interior of the country, shall not be subject to any but transit duty. The same shall be paid according to the tariff now existing and may not be raised in future. This also applies to goods sent from the interior of the country to any of the open ports.

All transit duties on produce brought from the interior to any of the open ports, or importations sent from any of the open ports into the interior of China, may be paid once for all.

If any the Chinese officers violate the stipulations of this article by demanding illegal or higher duties than allowed by law, they shall be punished according to Chinese law.

Art. XXV.—If the master of a merchant vessel belonging to any of the contracting German States, having entered any of the open ports, should wish to land only a portion of his cargo, he shall only pay duties for the portion so landed. He may take the rest of the cargo to another port, pay duties there, and dispose of the same.

Art. XXVI.—Merchants of any of the contracting German States, who may have imported merchandize into any of the open ports and paid duty thereon, if they desire to re-export the same, shall be entitled to make application to the Superintendent of Customs, who shall cause examination to be made to satisfy himself of the identity of the goods and of their having remained unchanged.

On such duty-paid goods the Superintendent of Customs shall, on application of the merchant wishing to re-export them to any other open port, issue a certificate, testifying the payment of all legal duties thereon.

The Superintendent of Customs of the port to which such goods are brought, shall, upon presentation of said certificate, issue a permit for the discharge and landing of them free of all duty, without any additional exactions whatever. But if, on comparing the goods with the certificate, any fraud on the revenue be detected, then the goods shall be subject to confiscation.

But if the goods are to be exported to a foreign port, the Superintendent of Customs of the port from which they are exported shall issue a certificate stating that the merchant who exports the goods has a claim on the Customs equal to the amount of duty paid on the goods. The certificate shall be a valid tender to the Customs in payment of import or export duties.

Art. XXVII.—No transshipment from one vessel to another can be made without special permission of the Superintendent of Customs, under pain of confiscation of the goods so transhipped, unless it be proved that there was danger in delaying the transshipment.

Art. XXVIII.—Sets of standard weights and measures, such as are in use at the Canton Custom House, shall be delivered by the Superintendent of Customs to the Consul at each port open to foreign trade. These measures, weights, and balances shall represent the ruling standard on which all demands and payment of duties are made and in case of any dispute they shall be referred to.

Art. XXIX.—Penalties enforced or confiscations made for violation of this Treaty, or of the appended regulations, shall belong to the Chinese Government.

Art. XXX.—Ships-of-war belonging to the contracting German States cruising about for the protection of trade, or being engaged in the pursuit of pirates, shall be at liberty to visit, without distinction, all ports within the dominions of the Emperor of China. They shall receive every facility for the purchase of provisions, the procuring of water, and for making repairs. The commanders of such ships shall hold intercourse with the Chinese authorities on terms of equality and courtesy. Such ships shall not be liable to the payment of duties of any kind.

Art. XXXI.—Merchant vessels belonging to any of the contracting German States, from injury sustained, or from other causes, compelled to seek a place of refuge, shall be permitted to enter any port within the dominions of the Emperor of China without being subject to the payment of tonnage dues or duties on the goods, if only landed for the purpose of making the necessary repairs of the vessel, and remaining under the supervision of the Superintendent of Customs. Should any such vessel be wrecked or stranded on the coast of China, the Chinese authorities shall immediately adopt measures for rescuing the crew and for securing the vessel and cargo. The crew thus saved shall receive friendly treatment, and, if necessary, shall be furnished with the means of conveyance to the nearest Consular station.

Art. XXXII.—If sailors or other individuals of ships-of-war or merchant vessels belonging to any of the contracting German States desert their ships and take refuge in the dominions of the Emperor of China, the Chinese authorities shall, upon due requisition by the Consular Officer, or by the captain, take the necessary steps for the detention of the deserter, and hand him over to the Consular Officer or to the captain.

In like manner, if Chinese deserters or criminals take refuge in the houses or on board ships belonging to subjects of the contracting German States, the local Chinese authorities shall apply to the German Consular Officer, who will take the necessary measures for apprehending the said deserter or criminal, and deliver him up to the Chinese authorities.

Art. XXXIII.—If any vessel belonging to any of the contracting German States, while within Chinese waters, be plundered by pirates, it shall be the duty of the Chinese authorities to use every means to capture and punish the said pirates, to recover the stolen property where and in whatever condition it may be, and to hand the same over to the Consul for restoration to the owner. If the robbers or pirates cannot be apprehended, or the property taken cannot be entirely recovered, the Chinese authorities shall then be punished in accordance with the Chinese law, but they shall not be held pecuniarily responsible.

Art. XXXIV.—If subjects of any of the contracting German States have any occasion to address a communication to the Chinese authorities, they must submit the same to their Consular Officer, to determine if the matter be just, and the language be proper and respectful, in which event he shall transmit the same to the proper authorities, or return the same for alterations. If Chinese subjects have occasion to address a Consul of one of the contracting German States, they must adopt the same course, and submit their communication to the Chinese authorities, who will act in like manner.

Art. XXXV.—Any subject of any of the contracting German States having reason to complain of a Chinese, must first proceed to the Consular Officer and state his grievance. The Consular Officer, having inquired into the merits of the case, will endeavour to arrange it amicably. In like manner, if a Chinese have reason to complain of a subject of any of the contracting German States, the Consular Officer shall listen to his complaint and endeavour to bring about a friendly settlement. If the dispute, however, is of such a nature that the Consul cannot settle the same amicably, he shall then request the assistance of the Chinese authorities, that they may conjointly examine into the merits of the case, and decide it equitably.

Art. XXXVI.—The Chinese authorities shall at all times afford the fullest protection to the subjects of the contracting German States, especially when they are exposed to insult or violence. In all cases of incendiarism, robbery, or demolition, the local authorities shall at once dispatch an armed force to disperse the mob, to apprehend the guilty, and to punish them with the rigour of the law. Those robbed or whose property has been demolished shall have a claim upon the despoilers of their property for indemnification, proportioned to the injury sustained.

Art. XXXVII.—Whenever a subject of His Majesty the Emperor of China fails to discharge the debts due to a subject of one of the contracting German States, or fraudulently absconds, the Chinese authorities, upon application by the creditor, will do their utmost to effect his arrest and to enforce payment of the debt. In like manner the authorities of the contracting German States shall do their utmost to enforce the payment of debts of their subjects towards Chinese subjects, and to bring to justice any who fraudulently abscond. But in no case shall either the Chinese Government or the Government of the contracting German States be held responsible for the debts incurred by their respective subjects.

Art. XXXVIII.—Any subject of His Majesty the Emperor of China, having committed a crime against a subject of one of the contracting German States, shall be apprehended by the Chinese authorities and punished according to the laws of China.

In like manner, if a subject of the contracting German States is guilty of a crime against a subject of His Majesty the Emperor of China, the Consular Officer shall arrest him and punish him according to the laws of the State to which he belongs,

Art. XXXIX.—All questions arising between subjects of the contracting German States in reference to the rights of property or person shall be submitted to the jurisdiction of the authorities of their respective States. In like manner will the Chinese authorities abstain from interfering in differences that may arise between subjects of one of the contracting German States and foreigners.

Art. XL.—The contracting parties agree that the German States and their subjects shall fully and equally participate in all privileges, immunities, and advantages that have been, or may be hereafter, granted by His Majesty the Emperor of China to the government or subjects of any other nation. All changes made in favour of any nation in the tariff, in the customs' duties, in tonnage and harbour dues, in import, export, or transit duties, shall as soon as they take effect, immediately and without a new treaty, be equally applied to the contracting German States and to their merchants, shipowners, and navigators.

Art. XLI.—If in future the contracting German States desire a modification of any stipulation contained in this treaty, they shall be at liberty, after the lapse of ten years, dated from the day of the ratification of this treaty, to open negotiations to that effect. Six months before the expiration of the ten years it must be officially notified to the Chinese Government that modifications of the treaty are desired, and in what these consist. If no such notification is made, the treaty remains in force for another ten years.

Art. XLII.—The present treaty shall be ratified and the ratifications be exchanged within one year, dated from the day of signature; the exchange of the ratifications to take place at Shanghai or Tientsin, at the option of the Prussian Government. Immediately after the exchange of ratifications has taken place, the treaty shall be brought to the knowledge of the Chinese authorities, and be promulgated in the capital and throughout the provinces of the Chinese Empire, for the guidance of the authorities.

In faith whereof we, the respective Plenipotentiaries of the high contracting powers, have signed and sealed the present treaty.

TRANSLATED FROM THE GERMAN TEXT.

His Majesty the German Emperor, King of Prussia, &c., in the name of the German Empire, and his Majesty the Emperor of China, wishing to secure the more perfect execution of the Treaty of the 2nd September, 1861, have, in conformity with Article XLI. of that Treaty, according to the terms of which the High Contracting German States are entitled, after a period of ten years, to demand a revision of the Treaty, decided to conclude a Supplementary Convention.

With this view they have appointed their Plenipotentiaries—viz., His Majesty the German Emperor, King of Prussia, &c., his Envoy Extraordinary and Minister Plenipotentiary, Max August Scipio von Brandt; and His Majesty the Emperor of China, the Minister of the Tsung-li Yamen, the Secretary of State, &c, Shen-ñui-fen; and the Secretary of State, &c., Ching Lien;

Who, after communicating to each other their full Powers, and finding them in due form, have agreed upon the following Articles:—

Art. I.—*Chinese Concession.*—The harbours of I-chang, in Hupei; Wuhu, in Anhui; Wenchow, in Chekiang; and Pakhoi, in Kwangtung, and the landing-places Tat'ung and Anking, in Anhui; Huk'ow, in Kiangsi; Wusueh, Luchikow, and Shah-shih, in Hukuang, having already been opened, German ships are in future also to be permitted to touch at the harbour of Woosung, in the province Kiangsu, to take in or discharge merchandise. The necessary Regulations are to be drawn up by the Taotai of Shanghai and the competent authorities.

German Concession.—In the event of special regulations for the execution of concessions which the Chinese Government may make to foreign Governments being attached to such concessions, Germany, while claiming these concessions for herself and for her subjects, will equally assent to the regulations attached to them.

Art. XL. of the Treaty of the 2nd September, 1861, is not affected by this regulation, and is hereby expressly confirmed.

Should German subjects, on the strength of this article, claim privileges, immunities, or advantages which the Chinese Government may further concede to another Power, or the subjects of such Power, they will also submit to the regulations which have been agreed upon in connection with such concession.

Art. II.—*Chinese concession*.—German ships, which have already paid tonnage dues in China, may visit all other open ports in China, as well as all ports not Chinese, without exception, without being again obliged to pay tonnage dues, within the given period of four months.

German sailing-vessels which remain in the same Chinese harbour for a longer period than fourteen days shall only pay for time over and above this period half of the tonnage dues stipulated by Treaty.

German concession.—The Chinese Government shall have the right of appointing Consuls to all towns of Germany in which the Consuls of other States are admitted, and they shall enjoy the same rights and privileges as the Consuls of the most favoured nation.

Art. III.—*Chinese concession*.—The Chinese Commissioner of Customs, and the other competent authorities, shall, after agreeing upon the necessary regulations, themselves take measures for the establishment of bonded warehouses in all the open ports of China in which they are required in the interests of foreign commerce, and where local circumstances would admit of such an arrangement being made.

German concession.—German ships, visiting the open ports of China, shall deliver a manifest containing an exact statement as to the quality and quantity of their cargoes. Mistakes which may have occurred in the manifests can be rectified in the course of twenty-four hours (Sundays and holidays excepted). False statements as to the quantity and quality of cargo are punishable by confiscation of the goods and also by a fine, to be imposed upon the captain, but not to exceed the sum of Tls. 500.

Art. IV.—*Chinese concession*.—The export duty on Chinese coal, exported by German merchants from the open ports, is reduced to 3 mace per ton. In those ports in which a lower duty on the export of coal has already been fixed upon, the lower duty remains in force.

German concession.—Any one acting as pilot for any kind of craft whatever, without being furnished with the regulation certificate, is liable to a fine not to exceed Tls. 100 for each separate case.

Regulations with a view to exercising a proper control over sailors are to be introduced with the least possible delay.

Art. V.—*Chinese concession*.—German ships in want of repairs in consequence of damages sustained within or without the port are not required to pay tonnage dues during the period necessary for the repairs, which is to be fixed by the Inspectorate of Customs.

German concession.—Ships belonging to Chinese may not make use of the German flag, nor may German ships make use of the Chinese flag.

Art. VI.—*Chinese concession*.—In the event of German ships, no longer fit for sea, being broken up in any open port of China, the material may be sold without any import duty being levied upon it. But if the materials are to be brought ashore a "Permit of discharge" must first be obtained for them from the Customs Inspectorate, in the same manner as in the case of merchandise.

German concession.—If German subjects travel into the interior for their own pleasure without being in possession of a passport issued by the Consul and stamped by the proper Chinese authority, the local authorities concerned are entitled to have them taken back to the nearest German Consulate, in order that the requisite supervision may be exercised over them. The offender is, in addition to this, liable to a fine up to 300 taels.

Art. VII.—*Chinese concession*.—Materials for German docks are free of duty. A list of articles which may be imported free of duty in conformity with this stipulation is to be drawn up and published by the Inspector-General of Customs.

German concession.—Passes issued to German subjects for conveying foreign merchandise into the interior, as well as passports for the purpose of travelling issued to German subjects, are only to remain in force for a period of thirteen Chinese months from the day on which they were issued.

Art. VIII.—The settlement of the questions relating to judicial proceedings in mixed cases, the taxation of foreign merchandise in the interior, the taxation of Chinese goods in the possession of foreign merchants in the interior, and intercourse between foreign and Chinese officials is to become the subject of special negotiations, which both Governments hereby declare themselves ready to enter upon.

Art. IX.—All the provisions of the former Treaty of the 2nd September, 1861, which have not been altered by this agreement, are hereby confirmed anew, as both parties now expressly declare.

In the cases of those articles, on the other hand, which are affected by the present treaty, the new interpretation of them is to be considered as binding.

Art. X.—The present Supplementary Convention shall be ratified by their Majesties, and the ratifications exchanged at Peking, within a year from the date of its signature.

The provisions of the agreement come into force on the day of the exchange of the ratifications.

In witness whereof the plenipotentiaries of both the High Contracting Powers have signed and sealed with their seals the above agreement in four copies, in the German and Chinese texts, which have been compared and found to correspond.

Done at Peking the 31st March, 1880, corresponding to the 21st day of the second month of the sixth year Kwang Su.

SPECIAL STIPULATIONS TO THE SUPPLEMENTARY CONVENTION.

For the sake of greater clearness and completeness, it has seemed fitting to append a number of special stipulations to the Supplementary Convention.

The following stipulations must be observed by the subjects of both the Contracting Parties, in the same way as the stipulations of the Treaty itself. In proof whereof the plenipotentiaries of the two states have thereto set their seals and signatures :—

1.—In accordance with the newly granted privileges for the port of Woosung, in the province of Kiangsu, German ships shall be at liberty to take in and to unload there merchandise which is either intended for Shanghai or comes from Shanghai; and for this purpose the competent authorities there shall have the right of devising regulations in order to prevent frauds on the taxes and irregularities of every kind; which regulations shall be binding for the merchants of both countries. German merchants are not at liberty to construct landing-places for ships, merchants' houses, or warehouses at the said place.

2.—An experiment to ascertain whether bonded warehouses can be established in the Chinese open ports shall first be made at Shanghai. For this purpose the Customs Director at the said place, with the Customs Inspector-General, shall forthwith draw up regulations suitable to the local conditions, and then the said Customs Director and his colleagues shall proceed to the establishment of such bonded warehouse.

3.—If any goods found on board a German ship, for the discharge whereof a written permit from the Customs Office is required, are not entered in the manifest, this shall be taken as proof of a false manifest, no matter whether a certificate of the reception of such goods on board, bearing the captain's signature, be produced or not.

4.—If a German ship, in consequence of damages received in one of the open Chinese ports, or outside thereof, needs repair, the time required for such repair shall be reckoned in addition to the term after the lapse of which tonnage-dues are to be paid. The Chinese authorities have the right to make the necessary arrangements for this purpose. But if it appears therefrom that this is only a pretext and a design to evade the legal payments to the Customs chest, the ship therein concerned shall be fined in double the amount of the tonnage-dues whereof it has tried to evade the payment.

5.—No ships of any kind which belong to Chinese subjects are allowed to make use of the German flag. If there are definite grounds for suspicion that this has nevertheless been done, the Chinese authority concerned is to address an official communication thereon to the German Consul, and if it should be shown, in consequence of the investigation instituted by him, that the ship was really not entitled to bear the German flag, the ship as well as the goods found therein, so far as they belong to Chinese merchants, shall be immediately delivered over to the Chinese authorities for further disposal. If it be ascertained that German subjects were aware of the circumstances, and took part in the commission of the irregularity, the whole of the goods belonging to them found in the ship are liable to confiscation, and the people themselves to punishment according to law.

In case a German ship carries the Chinese flag without authority to do so, then, if it be ascertained through the investigation made by the Chinese authorities that the ship was really not entitled to bear the Chinese flag, the ship, as well as the goods found therein, so far as they belong to German merchants, shall be immediately delivered over to the German Consul for further disposal and the punishment of the guilty. If it be shown that German owners of goods were aware of the circumstance and took part in the commission of this irregularity, all the goods belonging to them found in the ship shall incur the penalty of confiscation by the Chinese authorities. The goods belonging to Chinese may be immediately seized by the Chinese authorities.

6.—If, on the sale of the materials of a German ship which, from unseaworthiness, has been broken up in one of the open Chinese ports, an attempt be made to mix up with them goods belonging to the cargo, these goods shall be liable to confiscation, and, moreover, to a fine equal to double the amount of the import duty which they would otherwise have had to pay.

7.—If German subjects go into the interior with foreign goods, or travel there, the passes or certificates issued to them shall only be valid for thirteen Chinese months, reckoned from the day of their issue, and after the lapse of that term must no longer be used. The expired passes and certificates must be returned to the Customs authorities in whose official district they were issued, in order to be cancelled.

N.B.—If a pleasure excursion be undertaken into regions so distant that the term of a year appears insufficient, this must be noted on the pass by reason of an understanding between the Consul and the Chinese authority at the time it is issued.

If the return of the passport be omitted, no further pass shall be issued to the person concerned until it has taken place. If the pass be lost, no matter whether within the term or after its expiration, the person concerned must forthwith make a formal declaration of the fact before the nearest Chinese authority. The Chinese official applied to will then do what else may be necessary for the invalidation of the pass. If the recorded declaration prove to be untrue, in case the transport of goods be concerned, they will be confiscated; if the matter relate to travelling, the traveller will be taken to the nearest Consul, and be delivered up to him for punishment.

8.—Materials for German docks only enjoy, in so far as they are actually employed for the repair of ships, the favour of duty-free importation in open ports. The Customs authority has the right to send inspectors to the dock to convince themselves on the spot as to the manner and way in which the materials are being used. If the construction of a new ship be concerned, the materials employed for this, in so far as they are specially entered in the import or export tariff, will be

reckoned at the tariff duty, and those not entered in the tariff at a duty of 5 per cent *ad valorem*, and the merchant concerned will be bound to pay this duty subsequently.

Any one who wishes to lay out a dock is to get from the Customs Office a *gratis* Concession certificate, and to sign a written undertaking, the purport and wording whereof is to be settled in due form by the Customs Office concerned.

9.—Art. XXIX. of the Treaty of the 2nd September, 1861, shall be applicable to the fines established by this present Supplementary Convention.

Done at Peking the 31st March, 1880, corresponding with the 21st day of the 2nd month of the 6th year Kwang Su.

RUSSIA.

CONVENTION BETWEEN RUSSIA AND CHINA.

SIGNED, IN THE RUSSIAN, FRENCH, AND CHINESE LANGUAGES, AT PEKING,
ON THE 14TH NOVEMBER, 1860.

Ratified at St. Petersburg, 20th December, 1860.

TRANSLATED FROM THE CHINESE TEXT.

Their Imperial Majesties the Emperors of China and Russia, having made themselves fully acquainted with the terms of the Treaty concluded in the year 1858, propose to establish certain regulations with a view to the consolidation of amity, commerce, and alliance between the two States, and in order to provide against all misunderstanding and disputes, for this purpose have appointed Plenipotentiaries, that is to say:—His Imperial Majesty the Emperor of China, His Imperial Highness the Prince Kung; His Imperial Majesty the Emperor of Russia, His Excellency Major-General Nicholas Ignatieff:—who, after communicating to each other their full powers, have conjointly agreed upon the following convention.

Art. I.—In accordance with the first article of the Treaty concluded at Gachwa (Ay-Kom, on the Amoor) on the 2nd of June, 1858, and the ninth article of the Treaty concluded at Tientsin, on the 13th of June of the same year, it is agreed that the Eastern boundaries, separating Russian from Chinese territory, shall be as follows:—From the junction of the rivers Shih-lih-ngih-urh (Songahi River and Koonah), that is to say, down the Amoor to its junction with the Usuri, the country to the North belongs to Russia, and that to the South, as far as the mouth of the Usuri to China; from the mouth of the Usuri, southwards, to Lake Hin-Ka, the rivers Usuri and Songatchan shall be the boundaries,—that is to say, the tract of country east of the said rivers belongs to Russia, and that west of the same to China; from the source of the Songatchan the boundary shall traverse Lake Hin-ka in a right line from the Songatchan to the Pih-ling; and from the mouth of the Pih-ling, it shall follow the range of mountains to the Houtou's mouth, from which it shall pass to the mouth of the Toumen, running along the Houchun and the Hae-chung-keer range,—that is to say, the country east of the boundary line indicated (from Lake Hin-Ka to the mouth of the Toumen) belongs to Russia, and that lying to the west thereof to China. From the point at which the frontiers of the two countries meet at the Toumen to the mouth of the said river, there shall be neutral territory, separating the Russian from the Chinese possessions, 20 *li* in width. Further, in accordance with the ninth article of the Tientsin Treaty, it is agreed that a chart shall be made in which the portion coloured red shall indicate the frontiers, and on which shall be written the letters of the Russian alphabet, in order to facilitate accurate reference; and the said charts shall be duly authenticated by the seals and signatures of the High Ministers of the two countries.

The tract of country above referred to is unoccupied waste land. Should Chinese squatters be found in any part of it, or should any portions be used by Chinese as fishing or hunting grounds, Russia shall not take possession of such, but the Chinese shall be allowed to fish and to hunt as they have been wont to do.

From the time of setting up the boundary marks there shall never be any changes made; and Russia engages not to encroach upon the Chinese territory in the vicinity of the frontiers, nor will ground be seized in any other part of China.

Art. II.—Following the range of hills along the Amoor's course, the long established Chinese frontier posts, and the marks put down in the 6th year of Yung-ching's reign (1728) at Sha-peen Ta-pa-ha, (in the vicinity of Tarbagatai), it is agreed that, where these marks terminate, the Western boundaries, not yet laid down, shall commence; they shall extend westward to the Lake Tse-sang-cho-urh, from which, after running in a south-westerly direction along the Tib-mih-urh Too-choo-rh of the Tee-shan range, they shall go southwards to Khokand.

Art. III.—Should there hereafter occur disputes or misunderstandings in respect of frontier boundaries, it is agreed that they shall be determined by the two preceding articles. With reference to the placing of boundary marks in the tracts of country lying on the East, between Lake Hin-Ka and the Toumen, and on the West, between Sha-peen Ta-pa-ya and Khokand, it is agreed that trustworthy officers shall be appointed by the two governments for that purpose. For the placing of the marks along the eastern frontiers the officers appointed shall meet at the mouth of the Usuri in May, 1861; and for similar duty on the western frontiers, officers shall meet at Tarbagatai, but the time of meeting it is unnecessary to fix. The officers appointed for the above work shall act with all fairness and justice; and, as in accordance with the boundaries indicated in the First and Second articles of this convention they shall make four charts, two of which shall be Russian and two either Manchurian or Chinese, and the said charts having been duly signed and sealed by the officers in question, shall be deposited, two (one in Russian and one in Manchurian or Chinese) in Russia, and two (one in Russian and one in Manchurian or Chinese) in China. On the interchange of these charts, they shall be appended hereto as forming part of this article.

Art. IV.—At all places along the frontier agreed upon in the First article of this convention, Russian and Chinese subjects may hold intercourse at pleasure. There shall not in any case be duties levied; and all frontier officers shall afford protection to merchants quietly carrying on trade.

In order to greater precision, the substance of the second article of Gae-hwan (Ay-Kom) is hereby again enunciated.

Art. V.—Russian merchants, in addition to trading at Kiachta, may, when passing in the old established manner from Kiachta to Peking, dispose of sundries at Koo-lun and Chang-kia-how. A [Russian] Consul with a limited retinue may be stationed at Koo-lun; he shall himself supervise the building of a consulate, but the site, the number of buildings, and the land for pasturage of cattle, shall all be determined by the high officers stationed at Koo-lun.

Chinese merchants, desirous of so doing, are at liberty to repair to Russia, and there carry on trade.

Russian merchants visiting the Chinese marts shall be under no restrictions, whether as to the time at which they may visit such places or the duration of their stay; but the number of merchants at any one place shall not exceed two hundred. The Russian officers stationed on the frontiers shall supply each party of merchants with a passport, in which shall be specified the name of the chief merchant, the number of people that accompany him, and the place about to be visited by them for trade. The merchants shall themselves provide funds for the expenditure attendant on their business and for the purchase of food and cattle.

Art. VI.—In the establishment of trade, the same regulations shall be applied at Kashgar as at Ili and Tarbagatai. At Kashgar, China agrees to make a grant of land whereon to build residences, warehouses, and churches, in order to suit the convenience of such Russian merchants as may live there; ground shall likewise be granted for burial purposes, and, as at Ili and Tarbagatai, a tract of pasture land for cattle. The high officer stationed at Kashgar shall be officially directed to determine the amount of ground to be granted for the purpose, and to make the other requisite arrangements.

Should persons from the outside enter the Russian concession at Kashgar, and plunder the property of Russian merchants trading there, China will not take any action in the matter.

Art. VII.—The merchants of both countries may trade as they please at the various marts, and shall not be subjected to any obstructions on the part of the officials; they

may at pleasure frequent the shops and markets for trade and barter, they may there make ready money payments, or, if they trust each other, open credit accounts; and as to the time that the merchants of the one may sojourn in the other country, the only limit shall be the merchants' own pleasure and convenience.

Art. VIII.—Russian merchants in China, and Chinese merchants in Russia, shall receive due protection from the government of the country.

In order to the due control of merchants, and to provide against misunderstandings and disputes, Russian Consuls, &c., may be stationed at the various trading marts; and in addition to those at Ili and Tarbagatai, Consuls shall be appointed for Kashgar and Koo-lun. China is at liberty to station Consuls at St. Petersburg, or at such other places in Russia as she may see fit. Such Consuls, whether Russian or Chinese, shall reside in houses to be built by their government; but they may likewise, without obstruction, rent houses belonging to the people of the places at which they may chance to be stationed.

The Consuls and the local officials shall correspond and hold intercourse on terms of equality, provided for by the second article of the Tientsin Treaty. In matters in which the merchants of both countries are concerned, the officers of the two governments shall take conjoint action; criminals shall be punished in accordance with the laws of their country, as directed by the seventh article of the Tientsin Treaty.

In all cases of disputes originating in the non-payment of money due in mercantile transactions, the parties concerned shall themselves call in arbitrators; the Russian Consuls and the Chinese local officials shall merely take such action as may tend to bring about an amicable settlement, and shall not in any way be called upon or held responsible for the payment of bad debts.

At the trading marts the merchants may register, at the offices of the Consuls and local authorities, agreements in reference to property and houses. In such cases should either of the principals refuse to carry out the terms of the registered agreement, the Consuls and officials shall enforce their fulfilment.

In cases other than those arising from mercantile transactions, as quarrels and suchlike small matters, the Consuls and local officers shall act conjointly in the examination, and shall punish the guilty parties respectively, as under their several jurisdictions.

Russians secreting themselves in Chinese houses, or absconding to the interior of China, shall, on the requisition of the Consul, be sought for and sent back by the Chinese authorities; and Russian officials shall act reciprocally in the event of Chinese hiding in Russian houses, or escaping to Russian territory.

In such serious cases as murder, robbery, wounding, conspiracy to kill, incendiarism &c., &c., the guilty party, if Russian, shall be delivered for punishment to the Russian authorities; if Chinese, he may be punished, as the laws direct, by the Chinese authorities, either at the place where the crime was committed, or at such other place as the Chinese officials may deem proper. In all cases, great or little, the Consuls and local officials shall each deal with their own countrymen; they shall not in an irregular manner arrest, detain, or punish [people not subject to their jurisdiction].

Art. IX.—As compared with former years trade is now much increased, and moreover, new boundaries have been laid down. Thus the condition of affairs differs much from what it was at the times of making the Treaties of Nipchu* and Kiachta and the supplementary stipulations of succeeding years; and circumstances that gave rise to disputes between the various frontier officers no longer remain the same. Such changes in existing regulations as are necessitated [by the altered state of affairs] are hereby included in newly drawn up stipulations.

Heretofore official communications treating of frontier business have only passed between the High Official at Koo-lun and the Governor of Kiachta, and between the Governor-General of Western Siberia and the Tartar General stationed at Ili. For the future, in addition to the officers just named, frontier business may be transacted by the Governors of the Amoor and Tung-hae-poon (Eastern Sea shore) provinces in communication with the Tartar General stationed in Hih-lung-keang and Kee-lin.

* In Latitude 54° 49' N.

Matters in which Kiachta is concerned shall be attended to by the Commissioner stationed on the Kiachta frontier, in communication with the officer of the board at Kiachta. All [such communications, &c.] shall be in accordance with the provisions of the eighth article of this convention.

The said Generals, Governors, and other officers shall correspond on terms of equality, in accordance with the second article of the Tientsin Treaty. Moreover, if the despatches written refer to business that ought not to be entered upon, no attention shall be paid to them.

In respect of frontier business of great importance, the Governor-General of Eastern Siberia shall communicate thereon with either the Privy Council or the Foreign Office.

Art. X.—All frontier business, whether of importance or otherwise, shall be managed by conjoint action on the part of the frontier officers, as laid down in the eighth article of this convention; and, as provided for by the seventh article of the Tientsin Treaty, offenders shall be tried and punished in accordance with the laws of that one of the two countries to which they may belong.

Should cattle stray or be decoyed across the frontier boundaries, the officer of the locality, on being informed of the fact by official communication, shall, without delay, dispatch people to search for them; they shall likewise give full information to the soldiery at the frontier posts, who shall be bound to recover and send back such cattle, whether straying or stolen, in accordance with the number reported in the original communication; and who, should they fail to restore the property that is missing, shall be punished, as the laws direct, in a manner proportionate to the value of what is lost. No claim for compensation shall be entertained.

In the event of runaways crossing the frontier, measures shall be taken for their discovery and arrest immediately upon the receipt of an official requisition to that effect; and on the arrest having been effected, the prisoners, with whatever property may be found in their possession, shall be handed over to the nearest frontier officer, whose duty it shall be to ascertain the place from which such persons may have absconded.

The runaways, while on the return journey under arrest, shall be supplied with food, and, if naked, with clothes; and they shall neither be maltreated nor insulted by the soldiers. Runaways arrested prior to the receipt of any such official requisition shall also be dealt with in like manner.

Art. XI.—Answers shall be returned to communications transmitted through intermediate officers by the High Officials on the frontiers. The despatches of the Governor-General of Eastern Siberia and of the Governor of Kiachta shall be handed to the Commissioner of Kiachta for transmission to the officer of the board. The despatches of the High Officer stationed at Koolun shall be handed to the officers of the board for transmission to the Commissioner of Kiachta. The despatches of the Governor of the Amoor province shall be forwarded to the Tartar General at Hih-lung-keang through the Adjutant General, who shall likewise transmit the despatches of the Kee-lin General. Despatches passing between the Governor of the Tung-hae-peen province and the General stationed at Kee-lin, shall be transmitted through the officers at the frontier posts of Hongchun in the Usuri territory. Communications between the Governor-General of Western Siberia and the General stationed at Ili shall be transmitted through the Russian Consul at Ili. Whenever the business in question is of great importance, official messengers shall be employed. The Governors-General of Eastern and Western Siberia and the various Governors of Provincial Districts, together with the High Officer at Koo-lun, and the Tartar General stationed at Hih-lun-keang, Kee-lin, and Ili, in the transmission of official communications, may entrust them to trustworthy Russian officers.

Art. XII.—As was stipulated for in the eleventh article of the Tientsin Treaty, the time allowed for the conveyance of official documents and parcels from Kiachta to Peking is herein defined.

Letters shall be forwarded once a month, parcels and boxes from Kiachta to Peking shall be forwarded once every two months, and quarterly from Peking to Kiachta. Official documents shall not be more than twenty, nor parcels more than forty days en

route; and as regards parcels, there shall never be more than twenty packages forwarded at a time, and no single package shall exceed 120 catties in weight. Letters shall not be delayed, but shall be forwarded on the day they are handed in for despatch. In the event of any delay or neglect the culpable parties shall be visited with severe punishment.

Couriers in charge of letters or parcels between Kiachta and Peking shall call at the Koo-lun Consulate, and deliver to the Consul all letters or parcels to his address, and they shall likewise take charge of whatever despatches or parcels the Consul may hand to them.

Whenever parces are despatched from Kiachta or Koo-lun, the High Officer at Koo-lun must be supplied with a list of the same; in like manner, when despatching parcels from Peking, the Foreign Office shall be supplied with a list. Such list shall specify the number and weights of the packages, as also the date of their being despatched; and on the outside of each package shall be written, in Russian and Manchurian or Chinese characters, its weight, &c.

Merchants forwarding letters and parcels for purposes of trade, if willing to hire porters themselves and to make other arrangements, shall be at liberty to do so, having obtained permission, after the report of the circumstances, from the local authorities, to obviate the [undue] incurring of expense by the Government.

Art. XIII.—Official communications passing between the Russian Minister for Foreign Affairs and the Chinese Privy Council, or between the Governor-General of Eastern Siberia and the Privy Council or Foreign Office, shall be forwarded by the regular post, and shall be under no restrictions in respect of time; and should any delay or detention be apprehended, in cases of importance, trustworthy Russian Officers may be charged with the speedy conveyance of such despatches.

While resident at Peking despatches on important business, for or from the Russian Minister, may be transmitted by officers appointed by the Russian Government. Officers conveying such despatches shall not at any place be delayed or detained and, in every instance, such bearers of despatches shall be Russians.

As regards the movements of such despatch-bearers, if travelling from Kiachta to Peking, the Governor shall notify the officer of the Board on the day preceding their departure. In like manner, if starting from Peking, a day's notice shall be given to the Board of War.

Art. XIV.—Should any of the arrangements in respect of land commerce hereafter prove inconvenient to both parties, the Governor-General of Eastern Siberia and the Chinese High Officers of the Frontier shall consult together, and determine the matter in accordance with the articles of this Convention; but new demands must not be preferred. There shall be no further departure from the provisions of the twelfth article of the Tientsin Treaty.

Art. XV.—On the termination of the present conference, the Chinese Minister Plenipotentiary shall translate the original text of this convention into the Chinese language, and shall furnish the Russian Minister Plenipotentiary with a copy of the Chinese translation, duly authenticated by signature and seal, who, on his side, shall likewise translate into Chinese the original text of the convention, and shall supply the Chinese Minister Plenipotentiary with a copy of the same, in the manner duly authenticated by seal and signature.

The articles of the present convention, without waiting for the ratification of the same by their Imperial Majesties the Emperors of the two countries, shall be in force, and for ever observed, from the day on which the translations into Chinese and the original text shall have been interchanged by the Minister Plenipotentiary. It shall each forthwith issue whatever commands may be necessary for the carrying into effect of the provisions of the convention.

Signed and sealed on the 2nd day of the 10th moon of the 10th year of Hien Fung, i.e. the 2nd day of November in the Christian year 1860 [14th November, 1860 Russian style].

PRINCE OF KUNG.
NICHOLAS IGNATIEFF.

AMENDED TREATY BETWEEN RUSSIA AND CHINA.

SIGNED, IN THE RUSSIAN, CHINESE, AND FRENCH LANGUAGES,
AT ST. PETERSBURG, 12TH FEBRUARY, 1881.

Ratifications exchanged at St. Petersburg, 19th August, 1881.

TRANSLATED FROM THE FRENCH TEXT.

His Majesty the Emperor and Autocrat of all the Russias and His Majesty the Emperor of China, desiring to regulate some questions of frontier and trade touching the interests of the two Empires, in order to cement the relations of friendship between the two countries, have named for their plenipotentiaries, to the effect of establishing an agreement on these questions:

His Majesty the Emperor of all the Russias: His Secretary of State Nicholas de Giers, senator, actual privy councillor, directing the Imperial Ministry of Foreign Affairs, and his envoy extraordinary and minister plenipotentiary to His Majesty the Emperor of China, Eugène de Butzow, actual councillor of state.

And His Majesty the Emperor of China: Tseng, Marquess of Neyong, vice-president of the high court of justice, his envoy extraordinary and minister plenipotentiary to His Majesty the Emperor of all the Russias, furnished with special powers to sign the present Treaty in quality of ambassador extraordinary.

The above named plenipotentiaries, furnished with full powers, which have been found sufficient, have agreed upon the following stipulations:—

Art. I.—His Majesty the Emperor of all the Russias consents to the re-establishment of the Chinese Government in the country of Ili, temporarily occupied since 1871 by the Russian armies. Russia remains in possession of this country, within the limits indicated by Article VII. of the present Treaty.

Art. II.—His Majesty the Emperor of China engages to decree the proper measures to shelter the inhabitants of the country of Ili, of whatever race and to whatever religion they belong, from all prosecution, in their goods or in their persons, for acts committed during or after the troubles that have taken place in that country.

A proclamation in conformity with this engagement will be addressed by the Chinese authorities, in the name of His Majesty the Emperor of China, to the population of the country of Ili, before the restoration of this country to the said authorities.

Art. III.—The inhabitants of the country of Ili will be free to remain in the places of their actual residence, as Chinese subjects, or to emigrate to Russia and to adopt Russian dependence. They will be called to pronounce themselves on this subject before the re-establishment of Chinese authority in the country of Ili, and a delay of one year, from the date of the restoration of the country to the Chinese authorities, will be accorded to those who show a desire to emigrate to Russia. The Chinese will oppose no impediment to their emigration or to the transportation of their moveable property.

Art. IV.—Russian subjects possessing land in the country of Ili will keep their rights of property, even after the re-establishment of the authority of the Chinese Government in that country.

This provision is not applicable to the inhabitants of the country of Ili who shall adopt Russian nationality upon the re-establishment of Chinese authority in this country.

Russian subjects whose lands are situated without places appropriated to Russian factories, in virtue of Article XIII. of the treaty of Kuldja of 1851, ought to discharge the same taxes and contributions as Chinese subjects.

Art. V.—The two governments will appoint commissioners of Kuldja, who will proceed to the restoration on the one part, and to the resumption on the other, of

the administration of the province of Ili, and who will be charged, in general, with the execution of the stipulations of the present Treaty relating to the re-establishment, in this country, of the authority of the Chinese Government.

The said commissioners will fulfil their commission, in conforming to the understanding which will be established as to the mode of restoration on the one part and of resumption on the other, of the administration of the country of Ili, between the Governor-General of Turkestan and the Governor-General of Shansi and Kansuh, charged by the two governments with the high direction of this affair.

The resumption of the country of Ili should be finished within a delay of three months or sooner, if it can be done, dating from the day of the arrival at Tashkend of the functionary who will be delegated by the Governor-General of Shansi and Kansuh to the Governor-General of Turkestan to notify to him the ratification and the promulgation of the present Treaty by His Majesty the Emperor of China.

Art. VI.—The Government of His Majesty the Emperor of China will pay to the Russian Government the sum of *nine millions of metallic roubles*, designed to cover the expenses occasioned by the occupation of the country of Ili by the Russian troops since 1871, to satisfy all the pecuniary claims arising from, up to the present day, the losses which Russian subjects have suffered in their goods pillaged on Chinese territories, and to furnish relief to the families of Russian subjects killed in the armed attacks of which they have been victims on Chinese territory.

The above mentioned sum of nine millions of metallic roubles will be paid within the term of two years from the date of the exchange of the ratifications of the present Treaty, according to the order and the conditions agreed upon between the two governments in the special Protocol annexed to the present Treaty.

Art. VII.—The western portion of the country of Ili is incorporated with Russia, in order to serve as a place of establishment for the inhabitants of this country who shall adopt the Russian dependence and who, by this action, will have had to abandon the lands which they possessed there.

The frontier between the possessions of Russia and the Chinese province of Ili will follow, starting from the mountains Bédjin-taou, the course of the river Khorgos, as far as the place where this river falls into the river Ili, and, crossing the latter, will take a direction to the south, towards the mountains Ouzoun-taou, leaving to the west the village of Koldjat. Proceeding from this point it will follow, whilst being directed to the south, the delineation fixed by the protocol signed at Tchugut-chak in 1864.

Art. VIII.—A part of the frontier line, fixed by the protocol signed at Schugut-chak in 1864, at the east of the Lake Zaisan, having been found defective, the two governments will name commissioners who will modify, by a common agreement, the ancient delineation in such a manner as to remove the defects pointed out and to establish an effective separation between the Kirghiz tribes submitted to the two Empires.

To the new delineation will be given, as much as possible, an intermediate direction between the old frontier and a straight line leading from the Kouitoun hill towards the Saour hills, crossing the Tcherny-Irtysh.

Art. IX.—The commissioners to be named by the two contracting parties will proceed to place posts of demarcation, as well on the delineation fixed by the preceding Articles VII. and VIII., as on the parts of the frontier where posts have not yet been placed. The time and the place of meeting of these commissioners shall be fixed by an understanding between the two governments.

The two governments will also name commissioners to examine the frontier and to place posts of demarcation between the Russian province of Ferganah and the western part of the Chinese province of Kashgar. The commissioners will take for the base of their work the existing frontier.

Art. X.—The right recognized by the treaties of the Russian Government to nominate Consuls to Ili, to Tarbagatai, to Kashgar, and to Ourga is extended, from the present time, to the towns of Soutcheou (Tsia-yu-kwan) and of Turfan. In the following towns: Kobdo, Uhiassoutai, Khami, Urumtsi, and Goutchen, the Russian

Government will establish consulates in proportion to the development of commerce, and after an understanding with the Chinese Government.

The Consul of Soutcheou (Tsia-yu-kwan) and of Turfan will exercise consular functions in the neighbouring districts, where the interests of Russian subjects demand their presence.

The dispositions contained in Articles V. and VI. of the Treaty concluded at Peking in 1860, and relative to the concession of land for the houses for the consulate, for cemeteries, and for pasturage, will apply equally to the towns of Soutcheou (Tsia-yu-kwan) and of Turfan. The local authorities will aid the Consuls to find provisional habitations until the time when the houses of the consulates shall be built.

The Russian Consuls in Mongolia and in the districts situated on the two slopes of the Tien-shan will make use of, for their journeys and for their correspondence, the postal institutions of the government, conformably to the stipulations of Article XI. of the Treaty of Tientsin and of Article XII. of the Treaty of Peking. The Chinese authorities, to whom they will address themselves for this purpose, will lend them aid and assistance.

The town of Turfan not being a locality open to foreign trade, the right of establishing a consulate will not be invoked as a precedent to obtain a right analogous to the ports of China for the provinces of the interior and for Manchuria.

Art. XI.—Russian Consuls will communicate, for affairs of service, either with the local authorities of the town of their residence, or with the superior authorities of the circuit or of the province, according as the interests which are respectively confided to them, the importance of the affairs to be treated of, and their prompt expedition shall require it. As to the rules of etiquette to be observed at the time of their interviews and, in general, in their relations, they will be based upon the respect which the functionaries of two friendly powers reciprocally owe each other.

All the affairs which may arise on Chinese territory, on the subject of commercial or other transactions, between those under the jurisdiction of the two states, will be examined and regulated, by a common agreement, by the consuls and the Chinese authorities.

In lawsuits on commercial matters, the two parties will terminate their difference amicably, by means of arbitrators chosen by one side and the other. If agreement is not established in this way, the affair will be examined and regulated by the authorities of the two states.

Engagements contracted in writing, between Russian and Chinese subjects, relative to orders for merchandise, to the transport of it, to the location of shops, of houses, and of other places, or relating to other transactions of the same kind, may be presented for legalisation by the consulates and by the superior local administrations, who are bound to legalize the documents which are presented to them. In case of non-execution of the engagements contracted, the consul and the Chinese authorities will consult as to the measures necessary to secure the execution of these obligations.

Art. XII.—Russian subjects are authorized to carry on, as in the past, trade free of duties in Mongolia subject to China, as well in places and aimaks where there is a Chinese administration as in those where there is none.

Russian subjects will equally enjoy the right of carrying on trade free of duties in the towns and other localities of the provinces of Ili, of Tarbagatai, of Kashgar, of Urumtsi, and others situated on the slopes north and south of the chain of the Tien-shan as far as the Great Wall. This immunity will be abrogated, when the development of the trade necessitates the establishment of a customs tariff, conformable to an understanding to be come to by the two governments.

Russian subjects can import into the above-named provinces of China, and export from them every description of produce, of whatever origin they may be. They may make purchases and sales, whether in cash, or by way of exchange; they will have the right to make their payments in merchandise of every description.

Art. XIII.—In the places where the Russian Government will have the right to establish consulates, as well as in the town of Kalgan, Russian subjects may construct houses, shops, warehouses, and other buildings, on the lands which they will acquire by means of purchase, or which may be conceded to them by the local authorities, conformably to that which has been established for Ili and Tarbagatai, by Article XIII. of the Treaty of Kuldja of 1851.

The privileges granted to Russian subjects, in the town of Kalgan, where there will not be a consulate, constitute an exception which cannot be extended to any other locality of the interior provinces.

Art. XIV.—Russian merchants who may wish to dispatch merchandise from Russia, by land, into the interior provinces of China, can, as formerly, direct it by the towns of Kalgan and Tungechow, to the port of Tientsin, and from there, to the other ports and interior markets, and sell it in those different places.

Merchants will use this same route to export to Russia the merchandise purchased, as well in the town and ports above named, as in the interior markets.

They will equally have the right to repair, for matters of trade, to Soucheou (Tsia-yu-kwan), the terminal point of the Russian caravans, and they will enjoy there all the rights granted to Russian trade at Tientsin.

Art. XV.—Trade by land, exercised by Russian subjects in the interior and exterior provinces of China, will be governed by the Regulations annexed to the present Treaty.

The commercial stipulations of the present Treaty, as well as the Regulations which serve as a supplement to it, can be revised after an interval of ten years has elapsed from the date of the exchange of ratifications of the Treaty; but if, in the course of six months before the expiration of this term, neither of the contracting parties manifest a desire to proceed to the revision, the trade stipulations, as well as the Regulations, will remain in force for a new term of ten years.

Trade by sea route of Russian subjects in China will be subject to the general regulations established for foreign maritime commerce in China. If it becomes necessary to make modifications in these regulations, the two governments will establish an understanding on this subject.

Art. XVI.—If the development of Russian overland trade provokes the necessity of the establishment, for goods of export and import into China, of a Customs tariff, more in relation than the tariffs actually in force, to the necessities of that trade, the Russian and Chinese governments will proceed to an understanding on this subject, by adopting, as a base for settling the duties of entry and exit, the rate of five per cent. of the value of the goods.

Until the establishment of this tariff, the export duties on some kinds of teas of inferior quality, actually imposed at the rates established for the tea of superior quality, will be diminished proportionately to their value. The settling of these duties will be proceeded with, for each kind of tea, by an understanding between the Chinese Government and the envoy of Russia to Peking, within the terms of one year, at the latest, from the date of the exchange of the ratifications of the present Treaty.

Art. XVII.—Some divergencies of opinion having arisen hitherto as to the application of Article X. of the treaty concluded at Peking, in 1860, it is established by these presents, that the stipulations of the above-named article, relative to the recoveries to be effected, in case of theft and the harbouring of cattle beyond the frontier, will be for the future interpreted in this sense, that at the time of the discovery of the individuals guilty of theft or the harbouring of cattle, they will be condemned to pay the real value of the cattle which they have not restored. It is understood that in case of the insolvency of the individuals guilty of theft of cattle, the indemnity to be paid cannot be placed to the charge of the local authorities.

The frontier authorities of the two States will prosecute, with all the rigour of the laws of their country, the individuals guilty of the harbouring of or theft of cattle, and should take the measures in their power for the restitution, to whom they belong, of cattle diverted or which may have passed the frontier.

The traces of cattle turned aside or which may have passed the frontier, may be indicated, not only to the guards of the frontier posts, but also to the elders of the nearest villages.

Art. XVIII.—The stipulations of the treaty concluded at Aigoun the 16th May, 1858, concerning the rights of the subjects of the two empires to navigate the Amoor, the Sungari, and the Oussouri, and to carry on trade with the populations of the riverine localities, are and remain confirmed.

The two governments will proceed to the establishment of an understanding concerning the mode of application of the said stipulations.

Art. XIX.—The stipulations of the old treaties between Russia and China, not modified by the present Treaty, remain in full vigour.

Art. XX.—The present Treaty, after having been ratified by the two Emperors, will be promulgated in each empire, for the knowledge and governance of each one. The exchange of ratifications will take place at St. Petersburg, within a period of six months counting from the day of the signature of the Treaty.

Having concluded the above Articles, the plenipotentiaries of the two contracting parties have signed and sealed two copies of the present Treaty, in the Russian, Chinese, and French languages, Of the three texts, duly compared and found in agreement, the French text will be evidence for the interpretation of the present Treaty.

Done at St. Petersburg, the twelfth of February, eighteen hundred and eighty-one.

REGULATIONS FOR THE LAND TRADE.

Art. I.—A trade by free exchange and free of duty (free trade) between Russian and Chinese subjects is authorised within a zone extending for fifty versts (100 li) on either side the frontier. The supervision of this trade will rest with the two Governments, in accordance with their respective frontier regulations.

Art. II.—Russian subjects proceeding on business to Mongolia and to the districts situated on the northern and southern slopes of the Tian-shan mountains may only cross the frontier at certain points specified in the list annexed to these regulations. They must procure from the Russian authorities permits in the Russian and Chinese languages, with Mongolian and Tartar translations. The name of the owner of the goods, or that of the leader of the caravan, a specification of the goods, the number of packages, and the number of heads of cattle may be indicated in the Mongolian or Tartar languages, in the Chinese text of these permits. Merchants, on entering Chinese territory, are bound to produce their permits at the Chinese post nearest to the frontier, where, after examination, the permit is to be countersigned by the chief of the post. The Chinese authorities are entitled to arrest merchants who have crossed the frontier without a permit, and to deliver them over to the Russian authorities nearest to the frontier, or to the competent Russian Consul, for the infliction of a severe penalty. In case of the permit being lost, the owner is bound to give notice to the nearest Russian Consul, in order that a fresh one may be issued to him, and to inform the local authorities, in order to obtain a temporary certificate which will enable him to pursue his journey. Merchandise introduced into Mongolia and the districts situated on the slopes of the Tian-shan, but which have found no sale there, may be forwarded to the towns of Tientsin and Sou-tcheou (Tsia-yu-kwan), to be sold or to be sent farther into China. With regard to the duties on such merchandise, to the issue of permits for its carriage, and to other Customs formalities, proceedings shall be taken in accordance with the following provisions.

Art. III.—Russian merchants forwarding goods from Kiachta and the Nertchinsk country to Tientsin must send them by way of Kalgan, Dounba, and Toun-tcheou. Merchandise forwarded to Tientsin from the Russian frontier by Kobdo and Kouihoua-tchen is to follow the same route. Merchants must be provided with transport permits issued by the Russian authorities, and duly *visé* by the competent Chinese authorities, which must give, in the Chinese and Russian languages, the name of the owner of the goods, the number of packages, and a description of the goods they contain. The officials of the Chinese Custom houses situated on the road by which merchandise is forwarded will proceed, without delay, to verify the number of the packages, and to examine the goods, which they will allow to pass onwards, after fixing a *visa* to the permit. Packages opened in the course of the Customs examinations will be closed again at the Custom-house, the number of packages opened being noted on the permit. The Customs examination is not to last more than two hours. The permits are to be presented within a term of six months at the Tientsin Custom-house to be cancelled. If the owner of the goods finds this term insufficient, he must at the proper time and place give notice to the Chinese authorities. In case of the permit being lost the merchant must give notice to the authorities who delivered it to him to obtain a duplicate, and must for that purpose make known the number and date of the missing permit. The nearest Custom-house on his road, after having ascertained the accuracy of the merchant's declarations, will give him a provisional certificate, accompanied by which his goods may proceed on their journey. An inaccurate declaration of the quantity of the goods, if it be proved that it was intended to conceal sales effected on the road, or to escape payment of duty, will render the merchant liable to the infliction of the penalties laid down by Art. VIII. of the present regulations.

Art. IV.—Russian merchants who may wish to sell at Kalgan any portion of the goods brought from Russia must make a declaration to that effect to the local authorities within the space of five days. Those authorities, after the merchant has

paid the whole of the entrance duties, will furnish him with a permit for the sale of the goods.

Art. V.—Goods brought by Russian merchants by land from Russia to Tientsin will pay an entrance duty equivalent to two-thirds of the rate established by the tariff. Goods brought from Russia to Sou-tcheou (Tsia-yu-kwan) will pay in that town the same duties and be subject to the same regulations as at Tientsin.

Art. VI.—If the goods left at Kalgan, having paid the entrance duties, are not sold there, their owner may send them on to Toun-tchéou, or to Tientsin, and the Customs authorities, without levying fresh duties, will repay to the merchant one-third of the entrance duty paid at Kalgan, a note to that effect being made on the permit issued by the Kalgan Custom-house. Russian merchants, after paying transit dues *i.e.*, one-half of the duty specified in the tariff, may forward to the internal markets goods left at Kalgan which have paid the entrance dues, subject only to the general regulations established for foreign trade in China. A transport permit, which is to be produced at all the Custom-houses and barriers on the road, will be delivered for these goods. Goods not accompanied by such permit will have to pay duty at the Custom-houses they pass, and lekin at the barriers.

Art. VII.—Goods brought from Russia to Sou-tcheou (Tsia-yu-kwan) may be forwarded to the internal markets under the conditions stipulated by Art. IX. of these Regulations for goods forwarded from Tientsin destined for the internal markets.

Art. VIII.—If it be ascertained, when the Customs examination of goods brought from Russia to Tientsin takes place, that the goods specified in the permit have been withdrawn from the packages and replaced by others, or that their quantity (after deducting what has been left at Kalgan) is smaller than that indicated in the permit, the whole of the goods included in the examination will be confiscated by the Customs authorities. It is understood that packages damaged on the road, and which, consequently, have been repacked, shall not be liable to confiscation, provided always that such damage has been duly declared at the nearest Custom-house, and that a note to such effect has been made by that office after it has ascertained the untouched condition of the goods as at first sent off. Goods concerning which it is ascertained that a portion has been sold on the road will be liable to confiscation. If goods have been taken by bye-ways in order to evade their examination at the Custom-houses established on the routes indicated in Art. III., the owner will be liable to a fine equal in amount to the whole entrance duty. If a breach of the aforesaid regulations has been committed by the carriers, without the knowledge or connivance of the owner of the goods, the Customs authorities will take this circumstance into consideration in determining the amount of the fine. This provision only applies to localities through which the Russian land trade passes, and is not applicable to similar cases arising at the ports and in the interior of the provinces. When goods are confiscated the merchant is entitled to release them by paying the equivalent of their value, duly arrived at by an understanding with the Chinese authorities.

Art. IX.—On the exportation by sea from Tientsin to some other Chinese port opened to foreign trade by treaty of goods brought from Russia by land, the Tientsin Customs will levy on such goods one-third of the Tariff duty, in addition to the two-thirds already paid. No duty shall be levied on these goods in other ports. Goods sent from Tientsin or the other ports to the internal markets are subject to transit dues (*i.e.*, half of the tariff duty) according to the general provisions laid down for foreign trade.

Art. X.—Chinese goods sent from Tientsin to Russia by Russian merchants must be forwarded to Kalgan by the route indicated under Art. III. The entire export duty will be levied on these goods when they leave the country. Nevertheless, reimported goods bought at Tientsin, as well as those bought in another port and forwarded *in transitu* to Tientsin to be exported to Russia, if accompanied by a Customs receipt for the export duty, shall not pay a second time, and the half reimportation duty (coasting duty) paid at Tientsin will be repaid to the merchant if the goods upon which it has been paid are exported to Russia within a year from

The time of such payment. For the transport of goods in Russia the Russian Consul will issue a permit indicating in the Russian and Chinese languages the name of the owner of the goods, the number of packages, and the nature of the goods they contain. These permits will be *visé* by the port Customs authorities, and must accompany the goods, for production when they are examined at the Custom-houses on the road. The rules given in detail in Article III. will be observed as to the term within which the permit is to be presented to the Custom-house to be cancelled, and as to the proceedings in case of the permit being lost. Goods will follow the route indicated by Article III., and are not to be sold on the road; a breach of this rule will render the merchant liable to the penalties provided for under Article VIII. Goods will be examined at the Custom-houses on the road in accordance with the rules laid down under Article III. Chinese goods bought by Russian merchants at Sou-tcheou (Tsia-yu-kwan), or brought by them from the internal markets to be forwarded to Russia, on leaving Sou-tcheou for Russia will have to pay the duty leviable upon goods exported from Tientsin, and will be subject to the regulations established for that port.

Art. XI.—Goods bought at Toun-tcheou, on leaving that place for Russia by land, will have to pay the full export duty laid down by the tariff. Goods bought at Kalgan will pay in that town, on leaving for Russia, a duty equivalent to half the tariff rate. Goods bought by Russian merchants in the internal markets, and brought to Toun-tcheou and Kalgan to be forwarded to Russia, will moreover be subject to transit dues, according to the general rules established for foreign trade in the internal markets. The local Custom-houses of the aforesaid towns after levying the duties will give the merchant a transport permit for the goods. For goods leaving Toun-tcheou this permit will be issued by the Dououba Customs authorities, to whom application is to be made for it, accompanied by payment of the duties to which the goods are liable. This permit will mention the prohibition to sell goods on the road. The rules given in detail in Article III. relative to permits, the examination of goods, &c., will apply in like manner to goods exported from the places mentioned in this Article.

Art. XII.—Goods of foreign origin sent to Russia by land from Tientsin, Toun-tcheou, Kalgan, and Sou-tcheou (Tsia-yu-kwan) will pay no duty if the merchant produces a Customs receipt acknowledging payment of the import and transit duties on those goods. If they have only paid entrance duties the competent Custom-house will call upon the merchant for the payment of the transit dues fixed by the tariff.

Art. XIII.—Goods imported into China by Russian merchants, or exported by them, will pay Customs duties according to the general tariff for foreign trade with China, and according to the additional tariff drawn up for Russian trade in 1862.

Goods not enumerated in either of those tariffs will be subject to a 5 per cent. *ad valorem* duty.

Art. XIV.—The following articles will be admitted free of export and import duty:—Gold and silver ingots, foreign coins, flour of all kinds, sago, biscuits, preserved meats and vegetables, cheese, butter, confectionery, foreign clothes, jewellery and silver plate, perfumery and soaps of all kinds, charcoal, firewood, candles of foreign manufacture, foreign tobacco and cigars, wine, beer, spirits, household stores and utensils to be used in houses and on board ship, travellers' luggage, official stationery, tapestries, cutlery, foreign medicines, glass ware, and ornaments. The above-mentioned articles will pass free of duty on entering and on leaving by land; but if they are sent from the towns and ports mentioned in these regulations to the internal markets they will pay a transit duty of $2\frac{1}{2}$ per cent. *ad valorem*. Travellers' luggage, gold and silver ingots, and foreign coins will, however, not pay this duty.

Art. XV.—The exportation and importation of the following articles is prohibited under penalty of confiscation in case of smuggling:—Gunpowder, artillery ammunition, cannon, muskets, rifles, pistols, and all fire-arms, engines, and ammunition of war, salt, and opium. Russian subjects going to China may, for their personal defence, have one musket or one pistol each, of which mention will be made in the

permit they are provided with. The importation by Russian subjects of saltpetre, sulphur, and lead is allowed only under special licence from the Chinese authorities, and those articles may only be sold to Chinese subjects who hold a special purchaser-permit. The exportation of rice and of Chinese copper coin is forbidden. On the other hand, the importation of rice and of all cereals may take place duty free.

Art. XVI.—The transport of goods belonging to Chinese merchants is forbidden to Russian merchants attempting to pass them off as their own property.

Art. XVII.—The Chinese authorities are entitled to take the necessary measures against smuggling.

UNITED STATES.

TREATY BETWEEN THE UNITED STATES OF AMERICA AND CHINA.

SIGNED, IN THE ENGLISH AND CHINESE LANGUAGES, AT TIENTSIN,
18TH JUNE, 1858.

Ratifications exchanged at Peking, 16th August, 1859.

The United States of America and the Ta-Tsing Empire desiring to maintain firm, lasting, and sincere friendship, have resolved to renew, in a manner clear and positive, by means of a Treaty or general convention of peace, amity, and commerce, the rules which shall in future be mutually observed in the intercourse of their respective countries; for which most desirable object the President of the United States and the August Sovereign of the Ta-Tsing Empire have named for their Plenipotentiaries, to wit: the President of the United States of America, William B. Reed, Envoy Extraordinary and Minister Plenipotentiary to China; and His Majesty the Emperor of China, Kweihang, a member of the Privy Council and Superintendent of the Board of Punishments; and Hwashana, President of the Board of Civil Office and Major-General of the Bordered Blue Banner Division of the Chinese Bannermen, both of them being Imperial Commissioners and Plenipotentiaries: And the said Ministers, in virtue of the respective full powers they have received from their governments, have agreed upon the following articles:—

Art. I.—There shall be, as there has always been, peace and friendship between the United States of America and the Ta-Tsing Empire, and between their people respectively. They shall not insult or oppress each other for any trifling cause, nor to produce an estrangement between them; and if any other nation should act unjustly or oppressively, the United States will exert their good offices, on being informed of the case, to bring about an amicable arrangement of the question, thus showing their friendly feelings.

Art. II.—In order to perpetuate friendship, on the exchange of ratifications by the President, with the advice and consent of the Senate of the United States, and by His Majesty the Emperor of China, this Treaty shall be kept and sacredly guarded in this way, viz.: The original Treaty, as ratified by the President of the United States, shall be deposited at Peking, the capital of His Majesty the Emperor of China, in charge of the Privy Council; and, as ratified by His Majesty the Emperor of China, shall be deposited at Washington, the capital of the United States, in charge of the Secretary of State.

Art. III.—In order that the people of the two countries may know and obey the provisions of this Treaty, the United States of America agree, immediately on the exchange of ratifications, to proclaim the same and publish it by proclamation in the Gazettes where the laws of the United States of America are published by authority, and His Majesty the Emperor of China, on the exchange of ratifications, agree immediately to direct the publication of the same at the capital and by the governors of all the provinces.

Art. IV.—In order further to perpetuate friendship, the Minister or Commissioner, or the highest diplomatic representative of the United States of America in China, shall at all times have the right to correspond on terms of perfect equality and confidence with the officers of the Privy Council at the capital, or with the Governors-General of the Two Kwang, of Fohkien and Chekiang, or of the Two Kiang; and whenever he desires to have such correspondence with the Privy Council at the capital, he shall have the right to send it through either of the said Governors-General, or by general post; and all such communications shall be most carefully respected. The Privy Council and Governors-General, as the case may be, shall in all cases consider and acknowledge such communications promptly and respectfully.

Art. V.—The Minister of the United States of America in China, whenever he is on business, shall have the right to visit and sojourn at the capital of His Majesty the

Emperor of China and there confer with a member of the Privy Council or any other high officer of equal rank deputed for that purpose, on matters of common interest and advantage. His visits shall not exceed one in each year, and he shall complete his business without unnecessary delay. He shall be allowed to go by land or come to the mouth of the Pei-ho, in which he shall not bring ships-of-war, and he shall inform the authorities of that place in order that boats may be provided for him to go on his journey. He is not to take advantage of this stipulation to request visits to the capital on trivial occasions. Whenever he means to proceed to the capital he shall communicate in writing his intention to the Board of Rites at the capital, and hereupon the said Board shall give the necessary directions to facilitate his journey, and give him necessary protection and respect on his way. On his arrival at the capital he shall be furnished with a suitable residence prepared for him, and he shall defray his own expenses; and his entire suite shall not exceed twenty persons exclusive of his Chinese attendants, none of whom shall be engaged in trade.

Art. VI.—If at any time His Majesty the Emperor of China shall, by treaty voluntarily made, or for any other reason, permit the representative of any friendly nation to reside at his capital for a long or short time, then, without any further consultation or express permission, the representative of the United States in China shall have the same privilege.

Art. VII.—The superior authorities of the United States and of China in corresponding together shall do so on terms of equality and in form of mutual communication (*chau-hwui*). The Consuls and the local officers, civil and military, in corresponding together shall likewise employ the style and form of mutual communication (*chau-hwui*). When inferior officers of the one government address the superior officers of the other they shall do so in the style and form of memorial (*hin-chin*). Private individuals, in addressing superior officers, shall employ the style of petition (*pin-ching*). In no case shall any terms or style be used or suffered which shall be offensive or disrespectful to either party. And it is agreed that no present, under any pretext or form whatever, shall ever be demanded of the United States by China, or of China by the United States.

Art. VIII.—In all future personal intercourse between the representative of the United States of America and the Governors-General or Governors the interviews shall be had at the official residence of the said officers, or at their temporary residence, or at the residence of the representative of the United States of America, whichever may be agreed upon between them; nor shall they make any pretext for declining these interviews. Current matters shall be discussed by correspondence, as not to give the trouble of a personal meeting.

Art. IX.—Whenever national vessels of the United States of America, in cruising along the coast and among the ports opened for trade for the protection of the commerce of their country, or for the advancement of science, shall arrive at or near any the ports of China, the commanders of said ships and the superior local authorities of the Chinese Government shall, if it be necessary, hold intercourse on terms of equality and courtesy, in token of the friendly relations of their respective nations; and the said vessels shall enjoy all suitable facilities on the part of the Chinese Government in procuring provisions or other supplies, and making necessary repairs. And the United States of America agree that in case of the shipwreck of any American vessel, or its being pillaged by pirates, or in case any American vessel shall be pillaged or captured by pirates on the seas adjacent to the coast, without being shipwrecked, the national vessels of the United States shall pursue the said pirates, and if captured deliver them over for trial and punishment.

Art. X.—The United States of America shall have the right to appoint Consuls or other commercial agents for the protection of trade, to reside at such places in the provinces of China as shall be agreed to be opened, who shall hold official intercourse and correspondence with the local officers of the Chinese Government (a Consul or a Vice-Consul in charge taking rank with an intendant of circuit or a prefect), either orally or in writing, as occasion may require, on terms of equality and reciprocal respect. And the Consuls and local officers shall employ the style of mutual

communication. If the officers of either nation are disrespectfully treated, or aggrieved in any way by the other authorities, they have the right to make representation of the same to the superior officers of the respective Governments, who shall see that full inquiry and strict justice shall be had in the premises. And the said Consuls and agents shall carefully avoid all acts of offence to the officers and people of China. On the arrival of a Consul duly accredited at any port in China, it shall be the duty of the Minister of the United States to notify the same to the Governor-General of the province where such port is, who shall forthwith recognize the said Consul and grant him authority to act.

Art. XI.—All citizens of the United States of America in China, peacefully attending to their affairs, being placed on a common footing of amity and good will with subjects of China, shall receive and enjoy for themselves and everything appertaining to them the protection of the local authorities of Government, who shall defend them from all insult or injury of any sort. If their dwellings or property be threatened or attacked by mobs, incendiaries, or other violent or lawless persons, the local officers, on requisition of the Consul, shall immediately despatch a military force to disperse the rioters, apprehend the guilty individuals, and punish them with the utmost rigour of the law. Subjects of China guilty of any criminal act towards citizens of the United States shall be punished by the Chinese authorities according to the laws of China, and citizens of the United States, either on shore or in any merchant vessel who may insult, trouble, or wound the persons or injure the property of Chinese, or commit any other improper act in China, shall be punished only by the Consul or other public functionary thereto authorized, according to the laws of the United States. Arrests in order to trial may be made by either the Chinese or the United States authorities.

Art. XII.—Citizens of the United States, residing or sojourning at any of the ports open to foreign commerce, shall be permitted to rent houses and places of business, or hire sites on which they can themselves build houses or hospitals, churches, and cemeteries. The parties interested can fix the rents by mutual and equitable agreement; the proprietors shall not demand an exorbitant price, nor shall the local authorities interfere, unless there be some objections offered on the part of the inhabitants respecting the place. The legal fees to the officers for applying the seal shall be paid. The citizens of the United States shall not unreasonably monopolize particular spots, but each party shall conduct themselves with justice and moderation. Any desecration of the cemeteries by natives of China shall be severely punished according to law. At the places where the ships of the United States anchor, or their citizens reside, the merchant, seamen, or others can freely pass and repass in the immediate neighbourhood; but in order to the preservation of the public peace, they shall not go into the country to the villages and markets to sell the goods unlawfully, in fraud of the revenue.

Art. XIII.—If any vessel of the United States be wrecked or stranded on the coast of China and be subjected to plunder or other damage, the proper officers of the Government, on receiving information of the fact, shall immediately adopt measures for its relief and security; the persons on board shall receive friendly treatment and be enabled to repair at once to the nearest port, and shall enjoy all facilities for obtaining supplies of provisions and water. If the merchant vessels of the United States, while within the waters over which the Chinese Government exercise jurisdiction, be plundered by robbers or pirates, then the Chinese local authorities, civil and military, on receiving information thereof, shall arrest the said robbers or pirates, and punish them according to law, and shall cause all the property which may be recovered to be restored to the owners, or placed in the hands of the Consul. In case of the extent of territory and numerous population of China, it shall in some cases happen that the robbers cannot be apprehended, and the property only in part recovered, the Chinese Government shall not make indemnity for the goods lost; if it shall be proved that the local authorities have been in collusion with the robbers, the same shall be communicated to the superior authorities for memorializing the Throne, and these officers shall be severely punished and their property be confiscated to repay the losses.

Art. XIV.—The citizens of the United States are permitted to frequent the ports and cities of Canton and Chau-chau, or Swatow, in the province of Kwangtung; Amoy, Foochow, and Tai-wan in Formosa, in the province of Fuhkien; Ningpo in the province of Chekiang; and Shanghai in the province of Kiangsu, and any other port or place hereafter by treaty with other powers or with the United States opened to commerce; and to reside with their families and trade there, and to proceed at pleasure with their vessels and merchandise from any of these ports to any other of them. But said vessels shall not carry on a clandestine and fraudulent trade at other ports of China, not declared to be legal, along the coast thereof; and any vessel under the American flag violating this provision shall, with her cargo, be subject to confiscation to the Chinese Government; and any citizen of the United States who shall trade in any contraband article of merchandise shall be subject to be dealt with by the Chinese Government, without being entitled to any countenance or protection from that of the United States: and the United States will take measures to prevent their flag from being abused by the subjects of other nations as a cover for the violation of the laws of the Empire.

Art. XV.—At each of the ports open to commerce, citizens of the United States shall be permitted to import from abroad, and sell, purchase, and export all merchandise, of which the importation is not prohibited by the laws of the Empire. The tariff of duties to be paid by the citizens of the United States, on the export and import of goods from and into China, shall be the same as was agreed upon at the Treaty of Wanghia, except so far as it may be modified by treaties with other nations, it being expressly agreed that citizens of the United States shall never pay higher duties than those paid by the most favoured nation.

Art. XVI.—Tonnage duties shall be paid on every merchant vessel belonging to the United States entering either of the open ports at the rate of four mace per ton of forty cubic feet, if she be over one hundred and fifty tons burden; and one mace per ton of forty cubic feet if she be of the burden of one hundred and fifty tons or under, according to the tonnage specified in the register; which, with her other papers, shall, on her arrival, be lodged with the Consul, who shall report the same to the Commissioner of Customs. And if any vessel, having paid tonnage duty at one port, shall go to any other port to complete the disposal of her cargo, or being in ballast, to purchase an entire or fill up an incomplete cargo, the Consul shall report the same to the Commissioner of Customs, who shall note on the port-clearance that the tonnage duties have been paid, and report the circumstances to the collectors at the other Custom-houses; in which case, the said vessel shall only pay duty on her cargo, and not be charged with tonnage duty a second time. The collectors of Customs at the open ports shall consult with the Consuls about the erection of beacons or light-houses, and where buoys and light ships should be placed.

Art. XVII.—Citizens of the United States shall be allowed to engage pilots to take their vessels into port, and, when the lawful duties have all been paid, take them out of port. It shall be lawful for them to hire at pleasure servants, compradores, linguists, writers, labourers, seamen, and persons for whatever necessary service, with passage or cargo-boats, for a reasonable compensation, to be agreed upon by the parties or determined by the Consul.

Art. XVIII.—Whenever merchant vessels of the United States shall enter a port, the Collector of Customs shall, if he see fit, appoint Custom-house officers to guard said vessels, who may live on board the ship or their own boats, at their convenience. The local authorities of the Chinese Government shall cause to be apprehended all mutineers or deserters from on board the vessels of the United States in China on being informed by the Consul, and will deliver them up to the Consuls or other officers for punishment. And if criminals, subjects of China, take refuge in the houses, or on board the vessels of citizens of the United States, they shall not be harboured, but shall be delivered up to justice on due requisition by the Chinese local officers, addressed to those of the United States. The merchants, seamen, and other citizens of the United States shall be under the superintendence of the appropriate officers of their government. If individuals of either nation commit acts of violence or disorder, use arms to the injury of others, or create disturbances endangering life, the officers of

the two governments will exert themselves to enforce order and to maintain the public peace, by doing impartial justice in the premises.

Art. XIX.—Whenever a merchant vessel belonging to the United States shall cast anchor in either of the said ports, the supercargo, master, or consignee, shall, within forty-eight hours, deposit the ship's papers in the hands of the Consul or person charged with his functions, who shall cause to be communicated to the Superintendent of Customs a true report of the name and tonnage of such vessel, the number of her crew and the nature of her cargo, which being done, he shall give a permit for her discharge. And the master, supercargo, or consignee, if he proceed to discharge the cargo without such permit, shall incur a fine of five hundred dollars, and the goods so discharged without permit shall be subject to forfeiture to the Chinese Government. But if a master of any vessel in port desire to discharge a part only of the cargo, it shall be lawful for him to do so, paying duty on such part only, and to proceed with the remainder to any other ports. Or if the master so desire, he may, within forty-eight hours after the arrival of the vessel, but not later, decide to depart without breaking bulk; in which case he shall not be subject to pay tonnage, or other duties or charges, until, on his arrival at another port, he shall proceed to discharge cargo, when he shall pay the duties on vessel and cargo, according to law. And the tonnage duties shall be held due after the expiration of the said forty-eight hours. In case of the absence of the Consul or person charged with his functions, the captain or supercargo of the vessel may have recourse to the consul of a friendly power; or, if he please, directly to the Superintendent of Customs, who shall do all that is required to conduct the ship's business.

Art. XX.—The Superintendent of Customs, in order to the collection of the proper duties, shall, on application made to him through the Consul, appoint suitable officers, who shall proceed, in the presence of the captain, supercargo, or consignee, to make a just and fair examination of all goods in the act of being discharged for importation, or laden for exportation, on board any merchant vessel of the United States. And if disputes occur in regard to the value of goods subject to *ad valorem* duty, or in regard to the amount of tare, and the same cannot be satisfactorily arranged by the parties, the question may, within twenty-four hours, and not afterwards, be referred to the said Consul to adjust with the Superintendent of Customs.

Art. XXI.—Citizens of the United States who may have imported merchandise into any of the free ports of China, and paid the duty thereon, if they desire to re-export the same in part or in whole to any other of the said ports, shall be entitled to make application, through their Consul, to the Superintendent of Customs, who, in order to prevent fraud on the revenue, shall cause examination to be made, by suitable officers, to see that the duties paid on such goods as are entered on the Custom-house books correspond with the representation made, and that the goods remain with their original marks unchanged, and shall then make a memorandum in the port clearance of the goods and the amount of duties paid on the same, and deliver the same to the merchant, and shall also certify the facts to the officers of Customs at the other ports; all which being done, on the arrival in port of the vessel in which the goods are laden, and everything being found, on examination there, to correspond, she shall be permitted to break bulk, and land the said goods without being subject to the payment of any additional duty thereon. But if, on such examination, the Superintendent of Customs shall detect any fraud on the revenue in the case, then the goods shall be subject to forfeiture and confiscation to the Chinese Government. Foreign grain or rice brought into any port of China in a ship of the United States, and not landed, may be re-exported without hindrance.

Art. XXII.—The tonnage duty on vessels of the United States shall be paid on their being admitted to entry. Duties of import shall be paid on the discharge of the goods, and duties of export on the landing of the same. When all such duties shall have been paid, and not before, the Collector of Customs shall give a port-clearance, and the Consul shall return the ship's papers. The duties shall be paid to the ~~shroffs~~ authorized by the Chinese Government to receive the same. Duties shall be paid and received either in sycee silver or in foreign money, at the rate of the day. If the

Consul permits a ship to leave the port before the duties and tonnage dues are paid, he shall be held responsible therefor.

Art. XXIII.—When goods on board any merchant vessel of the United States in port require to be transhipped to another vessel application shall be made to the Consul, who shall certify what is the occasion therefor to the Superintendent of Customs, who may appoint officers to examine into the facts and permit the transhipment. And if any goods be transhipped without written permits, they shall be subject to be forfeited to the Chinese Government.

Art. XXIV.—Where there are debts due by subjects of China to citizens of the United States, the latter may seek redress in law; and on suitable representations being made to the local authorities through the Consul, they will cause due examination in the premises, and take proper steps to compel satisfaction. And if citizens of the United States be indebted to subjects of China, the latter may seek redress by representation through the Consul, or by suit in the Consular Court; but neither government will hold itself responsible for such debts.

Art. XXV.—It shall be lawful for the officers or citizens of the United States to employ scholars and people of any part of China, without distinction of persons, to teach any of the languages of the Empire, and to assist in literary labours, and the person so employed shall not for that cause be subject to any injury on the part either of the Government or individuals; and it shall in like manner be lawful for citizens of the United States to purchase all manner of books in China.

Art. XXVI.—Relations of peace and amity between the United States and China being established by this treaty, and the vessels of the United States being admitted to trade freely to and from the ports of China open to foreign commerce, it is further agreed that, in case at any time hereafter China should be at war with any foreign nation whatever, and should for that cause exclude such nation from entering her ports, still the vessels of the United States shall not the less continue to pursue their commerce in freedom and security, and to transport goods to and from the ports of the belligerent powers, full respect being paid to the neutrality of the flag of the United States, provided that the said flag shall not protect vessels engaged in the transportation of officers or soldiers in the enemy's service, nor shall said flag be fraudulently used to enable the enemy's ships, with their cargoes, to enter the ports of China; but all such vessels so offending shall be subject to forfeiture and confiscation to the Chinese Government.

Art. XXVII.—All questions in regard to rights, whether of property or person, arising between citizens of the United States in China, shall be subject to the jurisdiction, and be regulated by the authorities of their own government; and all controversies occurring in China between citizens of the United States and the subjects of any other government shall be regulated by the treaties existing between the United States and such governments respectively, without interference on the part of China.

Art. XXVIII.—If citizens of the United States have special occasion to address any communication to the Chinese local officers of Government, they shall submit the same to their Consul or other officer, to determine if the language be proper and respectful, and the matter just and right, in which event he shall transmit the same to the appropriate authorities for their consideration and action in the premises. If subjects of China have occasion to address the Consul of the United States they may address him directly, at the same time they inform their own officers, representing the case for his consideration and action in the premises; and if controversies arise between citizens of the United States and subjects of China, which cannot be amicably settled otherwise, the same shall be examined and decided conformably to justice and equity by the public officers of the two nations, acting in conjunction. The extortion of illegal fees is expressly prohibited. Any peaceable persons are allowed to enter the Court in order to interpret, lest injustice be done.

Art. XXIX.—The principles of the Christian Religion, as professed by the Protestant and Roman Catholic Churches, are recognised as teaching men to do good, and to do to others as they would have others to do to them. Hereafter those who

quietly profess and teach these doctrines shall not be harassed or persecuted on account of their faith. Any person, whether citizen of the United States or Chinese convert, who, according to these tenets, peaceably teaches and practices the principles of Christianity, shall in no case be interfered with or molested.

Art. XXX.—The contracting parties hereby agree that should at any time the Ta-Tsing Empire grant to any nation, or the merchants or citizens of any nation, any right, privilege, or favour, connected either with navigation, commerce, political or other intercourse, which is not conferred by this Treaty, such right, privilege, and favour shall at once freely enure to the benefit of the United States, its public officers, merchants, and citizens.

The present Treaty of peace, amity, and commerce shall be ratified by the President of the United States, by and with the advice and consent of the Senate, within one year, or sooner, if possible, and by the August Sovereign of the Ta-Tsing Empire forthwith; and the ratifications shall be exchanged within one year from the date of the signatures thereof.

In faith whereof, we, the respective plenipotentiaries of the United States of America and of the Ta-Tsing Empire, as aforesaid, have signed and sealed these presents.

Done at Tientsin, this eighteenth day of June in the year of our Lord one thousand eight hundred and fifty-eight, and the Independence of the United States of America the eighty-second, and in the eighth year of Hien Fung, fifth moon, and eighth day.

ADDITIONAL ARTICLES TO THE TREATY BETWEEN THE UNITED STATES OF AMERICA AND CHINA OF 18TH JUNE, 1858.

SIGNED, IN THE ENGLISH AND CHINESE LANGUAGES, AT WASHINGTON.
28TH JULY, 1868.

Ratifications Exchanged at Peking 23rd November, 1869.

Whereas, since the conclusion of the treaty between the United States of America and the Ta-Tsing Empire (China) of the 18th of June, 1858, circumstances have arisen showing the necessity of additional articles thereto: the President of the United States and the August Sovereign of the Ta-Tsing Empire have named for their Plenipotentiaries: to wit, the President of the United States of America William H. Seward, Secretary of State; and His Majesty the Emperor of China Anson Burlingame, accredited as his Envoy Extraordinary and Minister Plenipotentiary, and Chih-kang and Sun-chia-ku, of the second Chinese rank, associated high Envoys and Ministers of his said Majesty; and the said Plenipotentiaries, after having exchanged their full powers, found to be in due and proper form, have agreed upon the following articles:—

Art. I.—His Majesty the Emperor of China, being of the opinion that in making concessions to the citizens or subjects of foreign powers, of the privilege of residing on certain tracts of land, or resorting to certain waters of that Empire, for purposes of trade, he has by no means relinquished his right of eminent domain or dominion over the said lands and waters, hereby agrees that no such concession or grant shall be construed to give to any power or party which may be at war with or hostile

the United States, the right to attack the citizens of the United States, or their property, within the said lands or waters: And the United States, for themselves, hereby agree to abstain from offensively attacking the citizens or subjects of any power or party, or their property, with which they may be at war, on any such tract of land or water of the said Empire. But nothing in this article shall be construed to prevent the United States from resisting an attack by any hostile power or party upon their citizens or their property.

It is further agreed that if any right or interest in any tract of land in China, has been, or shall hereafter be, granted by the Government of China to the United States or their citizens for purposes of trade or commerce, that grant shall in no event be construed to divest the Chinese Authorities of their right of jurisdiction over person and property within said tract of land except so far as the right may have been expressly relinquished by treaty.

Art. II.—The United States of America and His Majesty the Emperor of China, believing that the safety and prosperity of commerce will thereby best be promoted, agree that any privilege or immunity in respect to trade or navigation within the Chinese dominions which may not have been stipulated for by treaty, shall be subject to the discretion of the Chinese Government, and may be regulated by it accordingly, but not in a manner or spirit incompatible with the Treaty stipulations of the parties.

Art. III.—The Emperor of China shall have the right to appoint Consuls at ports of the United States, who shall enjoy the same privileges and immunities as those which are enjoyed by public law and treaty in the United States by the Consuls of Great Britain and Russia or either of them.

Art. IV.—The 29th article of the Treaty of the 18th June, 1858, having stipulated for the exemption of the Christian citizens of the United States and Chinese converts from persecution in China on account of their faith; it is further agreed that citizens of the United States in China of every religious persuasion, and Chinese subjects in the United States, shall enjoy entire liberty of conscience, and shall be exempt from all disability or persecution on account of their religious faith or worship in either country. Cemeteries for sepulture of the dead, of whatever nativity or nationality, shall be held in respect and free from disturbance or profanation.

Art. V.—The United States of America and the Emperor of China cordially recognize the inherent and inalienable right of man to change his home and allegiance, and also the mutual advantage of the free migration and emigration of their citizens and subjects respectively from the one country to the other for the purposes of curiosity, of trade, or as permanent residents. The high Contracting Parties, therefore, join in reprobating any other than an entirely voluntary emigration for these purposes. They consequently agree to pass laws, making it a penal offence for a citizen of the United States, or a Chinese subject, to take Chinese subjects either to the United States or to any other foreign country; or for a Chinese subject or citizen of the United States to take citizens of the United States to China, or to any other foreign country, without their free and voluntary consent respectively.

Art. VI.—Citizens of the United States visiting or residing in China shall enjoy the same privileges, immunities, or exemptions in respect to travel or residence as may there be enjoyed by the citizens or subjects of the most favoured nation. And reciprocally, Chinese subjects visiting or residing in the United States shall enjoy the same privileges, immunities, and exemptions in respect to travel or residence as may there be enjoyed by the citizens or subjects of the most favoured nation. But nothing herein contained shall be held to confer naturalization upon citizens of the United States in China, nor upon the subjects of China in the United States.

Art. VII.—Citizens of the United States shall enjoy all the privileges of the public educational institutions under the control of the Government of China; and reciprocally Chinese subjects shall enjoy all the privileges of the public educational institutions under the control of the Government of the United States, which are enjoyed in the respective countries by the citizens or subjects of the most favoured nation. The citizens of the United States may freely establish and maintain schools within the Empire of China at those places where foreigners are by treaty permitted

to reside; and reciprocally, the Chinese subjects may enjoy the same privileges and immunities in the United States.

Art. VII.—The United States, always disclaiming and discouraging all practices of unnecessary dictation and intervention by one nation in the affairs or domestic administration of another, do hereby freely disclaim and disavow any intention or right to intervene in the domestic administration of China in regard to the construction of railroads, telegraphs, or other material internal improvements. On the other hand, His Majesty the Emperor of China reserves to himself the right to decide the time and manner and circumstances of introducing such improvements within his dominions. With this mutual understanding it is agreed by the contracting parties that, if at any time hereafter his Imperial Majesty shall determine to construct, or cause to be constructed, works of the character mentioned within the Empire, and shall make application to the United States or any other Western Power for facilities to carry out that policy, the United States will in that case designate or authorize suitable engineers to be employed by the Chinese Government, and will recommend to other nations an equal compliance with such applications; the Chinese Government in that case protecting such engineers in their persons and property, and paying them a reasonable compensation for their services.

In faith whereof, the respective Plenipotentiaries have signed this treaty and thereto affixed the seals of their arms.

Done at Washington, the 28th day of July, in the year of our Lord one thousand eight hundred and sixty-eight.

IMMIGRATION AND COMMERCIAL TREATIES BETWEEN THE UNITED STATES AND CHINA.

SIGNED AT PEKING, IN THE ENGLISH AND CHINESE LANGUAGES,
ON THE 17TH NOVEMBER, 1880.

The Immigration Treaty.

Whereas, in the eighth year of Hien Fung, Anno Domini 1858, a treaty of peace and friendship was concluded between the United States of America and China, and to which were added in the seventh year of Tung Chi, Anno Domini 1868, certain supplementary articles to the advantage of both parties, which supplementary articles were to be perpetually observed and obeyed; and

Whereas the Government of the United States, because of the constantly increasing immigration of Chinese labourers to the territory of the United States, and the embarrassments consequent upon such immigration, now desires to negotiate a modification of the existing treaties which will not be in direct contravention of their spirit; now therefore, the President of the United States of America appoints James B. Angell, of Michigan; John F. Swift, of California; and William H. Trescott, of South Carolina, as his Commissioners Plenipotentiary; and His Imperial Majesty the Emperor of China has appointed Pao Chun, a member of His Imperial Majesty's Privy Council and Superintendent of the Board of Civil Office, and Li Hung Tsao, a member of His Imperial Majesty's Privy Council, as his Commissioners Plenipotentiary; and the said Commissioners Plenipotentiary, having conjointly examined their full powers, and having discussed the points of possible modifications in existing treaties, have agreed upon the following articles in modification:—

Art. I.—Whenever, in the opinion of the Government of the United States, the coming of Chinese labourers to the United States, or their residence therein, affects,

or threatens to affect, the interests of that country, or to endanger the good order of any locality within the territory thereof, the Government of China agrees that the Government of the United States may regulate, limit, or suspend such coming or residence, but may not absolutely prohibit it. The limitation or suspension shall be reasonable, and shall apply only to Chinese who may go to the United States as labourers, other classes not being included in the limitation. Legislation in regard to Chinese labourers will be of such a character only as is necessary to enforce the regulation, limitation, or suspension of immigration, and immigrants shall not be subject to personal maltreatment or abuse.

Art. II.—Chinese subjects, whether proceeding to the United States as traders or students, merchants, or from curiosity, together with their body and household servants, and Chinese labourers who are now in the United States, shall be allowed to go and come of their own free will and accord, and shall be accorded all the rights, privileges, immunities, and exemptions which are accorded to the citizens and subjects of the most favoured nations.

Art. III.—If Chinese labourers, or Chinese of any other class, now either permanently or temporarily residing in the territory of the United States, meet with ill-treatment at the hands of any other persons, the Government of the United States will exert all its power to devise measures for their protection, and secure to them the same rights, privileges, immunities, and exemptions as may be enjoyed by the citizens or subjects of the most favoured nations, and to which they are entitled by treaty. (6144)

Art. IV.—The high contracting Powers, having agreed upon the foregoing Articles, whenever the Government of the United States shall adopt legislative measures in accordance therewith, such measures will be communicated to the Government of China, and if the measures, as effected, are found to work hardship upon the subjects of China, the Chinese Minister at Washington may bring the matter to the notice of the Secretary of State of the United States, who will consider the subject with him, and the Chinese Foreign Office may also bring the matter to the notice of the U.S. Minister at Peking and consider the subject with him, to the end that mutual and unqualified benefit may result. In faith whereof, the Plenipotentiaries have signed and sealed the foregoing at Peking, in English and Chinese, there being three originals of each text of even tenor and date, the ratification of which shall be exchanged at Peking within one year from the date of its execution.

Done at Peking, this 17th day of November, in the year of our Lord 1880, Kuang Sü sixth year, tenth moon, fifteenth day. Signed and sealed by the above-named Commissioners of both Governments.

The Commercial Treaty.

The following is the text of the commercial treaty signed at the same place and time:—

The President of the United States of America and His Imperial Majesty the Emperor of China, because of certain points of incompleteness in the existing treaties between the two Governments, have named as their Commissioners Plenipotentiary: The President of the United States of America, James B. Angell, of Michigan; John F. Swift, of California; and William H. Trescott, of South Carolina, as his Commissioners Plenipotentiary; and His Imperial Majesty the Emperor of China has appointed Pao Chun, a member of His Imperial Majesty's Privy Council and Superintendent of the Board of Civil Office; and Li Hung Tsao, a member of His Imperial Majesty's Privy Council, as his Commissioners Plenipotentiary; and the said Commissioners Plenipotentiary, having conjointly examined their full powers, and having discussed the points of possible modifications in existing treaties, have agreed upon the following additional articles:—

Art. I.—The Governments of the United States and China, recognizing the benefits of their past commercial relations, and in order to still further promote such relations between the citizens and subjects of the two Powers, mutually agree to give the most careful and favourable attention to the representations of either as to such special extension of commercial intercourse as either may desire.

Art. II.—The Governments of China and of the United States mutually agree and undertake that Chinese subjects shall not be permitted to import opium in any of the ports of the United States, and citizens of the United States shall not be permitted to import opium into any of the open ports of China, or transport from one open port to any other open port, or to buy and sell opium in any of the open ports of China. This absolute prohibition, which extends to vessels owned by the citizens or subjects of either Power, to foreign vessels employed by them, or to vessels owned by the citizens or subjects of either Power, and employed by other persons for the transportation of opium, shall be enforced by appropriate legislation on the part of China and the United States, and the benefits of the favoured nation clauses in existing treaties shall not be claimed by the citizens or subjects of either Power as against the provisions of this article.

Art. III.—His Imperial Majesty the Emperor of China hereby promises and agrees that no other kind or higher rate of tonnage dues or duties for imports or exports or coastwise trade shall be imposed or levied in the open ports of China upon vessels wholly belonging to citizens of the United States, or upon the produce, manufactures, or merchandise imported in the same from the United States or from any foreign country, or upon the produce, manufactures, or merchandise exported in the same to the United States, or any foreign country, or transported in the same from one open port of China to another, than are imposed or levied on vessels or cargoes of any other nation, or on those of Chinese subjects. The United States hereby promises and agrees that no other kind or higher rate of tonnage duties and dues for imports shall be imposed or levied in the ports of the United States upon vessels wholly belonging to the subjects of his Imperial Majesty, coming either directly or by way of any foreign port from any of the ports of China which are open to foreign trade to the ports of the United States, or returning therefrom either directly or by way of any foreign port to any of the open ports of China, or upon the produce, manufactures, or merchandise imported in the same from China, or from any foreign country, than are imposed or levied on vessels of any other nations which make no discrimination against the United States in tonnage dues or duties on imports, exports, or coastwise trade, or than are imposed or levied on vessels and cargoes of citizens of the United States.

Art. IV.—When controversies arise in the Chinese Empire between citizens of the United States and subjects of His Imperial Majesty, which need to be examined and decided by the public officers of the two nations, it is agreed between the Governments of the United States and China that such cases shall be tried by the proper official of the nationality of the defendant. The properly authorized official of the plaintiff's nationality shall be freely permitted to attend the trial, and shall be treated with the courtesy due to his position. He shall be granted all proper facilities for watching the proceedings in the interest of justice, and if he so desire, he shall have the right to be present and to examine and to cross-examine witnesses. If he is dissatisfied with the proceedings, he shall be permitted to protest against them in debate. The law administered will be the law of the nationality of the officer trying the case.

In faith whereof, the respective Plenipotentiaries have signed and sealed the foregoing, at Peking, in English and Chinese, there being three originals of each text, of even tenor and date, the ratifications of which shall be exchanged at Peking within one year from the date of its execution.

Done at Peking, this 17th day of November, in the year of our Lord 1880, Kuang Sū sixth year, tenth moon, fifteenth day.

SIGNED, IN THE SPANISH, ENGLISH, AND CHINESE LANGUAGES AT TIENTSIN,
26TH JUNE, 1874.

Ratifications exchanged at Tientsin, 7th August, 1875.

His Excellency the President of the Republic of Peru and His Majesty the Emperor of China, being sincerely desirous to establish friendly relations between the two countries, have resolved to confirm the same by a Treaty of Friendship, Commerce, and Navigation, with the view of laying the foundations of mutual intercourse; and, for that purpose, have named as their Plenipotentiaries, that is to say:—

His Excellency the President of Peru, Don Aurelio Garcia y Garcia, a Post-Captain in the Peruvian Navy, Envoy Extraordinary and Minister Plenipotentiary of that Republic for the Empires of China and Japan; and

His Majesty the Emperor of China, Li, Minister Plenipotentiary, Imperial Commissioner, Grand Guardian of the Heir Apparent, Grand Secretary, a President of the Board of War, Governor-General of the Province of Chih-li, and invested with the dignity of the second order of nobility:

Who, after having examined and exchanged their respective full powers, have together agreed upon the following Treaty for the benefit and protection of the merchants and people of the two countries:—

Art. I.—There shall be peace and friendship between the Republic of Peru and His Majesty the Emperor of China. Their respective citizens and subjects shall reciprocally enjoy in the territories of the High Contracting Parties full and perfect protection for their persons and property.

Art. II.—In order to facilitate friendly intercourse in future, His Excellency the President of Peru may, if he see fit, appoint a Diplomatic Agent to the Court of Peking, and His Majesty the Emperor of China may in like manner, if he see fit, appoint a Diplomatic Agent to the Government of Peru.

His Majesty the Emperor of China hereby agrees that the Diplomatic Agent so appointed by the Government of Peru may, with his family and the persons of his suite, permanently reside at Peking, or may visit it occasionally, at the option of the Peruvian Government.

In like manner, the Diplomatic Agent of China may, with his family and the persons of his suit, permanently reside at Lima, or may visit it occasionally at the option of the Chinese Government.

Art. III.—The Diplomatic Agent of each of the Contracting Parties, shall, at their respective residences, enjoy all privileges and immunities accorded to them by international usage.

Art. IV.—The Government of Peru may appoint a Consul-General, and for such open ports or cities of China where it may be considered most expedient for the interest of Peruvian commerce, Consuls, Vice-Consuls, or Consular Agents. These officers shall be treated with due respect by the Chinese Authorities, and enjoy the same privileges and immunities as the Consular officers of the most favoured nation.

His Majesty the Emperor of China may appoint a Consul-General, Consuls, Vice-Consuls, or Consular Agents at any port or town of Peru where Consular Officers of any other Power are admitted to reside. All of these Officers shall enjoy the same rights and privileges as those of the most favoured nation in Peru.

It is further agreed that the appointment of the said Consular Officers shall not be made in merchants residing in the locality.

Art. V.—Peruvian citizens are at liberty to travel for their pleasure or for purposes of trade in all parts of China under the express condition of being provided with passports written in Spanish and Chinese, issued in due form by the Consuls of Peru and viséd by the Chinese Authorities. These passports, if demanded, must be produced for examination in the localities passed through. If the passport be not irregular, the bearer will be allowed to proceed, and no opposition shall be offered to his hiring persons, or hiring vessels or carts for the carriage of his baggage or merchandise, and the said merchandise shall be conveyed in accordance with the General Regulations of Foreign Trade.

If the traveller be without a passport, he shall be handed over to the nearest Consul in order to enable him to procure one. The above provision will in like manner be applicable to cases of a Peruvian citizen committing any offence against the laws of China. But he shall in no case be subjected by the Chinese Authorities to any kind of ill-treatment or insult.

The citizens of Peru may go on excursions from the open ports or cities to a distance not exceeding 100 *li*, and for a period not exceeding five days, without being provided with a passport.

The above provisions do not apply to the crews of ships, who, when on shore, shall be subject to the disciplinary regulations drawn up by the Consul and the local Authorities.

Chinese subjects shall have the liberty to travel at their pleasure throughout the territory of Peru, as long as they behave peaceably and commit no offence against the laws and regulations of the country.

Art. VI.—The Republic of Peru and the Empire of China cordially recognize the inherent and inalienable right of man to change his home. Their citizens and subjects respectively may consequently go freely from the one country to the other for the purposes of curiosity, trade, labour, or as permanent residents. The High Contracting Parties therefore agree that the citizens and subjects of both countries shall only emigrate with their free and voluntary consent; and join in reprobating any other than an entirely voluntary emigration for the said purposes, and every act of violence or fraud that may be employed in Macao or the ports of China to carry away Chinese subjects. The Contracting Parties likewise pledge themselves to punish severely, according to their laws, their respective citizens and subjects who may violate the present stipulations, and also to proceed judicially against their respective ships that may be employed in such unlawful operations, imposing the fines which for such cases are established by their laws.

Art. VII.—It is further agreed that for the better understanding and more efficient protection of the Chinese subjects who reside in Peru, the Peruvian Government will appoint official Interpreters of the Chinese language in the Prefectures of the Departments of Peru where the great centres of Chinese immigration exist.

Art. VIII.—The merchant ships belonging to Peruvian citizens shall be permitted to frequent all the ports of China open to foreign trade, and to proceed to and from pleasure with their merchandise, enjoying the same rights and privileges as those of the most favoured nation.

In like manner, the merchant ships belonging to Chinese subjects may visit all the ports of Peru open to foreign commerce and trade in them, enjoying the same rights and privileges which in Peru are granted to the citizens or subjects of the most favoured nation.

Art. IX.—Peruvian citizens shall pay at the ports of China open to foreign trade on all the goods imported or exported by them, the duties enumerated in the tariff which is now in force for the regulation of foreign commerce; but they can, in no case, be

called upon to pay higher or other duties than those required now or in future of the citizens or subjects of the most favoured nation.

No other or higher duties shall be imposed in the ports of Peru on all goods imported or exported by Chinese subjects than those which are or may be imposed in Peru on the commerce of the most favoured nation.

Art. X.—The ships of war of each country respectively shall be at liberty to visit all the ports within the territories of the other to which the ships of war of other nations are or may be permitted to come. They shall enjoy every facility and meet no obstacle in purchasing provisions, coals, procuring water and making necessary repairs. Such ships shall not be liable to the payment of duties of any kind.

Art. XI.—Any Peruvian vessels, being from extraordinary causes compelled to seek a place of refuge, shall be permitted to enter any Chinese port whatever, without being subject to the payment of tonnage dues or duties on the goods, if only landed for the purpose of making the necessary repairs of the vessels, and remaining under the supervision of the Superintendent of the Customs.

Should any such vessel be wrecked or stranded, the Chinese Authorities shall immediately adopt measures for rescuing the crew, and for securing the vessel and cargo. The crew thus saved shall receive friendly treatment, and, if necessary, shall be furnished with the means of conveyance to the nearest Consular station.

If any Chinese vessels be wrecked or compelled by stress of weather to seek a place of refuge on the coast of Peru, the local maritime Authorities shall render to them every assistance in their power; the goods and merchandise saved from the wreck shall not be subject to duties unless cleared for consumption; and the ships shall enjoy the same liberties which in equal cases are granted in Peru to the ships of other nations.

Art. XII.—Peruvian citizens in China having reason to complain of a Chinese, shall proceed at once to their Consular Officer and state to him their grievance. The Consul will inquire into the case, and do his utmost to arrange it amicably.

In like manner, if a Chinese have reason to complain of a Peruvian citizen in China, the Consular Officer shall listen to his complaint, and endeavour to come to a friendly arrangement.

Should the Consular Officer not succeed in making such arrangement, then he shall request the assistance of the competent Chinese Officer, that they may together decide the matter according to the principles of equity.

Art. XIII.—Chinese subjects guilty of a criminal action towards a Peruvian citizen in China, shall be arrested and punished by the Chinese Authorities, according to Chinese laws.

Peruvian citizens in China who may commit any crime against a Chinese subject, shall be arrested and punished according to the laws of Peru, by the Peruvian Consular Officer.

Art. XIV.—All questions in regard to rights, whether of property or person, arising between Peruvian citizens in China, shall be subject to the jurisdiction of the Peruvian Authorities. Disputes between citizens of Peru and those of other Foreign Nations shall be decided in China according to the Treaties existing between Peru and those Foreign Nations. In all cases, however, of Chinese subjects being concerned in the matter, the Chinese Authorities may interfere in the proceeding according to Articles XII. and XIII. of this Treaty.

Art. XV.—Chinese subjects in Peru shall have free and open access to the Courts of Justice of Peru for the prosecution and defence of their just rights; they shall enjoy in this respect the same rights and privileges as native citizens, and shall also be treated in every way like the citizens and subjects of other countries resident in Peru.

Art. XVI.—The Contracting Parties agree, that the Government, Public Officers, and citizens of the Republic of Peru shall fully and equally participate in all privileges, rights, immunities, jurisdiction, and advantages that may have been, or may be hereafter, granted by His Majesty the Emperor of China to the Government, Public Officers, citizens, or subjects of any other nation.

In like manner, the Government, Public Officers, and subjects of the Empire of China, shall enjoy in Peru all the rights, privileges, immunities, and advantages of every kind which in Peru are enjoyed by the Government, Public Officers, citizens, or subjects of the most favoured nation.

Art. XVII.—In order to prevent for the future any discussion, and considering that the English language, among all foreign languages, is the most generally known in China, the Treaty is written in the Spanish, Chinese, and English languages, and signed in nine copies, three in each language. All these versions have the same sense and signification, but whenever the interpretation of the Spanish and Chinese versions may differ, then reference shall be made to the English text.

Art. XVIII.—If in future the High Contracting Parties desire a modification of any stipulation contained in this Treaty, they shall be at liberty after the lapse of ten years, dated from the day of the exchange of the ratifications of this Treaty, to open negotiations to that effect. Six months before the expiration of the ten years, either of the Contracting Parties may officially notify to the other, that modifications of the Treaty are desired, and in what these consist. If no such notification is made, the Treaty remains in force for another ten years.

Art. XIX.—The present Treaty shall be ratified by His Excellency the President of Peru after being approved by the Peruvian Congress, and by His Majesty the Emperor of China; and the ratifications shall be exchanged at Shanghai or Tientsin, as soon as possible.

In token whereof, the respective Plenipotentiaries have signed and sealed this Treaty.

Done at Tientsin, this twenty-sixth day of the month of June, in the year of our Lord One Thousand Eight Hundred and Seventy-four, corresponding to the Chinese date, the thirteenth day of the fifth moon of the thirteenth year of Tung Chi.

SPAIN.

EMIGRATION CONVENTION BETWEEN SPAIN AND CHINA.

SIGNED, AT PEKING, IN SPANISH, FRENCH, AND CHINESE, 17TH NOVEMBER, 1877.

Translated from the Chinese Text.

His Majesty the King of Spain and His Majesty the Emperor of China, being very desirous of establishing on a new basis the Emigration of Chinese subjects to the Island of Cuba, and in order to avoid any further complication which might hereafter arise, have nominated for their Plenipotentiaries, as follow :

His Majesty the Emperor of China, Their Excellencies Shen, Mao, Tung, Ch'ung, and Hsion, Members of the Tsung-li Yamên.

His Majesty the King of Spain, Don Carlos Antonio de Espana, His Minister Plenipotentiary to China, Annam, and Siam, Grand Cross of the Royal Order of Isabella the Catholic, etc., etc., who have agreed to all the articles which follow :—

Art. I.—The High Contracting Parties hereby agree that the emigration of Chinese subjects as contained in Art. X. of the Treaty concluded in Tientsin on the 10th October, 1864, becomes and is hereby abrogate. Only the stipulation in the said article concerning the delivery by the Authorities of those who are claimed as deserters, criminals, and accused ones, remains in force.

Art. II.—The difficulties to which the application of the dispositions of the Treaty of Tientsin regarding the emigration gave rise having been dispersed, the two Governments renounce each for itself every pecuniary indemnity.

Art. III.—It is agreed between the two High Contracting Parties that the emigration of their respective subjects, whether accompanied by their families or not, shall be in future free and voluntary ; they disapprove of every act of violence or trickery which might be committed in the ports of China or anywhere else for the purpose expatriating Chinese subjects against their will.

The two Governments engage themselves to pursue with all the rigour of the laws any contravention of the preceding stipulation, and to impose penalties established by their respective legislatures upon the persons and ships who may violate this stipulation.

The Government of His Majesty the King of Spain engages itself to that of China to treat the Chinese subjects staying now in Cuba or who may come there hereafter on the same footing as the foreigners there of the same category and subjects of the most favoured nation.

Art. IV.—The Government of His Majesty the Emperor of China will authorize the departure of the emigrants of both sexes at their own expense for the island of Cuba from all parts of the Empire open to foreign trade ; they engage themselves not to place any impediment to the free emigration of Chinese subjects and to forbid the authorities of the said ports, and principally the Customs' Taotais, to raise difficulties, be it either towards the freight or placement of the ships under any flag whatever destined to the transport of Chinese passengers, or towards the operations of the shipowners, consignees, or agents, provided always that they conform themselves to the stipulations of the present convention.

Art. V.—It is well understood that the Customs' Taotais and the Chinese Authorities of the open ports will have the right to inform themselves whether the emigration is effected according to the spirit and the terms of the present convention.

The Customs Taotais will prepare printed passports, with which they will provide every emigrant who has decided to ship himself. These passports have to be *viséd* by the Consul of Spain in the port of departure and will be handed over to the Chinese Consul by the competent authorities of the island of Cuba on the arrival of the ship carrying emigrants.

The Customs Taotai of the port of departure of the ship carrying emigrants will moreover have the right to nominate Chinese delegates, who, together with those

chosen by the Consul of Spain, will go on board of the ships ready for departure in order to ascertain that the passengers embarked leave by their own free will and accord.

Those passengers who in the moment of departure are found not carrying the necessary documents are to be landed at once. In any case, on the arrival of a ship at her destination, when passengers are found having no document, the Spanish Authorities can, in accord with the Consuls of China, adopt such measures as they see fit for the occasion.

In order that the visit of the delegates above-mentioned can take place and have an effective result, the captain or shipowner will be bound to declare in advance the hour of the departure of the ship.

If the captain of a ship which carries emigrants does not submit to this condition, and if he declares his intention of leaving previously to the visit of the delegates, the Consul of Spain, after an official communication has been made to him to this effect, must refuse to him delivery of the ship's papers, and the ship will be detained and treated according to the laws of her country, until all the formalities prescribed by the present convention have been duly complied with.

Art. VI.—The Government of His Majesty the Emperor of China will nominate a Consul-General in Havana, and will also have the right to nominate Consular Agents in all the towns where the Spanish Government admits those of other nations.

It is well understood that these nominations will be made according to the conditions agreed upon by common accord between the high contracting parties.

The Spanish Government will grant to the Chinese Consuls the same prerogatives as those which the Consuls of other nations residing in Cuba enjoy.

The local authorities in Cuba will accord to the Consul-General as well as to the Consuls and Vice-Consuls of China all the facilities connected with the exercise of their functions for placing them in communication with their nationals and for giving them the means of affording protection to those who are entitled to it.

Art. VII.—Chinese subjects can leave the island of Cuba whenever they wish, provided that they are not under judicial pursuance.

Moreover, in order to facilitate the free circulation and settlement of the Chinese subjects in Cuba, and in order that they may enjoy the rights which are given to them by Art. III. of the present convention, the Spanish Government, together with the Chinese Representative in Madrid, or the Authorities in Havana, together with the Consul-General of China, will establish regulations, which, without deviating from the existing laws of the public good order and peace or from those which may be established in future, will grant to the Chinese subjects treatment equal to that of foreigners of the same category and subjects of the most favoured power.

The Spanish Authorities have besides to deliver to the Chinese subjects a passport of circulation similar to those with which other foreigners are furnished.

Art. VIII.—Chinese subjects will have the faculty to appeal to the Spanish tribunals in order to defend or pursue their rights; they will in this respect enjoy the same rights and privileges as the subjects of the most favoured nation.

Chinese subjects will have the faculty to be accompanied to the tribunals by lawyers and interpreters, be they Spaniards or foreigners, who, according to the Spanish law, are qualified to be present at the sitting of the tribunals and who could be designated by the Chinese Consuls residing on the island of Cuba.

The complaints which Chinese subjects actually residing on the island of Cuba have to forward in regard to ill-treatment, which they pretend to have suffered previously to the exchange of the ratifications of the present convention, will be examined by the Spanish tribunals and judged equitably in the same manner as it is the practice to do in regard to the subjects of the most favoured nation.

Art. IX.—The Consul-General of China in Havana and the competent authorities on the island of Cuba will establish, as speedily as possible and in common accord, the regulations which the Chinese emigrants actually residing in Cuba, and those who may hereafter arrive, ought to observe in order to obtain a certificate stating their entry in the register kept by the Chinese Consuls. The Chinese Consuls will

deliver to them a certificate of registration, which will be *viséd* by the Superintendent of Police, or any other competent authority in the district, town, or plantation of the prefecture where the emigrant will establish his residence.

The authorities of Cuba will communicate to the Chinese Consuls all the information concerning the number and names of the Chinese subjects in the different localities of the island and will enable them to obtain the means to personally ascertain the state of the Chinese engaged as labourers on the plantations.

Art. X.—Ships of whatever nation wishing to carry Chinese emigrants must, besides conforming themselves to the stipulations of the present convention, also submit themselves to the regulations of their country regarding the carrying of passengers, of provisions, and health.

If they do not obey these two conditions they shall then not be allowed to carry emigrants.

Art. XI.—The Government of His Majesty the King of Spain, desiring to give to the Government to His Majesty the Emperor of China a proof of friendship and good will, engages itself to send home at its own expense, as soon as the present convention shall be ratified, those Chinese who actually can be found on the island of Cuba, who formerly made in China literary studies their vocation, also those who had an official rank, and individuals who belong to families of these categories. Their repatriation will be effected according to the information given by the Chinese Consular Agents and duly verified by the Spanish Authorities.

Likewise will be repatriated old persons prevented by age from working and who may ask to go back to China; also all Chinese female orphans not married and who may wish to return to their country.

Art. XII.—The Spanish Government will order the masters of those Chinese emigrants whose contracts have expired and who according to the terms of these contracts have the right of returning home, to fulfil the obligations which they have contracted with these emigrants.

Concerning those who have fulfilled their engagements but who have no right to be sent home at the expense of their masters, and who are without means to maintain themselves, the local authorities will together with the Chinese Consuls in Cuba adopt the measures which they think necessary for repatriating them.

The emigrants at present residing on the island of Cuba and whose contracts are expiring, will receive, as soon as the present convention comes into force, a certificate in which it will be stated that they have fulfilled their engagements; by this they will obtain the right of enjoying all the advantages secured to other Chinese according to regulations mentioned in Art. VII. of the present convention, and will be free either to remain on or to leave the island of Cuba.

Art. XIII.—The authorities of the island of Cuba can, if the circumstances demand it, and regardless of the regulations already mentioned, oppose themselves to the movements and the residence of Chinese subjects in all the localities where they think convenient, if for special reasons they find that the accumulation of the individuals in the respective localities might be detrimental to the preservation of public order. In such cases the local authorities will observe towards Chinese subjects the same rules as towards other foreigners, and will communicate to the Consul of China the decision they have taken.

Art. XIV.—The labourers who have still obligations to perform according to the terms of their contracts must under any condition fulfil the obligations, but they will enjoy, regarding certificates, etc., the benefits which will be accorded to their countrymen recently landed or to those whose engagements have expired.

Likewise all the Chinese subjects who may have been detained in the Government depôts on the island of Cuba will be set at liberty as soon as the present convention comes into force; they will be furnished with such documents as the regulations provide for, and treated in the same way as other Chinese.

From the preceding clause are excepted all those who are found in the Government prisons either in consequence of a judgment or of an accusation.

Art. XV.—The Government of His Majesty the Emperor of China and the Government of His Majesty the King of Spain agree that if hereafter one of them thinks it convenient to make modifications of some of the articles of the present convention or to cancel them, negotiations to this effect can only be opened at the expiration of a least one year after the notification of such wish shall have been made by one of the high contracting parties to the other.

It is also understood that, if hereafter the Chinese Government shall grant to any other power advantages not mentioned in the present Convention regarding the emigration of Chinese subjects, such advantages will also be acquired by the Spanish Government.

Art. XVI.—The present convention will be ratified and the ratifications exchanged in Peking within a period of eight months, or sooner if possible.

The present convention is made in Spanish, French, and Chinese, in two copies, which have been compared and found correct.

Signed and sealed, on the 13th day of the 10th moon of the 3rd year of Kwang Sü (17th November, 1877).

BRAZIL.

SIGNED, IN THE PORTUGUESE, FRENCH, AND CHINESE LANGUAGES, AT
TIENTSIN, ON THE 3RD OCTOBER, 1881.

Ratifications exchanged at Shanghai, 3rd June, 1882.

His Majesty the Emperor of Brazil and His Majesty the Emperor of China being sincerely desirous of affirming their mutual sentiments of friendship and concord and of establishing relations of reciprocal utility between the two countries have resolved to conclude a treaty of friendship, commerce, and navigation, and for that purpose named as their Plenipotentiaries, that is to say:—His Majesty the Emperor of Brazil, Senhor Eduardo Callado, gentleman of the Imperial Household, Knight of the Order of the Rose and of the Imperial Turkish Order of the Medjidie, His Envoy Extraordinary and Minister Plenipotentiary on a special Mission to China.

Art. I.—There shall be perpetual peace and friendship between the Empire of Brazil and the Empire of China, as well as between their respective subjects. They may repair freely to the respective States of the High Contracting Parties and reside there. They shall obtain there full and complete protection for their persons, and

families, and their property, and shall enjoy all the rights, advantages, and privileges accorded to the subjects of the most favoured nation.

Art. II.—In order to secure the amicable relations between the two States, His Majesty the Emperor of Brazil may, if he thinks fit, appoint a diplomatic agent to the Court of Peking, and his Majesty the Emperor of China may equally, if he thinks fit, appoint a diplomatic agent to the Court of Rio de Janeiro.

The diplomatic agents of each of the High Contracting Parties may, with their families and the members of their suite, reside permanently in the capital of the other, or repair there temporarily, according to the desire of the respective Governments.

The diplomatic agents of each of the High Contracting Parties shall enjoy, in their respective residences, all the prerogatives, exemptions, immunities, and privileges accorded to the agents of the same category of the most favoured nation.

Art. III.—Each of the High Contracting Parties may nominate, in the ports and towns of the other open to trade, where its interests require, a Consul-General, Consuls, Vice-Consuls, and Consular Agents.

These shall not enter upon their functions before receiving the exequatur of the Government of the country where they are to reside. This exequatur shall be given gratuitously.

Merchants shall not be appointed to exercise Consular functions. Consuls should be true functionaries, and they shall be prohibited from trading.

In the ports and cities where a Consul has not been appointed, a foreign Consul may fulfil the functions, provided that he is not a trader. The local authorities, in the absence of a Consul, shall provide the means of securing to the subjects of the two States the benefits of the present Treaty.

The Consuls of the High Contracting Parties shall enjoy all the attributes, exemptions, immunities, and privileges conceded to the Consuls of the most favoured nation in each of the two States.

The Consuls shall not uphold the pretensions of their nationals should they be vexatious or offensive to the authorities and the inhabitants of the locality.

If a Consul conducts himself in a manner offensive to the laws of the country in which he resides, the exequatur may be withdrawn from him, according to the general custom.

Art. IV.—Brazilian subjects shall be permitted to go into the interior of China and to travel there, provided that they are furnished with a passport, issued, at the request of the Consuls, by the Customs Taotai. This passport, written in the two languages, Portuguese and Chinese, must be exhibited upon the demand of the local authorities, and shall be given up on return. No obstacle shall be raised to the hire by the travellers of men, carriages, boats, &c., necessary for the transport of their baggage.

If the traveller be found not to have a regular passport, or if he commits an illegal act, he shall be delivered up to the nearest Consul to be dealt with. The local authorities can, in this case, only arrest the traveller, and shall not insult him nor subject him to ill usage.

Brazilian subjects may go on excursions in the neighbourhood of the open ports, without being furnished with passports, to a distance of a hundred *li*, and for a period not exceeding five days.

The above stipulations are not applicable to the crews of ships, who shall be subjected, when on shore, to the regulations established by the Consuls and the local authorities.

Chinese subjects shall have the liberty of travelling in the whole of the territory of Brazil, as long as they conduct themselves peaceably and do not contravene the laws and regulations of the country.

Art. V.—Brazilian subjects may travel with their merchandise and trade in all the ports and places in China where subjects of other nations are permitted to trade.

Chinese subjects may equally travel and trade in all localities of Brazil, on equal terms with subjects of all other nations.

It is understood that in the event of one of the High Contracting Parties granting, hereafter, with its free consent, to any other nation, advantages subject to special conditions, the other Contracting Party may only profit by those advantages by acceding to the conditions inherent thereto, or to equivalent ones, mutually agreed upon.

Art. VI.—The subjects and merchant ships of either of the High Contracting Parties, in the open ports of the other, shall be subjected to the commercial regulations actually in force for all the other nations, or which may be established in future.

The subjects of the Contracting States shall not pay higher import and export duties than those payable by subjects of the most favoured nation.

Art. VII.—The ships of war of the Contracting States shall be admitted into the ports of the other where it is or shall be permitted to the ships of war of all other nations to repair, and they shall be treated there like those of the most favoured nation.

They shall enjoy every facility for the purchase of provisions, coal, &c., as well as for the supply of fresh water, and for the repairs of which they may have need.

Ships of war shall be absolutely exempt from payment of duties either on entering or leaving port.

The commanders of Brazilian vessels of war in China and the local authorities shall treat each other on the footing of equality.

Art. VIII.—Merchant ships of each of the two nations may frequent the ports of the other open to trade or which may be hereafter opened, and transport merchandise to them. They shall be treated in all respects like those of all other nations.

Ships of one of the High Contracting Parties, having had accidents at sea, near the coasts of the other, and being obliged to seek a refuge in some port, are to receive from the local authorities all the assistance which it may be in their power to render them.

Merchandise salvaged shall not be subject to any duty unless offered for sale.

These ships shall be treated on equal terms with those of other nations which may be in similar circumstances.

Art. IX.—Brazilians in China, who may have cause of complaint against Chinese, should lay their grievance before the Brazilian Consul, who shall inquire into the merits of the case and exert himself to arrive at an amicable solution.

In like manner if a Chinese have reason to complain of a Brazilian, in China, the Brazilian Consul shall listen to his complaint and endeavour to come to an amicable solution. If the Consul cannot reconcile them, the case shall be judged, in all equity, only by the authority to which the accused is subject, without considering whether the accuser is Brazilian or Chinese.

Art. X.—Brazilian subjects, in China, who commit any crime against Chinese subjects shall be arrested by the consular authorities of Brazil and punished conformably to the laws of Brazil, by the authority entrusted with the execution of the laws.

Chinese subjects guilty of a criminal act towards Brazilian subjects in China, shall be arrested and punished by the Chinese authorities, conformably to Chinese laws.

In general, every action, civil or criminal, between subjects of the two States, in China, can only be judged conformably to the laws and by the authorities of the nation of the defendant or accused.

The High Contracting Parties shall not be bound to reimburse the sums stolen or sums due by a subject of one of the States to a subject of the other. In case of theft, proceedings shall be in conformity with the laws of the country to which the culprit belongs, and in the case of debt, the authorities of the country of the debtor shall do all in their power in order that the debtor shall satisfy his engagements.

If Chinese subjects, in China, principals or accomplices in any crime, take refuge in the residences, warehouses, or merchant ships of Brazilian subjects, the Chinese authority shall report the fact to the Brazilian Consular authority and the two authorities shall depute agents to effect the arrest of the criminals, who must not be protected or concealed.

Art. XI.—All questions of right, whether of person or of property, which may arise between Brazilian subjects in China shall be subject to the sole jurisdiction of the Brazilian authorities. Actions between Brazilian subjects and foreigners in China shall be subject to the authorities only of their countries.

If any Chinese be involved in law suits, action shall be taken conformably to the two preceding articles.

If in future the Chinese Government shall deem it fit to establish, in accord with foreign Powers, a Code to regulate the matter of jurisdiction over foreign subjects in China, Brazil shall also take part in the accord.

Art. XII.—In the case of persons, whatever be their condition, from on board of the ships of one of the High Contracting Parties, in an open port of the other, going on shore, and causing disturbance there, they shall be punished conformably to the usage followed, in such cases, in each of the two countries.

As regards actions arising from collisions between vessels of the two countries, in the waters of China, such actions shall be heard by the authorities of the defendant, conformably to the regulations about collision in force in all countries.

If the complainant will not conform to the sentence, the authorities upon whom he is dependent may apply officially to the authorities to whom the defendant is subject in order that they may re-hear the suit and pronounce definitely, in all equity.

Art. XIII.—Chinese subjects in Brazil shall have free access to the courts of justice of that country for the defence of their just rights.

They shall enjoy, in this respect, the same rights and privileges as the Brazilians and the subjects of the most favoured nation.

Art. XIV.—The High Contracting Parties agree to prohibit to the subjects of each of them the importation of opium into the ports of the other open to trade, and the transport of opium from port to port, whether for their own account or for the account of subjects or citizens of any other nation, as well in ships belonging to subjects of the High Contracting Parties as in ships belonging to subjects or citizens of a third nation.

The High Contracting Parties further agree to prohibit to their respective subjects the opium trade in the ports of the other open to trade.

The clause of the most favoured nation cannot be invoked against the provisions of this article.

Art. XV.—This Treaty has been drawn up in three languages, Portuguese, Chinese, and French. Four copies have been prepared in each of these languages; the versions have been compared and found to correspond in all points, and free from errors.

The Portuguese text shall be authoritative in Brazil, and the Chinese in China. In case of divergence in the interpretations, the French text shall decide.

Art. XVI.—If in future the High Contracting Parties desire to make any modifications in this Treaty, they shall have the liberty, after the lapse of ten years, dating from the exchange of the ratifications, to open negotiations with this object.

The official notification of the modifications which either of the High Contracting Parties may intend to propose shall always be made six months in advance.

If no such modification be made, the Treaty shall remain in force.

Art. XVII.—The present Treaty shall be ratified by His Majesty the Emperor of Brazil and by His Majesty the Emperor of China.

The exchange of ratifications shall be made, within the shortest possible time, at Shanghai or at Tientsin; after which the Treaty shall be printed and published in order that the functionaries and subjects of the two Empires may have full knowledge of it and submit themselves to it.

In faith whereof the respective Plenipotentiaries have signed the present Treaty and have affixed their seals thereto.

TREATY OF PEACE, COMMERCE, AND NAVIGATION BETWEEN THE EMPIRES OF CHINA AND JAPAN.

SIGNED, IN THE CHINESE AND JAPANESE LANGUAGES, AT TIENTSIN,
13TH SEPTEMBER, 1871.

Ratified by the Emperor of China, September, 1871.

Ratified by the Mikado of Japan, with modifications, 1st November, 1871.*

The Empire of China and the Empire of Japan having been on terms of friendship for a long period of years, now desire by common action to cement their ancient relations, and to make the intercourse subsisting between the two countries more close.

To this end Li, by Imperial appointment, Minister Plenipotentiary of the Empire of China for the management of commercial affairs, Senior Guardian of the Her Apparent, Assistant Grand Secretary, President of the Board of War, Governor-General of the Province of Chih-li, and invested with the first degree of the third order of nobility; and Ita, Minister Plenipotentiary of the Empire of Japan, &c., &c., each acting in obedience to the Decrees of their respective Sovereigns, have conferred together, and have agreed to articles for the reconstruction of relations, to the end that they may be observed with good faith on both sides in perpetuity.

The Articles agreed upon are as follow:—

Art. I.†—Relations of amity shall henceforth be maintained in redoubled force between China and Japan, in measure as boundless as the heaven and the earth. In all that regards the territorial possessions of either country the two Governments shall treat each the other with proper courtesy, without the slightest infringement or encroachment on either side, to the end that there may be for evermore peace between them undisturbed.

Art. II.—Friendly intercourse thus existing between the two Governments, it is the duty of each to sympathize with the other, and in the event of any other nation acting unjustly or treating either of the two Powers with contempt, on notice being given [by the one to the other], mutual assistance shall be rendered, or mediation offered for the arrangement of the difficulty, in fulfilment of the duty imposed by relations of friendship.

Art. III.—The system of Government and the penal enactments of the two Governments being different from each other, each shall be allowed to act in entire independence. There shall be no interference offered, nor shall requests for innovations be obtruded. Each shall aid the other in enforcement of the laws, nor shall either allow its subjects to entice the people of the other country to commit acts of violation of the laws.

Art. IV.—It will be competent for either Government to send Ministers Plenipotentiary, with their families and suites, to reside in the capital of the other, either

* See Articles II. and XI. It was also stipulated, on ratification of the Treaty by the Mikado of Japan, that the commercial clauses should be held subject to modification on any future revision of the Treaties between Japan and the European Powers.

† This Article was excluded from ratification by the Mikado of Japan, on the ground of its being uncommensurate with the ordinary provisions of international law.

permanently or from time to time. Their travelling expenses, as they pass through the country, will be defrayed by themselves. In the matter of their hiring ground or buildings to serve as legations, of the passage of their baggage to and fro, of the conveyance of their correspondence by special couriers, and the like, due assistance shall be rendered on either side.

Art. V.—Although the functionaries of the two Governments have fixed grades, the nature of the offices conferred are different on either side. Officers of equivalent rank will meet and correspond with each other on a footing of equality. When an officer visits a superior, the intercourse between them will be such as is prescribed by the rites of hospitality. For the transaction of public business, the officials of the two countries will address communications to officers of their own rank, who will report in turn to their superiors. They will not address the superior officer directly. In visits, cards with the official title of the visitor shall be sent on either side. All officials sent on the part of either Government to the other shall present for inspection a letter bearing an official stamp, in order to guard against false personation.

Art. VI.—In official correspondence, China will use the Chinese language, and Japan will either use the Japanese language accompanied by a Chinese version, or a Chinese version alone, as may be found on her side preferable.

Art. VII.—Friendly intercourse having been established between the two Governments, it will behove them both to appoint certain ports on the seaboard which their merchants will be authorized to frequent for purposes of trade, and to lay down separately regulations of trade, that their respective mercantile communities may abide by in perpetuity.

Art. VIII.—At the ports appointed in the territory of either Government, it will be competent for the other to station Consuls for the control of its own merchant community. All suits in which they (the Consul's nationals) are the only parties, the matter in dispute being money or property, it will fall to the Consul to adjudicate according to the law of his own state. In mixed suits, the plaintiff having been laid before the Consul, he will endeavour, in the first instance, to prevent litigation by friendly counsel. If this be not possible, he will write officially to the local authority, and in concert with him will fairly try the case and decide it. Where acts of theft or robbery are committed, and where debtors abscond, the authorities can do no more than make search for and apprehend the guilty parties. They shall not be held liable to make compensation.

Art. IX.—At any of the ports appointed, at which no Consul shall have been stationed, the control and care of the traders resorting thither shall devolve on the local authorities. In case of the commission of any act of crime, the guilty party shall be apprehended, and the particulars of his offence communicated to the Consul at the nearest port, by whom he shall be tried and punished according to law.

Art. X.—At the ports named in either country, the officials and people of the other shall be at liberty to engage natives for service, or as artisans, or to attend to commercial business. The persons so engaged shall be kept in order by the person so engaging them, who shall not allow them to perpetrate acts of fraud under any pretext. Still less shall he give rise to cause of complaint by giving ear to statements advanced from illicit motives. In the case of any offence being committed by any person employed in the manner above mentioned, the local authority shall be at liberty to apprehend and punish the delinquent. The employer shall not favour or protect him.

Art. XI.—Whereas it is the duty of the subjects of either Power residing at the ports declared open in either country to live on friendly terms with the native inhabitants, it is provided that they shall not be allowed to wear arms. Infraction of this rule will be punishable by a fine, accompanied by the confiscation of the arms.* Residents as aforesaid shall attend peaceably to their own avocations, and whether residing permanently or for the time being at a port, they shall submit to the authority of their Consul. They shall not be allowed to adopt the costume of the country

* Ratification of these clauses, relating to the wearing of arms, refused by the Mikado of Japan.

in which they may reside, nor to obtain local registration and compete at the literary examinations, lest disorder and confusion be produced.

Art. XII.—If any subject of either Power having violated the law of his own country, secrete himself in an official building, merchant vessel, or warehouse of the other state, or escape to any place in the territory of the other, on official application being made by the authority of the state of which such offender is a subject to the authority of the other, the latter shall immediately take steps for the arrest of the offender, without show of favour. Whilst in custody, he shall be provided with food and clothing, and shall not be subjected to ill-usage.

Art. XIII.—If any subject of either Power connect himself at any of the open ports with lawless offenders for purposes of robbery or other wrong doing, or if any work his way into the interior and commit acts of incendiarism, murder, or robbery, active measures for his apprehension shall be taken by the proper authority, and notice shall at the same time be given without delay to the Consul of the offender's nationality. Any offender who shall venture, with weapons of a murderous nature, to resist capture, may be slain in the act without farther consequences; but the circumstances which have led to his life being thus taken shall be investigated at an inquest which will be held by the Consul and the local authority together. In the event of the occurrence taking place in the interior, so far from the port that the Consul cannot arrive in time for the inquest, the local authority shall communicate a report of the facts of the case to the Consul.

When arrested and brought up for trial, the offender, if at a port, shall be tried by the local authority and the Consul together. In the interior he shall be tried and dealt with by the local authority, who will officially communicate the facts of the case to the Consul.

If subjects of either Power shall assemble to the number of ten or more to foment disorder and commit excesses in the dominions of the other, or shall induce subjects of the other therein to conspire with them for the doing of injury to the other Power, the authorities of the latter shall be free at once to arrest them. If at a port, their Consul shall be informed, in order that he may take part in their trial. If in the interior, the local authority shall duly try them, and shall officially communicate particulars to the Consul. In either case capital punishment shall be inflicted at the scene of the commission of the offence.

Art. XIV.—Vessels of war of either Power shall be at liberty to frequent the ports of the other for the protection of the subjects of their own country, but they shall in no case enter ports not declared open by treaty, nor rivers, lakes, and streams in the interior. Any vessels infringing this rule shall be placed under embargo and fined. This stipulation shall not, however, apply to vessels driven into port by stress of weather.

Art. XV.—If either State of the two should be involved in war with any other Power, measures for the defence of the coast being thereby entailed, on notice being given, trade shall be suspended for the time being, together with the entry and departure of ships, lest injury befall them. Japanese subjects ordinarily established in the appointed ports of China, or being in the seas adjoining China, and Chinese subjects ordinarily established at the open ports of Japan or being in the seas adjoining thereunto, shall not be permitted to engage in collisions with subjects of a hostile power, or to attack and plunder them.

Art. XVI.—No Consul of either Power shall be allowed to trade, or to act as Consul for a Power not in Treaty relations with the other. In the case of any Consul so acting as to render himself generally unacceptable, on substantial proof to this effect being produced, it shall be competent for the Government interested to communicate officially with the Minister Plenipotentiary, who, when he shall have ascertained the truth, shall remove the Consul, in order that the friendly relations of the two Governments may not suffer detriment through the misconduct of a single individual.

Art. XVII.—The flags carried by the vessels of either country are of a fixed design. If a vessel of either having falsely assumed the colours of the other, shall

do that which is contrary to law, the vessel and goods shall be confiscated, and if it appear that the false colours were given by an official, he shall be denounced and removed from his post.

The subjects of either country shall be at liberty to purchase the books of the other, if desirous of studying its literature.

Art. XVIII.—The foregoing articles are agreed to by the two contracting Powers in order to the prevention of misunderstandings, to the end that perfect confidence and improved relations may subsist between them. In testimony whereof the Ministers Plenipotentiary of the two contracting Powers do now accordingly sign and affix their seals hereto. So soon as the present Treaty shall have been ratified by their respective Sovereigns, and ratified copies of it exchanged, it shall be printed and published, and circulated throughout the dominions of either Power, for the information of the subjects of both countries, to the end that there may be a good understanding between them for evermore.

Dated the 29th day of the 7th moon of the 10th year of Tung Chi, corresponding to the 4th year of Mei Ji according to the Japanese reckoning (September 13th, 1871).

Art. II.—The High Contracting Parties may each appoint a Diplomatic Representative to reside permanently or temporarily at the capital of the other, and may appoint a Consul-General, Consuls, or Vice-Consuls, to reside at any or all of the ports or places of the other which are open to foreign commerce. The Diplomatic Representatives and Consular functionaries of both countries shall freely enjoy the same facilities for communication, personally or in writing, with the Authorities of the country where they respectively reside, together with all other privileges and immunities, as are enjoyed by Diplomatic or Consular functionaries in other countries.

2.—The Diplomatic Representative and the Consular functionaries of each Power and the members of their official establishments shall have the right to travel freely in any part of the dominions of the other, and the Corean Authorities shall furnish passports to such British officers travelling in Corea, and shall provide such escort for their protection as may be necessary.

3.—The Consular officers of both countries shall exercise their functions on receipt of due authorisation from the Sovereign or Government of the country in which they respectively reside, and shall not be permitted to engage in trade.

Art. III.—Jurisdiction over the persons and property of British subjects in Corea shall be vested exclusively in the duly authorised British Judicial Authorities, who shall hear and determine all cases brought against British subjects by any British or other foreign subject or citizen without the intervention of the Korean Authorities.

2.—If the Korean Authorities or a Korean subject make any charge or complaint against a British subject in Corea, the case shall be heard and decided by the British Judicial Authorities.

3.—If the British Authorities or a British subject make any charge or complaint against a Korean subject in Corea, the case shall be heard and decided by the Korean Authorities.

4.—A British subject who commits any offence in Corea shall be tried and punished by the British Judicial Authorities according to the laws of Great Britain.

5.—A Korean subject who commits in Corea any offence against a British subject shall be tried and punished by the Korean Authorities according to the laws of Corea.

6.—Any complaint against a British subject involving a penalty or confiscation by reason of any breach either of this Treaty or of any Regulation annexed thereto, or of any Regulation that may hereafter be made in virtue of its provisions, shall be brought before the British Judicial Authorities for decision, and any penalty imposed, and all property confiscated in such cases, shall belong to the Korean Government.

7.—British goods, when seized by the Korean Authorities at an open port, shall be put under the seals of the Korean and the British Consular Authorities, and shall be detained by the former until the British Judicial Authorities shall have given their decision. If this decision is in favour of the owner of the goods, they shall be immediately placed at the Consul's disposal. But the owner shall be allowed to receive them at once on depositing their value with the Korean Authorities pending the decision of the British Judicial Authorities.

8.—In all cases, whether civil or criminal, tried either in Korean or British Courts in Corea, a properly authorised official of the nationality of the plaintiff or prosecutor shall be allowed to attend the hearing, and shall be treated with the courtesy due to his position. He shall be allowed, whenever he thinks it necessary, to call, examine, and cross-examine witnesses, and to protest against the proceedings or decision.

9.—If a Korean subject who is charged with an offence against the laws of his country takes refuge on premises occupied by a British subject, or on board a British merchant vessel, the British Consular Authorities, on receiving an application from the Korean Authorities, shall take steps to have such person arrested and handed over to the latter for trial. But, without the consent of the proper British Consular Authority, no Korean officer shall enter the premises of any British subject without his consent, or go on board any British ship without the consent of the officer in charge.

10.—On the demand of any competent British Consular Authority, the Korean Authorities shall arrest and deliver to the former any British subject charged with a criminal offence, and any deserter from a British ship of war or merchant vessel.

Art. IV.—The port of Chemulpo (Jenchuan), Wonsan (Gensan), and Pusan (Fusan), or, if the latter port should not be approved, then such other port as may be selected in its neighbourhood, together with the city of Hanyang and the town of Yanghwa Chin, or such other place in that neighbourhood as may be deemed desirable, shall, from the day on which this Treaty comes into operation, be opened to British commerce.

2.—At the above-named places British subjects shall have the right to rent or to purchase land or houses, and to erect dwellings, warehouses, and factories. They shall be allowed the free exercise of their religion. All arrangements for the selection, determination of the limits, and laying out of the sites of the Foreign settlements,

and for the sale of land at the various ports and places in Corea open to foreign trade, shall be made by the Corean Authorities in conjunction with the competent Foreign Authorities.

3.—These sites shall be purchased from the owners and prepared for occupation by the Corean Government, and the expense thus incurred shall be a first charge on the proceeds of the sale of the land. The yearly rental agreed upon by the Corean Authorities in conjunction with the Foreign Authorities shall be paid to the former, who shall retain a fixed amount thereof as a fair equivalent for the land tax, and the remainder, together with any balance left from the proceeds of land sales, shall belong to a Municipal fund to be administered by a Council, the constitution of which shall be determined hereafter by the Corean Authorities in conjunction with the competent Foreign Authorities.

4.—British subjects may rent or purchase land or houses beyond the limits of the foreign settlements, and within a distance of ten Corean *li* from the same. But all land so occupied shall be subject to such conditions as to the observance of Corean local regulations and payment of land tax as the Corean Authorities may see fit to impose.

5.—The Corean Authorities will set apart, free of cost, at each of the places open to trade, a suitable piece of ground as a foreign cemetery, upon which no rent, land tax, or other charges shall be payable, and the management of which shall be left to the Municipal Council above mentioned.

6.—British subjects shall be allowed to go where they please without passports within a distance of one hundred Corean *li* from any of the ports and places open to trade, or within such limits as may be agreed upon between the competent authorities of both countries. British subjects are also authorised to travel in Corea for pleasure or for purposes of trade, to transport and sell goods of all kinds, except books and other printed matter disapproved of by the Corean Government, and to purchase native produce in all parts of the country under passports which will be issued by their Consuls and countersigned or sealed by the Corean local authorities. These passports, if demanded, must be produced for examination in the districts passed through. If the passport be not irregular, the bearer will be allowed to proceed, and he shall be at liberty to procure such means of transport as he may require. Any British subject travelling beyond the limits above named without a passport, or committing when in the interior any offence, shall be arrested and handed over to the nearest British Consul for punishment. Travelling without a passport beyond the said limits will render the offender liable to a fine not exceeding one hundred Mexican dollars, with or without imprisonment for a term not exceeding one month.

7.—British subjects in Corea shall be amenable to such municipal, police, and other regulations for the maintenance of peace, order, and good government as may be agreed upon by the competent authorities of the two countries.

V.—At each of the ports or places open to Foreign trade, British subjects shall be at full liberty to import from any Foreign port or from any Corean open port, to sell or to buy from any Corean subjects or others, and to export to any Foreign or Corean open port, all kinds of merchandise not prohibited by this Treaty on paying the duties of the Tariff annexed thereto. They may freely transact their business with Corean subjects or others without the intervention of Corean officials or other persons, and they may freely engage in any industrial occupation.

2.—The owners or consignees of all goods imported from any Foreign port upon which the duty of the aforesaid Tariff shall have been paid shall be entitled, on re-exporting the same to any foreign port at any time within thirteen Corean months from the date of importation, to receive a drawback certificate for the amount of such import duty, provided that the original packages containing such goods remain intact. These drawback certificates shall either be redeemed by the Corean Customs on demand, or they shall be received in payment of duty at any Corean open port.

3.—The duty paid on Corean goods, when carried from one Corean open port to another, shall be refunded at the port of shipment on production of a Customs

certificate shewing that the goods have arrived at the port of destination, or on satisfactory proof being produced of the loss of the goods by shipwreck.

4.—All goods imported into Corea by British subjects, and on which the duty of the Tariff annexed to this Treaty shall have been paid, may be conveyed to any Korean open port free of duty, and, when transported into the interior, shall not be subject to any additional tax, excise or transit duty whatsoever in any part of the country. In like manner, full freedom shall be allowed for the transport to the open ports of all Korean commodities intended for exportation, and such commodities shall not, either at the place of production, or when being conveyed from any part of Corea to any of the open ports, be subject to the payment of any tax, excise or transit duty whatsoever.

5.—The Korean Government may charter British merchant vessels for the conveyance of goods or passengers to unopened ports in Corea, and Korean subjects shall have the same right, subject to the approval of their own authorities.

6.—Whenever the Government of Corea shall have reason to apprehend a scarcity of food within the kingdom, His Majesty the King of Corea may, by Decree, temporarily prohibit the export of grain to foreign countries from any or all of the Korean open ports, and such prohibition shall become binding on British subjects in Corea on the expiration of one month from the date on which it shall have been officially communicated by the Korean Authorities to the British Consul at the port concerned, but shall not remain longer in force than is absolutely necessary.

7.—All British ships shall pay tonnage dues at the rate of thirty cents (Mexican) per register ton. One such payment will entitle a vessel to visit any or all of the open ports in Corea during a period of four months without further charge. All tonnage dues shall be appropriated for the purposes of erecting lighthouses and beacons, and placing buoys on the Korean coast, more especially at the approaches to the open ports, and in deepening or otherwise improving the anchorages. No tonnage dues shall be charged on boats employed at the open ports in landing or shipping cargo.

8.—In order to carry into effect and secure the observance of the provisions of this Treaty, it is hereby agreed that the Tariff and Trade Regulations hereto annexed shall come into operation simultaneously with this Treaty. The competent authorities of the two countries may, from time to time, revise the said Regulations with a view to the insertion therein, by mutual consent, of such modifications or additions as experience shall prove to be expedient.

Art. VI.—Any British subject who smuggles, or attempts to smuggle, goods into any Korean port or place not open to foreign trade shall forfeit twice the value of such goods, and the goods shall be confiscated. The Korean local authorities may seize such goods, and may arrest any British subject concerned in such smuggling or attempt to smuggle. They shall immediately forward any person so arrested to the nearest British Consul for trial by the proper British judicial authority, and may detain such goods until the case shall have been finally adjudicated.

Art. VII.—If a British ship be wrecked or stranded on the coast of Corea, the local authorities shall immediately take such steps to protect the ship and her cargo from plunder, and all the persons belonging to her from ill-treatment, and to render such other assistance as may be required. They shall at once inform the nearest British Consul of the occurrence, and shall furnish the shipwrecked persons, if necessary, with means of conveyance to the nearest open port.

2.—All expenses incurred by the Government of Corea for the rescue, clothing, maintenance, and travelling of shipwrecked British subjects, for the recovery of the bodies of the drowned, for the medical treatment of the sick and injured, and for the burial of the dead, shall be repaid by the British Government to that of Corea.

3.—The British Government shall not be responsible for the repayment of the expenses incurred in the recovery or preservation of a wrecked vessel, or the property belonging to her. All such expenses shall be a charge upon the property saved, and shall be paid by the parties interested therein upon receiving delivery of the same.

4.—No charge shall be made by the Government of Corea for the expenses of the Government officers, local functionaries, or police who shall proceed to the wreck, for the travelling expenses of officers escorting the shipwrecked men, nor for the expenses of official correspondence. Such expenses shall be borne by the Korean Government.

5.—Any British merchant ship compelled by stress of weather or by want of fuel or provisions to enter an unopened port in Corea shall be allowed to execute repairs, and to obtain necessary supplies. All such expenses shall be defrayed by the master of the vessel.

Art. VIII.—The ships of war of each country shall be at liberty to visit all the ports of the other. They shall enjoy every facility for procuring supplies of all kinds or for making repairs, and shall not be subject to trade or harbour regulations, nor be liable to the payment of duties or port charges of any kind.

2.—When British ships of war visit unopened ports in Corea, the officers and men may land, but shall not proceed into the interior unless they are provided with passports.

3.—Supplies of all kinds for the use of the British Navy may be landed at the open ports of Corea, and stored in the custody of a British officer, without the payment of any duty. But if any such supplies are sold, the purchaser shall pay the proper duty to the Korean Authorities.

4.—The Korean Government will afford all the facilities in their power to ships belonging to the British Government which may be engaged in making surveys in Korean waters.

Art. IX.—The British Authorities and British subjects in Corea shall be allowed to employ Korean subjects as teachers, interpreters, servants, or in any other lawful capacity, without any restriction on the part of the Korean Authorities; and, in like manner, no restrictions shall be placed upon the employment of British subjects by Korean Authorities and subjects in any lawful capacity.

2.—Subjects of either nationality who may proceed to the country of the other to study its language, literature, laws, arts, or industries, or for the purpose of scientific research, shall be afforded every reasonable facility for doing so.

Art. X.—It is hereby stipulated that the Government, public officers, and subjects of Her Britannic Majesty shall, from the day on which this Treaty comes into operation, participate in all privileges, immunities, and advantages, especially in relation to import or export duties on goods and manufactures, which shall then have been granted or may thereafter be granted by His Majesty the King of Corea to the Government, public officers, or subjects of any other power.

Art. XI.—Ten years from the date on which this Treaty shall come into operation, either of the High Contracting Parties may, on giving one year's previous notice to the other, demand a revision of the Treaty or of the Tariff annexed thereto, with a view to the insertion therein, by mutual consent, of such modifications as experience shall prove to be desirable.

Art. XII.—This Treaty is drawn up in the English and Chinese languages, both of which versions have the same meaning, but it is hereby agreed that any difference which may arise as to interpretation shall be determined by reference to the English text.

2.—For the present all official communication addressed by the British Authorities to those of Corea shall be accompanied by a translation into Chinese.

Art. XIII.—The present Treaty shall be ratified by Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and by His Majesty the King of Corea, under their hands and seals; the ratifications shall be exchanged at Hanyang (Söul) as soon as possible, or at latest within one year from the date of signature, and the Treaty, which shall be published by both Governments, shall come into operation on the day on which the ratifications are exchanged.

REGULATIONS UNDER WHICH BRITISH TRADE IS TO BE CONDUCTED IN COREA.

I.—Entrance and Clearance of Vessels.

1.—Within forty-eight hours (exclusive of Sundays and holidays) after the arrival of a British ship in a Korean port, the master shall deliver to the Korean Customs authorities the receipt of the British Consul showing that he has deposited the ship's papers at the British Consulate, and he shall then make an entry of his ship by handing in a written paper stating the name of the ship, of the port from which she comes, of her master, the number, and, if required, the names of her passengers, her tonnage, and the number of her crew, which paper shall be certified by the master to be a true statement, and shall be signed by him. He shall, at the same time, deposit a written manifest of his cargo, setting forth the marks and numbers of the packages and their contents as they are described in the bills of lading, with the names of the persons to whom they are consigned. The master shall certify that this description is correct, and shall sign his name to the same. When a vessel has been duly entered, the Customs authorities will issue a permit to open hatches, which shall be exhibited to the Customs officer on board. Breaking bulk without having obtained such permission will render the master liable to a fine not exceeding one hundred Mexican dollars.

2.—If any error is discovered in the manifest, it may be corrected within twenty-four hours (exclusive of Sundays and holidays) of its being handed in, without the payment of any fee, but for any alteration or post entry to the manifest made after that time a fee of five Mexican dollars shall be paid.

3.—Any master who shall neglect to enter his vessel at the Korean Custom-house within the time fixed by this Regulation shall pay a penalty not exceeding fifty Mexican dollars for every twenty-four hours that he shall so neglect to enter his ship.

4.—Any British vessel which remains in port for less than forty-eight hours (exclusive of Sundays and holidays) and does not open her hatches, also any vessel driven into port by stress of weather, or only in want of supplies, shall not be required to enter or to pay tonnage dues so long as such vessel does not engage in trade.

5.—When the master of a vessel wishes to clear, he shall hand in to the Customs authorities an export manifest containing similar particulars to those given in the import manifest. The Customs authorities will then issue a clearance certificate and return the Consul's receipt for the ship's papers. These documents must be handed into the Consulate before the ship's papers are returned to the master.

6.—Should any ship leave the port without clearing outwards in the manner above prescribed, the master shall be liable to a penalty not exceeding two hundred Mexican dollars.

7.—British steamers may enter and clear on the same day, and they shall not be required to hand in a manifest except for such goods as are to be landed or transhipped at the port of entry.

II.—Landing and Shipping Cargo, and Payment of Duties.

1.—The importer of any goods who desires to land them shall make and sign an application to that effect at the Custom-house, stating his own name, the name of the ship in which the goods have been imported, the marks, numbers, and contents of the packages and their values, and declaring that this statement is correct. The Customs authorities may demand the production of the invoice of each consignment of mer-

chandise. If it is not produced, or if its absence is not satisfactorily accounted for, the owner shall be allowed to land his goods on payment of double the Tariff duty, but the surplus duty so levied shall be refunded on the production of the invoice.

2.—All goods so entered may be examined by the Customs officers of the places appointed for the purpose. Such examination shall be made without delay or injury to the merchandize, and the packages shall be at once restored by the Customs authorities to their original condition, in so far as may be practicable.

3.—Should the Customs authorities consider the value of any goods paying an *ad valorem* duty as declared by the importer or exporter insufficient, they shall call upon him to pay duty on the value determined by an appraisement to be made by the Customs appraiser. But should the importer or exporter be dissatisfied with that appraisement, he shall within twenty-four hours (exclusive of Sundays and holidays) state his reasons for such dissatisfaction to the Commissioner of Customs, and shall appoint an appraiser of his own to make a re-appraisement. He shall then declare the value of the goods as determined by such re-appraisement. The Commissioner of Customs will thereupon, at his option, either assess the duty on the value determined by this re-appraisement, or will purchase the goods from the importer or exporter at the price thus determined, with the addition of five per cent. In the latter case the purchase money shall be paid to the importer or exporter within five days from the date on which he has declared the value determined by his own appraiser.

4.—Upon all goods damaged on the voyage of importation a fair reduction of duty shall be allowed, proportionate to their deterioration. If any disputes arise as to the amount of such reduction, they shall be settled in the manner pointed out in the preceding clause.

5.—All goods intended to be exported shall be entered at the Korean Customs House before they are shipped. The application to ship shall be made in writing, and shall state the name of the vessel by which the goods are to be exported, the marks and number of the packages, and the quantity, description, and value of the contents. The exporter shall certify in writing that the application gives a true account of all the goods contained therein, and shall sign his name thereto.

6.—No goods shall be landed or shipped at other places than those fixed by the Korean Customs authorities, or between the hours of sunset and sunrise, or on Sundays or holidays, without the special permission of the Customs authorities, who will be entitled to reasonable fees for the extra duty thus performed.

7.—Claims by importers or exporters for duties paid in excess, or by the Customs authorities for duties which have not been fully paid, shall be entertained only when made within thirty days from the date of payment.

8.—No entry will be required in the case of provisions for the use of British ships, their crews and passengers, nor for the baggage of the latter which may be landed or shipped at any time after examination by the Customs officers.

9.—Vessels needing repairs may land their cargo for that purpose without the payment of duty. All goods so landed shall remain in charge of the Korean Authorities, and all just charges for storage, labour, and supervision shall be paid by the master. But if any portion of such cargo be sold, the duties of the Tariff shall be paid on the portion so disposed of.

10.—Any person desiring to tranship cargo shall obtain a permit from the Customs authorities before doing so.

III.—Protection of the Revenue.

1.—The Customs authorities shall have the right to place Customs officers on board any British merchant vessel in their ports. All such Customs officers shall have access to all parts of the ship in which cargo is stowed. They shall be treated with civility, and such reasonable accommodation shall be allotted to them as the ship affords.

2.—The hatches and all other places of entrance into that part of the ship where cargo is stowed may be secured by the Korean Customs officers between the hours of sunset and sunrise, and on Sundays and holidays, by affixing seals, locks, or other

fastenings, and if any person shall, without due permission, wilfully open any entrance that has been so secured, or break any seal, lock, or other fastening that has been affixed by the Korean Customs officers, not only the person so offending, but the master of the ship also, shall be liable to a penalty not exceeding one hundred Mexican dollars.

3.—Any British subject who ships, or attempts to ship, or discharges, or attempts to discharge, goods which have not been duly entered at the Custom-house in the manner above provided, or packages containing goods different from those described in the import or export permit application, or prohibited goods, shall forfeit twice the value of such goods, and the goods shall be confiscated.

4.—Any person signing a false declaration or certificate with the intent to defraud the revenue of Corea shall be liable to a fine not exceeding two hundred Mexican dollars.

5.—Any violation of any provision of these Regulations, to which no penalty is specially attached herein, may be punished by a fine not exceeding one hundred Mexican dollars.

Note.—All documents required by these Regulations, and all other communications addressed to the Korean Customs authorities, may be written in the English language.

PROTOCOL.

The above-named Plenipotentiaries hereby make and append to this Treaty the following three Declarations:—

I.—With reference to Article III. of this Treaty, it is hereby declared that the right of extra-territorial jurisdiction over British subjects in Corea granted by this Treaty shall be relinquished when, in the judgment of the British Government, the laws and legal procedure of Corea shall have been so far modified and reformed as to remove the objections which now exist to British subjects being placed under Korean jurisdiction, and Korean Judges shall have attained similar legal qualifications and a similar independent position to those of British Judges.

II.—With reference to Article IV. of this Treaty, it is hereby declared that if the Chinese Government shall hereafter surrender the right of opening commercial establishments in the city of Hanyang, which was granted last year to Chinese subjects, the same right shall not be claimed for British subjects, provided that it be not granted by the Korean Government to the subjects of any other Power.

III.—It is hereby declared that the provisions of this Treaty shall apply to all British Colonies, unless any exception shall be notified by Her Majesty's Government or that of Corea within one year from the date on which the Ratifications of this Treaty shall be exchanged.

And it is hereby further stipulated that this Protocol shall be laid before the High Contracting Parties simultaneously with this Treaty, and that the ratification of this Treaty shall include the confirmation of the above three declarations, for which, therefore, no separate act of ratification will be required.

In faith of which the above-named Plenipotentiaries have this day signed this Protocol, and have hereto affixed their seals.

Done at Hanyang this twenty-sixth day of November, in the year eighteen hundred and eighty-three, corresponding to the twenty-seventh day of the tenth month of the four hundred and ninety-second year of the Korean era, being the ninth year of the Chinese reign Kuang Hsü.

UNITED STATES.

TREATY OF PEACE AND FRIENDSHIP BETWEEN THE UNITED STATES OF AMERICA AND THE KINGDOM OF COREA (CHOSEN).

SIGNED AT RENSAN, 22ND MAY, 1882.

Ratifications Exchanged at Seoul, 19th May, 1883.

Art. I.—There shall be perpetual peace and friendship between the President of the United States and the King of Chosen and the citizens and subjects of their respective Governments. If other Powers deal unjustly or oppressively with either government the other will exert their good offices, on being informed of the case, to bring about an amicable arrangement, thus showing their friendly feelings.

Art. II.—After the conclusion of this treaty of amity and commerce the high contracting Powers may each appoint diplomatic representatives to reside at the Court of the other, and may each appoint consular representatives at the ports of the other which are open to foreign commerce, at their own convenience.

The officials shall have relations with the corresponding local authorities of equal rank upon a basis of mutual equality. The Diplomatic and Consular representatives of the two governments shall receive mutually all the privileges, rights, and immunities, without discrimination, which are accorded to the same classes of representatives from the most favoured nations.

Consuls shall exercise their functions only on receipt of an exequatur from the government to which they are accredited. Consular authorities shall be *bonâ fide* officials. No merchants shall be permitted to exercise the duties of the office, nor shall consular officers be allowed to engage in trade.

At ports to which no consular representatives have been appointed the consuls of other Powers may be invited to act, provided that no merchant shall be allowed to assume consular functions, or the provisions of this treaty may be, in such case, enforced by the local authorities.

If consular representatives of the United States in Chosen conduct their business in an improper manner their exequaturs may be revoked, subject to the approval, previously obtained, of the diplomatic representatives of the United States

Art. III.—Whenever United States vessels, either because of weather or by want of fuel or provisions, cannot reach the nearest open port in Chosen, they may enter any port or harbour either to take refuge therein or to get wood, coal, and other necessaries or to make repairs; the expenses incurred thereby being defrayed by the ship's master. In such event the officers and people of the locality shall display their sympathy by rendering full assistance, and their liberality by furnishing the necessities required.

If a United States vessel carries on a clandestine trade at a port not open to foreign commerce, such vessel with her cargo shall be seized and confiscated.

If a United States vessel be wrecked on the coast of Chosen, the coast authorities, on being informed of the occurrence, shall immediately render assistance to the crew, provide for their present necessities, and take the measures necessary for the salvage of the ship and the preservation of the cargo. They shall also bring the matter to the knowledge of the nearest consular representative of the United States, in order

that steps may be taken to send the crew home and save the ship and cargo. The necessary expenses shall be defrayed either by the ship's master or by the United States.

Art. IV.—All citizens of the United States of America in Chosen, peaceably attending to their own affairs, shall receive and enjoy for themselves and everything appertaining to them the protection of the local authorities of the Government of Chosen, who shall defend them from all insult and injury of any sort. If their dwellings or property be threatened or attacked by mobs, incendiaries, or other violent or lawless persons, the local officers, on requisition of the Consul, shall immediately dispatch a military force to disperse the rioters, apprehend the guilty individuals, and punish them with the utmost rigour of the law.

Subjects of Chosen, guilty of any criminal act toward citizens of the United States, shall be punished by the authorities of Chosen according to the laws of Chosen; and citizens of the United States, either on shore or in any merchant vessel, who may insult, trouble, or wound the persons or injure the property of the people of Chosen shall be arrested and punished only by the Consul or other public functionary of the United States thereto authorized, according to the laws of the United States.

When controversies arise in the kingdom of Chosen, between citizens of the United States and subjects of His Majesty, which need to be examined and decided by the public officers of the two nations, it is agreed between the two governments of the United States and Chosen that such cases shall be tried by the proper official of the nationality of the defendant according to the laws of that nation. The properly authorized official of the plaintiff's nationality shall be freely permitted to attend the trial and shall be treated with the courtesy due to his position. He shall be granted all proper facilities for watching the proceedings in the interests of justice. If he desire he shall have the right to be present, to examine and cross-examine witnesses. If he is dissatisfied with the proceedings he shall be permitted to protest against them in detail.

It is, however, mutually agreed and understood between the high contracting Powers that whenever the King of Chosen shall have so far modified and reformed the statutes and the judicial procedure of his kingdom that, in the judgment of the United States, they conform to the laws and course of justice in the United States, the right of extraterritorial jurisdiction over United States citizens in Chosen shall be abandoned, and thereafter United States citizens, when within the limits of the kingdom of Chosen, shall be subject to the jurisdiction of the native authorities.

Art. V.—Merchants and merchant vessels of Chosen visiting the United States for the purpose of traffic shall pay duties and tonnage dues and fees according to the customs regulations of the United States, but no higher or other rates of duties and tonnage dues shall be exacted of them than are levied upon citizens of the United States or upon citizens or subjects of the most favoured nation.

Merchants and merchant vessels of the United States visiting Chosen for purposes of traffic shall pay duties upon all merchandise imported and exported. The authority to levy duties is of right vested in the Government of Chosen. The tariff of duties upon exports and imports, together with the customs regulations for the prevention of smuggling and other irregularities, will be fixed by the authorities of Chosen and communicated to the proper officials of the United States, to be by the latter notified to their citizens and duly observed.

It is, however, agreed in the first instance, as a general measure, that the tariff upon such imports as are articles of daily use shall not exceed an *ad valorem* duty of ten per cent.; that the tariff upon such imports as are luxuries—as for instance foreign wines, foreign tobacco, clocks and watches—shall not exceed an *ad valorem* duty of thirty per cent., and that native produce exported shall pay a duty not to exceed five per cent. *ad valorem*. And it is further agreed that the duty upon foreign imports shall be paid once for all at the port of entry, and that no other dues, duties, fees, taxes, or charges of any sort shall be levied upon such imports either in the interior of Chosen or at the ports.

United States merchant vessels entering the ports of Chosen shall pay tonnage dues at the rate of five mace per ton, payable once in three months on each vessel, according to the Chinese calendar.

And it is expressly agreed that land so acquired in the open ports of Chosen still remains an integral part of the kingdom, and that all rights of jurisdiction over persons and property within such areas remain vested in the authorities of Chosen, except in so far as such rights have been expressly relinquished by this treaty.

American citizens are not permitted either to transport foreign imports to the interior for sale or to proceed thither to purchase native produce, nor are they permitted to transport native produce from one open port to another open port.

Violations of this rule will subject such merchandise to confiscation, and the merchants offending will be handed over to the consular authorities to be dealt with.

Art. VII.—The governments of the United States and of Chosen mutually agree and undertake that subjects of Chosen shall not be permitted to import opium into any of the ports of the United States, and citizens of the United States shall not be permitted to import opium into any of the open ports of Chosen, to transport it from one open port to another open port, or traffic in it in Chosen. This absolute prohibition, which extends to vessels owned by the citizens or subjects of either Power, to foreign vessels employed by them, and to vessels owned by the citizens or subjects of either Power and employed by other persons for the transportation of opium, shall be enforced by appropriate legislation on the part of the United States and of Chosen, and offenders against it shall be severely punished.

Art. VIII.—Whenever the Government of Chosen shall have reason to apprehend a scarcity of food within the limits of the kingdom, His Majesty may by decree temporarily prohibit the export of all breadstuffs, and such decree shall be binding upon all citizens of the United States in Chosen upon due notice having been given them by the authorities of Chosen through the proper officers of the United States; but it is to be understood that the exportation of rice and breadstuffs of every description is prohibited from the open port of Yin-Chuen.

Chosen having of old prohibited the exportation of red ginseng, if citizens of the United States clandestinely purchase it for export it shall be confiscated and the offenders punished.

If these articles are clandestinely imported they shall be confiscated and the offending party shall be punished.

Art. X.—The officers and people of either nation residing in the other shall have the right to employ natives for all kinds of lawful work.

Should, however, subjects of Chosen, guilty of violation of the laws of the kingdom, or against whom any action has been brought, conceal themselves in the residences or warehouses of United States citizens or on board United States merchant vessels, the Consular authorities of the United States, on being notified of the fact by the local authorities, will either permit the latter to despatch constables to make

the arrests, or the persons will be arrested by the Consular authorities and handed over to the local constables.

Officials or citizens of the United States shall not harbour such persons.

Art. XI.—Students of either nationality who may proceed to the country of the other in order to study the language, literature, laws, or arts shall be given all possible protection and assistance, in evidence of cordial goodwill.

Art. As to stipulations not contained herein, after an interval of five years, when the officers and people of the two Powers shall have become more familiar with each other's language, a further negotiation of commercial provisions and regulations in detail, in conformity with international law and without unequal discriminations on either part, shall be had.

Art. XIII.—This Treaty and future official correspondence between the two contracting governments shall be made on the part of Chosen in the Chinese language.

The United States shall either use the Chinese language, or if English be used it shall be accompanied with a Chinese version in order to avoid misunderstanding.

Art. XIV.—The high contracting Powers hereby agree that should at any time the King of Chosen grant to any nation or to the merchants or citizens of any nation any right, privilege, or favour connected either with navigation, commerce, political or other intercourse, which is not conferred by this treaty, such right, privilege, and favour shall freely enure to the benefit of the United States, its public officers, merchants, and citizens: provided always, that whenever such right, privilege, or favour is accompanied by any condition or equivalent concession granted by the other nation interested, the United States, its officers and people, shall only be entitled to the benefit of such right, privilege, or favour upon complying with the conditions or concessions connected therewith.

In faith whereof the respective Commissioners Plenipotentiary have signed and sealed the foregoing at Yin-Chuen, in English and Chinese, being three originals of each text of even tenor and date, the ratifications of which shall be exchanged at Yin-Chuen within one year from the date of its execution, and immediately thereafter this treaty shall be, in all its provisions, publicly proclaimed and made known by both governments in their respective countries in order that it may be obeyed by their citizens and subjects respectively.

TREATY OF PEACE AND FRIENDSHIP BETWEEN THE EMPIRE OF JAPAN AND THE KINGDOM OF COREA (CHOSEN).

SIGNED AT KOKWA, 26TH FEBRUARY, 1876.

The Governments of Japan and Chosen being desirous to resume the amicable relations that of yore existed between them, and to promote the friendly feelings of both nations to a still firmer basis, have, for this purpose, appointed their Plenipotentiaries, that is to say :—The Government of Japan, Kuroda Kiyotaka, High Commissioner Extraordinary to Chosen, Lieutenant-General and Member of the Privy Council, Minister of the Colonization Department, and Inouyé Kaoru, Associate High Commissioner Extraordinary to Chosen, Member of the Genrô In; and the Government of Chosen, Shin Ken, Han-Choo-Su-Fu-Ji, and In-jishô, Fu-So-Fu, Fu-ku-sô-Kwan, who, according to the powers received from their respective Governments, have agreed upon and concluded the following Articles :—

Art. I.—Chosen being an independent state enjoys the same sovereign rights as does Japan.

In order to prove the sincerity of the friendship existing between the two nations, their intercourse shall henceforward be carried on in terms of equality and courtesy, each avoiding the giving of offence by arrogance or manifestations of suspicion.

In the first instance, all rules and precedents that are apt to obstruct friendly intercourse shall be totally abrogated, and, in their stead, rules, liberal and in general usage fit to secure a firm and perpetual peace, shall be established.

Art. II.—The Government of Japan, at any time within fifteen months from the date of signature of this Treaty, shall have the right to send an Envoy to the capital of Chosen, when he shall be admitted to confer with the Rei-sohan-sho on matters of a diplomatic nature. He may either reside at the capital or return to his country on the completion of his mission.

The Government of Chosen in like manner shall have the right to send an Envoy to Tokyo, Japan, where he shall be admitted to confer with the Minister for Foreign Affairs on matters of a diplomatic nature. He may either reside at Tokyo or return home on the completion of his mission.

Art. III.—All official communications addressed by the Government of Japan to that of Chosen shall be written in the Japanese language, and for a period of ten years from the present date they shall be accompanied by a Chinese translation. The Government of Chosen will use the Chinese language.

Art. IV.—Sorio in Fusan, Chosen, where an official establishment of Japan is situated, is a place originally opened for commercial intercourse with Japan, and trade shall henceforward be carried on at that place in accordance with the provisions of this Treaty, whereby are abolished all former usages, such as the practice of Sai-ken-sen (junk annually sent to Chosen by the late Prince of Tsushima to exchange a certain quantity of articles between each other).

In addition to the above place, the Government of Chosen agrees to open two ports, as mentioned in Article V. of this Treaty, for commercial intercourse with Japanese subjects.

In the foregoing places Japanese subjects shall be free to lease land and to erect buildings thereon, and to rent buildings, the property of subjects of Chosen.

Art. V.—On the coast of five provinces, viz.: Keikin, Chiusei, Jenra, Keisho, and Kankio, two ports, suitable for commercial purposes, shall be selected, and the time for opening these two ports shall be in the twentieth month from the second month of the ninth year of Meiji, corresponding with the date of Chosen, the first moon of the year Hei-shi.

Art. VI.—Whenever Japanese vessels either by stress of weather or by want of fuel and provisions cannot reach one or the other of the open ports in Chosen, they may enter any port or harbour either to take refuge therein, or to get supplies of

wood, coal, and other necessities, or to make repairs; the expenses incurred thereby are to be defrayed by the ship's master. In such events both the officers and the people of the locality shall display their sympathy be rendering full assistance, and their liberality in supplying the necessities required.

If any vessel of either country be at any time wrecked or stranded on the coast or Japan or of Chosen, the people of the vicinity shall immediately use every exertion to rescue her crew, and shall inform the local authorities of the disaster, who will either send the wrecked persons to their native country or hand them over to the officer of their country residing at the nearest port.

Art. VII.—The coasts of Chosen, having hitherto been left unsurveyed, are very dangerous for vessels approaching them, and in order to prepare charts showing the positions of islands, rocks, and reefs, as well as the depth of water, whereby all navigators may be enabled safely to pass between the two countries, any Japanese mariners may freely survey said coasts.

Art. VIII.—There shall be appointed by the Government of Japan an officer to reside at the open ports in Chosen for the protection of Japanese merchants resorting there, provided that such arrangement be deemed necessary. Should any question interesting both nations arise, the said officer shall confer with the local authorities of Chosen and settle it.

Art. IX.—Friendly relations having been established between the two contracting parties, their respective subjects may freely carry on their business without any interference from the officers of either Government, and neither limitation nor prohibition shall be made on trade.

In case any fraud be committed, or payment of debt be refused by any merchant of either country, the officer of either one or of the other Government shall do their utmost to bring the delinquent to justice and to enforce recovery of the debt.

Neither the Japanese nor the Chosen Government shall be held responsible for the payment of such debt.

Art. X.—Should a Japanese subject residing at either of the open ports of Chosen commit any offence against a subject of Chosen, he shall be tried by the Japanese authorities. Should a subject of Chosen commit any offence against a Japanese subject, he shall be tried by the authorities of Chosen. The offenders shall be punished according to the laws of their respective countries. Justice shall be equitably and impartially administered on both sides.

Art. XI.—Friendly relations having been established between the two contracting parties, it is necessary to prescribe trade regulations for the benefit of the merchants of the respective countries.

Such trade regulations, together with detailed provisions, to be added to the Articles of the present Treaty, to develop its meaning, and facilitate its observance, shall be agreed upon at the capital of Chosen or at Kokwa Fu in the country, within six months from the present date, by Special Commissioners appointed by the two countries.

Art. XII.—The foregoing eleven articles are binding from the date of the signing hereof, and shall be observed by the two contracting parties, faithfully and invariably, whereby perpetual friendship shall be secured to the two countries.

The present Treaty is executed in duplicate and copies will be exchanged between the two contracting parties.

In faith whereof we, the respective Plenipotentiaries of Japan and Chosen, have affixed our seals hereunto this twenty-sixth day of the second month of the ninth year of Meiji, and the two thousand five hundred and thirty-sixth since the accession of Jimmu Tenno; and, in the era of Chosen, the second day of the second moon of the year Heishi, and of the founding of Chosen the four hundred and eighty-fifth.

SUPPLEMENTARY TREATY BETWEEN JAPAN AND COREA.

Whereas, on the twenty-sixth day of the second month of the ninth year Meiji, corresponding with the Korean date of the second day of the second month of the year Heishi, a treaty of Amity and Friendship was signed and concluded between Kuroda Kiyotaka, High Commissioner Extraordinary, Lieutenant-General of H.I.J.M. Army, Member of the Privy Council, and Minister of the Colonization Department, and Inouyé Kaoru, Associate High Commissioner Extraordinary and Member of the Genrô-In, both of whom had been directed to proceed to the city of Kokwa in Corea by the Government of Japan; and Shin Ken, Dai Kwan, Han-Choo-Su-Fu, and In-jishô, Fu-So-Fu, Fuku-so-Kwan, both of whom had been duly commissioned for that purpose by the Government of Corea:—

Now therefore, in pursuance of Article XI. of the above Treaty, Miyamoto Okadzu, Commissioner despatched to the capital of Corea, Daijô of the Foreign Department, and duly empowered thereto by the Government of Japan, and Chio Inki, Kôshoo Kwan, Gisheifudôshô, duly empowered thereto by the Government of Corea, have negotiated and concluded the following articles:—

Art. I.—Agents of the Japanese Government stationed at any of the open ports shall hereafter, whenever a Japanese vessel has been stranded on the Korean coasts and has need of their presence at the spot, have the right to proceed there on their informing the local authorities of the facts.

Art. II.—Envoys or Agents of the Japanese Government shall hereafter be at full liberty to despatch letters or other communications to any place or places in Corea, either by post at their own expense, or by hiring inhabitants of the locality wherein they reside as special couriers.

Art. III.—Japanese subjects may, at the ports of Corea open to them, lease land for the purpose of erecting residences thereon, the rent to be fixed by mutual agreement between the lessee and the owner.

Any lands belonging to the Korean Government may be rented by a Japanese on his paying the same rent thereon as a Korean subject would pay to his Government.

It is agreed that the Shumon (watch-gate) and the Shotsumon (barrier) erected by the Korean Government near the Kokwa (Japanese official establishment) in Sorioko, Fusan, shall be entirely removed, and that a new boundary line shall be established according to the limits hereinafter provided. In the other two open ports, the same steps shall be taken.

Art. IV.—The limits within which Japanese subjects may travel from the port of Fusan shall be comprised within a radius of ten *ri*, Korean measurement, the landing place in that port being taken as a centre.

Japanese subjects shall be free to go where they please within the above limits, and shall be therein at full liberty either to buy articles of local production or to sell articles of Japanese production.

The town of Torai lies outside of the above limits, but Japanese shall have the same privileges as in those places within them.

Art. V.—Japanese subjects shall at each of the open ports of Corea be at liberty to employ Korean subjects.

Korean subjects, on obtaining permission from their Government, may visit the Japanese Empire.

Art. VI.—In case of the death of any Japanese subject residing at the open ports of Corea, a suitable spot of ground shall be selected wherein to inter his remains.

As to the localities to be selected for cemeteries in the two open ports other than the port of Fusan, in determining them regard shall be had as to the distance there is to the cemetery already established at Fusan.

Art. VII.—Japanese subjects shall be at liberty to traffic in any article owned by Korean subjects, paying therefor in Japanese coin. Korean subjects, for purposes of trade, may freely circulate among themselves at the open ports of Corea such Japanese coin as they may have possession of in business transactions.

Japanese subjects shall be at liberty to use in trade or to carry away with them the copper coin of Corea.

In case any subject of either of the two countries counterfeit the coin of either of them, he shall be punished according to the laws of his own country.

Art. VIII.—Korean subjects shall have the full fruition of all and every article which they have become possessed of either by purchase or gift from Japanese subjects.

Art. IX.—In case a boat despatched by a Japanese surveying vessel to take soundings along the Korean coasts, as provided for in Article VII. of the Treaty of Amity and Friendship, should be prevented from returning to the vessel, on account either of bad weather or the ebb tide, the headman of the locality shall accommodate the boat party in a suitable house in the neighbourhood. Articles required by them for their comfort shall be furnished to them by the local authorities, and the outlay thus incurred shall afterwards be refunded to the latter.

Art. X.—Although no relations as yet exist between Corea and foreign countries, yet Japan has for many years back maintained friendly relations with them; it is therefore natural that in case a vessel of any of the countries of which Japan thus cultivates the friendship should be stranded by stress of weather or otherwise on the coasts of Corea, those on board shall be treated with kindness by Korean subjects, and should such persons ask to be sent back to their homes they shall be delivered over by the Korean Government to an Agent of the Japanese Government residing at one of the open ports of Corea, requesting him to send them back to their native countries, which request the Agent shall never fail to comply with.

Art. XI.—The foregoing ten articles, together with the Regulations for Trade annexed hereto, shall be of equal effect with the Treaty of Amity and Friendship, and therefore shall be faithfully observed by the Governments of the two countries. Should it, however, be found that any of the above articles actually causes embarrassment to the commercial intercourse of the two nations, and that it is necessary to modify them, then either Government, submitting its propositions to the other, shall negotiate the modification of such articles on giving one year's previous notice of their intention.

Signed and sealed this twenty-fourth day of the eighth month of the ninth year Meiji, and two thousand five hundred and thirty-sixth since the accession of H. M. Jimmu Tenno; and of the Korean era, the sixth day of the seventh month of the year Heishi, and the founding of Corea the four hundred and eighty-fifth.

Any captain or commander that shall neglect to enter his vessel at the Japanese Custom-house within the time prescribed by this regulation, shall pay a penalty of sixty dollars for each day that he shall so neglect to enter his ship.

II.—The Japanese Government shall have the right to place Custom-house officers on board of any ship in their ports (men-of-war excepted). All Custom-house officers shall be treated with civility, and such reasonable accommodation shall be allotted to them as the ship affords.

No goods shall be unladen from any ship between the hours of sunset and sunrise, except by special permission of the Custom-house authorities, and the hatchways, and all other places of entrance into that part of the ship where the cargo is stowed, may be secured by Japanese officers between the hours of sunset and sunrise, by fixing seals, locks, or other fastenings; and if any person shall, without due permission, open any entrance that has been so secured, or shall break or remove any seal, lock, or other fastening that has been affixed by the Japanese Custom-house officers, every person so offending shall pay a fine of sixty dollars for each offence.

Any goods that shall be discharged or attempted to be discharged, from any ship without having been duly entered at the Japanese Custom-house as hereinafter provided, shall be liable to seizure and confiscation.

Packages of goods made up with an intent to defraud the revenue of Japan, by concealing therein articles of value which are not set forth in the invoice, shall be forfeited.

If any British ship shall smuggle, or attempt to smuggle goods, in any of the non-opened harbours of Japan, all such goods shall be forfeited to the Japanese Government, and the ship shall pay a fine of one thousand dollars for each offence.

Vessels needing repairs may land their cargo for that purpose, without the payment of duty. All goods so landed shall remain in charge of the Japanese authorities, and all just charges for storage, labour, and supervision, shall be paid thereon. But if any portion of such cargo be sold, the regular duties shall be paid on the portion so disposed of.

Cargo may be transhipped to another vessel in the same harbour without payment of duty, but all transhipment shall be made under the supervision of Japanese officers, and after satisfactory proof has been given to the Custom-house authorities of the *bonâ fide* nature of the transaction and also under a permit to be granted for that purpose by such authorities.

The importation of opium being prohibited, any British vessel coming to Japan for the purposes of trade, and having more than three cattie's weight of opium on

board, the surplus quantity may be seized and destroyed by the Japanese authorities; and any person or persons smuggling, or attempting to smuggle opium, shall be liable to pay a fine of fifteen dollars for each catty of opium so smuggled or attempted to be smuggled.

III.—The owner or consignee of any goods, who desires to land them, shall make entry of the same at the Japanese Custom-house. The entry shall be in writing, and shall set forth the name of the person making the entry, and the name of the ship in which the goods were imported, and the marks, numbers, packages, and contents thereof, with the value of each package, extended separately in one amount, and at the bottom of the entry shall be placed the aggregate value of all the goods contained in the entry. On each entry, the owner or consignee shall certify in writing that the entry then presented exhibits the actual cost of the goods, and that nothing has been concealed whereby the Customs of Japan would be defrauded, and the owner or consignee shall sign his name to such certificate.

The original invoice or invoices of the goods so entered shall be presented to the Custom-house authorities, and shall remain in their possession until they have examined the goods contained in the entry.

The Japanese officers may examine any or all of the packages so entered, and for this purpose may take them to the Custom-house; but such examination shall be without expense to the importer or injury to the goods; and, after examination, the Japanese officers shall restore the goods to their original condition in the packages (so far as may be practicable), and such examination shall be made without any unreasonable delay.

If any owner or importer discovers that his goods have been damaged on the voyage of importation before such goods have been delivered to him, he may notify the Custom-house authorities of such damage, and he may have the damaged goods appraised by two or more competent and disinterested persons, who, after due examination, shall make a certificate, setting forth the amount per cent. of damage on each separate package, describing it by its mark and number, which certificate shall be signed by the appraisers, in presence of the Custom-house authorities, and the importer may attach the certificate to his entry, and make a corresponding deduction from it. But this shall not prevent the Custom-house authorities from appraising the goods in the manner provided in Article XV. of the Treaty, to which these Regulations are appended.

After the duties have been paid, the owner shall receive a permit, authorizing the delivery to him of the goods, whether the same are at the Custom-house or on ship-board.

All goods intended to be exported shall be entered at the Japanese Custom-house before they are placed on ship-board. The entry shall be in writing, and shall state the name of the ship by which the goods are to be exported, with the mark and number of the packages, and the quantity, description, and value of their contents. The exporter shall certify, in writing, that the entry is a true account of all the goods contained therein, and shall sign his name thereto.

Any goods that are put on board of a ship for exportation before they have been entered at the Custom-house, and all packages which contain prohibited articles shall be forfeited to the Japanese Government.

No entry at the Custom-house shall be required for supplies for the use of ships, their crews, and passengers, nor for the clothing, &c., of passengers.

IV.—Ships wishing to clear shall give twenty-four hours' notice at the Custom-house, and at the end of that time they shall be entitled to their clearance, but if refused, the Custom-house authorities shall immediately inform the captain or consignee of the ship of the reasons why the clearance is refused; and they shall give the same notice to the British Consul.

British ships of war shall not be required to enter or clear at the Custom-house nor shall they be visited by Japanese Custom-house or police officers.

Steamers conveying the mails of Great Britain may enter and clear on the same day, and they shall not be required to make a manifest, except for such passengers

and goods as are to be landed in Japan. But such steamers shall, in all cases, enter and clear at the Custom-house.

Whale ships touching for supplies, or ships in distress, shall not be required to make a manifest of their cargo; but if they subsequently wish to trade, they shall then deposit a manifest, as required in Regulation I.

The word "ship" wherever it occurs in these Regulations, or in the Treaty to which they are attached, is to be held as meaning a ship, barque, brig, schooner, sloop, or steamer.

V.—Any persons signing a false declaration or certificate, with the intent to defraud the revenue of Japan, shall pay a fine of one hundred and twenty-five dollars, for each offence.

VI.—No tonnage duties shall be levied on British ships in the ports of Japan, but the following fees shall be paid to the Japanese Custom-house authorities:—For the entry of a ship, fifteen dollars; for the clearance of a ship, seven dollars; for each permit, one dollar and a half; for each bill of health, one dollar and a half; for any other document, one dollar and a half.

*VII.—Duties shall be paid to the Japanese Government, on all goods landed in the country, according to the following Tariff.

Class 1.—All articles in this class shall be free of duty:—

Gold and Silver coined or uncoined.

Wearing apparel in actual use.

Household furniture and printed books not intended for sale, but the property of persons who come to reside in Japan.

Class 2.—A duty of five per cent. shall be paid on the following articles:—

All articles used for the purpose of building, rigging, repairing, or fitting out of ships. Whaling gear of all kinds, Salted provisions of all kinds, Bread and Bread-stuffs, Living animals of all kinds, Coals, Timber for building houses, Rice, Paddy, Steam machinery, Zinc, Lead, Tin, Raw Silk, Cotton and Woollen Manufactured goods.

Class 3.—A duty of thirty-five per cent. shall be paid on all intoxicating liquors, whether prepared by distillation, or in any other manner.

Class 4.—All goods not included in any of the preceding classes shall pay a duty of twenty per cent.

All articles of Japanese production which are exported as cargo shall pay a duty of five per cent. with the exception of gold and silver coin and copper in bars.

Rice and wheat, the produce of Japan, shall not be exported from Japan as cargo, but all British subjects resident in Japan, and British ships for their crews and passengers, shall be furnished with sufficient supplies of the same.

Foreign grain, brought into any open port of Japan in a British ship, if no part thereof has been landed, may be re-exported without hindrance.

The Japanese Government will sell, from time to time, at public auction, any surplus quantity of copper that may be produced.

Five years after the opening of Kanagawa, the import and export duties shall be subject to revision, if either the British or Japanese Government desires it.

* This Tariff is abrogated under the Convention of 1866.

CONVENTION BETWEEN GREAT BRITAIN, FRANCE, THE UNITED STATES OF AMERICA, AND HOLLAND, WITH JAPAN.

SIGNED, IN THE ENGLISH, FRENCH, DUTCH, AND JAPANESE LANGUAGES,
AT TOKYO, 25TH JUNE, 1866.

The Representatives of Great Britain, France, the United States of America, and Holland, having received from their respective Governments identical instructions for the modification of the Tariff of Import and Export duties contained in the Trade Regulations annexed to the Treaties concluded by the aforesaid Powers with the Japanese Government in 1858, which modification is provided for by the Seventh of those Regulations:—

And the Japanese Government having given the said Representatives, during their visit to Osaka, in November, 1865, a written engagement to proceed immediately to the Revision of the Tariff in question, on the general basis of a duty of five per cent. on the value of all articles imported and exported:—

And the Government of Japan being desirous of affording a fresh proof of their wish to promote trade, and to cement the friendly relations which exist between their country and foreign nations:—

His Excellency Midzuno Idsumi no Kami, a member of the Gorojin and a Minister of Foreign Affairs, has been furnished by the Government of Japan with the necessary powers to conclude with the Representatives of the above-named four Powers, that is to say:

Of Great Britain,

Sir Harry S. Parkes, Knight Commander of the Most Honourable Order of the Bath. Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary in Japan:

Of France,

Monsieur Leon Roches, Commander of the Imperial Order of the Legion of Honour, Minister Plenipotentiary of His Majesty the Emperor of the French in Japan: Of the United States of America,

A. L. C. Portman, Esquire, *Chargé d'Affaires ad interim*;

And of Holland,

Monsieur Dirk de Graeff van Polsbroek, Knight of the Order of the Netherlands Lion, Political Agent and Consul-General of His Majesty the King of the Netherlands;

The following Convention, comprising Twelve Articles.

Art. I.—The contracting parties declare in the names of their respective Governments that they accept, and they hereby do formally accept, as binding upon the subjects of their respective Sovereigns, and the citizens of their respective countries, the Tariff hereby established annexed to the present convention.

The Tariff is substituted not only for the original Tariff attached to the Treaties concluded with the above-named four Powers, but also for the special Conventions and arrangements relative to the same Tariff, which have been entered into at different dates up to this time between the Governments of Great Britain, France, and the United States on the one side, and the Japanese Government on the other.

The New Tariff shall come into effect in the Port of Kanagawa (Yokohama,) on the first day of July next, and in the ports of Nagasaki and Hakodate on the first day of the following month.

Art. II.—The Tariff attached to this convention, being incorporated from the date of its signature in the Treaties concluded between Japan and the above-named four Powers, is subject to revision on the first day of July, 1872.

Two years, however, after the signing of the present convention, any of the contracting parties, on giving six months' notice to the others, may claim a re-adjustment of the duties on Tea and Silk, on the basis of five per cent. on the average value of these articles during the three years last preceding. On the demand also of any of the contracting parties, the duty on timber may be changed from an *ad valorem* to a specific rate six months after the signature of this convention.

Art. III.—The permit fee hitherto levied under the Seventh Regulation attached to the above-named Treaties is hereby abolished. Permits for the landing or shipment of cargo will be required as formerly, but will hereafter be issued free of charge.

Art. IV.—On and from the first day of July next, at the Port of Kanagawa (Yokohama), and on and from the first day of October next, at the Ports of Nagasaki and Hakodate, the Japanese Government will be prepared to warehouse imported goods on the application of the importer or owner, without payment of duty. The Japanese Government will be responsible for the safe custody of the goods so long as they remain in their charge, and will adopt all the precautions necessary to render them insurable against fire. When the importer or the owner wishes to remove the goods from the warehouses, he must pay the duties fixed by the Tariff, but if he should wish to re-export them, he may do so without payment of duty. Storage charges will in either case be paid on delivery of the goods. The amount of these charges, together with the regulations necessary for the management of the said warehouses, will be established by the common consent of the contracting parties.

Art. V.—All articles of Japanese production may be conveyed from any place in Japan to any of the Ports open to foreign trade, free of any tax or transit duty other than the usual tolls levied equally on all traffic for the maintenance of roads or navigation.

Art. VI.—In conformity with those articles of the Treaties concluded between Japan and Foreign Powers which stipulate for the circulation of foreign coin at its corresponding weight in native coin of the same description, dollars have hitherto been received at the Japanese Custom-house in payment of duties at their weight in Boos (commonly called Ichiboos), that is to say, a rate of three hundred and eleven Boos per hundred dollars. The Japanese Government being, however, desirous to alter this practice, and to abstain from all interference in the exchange of native for foreign coin, and being also anxious to meet the wants both of native and foreign commerce by securing an adequate issue of native coin, have already determined to enlarge the Japanese Mint, so as to admit of the Japanese Government exchanging into native coin of the same intrinsic value, less only the cost of coinage, at places named for this purpose, all foreign coin or bullion, in gold or silver, that may at any time be tendered to them by foreigners or Japanese. It being essential, however, to the execution of this measure, that the various Powers with whom Japan has concluded Treaties should first consent to modify the stipulations in those Treaties which relate to the currency, the Japanese Government will at once propose to these Powers the adoption of the necessary modification in the said stipulation, and on receiving their concurrence will be prepared from the first of January, 1868, to carry the above measure into effect.

The rate to be charged as the cost of coinage shall be determined hereafter by the common consent of the contracting parties.

Art. VII.—In order to put a stop to certain abuses and inconveniences complained of at the open Ports, relative to the transaction of business at the Custom-house, the landing and shipping of cargoes and the hiring of boats, coolies, servants, &c., the contracting parties have agreed that the Governor at each open port shall at once enter into negotiations with the foreign Consuls with a view to the establishment, by mutual consent, of such regulations as shall effectually put an end to those abuses and inconveniences, and afford all possible facility and security both to the operations of trade and to the transactions of individuals.

It is hereby stipulated that in order to protect merchandise from exposure to weather, these regulations shall include the covering in at each port of one or more of the landing places used by foreigners for landing or shipping cargo.

Art. VIII.—Any Japanese subject shall be free to purchase, either in the open Ports of Japan or abroad, every description of sailing or steam vessel intended to carry either passengers or cargo; but ships-of-war may only be obtained under the authorization of the Japanese Government.

All foreign vessels purchased by Japanese subjects shall be registered as Japanese vessels on payment of a fixed duty of three Boos per ton for steamers, and one Boo

per ton for sailing vessels. The tonnage of each vessel shall be proved by the foreign register of the ship, which shall be exhibited through the Consul of the party interested, on the demand of the Japanese authorities, and shall be certified by the Consul as authentic.

Art. IX.—In conformity with the Treaties concluded between Japan and the aforesaid Powers, and with the special arrangements made by the Envoys of the Japanese Government in their note to the British Government of the sixth of June, 1862, and in their note to the French Government of the sixth of October of the same year, all the restrictions on trade and intercourse between foreigners and Japanese, alluded to in the said notes, have been entirely removed, and proclamations to this effect have already been published by the Government of Japan.

The latter, however, do not hesitate to declare that Japanese merchants and traders of all classes are at liberty to trade directly, and without the interference of Government officers, with foreign merchants, not only at the open ports of Japan, but also in all Foreign countries on being authorized to leave their country in the manner provided for in Article X. of the present convention, without being subject to higher taxation by the Japanese Government than that levied on the native trading classes of Japan in their ordinary transactions with each other.

And they further declare that all Daimios or persons in the employ of Daimios, are free to visit, on the same conditions, any foreign country, as well as all the open ports of Japan, and to trade there with foreigners as they please, without the interference of any Japanese officer, provided always they submit to the existing Police regulations and to the payment of the established duties.

Art. X.—All Japanese subjects may ship goods to or from any open Port in Japan, or to and from the Ports of any Foreign Power, either in vessels owned by Japanese, or in the vessels of any nation having a Treaty with Japan. Furthermore, on being provided with passports through the proper Department of the Government in the manner specified in the Proclamation of the Japanese Government, dated the twenty-third day of May, 1866, all Japanese subjects may travel to any foreign country for purposes of study or trade. They may also accept employment in any capacity on board the vessels of any nation having a Treaty with Japan.

Japanese in the employ of foreigners may obtain Government passports to go abroad on application to the Governor of any open Port.

Art. XI.—The Government of Japan will provide all the Ports open to Foreign trade with such lights, buoys, or beacons as may be necessary to render secure the navigation of the approaches to the said Ports.

Art. XII.—The undersigned being of opinion that it is unnecessary that this Convention should be submitted to their respective Government for ratification before it comes into operation, it will take effect on and from the first day of July, one thousand eight hundred and sixty-six.

Each of the Contracting Parties having obtained the approval of his Government to this Convention, shall make known the same to the others, and the communication in writing of this approval shall take the place of a formal exchange of ratifications.

In witness whereof the above named Plenipotentiaries have signed the present Convention, and have affixed thereto their seals.

Done at Tokyo, in the English, French, Dutch, and Japanese languages, this twenty-fifth day of June, one thousand eight hundred and sixty-six.

TREATY BETWEEN JAPAN AND THE UNITED STATES.

SIGNED AT WASHINGTON, 25TH JULY, 1878.

Ratifications Exchanged at Washington, 8th April, 1879.

Convention revising certain portions of existing commercial Treaties and further extending commercial intercourse between Japan and the United States.

His Majesty the Emperor of Japan and the President of the United States of America, both animated with the desire of maintaining the good relations which have so happily subsisted between their respective countries, and wishing to strengthen, if possible, that bond of friendship and to extend and consolidate commercial intercourse between the two countries by means of an additional Convention, have for that purpose named as their respective Plenipotentiaries; that is to say:—His Majesty the Emperor of Japan, Jushie Yoshida Kiyonari, of the Order of the Rising Sun, of the Third Class, and His Majesty's Envoy Extraordinary and Minister Plenipotentiary to the United States of America; and the President of the United States, William Maxwell Evarts, Secretary of State of the United States, who, after reciprocal communication of their full powers, found in good and due form, have agreed upon the following Articles:—

Art. I.—It is agreed by the high Contracting Parties that the Tariff Convention signed at Yedo on the 25th day of June, 1866, or the 13th of the 5th month of the second year of Keio, by the respective representatives of the United States, Great Britain, France, and Holland on the one hand, and Japan on the other, together with Schedules of Tariff on imports and exports, and the bonded warehouse Regulations, both of which are attached to the said Convention, shall hereby be annulled and become inoperative as between the United States and Japan under the condition expressed in Article X. of this present Convention; and all such provisions of the Treaty of 1858, or the fifth year of Ansei, signed at Yedo, as appertain to the Regulations of Harbours, Customs, and Taxes, as well as the whole of the trade Regulations which are attached to the said Treaty of 1858, or the fifth year of Ansei, shall also cease to operate.

It is further understood and agreed that from the time when this present Convention shall take effect, the United States will recognize the exclusive power and right of the Japanese Government to adjust the Customs Tariff and Taxes and to establish Regulations appertaining to foreign commerce in the open ports of Japan.

Art. II.—It is, however, further agreed that no other or higher duties shall be imposed on the importation into Japan of all articles of merchandise from the United States than are or may be imposed upon the like articles of any other foreign country; and if the Japanese Government should prohibit the exportation from, or importation into, its dominions of any particular article or articles, such prohibition shall not be discriminatory against the products, vessels, or citizens of the United States.

Art. III.—It is further agreed, that, as the United States charge no export duties on merchandise shipped to Japan, no export duties on merchandise shipped in the latter country for the United States shall be charged after this Treaty shall go into effect.

Art. IV.—It is further stipulated and agreed, that so long as the first three sentences which are comprised in the first paragraph of Article VI. of the Treaty of 1858, or the fifth year of Ansei, shall be in force, all claim by the Japanese Govern-

ment for forfeitures of penalties for violations of such existing Treaty, as well as for violations of the customs, bonded-warehouse, and harbour Regulations which may, under this Convention, from time to time, be established by that Government, shall be sued for in the consular courts of the United States, whose duty it shall be to try each and every case fairly and render judgment in accordance with the provisions of such Treaty and of such Regulations; and the amount of all forfeitures and fines shall be delivered to the Japanese authorities.

Art. V.—It is understood and declared by the high Contracting Parties, that the right of controlling the coasting trade of Japan belongs solely, and shall be strictly reserved, to the Government of that Empire.

Art. VI.—It is, however, agreed that vessels of the United States arriving at any port of Japan open to foreign commerce may unload, in conformity with the customs laws of that country, such portions of their cargoes as may be desired, and that they may depart with the remainder, without paying any duties, imposts, or charges whatsoever, except for that part which shall have been landed and which shall be so noted on the manifest. The said vessels may continue their voyage to one or more other open ports of Japan, there to land the part or residue of their cargoes desired to be landed at such port or ports. It is understood, however, that all duties, imposts, or charges whatsoever, which are or may become chargeable upon the vessels themselves, are to be paid only at the first port where they shall break bulk or unload part of their cargo; and that at any subsequent port used in the same voyage only the local port charges shall be exacted for the use of such port.

Art. VII.—In view of the concessions made by the United States in regard to the Customs Tariff, and the Customs and other Regulations of Japan, as above stipulated in Art. I., the Government of Japan will, on the principle of reciprocity, make the following concessions, to wit:—That two additional ports (whereof one shall be Shimo-no-seki, and the other shall be hereafter decided upon by the Contracting Parties jointly) from the date when the present Convention may go into effect, shall be open to citizens and vessels of the United States, for the purposes of residence and trade.

Art. VIII.—It is also agreed that, as the occasion for Article V. of the Treaty of 1858, or the fifth year of Ansei, between the two countries is considered to have passed away, that Article shall, after the present Treaty shall have gone into effect, be regarded as no longer binding.

Art. IX.—It is further agreed, that such of the provisions of the Treaties or Conventions heretofore concluded between the two countries, and not herein expressly abrogated, as conflict with any provisions of the present Convention are hereby revoked and annulled; that the present Convention shall be considered to be and form a part of the existing Treaties between the two countries; that the revision of such portions of the said Treaties as are not modified or revoked by the present Convention, as also the revision of the present Convention itself, may be demanded hereafter by either of the high Contracting Parties; and that this Convention, as well as the previous Treaties as modified thereby, shall continue in force until, upon such a revision of the whole, or any part thereof, it shall be otherwise provided.

Art. X.—The present Convention shall take effect when Japan shall have concluded such Conventions or Revisions of existing Treaties with all the other Treaty Powers holding relations with Japan as shall be similar in effect to the present Convention and such new Conventions or Revisions shall also go into effect.

The present Convention shall be ratified and the ratifications shall be exchanged at Washington as soon as may be within fifteen months from the date hereof.

In faith whereof the above named Plenipotentiaries have hereunto set their hands and seals, at the city of Washington, this twenty-fifth day of July, one thousand eight hundred and seventy-eight, or twenty-fifth day of the seventh month of the eleventh year of Meiji.

EXTRADITION TREATY BETWEEN THE UNITED STATES AND JAPAN.

SIGNED AT TOKYO, ON THE 29TH APRIL, 1886.

The President of the United States of America and his Majesty the Emperor of Japan, having judged it expedient, with a view to the better administration of justice and the prevention of crime within the two countries and their jurisdiction, that persons charged with or convicted of the crimes or offences hereafter named, and being fugitives from justice, should, under certain circumstances, be delivered up, they have named as their plenipotentiaries to conclude a treaty for the purposes, that is to say, the President of the United States of America, Richard B. Hubbard, their Envoy Extraordinary and Minister Plenipotentiary near his Imperial Majesty, and his Majesty the Emperor of Japan, Count Inouye Kaoru, his Imperial Majesty's Minister of State for Foreign Affairs, First Class of the Order of the Rising Sun, etc., who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following articles:

Art. I.—The high contracting parties engage to deliver up to each other, under the circumstances and conditions stated in the present treaty, all persons who being accused or convicted of one of the crimes or offences named below in Article II., and committed within the jurisdiction of the one party, shall be found within the jurisdiction of the other party.

Art. II.—1.—Murder, assault with intent to commit murder and manslaughter.

2.—Counterfeiting or altering money, or uttering or bringing into circulation counterfeit or altered money, counterfeiting certificates, coupons of public indebtedness, bank notes, or other instruments of public credit of either of the parties and the utterance or circulation of the same.

3.—Forging or altering and uttering what is forged or altered.

4.—Embezzlement or criminal malversation of the public funds committed within the jurisdiction of either party by public officers or depositors, and embezzlement of any person hired, salaried, or employed to the detriment of the employer or principal.

5.—Larceny of the value of \$50 and upwards and robbery.

6.—Burglary defined to be the breaking and entering by night-time into the house of another person, with the intent to commit a felony therein.

7.—The act of entering, of breaking and entering the offices of the Government, public authorities or the offices of banks, banking houses, savings banks or trust companies, insurance or other companies, with the intent to commit a felony therein.

8.—Perjury or the subornation of perjury.

9.—Rape.

10.—Arson.

11.—Piracy by the law of nations.

12.—Murder, assault with intent to kill, and manslaughter committed on the high seas on board a ship bearing the flag of the demanding country.

13.—Malicious destruction of or attempt to destroy railway trains, vessels, bridges, dwellings, public edifices or other buildings when the act endangers human life.

14.—Fraud by a banker or a trustee or any officer, or a director of a bank or trust company made criminal by any law for the time being in force.

Art. III.—If the person demanded be held for trial in the country in which the demand is made, it shall be optional with the latter to grant extradition or to proceed with the trial, provided that unless the trial shall be for the crime for which the fugitive is claimed, the delay shall not prevent ultimate extradition.

Art. IV.—If it be made to appear that extradition is made with a view to try or punish the person demanded for an offence of a political character, surrender shall not take place, nor shall any person surrendered be tried or punished for any political offence committed previously to his extradition.

Art. V.—The requisition for extradition shall be made through the diplomatic agents of the contracting parties, or in the event of the absence of these from the country or its seat of government by the Superior Consular officers. If the person whose extradition is requested shall have been convicted of a crime, a copy of the sentence of the court in which he was convicted, authenticated under its seal, and an attestation of the official character of the Judge by the proper executive authority, and of the latter by the Minister and Consul of the United States or of Japan as the case may be, shall accompany the requisition. When the fugitive is merely charged with crime, a duly authenticated copy of the warrant of arrest in the country making the demand and of the depositions on which such warrant may have been issued must accompany the requisition. The fugitive shall be surrendered only on such evidence of criminality as, according to the laws of the place where the fugitive or persons so charged shall be found, would justify his apprehension and commitment for trial if the crime had been there committed.

Art. VI.—On being informed by telegraph through the diplomatic channel that a warrant has been issued by competent authority for the arrest of a fugitive criminally charged with any of the crimes enumerated in Article II. of this treaty, and on being assured from the same source that a request for the surrender of such criminal is about to be made in accordance with the provisions of this treaty, each Government will endeavour to procure the provisional arrest of such criminal and keep him, not exceeding two months, to await the production of the documents upon which the claim for extradition is founded.

Art. VII.—Neither of the contracting parties shall be bound to deliver up its own citizens or subjects under the stipulations of this convention, but they shall have power to deliver them up if in their discretion it be proper to do so.

Art. VIII.—The expenses of the arrest, detention, extradition, and transportation of the accused shall be paid by the Government which has requested the extradition.

Art. IX.—The present treaty shall come into force sixty days after the exchange of the ratifications thereof. It may be terminated by either of them, but shall remain in force for six months after notice has been given of its termination. The treaty shall be ratified and its ratification shall be exchanged at Washington as soon as possible.

In witness whereof the respective plenipotentiaries have signed the present treaty in duplicate and have thereunto fixed their seals.

Done at the city of Tokyo on the twenty-ninth day of April in the eighteen hundred and eighty-sixth year of the Christian era, corresponding to the twenty-ninth day of the fourth month of the nineteenth year of Meiji.

TREATIES WITH SIAM.

GREAT BRITAIN.

TREATY OF FRIENDSHIP AND COMMERCE BETWEEN HER MAJESTY THE QUEEN OF THE UNITED KINGDOM AND THE KINGS OF SIAM.

Ratifications Exchanged at Bangkok, 15th April, 1856.

Art. I.—There shall henceforward be perpetual peace and friendship between Her Majesty and her successors, and Their Majesties the Kings of Siam and their successors. All British subjects coming to Siam shall receive from the Siamese Government full protection and assistance to enable them to reside in Siam in all security, and trade with every facility, free from oppression or injury on the part of the Siamese, and all Siamese subjects going to an English country shall receive from the British Government the same complete protection and assistance that shall be granted to British subjects by the Government of Siam.

Art. II.—The interests of all British subjects coming to Siam shall be placed under the regulations and control of a Consul, who will be appointed to reside at Bangkok: he will himself conform to, and will enforce the observance by British subjects of all the provisions of this treaty, and such portions of the former treaty negotiated by Captain Burney, in 1826, as shall still remain in operation. He shall also give effect to all rules or regulations that are now or may hereafter be enacted for the government of British subjects in Siam, and conduct of their trade, and for the prevention of violations of the laws of Siam. Any disputes arising between British and Siamese subjects shall be heard and determined by the Consul, in conjunction with the proper Siamese officers; and criminal offences will be punished, in the case of English offenders, by their own laws, through the Siamese authorities. But the Consul shall not interfere in any matters referring solely to Siamese, neither will the Siamese authorities interfere in questions which only concern the subjects of Her Britannic Majesty.

It is understood, however, that the arrival of the British Consul at Bangkok shall not take place before the ratification of this treaty, nor until ten vessels owned by British subjects sailing under British colours and with British papers, shall have entered the port of Bangkok for the purposes of trade, subsequent to the signing of this treaty.

Art. III.—If Siamese in the employ of British subjects offend against the laws of their country, or if any Siamese having so offended, or desiring to desert, take refuge with a British subject in Siam, they shall be searched for, and upon proof of their guilt or desertion, shall be delivered up by the Consul to the Siamese authorities. In like manner any British offenders resident or trading in Siam, who may desert, escape to, or hide themselves in Siamese territory, shall be apprehended and delivered over to the British Consul on his requisition. Chinese not able to prove themselves to be British subjects, shall not be considered as such by the British Consul, nor be entitled to his protection.

Art. IV.—British subjects are permitted to trade freely in all the seaports of Siam, but may reside permanently only at Bangkok, or within the limits assigned by this Treaty. British subjects coming to reside at Bangkok may rent land, and buy or build houses, but cannot purchase land within a circuit of 200 *sen* (not more than 4 miles English) from the city walls, until they shall have lived in Siam for ten years, or shall obtain special authority from the Siamese Government to enable them to do so. But with the exception of this limitation, British residents in Siam may at any time buy or rent houses, lands or plantations, situated anywhere within a distance of twenty-four hours' journey from the city of Bangkok, to be computed by the rate at which boats of the country can travel. In order to obtain possession of such land or houses, it will be necessary that the British subject shall, in the first place, make application through the Consul to the proper Siamese officers; and the Consul having satisfied himself of the honest intentions of the applicant, will assist him in settling, upon equitable terms, the amount of the purchase money, will mark out and fix the boundaries of the property, and will convey the same to the British purchaser under sealed deeds. Whereupon he and his property shall be placed under the protection of the Governor of the district and that of the particular local authorities; he shall conform, in ordinary matters, to any just directions given him by them, and will be subject to the same taxation that is levied on Siamese subjects. But if through negligence, and want of capital or other cause, a British subject should fail to commence the cultivation or improvement of the lands so acquired within a term of three years from the date of receiving possession thereof, the Siamese Government shall have the power of resuming the property, upon returning to the British subject the purchase-money paid by him for the same.

Art. V.—All British subjects intending to reside in Siam shall be registered at the British Consulate. They shall not go out to sea, nor proceed beyond the limits assigned by this treaty for the residence of British subjects, without a passport from the Siamese authorities, to be applied for by the British Consul; nor shall they leave Siam, if the Siamese authorities show to the British Consul that legitimate objections exist to their quitting the country. But within the limits appointed under the preceding article, British subjects are at liberty to travel to and fro under protection of a pass, to be furnished them by the British Consul and counter-sealed by the proper Siamese officer, stating, in the Siamese character, their names, calling, and descriptions. The Siamese officers of the Government stations in the interior may, at any time, call for the production of this pass, and immediately on its being exhibited, they must allow the parties to proceed: but it will be their duty to detain those persons who, by travelling without a pass from the Consul, render themselves liable to the suspicion of their being deserters; and such detention shall be immediately reported to the Consul.

Art. VI.—All British subjects visiting or residing in Siam, shall be allowed the free exercise of the Christian religion and liberty to build churches in such localities as shall be consented to by the Siamese authorities. The Siamese Government will place no restrictions upon the employment by the English of Siamese subjects as servants, or in any other capacity. But whenever a Siamese subject belongs to or owes service to some particular master the servant who engages himself to a British subject without the consent of his master, may be reclaimed by him; and the Siamese Government will not enforce an agreement between a British subject and any Siamese in his employ, unless made with the knowledge and consent of the master who has a right to dispose of the services of the person engaged.

Art. VII.—British ships of war may enter the river, and anchor at Paknam but they shall not proceed above Paknam, unless with the consent of the Siamese authorities, which shall be given when it is necessary that a ship shall go into dock for repairs. Any British ship of war conveying to Siam a public functionary accredited by Her Majesty's Government to the Court of Bangkok, shall be allowed to come up to Bangkok, but shall not pass the forts called Pong Phrachamit and Pit-patch-nuck unless expressly permitted to do so by the Siamese Government; but in the absence of a British ship of war, the Siamese authorities engage to furnish the Consul with a force sufficient to enable him to give effect to his authority over British subjects, and to enforce discipline among British shipping.

Art. VIII.—The measurement duty hitherto paid by British vessels trading to Bangkok under the treaty of 1826 shall be abolished from the date of this treaty coming into operation, and British shipping and trade will henceforth be only subject to the payment of import and export duties on the goods landed or shipped. On all articles of import the duties shall be three per cent., payable at the option of the importer, either in kind or money, calculated upon the market value of the goods. Drawback of the full amount of duty shall be allowed upon goods found unsaleable and re-exported. Should the British merchant and the Custom-house officers disagree as to the value to be set upon imported articles, such disputes shall be referred to the Consul and proper Siamese officer, who shall each have the power to call in an equal number of merchants as assessors, not exceeding two on either side, to assist them in coming to an equitable decision.

Opium may be imported free of duty, but can only be sold to the opium farmer or his agents. In the event of no arrangement being effected with them for the sale of the opium, it shall be re-exported, and no impost or duty shall be levied thereon. Any infringement of this regulation shall subject the opium to seizure and confiscation.

Articles of export from the time of production to the date of shipment shall pay one import duty, whether this be levied under the name of inland tax, transit duty, or duty on exportation. The tax or duty to be paid on each article of Siamese produce previous to or upon exportation, is specified in the tariff attached to this Treaty; and it is distinctly agreed that goods or produce which pay any description of tax in the interior, shall be exempted from any further payment of the duty on exportation.

English merchants are to be allowed to purchase directly from the producer the articles in which they trade, and in like manner to sell their goods directly to the parties wishing to purchase the same, without the interference, in either case, of any other person.

The rates of duty laid down in the tariff attached to this Treaty are those that are now paid upon goods or produce shipped in Siamese or Chinese vessels or junks; and it is agreed that British shipping shall enjoy all the privileges now exercised by, or which hereafter may be granted to Siamese or Chinese vessels or junks.

British subjects will be allowed to build ships in Siam, on obtaining permission to do so from the Siamese authorities.

Whenever a scarcity may be apprehended of salt, rice, or fish, the Siamese Government reserve to themselves the right of prohibiting, by public proclamation, the exportation of these articles.

Bullion or personal effects may be imported free of charge.

Art. IX.—The code of regulations appended to this Treaty shall be enforced by the Consul, with the co-operation of the Siamese authorities; and they, the said authorities and Consul, shall be enabled to introduce any further regulations which may be found necessary in order to give effect to the objects of this Treaty.

All fines and penalties inflicted for infraction of the provisions and regulations of this Treaty shall be paid to the Siamese Government.

Until the British Consul shall arrive at Bangkok, and enter upon his functions, the consignees of British vessels shall be at liberty to settle with the Siamese authorities all questions relating to their trade.

Art. X.—The British Government and its subjects will be allowed free and equal participation in any privileges that may have been, or may hereafter be, granted by the Siamese Government to the government or subjects of any other nation.

Art. XI.—After the lapse of ten years from the date of the ratification of this Treaty, upon the desire of either the British or Siamese Government, and on twelve months' notice being given by either party, the present and such portions of the Treaty of 1826 as remain unrevoked by this Treaty, together with the Tariff and the Regulations hereunto annexed, or those that may hereafter be introduced, shall be subject to revision by Commissioners appointed on both sides for this purpose, who will be empowered to decide on and insert therein such amendments as experience shall prove to be desirable.

GENERAL REGULATIONS UNDER WHICH BRITISH TRADE
IS TO BE CONDUCTED IN SIAM.

Art. I.—The master of any English ship coming to Bangkok to trade must, either before or after entering the river, as may be found convenient, report the arrival of his vessel at the Custom-house at Paknam, together with the number of his crew and guns, and the port from whence he comes. Upon anchoring his vessel at Paknam, he will deliver into the custody of the Custom-house officers all his guns and ammunition; and a Custom-house officer will then be appointed to the vessel and will proceed in her to Bangkok.

Art. II.—A vessel passing Paknam without discharging her guns and ammunition as directed in the foregoing regulation, will be sent back to Paknam to comply with its provisions, and will be fined eight hundred ticals for having so disobeyed. After delivery of her guns and ammunition she will be permitted to return to Bangkok to trade.

Art. III.—When a British vessel shall have cast anchor at Bangkok, the master, unless a Sunday should intervene, will within four and twenty hours after arrival proceed to the British Consulate, and deposit there his ship's papers, bills of lading, &c., together with a true manifest of his import cargo; and upon the Consul's reporting these particulars to the Custom-house, permission to break bulk will at once be given by the latter.

For neglecting so to report his arrival or for presenting a false manifest, the master will subject himself, in each instance, to a penalty of four hundred ticals; but he will be allowed to correct, within twenty-four hours after delivery of it to the Consul, any mistake he may discover in his manifest, without incurring the above-mentioned penalty.

Art. IV.—A British vessel breaking bulk, and commencing to discharge, before due permission shall be obtained, or smuggling, either when in the river or outside the bar, shall be subject to the penalty of eight hundred ticals and confiscation of the goods so smuggled or discharged.

Art. V.—As soon as a British vessel shall have discharged her cargo, and completed her outward lading, paid all her duties and delivered a true manifest of her outward cargo to the British Consul, a Siamese port-clearance shall be granted her on application from the Consul, who, in the absence of any legal impediment to her departure, will then return to the master his ship's papers, and allow the vessel to leave. A Custom-house officer will accompany the vessel to Paknam; and on arriving there she will be inspected by the Custom-house officers of that station, and will receive from them the guns and ammunition previously delivered into their charge. The above regulations, numbered from 1 to 5, are obligatory under the treaty concluded between Great Britain and Siam; those which follow, numbered from 6 to 14, are equally to be observed by masters of British vessels and their crews.

Art. VI.—Masters of British vessels, when reporting their arrival at Her Majesty's Consulate at the port of Bangkok, as directed by the fourth regulation above quoted, shall notify in writing the names of all passengers and persons not forming part of the registered crew.

Notice must likewise be given of the number and names of persons, who, as passengers or in any other capacity (seamen borne on the muster-roll excepted), intend to leave Siam in a British vessel.

Art. VII.—Seamen, lascars, and others belonging to British vessels in the port are strictly prohibited to wear side knives and other weapons while on shore.

Art. VIII.—Should any seaman or apprentice absent himself without leave, the master will report his absence, if such exceeds twenty-four hours, at the Consular office.

Art. IX.—Any British subject who entices a seaman or apprentice to desert incurs, according to the Merchant Shipping Act, 1854, paragraph 257, a penalty not exceeding ten pounds; or any such subject who wilfully harbours or secretes a person deserted from his ship, incurs a penalty not exceeding twenty pounds, if it be proved that he had knowledge of his being a deserter.

In default of the payment of such fines, the offender is to be imprisoned in the Consular gaol for any term not exceeding three months, with or without hard labour.

Art. X.—All cases of death, and especially of sudden death, occurring on board of British vessels in the port of Bangkok, must be immediately reported at the Consulate.

Art. XI.—The discharge of guns from vessels anchored in the port of Bangkok, without notice having been previously given, and permission obtained through H. M. Consul from the proper Siamese authority, is forbidden, under a penalty not exceeding ten pounds.

Art. XII.—It is strictly prohibited to shoot birds within the precincts of the Wats or Temples, either in Bangkok or elsewhere within the Siamese dominions, or to injure or damage any of the statues or figures, the trees or shrubs in such localities of Siamese worship; any British subject or seaman of a British vessel guilty of such an act renders himself liable to a penalty not exceeding twenty pounds, or in default thereof to an imprisonment in the Consular gaol for a period of not more than one month.

Art. XIII.—When a vessel under the British flag is ready to leave the port of Bangkok, the master will give notice at the Consulate office, and hoist a blue peter twenty-four hours before her departure, which is to fly until she breaks anchorage.

Art. XIV.—Should any vessel take in or discharge cargo subsequent to the issue of the Siamese port clearance, as directed by the fifth regulation above quoted, the master, as in a case of smuggling, subjects himself to a penalty of 800 Ticals (equal to £100), and goods so taken or discharged will be liable to confiscation.

Art. XV.—Every fine or penalty levied under these regulations is (if not paid in sterling money) at the rate of eight ticals Siamese currency for one pound.

THE SIAM ORDER IN COUNCIL, 1886.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

This Order may be cited as the "Siam Order in Council, 1886," and is included in the expression "the Siam Orders in Council." Words in this Order have the same meanings (unless the subject or context otherwise requires) as in the Siam (Foreign Jurisdiction) Order in Council, 1856, and the Siam Order in Council, 1884. The expression "month" means a calendar month. Words importing the plural or the singular may be construed as referring to one person or thing, or more than one person or thing, and words importing the masculine as referring to females (as the case may require).

All Her Majesty's jurisdiction in Siam for the judicial hearing and determination of matters in difference between British subjects or between foreigners (including subjects of the Kings of Siam) and British subjects, or for the administration or control of the property or persons of British subjects, or for the repression or punishment of crimes or offences committed by British subjects, or for the maintenance of order among British subjects, shall be exercised under and according to the provisions of this Order, and the provisions of the Siam Orders in Council, so far as they do not

conflict with this Order, and not otherwise. Subject to the provisions of the aforesaid Orders, the civil and criminal jurisdiction aforesaid shall, as far as circumstances admit, be exercised upon the principles of and in conformity with the Common Law, the Rules of Equity, the Statute Law, and other law for the time being in force in and for England, and with the powers vested in and according to the principles of procedure and practice observed by and before the Courts of Justice and Justices of the Peace in England, according to their respective jurisdictions and authorities.

Every criminal case tried in Siam before a Judge of the Supreme Court of the Straits Settlements, acting under clause 14 of the Siam Order in Council of 1884, if the defendant so requires, in manner prescribed by any Rules to be made under this Order, shall be tried before a jury. Every male British subject resident in Siam being of the age of twenty-one years or upwards, being able to speak and read English, having or earning a gross income at the rate of not less than 250 dollars a year, not having been attainted of treason or felony, or convicted of any crime that is infamous (unless he has obtained a free pardon), shall be qualified to serve on a jury. All persons so qualified shall be liable so to serve except the following:—(a.) Persons in Her Majesty's Diplomatic, Consular, or other Civil Service in actual employment; (b.) Officers, clerks, keepers of prisons, messengers, and other persons attached to or in the service of any of Her Majesty's Courts; (c.) Officers and others on full pay in Her Majesty's army or navy, or in actual employment in the service of any department connected therewith; (d.) Clergymen and ministers of religion in the actual discharge of professional duties; (e.) Physicians, surgeons, and apothecaries in actual practice, and (f.) Persons disabled by mental or bodily infirmity.

On or before the fourteenth day of January in the year one thousand eight hundred and eighty-seven, and in every subsequent year, Her Majesty's Consular Court at Bangkok shall make out a list of the persons so qualified and liable resident within its district. The list shall on or before the twenty-first day of the same month, be affixed in some conspicuous place in the Court, and shall be there exhibited until the end of that month, with a notice annexed that on a day specified, not being sooner than the seventh or later than the fourteenth day of the following month, the Court will hold a special sitting for the revision of the list. The Court shall hold such special sitting accordingly, and at such sitting, or at some adjournment thereof (of which public notice shall be given), shall revise the list by striking out the name of any person appearing to be not qualified or not liable to serve, and by inserting the name of any person omitted and appearing to be so qualified and liable, either on the application of the person omitted, or such notice to him as the Court thinks fit. The list shall be finally revised and settled not later than the twenty-first day of February in the year one thousand eight hundred and eighty-seven, and in every subsequent year, and when settled shall be affixed in some conspicuous place in the Court, and be there exhibited during not less than two months. Such list as settled shall be brought into use on the first day of March in the year one thousand eight hundred and eighty-seven, and in every subsequent year, and in every case shall be used as the Jury List of the Court until the first day of March next after the time of its being brought into use. When, in pursuance of this Order, a jury is required, the Court shall summon so many of the persons comprised in the Jury List as seems requisite. Any persons failing to attend according to such summons shall be liable to such fine, not exceeding fifty dollars, as the Court thinks fit to impose, but such fine shall not be levied until after the expiration of fourteen days. The proper officer of the Court shall forthwith give to the person fined notice in writing of the imposition of the fine, and require him, within six days after receipt of the notice, to pay the fine or to file an affidavit excusing his non-attendance (if he desires to do so). The Court shall consider the affidavit, and may, if it thinks fit, remit the fine. A jury shall consist of five jurors. No challenges shall be allowed except for cause shown to the satisfaction of the Court. No Grand Jury shall be summoned. A jury shall be required to give an unanimous verdict.

Every Consular Court shall have and may exercise for and within its own district all the powers, rights, and duties appertaining to the office of Coroner in Eng-

land, but it shall not be necessary to summon a jury in holding any inquest. The Consular Court at Bangkok shall be a Vice-Admiralty Court, and as such, shall, for and within Siam, and for vessels and persons coming to and within Siam, have all such jurisdiction as for the time being ordinarily belongs to Vice-Admiralty Courts in Her Majesty's possessions abroad. The Consular Court shall have all powers and jurisdiction which can be exercised by Justices or a Vice-Admiralty Court under or for the purposes of the Acts relating to merchant shipping or the Passenger Acts, or relating to quarantine. The Consular Court at Bangkok shall, as far as circumstances admit, have in itself exclusively, for and within Siam, with respect to British subjects, all such jurisdiction relative to the custody and management of the persons and estates of persons of unsound mind as for the time being belongs to the Lord Chancellor or other person or persons in England intrusted, by virtue of Her Majesty's Sign Manual, with the care and commitment of the custody of the persons and estates of persons found, by inquisition in England, idiot, lunatic, or of unsound mind.

The Consular Court at Bangkok shall be a Court of Probate, and as such shall, as far as circumstances admit, have, for and within Siam, with respect to the property of British subjects having at the time of death their fixed places of abode in Siam, all such jurisdiction as for the time being belongs to the Probate Division of Her Majesty's High Court of Justice in England. A District Court shall also have power to grant probate or administration where there is no contention respecting the right to the grant, and it is proved on oath that the deceased had at the time of his death his fixed place of abode within the jurisdiction of the District Court. Probate or administration granted by a District Court in Siam shall have effect over all the property of the deceased within Siam, and shall effectually discharge persons dealing with as executor or administrator thereunder, and that notwithstanding any defect afterwards appears in the grant. Such a grant shall not be impeachable by reason only that the deceased had not at the time of his death his fixed place of abode within the particular jurisdiction. Every person having in his possession or under his control any paper or writing of a deceased British subject being or purporting to be testamentary shall forthwith bring the original to the Court within the district whereof such person is at the time of his first knowledge of the death of the deceased, and deposit it there. Any person neglecting to do so for fourteen days after having knowledge of the death of the deceased shall be liable to such penalty, not exceeding two hundred and fifty dollars, as the Court thinks fit to impose. From the death intestate of a British subject having at the time of death his fixed place of abode in Siam until administration is granted, his personal property within Siam shall be vested in the Consul-General in Siam. If any person other than one of Her Majesty's Consular officers takes possession of, and in any manner administers any part of the personal property of any person deceased, without obtaining probate or administration within three months after the death of the deceased, or within one month after the termination of any suit or dispute respecting probate or administration (if there is any such which is not ended within two months after the death of the deceased), he shall be liable to such penalty, not exceeding two hundred and fifty dollars, as the Court having jurisdiction in the matter of the property of the deceased thinks fit to impose; and in every such case the same fees shall be payable by the person so administering as would have been payable by him if he had obtained probate or administration. Where a British subject not having at the time of death his fixed place of abode in Siam dies there, the Court within whose district he dies shall, where the circumstances of the case appear to the Court so to require, forthwith on the death of the deceased or as soon after as may be, take possession of his personal property within the particular jurisdiction, or put it under the seal of the Court (in either case, if the nature of the property or other circumstances so require, making an inventory), and so keep the property until it can be dealt with according to law.

Every Court and authority in imposing punishments shall, as far as circumstances admit, and subject to the provisions of the Siam Orders in Council, have regard to the punishments imposed by the laws of England in like cases, and to the mode in which the same are inflicted in England. Where any person is sentenced

in Siam to suffer the punishment of death, the Judge pronouncing the sentence shall forthwith send a report of the sentence, with a copy of the Minutes of the proceedings, and notes of the evidence in the case and with any observation the Judge thinks fit to make, to the Governor in Council of the Straits Settlements. The sentence shall not be carried into execution without the order of the Governor of the Straits Settlements in Council. In any such case, if the said Governor in Council does not order that the sentence of death be carried into execution, he shall direct what punishment in lieu of the punishment of death is to be inflicted on the person convicted, and the person convicted shall be punished accordingly. . Where any offender convicted before a Court in Siam is sentenced to suffer imprisonment in respect of the crime or offence of which he is convicted, and it is expedient that the sentence be carried into effect within Her Majesty's dominions, the offender may, in accordance with the 5th section of "The Foreign Jurisdiction Act, 1843," be sent for execution of his sentence as follows:—

(a.) In the case of a prisoner who is, or who appears to the person signing the warrant under the said 5th section to be, a native of Burmah or of any other part of British India, and not of European descent, to Her Majesty's possession of Burmah, or some other part of British India. (b.) In the case of any other prisoner, to the Colony of the Straits Settlements. And the person for the time being acting as Her Majesty's Consul-General or Consul in Siam shall have authority for the purposes of the said section.

If any British subject is guilty of publicly deriding, mocking, or insulting any religion established or observed in Siam, or publicly offering any insult to any religious service, feast, or ceremony established or kept in any part of Siam, or to any place for worship, tomb, or sanctuary belonging to any such religion, or to the ministers or professors thereof, or of wilfully committing any act tending to bring any such religion or its ceremonies, mode of worship, or observances into hatred, ridicule, or contempt, and thereby to provoke a breach of the public peace, he shall be liable (in the discretion of the Court before which he is convicted), to imprisonment for any term not exceeding three months, with or without hard labour, and with or without a fine not exceeding five hundred dollars, or to a fine exceeding five hundred dollars without imprisonment. Notwithstanding anything in the Siam Orders in Council, every charge against a British subject of having committed any such offence shall be heard and determined in a summary way, and a District Court shall have power to impose the punishment aforesaid.

Where it is shown to any of Her Majesty's Courts that the attendance of a British subject to give evidence, or for any other purpose connected with the administration of justice, is required in a Siamese Court or before a judicial officer in Siam of any State in amity with Her Majesty, the Court may, in cases and under circumstances which would require the attendance of that British subject before one of Her Majesty's Courts in Siam, and if it seems to the Court just and expedient so to do, make an order for the attendance of the British subject in such Court or before such judicial officer, and for such purpose as aforesaid, but so that a District Court shall not have power to make an order for such attendance of a British subject at any place beyond the particular jurisdiction of the Court. Any British subject duly served with such an order, and with reasonable notice of the time and place at which his attendance is required, and having had the reasonable expenses of attendance paid or tendered to him, failing to attend accordingly, and not excusing his failure to the satisfaction of the Court making the order, shall be liable to a fine not exceeding five hundred dollars, or to imprisonment for any term not exceeding one month, in the discretion of the Court.

Any Court may order any person convicted before it of any crime or offence to pay all or any part of the expenses of or preliminary to his trial, and of his imprisonment or other punishment. Where it appears to any Court that any charge made before it is malicious or is frivolous and vexatious, the Court may order all or any part of the expenses of the prosecution to be paid by the person making the charge. In either of the two last-mentioned cases the amount ordered to be paid shall be

deemed a debt due to the Crown, and may, by virtue of the order, without further proceedings, be levied on the property of the person convicted or making the charge, as the case may be. (1.) Where the crime or offence with which any person is charged before any Consular Court appears to the Court to be such that, if proved, it would not be adequately punished by such punishment as the Court has power to impose, and the accused is not to be sent for trial to Her Majesty's dominions, the Courts may reserve the case to be heard and determined before a Judge of the Supreme Court of the Straits Settlements acting under the provisions of clause 14 of the Siam Order in Council, 1884. Where any case is reserved under this section, the Consular Court shall take the depositions, and commit the prisoner for trial before such Judge of the Supreme Court of the Straits Settlements as shall next exercise criminal jurisdiction in Siam, under the powers given in clause 14 of the Siam Order in Council, 1884.

If any British subject—(a.) Wilfully obstructs by act or threat an officer of the Court in the performance of his duty; (b.) within or close to the room or place where a Court is sitting, wilfully behaves in a violent, threatening, or disrespectful manner, to the disturbance of the Court or the terror of the suitors or others resorting thereto; or (c.) wilfully insults the Judge or any Consular officer, or any juror or assessor, or any clerk or officer of a Court during his sitting or attendance in Court, or in going to or returning from Court; he shall be liable to be immediately apprehended by order of the Court, and to be detained until the rising of the Court; and further, on due inquiry and consideration, to be punished with a fine not exceeding twenty-five dollars, or imprisonment for any term not exceeding seven days, at the discretion of the Court, according to the nature and circumstances of the case. A Minute shall be made and kept of every such case of punishment, recording the fact of the offence, and the extent of the punishment, and in the case of a District Court a copy of such Minute shall be forthwith sent to the Consular Court at Bangkok.

Whenever, under the Siam Orders in Council, any person is to be taken in custody or otherwise, for trial or imprisonment, or by way of deportation, or for any other purpose, to Singapore or elsewhere in the Straits Settlements or to England or elsewhere, the Court or other authority by the Siam Orders in Council authorized to cause him to be so taken may for that purpose, if necessary, cause him to be embarked on board one of Her Majesty's vessels of war, or if there is no such vessel available, then on board any British or other fit vessel, at any port or place, whether within or beyond the particular jurisdiction of that Court in authority, and in order to such embarkation may, if necessary, cause him to be taken, in custody or otherwise, by land or by water, from any place to the port or place of embarkation. The writ, order, or warrant of any Consular Court, or of the Consul-General, as the case may be, by virtue whereof any person is to be so taken, shall be sufficient authority to every constable, officer, or person acting thereunder; and the commander or master of any vessel of war or other vessel (whether the constable, officer, or other person, or the vessel or the commander or master thereof, is named therein or not) to receive, detain, take, and deliver up such person, according to the writ, order, or warrant. When the writ, order, or warrant is executed under the immediate direction of the Court or authority issuing it, the writ, order, or warrant shall be delivered to the constable, officer, or other person acting thereunder, and a duplicate thereof shall be delivered to the commander or master of any vessel in which the person to whom the writ, order, or warrant relates is embarked.

Subject to the other provisions of the Siam Orders in Council, all expenses of removal of prisoners and others from or to any place in Siam, the expenses of deportation, and of the sending of any person to England or to India, shall be defrayed as the expenses as to distressed British subjects are defrayed, or in such other manner as one of Her Majesty's Principal Secretaries of State from time to time may direct, provided that such expenses shall not be charged on Imperial funds otherwise than subject to the sanction of the Commissioners of Her Majesty's Treasury.

**TREATY BETWEEN THE EMPEROR OF THE FRENCH AND THE
KING OF SIAM.**

SIGNED AT PARIS, 15TH JULY, 1867.

Ratifications Exchanged at Bangkok, 24th November, 1867.

His Majesty the Emperor of the French and His Majesty the King of Siam, being desirous to definitely define, by common accord, the position of the kingdom of Cambodia under the treaty concluded at Oudon, between France and that kingdom, on the 10th August, 1863, and wishing to avoid for the future any claim of such a character as to disturb the perfect friendship which exists between the two nations, have appointed their plenipotentiaries, namely:—

His Majesty the Emperor of the French, the Marquis Léonel de Moustier, Grand Cross of the Imperial Order of the Legion of Honour, &c., Secretary of State for Foreign Affairs;

And His Majesty the King of Siam, Phya Surawongs Way Wat, First Ambassador, and Phra Kaxa Sena, Second Ambassador;

Who, having communicated their full powers, found in due form, have agreed upon the following Articles:—

Art. I.—His Majesty the King of Siam solemnly recognises the protectorate of His Majesty the Emperor of the French over Cambodia.

Art. II.—The treaty concluded in the month of December, 1863, between the kingdoms of Siam and Cambodia is declared null and of no effect, and shall not in future be invoked by the Government of Siam under any circumstance whatsoever.

Art. III.—His Majesty the King of Siam renounces, for himself and His successors, all tribute, present, or other mark of vassalage on the part of Cambodia.

On His part, the Emperor of the French engages not to take possession of that kingdom to incorporate it in his possessions in Cochin-China.

Art. IV.—The provinces of Battambang and Angkor (Nakhon Siemrap) remaining, like the other Siamese provinces bordering on Cambodia, such as they are recognised at the present day on the one part and the other, shall be, with the shortest delay, exactly determined, by the aid of stakes or other marks, by a Commission of French officers appointed by the Governor of Cochin-China.

The delimitation effected, it shall be traced on an exact map by the French officers.

Art. V.—The Siamese shall abstain from any encroachment on the territory of Cambodia, and the Cambodians shall equally abstain from any encroachment on Siamese territory.

Nevertheless, the inhabitants of the two countries shall have freedom to travel, trade, and peacefully reside on the respective territories.

If Siamese subjects commit crimes on Cambodian territory they shall be tried and punished with justice by the Government of Cambodia according to the laws of that country. If Cambodian subjects commit crimes in Siamese territory they shall in the same way be tried and punished with justice by the Siamese Government, according to the laws of Siam.

Art. VI.—Vessels under the French flag may freely navigate those parts of the Meikong River and Interior Sea which touch the Siamese possessions. The Government of His Majesty the King of Siam shall place at the disposal of the Authorities of Saigon such number of passports as the latter may deem necessary, to be delivered, after having been signed and filled up by the said authorities, to French subjects who wish to go to the said coast. On Siamese territory the latter shall conform to all the stipulations of the treaty of 1856 between France and Siam. The above-mentioned passport shall take the place, in harbours, of the pass required by Article VII. of the said Treaty, and shall give to its bearers, in case of urgency, the right of laying their claims directly before the Siamese authorities.

Art. VII.—The French Government engages that the preceding stipulations shall be observed by Cambodia.

Art. VIII.—The present Treaty having been written in French and Siamese and the two versions having the same import and sense, the French text shall be official and shall have the same effect in all respects as the Siamese.

France shall represent Annam in all her foreign relations.

Annamites abroad shall be placed under the protection of France.

Art. III.—The Annamite officials, from the Cochin China frontier to the frontier of the province of Ninh-Binh, shall continue to administer the provinces comprised within those limits, save in so far as regards the Customs, Public Works, and in general those services which require a single head or the employment of European engineers or agents.

Art. IV.—Within the above-mentioned limits, the Annamite Government shall declare the ports of Tourane and Xuan-Day, besides that of Qui-Nhon, to be open to the trade of all nations. Subject to previous agreement, other ports may be opened hereafter. The French Government shall keep Agents in these places, who will be under the orders of its Resident at Hué.

The Resident-General shall have the right of private and personal audience of His Majesty the King of Annam.

Art. VI.—In Tonquin, the Government of the Republic shall place Residents or Assistant Residents in those principal towns where their presence may be deemed advantageous. They shall be under the orders of the Resident-General.

They shall reside in the citadel, and, in all cases, within the precincts of the space reserved for the Mandarins ; they shall be provided, when necessary, with a French or native escort.

Art. VII.—The Residents shall avoid taking part in the details of the internal administration of the provinces. The native officials of every kind shall continue to govern and administer under their control ; but they shall be dismissed at the request of the French authorities.

Art. VIII.—French functionaries and officials of every grade shall not communicate with the Annamite authorities except through the medium of the Residents.

Art. IX.—A line of telegraph shall be established between Saigon and Hanoi, and shall be worked by French officials.

A portion of the rates shall be assigned to the Annamite Government, who shall grant in return the ground necessary for the stations.

Art. X.—In Annam and in Tonquin foreigners of every nationality shall be placed under the jurisdiction of France.

French authorities shall adjudicate on disputes of any kind which may arise between Annamites and foreigners, as also between foreigners.

Art. XI.—In Annam proper, the Quan-Ho shall levy the old tax without the control of French officials, and on behalf of the Court of Hué.

In Tonquin the Residents shall, with the concurrence of the Quan-Ho, concentrate the levy of the same tax, and shall superintend its collection and use. A Commission composed of French and Annamite Commissioners shall determine what sums shall be assigned to the various branches of the Administration and to the public service. The remainder shall be deposited in the treasury of the Court of Hué.

Art. XII.—Throughout the kingdom the reorganized custom-houses shall be intrusted solely to French Administrators. There shall only be maritime and frontier custom-houses, which shall be established wherever the need for them may show itself.

No complaint shall be admitted in Customs questions on the subject of measures taken up to the present time by the military authorities.

The Laws and Regulations concerning indirect taxation, the Customs system and tariff, and the sanitary system of Cochin China, shall be applicable to the territories of Annam and Tonquin.

Art. XIII.—French citizens or "protégés" shall have the right, throughout the whole extent of Tonquin and in the open ports of Annam, to move freely from place to place, to trade, to acquire personal or real property, and to dispose of it. His Majesty the King of Annam expressly confirms the guarantees accorded by the Treaty of the 15th March, 1874, in favour of the missionaries and of the Christians.

Art. XIV.—Persons desiring to travel in the interior of Annam shall only be able to obtain permission to do so through the Resident-General at Hué or the Government of Cochin China.

Art. XV.—France engages henceforth to guarantee the integrity of the States of His Majesty the King of Annam, and to protect that Sovereign both against external invasions and internal rebellion.

With that object the French authorities shall have the right to order a military occupation of such points in the territory of Annam and Tonquin as they shall deem necessary, in order to secure the exercise of the Protectorate.

Art. XVI.—His Majesty the King of Annam shall continue, as heretofore, to direct the internal administration of his States, except for the restrictions arising out of the present Convention.

Art. XVII.—The present debt of Annam to France shall be liquidated by means of payments, the manner of which shall be subsequently determined. His Majesty the King of Annam agrees not to contract any foreign loan without the sanction of the French Government.

Art. XVIII.—Subsequent conferences shall determine the limits of the open ports and of the French concessions in each of such ports, the establishment of light-houses on the coasts of Annam and of Tonquin, the regulation and working of mines, the monetary system, the share to be assigned to the Annamite Government of the amount produced by the Customs, Excise, Telegraphs, and other revenues not mentioned in Article XI. of the present Treaty.

SPAIN AND ANNAM.

TREATY OF COMMERCE BETWEEN SPAIN AND ANNAM.

SIGNED AT HUE, 27TH JANUARY, 1880.

Ratifications Exchanged 26th September, 1880.

His Majesty the King of Spain and His Majesty the Emperor of Annam, desiring to strengthen and promote commercial relations between their respective subjects, and thus cement more closely the bonds of friendship which happily exist between the two countries, have decided to conclude a Treaty of Commerce, and have named their Plenipotentiaries for that purpose, that is to say, His Majesty the King of Spain, Don Melchor Ordonez, Naval Lieutenant of the first class, Colonel of Marine Infantry, &c., &c., and His Majesty the Emperor of Annam, Do Dang De, Minister of Rites, Director of the Academy, and Subdirector of the Imperial Historiographical Department, and Huyuh-Dien, first Chancellor of the Ministry of the Interior, who, having exchanged their full powers, and found them in good and proper form, have agreed upon the following Articles:—

Art. I.—In conformity with the provisions of Art. IX. of the Treaty of Peace concluded between His Majesty the Emperor of Annam and His Excellency the President of the French Republic on the 15th March, 1874, the Annamite Government has opened to European and American Commerce the following ports, viz. Thi-nai, in the province of Binh-dinh; Ninh-hai in the province of Hai-dang; the city of Hanoi, and the passage by the Nhi-ha (Song-koi) from the sea to the frontier of the Chinese province of Yunnan. According to Article XXI. of the said Treaty, and on the invitation of the French Government to that of Spain, the latter has become a party to the said Treaty, accepting it from the 1st June, 1874, as replacing that concluded in the year 1862. Spanish subjects may reside in the aforesaid ports and cities for the purposes of trade and industry, abstaining from all traffic on the banks of the river. Offenders against this provision shall suffer as penalty the confiscation of the merchandise, which will be forfeited to the Annamite Authority.

Art. II.—His Majesty the King of Spain concedes to Annamite subjects the right of travelling, residing, possessing property, and freely engaging in trade, industry, and every class of work, in Spain and her territories beyond sea, the said Annamite subjects conforming to the laws of the country in which they shall be. His Majesty the Emperor of Annam will place no obstacle in the way of such Annamite subjects as shall desire to go to Spain or its provinces beyond sea in pursuit of any description of work. They shall be protected by the local Spanish Authorities in accordance with the provisions of the Regulation on Asiatic Emigration of 6th July, 1860, to which regulation the workmen and those who engage them shall submit. This regulation has been submitted for the consideration of the Annamite Government, who have accepted it, and it shall have force from the date of the ratification of the present Treaty. The Spanish Plenipotentiary has delivered to the said Government two copies of the aforementioned regulation, certified and sealed with his seal, the one written in the French language and the other in Annamite.

Emigration shall take place only from the three ports opened to trade. The chief authority of the province shall be informed of the number of emigrants, and also of their contracts, a copy of which shall be forwarded by the captain of the ship. The said Authority shall appoint a person to verify, in comparing with the Captain of the Port, the accuracy of the particulars furnished, and the vessel shall not be allowed to leave the port until such examination has taken place. In the event of

its being found necessary to frame other regulations for the protection of contract labourers, the two High Contracting Parties shall agree upon them.

Art. III.—His Majesty the Emperor of Annam concedes to Spanish subjects liberty to enter and reside in the cities and ports opened to trade as above mentioned. In these places they may possess land, build houses, and follow any commercial or industrial pursuit. They shall enjoy the same protection as the French or the subjects of other nations, and the Government of His Majesty the Emperor shall place at their disposal the land necessary for their establishment.

As regards the purchase of land and the payment of the price, they shall submit to the conditions contained in Art. XII. of the Treaty concluded between France and Annam on the 15th March, 1874. The Annamite Government may open other ports hereafter should it be deemed advisable or if the importance of the trade renders it necessary.

Art. IV.—His Majesty the Emperor of Annam may, if he think proper, establish in Spain and in all ports and cities of its dominions Consuls charged with the protection of his subjects. His Majesty the King of Spain may also, should he think fit, establish at Thi-nai, Ninh-hai, and Hanoi, Consuls charged with the protection of Spanish subjects. These agents shall not exercise their consular functions until the exequatur of the sovereign of the nation to which they are accredited shall have been received, but as soon as the said exequatur shall be received they shall freely discharge their functions and enjoy the same consular privileges as the agents of other nations. The jurisdiction of the Consuls in Annam shall not extend beyond the open ports to which they have been appointed. This Treaty does not modify in any respect the provisions of Art. IX. of the Political Treaty of the 15th March, 1874, between France and Annam, relative to Spanish Missionaries, who shall continue in the enjoyment of the privileges accorded by the said Article.

Art. V.—All questions between Spaniards, or between Spaniards and Foreigners, shall be tried by the Spanish Consuls, or in default of these shall be submitted to the French Agents.

When Spanish subjects have any dispute with Annamites, or any claim against them, they shall lay the matter before the Spanish Consul, who will endeavour to settle the matter amicably. If such settlement be impossible, the Consul shall request the assistance of an Annamite Judge commissioned to that effect, and these two officers, shall, after a joint investigation, decide the matter according to the rules of equity.

Equally, when Annamites have a difference with Spanish subjects, they shall lay the matter before the Annamite Authority, who, if the matter cannot be arranged amicably, will ask the assistance of the Spanish Consul, in order that they may try it together.

Art. VI.—The preliminary proceedings upon offences or crimes committed by Spanish residents in the cities and open ports shall be heard before the Consul for Spain; in his absence before the Consul for France, and shall be sent, together with the accused, as soon as possible, to Manila, that judgment may be given according to the laws of Spain.

If the accused take refuge in Annamite territory the local authorities shall, on requisition being made, use all possible means to arrest him and deliver him to the Consul for Spain.

If an Annamite subject resident in Spanish territory commit any offence or crime he shall be tried, according to the laws of the country, by the Spanish Authorities, but the Annamite Consul shall be officially informed of the proceedings taken against the accused.

Annamite subjects guilty of a criminal action against Spanish subjects in Annam shall be detained by the Annamite Authorities and punished according to the laws of the Empire.

Art. VII.—If any criminal being a Spanish subject, accused of misdemeanour or robbery, shall fly to Annamite territory, the local authority, as soon as it shall be

informed thereof, shall take all possible means to arrest the fugitive and deliver him to the Spanish Consul, or, there being no Spanish Consul, to the French Consul. Equally, if criminals of whatever class, subjects of His Majesty the Emperor of Annam, shall fly to Spanish territory, they shall be pursued as soon as advice of their flight is received, taken if possible, and delivered to the authorities of their country.

Art. VIII.—The property of Spaniards dying in Annamite territory, and of Annamites dying in Spanish territory, shall be handed over to their heirs. In the absence of the latter, the property shall be placed with the Consul of the nation to which the deceased belonged to hold for the legal heirs. In the absence of a Consul the Government of the country shall send it to the Government of the nation to which the deceased belonged.

Art. IX.—In the ports open to trade Spanish subjects shall be subject to all the clauses relative to commercial operations contained in the Treaty of Commerce between Annam and France of the 31st August, 1874. They shall enjoy all the privileges already conceded or which may be hereafter conceded to the merchants of the most favoured nation, with the exception of the privilege conceded to France with reference to merchandise imported or exported by vessels proceeding from or to Saigon, according to Art. IV. of the said treaty.

Art. X.—In the ports open to trade the importation and exportation of all merchandise is permitted, with the exception of the articles already prohibited, which are found enumerated in the treaty concluded with France on the 31st August, 1874. Grain and silk are articles of which the Annamite Government has need. Their importation shall always be permitted, but the exportation of grain shall only take place in virtue of a temporary authorisation by the Government, of which information will be given to the French Resident at Hué and to the Spanish Consuls. The exportation of silk shall only be permitted each year after the districts which pay their tax in this article shall have paid them in full and after the Annamite Government shall have purchased the quantities indispensable to their use. When the said Government shall intend to authorise or suspend the exportation of these two articles they shall give information of their intention, at least two months in advance, to the French Resident at Hué and to the Spanish Consuls; that is to say, if the concession or suspension is to take place on 1st March, information thereof shall be given to the said Agents on the 1st January.

Art. IX.—The present treaty shall remain in force for ten years from the date of the exchange of the ratifications. During this period it cannot be modified except by the common consent of the two High Contracting Parties, and after at least one year's notice shall have been given by the one to the other. At the termination of the ten years, if neither party expresses a desire for the modification of the treaty, it shall continue the same, being obligatory on both parties.

Art. XII.—This treaty shall be ratified, and the ratifications exchanged at Hué within one year from the date of signing, or earlier if possible. It shall have effect from the date of the exchange of the ratifications.

7.—Personal service should always be required when practicable.

8.—*Default.*—On proof of due notice, judgment by default shall be procured against any defendant failing to appear and file his answer as required; but the default may be taken off for good cause within one day after, exclusive of Sunday.

3.—*Damages.*—But in actions of wrong, and all other where the damages are in their nature unliquidated and indefinite, so that they cannot be calculated with precision from the statement of the petition, the amount of the judgment shall be ascertained by evidence, notwithstanding the default.

10.—*Answer.*—If defendant appears and answers, the Consul, having both parties before him, shall before proceeding further encourage a settlement by mutual agreement, or by submission of the case to referees agreed on by the parties, a majority of whom shall decide it.

11.—*Amendments.*—Parties should, at the trial, be confined as closely as may be to the averments and denials of the statement and answer, which shall not be altered after filing except by leave granted in open Court.

12.—*American witnesses compelled to attend.*—On application of either party and advance of the fees, the Consul shall compel the attendance of any witness within his jurisdiction before himself, referees, or commissioners.

19.—*Debtor's disclosure.*—Any person under civil arrest or imprisonment may have his creditor cited before the Consul to hear a disclosure of the prisoner's affairs under oath, and to question thereon; and if the Consul shall be satisfied of its truth and thoroughness, and of the honesty of the debtor's conduct towards the creditor, he shall for ever discharge him from arrest upon that debt; provided that the prisoner shall offer to transfer and secure to his creditor the property disclosed, or sufficient to pay the debt, at the Consul's valuation.

20.—*Debtor's board.*—The creditor must advance to the jailer his fees and payment for his prisoner's board until the ensuing Monday, and afterwards weekly, or the debtor will be discharged from imprisonment and future arrest.

And the Consul may, at his discretion, award him compensation for any damage necessarily and directly sustained by reason of such attachment, arrest, or imprisonment.

25.—*Offset.*—In action of contract, defendant may offset petitioner's claim by a counter claim, filing his own claim, under oath, with his answer. Petitioner shall be notified to file his answer seasonably, on oath, and the two claims shall then be tried together, and but one judgment given for the difference, if any be proved in favour of either party, otherwise for defendant's costs.

26.—*Costs.*—Except as hereinafter provided, the party finally prevailing recovers costs, to be taxed by him and revised by the Consul.

27.—*Trustee process*.—In contract, the Consul may order defendant's property or credits in third party's hands to be attached on the petition, by serving him with due notice as trustee, provided petitioner secures trustee his costs by adequate special deposit.

28.—*Trustee's costs*.—If adjudged trustee the third party may retain his costs from the amount for which he is adjudged trustee, if sufficient; otherwise the balance of trustee's costs must be paid out of petitioner's special deposit, as must the whole of his costs if not adjudged.

34.—*Demand or withdrawal*.—It shall be paid to the creditor at any time if demanded, unless previously withdrawn by the depositor.

35.—*Costs*.—If the depositor does not withdraw his deposit, and upon trial, is not adjudged to have owed petitioner at the time of the tender more than its amount, he shall recover all his costs.

36.—*Offer to be defaulted*.—At any stage of a suit in contract or wrong defendant may file an offer to be defaulted for a specific sum and the costs up to that time; and if petitioner chooses to proceed to trial and does not recover more than the sum offered and interest, he shall pay all defendant's costs arising after the offer, execution issuing for the balance only.

ADDITIONAL REGULATIONS.

These regulations which have been decreed, as having the force of law in the Consular Courts of the United States in China, by James B. Angell, Envoy Extraordinary and Minister Plenipotentiary of the United States, are dated May 26th, 1881. They have been assented to by the various United States Consuls in China and are as follow:—

1.—In civil proceedings between American citizens in the Consular Courts in China, the service of summons upon the defendant, if he is found within the Empire of China, shall be personal. That is, the copy of the complaint and summons duly certified by a Marshal of any Consular Court in China shall be delivered into the hands of the person to be served. The officer so serving the summons shall certify the same to the Consul before whom the suit is brought.

2.—When the defendant has removed from or is absent from the Empire, or conceals himself therein to avoid the service of summons, and the fact appears by affidavit to the satisfaction of the Consul, and it also appears by such affidavit or by the verified complaint on file that a good cause of action exists against the defendant, or that he is a necessary party to the action, such Consul may make an order that the service be made by publication of the summons. Such order shall direct the publication to be made in a newspaper of general circulation (to be named) for such length of time as may be reasonable, in not less than six issues of such paper, if a daily, and in not less than four issues, if a weekly. Such publication shall be made in a newspaper published nearest to the Consulate where the suit or proceeding is pending, at least five months before the time fixed for the trial by the Consul. In case of publication, when the residence of a non-resident or absent defendant is unknown, the Consul shall direct a copy of the complaint and summons, duly certified, and addressed to the person to be served at his supposed place of residence, to be deposited in the Post Office by the Marshal of the said Court.

CHINESE EMIGRATION IN BRITISH SHIPS.

CHINESE PASSENGERS' ACT, 1855.

28 AND 29 VICTORIA, CAP. 104.

An Act for the Regulation of Chinese Passenger Ships.

Whereas abuses have occurred in conveying Emigrants from ports in the Chinese Seas: And whereas it is expedient to prevent such abuses: Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

I.—In the construction of this Act, the Term *Chinese Passenger Ship* shall include every ship carrying from any port in Hongkong, and every British ship carrying from any port in China or within one hundred miles of the coast thereof, more than twenty passengers, being natives of Asia; the word *Colony* shall include all Her Majesty's Possessions abroad not being under the Government of the East India Company; the word *Governor* shall signify the person for the time being lawfully administering the Government of such colony; the term *Legislature of Hongkong* shall signify the Governor and Legislative Council or other legislative authority of the same for the time being; the word *Ship* shall include all seagoing vessels; the terms *Commander* and *Master* of any ship shall include any person for the time being in command or charge of the same; the term *Emigration Officer* shall include every person lawfully acting as emigration officer, immigration agent, or protector of emigrants, and every person authorized by the Governor of any British colony to carry out the Provisions of this Act; and the term *British Consul* shall include every person lawfully exercising Consular authority on behalf of Her Majesty in any foreign port.

II.—It shall be lawful for the Legislature of Hongkong by any ordinance to be by them enacted for the purpose, to make regulations respecting Chinese passenger ships, and, in the case of British ships, respecting the treatment of the passengers therein while at sea; and until such enactment, the Regulations contained in schedule A to this Act annexed shall be in force: Provided always, that no such ordinance shall come into operation until Her Majesty's confirmation of the same shall have been proclaimed in Hongkong by the Governor thereof.

III.—It shall be lawful for the Governor of Hongkong to declare, by proclamation, for the purposes of this Act and of the said regulations, what shall be deemed to be the duration of the voyage of any Chinese passenger ship, and by such proclamation to alter the scales of dietary, medicines, and medical comforts contained in the aforesaid schedule (A).

IV.—No Chinese passenger ship shall clear out or proceed to sea on any voyage of more than seven days' duration until the master thereof shall have received from an emigration officer a copy of the aforesaid regulations, and a certificate in the form contained in schedule B to this Act annexed, or in such other form as may be prescribed by the said Legislature, which copy and certificate, with any documents to be attached thereto (hereinafter designated as emigration papers), shall be signed by the said emigration officer, nor until the master shall, with two sufficient sureties, to

be approved by the said emigration officer, have entered into a joint and several bond in the sum of one thousand pounds to Her Majesty, her heirs and successors, in the form contained in schedule C to this Act annexed, or in such other form as shall be prescribed by the said Legislature.

V.—The said penal sum of one thousand pounds shall be due and recoverable, notwithstanding any penalty or forfeiture imposed by this Act or by the aforesaid regulations, and whether such penalties or forfeitures shall have been sued for and recovered or not.

VI.—It shall be lawful for commanders of any of Her Majesty's ships of war or for any emigration officer, Custom-house officer, or British Consul, to enter and search any Chinese passenger ship (being a British vessel or within British jurisdiction) so long as such ship shall have any passengers on board, and forty-eight hours afterwards, and in case such ship shall be engaged on a voyage of more or than seven days' duration, to require the production of the emigration papers of such ship, and to examine all persons on board of the same, in order to ascertain whether the provisions of this Act, and of the regulations aforesaid, have been complied with: and any person who refuses to allow, attempts to avoid, or obstructs any such entry, search, or examination, or who knowingly misleads or deceives any person lawfully making any such search or examination, or who, being the master of the ship or having the emigration papers in his custody, fails to produce the same when required as aforesaid, shall be deemed guilty of a misdemeanour.

VII.—In case of any neglect or refusal to comply with any of the provisions of this Act or any of the regulations aforesaid, or to perform any stipulation in any of the contracts made with the passengers, the master of the ship, and any other persons who may have been guilty of, or have aided or abetted such neglect or refusal, shall each be deemed for each offence guilty of a misdemeanour.

VIII.—If any Chinese passenger ship clears out or proceeds to sea on any voyage exceeding seven days' duration without such emigration papers as aforesaid, or if the emigration papers of any Chinese passenger ship are forged or fraudulently altered, such ship shall, if she is a British ship, or if, not being a British ship, the offence is committed and the ship is seized in Her Majesty's dominions or in the territories of the East India Company, be forfeited to Her Majesty.

IX.—Every person who commits or aids or abets in committing any act or default by which any Chinese passenger ship may become liable to forfeiture shall be liable to a penalty not exceeding one hundred pounds for each offence.

X.—It shall be lawful for any commissioned officer on full pay in the military or naval service of Her Majesty, or any British officer of customs, or any British Consul, to seize and detain any ship which has become subject to forfeiture as aforesaid, and bring her for adjudication before the High Court of Admiralty in England or Ireland, or any court having Admiralty Jurisdiction in Her Majesty's dominions or the territories of the East Indian Company, and such court may thereupon make such order in the case as it thinks fit, and may award such portion of the proceeds of the sale of any forfeited ship as it thinks right to the officer bringing in the same for adjudication, or to any persons damaged by the act or default which has rendered the ship liable to forfeiture.

XI.—No such officer as aforesaid shall be responsible, either civilly or criminally to any persons whomsoever in respect of the seizure or detention of any ship that has been seized or detained by him in pursuance of the provisions herein contained, notwithstanding that such ship is not brought in for adjudication, or, if so brought in, is declared not to be liable to forfeiture, if it is shown to the satisfaction of the judge or court before whom any trial relating to such ship or such seizure or detention is held, that there are reasonable grounds for such seizure or detention, but if no such grounds are shown, such judge or court may award payment of cost and damages to any party aggrieved, and make such other order in the premises as he or it thinks just.

XII.—It shall be lawful for the court before which any ship liable to forfeiture under this Act is proceeded against, to impose such a pecuniary penalty as to the same court shall seem fit, in lieu of condemning the ship, and in such case to cause

the ship to be detained until the penalty is paid, and to cause any penalty so imposed to be applied in the same manner in which the proceeds of the said ship, if condemned and sold by order of the court, would have been applicable.

XIII.—All misdemeanours and other criminal offences punishable under this Act shall be dealt with, tried, and judged of in the same manner as misdemeanours and other offences punishable under the Merchant Shipping Act, 1854, and all the rules of law, practice, or evidence applicable to the last mentioned misdemeanours and offences shall be applicable to misdemeanours and other offences under this Act.

XIV.—Any court, justice, or magistrate imposing any penalty under this Act, for which no specific application is herein provided, may, if it or he thinks fit, direct the whole or any part thereof to be applied in compensating any person for any wrong or damage which he may have sustained by the act or default in respect of which such penalty is imposed, or in or towards payment of the expense of the proceedings; and subject to such directions or specific application as aforesaid, all penalties recovered in the United Kingdom shall be paid into the receipt of Her Majesty's Exchequer in such manner as the Treasury may direct, and shall be carried to and form part of the consolidated fund of the United Kingdom; and all penalties recovered in any British possession shall be paid over into the public treasury of such possession, and form part of the public revenue thereof.

XV.—In any legal proceedings taken under this Act, or in respect of the bond hereinbefore required, any document purporting to be the written declaration of any British Consul, or of the commander of any of Her Majesty's ships of war, or to be a copy of proceedings of any court of justice, shall without any proof of signature be received in evidence, in case it shall appear that such copy or declaration, if produced in the United Kingdom, was officially transmitted to one of Her Majesty's principal Secretaries of State, or if produced in any colony, was officially transmitted to the Governor thereof. Provided always, that no person making such written declaration as aforesaid be capable of receiving a share of any penalty or forfeiture which shall be procured by such written declaration.

XVI.—This Act may be cited for any purpose whatever under the name of the *Chinese Passengers' Act, 1855*.

REMARKS RESPECTING THE TIDES BETWEEN CANTON, HONGKONG, AND MACAO.

In the absence of a *complete* tide table, the following table and remarks may be found serviceable:—

PLACES.	LATITUDE NORTH.	LONGITUDE EAST OF GR'WICH.	TIME OF HIGH WATER.		RISE OF TIDE.
			hrs.	min.	
Macao	22° 11' 30"	113° 32' 30"	10	10	8
Lankeet	22 41 30	113 38 15
Anunghoy	22 48 15	113 36 30	2	0	6 to 8
Second Bar Creek ...	22 58 30	113 32 15	2	15	
Whampoa	23 5 45	113 24 0	2	30	
Canton	23 7 0	113 15 0	* 3	50	4½ to 5
Lintin	22 24 30	113 48 0	12	0	8
Hongkong	22 21 0	114 18 0	10	20	7½

The flood tide, when regular (which is seldom), runs round Cabreta Point towards the town of Macao; but a little outside of the Point it sets along the land to the north, across the bay, until it meets the tide from Capsing-moon (or Capshui-moon, "the swift water passage,") above Lintin, when it flows in a direct channel towards the Bogue. The velocity of the flood tide in Macao Roads is about $2\frac{1}{2}$ miles in the north-east monsoon and moderate weather; but when it blows strong from the northward there is no apparent flood. The ebb then runs at the rate of 3 to $3\frac{1}{2}$ and 4 miles when the water is falling by the land. The ebb tide sets out from the town of Macao much in the same way as the flood comes in, with the difference of running a little more to the westward along the shore, before it takes the southerly direction; the latter part of this tide is therefore the best time for boats to start for Lintin or Canton, with a contrary wind, as they then get out far enough to have all the flood to work to the northward with.

The tides at Lintin run north and south, or nearly so. The velocity of the ebb, in the north-east monsoon when blowing strong is much the same as in Macao Roads; but there is always a perceptible flood of 1 or $1\frac{1}{2}$ miles. During the height of the south-west monsoon, the ebb runs at times at the rate of 6 and $6\frac{1}{2}$ miles, after heavy rains; at that season the floods are very weak.

* The flood ceases rising at this hour, but the stream in the middle of the river runs up a considerable time longer.

PORT, CONSULAR, CUSTOMS, PILOTAGE, AND HARBOUR
REGULATIONS, &c., FOR THE TREATY
PORTS OF CHINA.

GENERAL PORT REGULATIONS FOR HER BRITANNIC MAJESTY'S
CONSULATES IN CHINA.

The undersigned, Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary and Chief Superintendent of British Trade in China, acting under the authority conferred upon him by the 85th Section of the China and Japan Order in Council, 1865, hereby declares the following Regulations, made, in pursuance of the above Order in Council, to secure the observance of Treaties and the maintenance of friendly relations between British subjects and Chinese subjects and authorities, to be applicable to all ports which are, or may hereafter become, open to British trade:—

I.—The British Consulate offices at the several open ports shall be opened for public business from 10 o'clock A.M. to 4 o'clock P.M. daily, excepting Sundays, Christmas Day, Good Friday, Queen's birthday, Easter Monday, those holidays upon which public offices in England are closed, and Chinese New Year's day, and such Chinese holidays as the Chinese Customs authorities may observe.

II.—On the arrival of any British vessel at the anchorage of any of the open ports, the master shall, within 24 hours, deposit his ship's papers, together with a summary of the manifest of her cargo, at the Consulate office, unless a Sunday or holiday shall intervene.

III.—Every British vessel must show her national colours on entering the port or anchorage, and keep them hoisted until she shall have been reported at the Consulate and her papers deposited there.

IV.—No British vessel or any vessel the property of a British subject unless provided with a certificate of registry, or provisional or other pass from the Superintendent of Trade at Peking, or from the Colonial Government at Hongkong, shall hoist the British ensign within any port or anchorage, or any flag similar to the British ensign or of a character not to be easily distinguishable from it. Nor shall any registered British vessel flying the Red ensign hoist any other ensign or flag (except she be entitled to fly the Blue ensign) in use by Her Majesty's vessels of war, or the national ensign of any foreign State or any ensign or flag not plainly distinguishable from the ensigns used by Her Majesty's ships of war or from those flown by ships of foreign States.

V.—Should any seaman absent himself from his ship without permission, the master shall forthwith report the circumstance at the Consulate office, and take the necessary measures for the recovery of the absentee, and it shall be lawful for the Consul, if circumstances shall require it, in his discretion to prohibit leave being given to seamen to come ashore, and any master who shall violate such prohibition shall incur the penalties hereinafter declared.

VI.—The discharge of guns or other firearms from vessels in harbour is strictly prohibited, unless permission shall have been granted by the Consul.

VII.—Masters of vessels when reporting their arrival at a port shall notify in writing the names of all passengers and persons not forming part of the articulated crew on board, and previous to leaving, notice must be given of the names of all persons, not forming part of the articulated crew, intending to leave the port on board any vessel.

VIII.—All cases of death occurring at sea must be reported to the Consul within 24 hours of the vessel's arriving in port or harbour, and all cases of death on board vessels in harbour, or in the residences of British subjects on shore, must be immediately reported at the Consulate office, and in the event of sudden or accidental

death the fullest information obtainable should be given. It is strictly prohibited to throw overboard the bodies of seamen or other persons dying on board of a vessel in harbour. Except in case of urgent necessity, no burial should take place on shore or from any ship in harbour without the license of the Consul first obtained.

IX.—Stone or ballast shall not be thrown overboard in any port or harbour, unless permission shall have been first obtained from the local authorities through the intervention of Her Majesty's Consular officer.

X.—All cases of loss of property by theft or fraud on board ships, as well as of assault or felony requiring redress or involving the public peace, must be immediately reported at the Consulate office.

If any Chinese subject guilty of, or suspected of, having committed a misdemeanour on shore or afloat be detained, information must in such cases be forthwith lodged at the Consulate office, and in no instance shall British subjects be permitted to use violence toward Chinese offenders or to take the law into their own hands.

XI.—Any vessel having in the whole above 200 lbs. of gunpowder or other explosive material on board shall not approach nearer than a distance of one mile from the limits of the anchorage. On arriving at that distance, she must be forthwith reported to the Consular authority.

Special anchorages or stations will be assigned for such ships in the neighbourhood of the ports.

XII.—No seaman or other person belonging to a British ship may be discharged or left behind at any port or anchorage without the express sanction of the Consul, and not then until sufficient security shall have been given for his maintenance and good behaviour while remaining on shore, and, if required, for the expenses incident to his shipment to a port in the United Kingdom or to a British Colonial port, according as the seaman or other person is a native of Great Britain or of any British Colony.

If any British subject left at a port or anchorage by a British vessel be found to require public relief prior to the departure of such vessel from the dominions of the Emperor of China, the vessel will be held responsible for the maintenance and removal from China of such British subject.

XIII.—When a vessel is ready to leave a port or anchorage, the master or consignee shall apply at the Custom-house for a Chinese port clearance, and on his presenting this document, together with a copy of the manifest of his export cargo, at the Consular office, his ship's papers will be returned to him, and he will be furnished with a Consular port clearance, on receiving which the vessel will be at liberty to leave the port. Should any vessel take in or discharge cargo subsequent to the issue of the Customs' clearance, the master will be subject to a penalty, and the ship to such detention as may be necessary to the ends of justice.

XIV.—When a vessel is ready to leave a port or anchorage, the master shall give notice thereof to the Consul, and shall hoist a Blue Peter at least 24 hours before the time appointed for her departure. The Consul may dispense with the observance of this regulation on security being given that claims presented within 24 hours will be paid.

XV.—No British subject may establish or carry on an hotel, boarding or eating-house, house of entertainment, or shop for the sale of liquors within the Consular district without the sanction and license of the Consul, and payment of such fees in respect of such license, yearly or otherwise, as may be duly authorised. The Consul shall require every person so licensed to give security for the good conduct of all inmates and frequenters of his house, and also that he will not harbour any seaman who is a runaway or who cannot produce his discharge accompanied by a written sanction from the Consul to reside on shore.

Every person so licensed will be held accountable for the good conduct of all inmates and frequenters of his house, and in case of their misconduct may be sued upon the instrument of security so given.

XVI.—Any British subject desiring to proceed up the country to a greater distance than thirty miles from any Treaty port, is required to procure a Consular

passport, and any one found without such a passport beyond that distance will be liable to prosecution.

XVII.—The term Consul in these Regulations shall be construed to include all and every officer in Her Majesty's Consular service, whether Consul-General, Consul, Vice-Consul, or Consular agent, or other person duly authorized to act in any of the aforesaid capacities within the dominions of the Emperor of China.

XVIII.—British vessels are bound as to mooring and pilotage to act in accordance with the Harbour and Pilot Regulations authorized in each port by Her Majesty's Minister for the time being, and any infraction of the same shall render the party offending liable to the penalties attached to these regulations.

XIX.—No loading or discharging of cargo may be carried on except within the limits of the anchorage defined by the Consul and the Chinese authorities of each port.

XX.—Any infringement of the preceding General Port Regulations or of the Special Regulations referred to in Regulations XVIII. and XIX., shall subject the offender, for each offence, to imprisonment for any term not exceeding three months, with or without hard labour, and with or without a fine not exceeding 200 dollars, or to a fine not exceeding 200 dollars, without imprisonment, and with or without further fines for continuing offences not exceeding in any case 25 dollars for each day during which the offence continues after the original fine is incurred; such fine to be inflicted, levied, and enforced in accordance with the Order of Her Majesty in Council, dated the 9th day of March, 1865.

And in consideration of the urgent necessity for these Regulations, the undersigned hereby further declares that they shall have effect unless and until they shall be disapproved by Her Most Gracious Majesty, and notification of such disapproval shall be received and published by me or other Her Majesty's Minister in China.

NOTE.—All fines levied by virtue of or under the General or Special Port Regulations are to be applied, as directed by the China and Japan Order in Council, 1865, in diminution of the public expenditure, unless otherwise specially ordered.

IX.—Vessels are required to keep their chains clear, especially towards the full and change of the moon, and not to have lines out from one vessel to another any longer time than necessary. Boats towing astern are to have short lines, in order not to block up the passage.

X.—Merchant vessels shall not fire off cannon or small arms within the limits of the Port, without written permission from the Harbour Master.

XI.—Vessels arriving at this port and having on board, as cargo, any number of Loaded Shell, or more than One Hundred pounds of Gunpowder, or more than Twenty Thousand Rounds of Rifle, Sporting, Gatling, Mitrailleuse, Pistol, or Revolver Cartridges, shall anchor not less than one mile below the lower limit of the Harbour and fly a red flag ["No. 5" Marryat's or "B" Commercial Code] at the fore during the daytime and shall abide by the instructions received from the Customs concerning the discharge of the same.

XII.—Vessels arriving at this port and having on board, as cargo, *in whatever quantity*, any of the following mentioned articles, viz.:—Nitro-glycerine or Glonoin Oil, Gun Cotton, Fulminating Mercury, Dynamite, Lithofracteur, or any other substances used for Blasting purposes, shall be subject to the same conditions as to anchorage, &c., as are laid down in Clause 11 of these Regulations.

XIII.—Vessels shall not be allowed to take on board, as cargo, any of the articles mentioned in Clauses 11 and 12 of these Regulations in weight or number exceeding what is therein specified, without first proceeding to an anchorage not less than one mile below the lower limit of the Harbour, from which, while having such cargo on board, they shall only depart for the purpose of proceeding outside of Woosung.

XIV.—Vessels arriving with Kerosine Oil or Petroleum on board as cargo shall be berthed on the Pootung side of the 9th Section of the Harbour and must remain there until all such cargo has been discharged.

XX.—Buoys that are already laid down are subject to the control of the Harbour Master, and where they are so placed as to obstruct the passage of vessels through the Harbour or are not moored in such a way as to economize berthing space, the Harbour Master will be at liberty to order them to be shifted. In case of refusal or neglect on the part of the owners of a Buoy to shift its position, as directed by the Harbour Master, the latter may cause it to be removed at the risk of the owners thereof.

XXI.—In case of fire occurring on board a vessel in Port, the bell must be rung immediately by that vessel and by those above and below her, and the signal 2109 Marryat's or BTF Commercial Code ("Ship on fire") hoisted by the burning vessel, if possible, and by those above and below her, during the day, or the yard-arm light lowered and hoisted continually during the night. XXII.—Vessels infringing Clauses 11 and 12 of these Regulations, by coming within the Harbour limits with dangerous or explosive cargo on board in excess of the quantity therein allowed, will be notified by the Harbour Master to proceed to an anchorage not less than one mile below the lower limit of the Harbour, and their Entrance, Working, and Clearance will be stopped by the Customs until this notice is complied with. All other vessels not occupying the berth assigned to them, as required by the 2nd, 5th, and 6th Clauses of the above Regulations, are likewise liable to have their Entrance, Working, and Clearance stopped by the Customs until the Harbour Master reports them as berthed in accordance with his directions.

Masters of vessels committing breaches of the other Regulations will be dealt with by the Consulate authorities.

The delivery orders will be stamped and returned to the consignees, who may then land their consignments. If cargo be unshipped without such delivery order duly stamped, it is liable to confiscation, and the master to fine.

VIII.—When the whole of the inward cargo is discharged, the vessel is examined by a Customs' officer. Shippers may then hand in to the Customs their *Application to ship*, which must, as in the case of the Application to Land, give full particulars, and be accompanied by their shipping orders. The shipping orders will be stamped by the Customs and returned to the shippers, who may then ship their goods. XIV.—Consignees or shippers should apply as early as possible for Customs' memo. of the duties payable by them. When they have paid the amount into the Hai-kwan bank or Receiving office, a duty receipt in Chinese will be given them which they must exchange at the Custom-house for a printed receipt in English; the latter must be returned to the Custom-house by the consignee of the vessel when he desires to clear her.

Import duties are due upon the landing of the goods; Export duties on the shipment of the goods. Amendment in respect of weight or values must be made within twenty-four hours after the landing or shipment of the goods.

Tonnage dues are payable when the ship has been forty-eight hours in port, or when any cargo has been shipped or unshipped.

GENERAL ADMINISTRATION OF CUSTOMS.

I.—Masters of national or foreign vessels arriving at these islands from a foreign port will deliver their manifests to the visiting officer of the Customs on ~~his~~ arrival on board, under penalty of a fine of two hundred dollars. For all manifests not certified or attested to by the Spanish Consul of the port of their departure, a fine of one hundred dollars will be imposed; and if the manifests are not extended in conformity with the first Rule of the Royal Order of the 1st July, 1859, a fine of twenty-five dollars will be demanded.

II.—The master or supercargo of every vessel is enjoined to be present at all the visits which may be made on board by the preventive service of the port, on entering or leaving, and on loading or discharging, and he must sign the document or certificate of such visit as well as the commander of the carbineers who makes the visit and his accompanying witness. Should it not be possible for such master or supercargo to go through this formality, it will devolve on the officer next in rank to act in his stead.

III.—Masters of vessels arriving from foreign ports with any cargo on board are allowed 30 hours at Manila, and 48 at Cavite, after the entrance visit, to send in to the collector of Customs a manifest in triplicate, written in Spanish on plain paper and of uniform size, containing the name of the master, that of the ship, the number of Spanish tons burthen, the place whence the ship comes, a description by marks and numbers both in writing and figures of each package of goods on board, the names of the consignees, the weight, measurement, and kind of goods stowed in bulk, their names, with every distinctness, those of the goods to remain in transit on board and those to be discharged; specifying if possible the articles to be left in bond and those for consumption, the provisions, spare stores, armament, and coals, in case the vessel be a steamer, and, finally, a note stating that the vessel does not carry any other goods, and that none of those manifested are prohibited from fear of contagion. After which the master will affix his signature, making himself answerable to the Custom-house for the correctness of the manifest.

IV.—If from stress of weather or other extraordinary cause, the master of a vessel may have been obliged, during the voyage, to throw overboard part of the cargo, a declaration to that effect must be made, and a specification will be required of the marks, numbers, and quantities, as far as possible, of the cargo so jettisoned, and, if the Customs authorities demand it, the Log Book shall be presented to prove the facts.

V.—Every master and supercargo subscribing a manifest is allowed four days after its delivery to augment or otherwise rectify the same, in case there be any omission or other error: this must also be done in triplicate. Should any omission be noticed in the manifest after this period and the one allowed, packages found to be omitted shall be seized, and the subscriber of the manifest fined an amount equal to the value of the goods omitted, provided such value does not exceed four hundred dollars, and in case it does, and should the goods omitted belong or be consigned to the subscriber of the manifest, the fine will then be quadrupled. If on the contrary it should be found at the completion of this discharge that the number of packages noted in the manifest and in the subsequent corrections be in excess of cargo actually on board, the master shall be fined one hundred dollars for each package found short, unless the same should be cargo in bulk, in which case the duties thereon will be quadrupled. Finally, if on visiting the vessel any package be found which is not

declared and included in the manifest, it shall be confiscated, and the captain fined in a sum quadruple that of the duties which the said goods should pay to the Customs.

VI.—The captains of vessels arriving from another Spanish port, and duly provided with a freight list from the Custom-house of that port will deliver this document to the collector here immediately on arrival, and will only manifest such, the above freight list explaining the reasons that have caused its omission, and specifying, moreover, the provisions and stores existing on board, unless the ship should have called in at a foreign port and there received cargo, in which case manifests shall be presented and the same formalities observed as laid down in the preceding rules for all documents in proof from the Spanish Consul at the port touched at.

VII.—Whatever may be the nationality of a vessel, and whencesoever she comes, either laden or in ballast, her captain, crew, and passengers are not allowed on coming ashore to take with them anything without a special permission from the Collector of Customs except a writing case, such wearing apparel as can be carried in an open travelling bag or bundle, which is to be examined by the carbiner on board and by the one at the Captain of the Port's office.

VIII.—The masters of national or foreign vessels who neglect to obey the provision made by Rule II. of these Regulations, shall forfeit fifty dollars, unless they can prove to the satisfaction of the Collector the causes which prevented it, and the master who shall present a manifest with any of the afore-mentioned requisites wanting shall remedy the same as soon as the Collector of Customs orders it, otherwise the person who presents such manifest shall forfeit twenty-five dollars.

IX.—Should the master of a vessel omit to include in the manifest the quantity of gold and silver, in coin or bullion, that may be on board, whatever its origin may be, or to give private information of it and its amount to the Collector of Customs, he will be fined one per cent. on its value, always supposing the owners may not have declared it.

X.—Any produce, goods, articles of use on board, or cargo of any kind whatsoever transferred from one ship to another in the bay, without permission of the Collector of Customs, will be liable to seizure, as well as the lighter, launch, or other boat in which such transfer may be made, and the master of each vessel shall be fined five hundred dollars when the value of the merchandise or articles transferred does not exceed two hundred dollars; exceeding this sum, the fine will be one thousand dollars each, if the vessels are not the property of the masters, but being their property they will be confiscated, and the same course will be pursued when merchandise or goods of any description are discharged without permission, and moreover the captains of vessels from which the merchandise or other effects are discharged shall be liable to the fine and penalties above named.

XI.—The master of every national or foreign ship entering a port open to trade in these Islands, in ballast or with cargo, in distress or in transit, and those who may be obliged to put into a port not open to trade, are bound to produce their manifest or register as provided by the preceding Rule, and to fulfil the same duties as required by the Custom-house of Manila.

XII.—Except in cases in which wrecks or unavoidable damage may occur, any foreign or national ship coming from sea discharging or loading any quantity of goods at a port not open to trade, will incur the confiscation of such goods, and in the contrary case he will incur the penalty provided by Rule X. for case of fraudulent transhipment.

XIII.—Masters of all vessels are obliged to supply the Custom-house officers during their stay on board with suitable lodgings and allow them to have their meals at the second table, in compliance with the decree of the Government of these Islands dated 26th August, 1851.

NOTE.—On the 2nd October, 1878, it was notified that the Director General of Finance had been pleased to approve of vessels consigned to the Philippine Islands for the purpose of loading timber touching at any other fit port of Luzon in preference to Manila should it suit their interest to do so.

- 1.—For the prohibition of the import and export of Opium in quantities less than one chest. †
- 2.—For rendering illegal the possession of Raw Opium, its custody or control in quantities less than one chest except by the Opium Farmer.

- 4.—For the keeping by Importers, Exporters, and Godown Owners in such form as the Governor may require, books shewing the movements of Opium.

- 6.—For amendment of Harbour Regulations, as to the night clearances of junks.

The conditions on which it is agreed to submit the Ordinance, are :—

- 1.—That China arranges with Macao for the adoption of equivalent measures.
- 2.—That the Hongkong Government shall be entitled to repeal the Ordinance if it be found to be injurious to the Revenue or to the legitimate trade of the Colony.
- 3.—That an Office under the Foreign Inspectorate shall be established on Chinese Territory at a convenient spot on the Kowloon side for sale of Chinese Opium Duty Certificates, which shall be freely sold to all comers, and for such quantities of Opium as they may require.
- 4.—That Opium accompanied by such certificates, at the rate of not more than Tls. 110 per picul, shall be free from all further imposts of every sort, and have all the benefits stipulated for by the Additional Article on behalf of Opium on which duty has been paid at one of the ports of China, and that it may be made up in sealed parcels at the option of the purchaser.
- 5.—That junks trading between Chinese ports and Hongkong and their cargoes shall not be subject to any dues or duties in excess of those leviable on junks and their cargoes trading between Chinese ports and Macao, and that no dues whatsoever shall be demanded from junks coming to Hongkong from ports in China, or proceeding from Hongkong to ports in China, over and above the dues paid or payable at the ports of clearance or destination.
- 6.—That the Officer of the Foreign Inspectorate who will be responsible for the management of the Kowloon Office, shall investigate and settle any complaints made by the junks trading with Hongkong against the Native Customs Revenue Stations or Cruisers in the neighbourhood, and that the Governor of Hongkong, if he deems it advisable, shall be entitled to send a Hongkong Officer to be present at, and assist in the investigation and decision.

* See Ordinance 22 of 1887.

† A modification allowing export in smaller quantities than one chest was subsequently agreed to.

If however they do not agree a reference may be made to the Authorities at Peking for a joint decision.

Sir Robert Hart undertakes on behalf of himself and Shao Taotai (who was compelled by unavoidable circumstances to leave before the sittings of the Commission were terminated) that the Chinese Government shall agree to the above conditions.

The undersigned are of opinion that if these arrangements are fully carried out, a fairly satisfactory solution of the questions connected with the so-called "Hong-kong Blockade" will have been arrived at.

ADDITIONAL CONVENTION BETWEEN FRANCE AND CHINA, 1887.

(TRANSLATED FROM THE CHINESE TEXT.)

H.I.M. the Emperor of China and the President of the French Republic, desiring to strengthen the commercial relations between the two countries and also to ratify and give effect to the Treaty signed at Tientsin on the 25th April, 1886, have appointed Plenipotentiaries to take the necessary steps thereto. H.I.M. the Emperor of China has specially appointed H.I.H. Prince Ching and H.E. Sun Yu-wen, member of the Tsung-li Yamen and Vice-president of the Board of Works. The President of the Republic has appointed H.E. Constans, Deputy, ex-Minister of the Interior, and Minister Plenipotentiary in China. Who, having exchanged their full powers and established their authenticity in due form, have agreed on the following Articles:—

Art. I.—Such articles of the Treaty signed at Tientsin as are not affected by this Convention shall on the exchange of the ratifications be put in force at once.

Art. II.—Whereas it was agreed by the Treaty of 1886 that Lungchow in Kwangsi and Mengtseu in Yunnan should be opened to trade, and whereas Manghao, which lies between Paosheng and Mengtseu, is on the direct road between the two places by water, it is agreed that this also shall be opened to trade on the same conditions as the other ports, and that a deputy of the Consul at Mengtseu shall be allowed to reside there.

Art. III.—In order to develop the trade between China and Tonquin as rapidly as possible the tariff rules laid down in Articles 6 and 7 of the Treaty of 1886 are temporarily altered, and it is agreed that foreign goods imported to Yunnan and Kwangsi from Tonquin shall pay 70 per cent. of the import duties collected by the Customs at the Coast Ports in China, and that produce exported from China to Tonquin shall pay 60 per cent. of the export duties in force at the Treaty Ports.

Art. IV.—Chinese produce which has paid import duties under Art. XI. of the Treaty of 1886, and is transported through Tonquin to a port of shipment in Cochinchina, shall if exported thence to any other place than China pay export duties according to the Franco-Annamite tariff.

Art. V.—The trade in Chinese native opium by land is allowed on payment of an export duty of Tls. 20 per picul, but French merchants or persons under French Protection may only purchase it at Lungchow, Mengtseu, and Manghao, but no more than

Tls. 20 per picul shall be exacted from the Chinese merchants as inland dues. When opium is sold the seller shall give the buyer a receipt showing that the inland dues have been paid, which the exporter will hand to the Customs when paying export duty. It is agreed that opium re-imported to China by the Coast Ports cannot claim the privileges accorded other re-imports of goods of native origin.

Art. VI.—French and Tonquinese vessels other than men-of-war and vessels carrying troops and Government stores plying on the Songkat and Caobang Rivers between Langshan and Caobang shall pay a tonnage due of 5 candareens per ton at Lungchow, but all goods on board shall pass free. Goods may be imported to China by the Songkat and Caobang Rivers or overland by the Government road, but until the Chinese Government establishes Custom-houses on the frontier goods taken overland must not be sold at Lungchow until they have paid duty there.

Art. VII.—It is agreed that should China enter into treaties with regard to commercial relations on her southern and south-western frontiers all privileges accorded by her to the most favoured nation are at once without further formality accorded to France.

Art. VIII.—The above Articles having been agreed to and translated into Chinese H.I.H. the Prince on behalf of China and H.E. the Minister on behalf of France have signed duplicate copies and affixed their seals thereto.

Art. IX.—When the ratifications of this Convention and of the Treaty of 1886 shall have been exchanged they shall be put in force as if they were one Treaty.

Art. X.—The ratifications of this Convention shall be exchanged at Peking when the assent of His Imperial Majesty the Emperor of China and His Excellency the President of the French Republic shall have been signified.

Signed at Peking on the 26th June, 1887.

E. CONSTANS.
PRINCE CH'ING.
SUN YU-WEN.

Whereas on the 9th day of June, 1885, His Majesty the Emperor of China and the President of the French Republic despatched Commissioners personally to fix the boundary of China and Tonquin, and these Commissioners having returned on the completion of their labour, and His Majesty the Emperor of China having deputed Ching, Prince of the second order, President of the Tsung-li Yamen, Senior Vice-President of the Board of Works; and the President of the French Republic M. Constans, Member of the Chamber of Deputies, several times Minister for the Interior, Envoy Extraordinary and Minister Plenipotentiary to the Court of Peking, to be plenipotentiaries to effect a permanent settlement of the boundary question, the arrangement arrived at by these plenipotentiaries is as follows:—

I.—The reports of the Delimitation Commissioners of the two countries and the maps of the frontier constructed by them, under their respective hands and seals, having been duly compared, are hereby approved.

II.—Those points regarding which the Delimitation Commissioners are not in accord and those points contained in the final clauses of Article III. of the Treaty of the 9th of June, 1885, which require alteration have been settled in the three following Articles:—

(1.)—It is agreed, in reference to the boundary of the province of Kwangtung, as the Commissioners decided, that those places to the east of Mongkai and in a north-easterly direction which have been under discussion shall fall under the jurisdiction of China; that those islands which lie to the east of the red line laid down by the Delimitation Commissioners [such red line in a southerly direction directly crossing the hill top to the south of * Cha-kuo-hsieh and representing boundary line] shall fall to China; and that the island of Chiu-tou-shan, called in Annamese Gotto, and the other smaller islands shall fall to Annam. Should Chinese criminals escape to Gotto or other islands, the French Authorities shall, in accordance with Article XVII. of the Treaty of the 25th April, 1886, search for, arrest, and deliver them up.

* Cha-kuo-hsieh is called in Chinese Wan-chu and lies to the south of Mong-kai, and to the south-west of Chiu-shan.

(2.)—With reference to chart No. 2, dealing with the frontier of Yünnan and Annam, from Kou-tou-chai on the left bank of the Hsiao-tu-chou River, and marked on the map with the character 甲, from west to east for a distance of over 50 li, and Chü-cha-hsieh also called Chü-chiong-hsieh, Chü-mei-hsieh, and Chiang-fei-hsieh also called Cha-fei-hsieh shall belong to China. Yiu-péng-hsieh, to the south, shall belong to Annam. From the character 乙 to the character 丙, from west to east, the frontier of China and Annam crosses two rivers which unite and enter the Ta-tu-chou River, also called the Hei Ho, from 丙 south-east for a distance of about 15 li to Nan-tau to the north of the character 丁, all these fall to China. Nan-teng-ho, Chin-mei, Mêng-tung-shang-tsun, Mêng-tung-hsia-tsun, which lie to the south of the frontier line as laid down in the chart between the character 丁 north-east to Mêng-tung-hsia-tsun, marked with the character 戊, fall to Annam. All to the south of these fall to China. From Mêng-tung-hsia-tsun marked 戊 across the Ching-shiu Ho at its junction with the Ta Ho marked 己, the centre of the river shall form the boundary. From 己 to 庚 the centre of the Ta Ho shall form the boundary, Ch'uan-lou, which lies to the west of the river, falls to China, while Pien Ma Chai to the east of the river falls to Annam. From 庚 northwards to 辛, passing Lao-yi-kau to Pai-shi-ai, shall be equally divided between China and Annam. To the east of Pai-shih-ai and Lao-yi-kau will fall to Annam, to the west to China, that is, from character 辛 northwards by way of Pien-pao-chia to the centre of Pei-pao and the east bank of the small river which enters the Ta Ho straight to Kao-ma-pai marked on the map with the character 壬, and to the end of the Delimitation Commissioners' chart No. 2.

(3.)—On chart No. 5 of Yunnan and Annam the boundary, starting from Lung-po-chai, crosses the Lung-po river to the point where the Ching Shin River enters the Lung-po River and marked on the map with the character 甲, and from N.E. to S.E. as far as the junction of the Mien chui-wan with the Shai-ching River, and marked on the map with the character 乙. By this boundary the Ching-shu and the Mien-shui-wan Rivers fall to China. From the character 乙 the boundary runs straight West to the T'êng-tiao River to the South of Ta-shu-chiao. To the South of the boundary line on this chart falls to Annam, to the North to China. From the character 丙 to the junction of the Chin-tzü river with the T'êng-tiao River, the centre of the river constitutes the boundary. From 丁 it crosses the Chin-tzu River for a distance of over thirty li and westward to the character 戊 on the map. This boundary stretches eastward of Meng-pang-tu to the small river which flows into the Hei-chiang to the character 己 on the map. The centre of the river between the characters 戊 and 己 forms the boundary. Westward of 己 the centre of the Hei-chiang constitutes the boundary. This is in accordance with the maps constructed by the Delimitation Commissioners as well as by the boundary line marked as above.

The Chinese local authorities and the officers deputed by the Resident of the French Republic in Annam shall jointly erect boundary stones. The boundary maps now signed are made out in duplicate each consisting of three sheets and have been duly drawn up, signed, and sealed by the Plenipotentiaries of the two countries. The Red lines denotes the new boundary. The maps of the Yunnan boundary are, for convenience of reference, marked with the French letters a,b,c, &c., and the Chinese characters 甲, &c.

THE TREATY.

(Ratification Exchanged at Peking, 28th April, 1888.)

His Most Faithful Majesty the King of Portugal and the Algarves, and His Imperial Majesty the Emperor of China, desiring to draw closer and to consolidate the ties of friendship which have subsisted for more than three hundred years between Portugal and China, and having agreed in Lisbon on the 26th day of March, 1887, 2nd day of 3rd moon of the 13th year of the reign of the Emperor Kwang-sü, through their representatives, on a Protocol of four Articles, have now resolved to conclude a Treaty of Amity and Commerce to regulate the relations between the two States; for this end they have appointed as their Plenipotentiaries, that is to say:—

His Most Faithful Majesty the King of Portugal and the Algarves, Thomas de Souza Roza, His Envoy Extraordinary and Minister Plenipotentiary in special mission to the Court of Peking, Knight of the Order of Nossa Senhora de Conceição de Villa Viçosa, Grand Cross of the Order of the Rising Sun of Japan and of the Crown of Siam, Commander of the Order of Charles III. and of Isabella the Catholic of Spain, and Knight of the Iron Crown of Austria:

His Imperial Majesty the Emperor of China, His Highness Prince Ch'ing, President of the Tsung-li Yamên and Sun, Minister of the Tsung-li Yamên and Senior Vice-President of the Board of Public Works;

Who, after having communicated to each other their respective full powers and found them to be in good and due form, have agreed upon the following Articles:—

Art. I.—There shall continue to exist constant peace and amity between His Most Faithful Majesty the King of Portugal and the Algarves and His Imperial Majesty the Emperor of China, whose respective subjects shall equally enjoy in the dominions

of the High Contracting Parties, the most complete and decided protection for their persons and property.

Art. II.—China confirms in its entirety the second article of the protocol of Lisbon, relating to the perpetual occupation and government of Macao by Portugal.

It is stipulated that Commissioners appointed by both Governments shall proceed to the delimitation of the boundaries, which shall be determined by a special convention; but so long as the delimitation of the boundaries is not concluded, everything in respect to them shall continue as at present, without addition, diminution, or alteration by either of the parties.

Art. III.—Portugal confirms, in its entirety, the third article of the protocol of Lisbon, relating to the engagement never to alienate Macao without previous agreement with China.

Art. IV.—Portugal agrees to co-operate with China in the collection of duties on opium exported from Macao into Chinese ports, in the same way, and as long as England co-operates with China in the collection of duties on opium exported from Hongkong into Chinese ports.

The basis of this co-operation will be established by a convention appended to this treaty, which shall be as valid and binding to both the High Contracting Parties as the present treaty.

Art. V.—His Most Faithful Majesty the King of Portugal and the Algarves may appoint an Ambassador, Minister, or other diplomatic agent to the Court of His Imperial Majesty the Emperor of China, and this agent as well as the persons of his suite and their families, will be permitted, at the option of the Portuguese Government, to reside permanently in Peking, to visit that Court, or to reside at any other place where such residence is equally accorded to the diplomatic representatives of other nations. The Chinese Government may also, if it thinks fit, appoint an Ambassador, Minister, or other diplomatic agent to reside at Lisbon, or to visit that Court when his Government shall order.

Art. VI.—The diplomatic agents of Portugal and China shall reciprocally enjoy in the place of their residence all the prerogatives and immunities accorded by the law of nations; their persons, families, and houses, as well as their correspondence shall be inviolate.

Art. VII.—The official correspondence, addressed by Portuguese authorities to the Chinese authorities shall be written in the Portuguese language accompanied by a translation in Chinese, and each nation shall regard as authoritative the document written in its own language.

Art. VIII.—The form of correspondence between the Portuguese and the Chinese authorities will be regulated by their respective rank and position, based upon complete reciprocity. Between the high Portuguese and Chinese functionaries at the capital or elsewhere, such correspondence will take the form of dispatch [Chau-hoei]; between the subordinate functionaries of Portugal and the chief authorities of the provinces, the former shall make use of the form of exposition (Xen-chen) and the latter that of declaration (Cha-hsing); and the subordinate officers of both nations shall correspond together on terms of perfect equality. Merchants and generally all others who are not invested with an official character, shall adopt, in addressing the authorities, the form of representation or petition (Pin-ching.)

Art. IX.—His Most Faithful Majesty the King of Portugal and the Algarves may appoint Consuls-general, Consuls, Vice-consuls, or Consular agents in the ports or other places where it is allowed to other nations to have them. These functionaries will have powers and attributions similar to those of the Consuls of other nations, and will enjoy all the exemptions, privileges, and immunities, which at any time the consular functionaries of the most favoured nation may enjoy.

The Consuls and the local authorities will show to each other reciprocal civilities and correspond with each other on terms of perfect equality.

The Consuls and acting Consuls will rank with Tau-tais, Vice-Consuls, acting Vice-Consuls, Consular agents and interpreters-translators, with Prefects. The Consuls must be officials of the Portuguese Government and not merchants. The

Chinese Government will make no objection in case the Portuguese Government should deem it unnecessary to appoint an official Consul at any port and choose to entrust a Consul of some other nation, for the time being, with the duties of Portuguese Consul at that port.

Art. X.—All the immunities and privileges, as well as all the advantages concerning commerce and navigation, such as any reduction in the duties of navigation, importation, exportation, transit, or any other, which may have been or may be hereafter granted by China to any other State or to its subjects, will be immediately extended to Portugal and its subjects. If any concession is granted by the Chinese Government to any foreign Government under special conditions, Portugal, on claiming the same concession for herself and for her own subjects, will equally assent to the conditions attached to it.

Art. XI.—Portuguese subjects are allowed to reside at, or frequent, the ports of China, opened to foreign commerce, and there carry on trade or employ themselves freely. Their boats may navigate without hindrance between the ports open to foreign commerce, and they may import and export their merchandise, enjoying all the rights and privileges enjoyed by the subjects of the most favoured nation.

Art. XII.—Portuguese subjects shall pay import and export duties on all merchandise according to the rates specified in the tariff of 1858, adopted for all the other nations; and in no instance shall higher duties be exacted from them than those paid by the subjects of any other foreign nation.

Art. XIII.—Portuguese subjects are permitted to hire any description of boats they may require for the conveyance of cargo or passengers, and the price of said hire will be fixed by the contracting parties alone, without interference of the Chinese Government. No limit shall be put to the number of boats, neither will it be permitted to any one to establish a monopoly of such boats or of the service of coolies employed in the carriage of merchandise.

Should contraband articles be on board any such boats, the guilty parties shall immediately be punished according to law.

Art. XIV.—Portuguese subjects residing in the open ports may take into their service Chinese subjects, and employ them in any lawful capacity in China, without restraint or hindrance from the Chinese Government; but shall not engage them for foreign countries in contravention of the laws of China.

Art. XV.—The Chinese authorities are bound to grant the fullest protection to the persons and to the property of Portuguese subjects in China, whenever they may be exposed to insult or wrong. In case of robbery or incendiarism, the local authorities will immediately take the necessary measures to recover the stolen property, to terminate the disorder, to seize the guilty, and punish them according to the law. Similar protection will be given by Portuguese authorities to Chinese subjects in the possessions of Portugal.

Art. XVI.—Whenever a Portuguese subject intends to build or open houses, shops or warehouses, churches, hospitals, or cemeteries, at the Treaty ports, or at other places, the purchase, rent, or lease of these properties shall be made out according to the current terms of the place, with equity, without exaction on either side, without offending against the usages of the people, and after due notice given by the proprietors to the local authority. It is understood, however, that the shops or warehouses above mentioned shall only be allowed at the ports open to trade, and not in any place in the interior.

Art. XVII.—Portuguese subjects conveying merchandise between open ports shall be required to take certificates from the Superintendent of the Custom-house, such as are specified in the regulations in force with reference to other nationalities.

But Portuguese subjects, who, without carrying merchandise, should like to go to the interior of China, must have passports issued by their Consuls and countersigned by the local authorities. The bearer of the passport must produce the same when demanded, and the passport not being irregular, he will be allowed to proceed and no opposition shall be offered, especially to his hiring persons or vessels for the carriage of his baggage or merchandise.

If he be without a passport, or if he commits any offence against the law, he shall be handed over to the nearest Consul of Portugal to be punished, but he must not be subjected to any oppressive measure. No passport need be applied for by persons going on excursions from the ports open to trade to a distance not exceeding 100 *li* and for a period not exceeding five days.

The provisions of this article do not apply to crews of ships, for the due restraint of whom regulations will be drawn up by the Consul and the local authorities.

Art. XVIII.—In the event of a Portuguese merchant vessel being plundered by pirates or thieves within Chinese waters, the Chinese authorities are to employ their utmost exertions to seize and punish the said robbers and to recover the stolen goods, which, through the Consul, shall be restored to whom they belong.

Art. XIX.—If a Portuguese vessel be shipwrecked on the coast of China, or be compelled to take refuge in any of the ports of the Empire, the Chinese authorities, on receiving notice of the fact, shall provide the necessary protection, affording prompt assistance and kind treatment to the crews and, if necessary, furnishing them the means to reach the nearest Consulate.

Art. XX.—Portuguese merchant vessels of more than one hundred and fifty tons burden will pay tonnage dues at the rate of four mace per ton; if of one hundred and fifty tons and under they shall be charged at the rate of one mace per ton. The Superintendent of Customs shall grant a certificate declaring that the tonnage dues have been paid.

Art. XXI.—Import duties shall be paid on the landing of goods; and export duties upon the shipment of the same.

Art. XXII.—The Captain of a Portuguese ship may, when he deems convenient, land only a part of his cargo at one of the open ports, paying the duties due on the portion landed, the duties on the remainder not being payable until they are landed at some other port.

Art. XXIII.—The master of a Portuguese ship has the option, within forty-eight hours of his arrival at any of the open ports of China, but not later, to decide whether he will leave port without opening the hatches, and in such case he will not have to pay tonnage dues. He is bound, however, to give notice of his arrival for the legal registering as soon as he comes into port, under penalty of being fined in case of non-compliance within the term of two days.

The ship will be subject to tonnage dues forty-eight hours after her arrival in port, but neither then nor at her departure shall any other impost whatsoever be exacted.

Art. XXIV.—All small vessels employed by Portuguese subjects in carrying passengers, baggage, letters, provisions or any other cargo which is free of duty, between the open ports of China, shall be free from tonnage dues; but all such vessels carrying merchandise subject to duty shall pay tonnage dues every four months at the rate of one mace per ton.

Art. XXV.—Portuguese merchant vessels approaching any of the open ports will be at liberty to take a pilot to reach the harbour; and likewise to take a pilot to leave it, in case the said ship shall have paid all the duties due by her.

Art. XXVI.—Whenever a Portuguese merchant ship shall arrive at any of the open ports of China, the Superintendent of Customs will send off one or more Custom-house officers, who may stay on board of their boat or on board of the ship, as best suits their convenience. These officers will get their food and all necessaries from the Custom-house, and will not be allowed to accept any fee from the captain of the ship or from the consignee, being liable to a penalty proportionate to the amount received by them.

Art. XXVII.—Twenty-four hours after the arrival of a Portuguese merchant ship at any of the open ports, the papers of the ship, manifest, and other documents, shall be handed over to the Consul, whose duty it will be also to report to the Superintendent of Customs within twenty-four hours, the name, the registered tonnage, and the cargo brought by the said vessel. If, through negligence or for

any other motive, this stipulation be not complied with within forty-eight hours after the arrival of the ship, the captain shall be subject to a fine of fifty taels for each day's delay over and above that period, but the total amount of the fines shall not exceed two hundred taels.

The captain of the ship is responsible for the correctness of the manifest, in which the cargo shall be minutely and truthfully described, subject to a fine of five hundred taels as penalty in case the manifest should be found incorrect. This fine, however, will not be incurred if, within twenty-four hours after the delivery of the manifest to the Custom-house officers, the captain expressed the wish to rectify any error which may have been discovered in the said manifest.

Art. XXVIII.—The Superintendent of Customs will permit the discharging of the ship as soon as he shall have received from the Consul the report drawn in due form. If the captain of the ship should take upon himself to commence discharging without permission, he shall be fined five hundred taels, and the goods so discharged shall be confiscated.

Art. XXIX.—Portuguese merchants having goods to ship or to land, will have to obtain a special permission from the Superintendent of Customs to that effect, without which all goods shipped or landed shall be liable to confiscation.

Art. XXX.—No transhipment of goods is allowed from ship to ship without special permission, under penalty of confiscation of all the goods so transhipped.

Art. XXXI.—When a ship shall have paid all her duties, the Superintendent of Customs will grant her a certificate and the Consul will return the papers, in order that she may proceed on her voyage.

Art. XXXII.—When any doubt may arise as to the value of goods which by the tariff are liable to an *ad-valorem* duty, and the Portuguese merchant disagrees with the Custom-house officers as regards the value of said goods, both parties will call two or three merchants to examine them, and the highest offer made by any of the said merchants to buy the goods will be considered as their just value.

Art. XXXIII.—Duties will be paid on the net weight of every kind of merchandise. Should there be any difference of opinion between the Portuguese merchant and the Custom-house officer as to the mode by which the tare is to be fixed, each party will choose a certain number of boxes or bales from among every hundred packages of the goods in question, taking the gross weight of said packages then the tare of each of the packages separately, and the average tare resulting therefrom will be adopted for the whole parcel.

In case of any doubt or dispute not mentioned herein, the Portuguese merchant may appeal to the Consul, who will refer the case to the Superintendent of Customs; this officer will act in such a manner as to settle the question amicably. The appeal, however, will only be entertained if made within the term of twenty-four hours; and in such a case, no entry is to be made in the Custom-house books in relation to the said goods until the question shall have been settled.

Art. XXXIV.—Damaged goods will pay a reduced duty proportionate to their deterioration; any doubt on this point will be solved in the way indicated in the clause of this Treaty with respect to duties payable on merchandise *ad-valorem*.

Art. XXXV.—Any Portuguese merchant, who having imported foreign goods into one of the open ports of China and paid the proper duties thereon, may wish to re-export them to another of the said ports, will have to send to the Superintendent of Customs an account of them, who, to avoid fraud, will direct his officers to examine whether or not the duties have been paid, whether the same have been entered on the books of the Customs, whether they retain their original marks, and whether the entries agree with the account sent in. Should everything be found correct, the same will be stated in the export permit together with the total amount of duties paid, and all these particulars will be communicated to the Custom-house officers at other ports.

Upon arrival of the ship at the port to which the goods are carried, permission will be granted to land without any new payment of duties whatsoever, if upon examination, they are found to be the identical goods; but if during the ex-

amination any fraud be detected, the goods may be confiscated by the Chinese Government.

Should any Portuguese merchant wish to re-export to a foreign country, any goods imported, and upon which duties have been already paid, he will have to make his application in the same form as required for the re-exportation of goods to another port in China, in which case a certificate of drawback or of restitution of duties will be granted, which will be accepted by any of the Chinese Custom-houses in payment of import or export duties.

Foreign cereals imported by Portuguese ships into the ports of China may be re-exported without hindrance, if no portion of them has been discharged.

Art. XXXVI.—The Chinese authorities will adopt at the ports the measure which they may deem the most convenient to avoid fraud or smuggling.

Art. XXXVII.—The proceeds of fines and confiscations inflicted on Portuguese subjects, in conformity to this Treaty shall belong exclusively to the Chinese Government.

Art. XXXVIII.—Portuguese subjects carrying goods to a market in the interior of the country, on which the lawful import duties have already been paid at any of the open ports, or those who buy native produce in the interior to bring to the ports on the Yang-tze-kiang, or to send to foreign ports, shall follow the regulations adopted towards the other nations.

Custom-house officers who do not comply with the regulations, or who may exact more duties than are due, shall be punished according to the Chinese law.

Art. XXXIX.—The Consuls and local authorities shall consult together, when necessary, as to the construction of Light-houses and the placing of Buoys and Light-ships.

Art. XL.—Duties shall be paid to the bankers authorized by the Chinese Government to receive them in *sycee* or in foreign coin, according to the official assay made at Canton on the 15th July, 1843.

Art. XLI.—In order to secure the regularity of weights and measures and to avoid confusion, the Superintendent of Customs will hand over to the Portuguese Consul at each of the open ports standards similar to those given by the Treasury Department for collection of public dues at the Customs at Canton.

Art. XLII.—Portuguese merchant ships may resort only to those ports of China which are declared open to commerce. It is forbidden to them, except in the case of *force majeure* provided for in the article XIX., to enter into other ports, or to carry on a clandestine trade on the coast of China, and the transgressor of this order shall be subject to confiscation of his ship and cargo by the Chinese Government.

Art. XLIII.—All Portuguese vessels despatched from one of the open ports of China to another, or to Macao, are entitled to a certificate of the Custom-house, which will exempt them from paying new tonnage dues, during the period of four months reckoned from the date of clearance.

Art. XLIV.—If any Portuguese merchant ship is found smuggling, the goods smuggled, no matter of what nature or value, will be subject to confiscation by the Chinese authorities, who may send the ship away from the port, after settlement of all her accounts, and prohibit her to continue to trade.

Art. XLV.—As regards the delivery of Portuguese and Chinese criminals, with the exception of the Chinese criminals who take refuge in Macao, and for whose extradition the Governor of Macao will continue to follow the existing practice, after the receipt of a due requisition from the Viceroy of the Kwangs, it is agreed that, in the Chinese ports open to foreign trade, the Chinese criminals who take refuge at the houses or on board ships of Portuguese subjects, shall be arrested and delivered to the Chinese authorities on their applying to the Portuguese Consul; and likewise the Portuguese criminals, who take refuge in China, shall be arrested and delivered to the Portuguese authorities on their applying to the Chinese authorities; and by neither of the parties shall the criminals be harboured nor shall there be delay in delivering them.

Art. XLVI.—It is agreed that either of the High Contracting Parties to this Treaty may demand a revision of the Tariff, and of the commercial articles of this

Treaty, at the end of ten years; but if no demand be made on either side within six months after the end of the first ten years, then the tariff shall remain in force for ten years more, reckoned from the end of the preceding ten years; and so it shall be, at the end of each successive ten years.

Art. XLVII.—All disputes arising between Portuguese subjects in China, with regard to rights, either of property or person, shall be submitted to the jurisdiction of the Portuguese authorities.

Art. XLVIII.—Whenever Chinese subjects become guilty of any criminal act towards Portuguese subjects, the Portuguese authorities must report such acts to the Chinese authorities in order that the guilty be tried according to the laws of China.

If Portuguese subjects become guilty of any criminal act towards Chinese subjects, the Chinese authorities must report such acts to the Portuguese Consul in order that the guilty be tried according to the laws of Portugal.

Art. XLIX.—If any Chinese subject shall have become indebted to a Portuguese subject and withholds payment, or fraudulently absconds from his creditor, the Chinese authorities shall use all their efforts to apprehend him and to compel him to pay, the debt being previously proved and the possibility of its payment ascertained. The Portuguese authorities will likewise use their efforts to enforce the payment of any debt due by any Portuguese subject to a Chinese subject.

But in no case will the Portuguese Government or the Chinese Government be considered responsible for the debts of their subjects.

Art. L.—Whenever any Portuguese subject shall have to petition the Chinese authority of a district, he is to submit his statement beforehand to the Consul, who will cause the same to be forwarded should he see no impropriety in so doing, otherwise he will have it written out in other terms, or decline to forward it. Likewise, when a Chinese subject shall have occasion to petition the Portuguese Consul he will only be allowed to do so through the Chinese authority, who shall proceed in the same manner.

Art. LI.—Portuguese subjects who may have any complaint or claim against any Chinese subject, shall lay the same before the Consul, who will take due cognizance of the case and will use all his efforts to settle it amicably. Likewise, when a Chinese subject shall have occasion to complain of a Portuguese subject, the Consul will listen his complaint and will do what he possibly can to re-establish harmony between the two parties.

If, however, the dispute be of such a nature that it cannot be settled in that conciliatory way, the Portuguese Consul and Chinese authorities will hold a joint investigation of the case, and decide it with equity, applying each the laws of his own country according to the nationality of the defendant.

Art. LII.—The Catholic religion has for its essential object the leading of men to virtue. Persons teaching it and professing it shall alike be entitled to efficacious protection from the Chinese authorities; nor shall such persons pursuing peaceably their calling and not offending against the laws be persecuted or interfered with.

Art. LIII.—In order to prevent for the future any discussion, and considering that the English language, among all foreign languages, is the most generally known in China, this Treaty, with the Convention appended to it, is written in Portuguese, Chinese, and English, and signed in six copies, two in each language. All these versions have the same sense and meaning, but if there should happen to be any divergence in the interpretation of the Portuguese and Chinese versions, the English text will be made use of to resolve the doubts that may have arisen.

Art. LIV.—The present Treaty, with the Convention appended to it, shall be ratified by His Most Faithful Majesty the King of Portugal and the Algarves and His Imperial Majesty the Emperor of China. The exchange of the ratifications shall be made, within the shortest possible time, at Tientsin, after which the Treaty, with the Convention appended, shall be printed and published in order that the functionaries and subjects of the two countries may have full knowledge of their stipulations and may fulfil them.

In faith whereof, the respective Plenipotentiaries have signed the present Treaty and have affixed their seals thereto.

Done in Peking, this first day of the month of December in the year of Our Lord Jesus Christ one thousand eight hundred and eighty-seven, corresponding with the Chinese date the 17th day of 10th moon of 13th year of Kwang-Sü.

AGREEMENT.

The basis of the co-operation to be given to China by Portugal in the collection of duties on opium conveyed from Macao to Chinese ports, having been fixed by a Convention appended to the Treaty of Amity and Commerce, concluded between China and Portugal on the 1st December, 1887, and it being now convenient to come to an understanding upon some points relating to the said co-operation as well as to fix rules for the treatment of Chinese junks, trading with Macao, Bernardo Pinheiro Correa de Mello, Secretary of the Special Mission of His Most Faithful Majesty in Peking, duly authorized by His Excellency Thomas de Souza Roza, Chief of the said Mission, and Sir Robert Hart, K.C.M.G., Inspector-General of the Chinese Imperial Maritime Customs, provided with the necessary instructions from the Chinese Government, have agreed on the following:—

1.—An office under a Commissioner, appointed by the Foreign Inspectorate of the Chinese Imperial Maritime Customs, shall be established at a convenient spot on Chinese territory, for the sale of opium duty certificates, to be freely sold to merchants, and for such quantities of opium as they may require. The said Commissioner will also administer the Customs' stations near Macao.

2.—Opium accompanied by such certificates, at the rate of not more than 110 Taels per picul, shall be free from all other imposts of every sort, and have all the benefits stipulated for by the additional article of the Chefoo Convention between China and Great Britain on behalf of opium on which duty has been paid at one of the ports of China, and may be made up in sealed parcels at the option of the purchaser.

3.—The Commissioner of Custom responsible for the management of the Customs' stations shall investigate and settle any complaint made by Chinese merchants of Macao against the Customs' stations or revenue cruisers.

The Governor of Macao, if he deems it advisable, shall be entitled to send an officer of Macao to be present and assist in the investigation and decision. If, however, they do not agree a reference may be made to the Authorities at Peking for a joint decision.

4.—Junks trading between Chinese ports and Macao, and their cargoes, shall not be subject to any dues or duties in excess of those leviable on junks and their cargoes trading between Chinese ports and Hongkong and no dues whatsoever shall be demanded from junks proceeding to Macao from ports in China, or coming from Macao to ports in China, over and above the dues paid, or payable, at the ports of clearance or destination. Chinese produce which has paid Customs' duties and Likin tax before entering Macao may be re-exported from Macao to Chinese ports without paying Customs' duties and Likin tax again, and will be only subject to the payment of the tax named *Siao-hao*.

In witness whereof, this agreement has been written in Portuguese and English and signed in duplicate at Peking this the first day of December, 1887.

1.—After arrival and Consular report, the import manifests of German vessels are to be lodged with the Customs.

2.—When the Consul's report has been received, the manifest handed in, and permits to land applied for and issued, the vessel will be allowed to discharge.

3.—When import cargo has been discharged, export cargo shipped, and dues and duties paid, the Customs clearance will be issued. The Customs will enter on the clearance the amount of import duties paid on foreign goods and the number of packages of foreign goods bonded upon which duty has not been paid.

4.—The rules regarding export duties, coast trade duties, and tonnage dues remain as before.

2nd.—Rules for the Guidance of Importers.

B.

5.—A distinction is made between a vessel's import foreign cargo and her native cargo. While foreign goods may be bonded or not, at the importer's option, native goods will be treated as before—i.e., released upon payment of duty—and will not be allowed to be placed in bond.

6.—Foreign goods may, at the importer's option, be either treated as before—i.e., pay duty and be released—or may be bonded. The importer must state on his import application—in addition to the description, number of packages, weight, and value of the goods—on which goods he wishes to pay duty and on which he wishes to defer payment, in order that the Customs may know whether to issue a duty memo. or a bonding permit.

Local Rule I.—An application for general discharge permit will be held to be an application for importation on payment of duty.

7.—The importer must in all cases obtain a bonding permit before landing his cargo and placing it in bond.

Local Rule I.—Goods for which a bonding permit is issued must be taken direct to the bonded warehouse.

8.—If the importer wishes to take samples of goods placed in bond he must first obtain a sample permit from the Customs before opening the packages. The bonded warehouse-keeper will, upon production of this sample permit, allow the packages to be opened and samples taken, and the original packages will then be closed in whatever way the importer and warehouse-keeper may agree upon.

9.—When the importer wishes his goods, or any portion of them, to be released from bond, he must supply the Customs with a description of the goods, number of packages, weight, value, date of bonding, name of importing vessel, destination, name of exporting vessel, etc., when applying for duty memo., release permit, or shipping permit. Goods for sale in Shanghai, or for re-export to a Yangtze port, must pay import duty before being released from bond. If intended for re-exportation to other

treaty ports or to a foreign port they will not be required to pay duty before quitting bond.

LOCAL RULE I.—Goods for which a permit to ship in bond (non-duty paid) or a permit to withdraw from bond for shipment is issued must, in case of failure of shipment, be taken direct to the Customs jetty for examination; application to withdraw from bond for import must then be made for such shut-out cargo.

10.—Goods removed from the bonded warehouse without a permit will be confiscated, and the proprietors of the bonded warehouse will be responsible for the amount of the duty leviable.

11.—Twelve months is proposed as the limit during which goods may remain in bond. If not applied for by the importer at the expiration of that period, the proprietors of the bonded warehouse must pay the import duty and remove the goods elsewhere.

12.—The insurance of bonded goods, warehouse charges, and indemnity for fire or loss, are matters to be arranged between the proprietors of the bonded warehouse and the importers, and do not concern the Customs.

3rd. Regulations to be given effect to by the Customs.

C.

13.—Seeing that German vessels will arrive with cargo which is, and with cargo which is not, to be bonded, the Customs must receive the Consular report and import manifest before issuing permits to discharge, etc.

14.—On application from the importer to bond foreign goods, the Customs will issue the bonding permit with the permit to land.

15.—On application from the importer, the Customs will issue a sample permit to open packages in bond for the purpose of taking samples.

16.—When the importer desires to dispose of bonded goods in Shanghai, or re-export them to a Yangtze port, the Customs will, upon application, issue a duty memo, and upon production of the duty receipt will grant a release permit, and, if required, a Yangtze export permit.

17.—Upon application from the importer to re-export bonded goods to a treaty port, other than a Yangtze port, or to a foreign port, the Customs will issue a release permit and an export permit.

18.—The Customs will enter on the clearance of each German vessel the amount of import duty paid, and the number of packages placed in bond on which payment of duty is deferred.

19.—The form of bond to be entered into by the proprietors of the bonded warehouse, the books to be kept there, the arrangements for either permanently stationing Customs officers at the warehouse or for periodical inspection, as well as the rules for the delay routine of work at the warehouse, will be decided by the Shanghai Customs as circumstances require.

20.—In the quarterly returns of revenue the duty paid on goods released from bond is to be entered in the return for the current quarter; and in the annual trade returns such goods are to be entered under their proper flag. Goods remaining in bond are to be treated, as regards these returns, as not yet imported.

4th.—Rules to be observed by the Proprietors of Bonded Warehouses.

D.

21.—The proprietors of warehouses appointed by the Shanghai Customs to store goods in bond must enter into bonds in which they bind themselves to observe all the regulations of the Shanghai Customs, and engage that no goods shall enter the warehouse without a permit, and that, once in the warehouse, goods shall not be opened or released without the proper permit; and in the event of goods being so opened or released without permit, the said proprietors bind themselves to pay a fine of so many times the duty leviable on the goods concerned.

LOCAL RULE I.—Bonded warehouses shall be exclusively reserved for the storage of bonded goods.

LOCAL RULE II.—Warehouses now authorised by the Shanghai Customs to store goods in bond are as follows, viz.:—Warehouse No. 14, at the China Merchants' Steam Navigation Company's Lower Hongkew Wharf, for the storage of bonded cargo ~~ex~~ vessels moored at that wharf, and where arrangements will be made for the reception, landing, and storage of bonded goods, water-borne, from vessels not moored at that wharf.

The bonding of other warehouses will be made known to the public by a notification displayed at the Custom House.

LOCAL RULE III.—Each door of every bonded warehouse shall be marked in conspicuous letters with the word "bonded;" and each door will be provided by the Customs, but at the expense of the proprietor, with a second lock, the key of which shall remain in the hands of the Customs officers.

22.—The proprietors of bonded warehouses must keep books, the form of which will be determined by the Customs, in which must be recorded particulars of goods which enter and leave the warehouse, as well as full particulars of the opening of packages for the purpose of taking samples.

23.—Customs officers, whether permanently stationed at the warehouse or coming for inspection, shall at all times have access to, and be at liberty to examine, both books and cargo without hindrance on the part of the proprietors of the bonded warehouse.

24.—Goods for which the importer has obtained a bonding permit will be checked on arrival at the bonded warehouse by the warehouse-keeper in the presence of the Customs officer before being stored. At the same time an entry will be made in the warehouse book, and the bonding permit will then be receipted and handed to the Customs officer to be filed.

25.—On the presentation by the importer of a sample permit to take samples, the bonded warehouse-keeper must inform the Customs officer, in order that both may be present when the packages are opened and the samples extracted. On the packages being re-closed, the warehouse-keeper must make a full entry in the book kept for the purpose, and then hand the sample permit to the Customs officer to be filed.

26.—When the importer brings to the bonded warehouse a release permit for goods to be disposed of in Shanghai or re-exported to a Yangtze port, it will be the duty of the warehouse-keeper to inform the Customs officers in order that both may personally see to the release of the goods. The warehouse-keeper must at the same time enter the particulars in the prescribed duty-paid book, and then hand the release permit to the Customs officer to be filed.

27.—When the importer brings to the bonded warehouse a release permit for goods to be re-exported to a treaty port other than a Yangtze port, or to a foreign port, it will be the duty of the warehouse-keeper to inform the Customs officer, in order that both may personally see to the release of the goods. The warehouse-keeper must at the same time enter the particulars in the prescribed re-export book, and then hand the release permit to the Customs officer to be filed.

28.—Twelve months is proposed as the limit during which goods may remain in bond. At the expiration of that period, if the importer has not applied for his goods, the proprietors of the bonded warehouse must pay the import duty and remove them elsewhere.

29.—The storage and custody of goods in the bonded warehouse, charges, insurance, etc., are declared to be private matters to be arranged by the proprietors of the bonded warehouse, and do not concern the Customs. The Customs, however, are to be kept informed of the warehouse rules.

The above regulations are provisional and subject to alteration, addition, or cancellation, as the Shanghai Customs may from time to time decide to be necessary. The four main divisions, however, are to be maintained.

SCHWEITZER'S
COCOATINA,
 ANTI-DYSPEPTIC COCOA OR CHOCOLATE POWDER.

Guaranteed
 Pure Soluble Cocoa,
 without Admixture.

Strongly Recommended
 by the Faculty
 for Family use.

REGISTERED.

**COCOATINA IS THE HIGHEST CLASS OF SOLUBLE COCOA
 OR CHOCOLATE IN A CONCENTRATED FORM.**
THE FACULTY pronounce it "the most nutritious,
 perfectly digestible Beverage for **BREAKFAST,**
LUNCHEON, or **SUPPER,** and invaluable
 for invalids and young Children."

It consists solely of the finest Cocoa Beans, without sugar or spice; the *excess* of fat
 being extracted **mechanically**, which not only renders it more delicate and digestible,
 but increases the proportion of flesh-forming and nourishing properties.

**Made instantaneously with Boiling Water, palatable
 without Milk.**

COCOATINA WILL BEAR THE STRICTEST CHEMICAL TEST.

It is prescribed with great success for delicate Females and Children, when all other
 food is rejected; and is celebrated for its restorative qualities in cases of Debility
 and imperfect Digestion.

Highly commended by the entire Medical Press.

Being absolutely free from sugar (the *excess* of fat), or any admixture, it keeps for
 years in all climates, and is four times the strength of Cocos *thickened yet weakened*
 with arrowroot, starch, &c., and in reality *cheaper than such mixtures*; one tea-spoonful
 being sufficient for a cup of Cocoa (*the cost of which is less than a Halfpenny*), and two
 or more for a cup of Chocolate.

DIRECTIONS FOR USE ON THE LABEL OF EVERY PACKET.

Retailed in $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., and 1 lb. tins at 1s., 1s. 11d., and 3s. 8d.

COCOATINA IS THE BEST COCOA FOR INDIA, AND THE COLONIES.

THOMAS HUBBUCK & SON,

White Lead, Oil, Paint, & Varnish Works,
24 LIME ST., FENCHURCH ST., LONDON.

HUBBUCK'S PATENT WHITE ZINC PAINT.

By their process, which is patented, the Pure White Zinc Paint is the most durable and beautiful Paint for internal and external painting and does not stain or discolour with the London atmosphere, or in the neighbourhood of Gas and Chemical Works. In all climates it is superior to other Paint for the inside and outside of Houses, Ships, Lighthouses, Iron Roofing and Bridges.

EACH CASE OF PURE WHITE ZINC PAINT IS STAMPED:

"HUBBUCK, LONDON, PATENT."

ESTABLISHED 1765.

HUBBUCK'S PREPARED LIQUID PAINTS.

These Paints are packed in 1 lb., 2 lb., 3 lb., 4 lb., 7 lb and 14 lb. tins, and 28 lb. drums; and will be found of great advantage. Being mixed ready for immediate use, no further preparation needed.

HUBBUCK'S ANTI-CORROSIVE PAINTS.

The most valuable protection to Iron Roofs, Bridges, Piers, Ships, and Buildings exposed to stormy weather and scorching sun; they soon become extremely hard, do not blister, and are very durable.

HUBBUCK'S ANTI-OXIDATION COMPOSITION,

For coating iron and wood ships' bottoms; a preservative against fouling and corrosion.

HUBBUCK'S PALE BOILED LINSEED OIL,

Being much purer and paler than Raw Linseed Oil, is the only Boiled Oil that can be used for white and delicate coloured Paints. It dries quick and hard, never blisters, and is more durable.

HUBBUCK'S BINNACLE AND COLZA OILS,

Prepared expressly for Ships Lights, Lighthouses, &c.

HUBBUCK'S WHITE LEAD, COLOURS, OILS AND VARNISHES,

HUBBUCK'S PAINTS, OILS AND VARNISHES,

Are the best and therefore the cheapest. Beware of Counterfeits of their Name and Trade Mark.

CAUTION.

Since the successful introduction of Hubbuck's Pale Boiled Linseed Oil, some manufacturers and dealers are pirating this name and selling fraudulent imitations as "Pale Boiled Oil," "Improved Boiled Oil," "Clear Boiled Oil," &c. These imitations are not to be depended on, and only cause disappointment and loss.

FREEMAN'S

ORIGINAL

CHLORODYNE

Discovered and invented by **RICHARD FREEMAN** in 1844,
and introduced into India in 1850.

MAY BE ABSOLUTELY RELIED ON FOR THE TREATMENT OF

**DIARRHŒA, DYSENTERY, CHOLERA, FEVER, INFLUENZA,
AGUE, CRAMP, COLIC, NEURALGIA & DENGUE FEVER.**

INDIAN DISEASES AND THEIR TREATMENT BY FREEMAN'S CHLORODYNE.

FEVERS.—In that form of low Fever, the result of Miasma, and peculiar to many districts of India, Freeman's Chlorodyne is now used on a very large scale in preference to Quinine. In many cases of Fever, which prevail in India, especially in the Tea Districts, Freeman's Chlorodyne has proved immensely superior, in its curative powers, to Quinine, and experience seems to show that if given at the very commencement, it cuts short the Fever.

DIARRHŒA AND DYSENTERY.—These are two of the most common diseases in India, and it is well-known that if the former disease is at once checked, the probabilities are you have warded off the latter malady.

AS AN ASTRINGENT.—The effects of Freeman's Chlorodyne are most signal; in Diarrhœa, if given soon enough, it seldom fails to check the disease; in Dysentery it produces healthy evacuations, checking the passage of blood and mucus, while its Anodyne effects are shown by rapidly relieving pain, spasms, and tenesmus, supporting the system and keeping up the warmth of the surface and extremities of the body.

ASIATIC OR MALIGNANT CHOLERA.—In all stages of this epidemic malady, recent investigations by the most eminent scientists and medical Men in all countries prove Freeman's Chlorodyne to be the *only* known Specific. A separate paper specially drawn up by an Indian Army Surgeon, accompanies every bottle, from the smallest size to the larger or 'Tea-planters' bottles, which contain a pint, and are proportionally cheaper.

AS AN ANTISPASMODIC AND SEDATIVE FOR THE RELIEF OF PAIN, in Tic-doloureux, Sciatica, Cramp, Neuralgia, Colic, Gout, Tooth and Ear-ache, and all other forms of Nerve pain, its administration has been found to exercise most remarkable curative effects. The pain is at once relieved the nervous system is quieted, and sleep is produced without exciting the action of the heart or producing subsequent nervous headache.

ASTHMA.—As an antispasmodic for this malady it is a very valuable medicine. Shortly after taking it a feeling of comfort commences, and a tranquil composed state ensues, followed by the entire cessation of the distressing shortness of breath and difficulty of breathing and sleep.

In Colds, Influenza and Ague, Freeman's Chlorodyne is employed with much benefit. In Ague it frequently prevents an attack; or failing this reduces the violence of the fit to a minimum.

MANUFACTURED BY THE SOLE INVENTOR,

RICHARD FREEMAN, PHARMACIST,

70, KENNINGTON PARK ROAD, LONDON, S.E.

SOLD IN BOTTLES AT 12 ANNAS, Rs. 1/8; Rs. 2/8; Rs. 6; and Rs. 10.

CAUTION.—The Indian Public are respectfully requested to notice that **FREEMAN'S CHLORODYNE** is the **ORIGINAL** and **ONLY GENUINE**, and the extraordinary Medical Reports on its efficacy render it of vital importance that they should obtain the "**GENUINE**," which is only sold under the protection of the Government, authorising a Stamp bearing the words, "**FREEMAN'S ORIGINAL CHLORODYNE**," without which it is spurious.

Four Chancery Suits terminated in favour of **FREEMAN'S ORIGINAL CHLORODYNE** and, against J. Collis Browne and J. T. Davenport, Lord Chancellor Selborne, Lord Justice James, and Lord Justice Mellish, condemned their proceedings, and decreed them to pay all costs. Reports of the suits in "**Times**," January 12th and July 13th, 1864, and April 29th and July 24th, 1873, and "**British Medical Journal**," May 3rd, 1873.

ENGLISH AND CHINESE DICTIONARY,

WITH THE

PUNTI AND MANDARIN PRONUNCIATION.

PUBLISHED AT THE "DAILY PRESS" OFFICE, HONGKONG.

FOR scope and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given *in extenso*. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications.

The scope of the work is so great, and its utilitarian purposes so complete, that a reference to its pages enables a person who understands English to communicate *effectively* with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasionally.

It comprises upwards of two thousand large quarto pages.
